ANOTHER RATE HIKE BY RBI IN OCTOBER REVIEW LIKELY

CPI inflation at five-month low; IIP moderates to 12.3%

With a fall in global commodity prices, August inflation to be further lower than July's 6.71%

BANIKINKAR PATTANAYAK
New Delhi, August 12

RETAIL INFLATION DROPPED to a five-month low of 6.71% in July, offering respite to fiscal and monetary authorities as they strive hard to break the back of inflation. A fall in global commodity prices and the resultant taming of imported inflation, contributed to the easing of price pressures.

Of course, even with the moderation, inflation was still above the central bank's medium-term target of 2-6% for a seventh straight month.

Meanwhile, industrial output growth moderated to 12.3% in June from a year ago, compared with a 12-month high of 19.6% in May, as a favourable base effect started to wane, according to the official data released on Friday.

● N R NARAYANA MURTHY, CO-FOUNDER, INFOSYS

'Startup IPOs as financing rounds will end soon'

Q&A

N R Narayana Murthy, *who cofounded Infosys in 1981, was the first to begin the startup culture in the country. The company went on to become one of world's most admired technology firms. Today, India is brimming with a vibrant startup ecosystem that's growing much faster than Infosys did in its early days. But the market dynamics are entirely different. Murthy talks about the growth rate of startups, the different market conditions, and relevance of IT services, in an interview with* **Ayushman Baruah**. *Excerpts:*

It took Infosys 23 years to reach the billion-dollar revenue mark in FY04. Today startups are growing much faster?

I am very happy that today's startups are growing faster than we did. That is good for the country, its consumers, and our entrepreneurs. Congratulations to them on reaching a revenue of $1 billion much faster than we did. There are several reasons. The Indian software services industry was the first to introduce the concept of remote large software development in the world for the US, European, and Japanese corporations. Developing this market for the most advanced and most competitive markets took some time. It is very instructive to note that the second billion dollar of revenue for Infosys came just in 2 years while the first one took 23 years. Also, most of the unicorns and startups you are commenting upon capitalised mainly on converting in-person purchases to online purchases. The market already existed and was not developed by the startups. They just converted revenue from one channel of access to another. A third important point is that the Indian software services companies were very profitable even when they reached a revenue of $1 billion. For example, Infosys had a net income of $270 million on a revenue of $1.06 billion.

What would you have done differently if you had started Infosys in 2022?

Our vision was to become the most respected company in India. We put respect higher than revenues and profits. Of course, we knew being a respected company will result in better repeat business resulting in faster revenue growth, attracting good talent which would improve quality and productivity, and attracting high quality long-term investors. These good quality employees brought unparalleled business value to our customers from their innovation that resulted in better prices and higher margins. We were in several areas not just in India but the world. We were the first company to provide financial statements according the GAAPs (generally accepted accounting principles) of eight countries. We were the first-large scale software services company in the world to get certified at Level 5 of the Capability Maturity Model.

LIC Q1 net up multifold at ₹683cr

FE BUREAU
Kolkata, August 12

LIFE INSURANCE CORPORATION (LIC) on Friday reported a multi-fold increase in net profits to ₹682.88 crore for the quarter ending June compared to a profit of ₹2.94 crore in Q1 FY22. It may be recalled that business activity in the country had come to a virtual standstill in the June 2021 quarter during the second wave of the Covid-19 pandemic.

Seen sequentially, LIC's performance was less impressive as the insurer had posted profits of ₹2,371.55 crore in the three months to March.

The total income in the quarter stood at ₹1.68 trillion as against ₹1.54 trillion in the year-ago period, LIC said. The total income stood at ₹2.11 trillion in the March quarter.

The net premium income during Q1 FY23 at ₹98,351.76 crore was about 20% higher y-o-y. On a sequential basis the net premium was lower by about 32%.

The first-year premium for the reporting quarter came in at ₹7,429 crore as against ₹5,088 crore in the year-ago period, the insurer said in an exchange filing.

"The trajectory seems upwards for sure, and we are looking at increased business volumes as is evident in our market share in the year to date since January 2022," LIC chairperson MR Kumar said.

"The product mix is heavily tilted towards participating businesess. Changing this is a big task for us and we have already started," Kumar said.

Amit Burman paves way for cousin Mohit in Dabur rejig

Saket Burman to be vice-chairman

SHUBHRA TANDON
New Delhi, August 12

IN KEEPING WITH the family tradition, which has ensured a smooth transition in roles amongst family members for the last five generations, the non-executive chairman's mantle at Dabur India on Friday passed on to Mohit Burman from his cousin Amit. Mohit was hitherto to the non-executive vice-chairman of the company.

The new non-executive vice chairman of the company will be Saket Burman. The appointments are for a period of five years. The Dabur family has basically two wings and the practice is that if a member of one wing holds the chairman's position, the vice-chairman's slot will go to a member of the other wing. The vice-chairman later takes over as chairman. Anand, Mohit and Gaurav are part of one wing of the family, while the other consists of, Amit, Saket, and Chetan.

Till now, Amit was the chairman and Mohit the vice-chairman. Now, Mohit takes over as chairman and Saket from the other wing takes over as vice - chairman.

New Dabur chairman

In addition, to the chairman and vice-chairman, two other family members are directors on the board of the company, so at any given time four family members serve on the board. Accordingly, Amit will now be a director. The Burman family members are present in non-executive capacity on the board and do not participate in the day-to-day functioning of the company.

The Burman family is among the pioneers in forming a family council which decides on all such matters and has never seen any friction. The Brijmohan Lall Munjal family of the Hero Group also has a family council and has managed its functioning without any family squabbles.

Dabur India posted a flat year-on-year growth in its consolidated net profit to ₹440 crore for the first quarter ended June 30, 2022.

TRAVEL COMPANIES, HOTELS DOING BRISK BUSINESS

Quick getaways is the flavour of weekend freedom

KUNAL DOLEY, VAISHALI DAR & VARUN SINGH
New Delhi, August 12

SHORT-HAUL TRIPS WITH friends and relatives seems to be the agenda of many this long weekend, as travel sees a surge. Road trips, domestic destinations and nearby foreign locales are what travellers are opting for to take a break from work.

As Sanjay Kumar, chief strategy and revenue office, IndiGo, told *FE*, "People are heading to destinations like Goa, Cochin, Trivandrum, Srinagar and Agra to meet families and relatives due to the festivities and long weekend. Fares have been nominal despite good demand as people chose to book in advance." A Vistara spokesperson said they have seen an uptick in bookings across their entire network.

Travel companies have dealt with double the normal demand and most hotels in locations close to metros are fully booked. "Our consumer data reveals over 66% respondents prefer domestic locales, while 34% were open to short-haul international options," said Rajeev Kale, president and country head, holidays, MICE (meetings, incentives, conferencing, and exhibitions), visa - Thomas Cook (India). SOTC Travel, too, has seen 2x surge in demand from customers. "Despite increased airfares, we have seen a significant uptick in demand for travel, with families and groups of friends booking holidays," said Daniel D'Souza, president and country head, holidays, SOTC Travel.

Top destinations for SOTC's customers are Kashmir, Shimla, Ladakh, Himachal Pradesh and Andaman. "Our consumer data indicates high demand for outdoor and adventure travel with biking trips, hiking, camping and domestic cruises," added D'Souza.

Online travel company Yatra observed an uptick in demand and queries for premium accommodation options, mostly 4- and 5-star properties, said Aditya Gupta, senior vice-president, hotels and holidays, Yatra.com.

Similarly, online travel company EaseMyTrip observed high booking trends. "We have 40-50% more bookings on flights and hotels for the August 11-15 weekend. People are opting to utilise this long weekend for relaxing and having fun with their loved ones. The top five locations where EaseMyTrip is experiencing strong bookings include Goa, Rajasthan, Himachal Pradesh, Coorg and Kerala, all thanks to the monsoon," said Rikant Pittie, co-founder of EaseMyTrip.

Meanwhile, hotel occupancy is also at a high this weekend. All the 313 rooms at the Westin Gurgaon are sold out, said Rahul Puri, general manager for The Westin Gurgaon and The Westin Sohna Resort and Spa, which is also fully booked for the weekend. Kush Kapoor, CEO of Roseate Hotels & Resorts, said for the long weekend, they have registered 20-30% growth in bookings for The Roseate Ganges property. PRICE PRESSURE MAY STAY AT THE SAME LEVEL IN AUGUST

Q2 inflation may undershoot RBI target of 7.1%: Economists

BANIKINKAR PATTANAYAK
New Delhi, August 12

A MODERATION IN global commodity prices, on top of a raft of supply-side measures and monetary tightening, weighed down retail inflation to a five-month low of 6.71% in July, amid expectations that price pressure may remain around this level in August, despite a waning favourable base effect.

This means inflation, based on the consumer price index (CPI), will likely undershoot the central bank's 7.1% forecast for the second quarter unless the easing commodity price trend reverses dramatically, some analysts said.

Retail inflation in July dropped below 7% after a gap of three months, as price pressure in the core and food segments decelerated, offsetting a rise in inflation in the fuel and power segment.

Aditi Nayar, chief economist at Icra, said, "Given the base effect, we caution that the next two CPI inflation prints could rise slightly from the 6.7% seen in July, in spite of which we believe that the average inflation for the ongoing quarter will modestly trail the MPC's projection of 7.1%."

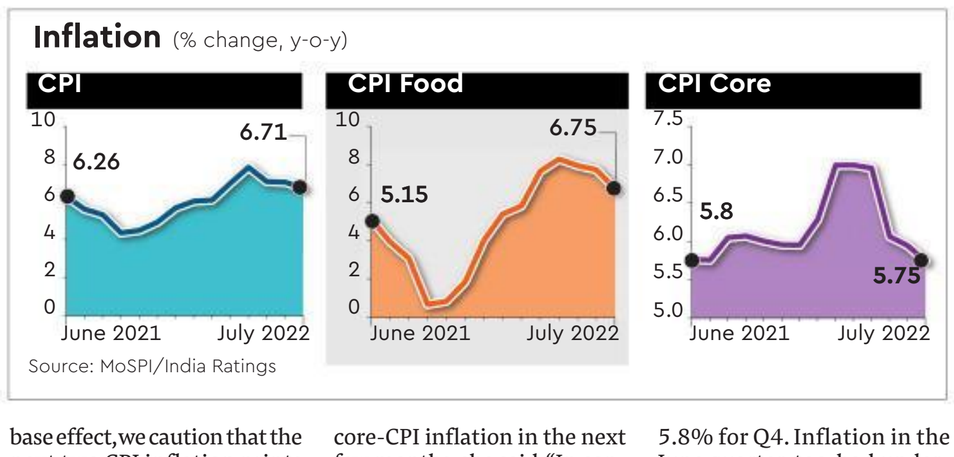
Fears of a global recession and fresh geopolitical uncertainties have led to a correction in commodity prices from the peaks seen in mid-June, which bodes well for easing domestic input cost pressures and the core-CPI inflation in the next few months, she said. "In contrast, the robust domestic demand for services poses risks, given its significant share in the CPI basket (services: +23.4%), and hence, remains a key monitorable, along with the significant lag in kharif sowing of rice," Nayar said.

Earlier this month, the central bank retained its full-year CPI inflation forecast at 6.7%. It projected inflation at 7.1% for Q2, 6.4% for Q3 and 5.8% for Q4. Inflation in the June quarter, too, had undershot the central bank's projection by 20 basis points and settled at 7.3%.

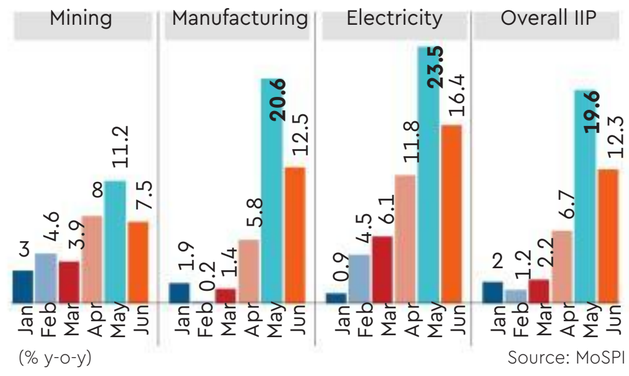
Economists at India Ratings said, "Cooling of global crude prices lately is being felt on inflation in the transport and communications segment (135-basis point decline in July over June), but weak currency is limiting its impact on domestic inflation. Inflation of miscellaneous group (mainly services, second highest weight after food in CPI basket) has fallen below 6% after a gap of 25 months." However, base effect will remain unfavourable until October and continue to exert pressure on inflation, they said.

Crisil chief economist DK Joshi said the gradual easing of inflation suggests there remains some pressure across major categories despite the recent fall in global prices, and benefits from the government's tax cuts on certain items.

"Food inflation faces risks from lower rice sowing, tight wheat supplies, and elevated input costs. Cost pressures have eased for producers with the recent fall in international commodity prices; they are expected to increase passthrough of these pressures to retail prices with recovering demand. The RBI's latest surveys of manufacturing and services firms corroborate this," Joshi said.



IIP logs decent growth over pre-Covid level



FE BUREAU
New Delhi, August 12

THE INDEX OF industrial production (IIP) exceeded the pre-pandemic level (same month in 2019) by 6.7% in June, way above 1.7% in the previous month, mirroring improving demand conditions.

This suggests that despite a slowdown in IIP growth in June to 12.3% (year-on-year) from a 12-month high of 19.6% in May, driven by the normalisaiton of a conducive base effect, industrial recovery hasn't lost pace.

Crisil chief economist DK Joshi said: "Manufacturing output showed healthy growth in June and supported overall IIP activity. This reflects improving demand conditions and easing of supply-side challenges."

Despite a slowdown in IIP growth in June to 12.3% y-o-y from a 12-month high of 19.6% in May, industrial recovery may not have lost pace

Manufacturing activities have already scaled an eight-month peak in July, according to the PMI data, as new order intakes rose substantially. Of course, a waning base effect, among other factors, could still weigh down the IIP growth to a single digit for July.

Aditi Nayar, chief economist at Icra, said: "Given the moderation in the year-on-year performance recorded by most high frequency indicators in July 2022, such as electricity generation, non-oil exports etc., we expect the IIP growth to ease to high single digits in that month."

Economists at India Ratings said, "The healthy growth in capital and infrastructure goods is encouraging, signalling revival in investment activity on the back of capex push by the union government (Government capex in 1QFY23 grew 57.01% y-o-y)." The consumer non-durables sector is expected to witness a moderate recovery going forward, depending on the progress of monsoon, they said.

"The rebound in this segment is important for a durable and sustained industrial recovery which so far has been witnessing a K-shaped recovery (tepid growth in consumer non-durables and high growth in consumer durables segment)," they added. The economists expected the IIP to clock a year-on-year expansion of 7%-9% in July.

Importantly, capital goods and consumer durables maintained decent growth in June, having jumped by as much as 26.1% and 23.8%, respectively, despite a sequential slowdown due to the base effect. However, at just 2.9%, the growth in the non-durables suggests rural consumption is still bruised.

Food & beverages inflation softens in July

SANDIP DAS
New Delhi, August 12

INFLATION IN FOOD and beverages in July declined to 6.71% from 7.56% reported in June, thanks to improved domestic supplies and moderation in global prices of edible oil. It was 7.84% in May.

However a clutch of items like tomato, potato, wheat, edible oil and mango saw sharp price increases in July. Inflation in potato and tomato rose 33.86% and 44.22%, respectively in July; onion price inflation was down 20.56% on year.

