Note – 41
Contingent liabilities and commitments

As per the policy at each year end, the Company assesses the possible future outcome of the matters disputed with Direct tax, Indirect Tax and other Regulatory authorities. The assessment is made after considering the facts of the case and applicable statutory provisions. Apart from the cases where possibility of a negative outcome is remote are either provided for or disclosed as contingent liability as per management's assessment.

A. Summary of contingent liabilities

(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Contingent liabilities		
i) Corporate guarantees issued by the Company on behalf of subsidiary companies (refer note 40)	68,491.27	61,923.92
ii) Corporate guarantees issued by the Company on behalf of other entities	26.48	5,084.06
iii) Income tax demand (pending in appeals)*	1,118.25	1,257.91
iv) Service tax demand	2,714.25	2,714.25

* Out of this, ₹ 558.63 lakhs (31 March 2020: ₹ 698.28) pertains to Mariana Infrastructure Limited (erstwhile wholly owned subsidiary) which has been sold during the financial year 2019-20 and as per definitive agreement, any tax demands relating to periods prior to the date of definitive agreement shall be borne by the Company.

Legal Case :

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's Management reasonably expects that these legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company's results of operations or financial condition.

B. Commitments

The Company has undertaken to provide Continued financials supports to certain subsidiaries as and when required.

(This space has been intentionally left blank)

Note – 42

Lease related disclosures as per Ind AS 116

During the financial year 2019-20, the Company had leases for office premises. With the exception of short-term leases and leases of low-value underlying assets, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. Variable lease payments which do not depend on an index or a rate are excluded from the initial measurement of the lease liability and right of use assets. The Company has presented its right-of-use assets in in the balance sheet separately from other assets.

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublease the asset to another party, the right-of-use asset can only be used by the Company. Some leases contain an option to extend the lease for a further term. The Company is prohibited from selling or pledging the underlying leased assets as security. For leases over office buildings, the Company must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Company is required to pay maintenance fees in accordance with the lease contracts.

During the financial year 2020-21, the 2 out of 3 leases for office premises were terminated between the Company and the lessors.

A Lease payments not included in measurement of lease liability

The expense relating to payments not included in the measurement of the lease liability is as follows:

(₹ in lakhs)		
Particulars	31 March 2021	31 March 2020
Short-term leases	-	0.28

B Total cash outflow for leases for the year ended 31 March 2021 was ₹ 286.93 lakhs (31 March 2020: ₹813.43 lakhs)

C Total expense recognised during the year

(₹ in lakhs)		
Particulars	31 March 2021	31 March 2020
Interest on lease liabilities	56.48	217.03
Depreciation on right of use asset	340.14	893.38

D Maturity of lease liabilities

The lease liabilities are secured by the related underlying assets. Future minimum lease payments were as follows:

(₹ in lakhs)					
31 March 2021	Minimum lease payments due				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Lease payments	10.19	-	-	-	10.19
Interest expense	-	-	-	-	-
Net present values	10.19	-	-	-	10.19

(₹ in lakhs)					
31 March 2020	Minimum lease payments due				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Lease payments	816.68	834.85	187.44	-	1,838.97
Interest expense	46.97	54.73	107.68	-	209.38
Net present values	769.71	780.12	79.76	-	1,629.59

E Information about extension and termination options

31 March 2021						
Right of use assets	Number of leases	Range of remaining term (in years)	Average remaining lease term (in years)	Number of leases with extension option	Number of leases with purchase option	Number of leases with termination option

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2021
Note – 43
Employee benefits
Defined contribution plan

The Company has made ₹ 0.90 lakhs (31 March 2020 - ₹ 1.94 lakhs) contribution in respect of provident fund.

Defined Benefit Plan

The Company has the following Defined Benefit Plans:

- Gratuity (Unfunded)
- Compensated absences (Unfunded)

Risks associated with plan provisions

Discount rate risk	Reduction in discount rate in subsequent valuations can increase the liability.
Mortality risk	Actual death and liability cases proving lower or higher than assumed in the valuation can impact the liabilities.
Salary risk	Actual salary increase will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
Withdrawal risk	Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact liability.

Compensated absences

The leave obligations cover the Company's liability for permitted leaves. The amount of provision of ₹ 0.30 lakhs (31 March 2020 - ₹ 0.12 lakhs) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations. However based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months, therefore based on the independent actuarial report, only a certain amount of provision has been presented as current and remaining as non-current. The weighted average duration of the defined benefit obligation is 15.00 years (31 March 2020: 14.81 years).

Actuarial (gain)/loss on obligation:
(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Actuarial (gain)/loss on arising from change in financial assumptions	0.25	0.52
Actuarial (gain) on arising from change in experience adjustment	8.87	(2.02)

Amount recognised in the statement of profit and loss is as under:
(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Service cost	1.23	0.60
Net interest cost	0.45	0.53
Actuarial loss/(gain) for the year	9.12	(1.50)
Expense recognized in the statement of profit and loss	10.80	(0.37)

Movement in the liability recognized in the balance sheet is as under:
(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Present value of defined benefit obligation at the beginning of the year	6.47	6.84
Current service cost	1.23	0.60
Interest cost	0.45	0.53
Actuarial loss/(gain) on obligation	9.12	(1.50)
Benefits paid	-	-
Present value of defined benefit obligation at the end of the year	17.27	6.47

Bifurcation of projected benefit obligation at the end of the year in current and non-current
(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
a) Current liability (amount due within one year)	0.30	0.12
b) Non-current liability (amount due over one year)	16.97	6.35
Total projected benefit obligation at the end of the year	17.27	6.47

For determination of the liability of the Company, the following actuarial assumptions were used:

Particulars	Compensated absences	
	31 March 2021	31 March 2020
Discount rate	6.83%	6.99%
Salary escalation rate	5.50%	5.50%
Mortality table	Indian Assured Lives Mortality (2012 -14)	Indian Assured Lives Mortality (2012 -14)

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2021

As the Company does not have any plan assets, the movement of present value of defined benefit obligation and fair value of plan assets has not been presented.

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year-end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

Maturity plan of Defined Benefit Obligation
(₹ in lakhs)

Sensitivity analysis for compensated absences liability
(₹ in lakhs)

Particulars	31 March 2021	31 March 2020
Impact of the change in discount rate		
Present value of obligation at the end of the year	17.27	6.47
a) Impact due to increase of 0.50 %	(0.77)	(0.37)
b) Impact due to decrease of 0.50 %	0.80	0.39
Impact of the change in salary increase		
Present value of obligation at the end of the year	17.27	6.47
a) Impact due to increase of 0.50 %	0.81	0.40
b) Impact due to decrease of 0.50 %	(0.77)	(0.37)

Sensitivities due to mortality and withdrawal are not material and hence impact of change not calculated.

Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Gratuity plan is a non-funded plan. The weighted average duration of the defined benefit obligation is 15.00 years (31 March 2020: 14.81 years)

Indiabulls Real Estate Limited Employees Stock Options Scheme 2008 (II)

During the year ended 31 March 2009, the Company established the Indiabulls Real Estate Limited Employees Stock Options Scheme - 2008 (II) ("IBREL ESOS-II" or "Plan-II"). Under Plan II, the Company issued equity settled options to its eligible employees and of its subsidiary companies to subscribe upto 2,000,000 stock options representing an equal number of equity shares of face value of ₹ 2 each in the Company, at an exercise price of ₹ 110.50 per option, being the closing market price on the National Stock Exchange of India Limited, as at 29 January 2009. The stock options so granted, shall vest in the eligible employees within 10 years beginning from 31 January 2010, the first vesting date. The stock options granted under each of the slabs, are exercisable by the option holders within a period of five years from the relevant vesting date.

Following is a summary of options granted under the plan

Particulars	31 March 2021	31 March 2020
Opening balance	126,000	165,000
Granted during the year	-	-
Exercised during the year	-	-
Forfeited during the year	48,000	39,000
Closing balance	78,000	126,000
Vested and exercisable	78,000	126,000

Weighted average share exercised price during the year ended 31 March 2021: ₹ Nil (31 March 2020: ₹ Nil)

The fair value of the option under Plan II using the black scholes model, based on the following parameters is ₹ 62.79 per option, as certified by an independent valuer.

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2021**

Particulars	Plan – II
Fair market value of option on the date of grant	₹ 62.79
Exercise price	₹ 110.50
Expected volatility	86%
Expected forfeiture percentage on each vesting date	Nil
Expected option life (weighted average)	10.5 Years
Expected dividend yield	3.92%
Risk free interest rate	6.50%

The expected volatility was determined based on historical volatility data of the Company's shares listed on the National Stock Exchange of India Limited.

Indiabulls Real Estate Limited Employees Stock Options Plan 2010 (III)

During the year ended 31 March 2011, the board of directors and shareholders of the Company have given their consent to create, issue, offer and allot to the eligible employees of the Company and its subsidiary companies, stock options not exceeding 30,000,000 in number, representing 30,000,000 equity shares of face value of ₹2 each of the Company, accordingly the Employee Stock Option Plan - 2010 ("IBREL ESOP 2010" or "Plan-III") has been formed. As per the scheme exercise price will be the market price of the equity shares of the Company, being the latest available closing price, prior to the date of grant or as the case may be decided by the board of directors or compensation committee. During the year ended 31 March 2016, board of directors of the Company at its meeting held on 26 June 2015, re-granted (original grant was of date 14 November 2015) under the "Indiabulls Real Estate Limited Employees Stock Options Plan - 2010", 10,500,000 stock options to eligible employees of the Company and its subsidiary companies representing an equal number of equity shares of face value of ₹ 2 each in the Company, at an exercise price of ₹ 54.50, being the closing market price of previous day on the National Stock Exchange of India Limited. The stock options so granted, shall vest within 5 years beginning from 26 June 2016, the first vesting date. The options vested under each of the slabs, can be exercised within a period of five years from the relevant vesting date.

Following is a summary of options granted under the plan –

Particulars	31 March 2021	31 March 2020
Opening balance	1,708,788	6,042,950
Granted during the year	-	-
Exercised during the year	-	3,983,587
Forfeited during the year	263,100	350,575
Closing balance	1,445,688	1,708,788
Vested and exercisable	1,445,688	28,668

Weighted average share exercised price during the year ended 31 March 2021: ₹ Nil (31 March 2020: ₹ 119.29)

The fair value of the option under Plan III using the black scholes model, based on the following parameters is ₹34.30 per option, as certified by an independent valuer.

Particulars	Plan – III
Fair market value of option on the date of grant	₹ 34.30
Exercise price	₹ 54.50
Expected volatility	89%
Expected forfeiture percentage on each vesting date	Nil
Expected option life (weighted average)	8 Years
Expected dividend yield	3.45%
Risk free interest rate	8.03%

The expected volatility was determined based on historical volatility data of the Company's shares listed on the National Stock Exchange of India Limited.

Indiabulls Real Estate Limited Employees Stock Options Plan 2011 (IV)

During the year ended 31 March 2012, the board of directors and shareholders of the Company have given their consent to create, issue, offer and allot, to the eligible employees of the Company and its subsidiary companies, stock options not exceeding 15,000,000 in number, representing 15,000,000 equity shares of face value of ₹ 2 each, and accordingly the Employee Stock Option Scheme 2011 ("IBREL ESOS 2011") has been formed. As per the scheme exercise price will be the market price of the equity shares of the Company, being the latest available closing price, prior to the date of grant or as may be decided by the board or compensation committee. However, compensation committee of the board has not yet granted any options under IBREL ESOP 2011 Scheme.

Lease liabilities as at 31 March 2021 (current and non-current)	10.19

Note – 46
Segment reporting

The Company's primary business segment is reflected based on principal business activities carried on by the Company i.e. purchase, sale, real estate properties advisory, construction and development of real estate properties and all other related activities which as per Ind AS 108 on 'Operating Segments' is considered to be the only reportable business segment. The Company derives its major revenues from real estate properties advisory business (largely from related parties). The Company is operating in India which is considered as a single geographical segment.

Note – 47

During the previous year 31 March 2020, the Company had received the approval of the National Company Law Tribunal ('Hon'ble NCLT'), Principal Bench, New Delhi to the Scheme of Arrangement ('the Scheme') between Indiabulls Real Estate Limited ('petitioner/transferee company'), India Land and Properties Limited ('transferor company'), Kosmo One Indiabulls Business Park Limited (Formerly known as Indiabulls Infrastructure Limited) ('resulting company') and their respective shareholders and creditors, pursuant to Sections 230 to 232 and other applicable provisions of the Companies Act, 2013. The Company has filed the Scheme with Registrar of Companies ('ROC') on 19 March 2020. In pursuant to the Scheme, the Company has acquired redeemable preference shares amounting to ₹ 45,000.00 lakhs issued by one of the wholly owned subsidiary of the Company and other assets amounting to ₹ 1,520.00 lakhs from the transferor company. The approval of the Scheme was part of overall transaction to divest 100% stake in resulting company (owning Chennai assets). Further, the Company has also valued the remaining stake in resulting company (classified as assets held for sale) at fair value of ₹ 9,000.12 lakhs and thus, recognised net gain on the said transaction amounting to ₹ 24,313.64 lakhs in these financial statements.

Note – 48

During the previous year ended 31 March 2020, the Company had got a fixed consideration amounting to ₹13,707.00 lakhs to the Company as full and final settlement against one of its projects. As a result of this, the Company had surrendered and relinquished all its rights, titles and interest of any nature in respect of the said project. Accordingly, the Company has recognized revenue of ₹ 13,707.00 lakhs and written off the carrying cost of the inventory of ₹ 7,042.57 as cost of sales in these standalone financial statements.

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2021****Note – 49**

During the previous year ended 31 March 2020, the Board of Directors (‘the Board’) of the Company at its meeting held on 31 January 2020, have discussed and approved in-principally the proposal of the merger of certain ongoing, completed and planned residential and commercial projects of Embassy Property Developments Private Limited (‘Embassy’) with the Company. The Board had constituted a Reorganization Committee to examine and evaluate the options to implement the aforementioned merger proposal, including appointment of valuers, merchant bankers, and other intermediaries to prepare and present a draft scheme and related documents, including the valuation reports, fairness opinion, share swap ratio etc., to be placed before the Board for its consideration and final approval. Additionally, Embassy has also reached at an advanced stage of discussions with certain foreign financial investors (‘investors’) for an investment of up to USD 200 million.

Subsequently in the Current year, the Board of Directors of the Company had considered and approved the proposal of merger of NAM Estates Private Limited (‘NAM Estates’) and Embassy One Commercial Property Development Private Limited (‘NAM Opco’) both Embassy group entities with the Company (‘Amalgamation’). The proposed Amalgamation will be achieved through a cashless composite scheme of amalgamation of NAM Estates and NAM Opco into the Company, in accordance with Section 230-232 of the Companies Act, 2013 read with the rules framed thereunder, as amended, and the Securities and Exchange Board of India circular no. CFD/DIL3/CIR/2017/21 dated 10 March 2017, as amended and other applicable regulations and provisions, subject to necessary statutory and other approvals (‘Scheme’). Upon effectiveness of the Scheme, the Company will issue its equity shares, in accordance with the approved share swap ratios, to the shareholders of NAM Estates and NAM Opco, which will include Embassy promoter and promoter entities, Embassy institutional investors and other shareholders. For the proposed Amalgamation and arriving to share swap ratio, IBREL is valued at Rs 92.50 per share.

During the year, the Scheme has been granted approval by Competition Commission of India (‘CCI’) and SEBI/Stock exchanges.

Note – 50

The Company has already obtained approval of Board of Directors (‘the Board’) to buy-back up to 5 crore fully paid-up equity shares of face value Rs. 2 each of the Company, representing approximately 11% of its total existing paid-up equity capital, at Rs. 100 per equity share, aggregating to total buyback size of Rs. 50,000 lakhs, through the ‘Tender Offer’ route, as prescribed under SEBI (Buy-Back of Securities) Regulations, 2018 and the Companies Act, 2013 and rules made thereunder, as amended (hereinafter referred to as the ‘Buyback’), post completion of on-going scheme of arrangement of Chennai assets, which has been filed by the Company with Registrar of Companies on 19 March 2020, the Company is now eligible to launch the buy-back and hence the Board constituted Buyback Committee and has advised the Company’s management to initiate the process of obtaining Company’s shareholders approval through the process of postal ballot to implement the proposed buy-back. The proposed buy-back has been withdrawn by the board during the current financial year.

Note – 51

The pandemic of Corona Virus (COVID-19) has caused unprecedented havoc to the economic activity all around the Globe. The complete lock down announced on 24 March 2020 by the Government of India brought the wheels of economic activity to a grinding halt. The operations are slowly and gradually resuming and expected to reach pre – COVID 19 level in due course of time. The Company is continuously and closely observing the unfolding situation and will continue to do so. The Company has considered the possible impact of COVID-19 in preparing the financial statements including the recoverable value of its assets and its liquidity position based on internal and external information up to the date of approval of these financial statements

Note – 52

As at 31 March 2021, the Company’s financial assets are more than 50 per cent of its total assets (netted of by intangible assets) and income from financial assets is more than 50 per cent of the gross income of the Company. However, basis consolidated financial position, the Company’s financial assets and income from financial assets does not meet the said criteria. The Company was incorporated with an objective of carrying on the business of construction and development of real estate properties and has been carrying the above business in line with the objects clauses stated in its articles of association. Accordingly, the Management basis the legal opinion obtained from an independent legal expert believes that the principal business of the Company is not that of Non-Banking Financial Company and hence it is not required to obtain certificate of registration as a Non-Banking Financial Company under section 45IA of the Reserve Bank of India Act, 1934.

Note – 53**A. Disaggregation of revenue**

Set out below is the disaggregation of the Company’s revenue from contracts with customers:

(₹ in lakhs)

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Revenue from contracts with customers		
Revenue on account of settlement of existing project	-	13,707.00
Revenue from real estate properties advisory and management services	-	1,170.83

B. Contract balances

There is no contract assets and liabilities from contract with customers:

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

Note – 54

The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stake holders which are under active consideration by the Ministry. Based on an initial assessment by the Company, the additional impact on Provident Fund contributions by the Company is not expected to be material, whereas, the likely additional impact on Gratuity liability/ contributions by the Company could be material. The Company will complete their evaluation once the subject rules are notified and will give appropriate impact in the financial results in the period in which, the Code becomes effective and the related rules to determine the financial impact are published.

Independent Auditor's Report

To the Members of Indiabulls Real Estate Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Indiabulls Real Estate Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2020, and its loss (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 52 of the standalone financial statements, which describes the uncertainties due to the outbreak of Covid-2019 pandemic and the management's evaluation of the same on the standalone financial statements of the Company as at the balance sheet date. In view of these uncertainties, the impact on the Company's standalone financial statements is significantly dependent on future developments.

Our opinion is not modified in respect of this matter.

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

Key Audit Matters

5. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
Accounting for demerger scheme Refer note 47 to the standalone financial statements for the detailed impact of the Scheme. In the previous year, the Company had executed a definitive transaction document to divest its 100% stake in tranches in one of its wholly owned subsidiary and as part of said transaction, the Company had divested partial stake (through sale and buy back) which had resulted in loss of control. In previous year, investment held for remaining stake amounting to ₹ 34,706.33 lakhs was classified as 'Investments held for sale'. In parallel, the Company had also filed composite scheme of arrangement ('the Scheme') whereby step down subsidiary of the said wholly owned subsidiary will be demerged into 'demerged undertaking' and 'residual transferor company' and residual transferor company will then merge into the Company. The Scheme was also a part of definitive transaction document. It was also agreed that, the Holding Company will transfer the 'Investments held for sale' once the Scheme is approved and accounted. As described in note 47 to the standalone financial statements, National Company Law Tribunal ('NCLT') approved the Scheme on 03 March 2020, which has been filed with Registrar of Companies on 19 March 2020. Accordingly, the Holding Company has recognised the assets acquired i.e. redeemable preference shares and income tax assets amounting to ₹ 45,000.00 lakhs and ₹ 1,520.00 lakhs in standalone financial statements. Further, the Company has also adjusted/revalued 'Investments held for sale' and recognized a net gain on settlement of overall transaction amounting to ₹ 21,406.90 lakhs in standalone financial statements as presented under note 27. The above transaction required audit focus due to complex contractual terms and due to the significant impact on standalone financial	Our audit procedures to assess the appropriateness of the accounting treatment of the Scheme and overall transaction, included, but were not limited to the following: • Understood the nature of transaction i.e. understanding of the contract terms of definitive transaction document for the proposed accounting treatment in relation to the accounting policies and relevant Ind AS; • Obtained and read the Scheme and final order passed by NCLT; • Tested the appropriateness of management's control over ensuring completeness of conditions precedent to the transactions before recording the transactions; • Reviewed the management's process for review and implementation of such transactions; • Understood from the management, the accounting treatment prescribed in the approved Scheme including the determination of effective date; • Tested the completeness and accuracy of the data used in the computation of net gain on the settlement of overall transaction; and • Ensured appropriate disclosures in the standalone financial statements with respect to the Scheme and overall transaction.

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

Key audit matter	How our audit addressed the key audit matter
statement. The matter has been considered to be of most significance to the audit and accordingly, has been considered as a key audit matter for the current year audit.	
Impairment assessment of investments and loans made to its subsidiaries The Company's policies on the impairment assessment of the investments and loans is set out in Note 4.12 to the standalone financial statements. The Company has investments amounting to ₹ 374,565.05 lakhs (net of impairment) and has outstanding loans amounting to ₹ 444,302.40 lakhs (net of impairment) to its subsidiaries as at 31 March 2020 as disclosed under the Note 8A and 9B to the standalone financial statements. Impairment assessment of these investments and loans is considered as a significant risk as there is a risk that recoverability of the investments and loans could not be established, and potential impairment charge might be required to be recorded in the standalone financial statements. The recoverability of these investments is inherently subjective due to reliance on either the net worth of investee or valuations of the properties held or cash flow projections of real estate properties in these investee companies. However, due to their materiality in the context of the Company's standalone financial statements as a whole and significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, this is considered to be the area to be of most significance to the audit and accordingly, has been considered as a key audit matter for the current year audit.	Our procedures in relation to the impairment assessment of investments and loans included, but not limited to the following: • Assessed the appropriateness of the Company's accounting policy by comparing with applicable Ind AS; • We obtained an understanding of the management process for identification of possible impairment indicators and process performed by the management for impairment testing; • Enquired of the management and understood the internal controls related to completeness of the list of loans and investment along with the process followed to recover/adjust these and assessed whether further provisioning is required; • Performed test of details: a. For all significant additions made during the year, underlying supporting documents were verified to ensure that the transaction has been accurately recorded in the standalone financial statement; b. For all significant investments and loans outstanding as at 31 March 2020, confirmations were circulated and received. Further, all the significant reconciling items were tested; c. All material investments and significant loans as at 31 March 2020 were discussed on case to case basis with the management for their plan of recovery/adjustment; d. Compared the carrying value of material investments and significant loans to the net assets of the underlying entity, to identify whether the net assets, being an approximation of their minimum recoverable amount, were in excess of their

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

Key audit matter	How our audit addressed the key audit matter
	carrying amount; and e. Wherever the net assets were lower than the recoverable amount, for material amounts: i. We obtained and verified the management certified cash flow projections of real estate properties and tested the underlying assumptions used by the management in arriving at those projections; ii. We challenged the managements on the underlying assumptions used for the cash flow projections, considering evidence available to support these assumptions and our understanding of the business; iii. We obtained and verified the valuation of land parcels as per the government prescribed circle rates; and iv. We assessed the appropriateness and adequacy of the disclosures made by the management for the impairment losses recognized in accordance with applicable accounting standards.

(This space has been intentionally left blank)

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

Information other than the Financial Statements and Auditor's Report thereon

7. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those charged with governance for the Standalone Financial Statements

8. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements system in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

Report on Other Legal and Regulatory Requirements

16. Based on our audit, we report that the Company has not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable.
17. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.
18. Further to our comments in Annexure A, as required by section 143(3) of the Act, bases on our audit, we report, to the extent applicable, that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of section 164(2) of the Act;
 - f) the matter described in paragraph 4 under the Emphasis of Matter, in our opinion, may have an adverse effect on the functioning of the Company;
 - g) we have also audited the internal financial controls with reference to financial reporting (IFCoFR) of the Company as on 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 14 May 2020 as per Annexure B expressed unmodified opinion; and
 - h) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in Note 41A to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2020;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2020; and

Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2020

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, right of use assets and intangible assets.
- (b) The property, plant and equipment have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the property, plant and equipment is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The lease deeds of all the immovable properties (which are included under the head 'right of use assets') are held in the name of the Company. The Company does not hold any immovable property (in the nature of 'property, plant and equipment').
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has granted interest free as well as interest bearing unsecured loans to companies covered in the register maintained under Section 189 of the Act; and with respect to the same:
 - (a) in our opinion the terms and conditions of grant of such loans are not, prima facie, prejudicial to the Company's interest.
 - (b) the schedule of repayment of principal has been stipulated wherein the principal amounts are repayable on demand and since the repayment of such loans has not been demanded, in our opinion, repayment of the principal amount and the interest are regular, except for the loans given to the companies which are interest free; and
 - (c) there is no overdue amount in respect of loans granted to such companies.
- (iv) In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products/services and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii)(a) The Company is regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, service tax, duty of customs, duty of excise, value added tax, goods and services tax, cess and other material statutory dues, as applicable, to the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2020

- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise, value added tax and goods and services tax on account of any dispute, are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in lakhs)	Amount paid under protest (₹ in lakhs)	Period to which the amount relates	Forum where dispute is pending
Income-tax Act, 1961	Disallowance under section 14A	146.26	-	Assessment Year 2009-10	Hon'ble High Court of Mumbai
Income-tax Act, 1961	Disallowance under section 14A	161.88	-	Assessment Year 2010-11	Hon'ble High Court of Mumbai
Income-tax Act, 1961	Disallowance under section 14A	213.05	-	Assessment Year 2011-12	Hon'ble High Court of Mumbai
Income-tax Act, 1961	Disallowance under section 14A	38.43	-	Assessment Year 2013-14	Income Tax Appellate Tribunal
The Finance Act, 2004 and Service tax rules	Denial of service tax input credit	1,695.25	-	Assessment year 2011-12 to 2014-15	Assistant Commissioner of Service Tax
The Finance Act, 2004 and Service tax rules	Denial of service tax input credit	1,019.00	-	Assessment year 2016-17 to June 2017	Deputy Commissioner of Service Tax

- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank or any dues to debenture holders during the year. The Company did not have any loans or borrowings payable to financial institution or government during the year.
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments). In our opinion, The Company has applied moneys raised by way of the term loans for the purposes for which these were obtained, though idle/surplus funds which were not required for immediate utilisation have been invested in liquid investments, payable on demand.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) The Company has not paid or provided for any managerial remuneration. Accordingly, the provisions of Clause 3(xi) of the Order are not applicable.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the financial statements etc., as required by the applicable Ind AS.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2020

- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- (xvi) As detailed in Note 53 to the financial statements, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Indiabulls Real Estate Limited ('the Company') as at and for the year ended 31 March 2020, we have audited the internal financial controls financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited on the standalone financial statements for the year ended 31 March 2020

assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

1. Nature of principal activities

Indiabulls Real Estate Limited ('the Company') was incorporated on 04 April 2006 with the main objects of carrying on the business of real estate properties advisory, properties marketing, maintenance of completed properties, engineering, industrial and technical consultancy, construction and development of real estate properties and other related and ancillary activities. The Company is domiciled in India and its registered office is situated at M-62 and 63, First Floor, Connaught Place, New Delhi – 110001.

2. General information and statement of compliance with Ind AS

These standalone financial statements ("financial statements") of the Company have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015 (by Ministry of Corporate Affairs ("MCA")), as amended and other relevant provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented.

The financial statements for the year ended 31 March 2020 were authorized and approved for issue by the Board of Directors on 14 May 2020. The revisions to the financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

3. Basis of accounting

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities and share based payments which are measured at fair values as explained in relevant accounting policies. Fair valuations related to financial assets and financial liabilities are categorised into level 1, level 2 and level 3 based on the degree to which the inputs to the fair value measurements are observable.

4. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below. These were used throughout all periods presented in the financial statements.

4.1 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Companies Act 2013. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

4.2 Property, plant and equipment (PPE)

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Companies Act, 2013.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Asset class	Useful life
Plant and equipment	12 – 15 years
Office equipment	5 years
Computers	3 – 6 years
Furniture and fixtures	10 years
Vehicles	8 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition

An item of property, plant and equipment initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in statement of profit and loss when the asset is derecognised.

4.3 Intangible assets

Recognition and initial measurement

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortisation)

The cost of capitalized software is amortized over a period in the four years from the date of its acquisition.

De-recognition

Intangible assets are de-recognised upon disposal or when no further economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in the statement of profit and loss, when the asset is de-recognised.

4.4 Asset held for sale

Non-current assets are classified as held for sale if their sale is considered highly probable. They are measured at fair value less cost to sell.

4.5 Inventories

Land other than that transferred to real estate properties under development is valued at lower of cost or net realizable value.

Real estate properties (developed and under development) includes cost of land under development, internal and external development costs, construction costs, and development/construction materials, borrowing costs and related overhead costs and is valued at lower of cost or net realizable value.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs of necessary to make the sale.

4.6 Revenue recognition

Revenue is recognised when control is transferred and is accounted net of rebate and taxes. The Company applies the revenue recognition criteria to each nature of the revenue transaction as set out below.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Revenue on account of settlement of existing project

Revenue from such settlement is recognised in the year in which the underlying executed documents are received and there exists no uncertainty in the ultimate collection of consideration.

Revenue from real estate properties advisory and management services

Income arising from real estate properties advisory services is recognised in the period in which the services are being rendered. The Company considers the terms of the contract and its customary business practices to determine the transaction price. The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

Profit on sale of investment with underlying business

Profit on sale of investments of entities in the real estate business is recognised when such investments are sold after adjusting the consideration received with carrying value of investment. The said profit is recognised as part of other operating income as in substance, such sale reflects the sale of real estate business. However, in case of loss on sale of such investments, the same is recognised as part of other expense.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

Gain on amortised cost financial assets

Gain on de-recognition of amortised cost financial assets is recognised in the year when the entire payment is received against the outstanding balance of amortised cost financial assets.

4.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the statement of profit and loss as incurred.

4.8 Right of use assets and lease liabilities

Till previous year, assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straightline basis except where scheduled increase in rent compensate the lessor for expected inflationary costs.

For any new contracts entered into on or after 1 April 2019, the Company considers whether a contract is, or contains a lease (the transition approach has been explained and disclosed in Note 42). A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

Classification of leases

The Company enters into leasing arrangements for various assets. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

Recognition and initial measurement

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Subsequent measurement

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

The Company has elected to account for short-term leases using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

4.9 Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

4.10 Foreign currency

Functional and presentation currency

The financial statements are presented in Indian Rupee ('INR' or '₹') which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss when they arise.

4.11 Investments

Investment in equity instruments of subsidiaries and joint ventures are measured at cost as per Ind AS 27 'Separate Financial Statements'.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

4.12 Financial instruments

Non-derivative financial assets

Recognition and initial measurement

All financial assets are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

- i. **Debt instruments at amortised cost** – A ‘debt instrument’ is measured at the amortised cost if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- ii. **Equity investments** – All equity investments in scope of ‘Ind AS 109 Financial Instruments’ (‘Ind AS 109’) are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).
- iii. **Mutual funds** – All mutual funds in scope of Ind AS 109 are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset measured at amortized cost (or, depending on the business model, at fair value through other comprehensive income).

Non-derivative financial liabilities

Recognition and initial measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted.

Subsequent measurement

Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability measured at amortized cost (or, depending on the business model, at fair value through other comprehensive income). The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Derivatives

The Company has entered into certain forward (derivative) contracts to hedge risks. These derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Any profit or loss arising on cancellation or renewal of such derivative contract is recognised as income or as expense for the period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

4.13 Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. The Company factors historical trends and forward looking information to assess expected credit losses associated with its assets and impairment methodology applied depends on whether there has been a significant increase in credit risk.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition, if the financial asset is determined to have low credit risk at the balance sheet date.

4.14 Income taxes

Tax expense recognized in statement of profit and loss comprises the sum of deferred tax and current tax except the ones recognized in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

4.15 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and other short-term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

4.16 Employee benefits

Defined contribution plan

The Company's contribution to provident fund is charged to the statement of profit and loss or inventorized as a part of real estate properties under development, as the case may be. The Company's contributions towards provident fund are deposited with the regional provident fund commissioner under a defined contribution plan.

Defined benefit plan

The Company has unfunded gratuity as defined benefit plan where the amount that an employee will receive on retirement is defined by reference to the employee's length of service and final salary. The liability recognised in the balance sheet for defined benefit plans as the present value of the defined benefit obligation (DBO) at the reporting date. Management estimates the DBO annually with the assistance of independent actuaries. Actuarial gains/losses resulting from re-measurements of the liability are included in other comprehensive income.

Other long-term employee benefits

The Company also provides benefit of compensated absences to its employees which are in the nature of long-term employee benefit plan. Liability in respect of compensated absences becoming due and expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method as on the reporting date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recorded in the statement of profit and loss in the year in which such gains or losses arise.

Short-term employee benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. is recognized on the basis of the amount paid or payable for the period during which services are rendered by the employee.

4.17 Share based payments

Share based compensation benefits are provided to employees via Employee Stock Option Plans (ESOPs). The employee benefit expense is measured using the fair value of the employee stock options and is recognised over vesting period with a corresponding increase in equity. The vesting period is the period over which all the specified vesting conditions are to be satisfied. On the exercise of the employee stock options, the employees will be allotted equity shares of the Company.

4.18 Provisions, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed. However, when realization of income is virtually certain, related asset is recognized.

4.19 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

4.20 Significant management judgement and estimates in applying accounting policies

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the related disclosures.

Significant management judgements

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

Provisions – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Classification of leases – The Company enters into leasing arrangements for various premises. The assessment (including measurement) of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/terminate etc. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to extend or to terminate.

Significant estimates

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utilisation of assets.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

Defined benefit obligation (DBO) – Management’s estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

iv Rights, preferences and restrictions attached to equity and preference shares

The holders of equity shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In the event of liquidation of the Company, all preferential amounts, if any, shall be discharged by the Company. The remaining assets of the Company shall be distributed to the holders of equity shares in proportion to the number of shares held to the total equity shares outstanding as on that date. All shares rank equally with regard to the Company's residual assets, except that holders of preference shares participate only to the extent of the face value of the shares.

Nature and purpose of other reserves***General reserve***

The Company is required to create a general reserve out of the profits when the Company declares dividend to shareholders.

Capital reserve

The Company has issued share warrants in the earlier years. This reserve is created on account of forfeiture of share application money received on account of issuance of share warrants as share warrants holders did not exercise their rights.

Debenture redemption reserve

The Company is required to create a debenture redemption reserve out of the profits which are available for redemption of debentures.

Capital redemption reserve

The same has been created in accordance with provisions of Companies Act for the buy back of equity shares from the market.

Deferred employee compensation reserve

The reserve is used to recognise the grant date fair value of the options issued to employees under Company's employee stock option plan.

Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with provisions of the Companies Act 2013.

Retained earnings

Retained earnings is used to record balance of statement of profit and loss.

Fair valuation of equity instruments

The Company has elected to recognise the fair value of certain investments in equity shares in other comprehensive income. These changes are accumulated within this reserve under the head equity. The Company transfers amounts from this reserve to retained earnings when the relevant equity instruments are derecognised.

\$ including fee for additional efforts

This is provision recognised for non-recoverable/ adjustable goods and services tax input credit.

* During the previous year, the amount written off was on account of few wholly owned subsidiaries of the Company being voluntarily dissolved and struck off from the register of companies.

Note - 34

Tax expenses

Current tax reversal - earlier years (refer note 49)	(44.02)	-
Deferred tax charge	3,526.41	4,401.44
Income tax expense reported in the statement of profit or loss	3,482.39	4,401.44

The Company has elected to exercise the option permitted under section 115BAA of the Income-tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019. Accordingly, the Company has recognised provision for income tax for the period ended 31 March 2020 and re-measured its deferred tax assets/liabilities basis the rate prescribed in the aforesaid section.

The major components of the reconciliation of expected tax expense based on the domestic effective tax rate of the Company at 25.168% and the reported tax expense in the statement of profit or loss are as follows:

	31 March 2020 (₹ in lakhs)	31 March 2019 (₹ in lakhs)
Reconciliation of tax expense and the accounting profit multiplied by India's tax rate		
Accounting (loss)/profit before tax from continuing operations	(5,053.23)	15,002.63
Accounting profit before income tax	(5,053.23)	15,002.63
At statutory income tax rate of 25.168% (31 March 2019: 34.944%)	(1,271.80)	5,242.53
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Tax impact of exempted income	(5,817.27)	(829.11)
Tax impact of expenses which will never be allowed	417.26	2.70
Tax impact of unrecognised deferred tax on temporary difference	3,561.82	-
Tax impact of capital loss/(gain) charged at different rate	-	(261.32)
Tax impact on indexation benefits under Income Tax Act, 1961	(32,747.73)	(5,116.24)
Tax impact of unrecognised deferred tax on capital losses	37,009.12	-
Tax impact of unrecognised deferred tax on unabsorbed losses	408.73	5,763.67
Reversal of minimum alternate credit entitlement	2,262.65	-
Others	(340.39)	(400.79)
Income tax expense	3,482.39	4,401.44

Note - 35

Earnings per share (EPS)

Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Company. Basic earnings per share is computed using the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number potential equity shares outstanding during the year including share options, except where the result would be anti-dilutive. Weighted average number of equity shares includes impact of buy back of equity shares during the year.

The following reflects the income and share data used in the basic and diluted EPS computations:

	31 March 2020	31 March 2019
(Loss)/profit attributable to equity holders (₹ in lakhs)	(8,535.62)	10,601.19
Nominal value of equity share (₹)	2.00	2.00
Total number of equity shares outstanding at the beginning of the year	450,680,289	474,674,139
Total number of equity shares outstanding at the end of the year	454,663,876	450,680,289
Weighted average number of equity shares for basic earning per share	453,834,397	456,666,283
Add: Share based options*	-	-
Weighted average number of equity shares adjusted for diluted earning per share	453,834,397	456,666,283
Earnings per equity share:		
Basic (₹)	(1.88)	2.32
Diluted (₹)	(1.88)	2.32

*Potential equity shares are anti-dilutive in nature, hence they have not been considered for calculating weighted average number of equity shares used to compute diluted earnings per share.

Note - 36**Fair value measurements****(i) Fair value hierarchy**

Financial assets and financial liabilities measured at fair value in the financial statements are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability.

(ii) Financial assets measured at fair value**(₹ in lakhs)**

31 March 2020	Level 1	Level 2	Level 3	Total
Financial instruments at FVTPL				
Mutual funds	1.12	-	-	1.12
Financial instruments at FVOCI				
Quoted equity instruments	2,957.17	-	-	2,957.17
Total financial assets	2,958.29	-	-	2,958.29

Financial assets measured at fair value**(₹ in lakhs)**

31 March 2019	Level 1	Level 2	Level 3	Total
Financial instruments at FVTPL				
Mutual funds	1.04	-	-	1.04
Financial instruments at FVOCI				
Quoted equity instruments	5,914.35	-	-	5,914.35
Derivative asset at FVTPL				
Forward contract	-	3,242.41	-	3,242.41
Total financial assets	5,915.39	3,242.41	-	9,157.80

(iii) Valuation process and technique used to determine fair value

Specific valuation techniques used to value financial instruments include -

- (i) Traded (market) price basis recognised stock exchange for equity shares.
- (ii) Use of net asset value for mutual funds on the basis of the statement received from investee party.
- (iii) The value of derivative contracts are determined using forward exchange rates at balance sheet date.

Total financial liabilities	-	-	239,585.11	-	-	404,887.92

Investment in subsidiaries and joint ventures are measured at cost as per Ind AS 27, 'Separate financial statements'.

* These financial assets are mandatorily measured at fair value.

These financial assets represents investment in equity instruments designated as such upon initial recognition.

ii) Fair value of instruments measured at amortised cost

(₹ in lakhs)

Particulars	Level	31 March 2020		31 March 2019	
		Carrying value	Fair value	Carrying value	Fair value
Financial assets					
Investments (bonds)	Level 3	6,282.66	6,282.66	6,279.67	6,279.67
Loans	Level 3	1,129.22	1,129.22	1,290.22	1,290.22
Other financial assets	Level 3	5,048.00	5,048.00	8,677.83	8,677.83
Total financial assets		12,459.88	12,459.88	16,247.72	16,247.72
Financial liabilities					
Borrowings*	Level 3	46,201.50	46,201.50	210,143.94	210,143.94
Total financial liabilities		46,201.50	46,201.50	210,143.94	210,143.94

The above disclosures is presented for non-current financial assets and non-current financial liabilities. Carrying value of current financial assets and current financial liabilities (investments, trade receivables, cash and cash equivalents, other bank balances, loans, other financial assets, borrowings, lease liabilities and other current financial liabilities) represents the best estimate of fair value.

*A part of the non-convertible redeemable debentures issued by the Company are listed on stock exchange and there is no comparable instrument having the similar terms and conditions with related security being pledged and hence the carrying value of the debentures represents the best estimate of fair value.

iii) Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

(A) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

a) Credit risk management

i) Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

Asset group	Basis of categorisation	Provision for expenses credit loss
A: Low credit risk	Investments, trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	12 month expected credit loss/Life time expected credit loss
C: High credit risk	Trade receivables and loans	Life time expected credit loss/fully provided for

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in statement of profit and loss.

Assets under credit risk –		(₹ in lakhs)	
Credit rating	Particulars	31 March 2020	31 March 2019
A: Low credit risk	Investments, trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	488,708.24	394,932.71
C: High credit risk	Trade receivables and loans	5,087.92	266.87

ii) *Concentration of financial assets*

The Company's principal business activities are real estate project advisory, construction and development of real estate properties and all other related activities. The Company's outstanding receivables are for real estate project advisory business. Loans and other financial assets majorly represents loans to subsidiaries and deposits given for business purposes.

b) **Credit risk exposure**

Provision for expected credit losses

The Company provides for 12 month expected credit losses for following financial assets –

As at 31 March 2020				(₹ in lakhs)
Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision	
Investments	6,282.66	-	6,282.66	
Trade receivables	33.04	33.04	-	
Cash and cash equivalents	1,480.71	-	1,480.71	
Other bank balances	24,147.88	-	24,147.88	
Loans	450,565.72	5,054.88	445,510.84	
Security deposit	1,149.22	-	1,149.22	
Other financial assets	5,049.01	-	5,049.01	

As at 31 March 2019				(₹ in lakhs)
Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision	
Investments	6,279.67	-	6,279.67	
Trade receivables	622.40	33.04	589.36	
Cash and cash equivalents	2,648.73	-	2,648.73	
Other bank balances	5,970.75	-	5,970.75	
Loans	369,419.68	233.83	369,185.85	
Security deposit	1,311.61	-	1,311.61	
Other financial assets	8,679.86	-	8,679.86	

Expected credit loss for trade receivables under simplified approach

The Company's outstanding trade receivables are less than six months old and the Company expects that money will be received in due course.

Reconciliation of loss provision			(₹ in lakhs)
Reconciliation of loss allowance	Trade receivables	Loans	
Loss allowance on 31 March 2018	33.04	233.83	
Impairment loss recognised during the year	-	-	
Loss allowance on 31 March 2019	33.04	233.83	
Impairment loss recognised during the year	-	4,821.05	
Loss allowance on 31 March 2020	33.04	5,054.88	

(B) **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities.

31 March 2020						(₹ in lakhs)
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total	
Non-derivatives						
Borrowings	182,773.45	24,000.00	22,500.00	-	229,273.45	
Lease liabilities	816.68	834.85	187.44	-	1,838.97	
Other financial liabilities	10,006.72	-	-	-	10,006.72	
Total	193,596.85	24,834.85	22,687.44	-	241,119.14	

(₹ in lakhs)					
31 March 2019	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Non-derivatives					
Borrowings	190,837.82	166,500.00	24,000.00	22,500.00	403,837.82
Other financial liabilities	4,168.11	-	-	-	4,168.11
Total	195,005.93	166,500.00	24,000.00	22,500.00	408,005.93

(C) Market risk**(i) Interest rate risk**

The Company's fixed rate borrowings are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

(₹ in lakhs)		
Particulars	31 March 2020	31 March 2019
Variable rate borrowing	130,005.96	131,025.48
Fixed rate borrowing	97,942.84	269,694.33
Total borrowings	227,948.80	400,719.81

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from variable rate borrowings as a result of changes in interest rates.

(₹ in lakhs)		
Particulars	31 March 2020	31 March 2019
Interest rates – increase by 1% (31 March 2019: 1%)	1,300.06	1,310.25
Interest rates – decrease by 1% (31 March 2019: 1%)	(1,300.06)	(1,310.25)

(ii) Price risk

The Company's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments in equity securities, the Company diversifies its portfolio of assets.

Sensitivity

Profit or loss and equity is sensitive to higher/lower prices of instruments on the Company's profit for the periods -

(₹ in lakhs)		
Particulars	31 March 2020	31 March 2019
Price sensitivity		
Price increase by (10%) - FVOCI instrument	295.72	591.44
Price decrease by (10%) - FVOCI instrument	(295.72)	(591.44)
Price increase by (2%) - FVTPL instrument	0.02	0.02
Price decrease by (2%) - FVTPL instrument	(0.02)	(0.02)

(iii) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from derivative contracts.

Foreign currency risk exposure:

(₹ in lakhs)			
Particulars	Currency	31 March 2020	31 March 2019
Derivative assets	GBP	-	3,242.41

Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

Foreign currency risk exposure:

Particulars	Currency	Exchange rate increase by 1%		Exchange rate decrease by 1%	
		31 March 2020	31 March 2019	31 March 2020	31 March 2019
Derivative assets	GBP	-	32.42	-	(32.42)

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020
Note – 38
Capital management

The Company's objectives when managing capital are:

- To ensure Company's ability to continue as a going concern, and
- To provide adequate return to shareholders

Management assesses the capital requirements in order to maintain an efficient overall financing structure. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company manages its capital requirements by overseeing the following ratios –

Debt equity ratio		(₹ in lakhs)	
	31 March 2020	31 March 2019	
Net debt *	197,271.09	383,421.46	
Total equity	644,936.78	654,176.15	
Net debt to equity ratio	0.31	0.59	

* Net debt includes non-current borrowings *plus* current borrowings *plus* current maturities of non-current borrowings *less* cash and cash equivalents (including bank deposits and other liquid securities).

Debt service coverage ratio		(₹ in lakhs)	
	31 March 2020	31 March 2019	
Earnings before interest and tax	24,766.83	47,782.59	
Interest expense for the year + Principal repayments of non-current borrowings during the year	119,928.43	111,293.73	
Debt service coverage ratio	0.21	0.43	

The Company does not have any undrawn borrowing facilities.

Note – 39

Contingent liabilities and commitments
A. Summary of contingent liabilities
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Contingent liabilities		
i) Corporate guarantees issued by the Company on behalf of subsidiary companies (refer note 40)	61,923.92	701,942.38
ii) Corporate guarantees issued by the Company on behalf of other entities	5,084.06	-
iii) Income tax demand (pending in appeals)*	1,257.91	2,041.06
iv) Service tax demand	2,714.25	1,695.25

* Out of this, ₹ 698.28 lakhs (31 March 2019: ₹ Nil) pertains to Mariana Infrastructure Limited (erstwhile wholly owned subsidiary) which has been sold during the year and as per definitive agreement, any tax demands relating to periods prior to the date of definitive agreement shall be borne by the Company.

B. Commitments

i. The Company had given Sponsors Support Undertaking ("SSU") to fund the required equity and any shortfall in means of finance by subscription to the shares of RattanIndia Power Limited, a company together promoted by RattanIndia Infrastructure Limited and RR Infra Land Private Limited, for term loan facility sanctioned to RattanIndia Power Limited ("RPL") in the event of inability of RPL to arrange the required equity support for Amravati Power Project Phase II. Under the SSU, the Company had also guaranteed to meet RPL's debt obligations in respect of Amravati Power Project Phase II in the event coal linkage for the project is cancelled/deferred and RPL fails to make any alternate arrangement of required coal six months prior to the scheduled commercial operation date of unit I of Amravati Power Project Phase II. Pursuant to the demerger of the power business from the Company vide order dated 17 October 2011 passed by the Hon'ble Delhi High Court in Company Petition No 295 of 2011, all the liabilities and obligations of the Company in relation to the power business stood transferred and vested into RattanIndia Infrastructure Limited. Furthermore, the promoters of RPL have subsequently undertaken not to drawdown any funds from such debt facilities with respect to Amravati Power Project Phase II.

ii. The Company has undertaken to provide continued financial support to certain subsidiaries as and when required.

Note – 42**Lease related disclosures as per Ind AS 116**

The Company has leases for office building. With the exception of short-term leases and leases of low-value underlying assets, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. Variable lease payments which do not depend on an index or a rate are excluded from the initial measurement of the lease liability and right of use assets. The Company has presented its right-of-use assets in the balance sheet separately from other assets.

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublease the asset to another party, the right-of-use asset can only be used by the Company. Some leases contain an option to extend the lease for a further term. The Company is prohibited from selling or pledging the underlying leased assets as security. For leases over office buildings, the Company must keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Further, the Company is required to pay maintenance fees in accordance with the lease contracts.

A Lease payments not included in measurement of lease liability

The expense relating to payments not included in the measurement of the lease liability is as follows:

(₹ in lakhs)	
Particulars	31 March 2020
Short-term leases	0.28

B Total cash outflow for leases for the year ended 31 March 2020 was ₹ 813.43 lakhs.**C Total expense**

(₹ in lakhs)	
Particulars	31 March 2020
Interest on lease liabilities	217.03
Depreciation on right of use asset	893.38

D Maturity of lease liabilities

The lease liabilities are secured by the related underlying assets. Future minimum lease payments were as follows:

31 March 2020		(₹ in lakhs)				
		Minimum lease payments due				Total
		Less than 1 year	1-2 years	2-3 years	More than 3 years	
Lease payments		816.68	834.85	187.44	-	1,838.97
Interest expense		141.66	65.16	2.56	-	209.38
Net present values		675.02	769.69	184.88	-	1,629.59

E Information about extension and termination options

Right of use assets	Number of leases	Range of remaining term (in years)	Average remaining lease term (in years)	Number of leases with extension option	Number of leases with purchase option	Number of leases with termination option
Office premises	3	1.59 to 2.44	2.09	2	-	3

(This space has been intentionally left blank)

F Impact on transition

- 1 Effective 1 April 2019, the Company has adopted Ind AS 116 "Leases" and applied modified retrospective approach to all lease contracts existing as at 1 April 2019. On transition, the adoption of new standard resulted in recognition of lease liabilities of ₹ 2,452.25 lakhs and corresponding right of use asset of ₹ 2,672.55 lakhs.
- 2 For contracts in place as at 1 April 2019, Company has elected to apply the definition of a lease from Ind AS 17 and has not applied Ind AS 116 to arrangements that were previously not identified as lease under Ind AS 17.
- 3 The Company has elected not to include initial direct costs in the measurement of the right-of-use asset for operating leases in existence at the date of initial application of Ind AS 116, being 1 April 2019.
- 4 Instead of performing an impairment review on the right-of-use assets at the date of initial application, the Company has relied on its historic assessment as to whether leases were onerous immediately before the date of initial application of Ind AS 116.
- 5 On transition, for leases previously accounted for as operating leases with a remaining lease term of less than 12 months, the Company has applied the optional exemptions to not recognise right-of-use assets but to account for the lease expense on a straight-line basis over the remaining lease term.
- 6 The Company has benefited from the use of hindsight for determining the lease term when considering options to extend and terminate leases.
- 7 On transition to Ind AS 116 the weighted average incremental borrowing rate applied to lease liabilities recognised was 10.50%.
- 8 The following is a reconciliation of total operating lease commitments at 31 March 2019 (as disclosed in the financial statements for the year ended 31 March 2019) to the lease liabilities recognised at 1 April 2019:

(₹ in lakhs)	
Particulars	Amount
Total operating lease commitments disclosed as at 31 March 2019	435.70
Other adjustments relating to lease commitment disclosures	2,470.08
Operating lease liabilities before discounting	2,905.78
Discounting impact (using incremental borrowing rate)	(453.53)
Operating lease liabilities	2,452.25
Finance lease obligations under Ind AS 17	-
Total lease liabilities recognised under Ind AS 116 at 1 April 2019	2,452.25

9 Bifurcation of lease liabilities at the end of the year in current and non-current

(₹ in lakhs)	
Particulars	31 March 2020
a) Current liability (amount due within one year)	769.71
b) Non-current liability (amount due over one year)	859.88
Total lease liabilities at the end of the year	1,629.59

(This space has been intentionally left blank)

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020
Note – 43
Employee benefits
Defined contribution plan

The Company has made ₹ 1.94 lakhs (31 March 2019 - ₹ 3.05 lakhs) contribution in respect of provident fund.

Defined Benefit Plan

The Company has the following Defined Benefit Plans:

- Gratuity (Unfunded)
- Compensated absences (Unfunded)

Risks associated with plan provisions

Discount rate risk	Reduction in discount rate in subsequent valuations can increase the liability.
Mortality risk	Actual death and liability cases proving lower or higher than assumed in the valuation can impact the liabilities.
Salary risk	Actual salary increase will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
Withdrawal risk	Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact liability.

Compensated absences

The leave obligations cover the Company's liability for permitted leaves. The amount of provision of ₹ 0.12 lakhs (31 March 2019 - ₹ 0.60 lakhs) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations. However based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months, therefore based on the independent actuarial report, only a certain amount of provision has been presented as current and remaining as non-current. The weighted average duration of the defined benefit obligation is 14.81 years (31 March 2019: 13.02 years).

Actuarial (gain)/loss on obligation:
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Actuarial (gain)/loss on arising from change in financial assumptions	0.52	0.36
Actuarial (gain) on arising from change in experience adjustment	(2.02)	(0.35)

Amount recognised in the statement of profit and loss is as under:
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Service cost	0.60	0.74
Net interest cost	0.53	0.45
Actuarial loss/(gain) for the year	(1.50)	0.01
Expense recognized in the statement of profit and loss	(0.37)	1.20

Movement in the liability recognized in the balance sheet is as under:
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Present value of defined benefit obligation at the beginning of the year	6.84	5.64
Current service cost	0.60	0.74
Interest cost	0.53	0.45
Actuarial loss/(gain) on obligation	(1.50)	0.01
Benefits paid	-	-
Present value of defined benefit obligation at the end of the year	6.47	6.84

Bifurcation of projected benefit obligation at the end of the year in current and non-current
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
a) Current liability (amount due within one year)	0.12	0.60
b) Non-current liability (amount due over one year)	6.35	6.24
Total projected benefit obligation at the end of the year	6.47	6.84

For determination of the liability of the Company, the following actuarial assumptions were used:

Particulars	Compensated absences	
	31 March 2020	31 March 2019
Discount rate	6.99%	7.71%
Salary escalation rate	5.50%	5.50%
Mortality table	Indian Assured Lives Mortality (2012 -14)	Indian Assured Lives Mortality (2006 -08)

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020

As the Company does not have any plan assets, the movement of present value of defined benefit obligation and fair value of plan assets has not been presented.

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year-end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

Maturity plan of Defined Benefit Obligation
(₹ in lakhs)

	Year	31 March 2020	Year	31 March 2019
a)	April 2020 – March 2021	0.12	April 2019 – March 2020	0.60
b)	April 2021 – March 2022	0.11	April 2020 – March 2021	0.10
c)	April 2022 – March 2023	0.12	April 2021 – March 2022	0.10
d)	April 2023 – March 2024	0.12	April 2022 – March 2023	0.10
e)	April 2024 – March 2025	0.13	April 2023 – March 2024	0.10
f)	April 2025 – March 2026	0.14	April 2024 – March 2025	0.10
g)	April 2026 onwards	12.69	April 2025 onwards	5.74

Sensitivity analysis for compensated absences liability
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Impact of the change in discount rate		
Present value of obligation at the end of the year	6.47	6.84
a) Impact due to increase of 0.50 %	(0.37)	(0.38)
b) Impact due to decrease of 0.50 %	0.39	0.41
Impact of the change in salary increase		
Present value of obligation at the end of the year	6.47	6.84
a) Impact due to increase of 0.50 %	0.40	0.41
b) Impact due to decrease of 0.50 %	(0.37)	(0.39)

Sensitivities due to mortality and withdrawal are not material and hence impact of change not calculated.

Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. Gratuity plan is a non-funded plan. The weighted average duration of the defined benefit obligation is 14.81 years (31 March 2019: 13.02 years)

Actuarial (gain)/loss on obligation:
(₹ in lakhs)

Particulars	31 March 2020	31 March 2019
Actuarial (gain)/loss on arising from change in demographic assumption	(0.01)	-
Actuarial (gain)/loss on arising from change in financial assumptions	1.49	1.50
Actuarial (gain) on arising from change in experience adjustment	(15.31)	(2.02)
Actuarial gain recognized in the other comprehensive income	(13.83)	(0.52)

Amount recognised in the statement of profit and loss is as under:

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020

For determination of the liability of the Company, the following actuarial assumptions were used:

Particulars	Gratuity	
	31 March 2020	31 March 2019
Discount rate	6.99%	7.71%
Salary escalation rate	5.50%	5.50%
Mortality table	Indian Assured Lives Mortality (2012 -14)	Indian Assured Lives Mortality (2006 -08)

As the Company does not have any plan assets, the movement of present value of defined benefit obligation and fair value of plan assets has not been presented.

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year-end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

Maturity plan of Defined Benefit Obligation

(₹ in lakhs)

	Year	31 March 2020	Year	31 March 2019

Indiabulls Real Estate Limited Employees Stock Options Scheme 2008 (II)

During the year ended 31 March 2009, the Company established the Indiabulls Real Estate Limited Employees Stock Options Scheme - 2008 (II) ("IBREL ESOS-II" or "Plan-II"). Under Plan II, the Company issued equity settled options to its eligible employees and of its subsidiary companies to subscribe upto 2,000,000 stock options representing an equal number of equity shares of face value of ₹ 2 each in the Company, at an exercise price of ₹ 110.50 per option, being the closing market price on the National Stock Exchange of India Limited, as at 29 January 2009. The stock options so granted, shall vest in the eligible employees within 10 years beginning from 31 January 2010, the first vesting date. The stock options granted under each of the slabs, are exercisable by the option holders within a period of five years from the relevant vesting date.

Following is a summary of options granted under the plan

Particulars	31 March 2020	31 March 2019
Opening balance	165,000	165,000
Granted during the year	-	-
Exercised during the year	-	-
Forfeited during the year	39,000	-
Closing balance	126,000	165,000
Vested and exercisable	126,000	165,000

Weighted average share exercised price during the year ended 31 March 2020: ₹ Nil (31 March 2019: ₹ Nil)

The fair value of the option under Plan II using the black scholes model, based on the following parameters is ₹ 62.79 per option, as certified by an independent valuer.

Indiabulls Real Estate Limited
Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020

Particulars	Plan – II
Fair market value of option on the date of grant	₹ 62.79
Exercise price	₹ 110.50
Expected volatility	86%
Expected forfeiture percentage on each vesting date	Nil
Expected option life (weighted average)	10.5 Years
Expected dividend yield	3.92%
Risk free interest rate	6.50%

The expected volatility was determined based on historical volatility data of the Company's shares listed on the National Stock Exchange of India Limited.