Due to improvement in supplies because of robust production prospects following adequate monsoon rainfall in the key growing states of Madhya Pradesh, Maharashtra, Andhra Pradesh and Karnataka, tomato prices have declined in recent weeks.

Tomato inflation was 158.78% in June. Lemon price rose 18.05% in July.

Potato output in the 2021-22 crop year (July-June) has declined to 53.6 million tonne (mt) from a record 56.1 mt in 2020-21. Similarly, tomato output has declined to 20.30 mt in 2021-22 from a record 21.18 mt in the previous year.

Negative onion inflation in July was due to a bumper output of 31.12 mt in the 2021-22 crop year, against 26.64 mt in 2020-21. Carbohydrates have been recording higher inflation than certain protein items since the past few months.

Inflation in cereals was 6.9% in July up from 5.66% in June, compared with 0.18% for pulses and (-) 3.48% for eggs. Wheat prices rose 11.66%.

Chicken prices rose moderately by 2.28% in July against 19.42% in June, while the overall food inflation in the meat and fish category was 3%. Mango prices rose 35.38%.

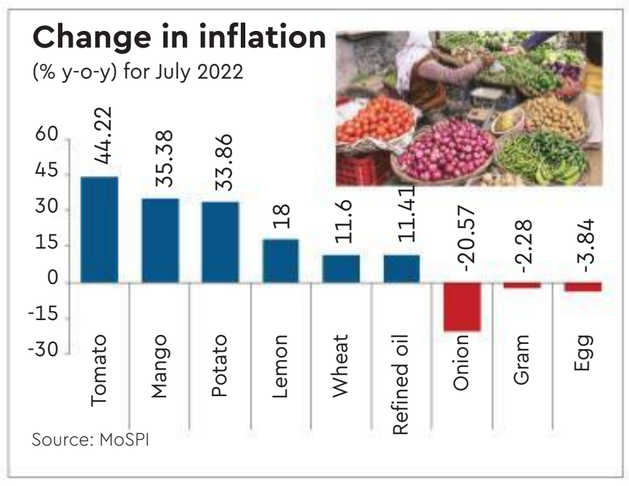
The edible oil and fat category saw inflation at 7.5% in July, while it was 9.36% in June, mostly owing to sharp spikes in domestic prices of edible oil in the last one year.

For mustard oil, inflation was 5% in July. Inflation in refined oil (sunflower, soybean and palm) was 11.41% because of a rise in global prices of edible oil, pushing up domestic prices. However, global prices of edible oils such palm and soybean oil have declined over 30% in the last one month and retails prices are expected to soften further.

India imports 56% of its edible oil requirements.

Earlier this month, edible oil manufacturers, including Adani Wilmar, Emami Agrotech and Ruchi Soya, had in principle agreed to cut prices, in a meeting with the food ministry.

In the last six weeks, the landed prices of palm oil, which has a share of more than 60% in India's import basket, has declined more than 14% from the levels prevailing a month ago. Similarly, the landed cost of crude soybean and sunflower oils declined 4% and 14% respectively.



Trade deficit nearly triples to record $30 bn in July

FE BUREAU
New Delhi, August 12

TRADE DEFICIT ALMOST tripled to a record $30 billion in July from a year before, as a surge in imports, driven by elevated global commodity prices, continued unabated, while export growth lost pace, albeit on an unfavourable base.

According to data released by the commerce ministry on Friday, merchandise exports rose just 2.1% on-year in July to $36.3 billion, while imports jumped 43.6% to $66.3 billion. Sequentially, exports in July fell 9.5% from June.

However, India's trade deficit may narrow a tad in August, easing concerns on the current account deficit (CAD), albeit to a limited extent. This is because the windfall tax on exports of certain petroleum products has been cut and the government directive on mandatory coal imports by power generators (gencos) has been relaxed, official sources and analysts recently told *FE*.

Nevertheless, CAD will likely more than double to 3-3.3% in FY23 from 1.2% in FY22, according to analysts. Of course, financing the CAD isn't going to be much of a worry for the government. Moreover, if the easing global prices of commodities, especially of oil, continues amid a global demand slowdown, the trade deficit, the biggest component of the CAD, may drop more than expected.

In the first four months of this fiscal, exports grew 20.1% to $157.4 billion, while imports jumped 48.1% to $256.4 billion, leading to a deficit of $99 billion. Elevated prices of crude oil, coal and fertiliser in the wake of the Ukraine war has inflated India's import bill.

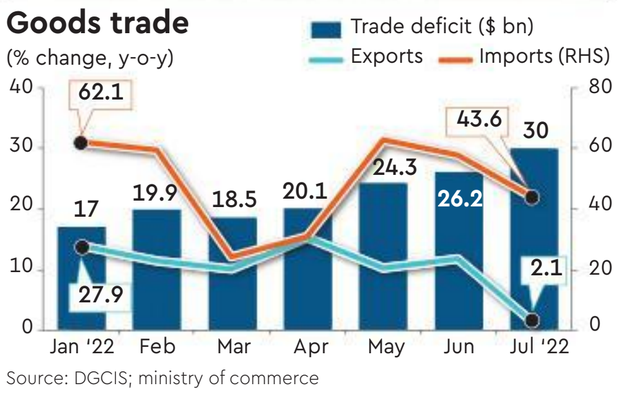
Amid a demand slowdown in key markets (US and EU), exporters and policy makers are pinning hopes on a diversion of orders from Covid-hit China.

Briefing reporters earlier this month, commerce secretary BVR Subrahmanyam had said the export curbs on a range of products in recent months — including elevated export duties on select steel products and iron ore, a windfall tax on petroleum products and restrictions on wheat exports — dragged down growth in outbound despatches of goods. "These were necessary steps to rein in domestic inflation, but these also contributed to the static exports in July," he had said. Supply chain disruptions in the wake of the Ukraine war and the interest rate tightening by key central banks played their part, too.

Importantly, exports of petroleum products rose just 9% on-year in July to $6.4 billion; such exports had grown by 119% in June. Sequentially, they crashed by about a fourth in July from the June level, reflecting the impact of the windfall tax that was introduced from July 1, the data showed.

Similarly, exports of iron ore crashed by 94% on-year in July. The government had on May 22 raised the export duty on iron ore to 50% from 30%.

A Sakthivel, president of the apex exporters' body FIEO, said imports growth of about 44% in July is a matter of concern. "However, demand for low price products are on the rise and buyers are moving from China. These two factors are very positive for India," he added.



10 states get ₹31,524-cr special capex support

PRASANTA SAHU
New Delhi, August 12

THE CENTRE HAS sanctioned ₹31,524 crore, or 39% of the unconditional component of the interest-free 50-year capex loans, to 10 states till July in the current financial year.

The beneficiary states so far are Uttar Pradesh, Karnataka, Maharashtra, Bihar, Chhattisgarh, Goa, Manipur, Nagaland, Sikkim and Himachal Pradesh. Most of the approvals were for ongoing projects and clearing pending capex bills, as well as some new projects.

The Centre launched an expanded scheme of ₹1 trillion for FY23 to help states maintain capex, considering a request from states, since the end of the goods and services tax (GST) compensation could have resulted in states junking capex projects in the absence of funds.

Of this, ₹80,000 crore would be released proportionately to the states' share in the devolution of central taxes and for projects solely based on their viability. The release of the balance ₹20,000 crore is linked to infrastructure connectivity projects such as laying of optical fibre cables for last-mile connectivity under BharatNet in rural areas, the state component of the PM Gram Sadak Yojana, projects under the GatiShakti master plan and urban sector reforms.

The beneficiary states so far are Uttar Pradesh, Karnataka, Maharashtra, Bihar, Chhattisgarh, Goa, Manipur, Nagaland, Sikkim and Himachal Pradesh

The conditional capex loans are expected to be utilised in H2FY23 after the assessment of the states' proposals by administrative ministries. The central government is keen that the entire loan funds are invested in asset-creating projects within the current financial year, giving a fillip to capital formation.

The combined capex of 20 states whose finances were reviewed by FE was down 9% on-year to ₹55,057 crore in the June quarter. These states, which represent roughly 80% of the country's gross domestic product (GDP), had reported a whopping 118% capex growth in Q1FY22, partly aided by a favourable base.

Given the challenging fiscal environment faced by the states due to the Covid-19 pandemic, the Centre had launched a scheme for special capital expenditure support to states in FY21 by disbursing ₹11,830 crore in 50-year interest-free loans and another ₹14,186 crore in FY22.

FROM THE FRONT PAGE

CPI inflation at five-month low; IIP moderates to 12.3%

The growth may drop further in July to a high single-digit level, as the conducive base effect normalises. Nevertheless, they still reflect underlying momentum, as industrial output exceeded the pre-Covid level (same month in 2019) by a decent 6.7%.

Analysts and senior government functionaries said inflationary pressure may stay aroud the same level in August, as global commodity prices, especially of oil and fertiliser, started to ease this month, offsetting the base effect. Normal monsoon showers brighten the prospects of farm production, although a drop in paddy sowing may cause some concern. This means inflation may undershoot the central bank's projection of 7.1% for the September quarter unless commodity prices flare up again.

However, analysts still expect the central bank to go for a fourth round of rate hike this fiscal in its October review, possibly by 20-40 basis points, given its focus on breaking the back of inflation.

Moreover, any such drop in price pressure will likely be only gradual and not steep, as an on-going pass-through of the spurt in input costs to output prices could keep pressure on headline inflation. A weak rupee, too, will weigh on imported inflation. As such, wholesale price inflation in June eased from May's over 30-year high but still remained stubbornly elevated at 15.18%, indicating that the pass-through is far from over.

A moderation in food inflation to 6.75% in July from 7.75% in the previous month offset the impact of elevated price pressure in the fuel and light segment. This is despite the fact that grain inflation exceeded 6% after 23 months, partly mirroring a 11% rise in wheat prices.

Core retail inflation eased to 5.75% in July from 5.95% in June. With this, it has remained above the 5%-mark for 26 consecutive months, according to an India Ratings estimate.

LIC Q1 net up multifold at ₹683 crore

Kumar added that with the stock market not doing well, LIC had refrained from too much profit booking. "Our equity investment has gone up by ₹41,000 crore, we did make some purchases in the periods when markets were down," Kumar said.

The chairperson observed that death claims had come down by about 19% year-on-year during the period. The LIC stock was 0.03 % down at ₹682.15 on the BSE on Friday. The insurer listed on the exchanges at a price of ₹865 in May this year, a discount to the IPO price of ₹949.

LIC sold 36.91 lakh policies in the individual segment in Q1 FY23, an increase of 59.52% y-o-y. The solvency margin for the quarter ended June was 188.54 against 173.34 for the year ago period, the chairperson said.

Analysts have observed that LIC is looking to increase its share of high-margin non-participating, pure protection products which currently account for about 5-6% of the portfolio. However, they believe scaling up beyond a certain level could be a challenge since LIC's agents have been used to pushing products that leave policyholders a significant share of their surplus.

The consolidated revenue from operations increased 8.1% y-o-y to ₹2,822 crore with an underlying volume growth of 5% in the India FMCG business. The June quarter revenue growth, at 10.3% on constant currency basis, came on a high base of 32% in the same quarter last year.

The Ebitda (earnings before interest, tax, depreciation and amortisation) declined 1.4% y-o-y to ₹544 crore, while the operating margins fell 180 basis points y-o-y to 19.3%.

RAMIFICATIONS LIKELY FOR FOOD INFLATION

Kharif crop sowing down, 12.3% fall in paddy sowing

Rice output to be hit, moderate dip in pulses production

SANDIP DAS
New Delhi, August 12

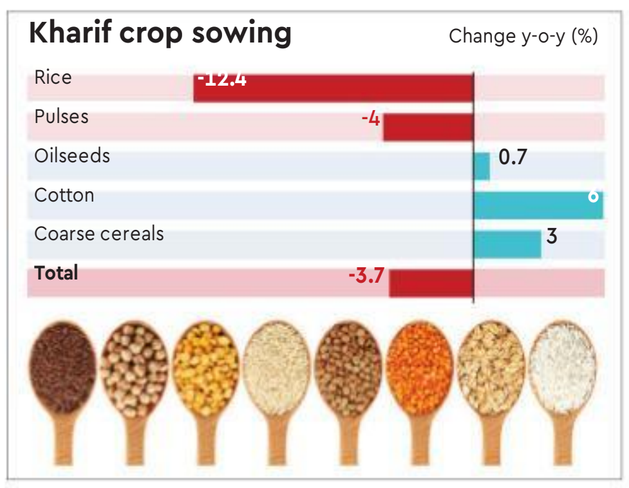
AFTER CONSISTENTLY SETTING new records for six years in a row, India's kharif foodgrain production is likely to witness a significant fall in the current year, owing to a big drop in paddy sowing area and marginal decline in area under pulses.

As of Friday, sowing of summer crops was 3.7% below the year-ago level, with the fall in paddy area being 12.3%. Area under paddy in West Bengal, the largest rice-producing state, was down 31% on year.

Paddy sowing has been hit mainly because of severe deficiency in monsoon rainfall against the benchmark in key states — Uttar Pradesh (-44%), Bihar (-38%) and West Bengal (-21%).

Lower paddy sowing has raised concern about rice production for the 2022-23 crop year (July-June) which would decline by at least 10 million tonne (MT) less than last year's record level of 129 MT, according to trade estimate.

There are also concerns about a possible rise in prices of rice if kharif production declines as the season accounts for around 80% of the country's rice production. This could have ramifications for already-elevated food inflation, which has shown some signs of easing of late, thanks to cooling global prices of edible oils and cereals.



According to agriculture ministry data released on Friday, overall paddy sowing area across the country was reported at 30.9 MH which was 12.4% less than year ago. Area under paddy sowing in West Bengal, the biggest rice producing state, was 2.4 million hectare (MH) till Friday, which was 31% less than the same period last year.

West Bengal produced 16.6 MT of rice, more than 13% of the country's total grain production of 122.2 MT in the 2020-21 crop year.

Other key producing states which have reported less area under paddy sowing compared to previous year include Chhattisgarh (0.1 MH), Bihar (0.4 MH), Uttar Pradesh (0.3 MH), Odisha (0.4 MH) and Jharkhand (1.1 MH).

However, amongst the key producing states Punjab and Andhra Pradesh have reported marginally higher areas under paddy so far compared to previous year. There are concerns about rice stocks with the Food Corporation of India (FCI) depleting to a 10-year low level by April, 2023 year, if the free ration scheme is extended to the second half of the financial year.

The government may have to impose some curbs on rice exports — though minimum export price or an export tax — if the scheme is extended. At present, however, the FCI has comfortable rice stocks of around 30.3 MT against buffer norm for July of 13.5 MT, excluding 14.4 MT of rice yet to be supplied by mills to FCI.

Kharif crops are sown in 108 MH and planting activities are expected to continue till the third week of August.

While oilseeds such as soyabean and groundnut have been sown in 18 MH which is marginally less than last year. Pulses have been sown in 4% less area than last year.

India imports about 56% of its edible oil requirement while around 15% of domestic pulses consumption is met through imports.

The cotton sowing has been up by 6% so far while sugarcane planting has been marginally higher than last year. The cumulative rainfall received during June 1-August 12 was 597 mm, which was 8% more than the benchmark (above normal level) of 552 mm for the same period.

1st phase of Delhi-Meerut RRTS to open in March

SURYA SARATHI RAY
New Delhi, August 12

THE FIRST PHASE of India's first-ever regional rapid transit system (RRTS) connecting an 82-km stretch between Delhi and Meerut will be operational by March next year. This phase is a 17-km stretch connecting Sahibabad to Duhai in Uttar Pradesh.