Indiabulls Real Estate Limited Employees Stock Options Plan 2010 (III)

During the year ended 31 March 2011, the board of directors and shareholders of the Company have given their consent to create, issue, offer and allot to the eligible employees of the Company and its subsidiary companies, stock options not exceeding 30,000,000 in number, representing 30,000,000 equity shares of face value of ₹ each of the Company, accordingly the Employee Stock Option Plan - 2010 ("IBREL ESOP 2010" or "Plan-III") has been formed. As per the scheme exercise price will be the market price of the equity shares of the Company, being the latest available closing price, prior to the date of grant or as the case may be decided by the board of directors or compensation committee. During the year ended 31 March 2016, board of directors of the Company at its meeting held on 26 June 2015, re-granted (original grant was of date 14 November 2015) under the "Indiabulls Real Estate Limited Employees Stock Options Plan - 2010", 10,500,000 stock options to eligible employees of the Company and its subsidiary companies representing an equal number of equity shares of face value of ₹ 2 each in the Company, at an exercise price of ₹ 54.50, being the closing market price of previous day on the National Stock Exchange of India Limited. The stock options so granted, shall vest within 5 years beginning from 26 June 2016, the first vesting date. The options vested under each of the slabs, can be exercised within a period of five years from the relevant vesting date.

Following is a summary of options granted under the plan –

Particulars	31 March 2020	31 March 2019
Opening balance	6,042,950	8,049,100
Granted during the year	-	-
Exercised during the year	3,983,587	2,006,150
Forfeited during the year	350,575	-
Closing balance	1,708,788	6,042,950
Vested and exercisable	28,668	2,196,950

Weighted average share exercised price during the year ended 31 March 2020: ₹ 119.29 (31 March 2019: ₹ 178.24)

The fair value of the option under Plan III using the black scholes model, based on the following parameters is ₹34.30 per option, as certified by an independent valuer.

Particulars	Plan – III
Fair market value of option on the date of grant	₹ 34.30
Exercise price	₹ 54.50
Expected volatility	89%
Expected forfeiture percentage on each vesting date	Nil
Expected option life (weighted average)	8 Years
Expected dividend yield	3.45%
Risk free interest rate	8.03%

The expected volatility was determined based on historical volatility data of the Company's shares listed on the National Stock Exchange of India Limited.

Indiabulls Real Estate Limited Employees Stock Options Plan 2011 (IV)

During the year ended 31 March 2012, the board of directors and shareholders of the Company have given their consent to create, issue, offer and allot, to the eligible employees of the Company and its subsidiary companies, stock options not exceeding 15,000,000 in number, representing 15,000,000 equity shares of face value of ₹ each, and accordingly the Employee Stock Option Scheme 2011 ("IBREL ESOS 2011") has been formed. As per the scheme exercise price will be the market price of the equity shares of the Company, being the latest available closing price, prior to the date of grant or as may be decided by the board or compensation committee. However, compensation committee of the board has not yet granted any options under IBREL ESOP 2011 Scheme.

Note – 46
Segment reporting

The Company's primary business segment is reflected based on principal business activities carried on by the Company i.e. purchase, sale, real estate properties advisory, construction and development of real estate properties and all other related activities which as per Ind AS 108 on 'Operating Segments' is considered to be the only reportable business segment. The Company derives its major revenues from real estate properties advisory business (largely from related parties). The Company is operating in India which is considered as a single geographical segment.

Note – 47

During the year, the Company has received the approval of the National Company Law Tribunal ('Hon'ble NCLT'), Principal Bench, New Delhi to the Scheme of Arrangement ('the Scheme') between Indiabulls Real Estate Limited ('petitioner/transferee company'), India Land and Properties Limited ('transferor company'), Indiabulls Infrastructure Limited ('resulting company') and their respective shareholders and creditors, pursuant to Sections 230 to 232 and other applicable provisions of the Companies Act, 2013. The Company has filed the Scheme with Registrar of Companies ('ROC') on 19 March 2020. In pursuant to the Scheme, the Company has acquired redeemable preference shares amounting to ₹ 45,000.00 lakhs issued by one of the wholly owned subsidiary of the Company and other assets amounting to ₹ 1,520.00 lakhs from the transferor company. The approval of the Scheme was part of overall transaction to divest 100% stake in resulting company (owning Chennai assets). Further, the Company has also valued the remaining stake in resulting company (classified as assets held for sale) at fair value of ₹ 9,000.12 lakhs and thus, recognising net gain on the said transaction amounting to ₹ 24,313.64 lakhs in these financial statements.

Note – 48

During the year, the Company has got a fixed consideration amounting to ₹ 13,707.00 lakhs to the Company as full and final settlement against one of its projects. As a result of this, the Company has surrendered and relinquished all its rights, titles and interest of any nature in respect of the said project. Accordingly, the Company has recognized revenue of ₹ 13,707.00 lakhs and written off the carrying cost of the inventory of ₹ 7,042.57 as cost of sales in these standalone financial statements.

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020****Note – 49**

During the year, the Settlement Commission passed final orders under section 245D(4) in respect of the applications made to the Settlement Commission dated 3 October 2017. Pursuant to the orders, there has been reversal of current tax amounting to ₹ 44.02 lakhs.

Note – 50

During the year, the Board of Directors ('the Board') of the Company at its meeting held on 31 January 2020, have discussed and approved in-principally the proposal of the merger of certain ongoing, completed and planned residential and commercial projects of Embassy Property Developments Private Limited ('Embassy') with the Company. The Board has constituted a Reorganization Committee to examine and evaluate the options to implement the aforementioned merger proposal, including appointment of valuers, merchant bankers, and other intermediaries to prepare and present a draft scheme and related documents, including the valuation reports, fairness opinion, share swap ratio etc., to be placed before the Board for its consideration and final approval. Additionally, Embassy has also reached at an advanced stage of discussions with certain foreign financial investors ('investors') for an investment of up to USD 200 million.

Note – 51

The Company has already obtained approval of Board of Directors ('the Board') to buy-back up to 5 crore fully paid-up equity shares of face value Rs. 2 each of the Company, representing approximately 11% of its total existing paid-up equity capital, at Rs. 100 per equity share, aggregating to total buyback size of Rs. 50,000 lakhs, through the "Tender Offer" route, as prescribed under SEBI (Buy-Back of Securities) Regulations, 2018 and the Companies Act, 2013 and rules made thereunder, as amended (hereinafter referred to as the "Buyback"), post completion of on-going scheme of arrangement of Chennai assets, which has been filed by the Company with Registrar of Companies on 19 March 2020, the Company is now eligible to launch the buy-back and hence the Board constituted Buyback Committee and has advised the Company's management to initiate the process of obtaining Company's shareholders approval through the process of postal ballot to implement the proposed buy-back. The proposed buy-back is expected to be completed in the subsequent year.

Note – 52

The outbreak of Covid-19 has severely impact businesses around the world. In many countries, including India, there has been severe disruption of regular business operations due to lock down restrictions and other emergency measures imposed by the Government. The management has made a detailed assessment of its liquidity position, including recoverability/carrying values of its investments and business and other advances as at balance sheet date, however, the actual impact of Covid-19 pandemic on the Company's results remains uncertain and dependent on spread of Covid-19 and steps taken by the Government to mitigate the economic impact and may differ from that estimated as at the date of approval of these standalone financial statements.

Note – 53

As at 31 March 2020, the Company's financial assets are more than 50 per cent of its total assets (netted of by intangible assets) and income from financial assets is more than 50 per cent of the gross income of the Company. However, basis consolidated financial position, the Company's financial assets and income from financial assets does not meet the said criteria. The Company was incorporated with an objective of carrying on the business of construction and development of real estate properties and has been carrying the above business in line with the objects clauses stated in its articles of association. Accordingly, the Management basis the legal opinion obtained from an independent legal expert believes that the principal business of the Company is not that of Non-Banking Financial Company and hence it is not required to obtain certificate of registration as a Non-Banking Financial Company under section 45IA of the Reserve Bank of India Act, 1934.

Note – 54

During the year ended 31 March 2019, the Company has entered into various derivative contract with Barclays Bank PLC for sale of GBP 925.00 lakhs @ 108.01 (weighted average rate). The carrying value of underlying investments (including share application money) as at 31 March 2019 was ₹ 119,980.28 lakhs. In the current year, the Company has ended the contract.

Note – 55

During the year ended 31 March 2019, the Company has exercised its option to redeem its investments made in redeemable preference shares which were measured at amortised cost. The Company has de-recognised these during the year and related gain is recognised in statement of profit and loss.

(This space has been intentionally left blank)

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2020****Note – 56****A. Disaggregation of revenue**

Set out below is the disaggregation of the Company's revenue from contracts with customers:

(₹ in lakhs)

Particulars	Year ended 31 March 2020	Year ended 31 March 2019
Revenue from contracts with customers		
Revenue on account of settlement of existing project	13,707.00	-
Revenue from real estate properties advisory and management services	1,170.83	1,919.61

B. Contract balances

The following table provides information about receivables and contract liabilities from contract with customers:

(₹ in lakhs)

Particulars	As at 31 March 2020	As at 31 March 2019
Receivables		
Trade receivables	-	589.36
Total receivables	-	589.36

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

Note – 57

The Hon'ble Supreme Court of India has passed a judgement dated 28 February 2019 and it was held that basic wages, for the purpose of provident fund, to include allowances which are common for all employees. However, there is uncertainty with respect to the applicability of the judgement and period from which the same applies. Currently, the Company has not considered any impact in these financial statements.

Note – 58

Previous year numbers have been regrouped/reclassified wherever considered necessary.

Independent Auditor's Report

To the Members of Indiabulls Real Estate Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Indiabulls Real Estate Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2019, and its profit (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
Accounting for sale of stake in a subsidiary The Company's policies on the accounting for sale of investments is set out in note 5.6 to the standalone financial statements. During the year, the Company has executed definitive agreement to divest 100% stake in tranches in one of its wholly owned subsidiary and as part of said transaction, during the year, the Company has divested partial stake (through sale and buy back) in the said subsidiary which has resulted in loss of control. The sale resulted in recognition of profit on sale of investments amounting to ₹ 9,787.59 lakhs as presented in note 25 to the standalone financial statements. Investment held for remaining stake amounting to ₹ 29,216.56 lakhs is classified as 'Investments held for sale' as presented in note 18 to the standalone financial statements. This was fair valued on the basis of the agreed total sales consideration for the entity, and has resulted in a gain on fair valuation of ₹ 5,489.80 lakhs as disclosed in note 18 to the standalone financial statements. The above transaction required audit focus due to complex contractual terms, multiple agreements (judgement involved) and due to the significant impact on standalone financial statement, the matter has been considered to be of most significance to the audit and accordingly, has been considered as a key audit matter for the current year audit.	Our audit procedures in relation to the accounting for sale of stake in a subsidiary included, but not limited to the following: • Understood the nature of transaction i.e. understanding of the contract terms of multiple agreements with respect to the sale and assessing the proposed accounting treatment in relation to the accounting policies and relevant Ind AS; • Reviewed the management's process for review and implementation of such transactions; • Tested the completeness and accuracy of the data used in the computation of profit on sale of investments and gain on fair valuation of the remaining stake; and • Ensured appropriate disclosures in the standalone financial statements with respect to sale of stake in the subsidiary.
Impairment assessment of investments and loans made to its subsidiaries and joint ventures The Company's policies on the impairment assessment of the investments and loans is set out in note 5.12 to the standalone financial statements. The Company has made investments amounting to ₹ 597,518.31 lakhs and has	Our procedures in relation to the impairment assessment of investments and loans included, but not limited to the following: • Assessed the appropriateness of the Company's accounting policy by comparing with applicable Ind AS.

Key audit matter	How our audit addressed the key audit matter
given loans amounting to ₹ 361,000.12 lakhs to its subsidiaries and joint ventures as at 31 March 2019 as disclosed under the note 8A, 8B and note 9B to the standalone financial statements. Impairment assessment of these investments and loans is considered as a significant risk as there is a risk that recoverability of the investments and loans could not be established, and potential impairment charge might be required to be recorded in the standalone financial statements. The recoverability of these investments is inherently subjective due to reliance on either the net worth of investee or valuations of the properties held or cash flow projections of real estate properties in these investee companies. However, due to their materiality in the context of the Company's financial statements as a whole and significant degree of judgement and subjectivity involved in the estimates and key assumptions used in determining the cash flows used in the impairment evaluation, this is considered to be the area to be of most significance to the audit and accordingly, has been considered as a key audit matter for the current year audit.	• We obtained an understanding of the management process for identification of possible impairment indicators and process performed by the management for impairment testing. • Enquired of the management and understood the internal controls related to completeness of the list of loans and investment along with the process followed to recover/adjust these and assessed whether further provisioning is required. • Performed test of details: a. For all significant additions made during the year, underlying supporting documents were verified to ensure that the transaction has been accurately recorded in the standalone financial statement; b. For all significant investments and loans outstanding as at 31 March 2019, confirmations were circulated and received. Further, all the significant reconciling items were tested; c. All material investments and significant loans as at 31 March 2019 were discussed on case to case basis with the management for their plan of recovery/adjustment; d. Compared the carrying value of material investments and significant loans to the net assets of the underlying entity, to identify whether the net assets, being an approximation of their minimum recoverable amount, were in excess of their carrying amount; and e. Wherever the net assets were lower than the recoverable amount, for material amounts: i. We obtained and verified the management certified cash flow projections of real estate properties and tested the underlying assumptions used by the management in arriving at those projections; ii. We challenged the managements on the underlying assumptions used for the cash flow projections, considering evidence available to support these assumptions and our understanding of the business; iii. We obtained and verified the valuation of land parcels as per the government prescribed circle rates; and iv. We assessed the appropriateness and adequacy of the disclosures made by the management for the impairment losses recognized in accordance with applicable accounting standards.

Information other than the Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those charged with governance for the Standalone Financial Statements

7. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
 13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
 14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.

17. Further to our comments in Annexure A, as required by section 143(3) of the Act, we report that:

- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) the standalone financial statements dealt with by this report are in agreement with the books of account;
- d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
- e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of section 164(2) of the Act;
- f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 23 April 2019 as per Annexure B expressed unmodified opinion; and
- g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in note 38A to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2019;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2019;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2019; and
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2019

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and intangible assets.
- (b) The property, plant and equipment have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the property, plant and equipment is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The Company does not hold any immovable property (in the nature of 'property, plant and equipment'). Accordingly, the provisions of clause 3(i)(c) of the Order are not applicable.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has granted interest free as well as interest bearing unsecured loans to companies covered in the register maintained under Section 189 of the Act; and with respect to the same:
 - (a) in our opinion the terms and conditions of grant of such loans are not, prima facie, prejudicial to the Company's interest.
 - (b) the schedule of repayment of principal has been stipulated wherein the principal amounts are repayable on demand and since the repayment of such loans has not been demanded, in our opinion, repayment of the principal amount and the interest are regular, except for the loans given to the companies which are interest free; and
 - (c) there is no overdue amount in respect of loans granted to such companies.
- (iv) In our opinion, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products/services and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii)(a) The Company is generally regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, goods and services tax, cess and other material statutory dues, as applicable, to the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2019

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in lakhs)	Amount paid under protest (₹ in lakhs)	Period to which the amount relates	Forum where dispute is pending
Income-tax Act, 1961	Disallowance under section 14A	146.26	-	Assessment Year 2009-10	Hon'ble High Court of Mumbai
Income-tax Act, 1961	Disallowance under section 14A	161.88	-	Assessment Year 2010-11	Hon'ble High Court of Mumbai
Income-tax Act, 1961	Disallowance under section 14A	213.05	-	Assessment Year 2011-12	Hon'ble High Court of Mumbai
Income-tax Act, 1961	Disallowance under section 14A and interest under section 234C	1,272.21	-	Assessment Year 2012-13	Income Tax Appellate Tribunal
Income-tax Act, 1961	Disallowance of employee stock option expense under section 14A and section 32	247.66	-	Assessment Year 2013-14	Commissioner of Income Tax (Appeals)
The Finance Act, 2004 and Service tax rules	Denial of service tax input credit	1,695.25	-	Assessment year 2011-12 to 2014-15	Assistant Commissioner of Service Tax

- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank or any dues to debenture-holders during the year. Further, the Company has no loans or borrowings payable to financial institution or government during the year.
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (equity instruments). In our opinion, the Company has applied money raised by issuance of non-convertible debt instruments and the term loans for the purposes for which those were raised.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) Managerial remuneration has been paid and provided by the Company in accordance with the requisite approvals mandated by the provisions of Section 197 of the Act read with Schedule V to the Act.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the financial statements etc., as required by the applicable Ind AS.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2019

- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- (xvi) As detailed in Note 44 to the financial statement, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2019

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Indiabulls Real Estate Limited ('the Company') as at and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Company as at that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the standalone financial statements for the year ended 31 March 2019

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

1. Nature of principal activities

Indiabulls Real Estate Limited ('the Company') was incorporated on 04 April 2006 with the main objects of carrying on the business of real estate properties advisory, properties marketing, maintenance of completed properties, engineering, industrial and technical consultancy, construction and development of real estate properties and other related and ancillary activities. The Company is domiciled in India and its registered office is situated at M-62 and 63, First Floor, Connaught Place, New Delhi – 110001.

2. General information and statement of compliance with Ind AS

These standalone financial statements ("financial statements") of the Company have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 read with the Companies (Indian Accounting Standards) Rules 2015 (by Ministry of Corporate Affairs ("MCA")), as amended and other relevant provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented.

The financial statements for the year ended 31 March 2019 were authorized and approved for issue by the Board of Directors on 23 April 2019. The revisions to the financial statements is permitted by the Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

3. Basis of accounting

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities and share based payments which are measured at fair values as explained in relevant accounting policies. Fair valuations related to financial assets and financial liabilities are categorised into level 1, level 2 and level 3 based on the degree to which the inputs to the fair value measurements are observable.

4. Recent accounting pronouncement

Ind AS 116, Leases

On 30 March 2019, Ministry of Corporate Affairs ('MCA') has clarified that Ind AS 116 is effective for annual periods beginning on or after 1 April 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. The Company is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

Amendment to Ind AS 12, Income taxes

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified Appendix C to Ind-AS 12 Income taxes – "Uncertainty over Income Tax Treatments". The amendment to Ind AS 12 requires the entities to consider recognition and measurement requirements when there is uncertainty over income tax treatments. In such a circumstance, an entity shall recognise and measure its current or deferred tax asset or liability accordingly. The effective date of amendment is 1 April 2019. Further, there has been amendments in relevant paragraphs in Ind-AS 12 "Income Taxes" which clarifies that an entity shall recognize the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events in accordance with Ind-AS 109. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Amendment to Ind AS 19, Employee benefits

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has issued an amendment to Ind AS 19 which requires the entities to determine current service cost using actuarial assumptions and net interest using discount rate determined at the start of the annual reporting period. However, if an entity re-measures the net defined benefit liability (asset) as per the requirement of the standard, it shall determine current service cost and net interest for the remainder of the annual reporting period after the plan amendment, curtailment or settlement using the actuarial assumptions used to re-measure the net defined benefit liability (asset). The effective date of amendment is April 1, 2019. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 23, Borrowing costs

On 30 March 2019, Ministry of Corporate Affairs ("MCA") issued an amendment to Ind-AS 23 "Borrowing Costs" clarifies that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalization rate on general borrowings. This amendment is effective for annual periods beginning on or after 1 April 2019. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 109, Financial instruments

On 30 March 2019, Ministry of Corporate Affairs ("MCA") issued an amendment to Ind-AS 109 in respect of prepayment features with negative compensation, which amends the existing requirements in Ind-AS 109 regarding termination rights in order to allow measurement at amortized cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments. This amendment is effective for annual periods beginning on or after 1 April 2019. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

5. Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below. These were used throughout all periods presented in the financial statements.

5.1 Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Companies Act 2013. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

5.2 Property, plant and equipment (PPE)

Recognition and initial measurement

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Companies Act, 2013.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Asset class	Useful life
Plant and equipment	12 – 15 years
Office equipment	5 years
Computers	3 – 6 years
Furniture and fixtures	10 years
Vehicles	8 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition

An item of property, plant and equipment initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in statement of profit and loss when the asset is derecognised.

5.3 Intangible assets

Recognition and initial measurement

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortisation)

The cost of capitalized software is amortized over a period in the four years from the date of its acquisition.

De-recognition

Intangible asset is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the statement of profit and loss, when the asset is derecognised.

5.4 Asset held for sale

Non-current assets are classified as held for sale if their sale is considered highly probable. They are measured at fair value less cost to sell.

5.5 Inventories

Land other than that transferred to real estate properties under development is valued at lower of cost or net realizable value.

Real estate properties (developed and under development) includes cost of land under development, internal and external development costs, construction costs, and development/construction materials, borrowing costs and related overhead costs and is valued at lower of cost or net realizable value.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs of necessary to make the sale.

5.6 Revenue recognition

Revenue is recognised when control is transferred and is accounted net of rebate and taxes. The Company applies the revenue recognition criteria to each nature of the revenue transaction as set out below.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Revenue from real estate properties advisory and management services

Income arising from real estate properties advisory services is recognised in the period in which the services are being rendered. The Company considers the terms of the contract and its customary business practices to determine the transaction price. The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

Profit on sale of investment with underlying business

Profit on sale of investments of entities in the real estate business is recognised in the year in such investments are sold after adjusting the consideration received with carrying value of investment. The said profit is recognised as part of other operating income as in substance, such sale reflects the sale of real estate business.

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

Gain on amortised cost financial assets

Gain on de-recognition of amortised cost financial assets is recognised in the year when the entire payment is received against the outstanding balance of amortised cost financial assets.

5.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the statement of profit and loss as incurred.

5.8 Operating leases

Assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straightline basis except where scheduled increase in rent compensate the lessor for expected inflationary costs.

5.9 Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the Statement of Profit and Loss.

5.10 Foreign currency

Functional and presentation currency

The financial statements are presented in Indian Rupee ('INR' or '₹') which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Foreign currency monetary items are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the Statement of Profit and Loss in the year in which they arise.

5.11 Investments

Investment in equity instruments of subsidiaries and joint ventures are measured at cost as per Ind AS 27 'Separate Financial Statements'.

5.12 Financial instruments

Non-derivative financial assets

Recognition and initial measurement

All financial assets are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

- i. **Debt instruments at amortised cost** – A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

- ii. **Equity investments** – All equity investments in scope of 'Ind AS 109 Financial Instruments' ('Ind AS 109') are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).
- iii. **Mutual funds** – All mutual funds in scope of Ind AS 109 are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Recognition and initial measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Subsequent measurement

Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

Derivatives

The Company has entered into certain forward (derivative) contracts to hedge risks. These derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Any profit or loss arising on cancellation or renewal of such derivative contract is recognised as income or as expense for the period.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

5.13 Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. The Company factors historical trends and forward looking information to assess expected credit losses associated with its assets and impairment methodology applied depends on whether there has been a significant increase in credit risk.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition, if the financial asset is determined to have low credit risk at the balance sheet date.

5.14 Income taxes

Tax expense recognized in Statement of Profit and Loss comprises the sum of deferred tax and current tax except the ones recognized in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside Statement of Profit or Loss (either in other comprehensive income or in equity).

5.15 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and other short-term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

5.16 Employee benefits

Defined contribution plan

The Company's contribution to provident fund is charged to the statement of profit and loss or inventorized as a part of real estate properties under development, as the case may be. The Company's contributions towards provident fund are deposited with the regional provident fund commissioner under a defined contribution plan.

Defined benefit plan

The Company has unfunded gratuity as defined benefit plan where the amount that an employee will receive on retirement is defined by reference to the employee's length of service and final salary. The liability recognised in the balance sheet for defined benefit plans as the present value of the defined benefit obligation (DBO) at the reporting date. Management estimates the DBO annually with the assistance of independent actuaries. Actuarial gains/losses resulting from re-measurements of the liability are included in other comprehensive income.

Other long-term employee benefits

The Company also provides benefit of compensated absences to its employees which are in the nature of long-term employee benefit plan. Liability in respect of compensated absences becoming due and expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method as on the reporting date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recorded in the statement of profit and loss in the year in which such gains or losses arise.

Short-term employee benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. is recognized on the basis of the amount paid or payable for the period during which services are rendered by the employee.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

5.17 Share based payments

Share based compensation benefits are provided to employees via Employee Stock Option Plans (ESOPs). The employee benefit expense is measured using the fair value of the employee stock options and is recognised over vesting period with a corresponding increase in equity. The vesting period is the period over which all the specified vesting conditions are to be satisfied. On the exercise of the employee stock options, the employees will be allotted equity shares of the Company.

5.18 Provisions, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed. However, when realization of income is virtually certain, related asset is recognized.

5.19 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

5.20 Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the related disclosures.

Significant management judgements

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Provisions – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Significant estimates

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utilisation of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

iv Rights, preferences and restrictions attached to equity and preference shares

The holders of equity shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In the event of liquidation of the Company, all preferential amounts, if any, shall be discharged by the Company. The remaining assets of the Company shall be distributed to the holders of equity shares in proportion to the number of shares held to the total equity shares outstanding as on that date. All shares rank equally with regard to the Company's residual assets, except that holders of preference shares participate only to the extent of the face value of the shares.

v Details of shareholder holding more than 5% share capital

Nature and purpose of other reserves

General reserve

The Company is required to create a general reserve out of the profits when the Company declares dividend to shareholders.

Capital reserve

The Company has issued share warrants in the earlier years. This reserve is created on account of forfeiture of share application money received on account of issuance of share warrants as share warrants holders did not exercise their rights.

Debenture redemption reserve

The Company is required to create a debenture redemption reserve out of the profits which are available for redemption of debentures.

Capital redemption reserve

The same has been created in accordance with provisions of Companies Act for the buy back of equity shares from the market.

Deferred employee compensation reserve

The reserve is used to recognised the grant date fair value of the options issued to employees under Company's employee stock option plan.

Securities premium

Securities premium reserve is used to record the premium on issue of shares. The reserve is utilised in accordance with provisions of the Companies Act 2013.

Tax paid in respect of earlier years (refer note 45)	-	141.22
Others	224.68	15.27
Income tax expense	4,401.44	359.14

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019****Note - 32****Earnings per share (EPS)**

Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Company. Basic earnings per share is computed using the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number potential equity shares outstanding during the year including share options, except where the result would be anti-dilutive. Weighted average number of equity shares includes impact of buy back of equity shares during the year.

The following reflects the income and share data used in the basic and diluted EPS computations:

	31 March 2019	31 March 2018
Profit/(loss) attributable to equity holders (₹ in lakhs)	10,601.19	(1,975.35)
Nominal value of equity share (₹)	2.00	2.00
Total number of equity shares outstanding at the beginning of the year	474,674,139	478,414,339
Total number of equity shares outstanding at the end of the year	450,680,289	474,674,139
Weighted average number of equity shares for basic earning per share	456,666,283	474,583,918
Add: Share based options*	-	-
Weighted average number of equity shares adjusted for diluted earning per share	456,666,283	474,583,918

Earnings per equity share:

Basic (₹)	2.32	(0.42)
Diluted (₹)	2.32	(0.42)

*Potential equity shares are anti-dilutive in nature, hence they have not been considered for calculating weighted average number of equity shares used to compute diluted earnings per share.

(This space has been intentionally left blank)

Note - 33**Fair value measurements****(i) Fair value hierarchy**

Financial assets and financial liabilities measured at fair value in the financial statements are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability.

(ii) Financial assets measured at fair value**(₹ in lakhs)**

31 March 2019	Level 1	Level 2	Level 3	Total
Financial instruments at FVTPL				
Mutual funds	1.04	-	-	1.04
Financial instruments at FVOCI				
Quoted equity instruments	5,914.35	-	-	5,914.35
Derivative asset at FVTPL				
Forward contract	-	3,242.41	-	3,242.41
Total financial assets	5,915.39	3,242.41	-	9,157.80

Financial assets measured at fair value**(₹ in lakhs)**

31 March 2018	Level 1	Level 2	Level 3	Total
Financial instruments at FVTPL				
Mutual funds	28,438.84	-	-	28,438.84
Financial instruments at FVOCI				
Quoted equity instruments	11,281.08	-	-	11,281.08
Total financial assets	39,719.92	-	-	39,719.92

(iii) Valuation process and technique used to determine fair value

Specific valuation techniques used to value financial instruments include -

- Traded (market) price basis recognised stock exchange for equity shares
- Use of net asset value for mutual funds on the basis of the statement received from investee party.
- The value of derivative contracts are determined using forward exchange rates at balance sheet date.

Financial liabilities					
Borrowings*	Level 3	210,143.94	210,143.94	144,971.15	144,971.15
Total financial liabilities		210,143.94	210,143.94	144,971.15	144,971.15

The above disclosures is presented for non-current financial assets and non-current financial liabilities. Carrying value of current financial assets and current financial liabilities (investments, trade receivables, cash and cash equivalents, other bank balances, loans, other financial assets, borrowings and other current financial liabilities) represents the best estimate of fair value.

* A part of the non-convertible redeemable debentures issued by the Company are listed on stock exchange and there is no comparable instrument having the similar terms and conditions with related security being pledged and hence the carrying value of the debentures represents the best estimate of fair value.

iii) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

(A) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, other bank balances, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

a) Credit risk management

i) Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

Asset group	Basis of categorisation	Provision for expenses credit loss
A: Low credit risk	Investments, trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	12 month expected credit loss/Life time expected credit loss
C: High credit risk	Trade receivables and loans	Life time expected credit loss/fully provided for

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in statement of profit and loss.

Assets under credit risk –		(₹ in lakhs)	
Credit rating	Particulars	31 March 2019	31 March 2018
A: Low credit risk	Investments, trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	395,832.71	309,774.77
C: High credit risk	Trade receivables and loans	266.87	266.87

ii) *Concentration of financial assets*

The Company's principal business activities are real estate properties advisory, construction and development of real estate properties and all other related activities. The Company's outstanding receivables are for real estate properties advisory business. Loans and other financial assets majorly represents loans to subsidiaries and deposits given for business purposes.

b) **Credit risk exposure**

Impairment loss recognised during the year	-	-	
Loss allowance on 31 March 2019	33.04	233.83	

(B) **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities.