"We have already started the test run with one train. We were given the target of operationalising the first phase by June 2023, but we are preponing it to March next year. The entire 82-km corridor will be operational by 2025," said Vinay Kumar Singh, MD, NCRTC.

Singh said including the Meerut metro project, it would require around ₹30,000 crore investment for the entire corridor and funds have been tied up. Around ₹10,000 crore has already been gone into the project as work is going on across the entire stretch.

While Asian Development Bank is providing $one billion loan; Asian Infrastructure Investment Bank and New Development Bank have provided $500 million each loan facility for the Delhi-Ghaziabad-Meerut corridor. An agreement has also been signed with Alstom India for the supply of 30 trains for the RRTS corridor and 10 trains for the Meerut metro project.

Mango exports to US resume after 2-year gap

SANDIP DAS
New Delhi, August 12

INDIA RESUMED MANGO exports to the US after a pandemic-induced two-year gap. More than 1,000 tonne of alphonso, kesar and other varieties of mangoes have been shipped recently, trade sources said.

India also exported mangoes to Japan for the first time while shipment to South Korea resumed after two years too.

Officials told FE that in the current year, alphonso and kesar mangoes from India have been sold in the US market at a premium of $9 and $7 per kg, respectively, compared to $3 to $4 a kg realised from mangoes sourced from other countries.

The exports of mangoes were halted in 2020 and 2021 as inspectors from the US department of agriculture (USDA) could not visit India for inspection of irradiation facilities due to travel restrictions because of Covid19.

Mangoes exported to the US undergo an irradiation process, where fruit is exposed to gamma radiation, which kills insects or pesticides inside the fruit.

Agricultural and Processed Food Products Development Authority (Apeda) is aiming to increase India's presence in the US mango market, which is mostly dominated by countries such as Peru, Brazil and Venezuela. Following a phytosanitary framework agreement signed between the agriculture ministry and the USDA's animal and plant health inspection service earlier this year, mango exports from three irradiation facilities at Vashi (Navi Mumbai), Nasik and Bengaluru have commenced. Apeda organised a series of mango promotion programme in Dubai, Bahrain, Denmark, San Francisco, Turkey, Afghanistan and Germany. India has commenced exports of mangoes to Japan through a shipment of around 50 tonne.

Apeda in collaboration with the Indian embassy in Japan held a mango promotion programme at supermarkets in Japan.

Similarly, mango exports to South Korea also commenced this season after a gap of two years. A Malaysian delegation has inspected the irradiation facilities in Mumbai, Nashik and Bengaluru, and assured imports of mango varieties such as alphonso, kera and banganpalli from the next season.

Apeda organised a mango festival in Bahrain where 34 varieties of mangoes from eastern states, including West Bengal, Bihar, Jharkhand and Odisha, were displayed at Bahrain's Al Jazira group supermarket Stating that India has received market access from Argentina for mango exports, M Anganmuthu, chairman, Apeda, said "our thrust has been to export various unique varieties of mangoes sourced from various states to more than 50 countries".

India is the world's largest producer of mangoes, followed by China.

However, it exports less than 1% mainly because of lack of sea container protocol and air freights are expensive. Uniqueness of Indian mangoes is its sweetness and smaller size. In 2021-22, the United Arab Emirates (44%), United Kingdom (22%), Qatar (7%), Oman (6%) and Kuwait (5%) had 84% share in the India's value of fresh mango exports.

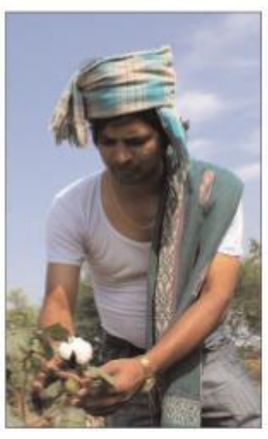
Cotton prices may remain high till Oct

NAYAN DAVE
Ahmedabad, August 12

THOUGH PROGRESSIVE COTTON sowing in India has crossed last year's 12-million-hectare mark till now this season, prices are still hovering around ₹91,000 to ₹96,000 per candy (356 kg per candy) and it is unlikely to subside till fresh cotton crop hits the market in October.

Earlier this year, cotton prices soared up to ₹110,000 per candy due to overall demand from the textile sector. Exactly a month ago, cotton prices dipped to ₹80,000 to ₹85,000 per candy due to declining demand. However, limited availability of cotton in the market has once again raised prices, said Avdhesh Sejpal, president of All India Cotton, Cotton Seeds and Cotton Cake Brokers Association. Sejpal claimed that despite increased acreage of cotton across the country, prices are unlikely to go below ₹70,000 per candy even after fresh cotton arrival post-Diwali as cotton crop output in the US and China is likely to remain low.

Apart from this, the Cotton Corporation of India (CCI) has not been able to purchase much cotton as farmers are preferring to sell their yield in the open market as they fetch higher than MSP prices. Hence, there would be extremely low carry forward stock for the upcoming cotton season, he added. Cotton Association of India (CAI) president Atul Ganatra said that looking at the lower rates of December futures (103 cents) at the US-based Intercontinental Exchange (ICE), Indian cotton rates would come down to ₹62,000 to ₹67,000 per candy around December.



"Cotton sowing in India has reached 12.2 million hectare so far. Current crop condition is good. It means there would be bumper cotton crop provided there is no excessive rain in coming days," said Ganatra. Experts of cotton trade, including Ganatra, firmly believe that cotton prices during 2021-22 season were artificially inflated in the Indian market considering international cotton rates. They said that even the current rate of cotton is much higher despite lower demand for the commodity as a result of speculative activities.

Interestingly spinning mills in the country are still buying in smaller quantities as there is some demand in the domestic market, said Gautam Dhamsania, secretary of Spinners Association of Gujarat (SAG), adding, "Of the 120-odd spinning mills in Gujarat, 15 have shut operations till the fresh arrival of cotton. Others are functioning at 30 to 35% capacity. There is negligible export demand for cotton yarn. Hence, spinners are operating as per their current orders."

Dhamsania said that fresh cotton crops in Pakistan and Turkey have started coming into the market, but the global textile industry is waiting for cotton harvest in India, China and the US which would decide international prices the coming months. "Maharashtra, Punjab, Haryana, Rajasthan, Madhya Pradesh, Karnataka, Andhra Pradesh, Telangana and Tamil Nadu are the major cotton producing states in India apart from Gujarat. Acreage under cotton cultivation in Maharashtra has exceeded 4 million hectare. In Gujarat, cotton sowing may touch 2.7 million hectare.

In North and South Indian states, acreage under cotton cultivation is nearly 1.5 million hectare and 4 million hectare, respectively.

No GST on renting of residential units for personal use

GOODS AND SERVICES TAX (GST) will not be applicable on residential units, which are rented out to private persons for personal use, the finance ministry said on Friday.

Dismissing reports which claimed that 18% GST would be levied on house rent paid by all types of tenants, the Union finance ministry tweeted that GST would be levied only when the residential unit is rented out to a GST-registered business entity. "No GST when it is rented to a private person for personal use. No GST even if proprietor or partner of firm rents residence for personal use," the ministry said. Renting of residential units till July 17 was exempt from GST for all types of tenants. The GST Council had decided in its last meeting in June that a tenant who is registered will become liable to GST on renting for residential purposes under the reverse charge mechanism.

IMPROVED SEMICONDUCTOR SUPPLIES IN JULY

PV wholesales rise 11% on production boost

Two-wheeler volumes rose 9.61% y-o-y to 1,381,303 units in July, showed Siam data

FE BUREAU
New Delhi, August 12

THE PASSENGER VEHICLE (PV) segment remained in the fast lane in July, helped by a rise in production which was boosted by improved semiconductor supplies during the month.

The two-wheeler segment also witnessed better volumes as the original equipment manufacturers (OEMs) despatched more vehicles ahead of the commencement of the festive season.

PV wholesales increased 11.13% year-on-year (y-o-y) to 293,865 units, data released by the Society of Indian Automobile Manufacturers (Siam) on Friday showed. The growth in PV volumes came on the back of their production rising 7.65% in July, compared with the same month in 2021.

The two-wheeler volumes rose 9.61% y-o-y to 1,381,303 units in July. Sequentially, there was a growth of 5.54% from 1,308,764 units despatched in June.

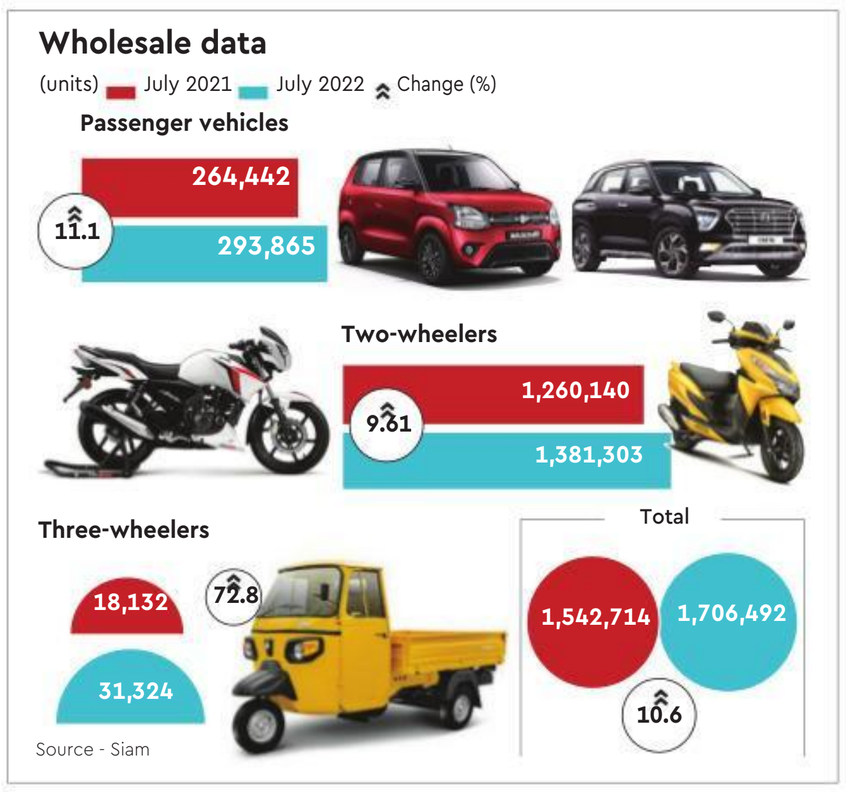
According to sector experts, the OEMs are despatching more two-wheelers to the dealerships expecting that sales will improve during the festive season.

The three-wheeler segment also recorded a growth of 72.75% y-o-y to 31,324 units from 18,132 units despatched in the year-ago month.

However, Rajesh Menon, director-general, Siam, said the market for entry-level passenger cars, two-wheelers and three-wheelers is yet to recover. "Sales of two-wheelers in July 2022 are still below July 2016 numbers and sales of three-wheelers are still below July 2006 numbers. The third hike in a repo rate in a row, to rein in high inflation, will make auto loans costlier, making it more difficult for entry-level vehicles to recover," he said.

The recent hike in repo rate by RBI, sector experts say, could impact the sales of vehicles, particularly two-wheelers.

"Siam would like to thank the government for the recent decision to allocate a higher amount of domestic gas for the CNG segment. This would significantly bring down the input cost of gas companies. We hope, that in line with the government's intent, the gas companies would pass on the entire benefit to the end consumers by reducing retail CNG prices," he added.



Two-wheeler retail sales still a concern, say dealers

VARUN SINGH
New Delhi, August 12

EVEN AS THE wholesale despatches of two-wheelers made significant recovery in July, their retail sales are still a cause of concern, multiple dealers told *FE*.

The data shared on Friday by the Society of Indian Automobile Manufacturers (Siam), the body representing vehicle manufacturers, showed that two-wheeler volumes rose 9.61% y-o-y to 1,381,303 units in July.

However, the retail sales of two-wheelers declined 10.92% y-o-y to 1,009,574 units during the month, according to the automobile dealers' body, Federation of Automobile Dealers Associations (Fada).

Though the original equipment manufacturers (OEMs) are despatching more vehicles in the expectation that sales would improve during the festive season, the dealers said the retail sales are not particularly "healthy".

The entry-level segment, which constitutes 70-75% of the total two-wheeler sales, is facing headwinds due to relatively higher ownership costs. The OEMs have hiked vehicle prices on at least two occasions this year alone owing to rising input costs. The high gasoline prices have also dampened demand.

While the inventory build-up at dealerships usually started from August end in the past, it began as early as June this year. *FE* reported in June that a large section of two-wheeler dealers had asked OEMs to put a complete stop to monthly despatches by cutting down production, as inventory levels soared to around 60 days due to the continuing weak retail sales.

Many dealers *FE* spoke to said that they have an inventory of nearly five weeks. Normal inventory available should be of around 15 days and ideally not cross 30 days, they added.

The sector experts further said the festive season sales are usually 30% higher than any normal month. But the dealers still do not expect to touch the pre-Covid levels. Many among them are also expecting the OEMs to furnish more offers this festive season to boost sales as the dealer margins are limited.

See some short-term restructuring costs: Tata Consumer CEO

FE BUREAU
New Delhi, August 12

TATA CONSUMER PRODUCTS (TCPL) will see some short-term costs on account of its restructuring, but would create an efficient and effective business in the long run, MD and CEO Sunil D'Souza said in an analyst call after the earnings announcement for the June quarter.

TCPL is reorganising its businesses to simplify the structure and reduce the number of legal entities. This is in order to create focused verticals, enable faster execution, and unlock significant financial value.

As part of the exercise, the company is restructuring to combine Tata Coffee's business into Tata Consumer and its wholly-owned subsidiary and purchase a non-controlling interest in Tata Consumer UK Group through a preferential issue of equity shares.

During the year, TCPL announced the reorganisation plan with two key steps, which included composite scheme of arrangement with Tata Coffee and the purchase of non-controlling interest held by Tata Enterprises Overseas AG (TEO) in Tata Consumer Products UK Group Ltd (TCP UK) — its subsidiary in UK.

The composite scheme of arrangement includes the demerger of the company's plantation business, Tata Coffee into TCPL Beverages & Foods — a newly formed wholly-owned subsidiary of Tata Consumer. The second part of the restructuring includes the merger of the remaining business of TCL, comprising its extraction and branded coffee business, with TCPL.

Additionally, the company proposes to purchase by way of a share swap through a preferential issue of its equity shares. Currently, TCPL holds 89.85% of the share capital of TCP UK, and the balance 10.15% stake is held by TEO.

Through this transaction, the company intends to purchase this non-controlling interest and the purchase consideration is to be paid through the preferential allotment of shares of Tata Consumer to TEO, based on an independent valuation by a registered valuer and subject to other regulatory approvals.

In the past year, restructuring costs have risen because we had cut down layers in our teams..So, while long term you will derive synergies, there'll be some short-term restructuring costs to make sure the business is right-sized.

SUNIL D'SOUZA, MD & CEO, TATA CONSUMER

"In the past year, restructuring costs have risen because we had cut down layers in our teams. We acquired some of the businesses and rejigged the teams to make sure we are deriving synergies. So, while long term you will derive synergies, there will be some short-term restructuring costs to make sure the business is right-sized," D'Souza told analysts.

"The picture is yet to be played out in terms of Tata Coffee's Indian and international restructuring. We have still not executed fully, because we don't have full regulatory approvals. But I can assure you that this is to right-size, and make the business much more effective and efficient," D'Souza added.