31 March 2019						(₹ in lakhs)
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total	
Non-derivatives						
Borrowings	190,837.82	166,500.00	24,000.00	22,500.00	403,837.82	
Other financial liabilities	4,168.11	-	-	-	4,168.11	
Total	195,005.93	166,500.00	24,000.00	22,500.00	408,005.93	

(₹ in lakhs)					
31 March 2018	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Non-derivatives					
Borrowings	176,426.27	81,508.37	42,500.00	22,500.00	322,934.64
Other financial liabilities	5,498.06	-	-	-	5,498.06
Total	181,924.33	81,508.37	42,500.00	22,500.00	328,432.70

(C) Market risk**(i) Interest rate risk**

The Company's fixed rate borrowings are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

(₹ in lakhs)		
Particulars	31 March 2019	31 March 2018
Variable rate borrowing	131,025.48	42,561.80
Fixed rate borrowing	269,694.33	278,626.44
Total borrowings	400,719.81	321,188.24

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from variable rate borrowings as a result of changes in interest rates.

(₹ in lakhs)		
Particulars	31 March 2019	31 March 2018
Interest rates – increase by 1% (31 March 2018 : 1%)	1,310.25	425.62
Interest rates – decrease by 1% (31 March 2018 : 1%)	(1,310.25)	(425.62)

(ii) Price risk

The Company's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through statement of profit or loss. To manage the price risk arising from investments in equity securities, the Company diversifies its portfolio of assets.

Sensitivity

Profit or loss and equity is sensitive to higher/lower prices of instruments on the Company's profit for the periods -

(₹ in lakhs)		
Particulars	31 March 2019	31 March 2018
Price sensitivity		
Price increase by (2%) - FVOCI instrument	118.29	225.62
Price decrease by (2%) - FVOCI instrument	(118.29)	(225.62)
Price increase by (2%) - FVTPL instrument	0.02	568.78
Price decrease by (2%) - FVTPL instrument	(0.02)	(568.78)

(iii) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from derivative contracts.

Foreign currency risk exposure:

(₹ in lakhs)			
Particulars	Currency	31 March 2019	31 March 2018
Derivative assets	GBP	3,242.41	-

Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

Foreign currency risk exposure:

Particulars	Currency	Exchange rate increase by 1%		Exchange rate decrease by 1%	
		31 March 2019	31 March 2018	31 March 2019	31 March 2018
Derivative assets	GBP	32.42	-	(32.42)	-

(This space has been intentionally left blank)

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019

Note – 35

Capital management

The Company's objectives when managing capital are:

- To ensure Company's ability to continue as a going concern, and
- To provide adequate return to shareholders

Management assesses the capital requirements in order to maintain an efficient overall financing structure. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company manages its capital requirements by overseeing the following ratios –

Debt equity ratio

(₹ in lakhs)

	31 March 2019	31 March 2018
Net debt *	383,421.46	286,009.36
Total equity	654,176.15	692,262.94
Net debt to equity ratio	0.59	0.41

* Net debt includes non-current borrowings + current borrowings + current maturities of non-current borrowings net off with cash and cash equivalents (including bank deposits and other liquid securities).

Debt service coverage ratio

(₹ in lakhs)

	31 March 2019	31 March 2018
Earnings before interest and tax	47,782.59	34,247.96
Interest expense for the year + Principal repayments of non-current borrowings during the year	111,293.73	146,916.53
Debt service coverage ratio	0.43	0.23

The Company does not have any undrawn borrowing facilities.

Note – 36

B. Commitments

- i. The Company had given Sponsors Support Undertaking (“SSU”) to meet any shortfalls in the funding requirement of project and towards cost overrun to financial institution/banks for term loan sanctioned to RattanIndia Nasik Power Limited, a subsidiary of RattanIndia Power Limited in the event of inability of RattanIndia Nasik Power Limited (“RNPL”) to arrange required equity support for Nasik Thermal Power Project Phase II. Pursuant to the demerger of the power business from the Company vide order dated 17 October 2011 passed by the Hon’ble Delhi High Court in Company Petition No 295 of 2011, all the liabilities and obligations of the Company in relation to the power business stood transferred and vested into RattanIndia Infrastructure Limited. Furthermore, the promoters of RattanIndia Power Limited (“RPL”) have subsequently undertaken not to drawdown any funds from such debt facilities with respect to Nashik Thermal Power Project Phase II.
- ii. The Company had given Sponsors Support Undertaking (“SSU”) to fund the required equity and any shortfall in means of finance by subscription to the shares of RattanIndia Power Limited, a company together promoted by RattanIndia Infrastructure Limited and RR Infra Land Private Limited, for term loan facility sanctioned to RattanIndia Power Limited (“RPL”) in the event of inability of RPL to arrange the required equity support for Amravati Power Project Phase II. Under the SSU, the Company had also guaranteed to meet RPL’s debt obligations in respect of Amravati Power Project Phase II in the event coal linkage for the project is cancelled/deferred and RPL fails to make any alternate arrangement of required coal six months prior to the scheduled commercial

operation date of unit I of Amravati Power Project Phase II. Pursuant to the demerger of the power business from the Company vide order dated 17th October 2011 passed by the Hon'ble Delhi High Court in Company Petition No 295 of 2011, all the liabilities and obligations of the Company in relation to the power business stood transferred and vested into RattanIndia Infrastructure Limited. Furthermore, the promoters of RPL have subsequently undertaken not to drawdown any funds from such debt facilities with respect to Amravati Power Project Phase II.

- iii. The Company has given an undertaking to banks for various loans availed by the subsidiary companies and other entities to meet the shortfall requirement in case they are not able to service the said loans.
- iv. The Company has undertaken to provide continued financial support to certain subsidiaries as and when required.

Note – 39

Operating leases

The Company has taken various premises on operating leases and lease rent of ₹ 1,004.27 lakhs (31 March 2018: ₹ 846.27 lakhs) in respect of the same has been charged to statement of profit and loss for the year ended 31 March 2019. The underlying agreements are executed for a period generally ranging from three to five years, renewable on mutual consent and are cancellable in some cases, by either party giving notice generally of 30 to 180 days. There are no restrictions imposed by such leases and there are no subleases. The minimum lease rentals payable in respect of such operating leases are as under:

(₹ in lakhs)

Later than five years	-	-

Note – 40

Employee benefits

Defined contribution plan

The Company has made ₹ 3.05 lakhs (31 March 2018 - ₹ 2.86 lakhs) contribution in respect of provident fund.

Defined Benefit Plan

The Company has the following Defined Benefit Plans:

- Gratuity (Unfunded)
- Compensated absences (Unfunded)

Risks associated with plan provisions

Discount rate risk	Reduction in discount rate in subsequent valuations can increase the liability.
Mortality risk	Actual death and liability cases proving lower or higher than assumed in the valuation can impact the liabilities.
Salary risk	Actual salary increase will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.
Withdrawal risk	Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact liability.

Compensated absences

The leave obligations cover the Company's liability for permitted leaves. The amount of provision of ₹ 0.60 lakhs (31 March 2018 - ₹ 0.46 lakhs) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations. However based on past experience, the Company does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months, therefore based on the independent actuarial report, only a certain amount of provision has been presented as current and remaining as non-current. The weighted average duration of the defined benefit obligation is 13.02 years (31 March 2018: 14.09 years).

Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019

Actuarial (gain)/loss on obligation:

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Actuarial (gain)/loss on arising from change in financial assumptions	0.36	(0.11)
Actuarial (gain) on arising from change in experience adjustment	(0.35)	(0.01)

Amount recognised in the statement of profit and loss is as under:

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Service cost	0.74	0.72
Net interest cost	0.45	0.35
Actuarial loss/(gain) for the year	0.01	(0.12)
Expense recognized in the statement of profit and loss	1.20	0.95

Movement in the liability recognized in the balance sheet is as under:

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Present value of defined benefit obligation at the beginning of the year	5.64	4.69
Current service cost	0.74	0.72
Interest cost	0.45	0.35
Actuarial loss/(gain) on obligation	0.01	(0.12)
Benefits paid	-	-
Present value of defined benefit obligation at the end of the year	6.84	5.64

Bifurcation of projected benefit obligation at the end of the year in current and non-current (₹ in lakhs)

	Particulars	31 March 2019	31 March 2018
a)	Current liability (amount due within one year)	0.60	0.46
b)	Non-current liability (amount due over one year)	6.24	5.18
	Total projected benefit obligation at the end of the year	6.84	5.64

For determination of the liability of the Company, the following actuarial assumptions were used:

Particulars	Compensated absences	
	31 March 2019	31 March 2018
Discount rate	7.71%	7.93%
Salary escalation rate	5.50%	5.25%
Mortality table	Indian Assured Lives Mortality (2006 -08)	Indian Assured Lives Mortality (2006 -08)

As the Company does not have any plan assets, the movement of present value of defined benefit obligation and fair value of plan assets has not been presented.

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year-end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

Indiabulls Real Estate Limited Employees Stock Options Scheme – 2006 (I)

During the year ended 31 March 2007, the Company established the Indiabulls Real Estate Limited Employees Stock Options Scheme ("IBREL ESOS-I" or "Plan-I"). Under the Plan- I, the Company issued 9,000,000 equity settled options to its eligible employees and its subsidiary companies which gave them a right to subscribe up to 9,000,000 stock options representing an equal number of equity shares of face value of ₹ 2 each of the Company at an exercise price of ₹ 60 per option, subject to the requirements of vesting. These options vest uniformly over a period of 10 years, commencing one year after from the date of grant. A compensation committee constituted by the Board of Directors of the Company administers the Plan- I. The stock options so granted, shall vest in the eligible employees within 10 years beginning from 1 November 2007, the first vesting date. The stock options granted under each of the slabs are exercisable by the option holders within a period of five years from the relevant vesting date.

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019**

Closing balance	-	-
Vested and exercisable	-	-

Weighted average share exercised price during the year ended 31 March 2019: ₹ Nil (31 March 2018: ₹ 87.38)

Indiabulls Real Estate Limited Employees Stock Options Scheme 2008 (II)

During the year ended 31 March 2009, the Company established the Indiabulls Real Estate Limited Employees Stock Options Scheme - 2008 (II) ("IBREL ESOS-II" or "Plan-II"). Under Plan II, the Company issued equity settled options to its eligible employees and of its subsidiary companies to subscribe upto 2,000,000 stock options representing an equal number of equity shares of face value of ₹ 2 each in the Company, at an exercise price of ₹ 110.50 per option, being the closing market price on the National Stock Exchange of India Limited, as at 29 January 2009. The stock options so granted, shall vest in the eligible employees within 10 years beginning from 31 January 2010, the first vesting date. The stock options granted under each of the slabs, are exercisable by the option holders within a period of five years from the relevant vesting date.

Following is a summary of options granted under the plan

Particulars	31 March 2019	31 March 2018
Opening balance	165,000	406,000
Granted during the year	-	-
Exercised during the year	-	230,000
Forfeited during the year	-	11,000
Closing balance	165,000	165,000
Vested and exercisable	165,000	112,500

Weighted average share exercised price during the year ended 31 March 2019: ₹ Nil (31 March 2018: ₹ 92.28)

The fair value of the option under Plan II using the black scholes model, based on the following parameters is ₹ 62.79 per option, as certified by an independent valuer.

Particulars	Plan – II
Fair market value of option on the date of grant	₹ 62.79
Exercise price	₹ 110.50
Expected volatility	86%
Expected forfeiture percentage on each vesting date	Nil
Expected option life (weighted average)	10.5 Years
Expected dividend yield	3.92%
Risk free interest rate	6.50%

The expected volatility was determined based on historical volatility data of the Company's shares listed on the National Stock Exchange of India Limited.

Indiabulls Real Estate Limited Employees Stock Options Plan 2010 (III)

During the year ended 31 March 2011, the board of directors and shareholders of the Company have given their consent to create, issue, offer and allot to the eligible employees of the Company and its subsidiary companies, stock options not exceeding 30,000,000 in number, representing 30,000,000 equity shares of face value of ₹ 2 each of the Company, accordingly the Employee Stock Option Plan - 2010 ("IBREL ESOP 2010" or "Plan-III") has been formed. As per the scheme exercise price will be the market price of the equity shares of the Company, being the latest available closing price, prior to the date of grant or as the case may be decided by the board of directors or compensation committee. During the year ended 31 March 2016, board of directors of the Company at its meeting held on 26 June 2015, re-granted (original grant was of date 14 November 2015) under the "Indiabulls Real Estate Limited

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019**

Employees Stock Options Plan - 2010”, 10,500,000 stock options to eligible employees of the Company and its subsidiary companies representing an equal number of equity shares of face value of ₹ 2 each in the Company, at an exercise price of ₹ 54.50, being the closing market price of previous day on the National Stock Exchange of India Limited. The stock options so granted, shall vest within 5 years beginning from 26 June 2016, the first vesting date. The options vested under each of the slabs, can be exercised within a period of five years from the relevant vesting date.

Following is a summary of options granted under the plan –

Particulars	31 March 2019	31 March 2018
Opening balance	8,049,100	8,599,400
Granted during the year	-	-
Exercised during the year	2,006,150	550,300
Forfeited during the year	-	-
Closing balance	6,042,950	8,049,100
Vested and exercisable	2,196,950	2,280,100

Weighted average share exercised price during the year ended 31 March 2019: ₹ 178.24 (31 March 2018: ₹ 95.14)

The fair value of the option under Plan III using the black scholes model, based on the following parameters is ₹34.30 per option, as certified by an independent valuer.

Particulars	Plan – III
Fair market value of option on the date of grant	₹ 34.30
Exercise price	₹ 54.50
Expected volatility	89%
Expected forfeiture percentage on each vesting date	Nil
Expected option life (weighted average)	8 Years
Expected dividend yield	3.45%
Risk free interest rate	8.03%

The expected volatility was determined based on historical volatility data of the Company's shares listed on the National Stock Exchange of India Limited.

Indiabulls Real Estate Limited Employees Stock Options Plan 2011 (IV)

During the year ended 31 March 2012, the board of directors and shareholders of the Company have given their consent to create, issue, offer and allot, to the eligible employees of the Company and its subsidiary companies, stock options not exceeding 15,000,000 in number, representing 15,000,000 equity shares of face value of ₹2 each, and accordingly the Employee Stock Option Scheme 2011 (“IBREL ESOS 2011”) has been formed. As per the scheme exercise price will be the market price of the equity shares of the Company, being the latest available closing price, prior to the date of grant or as may be decided by the board or compensation committee. However, compensation committee of the board has not yet granted any options under IBREL ESOP 2011 Scheme.

Note – 42**Segment reporting**

The Company's primary business segment is reflected based on principal business activities carried on by the Company i.e. purchase, sale, real estate properties advisory, construction and development of real estate properties and all other related activities which as per Ind AS 108 on ‘Operating Segments’ is considered to be the only reportable business segment. The Company derives its major revenues from real estate properties advisory business (largely from related parties). The Company is operating in India which is considered as a single geographical segment.

Note – 43

During the year ended 31 March 2019, the Company has entered into various derivative contract with Barclays Bank PLC for sale of GBP 925.00 lakhs @ 108.01 (weighted average rate). The carrying value of underlying investments (including share application money) is ₹ 119,980.28 lakhs.

Indiabulls Real Estate Limited

Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019

Note – 44

As at 31 March 2019, the Company's financial assets are more than 50 per cent of its total assets (netted of by intangible assets) and income from financial assets is more than 50 per cent of the gross income of the Company. However, basis consolidated financial position, the Company's financial assets and income from financial assets does not meet the said criteria. The Company was incorporated with an objective of carrying on the business of construction and development of real estate properties and has been carrying the above business in line with the objects clauses stated in its articles of association. Accordingly, the Management basis the legal opinion obtained from an independent legal expert believes that the principal business of the Company is not that of Non-Banking Financial Company and hence it is not required to obtain certificate of registration as a Non-Banking Financial Company under section 45IA of the Reserve Bank of India Act, 1934.

Note – 45

A search was conducted by the competent authority under section 132(1) of the Income Tax Act, 1961 ('the Act') at premises of the Company in the financial year ended 31 March 2017. Consequently, in order to avoid protracted tax litigation, the Company filed an application under Section 245C (1) of the Act before the Hon'ble Income Tax Settlement Commission ('ITSC') in October 2017 and deposited taxes thereon. As at 31 March 2019, the matter was pending before the Hon'ble ITSC for final determination.

Note – 46

During the year, the Company had executed definitive transactions document to divest its 100% stake in tranches in one of its subsidiary Indiabulls Infrastructure Limited ('IIL'), whose wholly owned subsidiary India Land and Properties Limited ('ILPL') holds commercial asset at Chennai ("Chennai Assets"), to the entities controlled by the Blackstone Group L.P. ("Blackstone"). As part of the said transaction, the Company has divested partial stake by way of sale and buyback, thereby reducing Company's stake in IIL by 30.59%. The Company has recognised gain/fair value impact on such divestiture transaction amounting to ₹ 9,787.59 lakhs. The remaining stake has been classified under the head "Assets held for sale". To facilitate the above divestment of Chennai Assets, the Board of the Company had approved a composite scheme of arrangement amongst the Company, IIL and ILPL ("Scheme") and post receipt of regulatory clearances from SEBI and Stock Exchanges filed the same with the jurisdictional National Company Law Tribunal. The entire transaction is likely to be completed by 30 September 2019.

(This space has been intentionally left blank)

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019****Note – 47**

Proceeds from current/non-current borrowings (including current maturities)	71,247.77	1,077,045.44	-	1,148,293.21
Repayment of current/non-current borrowings (including current maturities)	(111,012.42)	(1,063,123.94)	-	(1,174,136.36)
Non-cash movement arising on account of amortisation of upfront fees and others	1,629.35	-	(1,629.35)	-
Interest expense	-	-	35,864.17	35,864.17
Interest paid	-	-	(39,428.20)	(39,428.20)
Net debt as at 31 March 2018	223,275.74	97,912.50	4,244.11	325,432.35
Proceeds from current/non-current borrowings (including current maturities)	147,732.00	809,752.20	-	957,484.20
Repayment of current/non-current borrowings (including current maturities)	(78,513.77)	(800,835.25)	-	(879,349.02)
Non-cash movement arising on account of amortisation of upfront fees and others	1,396.39	-	(1,396.39)	-
Interest expense	-	-	32,779.96	32,779.96
Interest paid	-	-	(32,399.66)	(32,399.66)
Net debt as at 31 March 2019	293,890.36	106,829.45	3,228.01	403,947.82

Note – 48

During the year ended 31 March 2018, IBREL-IBL Scheme Trust, of which the Company is the sole beneficiary, has sold 425.00 lakh shares of the Company for ₹ 88,215.00 lakhs. Hence, the Company adjusted the related investment in IBREL-IBL Scheme Trust and money received is recognised as share premium.

Note – 49

During the year, the Company has exercised its option to redeem its investments made in redeemable preference shares which were measured at amortised cost. The Company has de-recognised these during the year and related gain is recognised in statement of profit and loss.

Indiabulls Real Estate Limited**Summary of significant accounting policies and other explanatory information to the financial statements for the year ended 31 March 2019****Note – 50****A. Disaggregation of revenue**

Set out below is the disaggregation of the Company's revenue from contracts with customers:

(₹ in lakhs)

Particulars	Year ended 31 March 2019	Year ended 31 March 2018
Revenue from contracts with customers		
Revenue from real estate properties advisory and management services	1,919.61	7,188.48

B. Contract balances

The following table provides information about receivables and contract liabilities from contract with customers:

(₹ in lakhs)

Particulars	As at 31 March 2019	As at 31 March 2018
Receivables		
Trade receivables	589.36	185.19
Total receivables	589.36	185.19

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

- C.** Ind AS 115 'Revenue from Contracts with Customers', mandatory for reporting periods beginning on or after 1 April 2018, replaces existing revenue recognition requirements. The Company has applied the full retrospective approach, however, there is no impact of this standard on these standalone financial statements.

Note – 51

Pursuant to recent judgement by the Hon'ble Supreme Court of India dated 28 February 2019, it was held that basic wages, for the purpose of provident fund, to include allowances which are common for all employees. However, there is uncertainty with respect to the applicability of the judgement and period from which the same applies and accordingly, the Company has not provided for any liability on account of this.

Independent Auditor's Review Report on Consolidated Unaudited Quarterly Financial Results and Year to Date Results of the of Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended)

To The Board of Directors of Indiabulls Real Estate Limited

1. We have reviewed the accompanying statement of unaudited consolidated financial results ('the Statement') of Indiabulls Real Estate Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') (refer Annexure 1 for the list of subsidiaries included in the Statement) for the quarter ended 31 December 2021 and the consolidated year to date results for the period 1 April 2021 to 31 December 2021, being submitted by the Holding Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time.
2. The Statement, which is the responsibility of the Holding Company's management and approved by the Holding Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under section 133 of the Companies Act, 2013 ('the Act'), read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with SEBI Circular CIR/CFD/CMD1/44/2019 dated 29 March 2019 issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015 (as amended), to the extent applicable.

4. Based on our review conducted and procedures performed as stated in paragraph 3 above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the SEBI (Listing

Independent Auditor's Review Report on Consolidated Unaudited Quarterly Financial Results and Year to Date Results of the of Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended) (Cont'd)

Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including the manner in which it is to be disclosed, or that it contains any material misstatement.

5. We did not review the interim financial results of certain subsidiaries included in the Statement whose financial information reflects total assets of ₹168,616.58 lakhs as at 31 December 2021, and total revenues of ₹4,958.13 lakhs and ₹8,074.67 lakhs, total net profit after tax of ₹4,679.82 lakhs and ₹7,204.65 lakhs, total comprehensive income of ₹4,777.29 lakhs and ₹5,569.73 lakhs, for the quarter and year to date period ended on 31 December 2021, respectively, as considered in the Statement. These interim financial statements/ financial information/ financial results have been reviewed by other auditor whose review report has been furnished to us by the management, and our conclusion in so far as it relates to the amount and disclosures included in respect of the subsidiary is based solely on the review report of such other auditor and the procedures performed by us as stated in paragraph 3 above. Our conclusion is not modified in respect of this matter with respect to our reliance on the work done by and the report of the other auditor.

Further, these subsidiaries are located outside India, whose interim financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been reviewed by other auditor under generally accepted auditing standards applicable in their respective countries. The Holding Company's management has converted the financial information of such subsidiaries from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have reviewed these conversion adjustments made by the Holding Company's management. Our conclusion, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries is based on the review report of other auditor and the conversion adjustments prepared by the management of the Holding Company and reviewed by us.

Notes to the consolidated financial results :						
1 Indiabulls Real Estate Limited ('the Company' or 'the Holding Company') and its subsidiaries are together referred as 'the Group' in the following notes. The Holding Company conducts its operations along with its subsidiaries. The consolidated financial results are prepared in accordance with the recognition and measurement principles of Indian Accounting Standards as notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) as specified in Section 133 of the Companies Act, 2013.						
2 The consolidated financial results of the Group for the quarter and nine months ended 31 December 2021 have been reviewed by the Audit Committee and approved by the Board of Directors ('the Board') at its meeting held on 25 January 2022 and have been subjected to a limited review by the Statutory Auditors.						
3 The management has made an assessment of the Impact of COVID-19 on the Group's operations, financial performance and position as at and for the quarter & nine months ended 31 December 2021 and has concluded that the impact is primarily on the operational aspects of the business. In making the assessment management has considered the recoverability of trade receivables, investment and other assets and also considered the external and internal information available up to the date of approval of these financial results including status of existing and future customer orders, cash flow projections etc. and concluded that there is no significant Impact which is required to be recognized in the financial results. Accordingly, no adjustments have been made to the financial results.

5 Code on Social Security, 2020 ("Code") has been notified in the Official Gazette of India on 29 December 2020, which could impact the contributions of the Group towards certain employment benefits. Effective date from which changes are applicable is yet to be notified and the rules are yet to be framed. Impact, if any, of change will be assessed and accounted for in the period of notification of relevant provisions.

6 The Group's primary business segment is reflected based on principal business activities carried on by the Group. As per Indian Accounting Standard 108 as notified under the Companies (Indian Accounting Standards) Rules, 2015 as specified in Section 133 of the Companies Act, 2013, the Group operates in one reportable business segment i.e. real estate project advisory and construction and development of infrastructure/real estate projects and is primarily operating in India and hence, considered as single geographical segment.

7 Previous period/year numbers have been regrouped/reclassified wherever considered necessary.

Independent Auditor's Review Report on Standalone Unaudited Quarterly Financial Results and Year to Date Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended)

To The Board of Directors of Indiabulls Real Estate Limited

1. We have reviewed the accompanying statement of standalone unaudited financial results ('the Statement') of Indiabulls Real Estate Limited ('the Company') for the quarter ended 31 December 2021 and the year to date results for the period 1 April 2021 to 31 December 2021, being submitted by the Company pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time.
2. The Statement, which is the responsibility of the Company's management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under section 133 of the Companies Act, 2013 ('the Act'), read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an Audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with recognition and measurement principles laid down in Ind AS 34, prescribed under Section 133 of the Act, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations,

Independent Auditor's Review Report on Standalone Unaudited Quarterly Financial Results and Year to Date Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended) (Cont'd)

2015 (as amended), including the manner in which it is to be disclosed, or that it contains any material misstatement.

4 During second quarter of the previous year, the Board of Directors of the Company had considered and approved the proposal of merger of NAM Estates Private Limited ("NAM Estates") and Embassy One Commercial Property Development Private Limited ("NAM Opco") both Embassy group entities with the Company ("Amalgamation"). The proposed Amalgamation will be achieved through a cashless composite scheme of amalgamation of NAM Estates and NAM Opco into the Company, in accordance with Section 230-232 of the Companies Act, 2013 read with the rules framed thereunder, as amended, and the Securities and Exchange Board of India circular no. CFD/DIL3/CIR/2017/21 dated 10 March 2017, as amended and other applicable regulations and provisions, subject to necessary statutory and other approvals ("Scheme"). Upon effectiveness of the Scheme, IBREL will issue its equity shares, in accordance with the approved share swap ratios, to the shareholders of NAM Estates and NAM Opco, which will include Embassy promoter and promoter entities, Embassy institutional investors and other shareholders. For the proposed Amalgamation and arriving to share swap ratio, IBREL is valued at Rs 92.50 per share. During the last quarter of the previous year, the Scheme had been granted approval by Competition Commission of India ("CCI") and SEBI/Stock exchanges. During the previous quarter, the Company had filed the requisite joint application with jurisdictional bench of NCLT, for its approval to the Scheme of Merger. During the quarter, the Hon'ble National Company Law Tribunal, Chandigarh Bench ("NCLT"), NCLT vide its order dated December 23, 2021, has directed the Company to convene a meeting of its shareholder on February 12, 2022, through Video Conference/Other Audio Visual Means, under the Chairmanship of NCLT appointed Chairperson, to seek approval of shareholders of the Company to the proposed Scheme of Merger. Subsequent to the quarter end, the Company had completed the dispatch of the Notice of EGM through e-mail on January 13, 2022, to all its shareholders, holding equity shares of the Company as on December 31, 2021, and whose email IDs are registered with the Company/Depositories.			
5 In order to augment the long-term resources of the Company and to maintain sufficient liquidity for meeting funding requirements for business activities, existing and new projects and future business growth, the Board of Directors of the Company, during the quarter has, inter alia, approved raising of funds, aggregating upto Rs. 1,500 Crores or its equivalent in any other currency(ies) (inclusive of such premium as may be fixed on such securities), through one or more Qualified Institutions Placement in terms of Chapter VI of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the "ICDR Regulations") and/or any other permissible mode(s), in accordance with the ICDR Regulations and other applicable regulations, through public and/or private offerings of equity shares and/or any other convertible or exchangeable securities, including Global Depository Receipts, and/or American Depository Receipts and/or Foreign Currency Convertible Bonds, and/or Foreign Currency Exchangeable Bonds and/or warrants with or without non-convertible debentures with the rights exercisable by the warrant holders to exchange such warrants with equity shares and/or any other financial instruments/ securities convertible into or linked to equity shares, or any combination thereof, in one or more tranches and/or one or more issuances simultaneously or otherwise, subject to necessary approvals including the approval of the members of the Company and such other regulatory/ statutory approvals as may be required.			
6 During the quarter, the Company has issued and allotted 14,52,020 (Fourteen Lakh Fifty Two Thousand and Twenty only) fully paid-up Equity shares of face value Rs. 2/- each, to eligible employees upon exercise of options vested in their favour under various ESOP Schemes of the Company. Consequent to the said allotment, the paid-up Equity share capital of the Company stands increased from Rs. 90,93,27,752/- divided into 45,46,63,876 Equity shares of face value Rs.2/- each, to Rs.91,22,31,792/- divided into 45,61,15,896 Equity shares of face value Rs.2/- each.			
7 The management has made an assessment of the Impact of COVID-19 on the Company's operations, financial performance and position as at and for the quarter & nine months ended 31 December 2021 and has concluded that the impact is primarily on the operational aspects of the business. In making the assessment management has considered the recoverability of trade receivables, investment and other assets and also considered the external and internal information available up to the date of approval of these financial results including status of existing and future customer orders, cash flow projections etc. and concluded that there is no significant Impact which is required to be recognized in the financial results. Accordingly, no adjustments have been made to the financial results.			
8 Code on Social Security, 2020 ('Code') has been notified in the Official Gazette of India on 29 December 2020, which could impact the contributions of the Company towards certain employment benefits. Effective date from which changes are applicable is yet to be notified and the rules are yet to be framed. Impact, if any, of change will be assessed and accounted for in the period of notification of relevant provisions.			
9 During the quarter, eleven wholly owned subsidiaries of the Company have been voluntarily dissolved and have been struck off from the register of companies maintained by the Registrar of Companies.			
10 The listed non convertible debentures of the Company are secured by way of first mortgage/charge on the Company and its subsidiaries properties and asset cover thereof exceeds 100% of the principal amount of the said debentures.			
11 There is no material deviation in the use of the proceeds of issue of non convertible debts from the objects stated in the respective offer documents.			
12 The Company's primary business segment is reflected based on principal business activities carried on by the Company. As per Indian Accounting Standard 108 as notified under the Companies (Indian Accounting Standards) Rules, 2015 as specified in Section 133 of the Companies Act, 2013, the Company operates in one reportable business segment i.e. real estate project advisory and construction and development of infrastructure/real estate projects and is primarily operating in India and hence, considered as single geographical segment.			
13 Previous period/year numbers have been regrouped/reclassified wherever considered necessary.

INDEPENDENT AUDITOR’S REPORT

To the Board of Directors of **NAM Estates Private Limited**

Report on the Audit of the Special Purpose Consolidated Financial Statements

Opinion

We have audited the accompanying special purpose consolidated financial statements of **NAM Estates Private Limited** (the “Holding Company”) and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”) and its joint venture, which comprise the special purpose consolidated balance sheet as at March 31, 2021, the special purpose consolidated statement of profit and loss (including other comprehensive income) for year ended on that date and the special purpose consolidated statement of changes in equity for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the “Special Purpose Consolidated Financial Statements”). The Special Purpose Consolidated Financial Statements have been prepared by the management in accordance with Note 2 on the basis of the preparation of the Special Purpose Consolidated Financial Statements.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and joint venture, the aforesaid Special Purpose Consolidated Financial Statements give a true and fair view, in accordance with the basis of preparation as specified in Note 2 to the Special Purpose Consolidated Financial Statements, of the financial position of the Group and its joint venture as at March 31, 2021, and its financial performance including other comprehensive income, and the changes in equity for the year ended as on that date.

Basis for Opinion

We conducted our audit of the Special Purpose Consolidated Financial Statements in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (‘SAs’). Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Special Purpose Consolidated Financial Statements section of our report. We are independent of the Group and joint venture in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (‘ICAI’) together with the ethical requirements that are relevant to our audit of the Special Purpose Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Special Purpose Consolidated Financial Statements.

Emphasis of Matter

In respect of the Holding Company, we draw attention to note 40(a) to the Special Purpose Consolidated Financial Statements, which details the pending litigation with respect to Holding Company's investment in Embassy East Business Parks Private Limited (erstwhile known as Concord India Private Limited). Our opinion is not modified in respect of this matter.

In respect of Summit Developments Private Limited (a subsidiary of the Holding Company), we draw attention to the sub-note 2(B) under note 24 of the Special Purpose Consolidated Financial Statements, which describes the effects on the Special Purpose Consolidated Financial Statements due to event of default notice served by the Compulsory Convertible Debentures (CCD) holders issued by Summit Developments Private Limited. Our opinion is not modified in respect of this matter.

Management's Responsibility for the Special Purpose Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these Special Purpose Consolidated Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, and changes in equity of the Group and joint venture in accordance with basis described in Note 2 of the Special Purpose Consolidated Financial Statements and in accordance with Ind AS and other accounting principles generally accepted in India.

The respective Board of Directors of the companies included in the Group and its joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its joint venture and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Special Purpose Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Special Purpose Consolidated Financial Statements, the respective Board of Directors of the companies included in Group and its joint venture are responsible for assessing the ability of the Group and its joint venture to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and its joint venture, are responsible for overseeing the financial reporting process of the Group and its joint venture.

Auditor's Responsibilities for the Audit of the Special Purpose Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Special Purpose Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Special Purpose Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management. Evaluate the overall presentation, structure and content of the Special Purpose Consolidated Financial Statements, including the disclosures, and whether the Special Purpose Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Special Purpose Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Special Purpose Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our audit work; and (ii) to evaluate the effect of any identified misstatements in the Special Purpose Consolidated Financial Statements.

Other matters

We did not audit the financial statements of five subsidiaries, whose financial statements reflect total assets of 28,641.98 millions (before consolidation adjustments) as at March 31, 2021, total revenues of Rs 249.75 millions (before consolidation adjustments) and net loss amounting to (512.51) millions for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of 15.16 millions for the year ended March 31, 2021, as considered in the consolidated financial statements, in respect of a joint venture, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture, is based solely on the reports of the other auditors.

Basis of Preparation and Restriction on Use

Without modifying our opinion, we draw attention to note 2 to Special Purpose Consolidated Financial Statements, which describes the basis of preparation.

These Special Purpose Consolidated Financial Statements have been prepared by the management of NAM Estates Private Limited, and this report thereon issued, solely for the purpose of the management to enable them to be presented in the private placement document, on a standalone basis, for the proposed fund raise by Indiabulls Real Estate Limited. Accordingly, this report should not be used, referred to or distributed for any other purpose without our prior written consent.

1 Overview of the Group

The special purpose consolidated financial statements comprise financial statements of NAM Estates Private Limited ('the Company', 'the Parent Company' or 'Holding Company') together with its subsidiaries (collectively termed as 'the Group') and joint ventures (collectively termed as the 'Consolidated Entities') for the year ended March 31, 2021. Nam Estates Private Limited was incorporated on June 02, 1995. The Group is engaged in the business of real estate development of commercial, residential, hospitality, development of township and related activities.

2 Basis of preparation of special purpose consolidated financial statements

These special purpose consolidated financial statements have been prepared to be presented in the private placement document, for the proposed fund raise by Indiabulls Real Estate Limited. The Holding Company had not presented its consolidated financial statements for year ended March 31, 2021 in its Annual General Meeting for the year then ended, as it had claimed exemption from preparation under paragraph 4(a) from Ind AS 110. These special purpose consolidated financial statements have now been prepared giving effect to the Scheme of Arrangement amongst the Holding Company and Embassy Property Developments Private Limited (EPDPL) and their respective shareholders and creditors ("the Scheme") for the demerger of the identified residential / commercial projects and investments of EPDPL, either held directly or as investments in subsidiaries of EPDPL approved by the Regional Director ("RD"), South East Region, on August 04, 2021. The Scheme became effective from the appointed date April 1, 2020 upon filing of the certified copies of the RD Orders with the respective jurisdictional Registrar of Companies.

This financial statements have been prepared in accordance with the recognition and measurement principles prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India. Selected notes have been included that are significant for the understanding of the changes in the Company's financial position and performance since the last annual financial statements, wherever applicable.

2.01 Statement of compliance

The special purpose consolidated financial statements of the Group have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards) Amendment Rules, 2016, Companies (Indian Accounting Standards) Amendment Rules, 2018 and other relevant provisions of the Act.

The Group's financial statements have been prepared on a going concern basis. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on the market value of the underlying inventory and Investment Properties held by the Group.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Group was unable to continue as a going concern.

2.02 Principles for consolidation

1) Business Combinations

Business combinations are accounted for using the Acquisition method. The acquisition date is the date on which control is transferred to the acquirer. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are at their acquisition date fair value. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively

- Assets (or disposal Groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

2) Subsidiaries

The Consolidated Financial Statements relate to NAM Estates Private Limited and its consolidated entities:

Subsidiaries are all entities over which NAM Estates Private Limited exercises control. The Holding Group exercises control if and only if it has the following:

- Power over the entity
- exposure, or rights, to variable returns from its involvement with the entity; and
- the ability to use its power over the entity to affect the amount of its returns.

Nam Estates Private Limited

CIN:U85110KA1995PTC017950

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent Company, i.e., year ended on March 31. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

2) Subsidiaries (continued)

The Consolidated Financial Statements have been prepared on the following basis:

The Financial Statements of the Group have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-Group balances and intra-group transactions and resulting unrealised profits. Unrealised losses resulting from intra-group transactions are eliminated unless cost cannot be recovered.

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

The Financial Statements of the subsidiaries used for the purpose of consolidation are drawn up to the same reporting date as of the Group.

The Consolidated Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstance and are presented to the extent possible, in the same manner, as the Group's Financial Statements.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-Group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

3) Investment in joint ventures (accounted under equity method)

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. The considerations made in determining whether joint control are similar to those necessary to determine control over the subsidiaries. The Group's investments in its joint venture are accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the joint venture since the acquisition date.

The consolidated statement of profit and loss reflects the Group's share of the results of operations of the joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

If an entity's share of losses of a joint venture equals or exceeds its interest in the joint venture (which includes any long term interest that, in substance, form part of the Group's net investment in the joint venture), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

2.03 Functional and presentation currency

These special purpose consolidated financial statements are presented in Indian Rupees, which is also the Group's functional currency. All the amounts have been rounded-off to the nearest millions, unless otherwise indicated.

2.04 Basis of measurement

The special purpose consolidated financial statements have been prepared on a historical cost basis, except for certain investments in equity instruments which is measured at fair value.

Items	Measurement basis
Certain financial assets and liabilities	Fair value

2.05 Use of estimates and judgements

The preparation of special purpose consolidated financial statements in conformity with Indian Accounting Standards ("IND AS") requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Accounting policies have been consistently applied except whereas newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Judgments

Information about judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- (i) Classification of assets as investment property or as property, plant and equipment.- refer note 3.16
- (ii) Determination of the amount and timing of revenue from contracts with customers - refer note 3.01
- (iii) Valuation of fair value of OCD - period taken until scheme approval

2.06 Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between marked participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the fair value measurement as a whole at the end of the reporting period.

2.07 Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when it is:

- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3 Significant accounting policies

3.01 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

i. Proceeds from sale of plotted development and constructed property

Revenue is recognized upon transfer of control of units of plots to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Group expects to receive in exchange for those units of plots. The Group shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of plotted development, the Group satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the units of plots for residential use which coincides with the execution of sale deed.

To estimate the transaction price in a contract, the Group adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Group when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred unit of plots.

ii. Recognition of revenue from transfer of assignment rights

Revenue from transfer of assignment rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue from transfer of assignment rights is only recognised when transfer of legal title to the buyer is not a condition precedent for transfer of significant risks and rewards of ownership to the buyer.

iii. Guarantee Income

Financial guarantees issued by the Group are recognised initially at fair value, and the financial guarantee is recognised in P&L over the tenure of the

iv. Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

v. Dividend income

Dividends is recognised when the share holder's or unit holder's right to receive the payment is established, which is generally when shareholders approve the dividend.

3.02 Investment properties

i. Recognition and measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. The cost of the assets not ready for their intended use before such date, are disclosed as Investment property under development.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Investment properties are depreciated on straight-line method over their estimated useful lives. However, where the Management's estimate of the remaining useful life of the assets on a review subsequent to the time of acquisition is different, then depreciation is provided over the remaining useful life based on the revised useful life. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the investment property can be measured reliably.

iii. Depreciation

Based on an independent assessment, the management has estimated the useful lives of the following class of assets. Depreciation is provided on straight line method as per the following useful life of the assets estimated by the management:

Asset	Useful life
Building	5-60 years
Plant and equipment/Electrical equipment	15 years
Furniture and fixtures	10 years
Computer	3 years
Operational supplies	2 years
Office equipment	1-5 years
Electrical equipment	10 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year. In case of assets taken over through demerger, the balance useful life of the assets in the transferor entity have been considered as the useful life of the assets in the Company.

iv. Derecognition

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

3.03 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation/impairment losses if any. Cost comprises of the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of assets which takes substantial period of time to get ready for its intended use is capitalised up to the date the assets are ready for commercial use.

Subsequent expenditure relating to an item of the asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other related expenses, including day to day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss (P&L) for the period during which such expenses are incurred.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of the asset are measured as differences between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

Depreciation

Based on an independent assessment, the management has estimated the useful lives of the following class of assets. Depreciation is provided on straight line method as per the following useful life of the assets:

Asset	Useful life
Motor Vehicles	5-8 years
Computers	3 years
Furniture and fixtures	5-10 years
Office equipment	1-5 years

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

In case of assets taken over through demerger, the balance useful life of the assets in the transferor entity have been considered as the useful life of the assets in the Company.

3.04 Inventories

Related to real estate activities

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

i. Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

ii. Finished goods - Plots: Valued at lower of cost and net realisable value.

iii. Land inventory: Valued at lower of cost and net realisable value.

3.05 Impairment of assets

Non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Group's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Group recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. The Group tests for impairment using the ECL model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime ECL. Life time ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss (P&L). This amount is reflected in a separate line in the P&L as an impairment gain or loss. For financial assets measured at amortised cost, ECL is presented as an allowance which reduces the net carrying amount of the financial asset.

3.06 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through profit or loss.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Group has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

(v) Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in P&L.
FVTPL	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.

Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

- the rights to receive the cash flows from the asset have expired or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

3.07 Borrowing costs

Borrowing costs are interest and other costs incurred in connection with borrowings of funds. Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs not eligible for inventorisation/ capitalisation are charged to statement of profit and loss.

In case of extended periods during which activities necessary for bringing the asset ready for its intended use are not undertaken, the Group suspends the capitalisation of borrowing cost to the asset.

3.08 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding book overdrafts that are repayable on demand are considered part of the Group's cash management system.

3.09 Foreign currency

i. Functional currency

The Group's financial statements are presented in INR, which is also the Group's functional currency.

ii. Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

3.10 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes as the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in the OCI or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

3.11 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

3.12 Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.13 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

3.14 Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Group recognises any impairment loss on the assets associated with that contract.

3.15 Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the acGrouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

i) Judgements

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Classification of property

The Group determines whether a property is classified as investment property or inventory:

The Group is developing a township project containing various types of real estate development. Based on the intention of use, the land property and related development cost have been classified as either investment property, property plant & equipment or have been inventorised.

Nam Estates Private Limited

CIN:U85110KA1995PTC017950

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)

Investment property comprises land and buildings (principally offices, commercial and school property) that are not occupied substantially for use by, or in the operations of, the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented or intended to be rented to tenants and not intended to be sold in the ordinary course of business. Inventory property comprises of property that is held for sale in the ordinary course of business. Principally, this is residential property that the Group develops and intends to sell before or on completion of construction/development.

The Group based its assumptions and estimates on parameters available on the reporting period about future developments. The above judgements may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

3.16 Earnings before finance costs, depreciation, amortisation and tax

The Group has elected to present earnings before finance cost, depreciation, amortisation and tax as a separate line item on the face of the Statement of Profit and Loss. The Group measures earnings before finance cost, depreciation, amortisation and tax on the basis of profit/ (loss) from continuing operations.

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹ millions unless otherwise stated)

Notes:

1) Value of Leasehold Land

The value of Leasehold Property comprises of fair value amount as on April 01, 2020 assigned by Independent Valuer on demerger of the same from Embassy Property Developments Private Limited and cost incurred subsequently.

2) Restriction on realisability

a) Karnataka Industrial Area Development Board (KIADB) has allotted 78.2219 acres of land to the Group on lease-cum-sale basis. Of the above, 58 acres of land is leased for a period of 20 years and 20.2219 acres is for a period of 11 years. Subsequent to the year end, KIADB extended the 20.2219 acres lease period 20 years from 11 years of initial lease period. The allotment is to develop infrastructure facilities for IT/ITES companies. In accordance with the terms of agreement with KIADB, a consideration of Rs 398.76 million has been paid to KIADB and Rs 33.7 million towards stamp duty. The agreement gives a right to the Group to acquire land at the end of the lease term for no additional consideration. However, if KIADB incurs any further cost towards settlement to the previous owners, KIADB has the right to recover the additional consideration from the Group. During the period of the lease term till transfer of ownership, the Group is required to pay a nominal rent of Rs 78,550 per annum. As at the balance sheet date, as KIADB has not intimated any additional consideration, the Management believes that no further cost is required to be paid to KIADB.

The above land includes 18 acres of land which has been sub-leased to a party for a total consideration of Rs 333.23 million under a lease cum sale agreement. Accordingly, the proportionate cost of such 18 acres of land has been classified as assets held for sale.

During the current year the Group has filed an application with Managing Director of Karnataka Udyoga Mitra for the change in activities as compared to the original lease cum sale agreement.

b) The aforementioned parcel of land was subject to litigation between the Range Forest Officer, Bangalore and the Group. The Range Forest Officer had issued notice vide No. 176/2007-2008 to the Group alleging that the land allotted by KIADB to the Group is a forest land and the Group is in unauthorised occupation of the forest land. Aggrieved by the said notice, the Group had filed a writ petition before the Honourable High Court of Karnataka appealing for quashing of the said notice issued by the Forest Department. The Honourable High Court of Karnataka on 25 May 2012 has allowed the writ petition no. 7200/2008 filed by the Group confirming that the land allotted by KIADB is not a forest land. Aggrieved by the said order dated 25 May 2012, the Forest Department has filed an appeal vide W.A. 4283/2012 before the Honourable High Court of Karnataka. The Group has also filed an appeal vide W.A. 4205/2012 seeking certain clarifications on certain observations made in the order dated 25 May 2012. The Honourable High Court of Karnataka, on 23 July 2019 has dismissed the appeal filed by the Forest Department vide W.A. 4283/2012 and also disposed of the appeal filed by the Group vide W.A. 4205/2012.

Further the Range Officer, Bengaluru filed an appeal with the Honourable Supreme Court of India and the appeal was dismissed on 19 November 2020.

Nature and purpose of other reserves:**Capital reserve**

The Holding Company vide Scheme of Amalgamation ('the Scheme') in the year 2016-2017 merged its wholly-owned subsidiary Swire Investments Private Limited ('SIPL'). Given that SIPL was a wholly-owned subsidiary of the Holding Company there is no consideration payable for the amalgamation of SIPL with the Holding Company and the consequent transfer of the undertaking, properties, assets and liabilities of SIPL to the Holding Company. The difference of the value of the assets over the liabilities of SIPL vested in the Holding Company has been accounted as capital reserves in the Holding Company.

As detailed in note 42 identified residential / commercial projects and investments of Embassy Property Developments Private Limited has been demerged to the Holding Company. The Holding Company has recognised the effect of the demerger on April 1, 2020 and accounted the assets and liabilities taken over at fair value in accordance with Ind AS 103 Business Combination. The difference in the fair value of the net assets of the specified undertaking demerged and the consideration issued, is recognised as capital reserve.

Retained earnings

The cumulative gain or loss arising from the operations which is retained by the Group is presented under the heading of retained earnings. At the end of the year, the profit/(loss) after tax is transferred from the statement of profit and loss to retained earnings.

Equity portion of interest free loans

It represents the equity component arising on fair valuation of the said loans as required under Ind AS 109.

Equity portion of corporate guarantee

It represents the equity component arising on fair valuation of the corporate guarantee on loan taken by erstwhile holding Company as required under Ind AS 109.

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹ millions unless otherwise stated)

22 Other equity (continued)

Equity issued as consideration for demerger

As per the approved Scheme of Arrangement with Embassy Property Developments Private Limited, all the shareholders of the Demerged Company (EPDPL) are allotted 41 fully paid-up equity share of Rs. 10 each in the Holding Company, for every 100 fully paid-up equity share of Rs 10 each held by them in EPDPL.

The abovesaid process of issue of equity shares has been completed post receipt of the Order dated August 04, 2021. The Holding Company has reflected the increase in equity capital under other equity, until the actual issuance of shares, in these special purpose consolidated financial statements as the scheme came into effect on April 01, 2020.

23 Deferred tax liability

	16,285.79

Note 1 : Terms and conditions for issue of Optionally convertible debentures

A 0 % unsecured fully paid optionally convertible debentures (OCDs):

During the year ended, 31 March 2021, the Group issued 30,000,000 optionally convertible debentures of ₹100 each. The term of the debentures is maximum 10 years from the allotment date unless redeemed or converted earlier. The OCDs carry coupon of 0%.

Conversion terms:

Unless redeemed earlier, at any time during the term, convertible at the option of either issuer/holder into such number of equity shares of face value Rs. 10 each based on higher of:

- (a) Fair market value determined on the date of conversion or
- (b) Rs. 10

On expiry of the term, at the option of the Group, the OCDs shall be converted into such number of equity shares as decided above. On receipt of CCI approval and approval of scheme by the tribunal, the OCDs will become CCDs and will be compulsorily convertible as mentioned above.

Name of debenture holder	As at March 31, 2021	
	No. of debentures	Amount (in millions)
Embassy Property Developments Private Limited	3,00,00,000	3,000.00

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹ millions unless otherwise stated)

Note 2 : Terms and conditions for issue of Compulsorily Convertible Debentures

A 0.0001% fully and compulsorily convertible debentures (CCDs)

The CCD shall carry an annual coupon rate of 0.0001% per annum from the date of issue and allotment. The coupon shall be payable on an annual basis and be paid 15 calendar days from the end of each year ("Coupon Payment Date"), unless otherwise agreed to between the parties.

The CCD holders shall have right to convert any or all of the CCD's, any time during the tenure of the CCDs into 10 Equity Shares of Rs 10/- each fully paid up of the Group in respect of every 1(One) CCD of Rs 100/- each.

The term of the debentures is maximum 10 years from the allotment date. CCD's do not carry any voting rights. The investor shall have right to convert any or all of the CCD's, any time during the tenure of the CCD. Equity shares pursuant to conversion shall rank pari passu in all respects with the existing shares of the Group.

Name of debenture holder	As at March 31, 2021	
	No. of debentures	Amount (in millions)
Udhyaman Investments Private Limited	1,10,76,675	1,107.67
OMR Investments LLP	68,22,419	682.24

B 5% fully and compulsorily convertible debentures (CCDs)

The debentures shall carry interest at 5% per annum on the principal amount till the date of conversion. Interest shall be payable as on 31 March of each year ("Payment date"). All payments of interest rate shall be made net of any applicable withholding tax, payable in relation to such amounts. The interest is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date.

The debentures shall be compulsorily converted into equity shares in the following manner on expiry of 30 April 2021 (31 July 2020 prior to execution of the fifth amendment to Securities Subscription and Shareholders agreement dated 29 July 2019) or in the event of default, as defined in securities subscription and shareholders agreement dated 17 August 2011, whichever is earlier.

(i) At any time after the expiry of 30 April 2021 the holder of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted upon such conversion represents 18.59% of the share capital of the Company on a fully diluted basis as on the date of conversion.

(ii) at any time after the occurrence of an event of default, the holders of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted on such conversion represents 51% of the share capital of the Company on a fully diluted basis as on the date of the conversion.

While the CCDs are mandatorily convertible into equity shares at any time after the expiry of 30 April 2021 as per the extended agreement dated 30 July 2020, in accordance with the requirements of Guidance Note on Schedule III to the Companies Act, 2013, the conversion of CCDs into equity shares are considered as a means of settlement of the liability and since the investors have a right to convert after the expiry of 30 April 2021, these CCDs are classified as other current financial liabilities as at 31 March 2021.

During the year ended March 31, 2021, the CCD holders have issued an 'event of default' notice under the provisions of the Securities Subscription and Shareholders Agreement dated August 17, 2011. Subsequently, one of the Subsidiary Companies, Embassy Property Development Private Limited (EPDPL) and the CCD holders have entered into an agreement whereby EPDPL will buy out the CCD's for an agreed consideration. According to the terms of the SPA, the purchase of the CCDs was to be completed by 31 March 2021 (Closing date). However, the CCD holders served an NOC towards the Demerger Scheme of EPDPL and Nam Estates Private Limited, whereby it is stated that the Closing date or the Long stop date shall stand extended to 31 August 2021.

Consequent to the Long Stop Date, the CCD holders have intimated the management of the subsidiary company proposing a further extension of the "Closing date" and a revision of the previously agreed consideration. The Closing date is proposed to be extended up to 31 March 2022 and the consideration is under the process of negotiation between the Parties to the SPA.

B 5% fully and compulsorily convertible debentures (CCDs) (continued)

The interest on 5% fully and compulsorily convertible debentures of INR 10 each is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date. The Management believes that there will not be any availability of distributable cash flow as the projects are yet to commence and hence the interest accrued till date on the same has been classified under "Other current financial liabilities".

Name of debenture holder	As at March 31, 2021	
	No. of debentures	Amount (in millions)
Pollhater Investments Limited	27,79,20,741	2,779.21
HDFC Ventures Trustee Company Limited on behalf of HDFC Investment Trust	2,34,33,452	234.33

40 Contingent liabilities, capital commitments and contingent assets(to the extent not provided for)

Particulars	Year ended March 31, 2021
Contingent liabilities*	
Outstanding dues to MSME (refer note b below)	-
Income tax matters (refer note c below)	-
Service tax matters	28.86
Others:	
The Group has given its leasehold land, i.e. investment property as an exclusive security for a loan taken by Embassy Property Developments Private Limited. (refer note (e) below)	4,715.80
Capital and other commitments	
Estimated specific committed cost towards its capital expenditure (net of advances) and not provided for	872.02
Commitment for joint development - refundable deposit	950.00
Stamp duty and registration charges for assets transferred under the Scheme of Arrangement (refer note (f) below)	-

Other disputes

The Group has several cases pending against it towards the title of land acquired by it. Management, based on legal advice obtained and also based on the court rulings (in favour of the Group), believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence no amounts has been quantified.

- (a) The Holding Company has investments of ₹ 22,503.15 million in subsidiaries, joint ventures and associates (as on standalone basis), which includes a sum of ₹ 7,014.94 millions, representing shares in Embassy East Business Parks Private Limited (previously known as Concord India Private Limited) ("EEBPPL"). The shares in EEBPPL has arisen under a scheme of demerger with Embassy Property Developments Private Limited approved by the Regional Director ("RD"), South East Region, on August 06, 2021.
A case has been filed by some parties against various respondents including EPDPL, claiming ownership to part of the shareholding. The Court has granted an interim stay to maintain the status quo pending further hearing in the case.
The Holding Company is of the view that the outcome of the case will not impact the shareholding of EEBPPL by the Holding Company or its valuation.
- (b) The Group has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 March 2021, the amounts due to micro and small enterprises is ₹ 327.70 million. As per the MSME Act 2006 Section 16, Where any buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors has not raised any interest demand yet and the Group has not paid interest during the year, and hence the interest accrued under section 16 of the MSME Act is not provided for.
- (c) The Income Tax department has launched the proceedings u/s 276B against the Group and the principle officer of the group entity in respect of defaults in payment of Tax deducted at source. The Group is contesting the proceedings initiated before the Honourable High court of Karnataka. The quantification of financial default is not ascertainable pending final judgement at this point of time. Hence the amount couldn't be quantified at the balance sheet date and not provided for.
- (d) The Group had made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bangalore. The Group had made an advance payment of ₹ 1,217.49 millions in earlier years in accordance with the demand request raised by KIADB. The State government has issued a notification on 28 February 2018 declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of ₹ 728.78 millions on 13 January 2021 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Group. The Group has paid the said amount during the period ended 31 December 2021.
- (e) The Group has given its leasehold land, i.e. investment property as an exclusive security for a loan taken by Embassy Property Developments Private Limited - ₹ 4715.80 millions. The said loan for which security is provided has been closed as on the reporting date.
- (f) The Group is the process of transferring title of the assets and liabilities under the scheme of demerger as on the reporting date. The amount of charges to be paid has not yet been crystalised

As part of Scheme of Arrangement, the loan from Indiabulls Housing Finance Limited has been demerged from Embassy Property Developments Private Limited ('EPDPL'). The loan has been secured against certain assets held by the Company, EPDPL and subsequently held by Embassy East Business Park Private Limited. Guarantee expense for the security provided has not been provided as on March 31, 2021 as the obligation under the loan of the Company ceases as 21 July, 2021 by virtue of Novation Agreement entered into between EPDPL and Embassy East Business Park Private Limited.

(this space is left blank intentionally)

42 Scheme of Arrangement with Embassy Property Developments Private Limited

The Regional Director ("RD"), South East Region, on August 04, 2021, approved the Scheme of Arrangement amongst the Holding Company and Embassy Property Developments Private Limited (EPDPL) and their respective shareholders and creditors ("the Scheme") for the demerger of the identified residential / commercial projects and investments of EPDPL ("Demerged Undertaking"), either held directly or as investments in subsidiaries of EPDPL. The Scheme became effective from the appointed date April 1, 2020 upon filing of the certified copies of the RD Orders with the respective jurisdictional Registrar of Companies. Pursuant to the Scheme becoming effective, the specified undertaking as defined under the Scheme, is demerged from EPDPL and transferred to and vested in the Holding Company with effect from April 1, 2020 i.e. the Appointed Date. As a consideration for the demerger, all the shareholders of the Demerged Holding Company (EPDPL) are allotted 41 fully paid-up equity share of Rs. 10 each in the Holding Company, for every 100 fully paid-up equity share of ₹ 10 each held by them in EPDPL.

As per the clarification issued by Ministry of Corporate Affairs vide Circular no. 09/2019 dated August 21, 2019 (MCA Circular), the Holding Company has recognised the effect of the demerger on April 1, 2020 and accounted the assets and liabilities taken over at fair value in accordance with Ind AS 103 Business Combination. The difference in the fair value of the net assets of the specified undertaking demerged as at April 1, 2020 and the consideration issued, is recognised as capital reserve. Any inter-Holding Company balances between the EPDPL and the Holding Company relating to Demerged Undertaking, if any, in the books of the Holding Company shall stand cancelled.

The Holding Company is in the process of transferring title of the assets and liabilities under the scheme of demerger as on the reporting date. Due to the above demerger the comparable (March 31, 2020) is not comparable.