Piramal Ent gets NCLT nod for demerger

FE BUREAU
Mumbai, August 12

PIRAMAL ENTERPRISES (PEL) has received approval from the National Company Law Tribunal (NCLT) for the proposed demerger of its pharmaceuticals business and simplification of the corporate structure. The approval paves the way towards creation of two separate listed entities such as PEL, an NBFC company, and Piramal Pharma (PPL).

In October 2021, the company's board had approved the demerger. Following this, it got consents from RBI, Sebi, the exchanges and clearance from shareholders. In July 2022, PEL also received an NBFC licence. "We are on track to achieve the completion of demerger and separate listing of Piramal Pharma by third quarter of the current financial year," PEL chairperson Ajay Piramal said.

"The demerger creates one of India's large-listed diversified NBFCs, with a loan book of nearly $9 billion. It will have a significant presence across both retail and wholesale financing, leveraging technology at its core. The pharma company will be a large listed entity in the pharma sector with revenues of nearly $1 billion," he added.

The demerged entities will have a greater focus and ability to pursue accelerated growth, resulting in likely improvement in their performance in coming years. In consideration of the demerger, shareholders of PEL will get four shares of PPL for every share in PEL, in addition to their existing holding in PEL.

The demerger follows the group's acquisition of DHFL for ₹34,250 crore, which was completed in September 2021.

Hero MotoCorp profit surges 71% to ₹625 cr on better volumes

FE BUREAU
New Delhi, August 12

HERO MOTOCORP, THE country's largest two-wheeler manufacturer, on Friday reported a 71% year-on-year (y-o-y) growth in its standalone net profit for the April-June quarter at ₹625 crore on relatively better volumes than those in the pandemic-hit year-ago quarter.

The company's revenue from operations jumped 53% y-o-y to ₹8,393 crore, while volumes increased 36% y-o-y to 1.39 million units.

Hero MotoCorp reported an operating margin of 11.21% against 9.38% in Q1FY22, a rise of 183 basis points, due to a combination of cost-saving measures, judicious price increases and premiumisation of the model line-up. The Ebitda (earnings before interest, tax, depreciation and amortisation) grew 83% y-o-y to ₹941 crore.

"The fiscal began on a positive note for the industry, with growth over not only last year but sequentially over Q4FY22 as well. While the macroeconomic environment globally is facing headwinds of inflation, the Indian economy is relatively better placed to move on the path to recovery and growth. Certain key indicators like GST collections, PMI, and consumer confidence index are all moving in the right direction," Niranjan Gupta, chief financial officer, Hero MotoCorp, said.

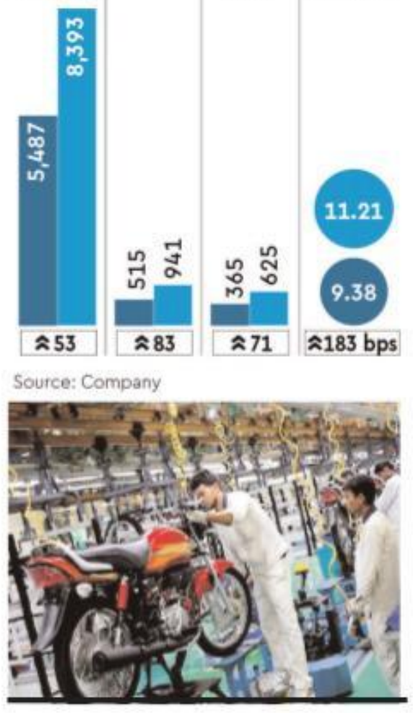
Gupta said with the country entering the festive season, the company expects the two-wheeler demand to be on a healthy trajectory supported by micro factors like normal monsoon, crop cycle, opening of all sectors of the economy, etc.

He added that the margin pressure on the industry is also likely to ease in the coming quarters as commodities cool off and price recovery moves ahead of cost impact.

Hero MotoCorp recently launched new products like Splendor XTEC, Glamour XTEC, Passion XTEC, and Destini XTEC. "These combined with the line-up of future launches should help the company in gaining market shares," Gupta said.

The company will launch its maiden electric two-wheeler this festive season.

Hero MotoCorp stock ended the day on the BSE at ₹2,760.90, down 0.88% from the previous close.



India Cements posts ₹76-crore profit; revenues at ₹1,446 crore

FE BUREAU
Chennai, August 12

INDIA CEMENTS ON Friday reported a standalone net profit of ₹76 crore for the first quarter of FY23 compared with ₹37 crore in the corresponding period of last fiscal, registering an increase of 105%. The surge was mainly due to recomputation of the deferred tax liability of ₹148 crore.

Revenue from operations rose by 41% to ₹1,446 crore from ₹1,022 crore, while total expenditure went up by 57% to ₹1,526 crore from ₹969 crore.

India Cements vice-chairman & MD N Srinivasan told mediapersons: "The spiralling increase in the cost of input materials continued during the quarter without corresponding increase in the selling price of cement resulting in a sub-optimal performance." The increase in power and fuel costs alone was more than 54%, while the overall increase in variable costs was around 40% with marginal savings in other items of raw materials and stores. "Since the power and fuel are the main cause, we could not do anything against the onslaught. It was an extraordinary situation," he said.

To offset the rising costs, Srinivasan said the company could go in for a price hike, but didn't mention the quantum.

Srinivasan further said the company would set aside ₹60-70 crore as capex for the completion of Sankarnagar cement plant modernisation, setting up waste heat recovery system, and for maintenance.

While variable costs went up significantly over previous year, the net plant realisation improved only marginally by 4% resulting in uncompensated cost increase.

R Parthasarathy, CMO, India Cements, said the company has sold more than 1 lakh tonne of CSK Cement in three months since the launch in March. Both CSK and HSK brands have been received well in the market.

SOCIAL COMMERCE APP Meesho is targeting to onboard 1.2 million sellers on its platform by the end of the current financial year, its supply growth CXO Lakshminarayan Swaminathan told *FE*.

The platform currently has 725,000 registered sellers. As of May, it had already increased its base to 600,000 sellers. A little above 50% of its sellers come from Tier 2 cities and beyond. The Facebook and SoftBank-backed company expects that split to remain the same going forward. But, with that, also come the challenges, Swaminathan said.

"We've barely scratched the surface in terms of our seller base, there is a lot more we need to capture. Over 50% of our sellers come from Tier 2 and beyond cities, they might not converse or comprehend in ways that sellers from big metro cities do so we need to think about what works for them, on a first principle basis. It will require some rewiring and other efforts and we're very comfortable doing that. We'll need to redo the plumbing and infrastructure in some form and we're happy to do that to get the next level of unlock," he said.

Furthering its regional push and enabling sellers, Meesho on Wednesday announced that its app will be available in eight regional languages. He added that there were multiple factors attracting sellers to the platform but there were two primary reasons: the company's plans to not launch its own label or products and a zero commission arrangement with its sellers.

The company generates its revenue from sellers who advertise on the platform. "Since we charge no commission, sellers can offer the best price to buyers. And we see these sellers are hungry for growth, they want to advertise on the platform and increase their sales. As we onboard more and more sellers, they're hungry to invest for growth and that becomes our revenue stream. We are also working on other ways for monetisation - they're in flight - but commissions will not be one of them," Swaminathan explained.

In FY21 — the latest available data — Meesho reported an operating revenue of ₹793 crore, up over 150% from FY20's ₹307 crore, but at the same time its total expenses skyrocketed by 104% to ₹1,337 crore, resulting in a loss of ₹498 crore in the financial year.

The platform boasts of having buyers across the country and "delivers to any place you can think of". The company claims to be clocking an average of 2.5 million daily orders, with the transacting user base increasing roughly 5.4X since March 2021, Swaminathan added.

Last year, Meesho recorded over 100 million transacting users, of which about 80% of the buyers came from non-metro cities.

Meesho recently forayed into the grocery segment, which it plans to scale. It also recently entered the sports and fitness and pet supplies segment, among others. Overall, apparel, home and kitchen and consumer electronics were the categories that witnessed the highest growth last year.

SUMIT DEB, CHAIRMAN & MD, NMDC

'Iron ore prices have bottomed out'

For the first time since April, state-run iron ore miner NMDC increased prices of fines on Thursday — ₹100/tonne on fines and ₹200/tonne for lump ore. CMD **Sumit Deb** *told* **Surya Sarathi Ray** *that the prices of the steel-making raw material may have bottomed out. Edited excerpts:*

Q&A

You have recently raised prices. Does it indicate the prices will go up further?
Iron ore prices have bottomed out. NMDC had taken the lead in reducing prices so that steel can become affordable and pressure on inflation reduces. Steel prices have now fallen considerably. Our latest price hike has been very marginal. But it does not offer any indication that prices will go up from here. Also, because of the huge rainfall in our mining areas, production was a constraint.

In the first quarter, your sales were down by 17% because of subdued demand from the steel industry. Are you seeing demand pick-up?
Definitely, there has been some improvement in offtake in the current quarter. Currently, whatever we are producing is getting sold. There is no issue on offtake.

Last year, NMDC produced 42 million tonne (MT) iron ore. What is your target for production for the current fiscal and in the long term?
We are looking at 47-48 MT production this fiscal. By 2025, we plan to increase our production to 67 MT and 100 MT by 2030. We are ramping up capacity at both Bailadalia in Chhattisgarh and Donimalai, Karnataka.

What's the progress on de-merger of the steel plant?
We'll complete the process by the end of current quarter.

How much investment have you made in the steel plant so far and how much additional investment is required to become operational?
We have already made ₹22,000-crore investment in the steel plant. Some additional investment is required before the plant goes on stream, but that would be marginal. The plant would be operational by September this year.

Do you plan to set up another steel unit going forward?
No, we don't have any such plan.

What will be your focus areas going forward?
The focus will mostly be on iron ore and value addition of the raw material through pelletisation. We have a 1.2 mtpa pellet unit in Karnataka and are putting up a two mtpa at Jagdalpur in Chhattisgarh. We are also looking at putting up pellet units in Vizag and other places so that we can have a six mtpa pellet capacity by 2025.

You are also looking for some mines abroad for acquisition.
Yes, we are open to that. NMDC has always been on the look-out. We have done explorations outside in various geographies, including Africa. Through our Australia-based exploration arm, we are looking at gold, cobalt, lithium and nickel assets.

You don't need coking coal, still you have 26% stake in International Coal Ventures (ICVL). Are you going to continue with that?
It is a strategic investment and we are going to continue with that.

Grasim profit rises 16% to ₹1,933 cr on all-round growth

FE BUREAU
Mumbai, August 12

GRASIM INDUSTRIES, THE flagship company of Aditya Birla Group, on Friday posted a 16% rise in consolidated net profit at ₹1,933 crore for the quarter ended June, led by all-round growth in key businesses.

The company had posted a net profit of ₹1,667 crore for the same quarter of the previous financial year.

The firm's revenue rose 41% to ₹28,042 crore on a consolidated basis from ₹19,919 crore posted during the same period a year ago. Consolidated Ebitda rose 10% to ₹5,233 crore from ₹4,736 crore recorded in the first quarter of the previous fiscal, a company statement said.

On a standalone basis, the company's net profit rose 68% to ₹809 crore (from ₹482 crore in the year-ago period), while revenue rose 93% to ₹7,253 crore (₹3,763 crore) and Ebitda rose 69% to ₹1,364 crore (₹805 crore). The standalone revenue and operating Ebitda have hit "all-time highs", it said.

Grasim's sales volume of Viscose Staple Fibre (VSF) business rose 76% to 197 kilo tonne (KT), with its 600-tonne per day brownfield plant at Vilayat, Gujarat, contributing about 51 KT to the sales. The India-centric demand for textiles remained strong during the quarter, it said, adding that cotton prices – which peaked in June this year – have softened on fears of a global recession leading to demand slowdown.

Zephyr Peacock plans 7-9 investments from $100-m third fund in next 2 years

TUSHAR GOENKA
Bengaluru, August 12

ZEPHYR PEACOCK — the Indian investing wing of New York-headquartered private equity (PE) firm Zephyr Management — plans to make 7-9 investments in the country over the next 18-24 months. The third fund — which has a total corpus of $100 million — will make a total of about 14-15 investments, Pankaj Raina, MD, investments, told *FE*.

Zephyr Peacock MD, investments, Pankaj Raina

The PE firm, from its third fund — which started disbursing capital from 2020 — has already made investments in six Indian companies, namely: Shiksha Finance, Loanzen, Aqgromalin, Poshn, ZippMat and Ripplr. Raina, who said the PE firm is sector-specific — will bet on the financial services, food and agriculture and infrastructure ancillaries space for its new investments.

"We are largely skewed towards climate finance, by the way of EVs, we'll also continue and focus on digitisation of supply chains. Within food and agri, we'll look at farming models which address climate change. High growth and large underserved markets where there's an absence of dominant players and provides an opportunity for small businesses to become market leaders are a few things we are attracted to," Raina said. He added the initial investments in each company will be limited to a maximum of $3 million.

"Our investments will be anywhere around $1-3 million and invest more as they continue to grow, there's no point in sinking more money. The 7-9 investments will mark the end of our third fund," he added.

Better safe than sorry

RBI is right in disallowing players to 'borrow a balance sheet', remain unregulated and not have skin in the game

I THAS BEEN clear for some time now that the operational practices of some of the digital lending apps could prove to be detrimental to financial entities and customers. For instance, as part of the BNPL—buy now pay later—product, credit lines were being added to the wallets of customers without them being aware of it. Against this backdrop, the Reserve Bank of India's first set of rules on digital lending are clearly aimed at regulating fintechs and minimising risks to the balance sheets of banks and non-banking financial companies. The measures are justified because it is important to set out some ground rules on the basis of which all players build their business models. In the process, errant loan apps should be weeded out. The rules mandate that loan disbursals must be made into the customer's bank account and repayments too must flow into the same account. This will ensure that credit flows are tracked.

Allowing funds to be parked in pre-paid instruments (PPIs), many of which may be unregulated entities, could lead to the money being lost altogether. In fact, the central bank insists that all loans, whether to individuals or merchants, must be reported to the credit bureaus. RBI is also looking out for customers by trying to ensure that loans and fees are priced transparently and that the annualised cost of the loan is made clear. Borrowers' credit limits cannot be raised without their knowledge and any fees to be paid to the loans service providers (LSP) would be paid directly by the banks and not the customers. Indeed, customers must be charged proper rates of interest. Also, increasing their borrowing limits, without informing them or the ultimate lender, which could be a bank or an NBFC, is both an unfair and dangerous trend. Again, RBI has said that any data collected by digital lending apps should be minimal, need-based and with the consent of the customer, and apps cannot access mobile phone resources such as contact lists and call logs.

While this might seem harsh in the age of technology, fintechs can't simply be gathering data while running an agency. In fact, after the rules come into effect, more fintechs might apply for NBFC licences, and come under the regulator's purview. RBI is right in disallowing players to simply 'borrow a balance sheet', remain unregulated and not have any skin in the game. In fact, given how so many NBFCs have gone under, some amount of caution and regulation is called for. If fintechs believe the compliance is too onerous, they must shut shop. There is no final word from RBI on first-loss default guarantee (FLDG), although it has accepted the recommendation in principle. The draft guidelines had barred FLDG by a non-regulated entity. While the proposition sounds risky, banks and NBFCs should be permitted to use their judgement, within some prescribed limits. The point is that while some of the rules might seem limiting, the regulator can ease the rules as and when it believes it has a firmer grip on the ecosystem. So far, RBI has sounded reluctant to usher in stand-alone digital banks, possibly because it wants a better understanding about what their entry could imply. While it might seem like the central bank is dragging its feet on the issue, it is better to be safe than sorry.

EVOLVE AND LET EVOLVE

UNDERMINING DIGITAL FINANCE BECAUSE OF SUPERVISORY INADEQUACY DOES US NO FAVOUR

Where will new banks come from?

SRINATH SRIDHARAN

Corporate advisor and independent markets commentator | *Twitter: @ssmumbai*

AS INDIA CELEBRATES 75 years of Independence, it might be useful to think of leveraging its banking sector to shape inclusive, stable economic growth for India@100. Finance is one of the oldest businesses in human history, and is one of the most-regulated industries. The country's financial sector has been slow in adopting digital innovations that have come about in the past few years, one of the reasons being the regulatory moat that the incumbents enjoy. More is written and spoken about financial inclusion than the actual impact on-ground. Call it organisational inertia if you wish. Digital innovations for better access to finance have done more good for inclusion. The older catchphrases of 'distribution strength' and 'product availability' are passé. Consumers seek 'phygital access', 'banking, anytime, anywhere' and more importantly, 'financial solutioning'. Yet, the existing incumbents own the space, with no greater comfort to the consumers.

India and banking

The size of the assets/liabilities of the Indian banking industry is over ₹200 trillion. As of December 2021, the total outstanding bank credit stood at ₹116.8 trillion. To achieve higher credit growth, the sector needs not just more banks, but also newer banks, all with healthier balance sheets and long-term capital availability and the business intent to provide credit offerings. For this, business is all about pricing the risks.

For the GDP to grow, we need robust credit growth. Time and again, many experts have argued in favour of licensing more banks with specialisations to serve different consumer categories, to make banking more-inclusive and profitable. Yet, not many specialised or universal banks have been licensed to enter the business for various reasons, the primary being that those who can give comfort to the regulator are few and far between.

Since the past few decades, there have been various types of banking needs felt by the regulator, and hence, associated licence categories have been created. Today, the formal banking sector includes over 2,800 licensed entities, most of them being sub-scale sized. This has only generated new issues for the regulator—of poor governance, capital constraints, weak management, unaddressed consumer grievances. In contemporary India, with proven digital acceptance by consumers to a large extent, it is useful to assess if these licence categories create any consumer-impact or are even needed in the first place.

The future is already here

Just a decade ago, it would have seemed Utopian to dream of digital-only banking and chatbot-based interaction with banks. Digital payment systems have evolved a lot in a short time. This is only the beginning of the digital finance era. Undermining its potential for current supervisory inadequacies or policy concerns won't account for a responsible future of financial markets path.

With digital finance, the regulator will have to strike a balance to allow innovation and yet have all safeguards, including consumer protection, systemic risks, privacy issues, data sanctity, etc. This is only the start of the digital era. With evolving technologies, more such developments will test the concept of regulatory proactiveness, as well as who defines what is right for the society. It is time that we connect disruptions, digital and demographic to the *raison d'etre* of regulation. There lies another challenge—getting comfortable with younger, first-generation promoters and private investor-owners of potential banking entities. This is where the digital and non-digital-natives have to find common ground.

With digital finance, the regulator will have to strike a balance to allow innovation and yet have all safeguards

Don't like (m)any

RBI's experience with licensing private sector banks during the past few decades indicates that it has had to step in on multiple occasions to bail out various banks and other licensed entities. But should that deter it from opening up the sector further? Isn't 'regulating' the role of a financial regulator?

While it does have its PCA framework for working on 'you are being watched' financial entities, it has also not commented yet on the business viability and suitability of newer banking categories like payments banks or SFBs.

The RBI approach to big NBFCs is either operate with tougher, bank-like rules or convert to become banks after rejigging the ownership structure. Yet, converting them into banks might not be as smooth as one expects.

RBI, like any other regulator, likes each of the entities it regulates to be stable, profitable and to grow steadily. The new-age challenger entities—the fintechs—who have brought in much innovation as well as private capital to bolster the business funding are aggressive about using valuations as a metric.

Regulatory systems and capacity-building around digital finance will take time. Particularly, the supervisory aspect will be of concern. The regulatory role is to ensure consumer protection. If a regulator reacts, either it is showcasing systemic risk to worry them, becoming a communication nuisance that consumers would complain loud enough about, or is being politically sensitive. But these worries and discomfort about newer industry innovations and players cannot, and ideally, should not stop the process of creating newer banking categories and identification of newer banking entities.

Banking promoters need deep pockets, and patient capital at that. Importantly, regulators globally have worries about the ultimate ownership of banks being clear and clean, and preferably resident in their jurisdiction. The 'fit and proper' criteria, promoter background and reputation, and availability of long-term capital are the asks.

In a nation of 1.4 billion people, why are we struggling to find a few more wealthy, good-intentioned individuals interested in becoming bank promoters, especially those that aren't corporate house promoters or industrialists? The private equity players don't have the luxury of time to lock in their stakes for many years that the regulators would get solace from. Then, can the regulator steer and not inadvertently influence any banking moat by preventing bringing in newer players? Can the regulator allow for efficient competition in the sector by bringing newer players and allowing for weaker ones to merge with stronger ones? Can it move out of its comfort zone, given its dislike for certain categories of owners as past precedence shows? Must we lag behind on credit growth for the overall inclusive socio-economic development?

Now, the larger question is that where are the new banks? And by when will they come?

Crypto is failing where digital yuan may succeed

Cryptocurrency is still no match for the dollar but China could be the game changer on the horizon

DOES AN INDUSTRIAL-SIZED dog whistle go off when advocates boast about cryptocurrency's ability to evade US government sanctions? Back in March, a founder of Tornado Cash—a so-called "mixer" service that masks cryptocurrency transactions by mixing them with others—told Bloomberg it would be "technically impossible" for sanctions to be enforced against decentralised protocols. Surprise: Tornado has now been sanctioned by the US Treasury's Office of Foreign Assets Control, partly because of its use by hackers said to be linked to North Korean money laundering. With Tornado down 95% from its all-time high and its source code removed from Microsoft Corp.'s GitHub, it's the latest blow to the "no sanctions yay" theory of crypto—the three words used by former Ethereum Foundation scientist Virgil Griffith in 2019 when he told a blockchain conference in North Korea how to dodge sanctions by converting cash into crypto, costly advice that resulted in a guilty plea and a 63-month federal prison sentence.

In terms of technology, it shows that even the most decentralised service can't avoid law enforcement. Exchanges are under pressure to monitor links to regular currencies, as are other service providers, and pseudonymous blockchains can be pored over for suspicious transactions—such as the gains of North Korean cybercriminals that transited through Tornado. As Bloomberg's Emily Nicolle notes, the crypto industry hasn't been able to build all its infrastructure yet. Geopolitically, crypto is also suffering—not surging—amid an economic Cold War. After the Covid-19 pandemic and Russia's invasion of Ukraine, Washington has been flexing its financial muscles, even amid angst about the kind of blowback that overreach or alternative currencies might bring. Keeping crypto in check fits with the history of US regulation of encrypted tech, like the e-mail mixers of the 1990s, but is also key for US soft power in wartime.

LIONEL LAURENT

Bloomberg

Right now, therefore, it looks like even a world permeated by unprecedented sanctions, conflict and inflation will fail to give crypto a big boost. And as economist Eswar Prasad recently wrote, US dollar hegemony could last a lot longer than expected.

But there's one potential twist in the tale: central bank digital currencies, notably China's e-yuan. These forms of digital money might play a big geopolitical role depending on how they're implemented and who gets there first.

A new book by sanctions experts Astrid Viaud and Paul-Arthur Luzu imagines a world in which China gains a first-mover advantage with a digital currency that is interoperable with others and imposes standards on other countries looking to avoid doing business in dollars.

One scenario wargamed by US officials, according to CoinDesk, is of a "fully portable" digital yuan that sees other countries using banks and payment providers as nodes effectively plugged into China's infrastructure. That might see North Korea or Russia buy materials without reprisals. Iran is pursuing a digital central bank currency of its own.

This is only one future among many—it may be that American and euro area digital currencies take off first, or that such projects end up fragmenting existing systems rather than strengthening them. And either way, it's all far-off.

But it suggests that the payments cold war has a long way to go before threats to the US dollar manifest themselves. It opens up a new zone of conflict that ensures "no sanctions yay" will remain little more than a slogan.

Views are personal

With global market uncertainties, India is poised to become the natural choice for global funds to deploy capital. This can be achieved by offering a principle-based regime that addresses concerns

AS THE ALTERNATIVE INVESTMENT FUNDS (AIFs) industry sees a sharp rise in commitment size from a meagre ₹3,595 million in 2012 to a sizeable ₹6.94 trillion now, Sebi has stepped up its vigil through inspections and a slew of regulatory changes aimed at strengthening their regulatory and compliance framework. Recent developments, though well-meaning, have gradually widened the gap between the industry's expectation of having the flexibility to manage private pools of capital as per global practices and Sebi leaning towards regulating AIFs on a par with other types of intermediaries in the asset management business.

The AIF regulations, introduced in 2012, were welcomed by the private equity industry, as it then merely laid down the broad governance framework for each AIF category to minimise the systemic risks posed by them without regulating business risks. The beginning of 2020, however, marked a shift in Sebi's approach when it introduced the standardised placement memorandum (PPM) template and annual audit requirements for AIFs. Principal terms offered by AIFs now were to be aligned with the standard template unless each investor was offered a minimum investment ticket size of ₹700 million. Sebi also introduced a prescriptive criterion for 'professional qualifications' of the key management team, similar to those prescribed for portfolio managers, but out of sync with global practices, which focused on good repute and experience. The amendment also brought investment committee (Committee) members, often external, within Sebi's ambit by making them responsible for the AIF's investment decisions alongside the investment manager (Manager). Subsequent restructuring of the Committee also required super majority consent of investors, inconveniencing Managers in seeking expertise to meet evolving needs of the AIF.

Aditional regulatory layers came in 2021, holding Committee members responsible for ensuring that decisions of the Committee follow AIF Regulations. Sebi thereafter mandated AIFs to file their PPM only through merchant bankers, further increasing cost of compliance and setting up AIFs. In another significant change last year, it restricted Managers from offering co-investment opportunities to its investors, unless offered under the client-portfolio manager relationship by the Manager, requiring them to register themselves as a co-investment portfolio manager under Sebi's portfolio manager regulations. Globally, large investors often negotiate a seat on the Committee with protective rights and seek preferred co-investment rights. The amendment burdened them with fiduciary responsibilities and restricted their flexibility to make opportunistic investments, compelling them to consider investing through offshore structures over AIFs.

AIF regulations, introduced in 2012, were welcome, but Sebi's tone changed in 2020

This year, Sebi increased scrutiny on AIFs' reporting obligations. Recently, the regulator imposed an ₹10-lakh fine on a category III AIF for breaching its 10% investable fund limit per investee company as it adopted a flexible methodology of calculating investable funds linked to returns accruing from temporary investments instead of a fixed expenditure calculation. The order, seeming reasonable at first, throws unanswered questions for AIFs regarding treatment of income generated from investments, what is available for reinvestments, and long stop date for calculating investment limits viz. through the life of the fund versus the date of final closing.

In a recent circular, Sebi directed all AIFs to create a permanent position of 'Compliance Officer', distinct from the CEO. The Circular also provides guidelines for the Large Value Fund for Accredited Investors (LVF) relating to filing of scheme documents with Sebi and conditions for the extension of their tenure. The guidelines dampen contractual flexibility and may prove to be counterintuitive to creation of this sub-category of AIFs.

Rising compliance needs don't only increase the initial setting up and ongoing operating costs but also take away the promised flexibility to AIFs for managing non-retail pools of capital, distinct from other categories of asset managers, which cater to a wider investor base and pursue public market strategies. Increasing their regulation is also viewed in a negative light by highly sophisticated investors that prefer the flexibility that comes with a light touch regulation over the regulatory protection in its current form, which does not distinguish between smaller AIFs and large AIFs having sophisticated investors with higher risk appetite and knowledge. Even the introduction of the concept of 'accredited investors' for AIFs has failed to counterbalance the cumbersome regulations, as despite nearly a year since their enactment, only a few accreditation agencies have been approved by Sebi.

With global market uncertainties, India is poised to become the natural choice for global funds to deploy capital, provided our investment management regime is aligned with the global best practices. This can be achieved by offering a principle-based regime that addresses concerns rather than imposes restrictive conditions, carving exceptions on the basis of the investment strategy of the AIF, its investor base, and systemic risk posed by it. We hope Sebi finds the right balance between poetry and prose, providing regulatory protection while ensuring exemptions for sophisticated investors who choose AIFs for their minimal regulation and higher flexibility.

LETTERS TO THE EDITOR

Don't shoot the messenger

PM Modi hit out at the INC over their recent black clothes protest against price rise, unemployment, and the GST hike on essential items. It seems either this is the reaction when someone is afraid of the blunders they have committed or that the black protest from the INC made a huge impact on the PM. As a senior law-abiding citizen of the country, I want to remind PM Modi that black magic does not work in politics. In politics, money, religion or caste magic, rather, Modi's very own ED/CBI/ EC magic works. Actually, the way PM Modi taunts the INC is only lowering the dignity of the PM chair. The champion orator may have forgotten during his speech that there are many other ways he could have made his point against the INC's protests. PM Modi must accept the truth that prices have risen for the common man and present a plan to reduce it. The INC is only a messenger, but the message is true.

Nations should wise up

Apropos of "India Inc's FTA. fondness" (August 12), post 2008, nations readily reworked expertise in monetary and fiscal policies but despite such wisdom, were diffident to address emerging aberrations in policies of International trade. Wisdom lies in reanimating every fora of politico: economics interface, be it WTO or FTA; mega blocs; or bilateral pacts, even as individual nations address their domestic concerns. Global leadership will remain challenged by trade interruption ,be it from natural disaster or human misadventure.

Muthoot Finance Q1 net falls 16%

MUTHOOT FINANCE REPORTED a 16% decline in its consolidated net profit to ₹825 crore for the June quarter due to lower yields on low-interest rate teaser loans. Total income during the quarter fell by 5 per cent to ₹2,804 crore, compared with ₹2,963 crore in the same period of 2021-22, Muthoot Finance said in a regulatory filing.

ESAF Small Finance Bank profit at ₹106 crore

ESAF SMALL FINANCE Bank on Friday said it posted a profit of ₹106 crore for the first quarter ended June, helped by a rise in interest income and a decline in bad loans. The lender had booked a loss of ₹15.85 crore during the same quarter last year. The operating profit (which it defines as net profit plus provisions and contingencies) grew twofold to ₹225.29 crore from ₹105.74 crore in the year-ago period.

PAYTM STOCK TANKS 4.82%

Two more proxy firms want Sharma to step down as MD

RAJESH KURUP
Bengaluru, August 12

AFTER INSTITUTIONAL INVESTOR Advisory Services India (IiAS), two more proxy advisory firms have advised shareholders to vote against the resolutions of One 97 Communications, the parent company Paytm, including reappointment of Vijay Shekhar Sharma as managing director. The advisories come ahead of the company's annual general meeting scheduled for August 19. Reacting to this, coupled with concerns that the Reserve Bank of India's guidelines for digital lending apps might impact Paytm's BNPL operations, the stock fell 4.82% on Friday. The stock closed at ₹786 on the NSE, compared with the closing price of ₹825.80 on Thursday.

Vijay Shekhar Sharma is the founder, chairperson, managing director and chief executive officer of One97 Communications, the parent firm of Paytm.