The summary of effect of the demerger is as under:

Particulars	Carrying Value of the Assets and Liabilities in books of EPDPL	Fair Value of the Assets and Liabilities as on appointed date
Assets transferred and vested on demerger		
- Investment properties	688.78	686.54
- Investments in subsidiaries, joint venture and associates	12,850.86	23,352.63
- Investment in Others	8,650.20	2,577.54
- Inventories	26,775.29	26,238.33
- Advance towards joint development projects (reflected under investment property under development to the extent in excess of any refundable amounts)	3,966.01	9,294.93
- Other Assets	6,017.57	5,873.58
	58,948.70	68,023.55
Less: Liabilities transferred and vested on demerger		
- Borrowings	(33,819.92)	(33,819.92)
- Deferred revenue / provision for onerous losses	(18,912.31)	(18,912.31)
- Other current liabilities	(2,213.72)	(2,958.75)
	(54,945.95)	(55,690.98)
Net assets transferred and vested on demerger (a)		12,332.57
Face value of fully paid-up equity shares issued to the shareholders of demerged company (b)		3,997.41
Net amount adjusted against the capital reserve (a) - (b)		8,335.16

The Holding Company has recognised deferred tax liability of ₹ 5,281.14 millions arising on account of acquisition of the de-merged undertaking and it has been adjusted against capital reserve of ₹ 8,335.16 millions.

43 Acquisition-related costs

The Group has incurred ₹ 49.42 millions towards various professionals for finalising the Demerger scheme as stipulated in note 42 and other restructuring activities. In accordance with Ind AS 103 and other relevant accounting standards, the costs incurred have been charged to Statement of Profit and Loss in the year of incurring the same. The same is reflected in note 39 under the head "Legal and Professional Charge"

Nam Estates Private Limited

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹ millions unless otherwise stated)

44 Note on Security provided by the Group to another Company

On 6th July 2018, the Group has provided leasehold land of 60 acres held by the Group as a security for loan taken by a Private Limited Company in which a director of the holding company is interested. As per the requirement of Section 185 of the Companies Act, 2013, no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a Director is interested without passing a special resolution prior to providing the loan, security and guarantee. Accordingly the aforesaid guarantee given by the Group is not in compliance with the requirement of the Act. However, the above loan has been repaid before balance sheet signing date.

Notes to special purpose consolidated financial statements for the year ended March 31, 2021 (continued)
(all amounts in ₹ millions unless otherwise stated)

46 Earnings/ (loss) per share

Basic earnings/(loss) per share amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders by the number of equity shares outstanding during the year. Diluted Earnings per share ("EPS") amounts are calculated by dividing the profit/(loss) attributable to equity holders

i. Reconciliation of earnings used in calculating earnings per share:

Particulars	Year ended March 31, 2021
Total profit/(loss) for the year attributable to equity shareholders of the holding company as per statement of profit and loss	(11,072.16)
	(11,072.16)

ii. Reconciliation of basic and diluted shares used in computing earnings per share

Particulars	Year ended March 31, 2021
Number of equity shares at the	70,002
Add:	
Number of equity shares issued during the year	39,97,41,389
Number of equity shares for basic and diluted EPS	39,98,11,391

iii.(Loss) per share:

Particulars	Year ended March 31, 2021
Basic	(27.69)
Diluted	(27.69)

For the year ended 31 March 2021, optionally convertible debentures were excluded from the calculation of diluted weighted average number of equity shares as their effect would have been anti-dilutive.

INDEPENDENT AUDITORS' REPORT

To the Members of **NAM Estates Private Limited**

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of NAM Estates Private Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2021, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st 2021 and loss, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

As stated in note 36 to the financial statements, the Company has extended its land as security for a loan taken by its Holding Company in which, a director is interested.

As per the requirement of Section 185 of the Companies Act, 2013 ('Act'), no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested without complying with the provisions as laid down in the said section of the Act. Accordingly, security provided is not in compliance with the requirements of the Act. The impact of this non-compliance has not been quantified by the Company.

During the year, the Company has passed a special resolution approving the continuity of extension of security for the charge created for loan obtained by Holding Company. Further, the Company has filed an application seeking compounding of offence under Section 441 of the Companies Act, 2013 for violation of section 185 of the said Act.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the

Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. except for the matters described in the basis of qualified opinion paragraph, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. except for the possible effects of the matters described in the basis of qualified opinion paragraph above, in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

- d. In our opinion, except for the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. In our opinion the matters described in the basis of qualified opinion paragraphs above, may have an adverse effect on the functioning of the Company.
- g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.
- h. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements as disclosed in note 28 to the financial statements. The Company has cases pending against it towards the title of land acquired by it. The Management, based on legal advice, believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence the amount has not been quantified.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any foreseeable losses; and
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure A to the Independent Auditors' Report

The Annexure referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report to the Members of **Nam Estates Private Limited** ('the Company') for the year ended 31 March 2021,

We report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and investment properties.
 - (b) The Company has a regular program of verification of its property, plant and equipment and investment properties which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company and subject to the matters mentioned in Note 19, the title deeds of immovable properties are held in the name of the Company.
- (ii) The Company is engaged in the business of real estate development and related services and holds inventories in the form of land, properties under development and constructed properties. The management has conducted physical verification of inventory at reasonable intervals and no material discrepancies were noticed during the such physical verification.
- (iii) The Company has granted deposit to companies covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act').
- (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the terms and conditions of the deposit granted by the Company to the company covered in the register maintained under section 189 of the Companies Act, 2013 are not prejudicial to the interest of the Company. The details have been disclosed below.
 - (b) In the case of the loans granted to the company listed in the register under Sec 189 of the Act, the stipulation as to repayment of principle and interest is as specified below.
 - (c) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013 which are overdue for more than ninety days. The deposit granted is repayable on demand, and as on balance sheet date no amount has been demanded.

Name of the company	Amount advanced during the year (Rs. In thousand)	Amount as at 31 March 2021 (Rs. In thousand)	Terms
Embassy Property Developments Private Limited (Holding Company holding 100% equity shares)	20,20,466.00	13,72,635.92	Interest free Inter Corporate Deposit (loan) repayable on demand

- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans, deposit and investments made, except as disclosed below:

The Company has extended its land as security for a loan taken by its Holding Company in which, a director is interested.

As per the requirement of Section 185 of the Companies Act, 2013 ('Act'), no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested without complying with the provisions as laid down in the said section of the Act. Accordingly, the aforementioned loan given and security provided is not in compliance with the requirements of the Act. The impact of this non-compliance has not been quantified by the Company.

During the year, the Company has passed a special resolution approving the continuity of extension of security for the charge created for loan obtained by Holding Company. Further, the Company has filed an application seeking compounding of offence under Section 441 of the Companies Act, 2013 for violation of section 185 of the said Act.

- (v) The Company has not accepted any deposits from public within the meaning of the directives issued by Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.
- (vi) The Central Government has prescribed the maintenance of cost records under section 148(1) of the Act and we are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Income-Tax, Goods & Service Tax, Provident Fund and other statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company does not have any dues on account of Employee State Insurance', Duty of Customs and Duty of Excise.

According to the information and explanations given to us, no undisputed amounts payable in respect of Income-Tax, Goods & Service Tax, Provident Fund and other statutory dues were in arrears as at 31 March 2021 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Income Tax, Sales Tax, VAT, Service Tax, Custom Duty, Excise Duty and Cess which have not been deposited with the appropriate authorities on account of any dispute.

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to bankers or financial institutions other than detailed below. The Company did not have any outstanding dues to debenture holders or government during the year.

Particulars	Amount of Default (INR)	Period of Default	Remarks
Principal Amount	₹ 50,00,00,000	1 day default as on Balance sheet date	Subsequently repaid
Principal Amount	₹ 50,00,00,000	31 days default as on Balance sheet date	Subsequently repaid
Principal Amount	₹ 50,00,00,000	60 days default as on Balance sheet date	Subsequently repaid

Based on RBI notification dated 23rd March 2020, the Company has applied for moratorium towards interest and principal repayments falling due for the month of March 2020. The said application was approved and the relief in payment of Interest and principal amount was approved for the Moratorium period ended on 31 May, 2020. Further, based on RBI's subsequent notification dated 23 May, 2020 the moratorium was extended till 31 Aug 2020.

(ix) According to the information and explanations given to us, the Company has not raised any money by way of public issue or further public offer (including debt instruments) during the year

(x) According to the information and explanations given to us, no material fraud on the Company by its officers or employees or a fraud by the Company has been noticed or reported during the course of our audit.

- (xi) The Company is a private limited company. Thus, paragraph 3(xi) of the Order relating to provisions of Section 197 is not applicable.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Thus, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us the Company is not required to constitute an Audit Committee in accordance with Section 177. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with section 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placements of shares during the year. In respect of debentures, the requirement of Section 42 and section 62 (1)(c) of Companies Act 2013 has been complied by the Company and the money raised has been utilized for the stated purpose.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Thus, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act 1934.

Annexure – B to the Independent auditor’s report of even date on the financial statements of NAM Estates Private Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

Qualified Opinion

We have audited the internal financial controls over financial reporting of NAM Estates Private Limited (“the Company”) as of March 31, 2021, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion and according to the information and explanation given to us and based on our audit, the following material weakness have been identified as at March 31, 2021

The company did not have adequate internal control system to ensure compliance with respect to the legal and regulatory framework applicable to the company, which has resulted in the non-compliance as stated in Basis of qualified opinion paragraph of our audit report. However, the Company has undertaken remedial actions towards rectification of the non-compliance.

A ‘Material weakness’ is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is reasonable possibility that a material misstatement of the company’s annual financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial control were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the company considering the essential components of internal control stated in the Guidance note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” These responsibilities include the design, implementation and maintenance of adequate internal financial

controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as the "Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Refer note 18				

* On March 19, 2015, the Board of directors of the Company passed a resolution to merge into the Company, Swire Investments Private Limited ('SIPL'), its wholly-owned subsidiary. Pursuant to this, on July 14, 2015, the Company filed a Scheme of Amalgamation ('the Scheme') with the Honourable High Court of Karnataka, with an appointed date of April 1, 2015. The scheme was approved by the Honourable High Court on August 29, 2017 effective April 1, 2015 and hence the merger has been effected as on April 1, 2015 during the financial year 2016-17.

As per the aforementioned scheme, the assets and liabilities of SIPL have been merged with the Company. Given that SIPL is a wholly-owned subsidiary of the Company there is no consideration payable for the amalgamation of SIPL with the Company and the consequent transfer of the undertaking, properties, assets and liabilities of SIPL to the Company. The difference of the value of the assets over the liabilities of SIPL vested in the Company has been accounted as capital reserves in the Company.

1 Company overview

Nam Estates Private Limited ('the Company') was incorporated on June 02, 1995. The Company engaged in the business of real estate development of commercial, residential, hospitality, development of township and related activities.

2 Basis of preparation

2.01 Statement of compliance

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013('the Act') read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards) Amendment Rules, 2016, Companies (Indian Accounting Standards) Amendment Rules, 2018 and other relevant provisions of the Act.

The Company's financial statements have been prepared on a going concern basis. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on the market value of the underlying inventory and Investment Properties held by the Company.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.02 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded- off to the nearest thousand, unless otherwise indicated.

2.03 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for certain investments in equity instruments which is measured at fair value.

Items	Measurement basis
Certain financial assets and liabilities	Fair value

2.04 Use of estimates and judgements

The preparation of financial statements in conformity with Indian Accounting Standards("IND AS") requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Accounting policies have been consistently applied except whereas newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Judgments

Information about judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- (i) Classification of assets as investment property or as property, plant and equipment.- refer note 3.16
- (ii) Determination of the amount and timing of revenue from contracts with customers - refer note 3.01
- (iii) Valuation of fair value of OCD - period taken until scheme approval

Assumptions and estimation and uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31 March 2021 or subsequent year/ years is included in the following notes:

- (i) Valuation of financial instruments - refer note 46
- (ii) Non-Recognition of deferred tax asset on carried forward losses and availability of future taxable profit against which tax losses carried forward can be used - refer note 37

2.05 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between marked participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the fair value measurement as a whole at the end of the reporting period.

2.06 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized within twelve months after the reporting period, or
 - Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when it is:

- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3 Significant accounting policies

3.01 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

i. Proceeds from sale of plotted development and constructed property

Revenue is recognized upon transfer of control of units of plots to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Company expects to receive in exchange for those units of plots. The Company shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of plotted development, the Company satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the units of plots for residential use which coincides with the execution of sale deed.

To estimate the transaction price in a contract, the Company adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Company when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred unit of plots.

ii. Recognition of revenue from transfer of assignment rights

Revenue from transfer of assignment rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue from transfer of assignment rights is only recognised when transfer of legal title to the buyer is not a condition precedent for transfer of significant risks and rewards of ownership to the buyer.

iii. Guarantee Income

Financial guarantees issued by the company are recognised initially at fair value, and the financial guarantee is recognised in P&L over the tenure of the guarantee.

iv. Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

v. Dividend income

Dividends is recognised when the share holder's or unit holder's right to receive the payment is established, which is generally when shareholders approve the dividend.

3.02 Investment properties

i. Recognition and measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. The cost of the assets not ready for their intended use before such date, are disclosed as Investment property under development.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Investment properties are depreciated on straight-line method over their estimated useful lives. However, where the Management's estimate of the remaining useful life of the assets on a review subsequent to the time of acquisition is different, then depreciation is provided over the remaining useful life based on the revised useful life. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company and the cost of the investment property can be measured reliably.

iii. Depreciation

Based on an independent assessment, the management has estimated the useful lives of the following class of assets. Depreciation is provided on straight line method as per the following useful life of the assets estimated by the management:

Asset	Useful life
Building	5-60 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

iv. Derecognition

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

3.03 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation/impairment losses if any. Cost comprises of the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of assets which takes substantial period of time to get ready for its intended use is capitalised up to the date the assets are ready for commercial use.

Subsequent expenditure relating to an item of the asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other related expenses, including day to day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss (P&L) for the period during which such expenses are incurred.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gains or losses arising from derecognition of the asset are measured as differences between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

Depreciation

Based on an independent assessment, the management has estimated the useful lives of the following class of assets. Depreciation is provided on straight line method as per the following useful life of the assets:

Asset	Useful life
Motor Vehicles	8 years
Computers	3 years

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

3.04 Inventories

Related to real estate activities

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

i. Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

ii. Finished goods - Plots: Valued at lower of cost and net realisable value.

iii. Land inventory: Valued at lower of cost and net realisable value.

3.05 Impairment of assets

Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. The Company tests for impairment using the ECL model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime ECL. Life time ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss (P&L). This amount is reflected in a separate line in the P&L as an impairment gain or loss. For financial assets measured at amortised cost, ECL is presented as an allowance which reduces the net carrying amount of the financial asset.

3.06 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through profit or loss.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

(v) Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in P&L.
FVTPL	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.

FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

- the rights to receive the cash flows from the asset have expired or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

3.07 Borrowing costs

Borrowing costs are interest and other costs incurred in connection with borrowings of funds. Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs not eligible for inventorisation/ capitalisation are charged to statement of profit and loss.

In case of extended periods during which activities necessary for bringing the asset ready for its intended use are not undertaken, the company suspends the capitalisation of borrowing cost to the asset.

3.08 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding book overdrafts that are repayable on demand are considered part of the Company's cash management system.

3.09 Cash flow statements

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

3.10 Foreign currency

i. Functional currency

The Company's financial statements are presented in INR, which is also the company's functional currency.

ii. Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's entities at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

3.11 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Notes to financial statements for the year ended March 31, 2021 (continued)

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes as the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in the OCI or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

3.12 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

3.13 Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.14 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

3.15 Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

3.16 Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

i) Judgements

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Classification of property

The Company determines whether a property is classified as investment property or inventory:

Nam Estates Private Limited

CIN:U85110KA1995PTC017950

Notes to financial statements for the year ended March 31, 2021 (continued)

The company is developing a township project containing various types of real estate development. Based on the intention of use, the land property and related development cost have been classified as either investment property, property plant & equipment or have been inventorised.

Investment property comprises land and buildings (principally offices, commercial and school property) that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented or intended to be rented to tenants and not intended to be sold in the ordinary course of business. Inventory property comprises of property that is held for sale in the ordinary course of business. Principally, this is residential property that the Company develops and intends to sell before or on completion of construction/development.

The Company based its assumptions and estimates on parameters available on the reporting period about future developments. The above judgements may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

3.17 Earnings before finance costs, depreciation, amortisation and tax

The Company has elected to present earnings before finance cost, depreciation, amortisation and tax as a separate line item on the face of the Statement of Profit and Loss. The Company measures earnings before finance cost, depreciation, amortisation and tax on the basis of profit/ (loss) from continuing operations.

Loss Arising from Investment Properties before indirect expenses	(876.96)	(500.63)

Notes to financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹. thousands unless otherwise stated)

(b) Determination of Fair value

The fair value of investment property has been determined by external independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The Company has used "Direct Comparison" method approach for assessing the fair value of the property as on 31 March 2021 and as on 31 March 2020.

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

Para 97 of Ind AS 113 Fair value measurements states that for each class of assets and liabilities not measured at fair value in the balance sheet but for which the fair value is disclosed, an entity shall disclose the information required by paragraph 93(b), (d) and (i). However, the said para states that an entity is not required to provide the quantitative disclosures about significant unobservable inputs used in fair value measurements categorised within Level 3 of the fair value hierarchy required by paragraph 93(d). Therefore, no disclosure in relation to sensitivity analysis of significant unobservable inputs used in fair value measurements of Investment property and Investment property under development (including capital advances) has been provided in the financial statements.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

(c) Restriction on realisability

The above said property is placed as collateral security for the secured loan availed from the financial institution by the company. Further, it is placed as secondary collateral for the loan availed by its holding company.

Nature and purpose of other reserves:

Capital reserve

The company vide Scheme of Amalgamation ('the Scheme') merged its wholly-owned subsidiary Swire Investments Private Limited ('SIPL'). Given that SIPL is a wholly-owned subsidiary of the Company there is no consideration payable for the amalgamation of SIPL with the Company and the consequent transfer of the undertaking, properties, assets and liabilities of SIPL to the Company. The difference of the value of the assets over the liabilities of SIPL vested in the Company has been accounted as capital reserves in the Company.

Retained earnings

The cumulative gain or loss arising from the operations which is retained by the Company is presented under the heading of retained earnings. At the end of the year, the profit/(loss) after tax is transferred from the statement of profit and loss to retained earnings.

Equity portion of interest free loans

It represents the equity component arising on fair valuation of the said loans as required under Ind AS 109.

Equity portion of corporate guarantee

It represents the equity component arising on fair valuation of the corporate guarantee on loan taken by holding Company as required under Ind AS 109.

Other disputes

The Company has several cases pending against it towards the title of land acquired by it. Management, based on legal advice obtained and also based on the court rulings (in favour of the Company), believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence no amounts has been quantified.

- (a) The Company has extended mortgage of unsold plots in Embassy Springs and land measuring 70.74 acres of land for a comprehensive loan borrowed by its holding Company for various projects executed by its holding Company and charge is created on the receivables in the project Embassy Springs being developed. The loan balance outstanding as on March 31, 2021 is ₹ 5,137,435 thousands.
- (b) The Company has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 March 2021, the amounts due to micro and small enterprises is ₹ 75,741.84 thousand (₹ 33,127.82 thousand). As per the MSME Act 2006 Section 16, Where any buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors has not raised any interest demand yet and the company has not paid interest during the year, and hence the interest accrued under section 16 of the MSME Act is not provided for.

(This space has been left blank intentionally)

Notes to financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹. thousands unless otherwise stated)

37 Income taxes

A No income tax expense was recognised in the statement of profit and loss account.

B Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Loss before tax	(4,96,799.97)	(1,69,236.45)
Tax at the Indian tax rate of 26% (March 31, 2020: 26%)	(1,29,167.99)	(44,001.48)
Effect of:		
Income/(Expenditure) on account of application of Ind AS not allowable under Income Tax	56,720.99	4,287.97
Profit recognised as per Ind AS 115 offered for taxation in preceding years	(21,774.35)	(42,306.49)
Permanent disallowance	343.07	43,791.06
Temporary Disallowance for non payment/non-deduction of withholding taxes	2,014.55	5,460.71
Allowance of certain expenditure on payment basis	10,200.85	15,339.59
Other taxable amounts / (allowances)	-	(3.43)
Tax refund received for earlier period	9,715.47	-
Tax using the Company's domestic tax rate	-	-
Deferred tax asset not created on business losses	71,947.41	17,432.06
At the effective income tax rate Nil (March 31, 2020: Nil)	-	-
Income tax expense reported in the statement of profit and loss	-	-

C Recognised deferred tax assets and liabilities

Particulars	As at 31 March 2021		As at 31 March 2020	
	Gross amount	Tax asset/ (liability)	Gross amount	Tax asset/ (liability)
Deferred tax liabilities				
Property, plant and equipment	3,060.32	795.68	-	-
Others	10,279.37	2,672.64		
Deferred tax assets				
Tax losses	4,380.91	1,139.04	-	-
Others	8,958.79	2,329.28		
Net deferred tax (assets) liabilities	-	-	-	-

D Unrecognised deferred tax assets

Deferred Tax assets have been created to the extent of deferred tax liability. Deferred tax assets have not been recognised on accumulated losses, because it is not probable that sufficient future taxable profit will be available against which the Company can set it off within the time limit prescribed to set off the accumulated business loss as per the Income Tax Act.

The company is developing a township project which comprises of multiple projects and the same will take a considerable amount of time to complete. With many projects in the pipeline for which development has not yet started, the Company has not recognised Deferred Tax asset as there is no probability to earn enough profits within the restricted time limit of carry forward and set off of losses.

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Tax Losses	3,27,857.56	1,28,908.11
Others	1,35,348.35	20,639.25
	4,63,205.91	1,49,547.36

*The impact of unutilised tax losses is based on details available with the Company at as the date of signing of financial statements

38 Earnings/ (loss) per share

Basic earnings/(loss) per share amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders by the number of equity shares outstanding during the year. Diluted Earnings per share ("EPS") amounts are calculated by dividing the profit/(loss) attributable to equity holders

i. Reconciliation of earnings used in calculating earnings per share:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Total comprehensive income/(loss) as per statement of profit and loss	(4,87,084.50)	(1,69,236.45)
Total comprehensive income/(loss) as per statement of profit and loss	(4,87,084.50)	(1,69,236.45)

ii. Reconciliation of basic and diluted shares used in computing earnings per share

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Number of equity shares at the	70,002	70,002
Add:		
Number of equity shares issued during the year	-	-
Number of equity shares for basic and diluted EPS	70,002	70,002
Weighted average number of shares	70,002	70,002

iii.(Loss) per share:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Basic	(6,958.15)	(2,417.59)
Diluted	(6,958.15)	(2,417.59)

For the year ended 31 March 2021, optionally convertible debentures were excluded from the calculation of diluted weighted average number of equity shares as their effect would have been anti-dilutive.

39 Contract with customers

A Revenue Recognised

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Project revenue recognised during the		
- Revenue recognised at a point in time	5,90,567.43	4,34,602.89
- Revenue recognised over a period of time	-	-

B Contract Balances

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Contract Assets		-
Contract Liabilities (refer note 27)	33,81,913.78	36,69,241.96
Trade Receivables (refer note 12)	8,17,504.32	17,06,737.10
Advance received from customers (refer note 27)	8,724.63	17,710.77

Impairment losses recognised on receivables or contract assets - -

Contract Liabilities include amount received or receivable from customers as per the instalments stipulated in the buyer agreement to deliver properties and are recognised as revenue once the performance obligations are completed and control is transferred to customers.

C Movement on Contract Balances

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Amounts included in contract liabilities at the beginning of the year	36,69,241.96	14,70,530.78
Amount received/adjusted against contract liability during the year	3,03,239.25	26,33,314.07
Less: Performance obligations satisfied in the current year	(5,90,567.43)	(4,34,602.89)
Amounts included in contract liabilities at the end of the year	33,81,913.78	36,69,241.96

40 Segment reporting

In accordance with the requirements of Ind AS 108 - "Segment Reporting", the Company is primarily engaged in the business of real estate development and has no other primary reportable segments. The Board of Directors of the Company allocate the resources and assess the performance of the Company, thus are the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of the business as a single segment, hence no separate segment needs to be disclosed. Thus the segment revenue, segment result, total carrying amount of segment assets, total carrying amount of segment liabilities, total cost incurred to acquire segments assets, the total amount of charge for depreciation and amortisation during the year are all as reflected in the financial statements. As the Company operates in India alone, no separate geographical segment is disclosed.

41 Expenditure on corporate social responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended March 31, 2021.

Notes to financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹. thousands unless otherwise stated)

44 Employee benefits obligations

A. Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Particulars	As at 31 March 2021	As at 31 March 2020
Employer's Contribution to Provident Fund	5,487.07	-
Employer's Contribution to Employee State Insurance Corporation	-	-
Employer's Pension Fund	931.78	-
Expense recognised during the year	6,418.85	-

B. Defined benefit plan

Gratuity

The Company has a defined benefit gratuity plan in India, governed by the Payment of Gratuity Act, 1972. The plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee concerned. The gratuity plan is unfunded.

(i) Changes in present value of obligation:

Particulars	As at 31 March 2021	As at 31 March 2020
Obligations at the beginning of the year	-	-
Service cost	-	-
- Current service cost	2,546.74	-
- Prior service cost	15,462.98	-
Interest expense or cost	-	-
Actuarial (gains) losses recognised in other comprehensive income	-	-
- due to changes in financial assumptions	-	-
- due to changes in demographic assumptions	-	-

Benefits settled	-	-
Obligations at year end	18,009.72	0.00

(ii) Value of assets and liabilities as at Balance sheet date

Particulars	As at 31 March 2021	As at 31 March 2020
Net defined benefit assets	-	-
Net defined benefit liability	18,009.72	-
Net liability:	18,009.72	
Non-current	16,831.05	-
Current	1,178.67	-

(iii) Expense recognised in statement of profit and loss

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Current service cost	2,546.74	-
Interest cost	-	-
Past service cost	15,462.98	-
Expected return on plan assets	-	-
Net gratuity cost	18,009.72	-

(iv) Remeasurements recognised in other comprehensive income

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Actuarial (gains) / losses on defined benefit obligation	-	-
Actuarial (gains) / losses on plan assets excluding interest income	-	-
	-	-

(v) Actuarial assumptions

(a) Principal actuarial assumptions at the reporting date:

Particulars	As at 31 March 2021	As at 31 March 2020
Financial assumptions		
Discount Rate	6.35%	-
Mortality Rate	0.092% to 2.40%	-
Salary growth rate	8%	-
Normal retirement age	60 Years	-
Attrition / Withdrawal rate (per annum)	7.80%	-

(b) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have reflected the defined benefit obligation as the amounts shown below.

Particulars	As at 31 March 2021	As at 31 March 2020
Present value of obligation at the end of the period	18,009.72	-

Particulars	For the year ended 31 March 2021		For the year ended 31 March 2020	
	Increase	Decrease	Increase	Decrease
Discount rate (Impact due to 0.50%)	(853.84)	920.30	-	-
Future salary growth (Impact due to 0.50%)	901.57	(846.46)	-	-
Attrition rate (Impact due to 50%)	1,170.63	(774.42)		

Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

(vi) Maturity Profile of Defined Benefit Obligation

Expected cash flows over the next (valued on undiscounted basis):	As at March 2021
Apr 2022- Mar 2023	1,178.67
Apr 2023- Mar 2027	5,243.21
Apr 2027- Mar 2032	6,875.86
Apr 2032 onwards	24,493.11

45 Employee benefits obligations - Compensated Absences

Compensated Absences

Compensated Absences have been provided for based on actuarial valuation based on leave encashment policy of the Company.

(i) Changes in present value of obligation:

Total	27,83,730.00	-	-	-

47 Financial instruments - Fair value hierarchy

(a) Accounting classification and fair value

The following table shows the carrying amounts and fair values of financial liabilities, including their levels in the fair value hierarchy.

Particulars	As at 31 March 2021	As at 31 March 2020
Borrowings (current and non-current)		
- 0 % unsecured fully paid optionally convertible debentures (OCDs)	27,83,730.00	-
Total	27,83,730.00	-

Particulars	Level 1	Level 2	Level 3	Total
0 % unsecured fully paid optionally convertible debentures (OCDs)	-	-	27,83,730.00	27,83,730.00
	-	-	27,83,730.00	27,83,730.00

Significant unobservable inputs used in measuring fair value

Particulars	Fair Value as at 31 March 2021	Valuation technique	Significant unobservable Inputs	Methodology adopted
0 % unsecured fully paid optionally convertible debentures (OCDs)	27,83,730.00	Market approach using comparable trading multiples	1. Equity valuation of the company 2. Equity price history of comparable companies 3. Risk free rate as represented by G Sec yields over balance tenor as at the date of valuation as sourced from FIBL	1. 4000 possible equity price paths are modeled 2. For each of these paths, the equity price is determined 3. For each of these equity prices, the value of the CCDs is determined based on the conversion formula 4. These 4,000 CCD prices are averaged

48 Financial instruments - risk management

The Company's financial assets majorly comprise of loans to related parties, other receivable from related parties, trade receivables and cash & cash equivalents. The Company's financial liabilities majorly comprises of borrowings, trade payables.

The Company is exposed to credit risk, liquidity risk and interest rate risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions affecting business operations and the Company's activities.

Notes to financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹, thousands unless otherwise stated)

(a) Credit risk

In order to mitigate the credit risk on receivables, the Company does business only with recognised third parties thereby reducing the credit risk. Credit risk on cash and cash equivalent is limited as the Company generally transacts with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Loss allowance measured at 12 month expected credit loss for financial assets for which credit risk has not increased significantly since initial recognition

For year ended 31 March 2021

Particulars	Estimated gross carrying amount	Expected probability of default	Expected credit losses	Carrying amount, net of provision
Loan to related parties	13,72,635.92	-	-	13,72,635.92
Security deposits	11.00	-	-	11.00
Loan to employees	6,473.57	-	-	6,473.57
	13,79,120.49	-	-	13,79,120.49

For year ended 31 March 2020

Particulars	Estimated gross carrying amount	Expected probability of default	Expected credit losses	Carrying amount, net of provision
Loan to related parties	-	-	-	-
Security deposits	11.00	-	-	11.00
Loan to employees	-	-	-	-
	11.00	-	-	11.00

(b) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to its long-term debt obligations with floating interest rates.