The latest to join the bandwagon is proxy advisory firm Stakeholders Empowerment Services (SES), which, among others, has red-flagged the company's resolution to approve Sharma's appointment and remuneration. On its part, SES cited "dual position of CMD and excessive remuneration" as reasons to disagree with the two resolutions. In its AGM notice, One 97 Communications had sought shareholders' approvals to reappoint Sharma as managing director (designated as managing director and CEO) for five years from December 19, 2022 and salary payment as "minimum remuneration" for three years from FY23.

On its part, SES has asked investors to vote against reappointment of Sharma and his salary. "Although there is no legal bar on the chairman of the company from holding executive position, SES is of the view that the company should have separated the position since combining both the positions may lead to concentration of powers in the hands of a single person," it said in a note, adding his proposed remuneration appears to be "excessive".

The firm also asked shareholders to vote against the reappointment of Ravi Chandra Adusumalli as a director, citing "low attendance", while there were no governance concerns. "Adusumalli attended only nine out of the 19 (48%) board meetings held in FY22". SES also wanted shareholders to vote against approval for contribution to charitable and other funds, citing "inadequate disclosure". However, it asked shareholders to support three other resolutions.

InGovern is also opposing the reappointment of Sharma. "The main issue is that Sharma is not liable to retire by rotation as director. As far as the share price and business performance is concerned, Paytm is not unique. All new-age companies have seen their stock prices tank from the IPO price. Also, most of them happen to be non-profitable. Investors are still trying to understand how and when these companies will turn profitable. These issues were known at the time of IPOs," Shriram Subramanian, founder and managing director of InGovern Research Services, a Bengaluru-based proxy advisory firm, said.

Fresh 10-year bonds likely next week; strong demand seen

DHARAMRAJ LALIT DHUTIA
Mumbai, August 12

THE GOVERNMENT IS likely to issue a new 10-year bond, hoping to draw strong investor demand and realign the entire yield curve, analysts said.

"The new 10-year is expected to be priced between 7-10 basis points lower than the current benchmark levels and the entire yield curve may be lowered by few basis points initially post new bond auction," said Venkatakrishnan Srinivasan, founder and managing partner at debt advisory firm Rockfort Fincap.

India's 10-year 6.54% 2032 bond outstanding stands at ₹1.56 trillion rupees ($19.59 billion). The yield curve typically moves in alignment with the change in 10-year bond yield.

The government generally stops issuing a note once the outstanding reaches around ₹1.50 trillion ($18.83 billion), traders added. The government is due to sell bonds worth ₹33,000 crore rupees on August 19, which will include a 10-year security, according to the federal calendar.

"We expect very strong demand for the new paper, as inflation is set to ease from here on, and we could even see a 10 basis points spread from the prevailing note," said Yogesh Kalinge, vice president at AK Capital Services.

Along with easing inflation, the issuance of a new 10-year bond should help the market maintain a bullish stance for the time being, traders said.

"In the near-term, global factors and domestic monetary policy will be the drivers. Global risk-off conditions and expectations that the RBI rate hiking cycle could slow has kept 10-year government bond yield contained at around 7.3%," said Gaura Sen Gupta, India economist at IDFC First Bank.

Still, after the initial fall in yields, macroeconomic fundamentals could push the new paper into discount soon, considering the yield volatility based on external factors, expectation of future rate hikes and fears of additional borrowing, according to Rockfort's Srinivasan.

The government aims to borrow gross ₹14.31 trillion, its highest ever, via sale of bonds in the current financial year to meet fiscal deficit target of 6.4%. Some traders expect the government to borrow more in the second half.

The Reserve Bank of India has hiked key policy repo rate by 140 basis points since May to 5.40% due to elevated inflationary pressures. Traders now anticipate more such moves. "We expect the RBI to continue hiking rates in 2022 but the pace is likely to moderate with inflation showing signs of easing. We expect the RBI to hike policy rates by 35 bps in September, followed by a possible 25 bps hike in December," IDFC First Bank's Sen Gupta said. —REUTERS

AMC profits dip amid market turmoil

ASHLEY COUTINHO
Mumbai, August 12

THE PROFITABILITY OF listed mutual fund players came under pressure for the quarter ended June amid weak markets and a regulatory diktat that prevented fund houses from hitting the market with with offerings.

HDFC AMC's net profit slid 9% to ₹314 crore over the year-ago period. The other three listed players — Aditya Birla Sun Life AMC, Nippon Life India AMC and UTI AMC — witnessed a sharper decline of between 33% and 39% in profits.

The total AUM of open-ended equity funds as of June 30 stood at ₹12.86 trillion, down by 5.9% over the last quarter. Open-end equity funds form about 36% of the total open-end fund universe. The fall in assets has occurred despite the asset class witnessing net inflows during the quarter, and could be attributed to the market fall.

"Indian equities showed a dip in the June quarter and were down relative to the year-ago period. The flows did not keep pace with the market fall and were not able to neutralise the loss in revenues due to the dip in AUM. Fixed income performance was subdued as well with interest rates moving up," said Dhaval Kapadia, director – portfolio specialist, Morningstar Investment Advisers India.

The open-ended fixed-income category had net outflows of ₹70,213 crore in Q1, the third straight quarter of net outflows.

"The domestic economy as well as the mutual fund industry were impacted in Q1 due to macro headwinds. In this dynamic investment environment, investors' interest continues to be our prime focus. We remain committed to supporting our clients pursuing their long-term financial goals and add sustainable value," said Sundeep Sikka, ED & CEO, Nippon Life India Asset Management.

Paytm lending business grows 296% in July

ONE97 COMMUNICATIONS, the holding company of fintech platform Paytm, on Friday said it has registered a growth of 296% year-on-year in its lending business in July, with the company distributing 2.9 million loans during the month. In value terms, the company has distributed loans of up to ₹2,090 crore, higher by 512% YoY.

"Our loan distribution business is annualising a run-rate of ₹25,000 crore, and we believe there is ample opportunity for upsell in this business. We are being conservative on the quality of the book, especially given the possibility of macro headwinds," the company said in an exchange filing.

Paytm recently said the newly-drafted RBI guidelines on digital lending will not have much of an impact on its revenues, but it may have to tweak operations to some extent to meet the norms. Paytm said it does not collect any charges directly from borrowers and also discloses the annual percentage rate and other charges while distributing loans to its customers. So, there are no changes from the commercial standpoint or customer disclosure perspective. However, Paytm will need to change its postpaid product as money flow has to be between the regulated entities and borrowers, and not from the pool account of fintechs. —FE BUREAU

Rupee falls 12 paise to 79.74, bond yields rise

AGENCIES
Mumbai, August 12

THE RUPEE DECLINED by 12 paise to close at 79.74 against the US dollar on Friday, tracking a strong American currency in the overseas market and rising crude oil prices. Government bond yields ended higher, after easing for the last two trading sessions, tracking a similar move in US Treasuries.

Strong demand for the dollar from oil importers and concerns over trade deficit also weighed on the local unit. However, heavy foreign fund inflows into equities cushioned the rupee from a major fall.

"Indian rupee underperformed among Asian currencies in the holiday-truncated week amid dollar demand-supply mismatch and higher crude oil prices," said Dilip Parmar, research analyst, HDFC Securities. Softer-than-expected US inflation data this week has lifted risk assets around the world, especially in emerging market space. However, the rupee was unable to encash the opportunity, rather it depreciated following importers' dollar demand, Parmar said. "Spot dollar-rupee is expected to trade in the range of 78.85 to 79.90, while the medium-term bias remains bullish as long as it trades above 78.50," Parmar added.

Anuj Choudhary, research analyst at Sharekhan by BNP Paribas, said, "We expect rupee to trade on a mixed-to-negative note. Positive US dollar and recovery in crude oil prices may mount downside pressure on the rupee while rise in risk appetite in global markets may support rupee at lower levels." Choudhary further said Spot dollar-rupee is expected to trade in a range of 78.50 to 80.50 in next couple of sessions.

Meanwhile, the 10-year benchmark bond yield ended at 7.2894%, after closing at 7.2673% on Thursday. It had fallen 8 bps in the previous two sessions. For the week, the yield was down one basis point. Indian money markets will remain shut on Monday and Tuesday for local holidays.

"Bonds traded in a single direction tracking US yields, but volume was shallow, ahead of long weekend and inflation data," said a trader with a private bank.

ANALYST CORNER

Bharat Forge may see exports stress in near future; domestic recovery on track

MOTILAL OSWAL

THE FIRST QUARTER earnings of Bharat Forge were a beat on all the fronts, led by strong traction in the auto business and benign raw material costs aiding margin. While its core business is seeing a sharp cyclical recovery, the management's initiatives to diversify into aluminum, lightweighting and EV components have started to fructify.

We have upgraded our numbers for the standalone entity, which will offset the negative impact of the US aluminum forging business that is ramping up. We have maintained our FY23/FY24 EPS estimate. We are yet to build in any contribution from Sanghvi Forgings and JS Auto. We maintain our 'buy' rating with a target price of ₹870 (24x September 2024E EPS).

Auto business above our estimate, non-auto in line: Standalone revenue, EBITDA and adjusted PAT grew 28%, 18% and 15% YoY to ₹1,760 crore, ₹460 crore and ₹246 crore, respectively, during the first quarter of the current fiscal. The auto and non-auto business grew 20% and 42% YoY. In the non-auto segment, exports and domestic sales grew 31% and 59%. Domestic auto sales and exports rose 67% and 6%.

US and EU operations: In the US, Class 7-8 orders from OEMs are secured till the end of the calendar year 2023 and the rate of cancellation is not high. This is also true for personal vehicles. In the EU, there is a reasonably strong demand for CVs. Bharat Forge operates in premium personal vehicles which are also doing okay. EU operations has seen full impact of energy prices in 1QFY23. Overall, EU operations will do double-digit EBITDA margins, with the aluminium business doing mid-teen margins.

Continued focus on de-risking business and increasing value add: Over the last decade, the company has broadened its revenue stream by entering new segments (non-auto) and markets across the globe, resulting in a decline in the share of the auto business to ~62% in FY20 from ~80% in FY07. It has increased its value-add by focusing on machined components, whose contribution grew ~50%, boosting realisations and margin. It is currently focused on adding a new line of businesses beyond steel forgings in the form of: a) aluminum forgings, b) non-metal materials and c) electronic components for EVs. The benefit of these initiatives will start reflecting from FY25E, driving not just revenue growth, but aiding improvement in profitability and capital efficiencies.

DISCERNING BIKE RIDERS

Atsushi Ogata, MD, President & CEO, HMSI

"Two-wheeler landscape in India is undergoing a big shift as we move up in the motorcycle category. Mid-size segment riders are looking for a balance between performance, versatility and modernism. For them, we have the all-new CB300F.

MOTORCYCLE REVIEW: ROYAL ENFIELD HUNTER 350

Old school meets new-age cool

Part retro, part modern, the Hunter is the lightest Royal Enfield motorcycle (181 kg), most affordable (₹1.49 lakh), has smallest wheels (17-inch) & lowest seat height (790 mm). It's more accessible to a larger section of the population and for riders any height

VIKRAM CHAUDHARY

The Hunter is very quick off the starting block, but top-end grunt appears to be missing. Because of its low seat height and light weight, it is easy to manoeuvre in traffic where you have to constantly put your feet down to balance the bike

WHILE SMALLER CAPACITY motorcycles are largely used by commuters, young and old, the median age of premium motorcycle (150cc and above) owners in India is just 24 years, and 31% owners are students (data by JD Power).

To tap into this user base early on, Royal Enfield didn't have the 'right bike' which is accessible both physically (small in size) and financially (affordable to a larger section of consumers). While the 650cc Twins, Meteor and Himalayan are fine motorcycles, they are a little too aspirational, especially for first-time riders.

The Hunter 350 is both accessible and aspirational. We rode it on urban roads (where it is meant to be ridden) and on the highways (where also it feels at home).

What is the Hunter 350?

Light, agile and fun—it isn't your usual Royal Enfield. While it has the same 349cc engine as the Meteor and the Classic, the Hunter 350 is the lightest Royal Enfield bike (181 kg), the most affordable (₹1.49 lakh), has the smallest wheels (17-inch), and the lowest seat height (790 mm).

What makes it unique?

When a person goes to take a motorcycle test ride, there are five steps (boxes) towards decision making. The Hunter 350 is designed in a way that younger customers will likely tick all these five boxes.

- One, it wears youthful colours, and has the aura to invite customers into the showroom and occupy their mindspace.
- Two, its seat height is 790 mm; riders of short stature are comfortable on it.
- Three, its exhaust note isn't the usual Royal Enfield 'thump', but more of a 'vroom'. It's like fast music.
- Four, it goes fast. When you take a test ride in a city, you'd likely do a 0-60 km/h run. Here, the Hunter 350 impresses.
- Five, it is priced at least ₹50,000 less than similar motorcycles, and in the same price range as TVS Ronin. It is marginally more expensive than the 150-200cc club.

Price: (ex-showroom)	₹1.5 lakh to ₹1.69 lakh

How does it ride?

Outright acceleration: At lower RPMs, power delivery is very eager, i.e. the Hunter 350 feels very quick off the starting block. But top-end grunt appears to be missing (it's not in the same league as the Classic 350), and the Hunter 350 struggles to pick up pace after 100 km/h.

City riding: Because of low seat height and light weight (181 kg), the Hunter 350 is easy to manoeuvre on urban roads and in traffic where you have to constantly put your feet down to balance the bike. It's the most comfortable Royal Enfield motorcycle ever for riding in the city.

Highway rides: It's not in the same league as the Himalayan (which is more comfortable), but short intercity rides such as Delhi-Jaipur and Mumbai-Pune can be easily done non-stop.

Can it be improved?

Mechanically, the Hunter 350 is possibly the finest Royal Enfield motorcycle ever. But because it is targeted at younger buyers, it should have new-age features such as real-time fuel efficiency and distance-to-empty. While it has the Tripper navigation screen and USB charging port, more tech on the tripmeter is needed.

Is it better than rivals?

It may not be better, but is definitely more value for money. The Hunter 350 is priced from ₹1.5 lakh to ₹1.69 lakh (ex-showroom). Its competitors are Honda CB350RS (₹2.03 lakh), Yezdi Roadster (₹2.09 lakh) and Jawa Forty Two (₹1.72 lakh). It's in the same price range as the smaller-engine (226cc) TVS Ronin.

At this price, it is unique within the Royal Enfield line-up and outside as well.

MOTOR INSURANCE FOR EVs

Amp up your electric vehicle protection

Do electric vehicles need a different motor insurance policy compared to conventional vehicles?

ASHWINI DUBEY

ILLUSTRATION: SHYAM KUMAR PRASAD

INDIA'S AUTOMOBILE INDUSTRY is undergoing a fundamental transformation, with electric vehicles (EVs) gradually getting popular. While still in a nascent stage, the EV market size is expected to grow at a CAGR of 43.13% between 2019 and 2030, as indicated by a recent *Research and Markets* report.

The motor insurance sector is evolving alongside. EVs are exposed to risks on the road just like conventional vehicles and it's important to adequately insure them. But do EVs need a different motor insurance policy compared to conventional vehicles?

Understanding the coverage for EVs

EVs operate on batteries powered by one or more electric motor(s), instead of the internal combustion engine. But their insurance is similar to the regular motor insurance policy. Third-party cover is a lawful mandate for EVs. Keeping in view the advanced technology and high maintenance, EV insurance costs more than the regular policy. However, considering this factor, the IRDAI had also mandated a 15% discount on third-party insurance cover for EVs to make it more affordable.

A comprehensive policy is suggested, which shields your EV in the event of total loss. Apart from this, the cost of EV spare parts and their replacement or repair can also be exorbitant. Since no one can really predict the extent of damage that one can suffer, it's always advisable to go the extra mile in ensuring maximum protection.

Choosing suitable add-ons for EVs

While a comprehensive policy is a stepping stone to safety, when you drive a piece of machinery as sophisticated as an EV, it is important to add extra layers of protection to your insurance by choosing the right add-ons. Some of these are:

EVs are a new concept, and in case of breakdown the regular mechanic may not be able to help. So, it's advisable to take roadside assistance cover

- **Zero depreciation cover:** Depreciation of a vehicle begins the moment you purchase it and it continues through the years. Your insurance would not account for depreciated value at the time of claims and only pay the claim amount after deducting the depreciation cost. Adding zero depreciation or bumper-to-bumper cover will help you save this cost at the time of claim settlement and also include the depreciated cost.
- **Return to invoice cover:** This rider will help you get a higher amount during claims. As the name suggests, it helps you get the original price or the invoice price of your vehicle in case of total loss. Normally, the policyholder only receives the market value of the vehicle, which is less than the price paid for it. This add-on keeps you covered from the risk of total loss of the vehicle.
- **Roadside assistance cover:** Super useful in cases where you might need assistance owing to EV breakdown in the middle of the road. Since EVs are a fairly new concept, every roadside mechanic might not be of much help in such situations. It's best to leave your vehicle in assured hands and this rider makes sure you get expert assistance on the spot.
- **NCB cover:** Often termed the easiest and safest way to save on motor insurance premiums, NCB or no-claims bonus is the reward you get for good driving. This is assessed on the basis of claims made—if you make no claims, your bonus remains intact and you stand to get up to a 40-50% discount for consecutive five claim-free policy years. It's a beneficial add-on especially if you are a seasoned and safe driver.

REGULATOR FLAGGED THEM OVER AUDIT LAPSES

Five Chinese state-owned firms to delist from NYSE amid US tensions

REUTERS
Shanghai/ Hong Kong, August 12

FIVE CHINESE STATE-OWNED companies, including oil giant Sinopec and China Life Insurance, said on Friday they would delist from the New York Stock Exchange, amid economic and diplomatic tensions with the United States.

The companies, which also include Aluminium Corporation of China (Chalco), PetroChina and Sinopec Shanghai Petrochemical, each said that they would apply to delist their American Depository Shares this month.

The five, which in May were flagged by the US securities regulator as failing to meet its auditing standards, will keep their listings in Hong Kong and mainland Chinese markets.

Beijing and Washington are in talks to resolve a long-running audit dispute that could see Chinese companies banned from US exchanges if they do not comply with US rules.

Washington has long demanded complete access to the books of US-listed Chinese companies, but Beijing bars foreign inspection of audit documents from local accounting firms, citing national security concerns.

There was no mention of the auditing dispute in separate statements by the Chinese companies outlining their moves, which come amid heightened tensions after last week's visit to Taiwan by US House speaker Nancy Pelosi.

"These companies have strictly complied with the rules and regulatory requirements of the US capital market since their listing in the US and made the delisting choice for their own business considerations," the China Securities Regulatory Commission (CSRC) said in a statement. The agency said it would keep "communication open with relevant overseas regulatory agencies".

The oversight row, which has been simmering for more than a decade, came to a head in December when the Securities and Exchange Commission (SEC) finalised rules to potentially prohibit trading in Chinese companies under the Holding Foreign Companies Accountable Act. It said 273 companies were at risk.

Some of China's largest companies, including Alibaba Group, JD.Com and Baidu, are among them. Alibaba said last week it would convert its Hong Kong secondary listing into a dual primary listing, which analysts said could ease the way for the Chinese ecommerce giant to switch primary listing venues in the future.

In premarket trading on Friday, US-listed shares of China Life Insurance and Sinopec fell 5.7% about 4.3% respectively. Aluminium Corporation of China dropped 1.7%, PetroChina shed 4.3%, and Sinopec Shanghai Petrochemical 4.1%.

A spokesperson for NYSE declined to comment. A spokesperson for the Public Company Accounting Oversight Board, the audit watchdog overseen by the SEC, did not immediately provide comment.

Rushdie attacked on stage at New York event

REUTERS
August 12

SALMAN RUSHDIE, THE Indian-born novelist who was ordered killed by Iran in 1989 because of his writing, was attacked on stage at an event in New York and suffered an apparent stab wound to the neck, according to New York State Police and an eyewitness.

A man rushed to the stage at the Chautauqua Institution in western New York state and attacked Rushdie as he was being introduced to give a talk on artistic freedom, an eyewitness said. A State Trooper present at the event took the attacker into custody, police said.

Rushdie was taken by helicopter to a hospital but his condition was not yet known, police said. The police statement gave no motive for the attack. Rushdie fell to the floor when the man attacked him, and was then surrounded by a small group of people who held up his legs, seemingly to send more blood to his upper body, as the attacker was restrained, according to a witness attending the lecture who asked not to be named.

"We are dealing with an emergency situation," a Chautauqua Institution spokesperson said when contacted by Reuters.

Rushdie has faced death threats for his fourth novel, *The Satanic Verses*, which some Muslims said contained blasphemous passages. The novel was banned in many countries with large Muslim populations.

Europe eyes SpaceX to bridge launch gap left by Russia

TIM HEPHER & JOEY ROULETTE
Paris, August 12

THE EUROPEAN SPACE Agency (ESA) has begun preliminary technical discussions with Elon Musk's SpaceX that could lead to the temporary use of its launchers after the Ukraine conflict blocked Western access to Russia's Soyuz rockets.

The private American competitor to Europe's Arianespace has emerged as a key contender to plug a temporary gap alongside Japan and India, but final decisions depend on the still unresolved timetable for Europe's delayed Ariane 6 rocket.

"I would say there are two and a half options that we're discussing. One is SpaceX that is clear. Another one is possibly Japan," ESA director general Josef Aschbacher told *Reuters*. "Japan is waiting for the inaugural flight of its next generation rocket. Another option could be India," he added in an interview.

LAST HIKE HAPPENED IN OCTOBER 2019

Noida land rate increase to impact housing demand

The rates of plots in commercial category have remained unchanged

SANJEEV SINHA
New Delhi, August 12

IF YOU WERE planning to buy a piece of property in Noida in the near future, here's some bad news for you. The Noida Authority has decided to increase the land rates by 20% to 30% across several categories, which will increase property prices in the region and impact homebuyers.

Although the hike was expected (the last hike happened in October 2019), but it may eventually arrest housing demand as the overall cost of acquisition would go up for the prospective homebuyers. This along with the recent interest rates and property prices hike amid rising input costs will be a burden on the prospective homebuyers.

"If we look back, ever since the construction of the Jewar International Airport has begun, there has been a spurt in real estate activity in and around the airport, inevitably leading to rise in land prices. Land prices have seen more than 30-40% rise in the last two years, particularly because of the ongoing airport and the other developments in the area. More so, post the pandemic there has been an incessant rise in demand for plots which ultimately has led to a price rise," said Santhosh Kumar, vice chairman, ANAROCK Group.

Several plotted development projects have been launched at Yamuna Expressway in the last two to three years and if we look at the plot prices, as per ANAROCK Research, Yamuna Expressway has seen anywhere over 38% rise in plot prices – from ₹1,600 per sq ft in 2019 to nearly ₹2,200 per sq ft in H1 2022.

"This is the highest land price rise that a micro market has seen among all the top 7 cities. The land price rise is not just because of the growing demand but also because of limited availability in key areas. Noida, in particular, has no land available. Moreover, this price rise by the Noida Authority will further increase land prices. With land prices going up, we may further see its impact on the new launches. As it is, of the total new launches in UP in the last few months, developers have curtailed new launches in the NCR region because of the high land prices. They are looking to wait and watch," added Kumar.

BIG BUSINESS

- The land rate of 'E' category sectors of residential plots is ₹41,250 per square metre
- There has been a rate hike of 20% in 'A' to 'D' category sectors
- Prices of those in 'A+' category remained unchanged at ₹1.75 lakh per sq metre
- Group housing rates have been increased by 20%
- The rate of residential buildings has been kept the same as before

Piyush Bothra, co-founder and CFO, Square Yards, has a similar view. "The decision of the Noida Authority to revise the land rates by 20-30% at one go is a steep raise and will impact the housing demand in Noida in the coming months as property prices are likely to go up. Real estate developers will feel the pinch while acquiring land parcels and be hard pressed to increase property prices by 10-15% to accommodate the increased acquisition costs."

Thus, serious homebuyers who look towards Noida as an affordable and reasonable zone to buy a home of their choice will have no other option but to shell out more as developers may pass on the cost to the homebuyer. First-time buyers, however, may rethink their decision and postpone their homebuying intention till a favorable time comes up.

"Noida is already reeling under the pressure of high amount of unsold inventory and stuck projects and this decision would further add to the negative sentiment," added Bothra.

Realty consultants said the move by the Noida Authority would significantly raise the land prices in a city where affordability has been the main driver of demand amid the coronavirus pandemic, which was earlier reeling under instances of developer insolvency cases and project delays. So, the government should be cautious while taking such steps.

"Unlike most states, the government of the state has also refused to entertain the demand of circle rate and stamp duty reduction even though many of its peers in the country did so to boost the pandemic-hit realty. This move, coupled with the recent price rise, 140 basis points rate hike by RBI since May, and the burgeoning cost of raw materials, somewhere deeply impacts the market sentiments which still seems upbeat. Hence the government should be cautious while taking such steps," said Vikas Wadhawan, Group CFO, Housing.com, PropTiger.com & Makaan.com.

No timeline from govt for selling IDBI stake: LIC chief

PRESS TRUST OF INDIA
Mumbai, August 12

LIFE INSURANCE CORPORATION has said it has not received any timeline from the government for the stake sale in its subsidiary IDBI Bank. LIC owns 49.2% of the lender and the government and public own the remaining shareholdings in the bank which was on the verge of collapse before it was forced into the control of LIC, weighed by a third of its loans turning dud.

Addressing the media during its maiden earnings call, chairman MR Kumar said the corporation has no timeline yet for the stake sale. The divestment department is working on it but so far no expression of interest has been called in. Nor has there been any formal proposal from the department to us, he added.

In its IPO filings in March this year, the insurance behemoth had said that it would retain part of its 51% stake in IDBI Bank to reap the benefits of the bancassurance channel. The plan is to completely privatise the bank as the government wants to exit it.

RBI tells banks to ensure borrowers are not harassed by recovery agents

FE BUREAU
Mumbai, August 12

THE RESERVE BANK of India (RBI) on Friday said that the banks and other financial institutions should ensure that their recovery agents do not harass or intimidate their borrowers while noting that such agents deviate from the instructions issued by the central bank.

The RBI has listed the various forms of harassment employed by the recovery agents, which includes public humiliation, privacy intrusion of the borrower or their family member or acquaintances, sending inappropriate messages telephonically or through social media, making threatening and anonymous calls, making false and misleading representations and calling persistently at odd hours for recovery of loans.

"It has been observed that the agents employed by REs have been

deviating from the extant instructions governing the outsourcing of financial services," the central bank said in a notification.

"These instructions will be applicable to all commercial banks (including regional rural banks), co-operative banks, non-banking financial companies (NBFCs), asset reconstruction companies (ARCs) and all India financial institutions," it added.

The guidelines on permissible hours for calling borrowers are specified in respect of housing finance companies and lenders giving microfinance loans. Other financial institutions include Exim Bank, National Bank for Agriculture and Rural Development (NABARD), The National Bank for Financing Infrastructure and Development (NaBFID), National Housing Board (NHB) and Small Industries Development Bank of India (SIDBI).

The harsh methods used by the banks and other lenders were already under RBI scanner as Governor Shaktikanta Das had highlighted the issue at an event in June. The RBI is receiving several complaints from borrowers on severe steps taken by the agents, without adequate checks and controls from banks, Das had said. While agents are used to calling borrowers even past midnight, RBI had got complaints of use of foul language.

'Startup IPOs as financing rounds will end soon'

"We were the most profitable software services company in the world. I can go on and on. Therefore, it is fair for me to say that I would do the same thing today as I did 41 years ago.

Almost every startup today is eyeing an IPO, even without profitability?

I must admit that I am not conversant with the current trends. Therefore, my views may be wrong and should not be taken seriously.

I am uncomfortable with using IPO as yet another round of financing and providing exits for VCs before the startup has reached a steady state in revenue and EPS growth. I would prefer a PEG of 1 (ratio of PE to EPS growth rate) rather than a high PE as higher PEs would mean it will take a long time for small, retail investors to get adequate return on their investment. This is a phase of euphoria and it will pass.

How can IT services stay relevant in the future?

As long as computers are used to automate functioning of an organisation, there will be opportunity for software development and maintenance. New operating systems, new databases, new languages, new communication systems, new devices and new user interfaces will require software services providers to upgrade the existing systems to handle these technologies.

Similarly, as long as competition exists, organisations will have to introduce new innovations in business practices to create new differentiation. These new practices require development of new software systems or upgradation and maintenance of existing software systems.

As long as new software products come into the market, corporations have to build a layer of customisation around the standardised package to create differentiation and this requires software development and maintenance.

These responsibilities can be handled only by software services companies. Therefore, my view is that the opportunities for software services will continue to grow.

What is needed from these service companies is to improve domain knowledge, technology knowledge, quality and productivity, and better customer orientation to gain bigger market share.

The attrition rates in IT services companies seem to be at an all-time high and not showing signs of coming down. Is there a solution?

As more and more captive units of foreign companies start operating in India, there will be fiercer and fiercer competition for talent.

Further, these captive units being just cost centres and Indian costs being a fraction of the cost in the developed world, these captive units will give higher and higher compensation to their employees.

However, Indian companies have a tendency to reduce every market to a commodity market by competing mostly on prices and not value to customers.

In addition, Indian companies are profit centres.

Therefore, their ability to match the captive units is hampered.

Further, while the salaries of the senior management personnel in Indian software companies have increased by 20-70 times in the last 10-12 years, the compensation for entry-level engineers and junior staff has hardly increased.

Some Indian companies have also created very sound training programmes for fresh entrants to become market ready.

Therefore, there is a tendency for the talent to get trained in an Indian company and then shift to a captive unit. That is why the attrition rate is high among the Indian software services companies.