Exposure to interest rate risk:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	As at 31 March 2021	As at 31 March 2020
Fixed-rate instruments:		
Financial assets		
Inter-corporate loans given	13,72,635.92	-
Financial liabilities		
Vehicle Loans obtained	46,373.19	-

Particulars	As at 31 March 2021	As at 31 March 2020
Variable instruments:		
Financial assets	-	-
Financial liabilities	34,99,946.99	60,89,720.63
Total	34,99,946.99	60,89,720.63

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Sensitivity analysis for variable rate instruments

A reasonably possible change of 1% in interest rates at the reporting date would have increased/ (decreased) equity and profit and loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	Profit or loss		Equity net of tax	
	1% increase	1% decrease	1% increase	1% decrease
Loans & Borrowings				
31 March 2021				
Variable rate instruments	2,63,153.91	(2,63,153.91)	1,94,733.89	(1,94,733.89)
31 March 2020				
Variable rate instruments	4,58,646.62	(4,58,646.62)	3,39,398.50	(3,39,398.50)

(c) **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility. The Company has a dedicated treasury management team which monitors on a daily basis the fund positions/requirements of the Company. The treasury management team plans the cash flows of the Company by planning and identifying future mismatches in funds availability and reports the planned & current liquidity position to the top management and board of directors of the Company.

Exposure to liquidity risk

The table below summarises the maturity profile of the Company's financial assets and liabilities at the end of the reporting period based on contractual undiscounted cash flows:

For the year ending 31 March 2021

Particulars	Total	Less than 1 year	1 to 5 years	more than 5 years
Financial assets				
Loans	13,79,120.49	13,77,133.07	1,987.42	-

Other financial liabilities (current and non current)	7,38,131.50	6,78,163.26	59,968.24	-
	74,43,700.68	73,83,732.45	59,968.24	-

Notes to financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹. thousands unless otherwise stated)

49 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening balance	Cash flows		Non cash movement	Closing balance
	1 April 2020	Proceeds	Repayments	Fair value changes	31 March 2021
For the year ended 31 March 2021*	(60,89,720.63)	41,59,640.28	(27,99,492.69)	(2,07,431.83)	(72,42,436.39)
For the year ended 31 March 2020*	(64,61,859.58)	-	(3,81,481.94)	9,342.99	(60,89,720.63)

* Includes current obligations under borrowings classified under "Other current financial liabilities"

50 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages the capital structure based on an adequate gearing which yields higher share holder value which is driven by the business requirements for capital expenditure and cash flow requirements for operations and plans of business expansion and consolidation. Accordingly based on the relative gearing and effective operating cash flows generated, the Company manages the capital either by raising required funds through debt, equity or through payment of dividends.

The capital and net debt position of the company is as follows:

Particulars	As at	As at
	31 March 2021	31 March 2020
Total Debts *	72,42,436.39	60,89,720.63
Total equity	(40,59,438.84)	(35,72,354.34)
Capital and net debt	31,82,997.55	25,17,366.29

* It includes non-current borrowings, current borrowings and current maturities of long term borrowings

51 Separate financial statements

a. Exemption from preparation of consolidated financial statements:

As per Ind AS 110, paragraph 4(a), a Parent company need not present consolidated financial statements if it meets following conditions:

i) It is a wholly owned subsidiary or is a partially owned subsidiary of another company and all its other members, including those not otherwise entitled to vote, have been intimated in writing and for which the proof of delivery of such intimation is available with the company, do not object to the company not presenting consolidated financial statements.

ii) Its ultimate or intermediate holding company files the consolidated financial statements with the registrar which are in compliance with the applicable accounting standards. The financial statements are separate financial statements and the exemption from consolidation has been used, as the parent company informed the other shareholders about its intention of not presenting consolidated financial statements.

b. List of significant investment in subsidiaries, joint ventures and associates:

Sl No	Name of the investees	Proportion of ownership interest	Principal place of business	Method used to account
1	Embassy Infra Developers Private Limited	99.99%	Bengaluru	Carried at cost

Notes to financial statements for the year ended March 31, 2021 (continued)

(all amounts in ₹. thousands unless otherwise stated)

52 Uncertainty relating to the global health pandemic on COVID-19:

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on revenue recognition, investment property (including under development), property, plant and equipment, capital work in progress, and receivables. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information, economic forecasts and consensus estimates from market sources on the expected future performance of the Company and have compared the actual performance with the projections and expects the carrying amount of these assets as reflected in the balance sheet as at 31 March 2021 will be recovered. The management has also estimated the future cash flows with the possible effects that may result from the COVID-19 pandemic and does not foresee any adverse impact on realising its assets and in meeting its liabilities as and when they fall due. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

53 During the year ended March 31, 2021, the Board of Directors of the Company in its meeting held on July 06, 2020 have approved the Scheme of Arrangement ('Demerger Scheme') between the Company and its holding company i.e., Embassy Property Developments Private Limited under section 233 and other applicable provisions of the Companies Act, 2013 for demerger of certain assets and liabilities forming part of the Demerged Undertaking from the holding Company to the Company. The Demerger Scheme is subject to approval by the Regional Director (South Eastern Region), Registrar of Companies (Karnataka), shareholders and creditors of the Company. As part of the regulatory process, the Company has already issued notices to applicable regulatory authorities on September 14, 2020. Further, the shareholders of the Company have approved the Demerger Scheme in the extraordinary general meeting held on June 12, 2021 and the Company has filed the application with the Regional Director and Registrar of Companies for approval of the Demerger Scheme on June 14, 2021.

54 The Company has incurred Rs 49,427.52 thousands towards various professionals for finalising the Demerger scheme as stipulated in note 52 and other restructuring activities. In accordance with Ind AS 103 and other relevant accounting standards, the costs incurred have been charged to Statement of Profit and Loss in the year of incurring the same. The same is reflected in note 33 under the head "Legal and Professional Charge"

INDEPENDENT AUDITORS' REPORT

To the Members of **NAM Estates Private Limited**

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of NAM Estates Private Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2020, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st 2020 and loss, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

As stated in note 28 to the financial statements, the Company has extended its land as security for a loan taken by its Holding Company in which, a director is interested. Further, as stated in note 11 to the financial statements, the Company has extended loans to its Holding Company. The Outstanding balance as on 31st March, 2020 is Nil (31st of March 2019 is Rs. 4,43,028.53 thousands). The entire loan has been repaid in full during the year.

As per the requirement of Section 185 of the Companies Act, 2013 ('Act'), no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested without complying with the provisions as laid down in the said section of the Act. Accordingly, the aforementioned loan given and security provided is not in compliance with the requirements of the Act. The impact of this non-compliance has not been quantified by the Company.

During the year, the Company has undertaken remedial actions and consequently has passed a special resolution approving the continuity of extension of security for the charge created for loan obtained by Holding Company. Further, the Company has filed an application seeking compounding of offence under Section 441 of the Companies Act, 2013 for violation of section 185 of the said Act.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. except for the matters described in the basis of qualified opinion paragraph, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. except for the possible effects of the matters described in the basis of qualified opinion paragraph above, in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, except for the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. in our opinion the matters described in the basis of qualified opinion paragraphs above, may have an adverse effect on the functioning of the Company.
 - g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements as disclosed in note 28 to the financial statements. The Company has cases pending against it towards the title of land acquired by it. The Management, based on legal advice, believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence the amount has not been quantified.
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any foreseeable losses; and
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure A to the Independent Auditors' Report

The Annexure referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report to the Members of **Nam Estates Private Limited** ('the Company') for the year ended 31 March 2020,

We report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of investment properties.
 - (b) The Company is engaged in the business of real estate and all items of Investment property consists of land parcels. The Company has a regular program of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company and subject to the matters mentioned in Note 26, the title deeds of immovable properties are held in the name of the Company.
- (ii) The Company is engaged in the business of real estate development and related services and holds inventories in the form of land, properties under development and constructed properties. The management has conducted physical verification of inventory at reasonable intervals and no material discrepancies were noticed during the such physical verification.
- (iii) The Company has granted deposit to one company covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act'). The deposit was repaid and closed during the year.
- (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the terms and conditions of the deposit granted by the Company to the company covered in the register maintained under section 189 of the Companies Act, 2013 are prejudicial to the interest of the Company, as disclosed below:
 - (b) in the case of the loans granted to the company listed in the register under Sec 189 of the Act, the stipulation as to repayment of principle and interest is as specified below. The repayments of principal amounts and interest have been made as per stipulations.
 - (c) There are no amounts of loans granted to companies, firms or other parties listed in the register maintained under section 189 of the Companies Act, 2013 which are overdue.

Name of the company	Amount advanced during the year (Rs. In thousand)	Amount as at 31 March 2020 (Rs. In thousand)	Terms
Embassy Property Developments Private Limited (Holding Company holding 100% equity shares)	Nil	Nil	Interest free Inter Corporate Deposit (loan)

- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans, deposit and investments made, except as disclosed below:

The Company has extended its land as security for a loan taken by its Holding Company in which, a director is interested. Further, as stated in note 11 to the financial statements, the Company has extended loans to its Holding Company. The Outstanding balance as on 31st March, 2020 is Nil (31st of March 2019 is Rs. 4,43,028.53 thousands). The entire loan has been repaid in full during the year.

As per the requirement of Section 185 of the Companies Act, 2013 ('Act'), no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested without complying with the provisions as laid down in the said section of the Act. Accordingly, the aforementioned loan given and security provided is not in compliance with the requirements of the Act. The impact of this non-compliance has not been quantified by the Company.

The maximum amount outstanding during the year in relation to loan given was Rs 4,43,028.53 thousand and the amount outstanding as at 31 March 2020 is Nil.

During the year, the Company has passed a special resolution approving the continuity of extension of security for the charge created for loan obtained by Holding Company. Further, the Company has filed an application seeking compounding of offence under Section 441 of the Companies Act, 2013 for violation of section 185 of the said Act.

- (v) The Company has not accepted any deposits from public within the meaning of the directives issued by Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.
- (vi) The Central Government has prescribed the maintenance of cost records under section 148(1) of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.

- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Income-Tax, Goods & Service Tax and other statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company does not have any dues on account of Provident Fund, Employees' State Insurance, Cess, Duty of Customs and Duty of Excise.

According to the information and explanations given to us, no undisputed amounts payable in respect of Income-Tax, Goods & Service Tax and other statutory dues were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us, there are no dues of Income Tax, Sales Tax, VAT, Service Tax, Custom Duty, Excise Duty and Cess which have not been deposited with the appropriate authorities on account of any dispute.

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to bankers or financial institutions other than detailed below. The Company did not have any outstanding dues to debenture holders or government during the year.

Particulars	Amount of Default (INR)	Period of Default	Remarks
Loan taken from HDFC Bank			
Principal Amount	₹ 11,85,18,061	91 days default as on Balance sheet date	Based on details available with the Company, ₹ 11,85,18,061 has been repaid during the month of April 2020
Principal Amount	₹ 50,00,00,000	60 days default as on Balance sheet date	Based on details available with the Company, ₹ 36,45,50,181 has been subsequently repaid during the month of April and June 2020
Principal Amount	₹ 50,00,00,000	31 days default as on Balance sheet date	None

Based on RBI notification dated 23rd March 2020, the Company has applied for moratorium towards interest and principal repayments falling due for the month of March 2020. The said application was approved and the relief in payment of Interest and principal amount was approved for the Moratorium period ended on 31 May, 2020.

Further, based on RBI's subsequent notification dated 23 May, 2020, the Company has requested for further extension of moratorium ending on 31 Aug, 2020. The said application is pending approval from the Bank.

- (ix) According to the information and explanations given to us, the Company has not raised any money by way of public issue or further public offer (including debt instruments) during the year
- (x) According to the information and explanations given to us, no material fraud on the Company by its officers or employees or a fraud by the Company has been noticed or reported during the course of our audit.
- (xi) The Company is a private limited company. Thus, paragraph 3(xi) of the Order relating to provisions of Section 197 is not applicable.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Thus, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us the Company is not required to constitute an Audit Committee in accordance with Section 177. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with section 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placements of shares or debentures during the year. Thus, paragraph 3(xiv) of the Order is not applicable.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Thus, paragraph 3(xv) of the Order is not applicable.

(xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act 1934.

Annexure – B to the Independent auditor’s report of even date on the financial statements of NAM Estates Private Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

Qualified Opinion

We have audited the internal financial controls over financial reporting of NAM Estates Private Limited (“the Company”) as of March 31, 2020, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion and according to the information and explanation given to us and based on our audit, the following material weakness have been identified as at 31 March 2020

The company did not have adequate internal control system to ensure compliance with respect to the legal and regulatory framework applicable to the company, which has resulted in the non-compliance as stated in Basis of qualified opinion paragraph of our audit report. However, the Company has undertaken remedial actions towards rectification of the non-compliance.

A ‘Material weakness’ is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is reasonable possibility that a material misstatement of the company’s annual financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial control were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the company considering the essential components of internal control stated in the Guidance note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India(the “Guidance Note”).

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as the “Act”).

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

* On March 19, 2015, the Board of directors of the Company passed a resolution to merge into the Company, Swire Investments Private Limited ('SIPL'), its wholly-owned subsidiary. Pursuant to this, on July 14, 2015, the Company filed a Scheme of Amalgamation ('the Scheme') with the Honourable High Court of Karnataka, with an appointed date of April 1, 2015. The scheme was approved by the High Court on August 29, 2017 effective April 1, 2015 and hence the merger has been effected as on April 1, 2015 during the financial year 2016-17.

As per the aforementioned scheme, the assets and liabilities of SIPL have been merged with the Company. Given that SIPL is a wholly-owned subsidiary of the Company there is no consideration payable for the amalgamation of SIPL with the Company and the consequent transfer of the undertaking, properties, assets and liabilities of SIPL to the Company. The difference of the value of the assets over the liabilities of SIPL vested in the Company has been accounted as capital reserves in the Company.

1 Company overview

Nam Estates Private Limited ('the Company') was incorporated on June 02, 1995. The Company engaged in the business of real estate development of commercial, residential, hospitality ,development of township and related activities.

2 Basis of preparation

2.01 Statement of compliance

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013('the Act') read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015,Companies (Indian Accounting Standards) Amendment Rules, 2016,Companies (Indian Accounting Standards) Amendment Rules, 2018 and other relevant provisions of the Act.

The Company's financial statements have been prepared on a going concern basis. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on the market value of the underlying inventory and Investment Properties held by the Company. These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.02 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded- off to the nearest thousand, unless otherwise indicated.

2.03 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for certain investments in equity instruments which is measured at fair value.

Items	Measurement basis
Certain financial assets and liabilities	Fair value

2.04 Use of estimates and judgements

The preparation of financial statements in conformity with Indian Accounting Standards("IND AS") requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Accounting policies have been consistently applied except whereas newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Judgments

Information about judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- (i) Classification of assets as investment property or as property, plant and equipment.- refer note 3.15
- (ii) Determination of the amount and timing of revenue from contracts with customers - refer note 3.01

Assumptions and estimation and uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31 March 2020 or subsequent year/ years is included in the following notes:

- (i) Valuation of financial instruments - refer note 38
- (ii) Non-Recognition of deferred tax asset on carried forward losses and availability of future taxable profit against which tax losses carried forward can be used - refer note 29

2.05 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between marked participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the fair value measurement as a whole at the end of the reporting period.

2.06 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when it is:

- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3 Significant accounting policies

3.01 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

i. Proceeds from sale of plotted development and constructed property

Revenue is recognized upon transfer of control of units of plots to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Company expects to receive in exchange for those units of plots. The Company shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of plotted development, the Company satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the units of plots for residential use which coincides with the execution of sale deed.

To estimate the transaction price in a contract, the Company adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Company when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred unit of plots.

ii. Recognition of revenue from transfer of assignment rights

Revenue from transfer of assignment rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue from transfer of assignment rights is only recognised when transfer of legal title to the buyer is not a condition precedent for transfer of significant risks and rewards of ownership to the buyer.

iii. Guarantee Income

Financial guarantees issued by the company are recognised initially at fair value, and the financial guarantee is recognised in P&L over the tenure of the

iv. Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

v. Dividend income

Dividends is recognised when the share holders or unit holder right to receive the payment is established, which is generally when shareholders approve the dividend.

3.02 Investment properties

i. Recognition and measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. The cost of the assets not ready for their intended use before such date, are disclosed as Investment property under development.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Investment properties are depreciated on straight-line method over their estimated useful lives. However, where the Management's estimate of the remaining useful life of the assets on a review subsequent to the time of acquisition is different, then depreciation is provided over the remaining useful life based on the revised useful life. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company and the cost of the investment property can be measured reliably.

iii. Depreciation

Based on an independent assessment, the management has estimated the useful lives of the following class of assets. Depreciation is provided on straight line method as per the following useful life of the assets estimated by the management:

Asset	Useful life
Building	5-60 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

iv. Derecognition

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

3.03 Inventories

Related to real estate activities

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

i. Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

ii. Finished goods - Plots: Valued at lower of cost and net realisable value.

iii. Land inventory: Valued at lower of cost and net realisable value.

3.04 Impairment of assets

Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. The Company tests for impairment using the ECL model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime ECL. Life time ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss (P&L). This amount is reflected in a separate line in the P&L as an impairment gain or loss. For financial assets measured at amortised cost, ECL is presented as an allowance which reduces the net carrying amount of the financial asset.

3.05 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through profit or loss.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

(v) Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in P&L.
FVTPL	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

- the rights to receive the cash flows from the asset have expired or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

3.06 Borrowing costs

Borrowing costs are interest and other costs incurred in connection with borrowings of funds. Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs not eligible for inventorisation/ capitalisation are charged to statement of profit and loss.

In case of extended periods during which activities necessary for bringing the asset ready for its intended use are not undertaken, the company suspends the capitalisation of borrowing cost to the asset.

3.07 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding book overdrafts that are repayable on demand are considered part of the Company's cash management system.

3.08 Cash Flow Statements

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

3.09 Foreign currency

i. Functional currency

The Company's financial statements are presented in INR, which is also the company's functional currency.

ii. Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's entities at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

3.10 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes as the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in the OCI or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

3.11 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

3.12 Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

3.13 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

3.14 Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

Nam Estates Private Limited
CIN:U85110KA1995PTC017950

Notes to financial statements for the year ended March 31, 2020

(all amounts in ₹. thousands unless otherwise stated)

3.15 Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

i) Judgements

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Classification of property

The Company determines whether a property is classified as investment property or inventory:

The company is developing a township project containing various types of real estate development. Based on the intention of use, the land property and related development cost have been classified as either investment property, property plant & equipment or have been inventorised.

Investment property comprises land and buildings (principally offices, commercial and school property) that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented or intended to be rented to tenants and not intended to be sold in the ordinary course of business. Inventory property comprises of property that is held for sale in the ordinary course of business. Principally, this is residential property that the Company develops and intends to sell before or on completion of construction/development.

The Company based its assumptions and estimates on parameters available on the reporting period about future developments. The above judgements may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(c) Determination of Fair value

The fair value of investment property has been determined by external independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the

Fair value:	₹ in thousands
As at 31 March 2019	55,41,000
As at 31 March 2020	69,30,000

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

The Company has used "Direct Comparison" method approach for assessing the fair value of the property as on 31 March 2020 and has used "Direct Comparison" method and "Discounted cash flow" approach for assessing the fair value of the property as on 31 March 2019

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

In the "Discounted Cash Flow" method, the future cash flows from the property are forecasted using precisely stated assumptions. This method allows for the explicit modelling of income associated with the property. These future financial benefits are then discounted to a present day value at an appropriate discount rate.

Para 97 of Ind AS 113 Fair value measurements states that for each class of assets and liabilities not measured at fair value in the balance sheet but for which the fair value is disclosed, an entity shall disclose the information required by paragraph 93(b), (d) and (i). However, the said para states that an entity is not required to provide the quantitative disclosures about significant unobservable inputs used in fair value measurements categorised within Level 3 of the fair value hierarchy required by paragraph 93(d). Therefore, no disclosure in relation to sensitivity analysis of significant unobservable inputs used in fair value measurements of Investment property and Investment property under development (including capital advances) has been provided in the financial statements.

(d) Restriction on realisability

The above said property is placed as collateral security for the secured loan availed from the financial institution by the company. Further, it is placed as secondary collateral for the loan availed by its holding company.

	(35,73,054.38)	(33,75,020.92)

Nature and purpose of other reserves:

Capital reserve

The company vide Scheme of Amalgamation ('the Scheme') merged its wholly-owned subsidiary Swire Investments Private Limited ('SIPL'). Given that SIPL is a wholly-owned subsidiary of the Company there is no consideration payable for the amalgamation of SIPL with the Company and the consequent transfer of the undertaking, properties, assets and liabilities of SIPL to the Company. The difference of the value of the assets over the liabilities of SIPL vested in the Company has been accounted as capital reserves in the Company.

Retained earnings

The cumulative gain or loss arising from the operations which is retained by the Company is presented under the heading of retained earnings. At the end of the year, the profit/(loss) after tax is transferred from the statement of profit and loss to retained earnings.

Equity portion of Interest free loans

It represents the equity component arising on fair valuation of the said loans as required under Ind AS 109.

Equity portion of Corporate Guarantee

It represents the equity component arising on fair valuation of the corporate guarantee on loan taken by holding company as required under Ind AS 109.

Estimated specific committed cost towards its capital expenditure (net of advances) and not provided for	61,658.77	23,394.93

Other disputes

The Company has several cases pending against it towards the title of land acquired by it. Management, based on legal advice obtained and also based on the court rulings (in favour of the Company), believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence no amounts has been quantified.

- (a) The Company has extended mortgage of unsold plots in Embassy Springs and land measuring 70.74 acres of land for a comprehensive loan borrowed by its holding Company for various projects executed by its holding Company and charge is created on the receivables in the project Embassy Springs being developed. The loan balance outstanding as on March 31, 2020 is ₹ 59,40,000 thousands.
- (b) The Company has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 March 2020, the amounts due to micro and small enterprises is ₹ 33,127.82 thousand out of which ₹ 26,246.67 thousand is outstanding for more than 45 days from the appointed day(as defined in the 2(b) of the MSME Act 2006). As per the MSME Act 2006 Section 16, Where any buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors has not raised any interest demand yet and the company has not paid interest during the year, and hence the interest accrued under section 16 of the MSME Act is not provided for.

29 Income taxes

A No income tax expense was recognised in the statement of profit and loss account.

B Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate:

Particulars	Year ended March 31, 2020	Year ended March 31, 2019

Tax using the Company's domestic tax rate	-	-
Deferred tax asset not created on business losses	17,432.06	55,336.43
At the effective income tax rate Nil (March 31, 2019: Nil)	0.00	0.00
Income tax expense reported in the statement of profit and loss	-	-

C Unrecognised deferred tax assets

Deferred tax assets have not been recognised on accumulated losses, because it is not probable that sufficient future taxable profit will be available against which the Company can set it off within the time limit prescribed to set off the accumulated business loss as per the Income Tax Act.

The company is developing a township project which comprises of multiple projects and the same will take a considerable amount of time to complete. With many projects in the pipeline for which development has not yet started, the Company has not recognised Deferred Tax asset as there is no probability to earn enough profits within the restricted time limit of carry forward and set off of losses.

Particulars	Year ended March 31, 2020	Year ended March 31, 2019
Impact of Unutilised tax losses*	1,28,908.11	1,09,878.28
Others	20,639.25	-

Total	74,33,421.31		69,96,717.56	

39 Financial instruments - risk management

The Company's financial assets majorly comprise of loans to related parties, other receivable from related parties, trade receivables and cash & cash equivalents. The Company's financial liabilities majorly comprises of borrowings, trade payables.

The Company is exposed to credit risk, liquidity risk and interest rate risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions affecting business operations and the Company's activities.

(a) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or loans given leading to financial loss. The Company's exposure to credit risk arises from its operating and financing activities. The credit risk arises primarily from loans given.

In order to mitigate the credit risk on receivables, the Company does business only with recognised third parties thereby reducing the credit risk. For other financial assets (including loans, cash and cash equivalents), the Company minimises credit risk by dealing exclusively with related parties and high credit rating counterparties.

(b) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to its long-term debt obligations with floating interest rates.

Exposure to interest rate risk:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	As at 31 March 2020	As at 31 March 2019
Fixed-rate instruments:		
Financial assets	-	32,931.73
Financial liabilities	-	-
Total	-	32,931.73

Particulars	As at 31 March 2020	As at 31 March 2019
Variable instruments:		
Financial assets	-	-
Financial liabilities	60,89,720.63	64,61,859.58
Total	60,89,720.63	64,61,859.58

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Sensitivity analysis for variable rate instruments

A reasonably possible change of 1% in interest rates at the reporting date would have increased/ (decreased) equity and profit and loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	Profit or loss		Equity net of tax	
	1% increase	1% decrease	1% increase	1% decrease
Loans & Borrowings				
31 March 2020				
Variable rate instruments	4,58,646.62	(4,58,646.62)	3,39,398.50	(3,39,398.50)
31 March 2019				
Variable rate instruments	4,87,329.47	(4,87,329.47)	3,60,623.81	(3,60,623.81)
31 March 2018				
Variable rate instruments	4,98,443.15	(4,98,443.15)	4,05,582.52	(4,05,582.52)

(c) **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility. The Company has a dedicated treasury management team which monitors on a daily basis the fund positions/requirements of the Company. The treasury management team plans the cash flows of the Company by planning and identifying future mismatches in funds availability and reports the planned & current liquidity position to the top management and board of directors of the Company.

Exposure to liquidity risk

The table below summarises the maturity profile of the Company's financial assets and liabilities at the end of the reporting period based on contractual undiscounted cash flows:

As at 31 March 2020	Total	Less than 1 year	1 to 5 years	more than 5 years
Financial assets				
Trade receivable	17,06,737.10	17,06,737.10	-	-
Cash and cash equivalents	31,198.72	31,198.72	-	-
Other financial assets	4,83,150.24	4,83,139.24	11.00	-
	22,21,086.06	22,21,075.06	11.00	-

As at 31 March 2020	Total	Less than 1 year	1 to 5 years	more than 5 years
Non-derivative financial liabilities				
Borrowings (Current and Non-current)	61,00,000.00	61,00,000.00	-	-
Trade payable	6,05,569.18	6,05,569.18	-	-
Other financial liabilities (current and non current)	7,38,131.50	6,78,163.27	59,968.24	-
	74,43,700.68	73,83,732.45	59,968.24	-

As at 31 March 2019	Total	Less than 1 year	1 to 5 years	more than 5 years
Financial assets				
Loans	4,43,028.53	4,43,028.53	-	-
Trade receivable	12,74,715.67	12,74,715.67	-	-

Notes to financial statements for the year ended March 31, 2020

(all amounts in ₹. thousands unless otherwise stated)

40 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening balance	Cash flows		Non cash movement	Closing balance
	1 April 2019	Proceeds	Repayments	Fair value changes	31 March 2020
Proceeds from borrowings*	(64,61,859.58)	-	(3,81,481.94)	9,342.99	(60,89,720.63)

* Includes current obligations under borrowings classified under "Other current financial liabilities"

41 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages the capital structure based on an adequate gearing which yields higher share holder value which is driven by the business requirements for capital expenditure and cash flow requirements for operations and plans of business expansion and consolidation. Accordingly based on the relative gearing and effective operating cash flows generated, the Company manages the capital either by raising required funds through debt, equity or through payment of dividends.

The capital and net debt position of the company is as follows:

Particulars	As at 31 March 2020	As at 31 March 2019
Total Debts *	60,89,720.63	64,61,859.58
Total equity	(35,72,354.34)	(33,74,320.88)
Capital and net debt	25,17,366.29	30,87,538.70

* It includes non-current borrowings, current borrowings and current maturities of long term borrowings

42 Impact of COVID 19

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amount of its trade receivables and other receivables from related party. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings in view of COVID – 19 as at the date of approval of these financial statements. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

INDEPENDENT AUDITORS' REPORT

To the Members of **NAM Estates Private Limited**

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of NAM Estates Private Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2019, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st 2019 and loss, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

As stated in note 6 & 11 to the financial statements, the Company has, prior to June 2018, given loans to its Holding Company having Common Directors. The Outstanding balance as on 31st of March 2019 is Rs. 3,53,028.53 thousand. As per the requirements of erstwhile section 185 of the Companies Act, 2013 ('Act'), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a director is interested, and accordingly the above loan given by the Company is not in compliance with the requirements of Section 185 of the Act.

Further, the Company has given a loan of Rs 90,000 thousand during year ended 31 March 2019 to a private company, in which the director is interested, for which no special resolution was passed. As per the requirements of section 185 of the Companies (Amendment) Act, 2017, no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested without passing a special resolution. Accordingly, the aforementioned loan given is not in compliance with the requirements of section 185.

Further, the loan given to the holding company is interest-free, which in our view, is not at arm's length, and is prejudicial to the interests of the Company. The impact of this non-compliance has not been quantified by the Company.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. except for the matters described in the basis of qualified opinion paragraph, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. except for the possible effects of the matters described in the basis of qualified opinion paragraph above, in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Changes in Equity, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, except for the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. in our opinion the matters described in the basis of qualified opinion paragraphs above, may have an adverse effect on the functioning of the Company.

- g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.
- h. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer note 27 to the financial statements; The Company has several cases pending against it towards the title of land acquired by it. Management, based on legal advice obtained and also based on the court rulings (in favour of the Company), believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence no amounts quantified.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any foreseeable losses; and
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure A to the Independent Auditors' Report

The Annexure referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report to the Members of **Nam Estates Private Limited** ('the Company') for the year ended 31 March 2019,

We report that:

- (i)
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of investment properties.
 - (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of three years. During the year, the Company has carried out a physical verification of all of its investment properties. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its investment properties. No material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company and subject to the matters mentioned in Note 27, the title deeds of immovable properties are held in the name of the Company.
- (ii) The Company currently does not hold any physical inventory, except for parcels of land and development thereof. Thus, paragraph 3(ii) of the Order is not applicable to the Company.
- (iii) The Company has granted deposit to one company covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act').
 - (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the terms and conditions of the deposit granted by the Company to the company covered in the register maintained under section 189 of the Companies Act, 2013 are prejudicial to the interest of the Company, as disclosed below:
 - (b) in the case of the loans granted to the company listed in the register under Sec 189 of the Act, the stipulation as to repayment of principle and interest is as specified below.
 - (c) the principal and interest repayable at the maturity of the loan and hence, there is no overdue as on date in the case of the loans granted to the company listed in the register under Sec 189 of the Act.