Note:

(1) The aforesaid consolidated financial results of IL&FS Investment Managers Limited (the "Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together constitute the "Group") and jointly controlled entities for the quarter ended June 30, 2022 along-with comparative quarter have been reviewed by the Audit Committee and subsequently approved by the Board of Directors of the Company at its meeting held on August 12, 2022 in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

(2) The financial results have been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 – Interim Financial Reporting, notified under Section 133 of the Companies Act 2013 read with Companies (Indian Accounting Standards) Rules 2015, as amended from time to time and other accounting principles generally accepted in India

(3) The Ministry of Corporate Affairs (MCA), Government of India, has vide its letter dated October 1, 2018 initiated investigation by Serious Fraud Investigation Office (SFIO) against Infrastructure Leasing & Financial Services Limited (IL&FS), the Holding Company and its subsidiaries (including the Group) under Section 212(1) of the Companies Act, 2013. As a part of its investigation, SFIO and Enforcement Directorate (ED) have been seeking information from the Group on an ongoing basis. The investigation is in progress and the Group is fully cooperating with the investigation agencies. On December 3, 2018, MCA on the directions of the National Company Law Tribunal, Mumbai (NCLT) has impleaded various Group Companies of IL&FS (which includes the Group) as Respondents to the Petition filed by them on October 1, 2018. Further based on another petition of the MCA under Section 130 (1) of the Companies Act, 2013, the NCLT has, on January 1, 2019, ordered re-opening of books of accounts for the past financial year 2012-13 to financial year 2017-18 of 'IL&FS' ('the Ultimate Holding Company'), IL&FS Financial Services Limited ('IFIN' a fellow subsidiary) and IL&FS Transportation Networks Limited ('ITNL' a fellow subsidiary). While the Group, based on its current understanding, believes that the above would not have a material impact on the financial results, the implications, if any, arising from the aforesaid developments would be known only after the aforesaid matters are concluded and hence are not determinable at this stage

(4) The term of most of the existing funds being managed/advised by the Group has already been over. Other funds being managed/advised by the Group are approaching end of their term in near future which has resulted in significant reduction in the Group's fee revenue. Management expects that its future income from existing funds being managed/advised together with liquid assets held by the Group as at March 31, 2022 will be adequately sufficient to meet the Group's existing and future obligations arising over the next 12 months

Meanwhile, the IL&FS Board has been working on a resolution plan, with a view to enable value preservation for stakeholders of IL&FS Group. The resolution plan, inter alia, involves sale of assets/ businesses/companies owned by IL&FS. And in this regard, the IL&FS Board has on December 21, 2018 and September 27, 2019 invited a public Expression of Interest (EoI) for sale of its entire stake in the Company. Accordingly, the Company's plans for new fund raise have been kept on hold pending completion of the stake sale. Further, with the outbreak of the pandemic the timelines for the sale process have got delayed and while there is material uncertainty with regard to the stake sale, management believes that use of the going concern assumption for preparation of these financial results is appropriate

Notes: 1. (a)The above revised financial results have been prepared consequent to receipt of opinion received on 26th July, 2022 from Expert Advisory Committee (EAC) of Institute of Chartered Accountants of India (ICAI). Hitherto, Company was charging off the utilities generated from trial run production and consumed internally to Profit and Loss Account and only net commissioning expenses were included under Capital Work in progress. In the absence of any specific guidance under Indian Accounting Standard (Ind AS), as to value of trial run production consumed internally and the treatment thereof, the matter was referred to the EAC of ICAI by the Company. The EAC opined that the Company's treatment of crediting CWIP with the value of utilities generated during trial run and consumed in ongoing commercial production and charging off the said amount to the Statement of Profit and Loss Account is not in order and further the financial statements are required to be restated in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors, for accounting periods where such treatment was given after applicability of Ind AS. Accordingly accounting policy is suitably modified and restatement is being done effective from FY 2017-18 onwards. In accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors and Ind AS 1 - Presentation of Financial Statements, the Company has retrospectively restated its Balance Sheet as at 31st March 2022(Current Year), 31st March 2021(Previous Year) and 1st April 2020 (beginning of the preceding period) and Statement of Profit and Loss and Statement of Cash Flows for the year ended 31st March 2022 and 31st March 2021, for the reasons as stated above in respect of material items and wherever retrospective restatement is practicable. (b) The Company had submitted consolidated financial statements considering audited / management certified accounts in respect of its Joint Ventures. However the Company has been directed by the office of Comptroller and Auditor General of India to submit consolidated financial statements considering audited financial statements of all its Joint Ventures. Incorporating the above referred changes, financial results are drawn in accordance with the accounting policies consistently followed by the Company. The results have been reviewed by the Audit Committee and approved by the Board of Directors at their meeting held on 12th August, 2022. These results have been reviewed by the Statutory Auditors as required under Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. 2. The results for the quarter and year ended 31st March, 2022 are in compliance with the Indian Accounting Standards (Ind AS) as prescribed under section 133 of the Companies Act 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. 3. Board of Directors at their meeting held on 27th May, 2022 had approved financial results which were also communicated to the respective stock exchanges. Based on the same a final dividend of ₹ 2.37 per equity share of ₹ 10/- each, i.e. 23.70 % on paid up equity share capital of the Company for the financial year 2021-22 was declared which was subject to approval of Shareholder's of the Company. Consequent to revision in the financial statements and in compliance of guidelines issued by Department of Investment and Public Asset Management (DIPAM), Government of India, the Board of Directors have recommended a final dividend of ₹ 2.50 per equity share of ₹ 10/- each, i.e. 25 % on paid up equity share capital as against ₹ 2.37 per equity share of ₹ 10/- each recommended earlier. The same is subject to approval of Shareholder's of the Company. This is in addition to the interim dividend of ₹ 1.35 per equity share paid by the Company. 4. The above is an extract of the detailed format of the revised Financial Results for quarter and year ended on 31st March, 2022 filed with the BSE Limited and National Stock Exchange of India Limited under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. SELF-REGULATION BY INTERNET COMPANIES

Divide among Big Tech firms on way forward

SOUMYARENDRA BARIK
New Delhi, August 12

THE GROWING DIVIDE

- Snap and Google oppose an industry proposal to create a self-regulatory body to address complaints by social media users
- Facebook and Twitter are learnt to be in support of the body's creation
- MeitY said it is open to a self-regulatory body of social media companies to handle such issues
- While having a self-regulatory body could make it easy to reach a consensus, disagreements are also likely

THERE IS A growing divide in internet companies on setting up a self-regulatory body — to address complaints by social media users — as an alternative to the Centre's Grievance Appellate Committee (GAC).

Snap and Google oppose an industry proposal to create such a body. They have flagged concerns over the potential inability to legally challenge any final content moderation decisions of a self-governing body, in addition to the difference in the moderation policies of different platforms, many executives aware of these discussions told *The Indian Express*.

Facebook and Twitter, however, are learnt to be in support of the body's creation.

Social media companies, along with industry body Internet and Mobile Association of India (IAMAI), are currently chalking up the contours of a self-regulatory mechanism in response to the Ministry of Electronics and IT's (MeitY's) proposal to set up "government-appointed committees" to address complaints raised by users about social media companies' content-moderation decisions.

In proposed amendments to the Information Technology Rules, MeitY has suggested setting up Grievance Appellate Committees (GACs), even though the ministry said it is open to a self-regulatory body of social media companies to handle such issues.

In June, during a public consultation with stakeholders, minister of state for electronics and IT Rajeev Chandrashekhar had said that the government will go ahead with the proposed appellate committees.

He had added that if the industry were to come up with a self-regulatory mechanism that worked for the government, the ministry would "move to that."

During a closed-door meeting, Google is learnt to have expressed reservations about the current structure of the self-regulatory body which, in a draft policy, said that decisions passed by the body will be binding in nature. This is where the company's concern stems from.

"Orders passed by the GAC can be challenged in court, whereas the scope for challenging a 'binding' order passed by a self-regulatory body is much lower," a source said.

Another argument is that while having senior executives of all social media companies in the self-regulatory body could make it easy to reach a consensus, disagreements are also likely. "Different companies have their respective content moderation guidelines. What is acceptable for a certain firm may not be OK for the other because their community guidelines are different. So the real challenge for any self regulatory body is to reach a consensus on content moderation decisions for all platforms," an executive said.

In a statement, a Google spokesperson said: "We had a preliminary meeting and are engaging in active discussions with the industry as well as the government. We are exploring all options and look forward to working with stakeholders to find the best possible solution." Facebook declined to comment. Queries sent to Twitter, Snap and IAMAI remained unanswered.

An absence of consensus among social media companies could jeopardise its bargaining power with the government to allow a self-regulatory body instead of its proposed GACs. Industry bodies like the US-India Business Council and the Asia Internet Coalition which count major American tech firms as members, have opposed the formation of these government-appointed committees, questioning their effect on independence.

Industry sources also hinted at a "disjointed" way in which deliberations about the self- regulatory body have happened so far. "Many IAMAI members, including some social media companies, were not aware about the steps the body had taken towards the formalisation of the self-regulatory body. A WhatsApp group was initially created and a document was circulated among the members of the group which did not involve many IAMAI members," a source at another tech firm said.

The IAMAI currently runs two self regulatory bodies – the Digital Publisher Content Grievances Council (DPCGC) for online content streaming companies, and a body for edtech companies called India Edtech Consortium (IEC). Another self regulatory body that was set up under the aegis of IAMAI, the Blockchain and Crypto Assets Council (BACC), which represented firms like CoinSwitch Kuber, WazirX, and CoinDCX, was dissolved last month due to regulatory uncertainty surrounding cryptocurrencies.

Twitter banned over 45K Indian accounts in July

SHUBHRA TANDON
New Delhi, August 12

TWITTER BANNED 45,191 accounts of Indian users in July over violation of its guidelines, the microblogging platform said in its August 2022 compliance report.

According to the report, Twitter removed 42,825 accounts for child sexual exploitation, non-consensual nudity, and similar content, while 2,366 accounts were banned for promoting terrorism.

The platform received 1,253 grievances in India though its local grievance mechanism between June 26, 2022 and July 25, 2022 and total number of URLs actioned was 138.

The highest number of complaints — 874 were related to abuse/harassment and 303 against hateful conduct.

Twitter also processed 124 grievances which appealed account suspensions and none were overturned, and all accounts remain suspended, the report said.

The social media platform also received 15 requests related to general questions about Twitter accounts during this reporting period.

"A vast majority of all accounts that are suspended for the promotion of terrorism and child sexual exploitation are proactively flagged by a combination of technology and other purpose-built internal proprietary tools," company said in the report.

All big digital and social media platforms, with more than five million users are required to publish a monthly compliance report under the new IT Rules, 2021.

In compliance with Rule 4(1)(d) of the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021, Twitter is required to publish a monthly compliance report which includes the details of complaints from users via the India grievance mechanism and action taken on them, as well as information related to Twitter's proactive monitoring efforts under the IT Rules.

In June, the micro-blogging website had complied with the IT ministry's notice to comply with the new IT Rules, 2021 by July 4 deadline, or lose its immunity as a social media intermediary under Section 79 of the IT Act.

The government had asked Twitter to act on the content take-down notices sent under Section 69A of the IT Act along with non-compliance notices issued for not taking the content down.

No pressure from Russia to limit energy purchases: India

REUTERS
New Delhi, August 12

INDIA SAID ON Friday there was no pressure on it from Western countries or anywhere else over its energy purchases from Russia, as Indian firms step up imports of oil and coal from the country shunned by some governments for its invasion of Ukraine.

India, the world's third-biggest crude importer, overtook China to become the biggest buyer of Russian oil in July based on sea-borne volumes, having bought very little from the country before the start of the war in Ukraine in February.

Also in July, Russia became India's third-largest coal supplier, up from the sixth position historically, as discounts drove shipments to a record.

The United States has tried to lure India away from its main arms supplier Russia, but New Delhi says its own needs as an emerging country are paramount. India has not condemned the invasion.

Notes:

1 The Company has been admitted in National Company Law Tribunal (NCLT) on 20th December 2019 – Order no. – CP (IB) No. 4374/I&B/MB/2018. As per the order the company is under Corporate Insolvency Resolution process (CIRP) with Resolution professional (RP) namely "Mr. Vijendra Kumar Jain".
The Committee of Creditors approved the Liquidation of the Company in the COC meeting held on 24th August, 2021. Pursuant to this approval, Hon'ble NCLT approved the liquidation vide order dated 16th December 2021 and the liquidator, namely "Mr. Ashish Vyas" was appointed vide modification order dated 4th January, 2022. The modified liquidation order was uploaded and received on 21st January 2022.
An Appeal was filed by the suspended management against the Hon'ble NCLT order. With reference to this appeal, the Hon'ble NCLAT, vide its order dated 31st January, 2022, has stayed the liquidation proceedings, and the matter is directed to be listed on 5th September, 2022. Pursuant to this Order, the Resolution Professional is carrying out the Compliances for the quarter ended 30th June, 2022.

2 The suspended management has not handed over the possession of the corporate and registered office, content library (intangible asset), inventories, other fixed assets, Fixed Assets Register and other such information and records/ documents requested by the Corporate Debtor. The Resolution Professional has filed a non-cooperation petition with Hon'ble NCLT, Mumbai against the suspended management of the Company under section 19 of IBC. The non-cooperation petition was listed on 6th October, 2020. After hearing the non-cooperation Petition at length, an interim Order was passed by the Hon'ble NCLT, Mumbai Bench. The bench appointed Adv. Nikita Abhyankar as the court observer for recording the minutes and also take videography of the joint meeting of RP and Suspended management for handover of live books of accounts, content library, registered office, Kandivali plot, and the related pending information and request, and report the same to Hon'ble NCLT.
After the interim order of the Hon'ble NCLT, recently, limited access to books of accounts for last two financial years was provided. However, Fixed asset register, books of accounts upto 2017-18 and various supporting documents have not been provided. To that effect, the RP has already communicated with the Court Observer. Further, hand-over of the Kandivali plot was completed.
As suspended management has not yet handed over the Fixed Assets register, exact depreciation amount for the quarter ended June 2022 could not be calculated. Accordingly, depreciation amount for the quarter ended June 2022 is assumed to be equal to depreciation amount for the quarter ended March 2022.

3 The above Standalone Financial Results of the Company have been reviewed by the Resolution Professional Committee (in lieu of the Suspended board of Directors) held on 12th August 2022. The Statutory Auditors have carried out the audit of these Standalone Financial Results for the quarter ended June 30, 2022 and the same are made available on website of the company www.adhikaribrothers.com and website of BSE Limited www.bseindia.com and National Stock Exchange of India Limited on www.nseindia.com where shares of the Company are listed.

5 The Company's loan facilities from banks has become Non-performing. However, some of the banks are still charging interest from the date the account has been classified as non performing, as per the bank statements provided. No such interest provision has been made in books of accounts and correspondingly in the financial result for the quarter ended 30th June,2022, since no interest can be charged on initiation of the CIRP due to moratorium under IBC.

6 As per the order received from Hon'ble NCLAT, a Resolution plan received is under consideration of CoC members. Therefore the books of accounts are prepared on going concern basis.

7 RP has instituted a transaction audit of the company for a period of 5 years to be conducted by Forensic Auditor namely, M/s. Shambhu Gupta & Co.
The Transaction Audit Report has reported certain findings of Preferential, Undervalued & Fraudulent Transactions u/s. 43,45 & 66 of the Code, undertaken by the erstwhile management of the Corporate Debtor. Accordingly, the Resolution Professional, with approval of Committee of Creditors, has filed petition with Hon'ble NCLT, Mumbai against the suspended management of the Company under section 43,45 & 66 of IBC.
Further, as part of CIRP, Resolution Professional has appointed valuers for valuing the assets of the company. The valuation of the fixed assets, intangible assets, financial assets and inventory as disclosed in the results for the quarter ended June 30, 2022 are subject to the valuation reports of the valuers.

SAB Events and Governance Now Media Limited, during F/Y 2018-19, after the company account became NPA with the Banks, without taking NOC from these Banks. This is a non-compliance of the mortgage documents executed with the respective Banks. The leave and license terms have been agreed to favour the related parties and are against the interest of the company. Resolution Professional has served the licensees with a termination notice on July 1, 2020 to terminate such leave and license arrangements, to protect the interest of the company. Accordingly license fees related to the above arrangements are not recognized in the books of account as revenue from July ,2020 onwards.
An application is filed by Mr. Markand Adhikari before Hon'ble NCLT, Mumbai Bench for quashing the termination of Leave and Licence Notice issued to the licensees. The outcome of such application cannot be ascertained as on date.

10 The Resolution Professional does not have any control over the books of accounts of the Subsidiary, Westwind Realtors Private Limited. The management of M/s Westwind Realtors Pvt Ltd have not provided the financial results of the quarter ended June 30, 2022 for consolidation.