Name of the company	Amount advanced during the year (Rs. In thousand)	Amount as at 31 March 2019 (Rs. In thousand)	Terms
Embassy Property Developments Private Limited	Rs.90,000/-	Rs. 4,43,028.53	Repayable within 12 months from the reporting period.

- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, with respect to the loans, deposit and investments made, except as disclosed below:

The Company has given a loan outstanding at Rs 3,53,028.53 thousand as at 31 March 2019 to a private company, in which the director is interested. As per the requirements of erstwhile section 185 of the Act, no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested. Accordingly, the aforementioned loan given is not in compliance with the requirements of section 185. The maximum amount outstanding during the year in relation to loan given was Rs 14,37,917.428 thousand and the amount outstanding as at 31 March 2019 was Rs 3,53,028.53 thousand

Further, the Company has given a loan of Rs 90,000 thousand during year ended 31 March 2019 to a private company, in which the director is interested, for which no special resolution was passed. As per the requirements of section 185 of the Companies (Amendment) Act, 2017, no company shall, directly or indirectly, provide any loan, or give any guarantee or provide any security to a person in whom a director is interested without passing a special resolution. Accordingly, the aforementioned loan given is not in compliance with the requirements of section 185. The maximum amount outstanding during the year in relation to loan given was Rs 90,000 thousand and the amount outstanding as at 31 March 2019 was Rs Rs 90,000 thousand .

- (v) The Company has not accepted any deposits from public within the meaning of the directives issued by Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.
- (vi) The Central Government has prescribed the maintenance of cost records under section 148(1) of the Act and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Income-Tax, Goods & Service Tax and other statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company does not have any dues on account of Provident Fund, Employees' State Insurance, Cess, Sales Tax, Value-Added Tax, Service tax, Duty of Customs and Duty of Excise.
- According to the information and explanations given to us, no undisputed amounts payable in respect of Income-Tax, Service Tax, Goods & Service Tax and other statutory dues were in arrears as at 31 March 2019 for a period of more than six months from the date they became payable.
- (b) According to the information and explanations given to us, there are no dues of Income Tax, Sales Tax, VAT, Service Tax, Custom Duty, Excise Duty and Cess which have not been deposited with the appropriate authorities on account of any dispute.
- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to bankers or financial institutions. The Company did not have any outstanding dues to debenture holders or government during the year.

- (ix) According to the information and explanations given to us, the Company has not raised any money by way of public issue or further public offer (including debt instruments) during the year.
- (x) According to the information and explanations given to us, no material fraud on the Company by its officers or employees or a fraud by the Company has been noticed or reported during the course of our audit.
- (xi) The Company is a private limited company. Thus, paragraph 3(xi) of the Order relating to provisions of Section 197 is not applicable.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Thus, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us the Company is not required to constitute an Audit Committee in accordance with Section 177. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with section 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placements of shares or debentures during the year. Thus, paragraph 3(xiv) of the Order is not applicable.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Thus, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act 1934.

Annexure B to the Independent Auditors' Report

(Referred to paragraph 2(g) under 'Report on other regulatory requirements' Section of our report to the members of **Nam Estates Private Limited** of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **Nam Estates Private Limited** ("the Company") as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the company based on our audit. We conducted our audit in accordance with the Guidance Note on audit of internal financial controls and the Standards on Auditing, issued by Institute of Chartered Accountants of India and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified opinion

According to the information and explanations given to us and based on our audit, the following material weakness has been identified as at March 31, 2019:

The Company did not have an appropriate internal control system for inter-company transactions which could potentially result in the Company not complying with statutory regulations.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India and except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company's internal financial controls over financial reporting were operating effectively as at 31 March 2019.

We have considered the qualification reported above in determining the nature, timing, and extent of audit tests applied in our audit of the standalone financial statements of the Company, and the qualification above in relation to controls around inter-company transactions has affected our opinion on the financial statements of the Company and we have issued a qualified opinion on the financial statements.

* On March 19, 2015, the Board of directors of the Company passed a resolution to merge into the Company, Swire Investments Private Limited ('SIPL'), its wholly-owned subsidiary. Pursuant to this, on July 14, 2015, the Company filed a Scheme of Amalgamation ('the Scheme') with the Honourable High Court of Karnataka, with an appointed date of April 1, 2015. The scheme was approved by the High Court on August 29, 2017 effective April 1, 2015 and hence the merger has been effected as on April 1, 2015 during the financial year 2016-17.

As per the aforementioned scheme, the assets and liabilities of SIPL have been merged with the Company. Given that SIPL is a wholly-owned subsidiary of the Company there is no consideration payable for the amalgamation of SIPL with the Company and the consequent transfer of the undertaking, properties, assets and liabilities of SIPL to the Company. The difference of the value of the assets over the liabilities of SIPL vested in the Company has been accounted as capital reserves in the Company.

Loss before tax	(4,71,163.11)	(3,04,658.69)
Adjustments:		
Interest income(Fair value adjustments)	(51,686.13)	(99,749.11)
Interest expense	1,39,432.40	4,60,642.52
Interest income	(1,946.40)	(1,348.15)
Profit from redemption of mutual funds	(370.80)	
Operating cash flow before working capital changes	(3,85,734.04)	54,886.57
Changes in working capital		
- (Increase) / decrease in inventories	(8,37,502.98)	5,12,123.43
- (Increase) / decrease in loans	9,94,888.90	31,14,731.33
- (Increase) / decrease in Other non - current & current financial assets	22,782.54	(2,77,994.95)
- (Increase) / decrease in current assets and non current assets	8,95,494.83	(11,06,426.52)
- (Increase) / decrease in trade receivables	(3,05,996.95)	(6,68,381.87)
- Increase / (decrease) in other non-financial liabilities	(1,11,940.41)	11,81,379.59
- Increase / (decrease) in trade payables	2,24,074.15	(42,932.58)
- Increase / (decrease) in other financial liabilities	1,022.02	24,020.75
Cash flow from operationig activities	4,97,088.06	27,91,405.75
Income taxes paid(net of refund)	(5,975.73)	3,520.94
Net cash flow (used in)/ generated from operating activities	4,91,112.33	27,94,926.69
Cash flow from investing activities:		
Interest income	1,912.94	1,246.42
Purchase of Mutual Fund	(40,000.00)	-
Proceeds from Sale of Mutual Fund	40,370.80	-
Purchase of Investment Property	(2,88,673.30)	(5,94,960.53)
Net cash flow from / (used in) investing activities	(2,86,389.56)	(5,93,714.11)
Cash flow from financing activities:		
Repayment of borrowings (Net)	(1,67,434.31)	(3,61,436.94)
Redemption of debentures (including Interest)	-	(11,64,959.96)
Interest expense	(2,08,071.42)	(5,20,417.53)
Net cash flow from /(used in) financing activities	(3,75,505.73)	(20,46,814.43)
Net increase / (decrease) in Cash and bank balances	(1,70,782.96)	1,54,398.15
Cash and bank balances at the begining of the year(refer note 12)	2,35,761.36	81,363.21
Cash and bank balances at the end of the year(refer note 12)	64,978.40	2,35,761.36
Cash and bank balances comprise of:		
Balances with banks		
- in current accounts	20,071.62	32,054.70
- in escrow account	11,975.05	1,72,493.21
Other bank balances		
- in fixed deposits	32,931.73	31,213.45
	64,978.40	2,35,761.36

Summary of significant accounting policies (refer note 2)

The accompanying notes are an integral part of the financial statements.

Nam Estates Private Limited

CIN:U85110KA1995PTC017950

Notes to financial statements for the year ended March 31, 2019**1 Company overview**

Nam Estates Private Limited ('the Company') was incorporated on June 02, 1995. The Company engaged in the business of real estate development of commercial, residential, hospitality, development of township and related activities.

2 Significant accounting policies**2.1 Basis of preparation****2.1.1 Statement of compliance**

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013('the Act') read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, Companies (Indian Accounting Standards) Amendment Rules, 2016, Companies (Indian Accounting Standards) Amendment Rules, 2018 and other relevant provisions of the Act.

2.1.2 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded- off to the nearest thousand, unless otherwise indicated.

2.1.3 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for certain investments in equity instruments which is measured at fair value.

Items	Measurement basis
Certain financial assets and liabilities	Fair value

2.1.4 Use of estimates and judgements

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Accounting policies have been consistently applied except whereas newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Judgments

Information about judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

(i) Classification of assets as investment property or as property, plant and equipment.- Refer Note 2.2.13 (a)

Assumptions and estimation and uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31 March 2019 or subsequent year/ years is included in the following notes:

i) Valuation of financial instruments - refer note 39

ii) Non-Recognition of deferred tax asset on carried forward losses and availability of future taxable profit against which tax losses carried forward can be used - Refer Note 28

2.1.5 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between marked participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ☐ Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.
- ☐ Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- ☐ Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the fair value measurement as a whole at the end of the reporting period.

2.1.6 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized within twelve months after the reporting period, or
 - Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when it is:

- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.2 Summary of significant accounting policies

2.2.1 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

i. Proceeds from sale of plotted development and constructed property

Ind AS 115 Revenue from Contracts with Customers is mandatorily applicable from reporting period beginning on or after April 1, 2018. Ind AS 115 replaces existing the existing standard on revenue recognition Ind AS 18 ("Revenue recognition") and Ind AS 11 ("Construction Contracts"). The application of Ind AS 115 has impacted the Company's accounting for recognition of revenue from sale of plots. The Company has applied the modified retrospective approach to contracts for sale of plots that were not completed as of 1 April 2018 and has given impact of transition to Ind AS 115 by adjusting Rs 869,018.10 thousands in the opening balance of retained earnings as on 1 April 2018. Accordingly the comparatives have not been restated and hence not comparable with previous period figures. Due to the application of Ind AS 115 for the year ended 31 March 2019, revenue from sale of plots is lower by Rs. 423,318.13 thousands and Net loss is higher by Rs.256,100.95 thousands, vis-a-vis the amounts if replaced standards were applicable. The basic and diluted EPS for the year is (Rs.6730.71) instead of (Rs. 3072.23) per share respectively.

Revenue is recognized upon transfer of control of units of plots to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Company expects to receive in exchange for those units of plots. The Company shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of plotted development, the Company satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the units of plots for residential use and on completion of critical obligations as per the customer contract.

To estimate the transaction price in a contract, the Company adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Company when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred unit of plots.

ii. Recognition of revenue from transfer of assignment rights

Revenue from transfer of assignment rights is recognised upon transfer of all significant risks and rewards of ownership of such real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue from transfer of assignment rights is only recognised when transfer of legal title to the buyer is not a condition precedent for transfer of significant risks and rewards of ownership to the buyer.

iii. Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

iv. Dividend income

Dividends is recognised when the share holders or unit holder right to receive the payment is established, which is generally when shareholders approve the dividend.

2.2.2 Investment properties

i. Recognition and measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. The cost of the assets not ready for their intended use before such date, are disclosed as Investment property under development.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.

Investment properties are depreciated on straight-line method over their estimated useful lives. However, where the Management's estimate of the remaining useful life of the assets on a review subsequent to the time of acquisition is different, then depreciation is provided over the remaining useful life based on the revised useful life. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

ii. Subsequent expenditure

Notes to financial statements for the year ended March 31, 2019

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company and the cost of the investment property can be measured reliably.

iii. Depreciation

Based on an independent assessment, the management has estimated the useful lives of the following class of assets. Depreciation is provided on straight line method as per the following useful life of the assets estimated by the management:

Asset	Useful life
Building	5-60 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

iv. Depreciation

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of de-recognition.

2.2.3 Inventories

Related to real estate activities

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

i. Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

ii. Finished goods - Plots: Valued at lower of cost and net realisable value.

iii. Land inventory: Valued at lower of cost and net realisable value.

2.2.4 Impairment of assets

Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Companies of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. The Company tests for impairment using the ECL model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime ECL. Life time ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss (P&L). This amount is reflected in a separate line in the P&L as an impairment gain or loss. For financial assets measured at amortised cost, ECL is presented as an allowance which reduces the net carrying amount of the financial asset.

2.2.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through profit or loss.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the P&L.

(v) Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in statement of profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in P&L.
FVTPL	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortized cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in OCI. No change in EIR due to reclassification.
FVTOCI	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to P&L at the reclassification date.

Notes to financial statements for the year ended March 31, 2019

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

- the rights to receive the cash flows from the asset have expired or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

2.2.5 Borrowing costs

Borrowing costs are interest and other costs incurred in connection with borrowings of funds. Borrowing costs directly attributable to acquisition/ construction of qualifying assets are capitalised until the time all substantial activities necessary to prepare the qualifying assets for their intended use are complete. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use/ sale. All other borrowing costs not eligible for inventorisation/ capitalisation are charged to statement of profit and loss.

2.2.6 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purpose of the statement of cash flows, cash and bank balance consist of cash and bank balances and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities.

2.2.7 Foreign currency

i. Functional currency

The Company's financial statements are presented in INR, which is also the company's functional currency.

ii. Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's entities at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of a foreign operation. These are recognised in OCI until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in OCI.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2.2.8 Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes as the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in the OCI or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

2.2.9 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

2.2.10 Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

2.2.11 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

2.2.12 Onerous contracts

A contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with that contract.

Notes to financial statements for the year ended March 31, 2019

2.2.13 Significant accounting judgements, estimates and assumptions

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

i) Judgements

In the process of applying the accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

a) Classification of property

The Company determines whether a property is classified as investment property or inventory:

The company is developing a township project containing various type of real estate development. Based on the intention of use, the land property and related development cost have been classified as either investment property, property plant & equipment or inventoried.

Investment property comprises land and buildings (principally offices, commercial and retail property) that are not occupied substantially for use by, or in the operations of, the Company, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation. These buildings are substantially rented to tenants and not intended to be sold in the ordinary course of business. Inventory property comprises property that is held for sale in the ordinary course of business. Principally, this is residential property that the Company develops and intends to sell before or on completion of construction/development.

The Company based its assumptions and estimates on parameters available on the reporting period about future developments the above judgements are considered, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

2.2.14 Recent accounting pronouncements (Standards issued but not yet effective)

Ind AS 116 *Leases* was notified in March 30, 2019 and it replaces Ind AS 17 *Leases*, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after April 1, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of ‘low-value’ assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today’s accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company intends to adopt these standards, if applicable, when they become effective. As the Company does not have any material leases, therefore the adoption of this standard is not likely to have a material impact in its standalone Ind AS financial statements.

Less: Depreciation	-	-
Loss Arising from Investment Properties	(837.78)	(702.71)

(c) Determination of Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

Fair value:	Rs in thousands
As at 31 March 2018	51,53,000
As at 31 March 2019	55,41,000

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

The Company has used "Direct Comparison" method and "Discounted cash flow" approach for assessing the fair value of the

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

In the "Discounted Cash Flow" method, the future cash flows from the property are forecasted using precisely stated assumptions. This method allows for the explicit modelling of income associated with the property. These future financial benefits are then discounted to a present day value at an appropriate discount rate.

Para 97 of Ind AS 113 Fair value measurements states that for each class of assets and liabilities not measured at fair value in the balance sheet but for which the fair value is disclosed, an entity shall disclose the information required by paragraph 93(b), (d) and (i). However, the said para states that an entity is not required to provide the quantitative disclosures about significant unobservable inputs used in fair value measurements categorised within Level 3 of the fair value hierarchy required by paragraph 93(d). Therefore, no disclosure in relation to sensitivity analysis of significant unobservable inputs used in fair value measurements of Investment property and Investment property under development (including capital advances) has been provided in these financial statements.

(d) Restriction on realisability

The above said property is placed as collateral security for the secured loan availed from the financial institution by the company and its holding company as well.

Nam Estates Private Limited

Notes to financial statements for the year ended March 31, 2019

27 Contingent liabilities, capital commitments and contingent assets

Capital commitment as at March 31, 2019 is Rs.23,394.93 thousands (March 31, 2018 - Rs. 24,678.61 thousands)

The Company has several cases pending against it towards the title of land acquired by it. Management, based on legal advice obtained and also based on the court rulings (in favour of the Company), believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence no amounts quantified.

The Company has extended mortgage of 196.69 acres of land situated at Heggenahalli and Nagamangala for a comprehensive loan borrowed by its holding Company for various projects executed by its holding Company and charge is created on the receivables in the project Embassy Springs being developed. The loan balance outstanding as on March 31, 2019 is Rs.53,90,000 thousands.

28 Income taxes

Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate:

	(Rs. in thousands)	
Particulars	Year ended March 31, 2019	Year ended March 31, 2018
Loss before tax	(4,71,163.11)	(3,04,658.69)
Tax at the Indian tax rate of 26% (March 31, 2018: 25.75%)	(1,22,502.41)	(78,449.61)
Effect of:		
Permanent disallowance	80,548.45	1,18,615.45
Deferred tax asset not created on business losses	41,953.96	(38,413.07)
At the effective income tax rate Nil (March 31, 2018: Nil)	-	1,752.77
Income tax expense reported in the statement of profit and loss	-	1,752.77

Unrecognised deferred tax assets

Deferred tax assets have not been recognised on accumulated losses, because it is not probable that sufficient future taxable profit will be available against which the Company can set it off within the time limit prescribed to set off the accumulated business loss as per the Income Tax Act.

With many projects in the pipeline for which development has not yet started, the Company has not recognised Deferred Tax asset as there is no probability to earn enough profits within the restricted time limit of carry forward and set off of losses.

	(Rs. in thousands)	
	March 31, 2019	March 31, 2018

39 Financial instruments - risk management

The Company's financial assets majorly comprise of loans to related parties, other receivable from related parties, trade receivables and cash & cash equivalents. The Company's financial liabilities majorly comprises of borrowings, trade payables.

The Company is exposed to credit risk, liquidity risk and interest rate risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions affecting business operations and the Company's activities.

(a) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or loans given leading to financial loss. The Company's exposure to credit risk arises from its operating and financing activities. The credit risk arises primarily from loans given.

In order to mitigate the credit risk on receivables, the Company does business only with recognised third parties thereby reducing the credit risk. For other financial assets (including loans, cash and cash equivalents), the Company minimises credit risk by dealing exclusively with related parties and high credit rating counterparties.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility. The Company has a dedicated treasury management team which monitors on a daily basis the fund positions/requirements of the Company. The treasury management team plans the cash flows of the Company by planning and identifying future mismatches in funds availability and reports the planned & current liquidity position to the top management and board of directors of the Company.

(c) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to its long-term debt obligations with floating interest rates.

(This space has been left blank intentionally)

Nam Estates Private Limited

Notes to financial statements for the year ended March 31, 2019

(d) Exposure to interest rate risk:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	(Rs. in thousands)	
	March 31, 2019	March 31, 2018
Fixed-rate instruments:		
Financial assets	32,931.73	31,213.45
Financial liabilities	-	-
Total	32,931.73	31,213.45

Particulars	(Rs. in thousands)	
	March 31, 2019	March 31, 2018
Variable instruments:		
Financial assets	-	-
Financial liabilities	64,61,859.58	66,97,932.90
Total	64,61,859.58	66,97,932.90

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Sensitivity analysis for variable rate instruments

A reasonably possible change of 1% in interest rates at the reporting date would have increased/ (decreased) equity and profit and loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

Particulars	(Rs. in thousands)			
	Profit or loss		Equity net of tax	
	1% increase	1% decrease	1% increase	1% decrease
Loans & Borrowings				
31 March 2019				
Variable rate instruments	4,85,854.10	-4,85,854.10	3,59,532.03	-3,59,532.03
31 March 2018				
Variable rate instruments	5,03,603.98	-5,03,603.98	4,11,024.48	-4,11,024.48

40 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages the capital structure based on an adequate gearing which yields higher share holder value which is driven by the business requirements for capital expenditure and cash flow requirements for operations and plans of business expansion and consolidation. Accordingly based on the relative gearing and effective operating cash flows generated, the Company manages the capital either by raising required funds through debt, equity or through payment of dividends.

The capital and net debt position of the company is as follows:

	(Rs. in thousands)	
	March 31, 2019	March 31, 2018
Borrowings - Net debt	44,65,724.71	44,89,678.77
Total equity	(33,74,320.88)	(20,34,139.67)
Capital and net debt	10,91,403.83	24,55,539.10

Independent Auditor's Review Report

To the Board of Directors of Nam Estates Private Limited

Report on Unaudited Special Purpose Interim Consolidated Financial Statements

1. We have reviewed the accompanying Unaudited Special Purpose Interim Consolidated Financial Statements of Nam Estates Private Limited (the "Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as the "Group") and its joint ventures which comprise the Unaudited Special Purpose Interim Consolidated Balance Sheet as at December 31, 2021, the Unaudited Special Purpose Interim Consolidated Statement of Profit and Loss (including Other Comprehensive Income) for nine months period ended on that date and other relevant explanatory notes and information (hereinafter referred to as the "Unaudited Special Purpose Interim Consolidated Financial Statements"). The Unaudited Special Purpose Interim Consolidated financial statements have been prepared by the management in accordance with the basis of preparation as stipulated in Note 2 of the Unaudited Special Purpose Interim Consolidated financial statements.
2. This Unaudited Special Purpose Interim Consolidated Financial Statements, which is the responsibility of the Holding Company's management, and which is approved by the Holding Company's Board of Directors, has been prepared by the Holding Company's management in accordance with the basis of preparation as stipulated in Note 2 of the Unaudited Special Purpose Interim Consolidated financial statements, and applicable Indian Accounting Standards ("IND-AS") issued by the Institute of Chartered Accountants of India (ICAI) and other recognised accounting practices and policies in India. The Unaudited Special Purpose Interim Consolidated Financial Statements are the responsibility of the Holding Company's management. Our responsibility is to express a conclusion on the Unaudited Special Purpose Interim Consolidated Financial Statements based on our review.

Scope of Review

3. We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of Unaudited Special Purpose Interim Consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain

assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

4. The Unaudited Interim Consolidated Financial Statement includes the financial statements of the following entities

Embassy Infra Developers Private Limited	Subsidiary
Embassy Orange Developers Private Limited	Subsidiary
Embassy Realty Ventures Private Limited	Subsidiary
Vigor Developments Private Limited	Subsidiary
Embassy Columbia Pacific ASL Private Limited	Subsidiary
Embassy One Commercial Property Development Private Limited	Subsidiary
Logus Projects Private Limited	Subsidiary
Birch Real Estate Private Limited	Subsidiary of Embassy Realty Private Limited
Summit Developments Private Limited	Subsidiary
Saphire Realtors Private Limited	Subsidiary of Summit Developments Private Limited
Embassy East Business Parks Private Limited	Subsidiary
Grove Ventures	Investment in Partnership Firm (Subsidiary)
RGE Constructions and Development Private Limited	Subsidiary
Ardor Investment Private Limited	Subsidiary
Basal Projects Private Limited	Subsidiary of Vigor Developments Private Limited
Embassy Investment MGT LLP	Investment in Partnership LLP (Joint Venture)
Embassy One Developers Private Limited	Joint Venture

Opinion

5. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Unaudited Special Purpose Interim Consolidated Financial Statements have not been prepared in all material respects by the management in accordance with the basis of preparation as stipulated in Note 2 of the Unaudited Special Purpose Interim Consolidated financial statements and applicable Indian accounting standards issued by Institute of Chartered Accountants of India (ICAI) and other recognized accounting practices and policies in India.

Emphasis of Matter

6. In respect of the Holding Company and its subsidiary Embassy East Business Parks Private Limited, we draw attention to Note 3(a) to the Unaudited Special Purpose Interim Consolidated Financial Statements, which details the pending litigation with respect to Embassy East Business Parks Private Limited (erstwhile known as Concord India Private Limited). Our opinion is not modified in the respect of this matter.
7. In respect of Summit Developments Private Limited (a subsidiary of the Holding Company), we draw attention to Note 4 of the Unaudited Special Purpose Interim Consolidated Financial Statements, which describes the effects on the Unaudited Special Purpose Interim Consolidated Financial Statements due to the event of default notice served by the Compulsory Convertible Debentures (CCD) holders issued by Summit Developments Private Limited. Our opinion is not qualified in the respect of this matter.

Other matters

8. We did not audit the financial statements of ten subsidiary entities, whose financial statements reflect total assets of Rs. 23,956.77 millions (before consolidation adjustments) as at December 31, 2021, Total Revenues of Rs. 318.76 millions (before consolidation adjustments) and net loss of Rs. (293.67) millions for the year ended on that date, as considered in the unaudited special purpose interim consolidated financial statements. The consolidated financial statements also include the Group's share of net profit of Rs. (164.21) millions for the year ended December 31, 2021, as considered in the unaudited special purpose interim consolidated financial statements in respect of two joint ventures, whose financial statements have not been audited by us. These financial statements have been reviewed by other auditors whose reports have been furnished to us by the Management and our opinion on the unaudited interim consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and joint venture, is based solely on the reports of the other auditors.

Basis of Preparation

9. Without modifying our opinion, we draw attention to note 2 to the Unaudited Special Purpose Interim Consolidated Financial Statements, which describes the basis of preparation of the Unaudited Special Purpose Interim Consolidated Financial Statements.

Restriction to use

10. This review report is issued at the request of the management of the Holding Company for use by them in the process of placement of equity shares of Rs 2 in an institutional placement in India to be issued by Indiabulls Real Estate Private Limited. These Unaudited Special Purpose Interim Consolidated Financial Statements should not be used for any other purpose without our prior written consent.

1 Overview of the Group

The special purpose consolidated financial statements comprise financial statements of NAM Estates Private Limited ('the Company', 'the Parent Company' or 'Holding Company') together with its subsidiaries (collectively termed as 'the Group') and joint ventures (collectively termed as the 'Consolidated Entities') for the period ended December 31, 2021. The Holding Company was incorporated on June 02, 1995. The Group is engaged in the business of real estate development of commercial, residential, hospitality, development of township and related activities.

2 Basis of preparation of special purpose consolidated financial statements

The Holding Company had not presented its consolidated interim financial statements for the period ended December 31, 2021, as the Company is not statutorily required to present the same for any compliance. These special purpose consolidated interim financial statements have been prepared to be presented in the private placement document, for the proposed fund raise by Indiabulls Real Estate Limited. This financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India. The comparative information as required by Ind AS 34 have not been presented. Selected notes have been included that are significant for the understanding of the changes in the Group's financial position and performance since the last annual financial statements, wherever applicable.

The Group's financial statements have been prepared on a going concern basis. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on the market value of the underlying inventory and Investment Properties held by the Group.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Group was unable to continue as a going concern.

2.01 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Group's functional currency. All the amounts have been rounded-off to the nearest thousand, unless otherwise indicated.

2.02 Basis of measurement

The financial statements have been prepared on a historical cost basis, except for certain investments in equity instruments which is measured at fair value.

Items	Measurement basis
Certain financial assets and liabilities	Fair value

2.03 Use of estimates and judgements

The preparation of financial statements in conformity with Indian Accounting Standards ("IND AS") requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets, liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Accounting policies have been consistently applied except whereas newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The significant accounting policies adopted in the preparation of these Special Purpose Interim financial statements has been consistently adopted from the previous audited financials statements.

(This space has been left blank intentionally)

3 Contingent liabilities, capital commitments and contingent assets(to the extent not provided for)

Particulars	Period ended December 31, 2021	Year ended March 31, 2021
Contingent liabilities*		
Outstanding dues to MSME (refer note (b) below)	-	-
Income tax matters (refer note (c) below)	-	-
Service tax matters	28.86	28.86
Others:		
The Group has given its leasehold land and other assets and corporate guarantees' an exclusive security for loans taken by Embassy Property Developments Private Limited, Embassy Inn Private Limited and LJ-Victoria Properties Private Limited. The outstanding value of loan is :	11,334.37	4,715.80
Liability regarding the Pay order towards BWSSB for the NOC and treated water fees	9.25	-
Capital and other commitments	-	-
Estimated specific committed cost towards its capital expenditure (net of advances) and not provided for	223.75	872.02
Commitment for joint development - refundable deposit	1,216.00	950.00
Stamp duty and registration charges for assets transferred under the Scheme of Arrangement (refer note (e) below)	-	-

Other disputes

The Group has several cases pending against it towards the title of land acquired by it. Management, based on legal advice obtained and also based on the court rulings (in favour of the Group), believe that the title to the land held by it is good and marketable. The future expected cash outflow out of the above pending cases/litigations cannot be ascertained, hence no amounts has been quantified.

- (a) A writ petition has been filed by certain parties against the Embassy East Business Parks Private Limited (previously known as Concord India Private Limited) ("EEBPPL") (a subsidiary entity of the Company) and other respondents including KIADB and Embassy Property Developments Private Limited claiming ownership to certain shareholding of EEBPPL. Further, the petitioners have also alleged that EEBPPL and other respondents have borrowed funds against the leasehold land held by EEBPPL not in line with the terms and conditions of the lease cum sale agreement with KIADB.

The Holding Company has investments of ₹ 25,756.49 million (as at 31 March, 2021 : ₹ 22,503.15 million) in subsidiaries, joint ventures and associates (as on standalone basis), which includes a sum of ₹ 7,014.94 millions, representing shares in EEBPPL. The shares in EEBPPL has arisen under a scheme of demerger with Embassy Property Developments Private Limited approved by the Regional Director ("RD"), South East Region, on August 04, 2021. The value of the shares has been fair valued as per Ind AS 103 Business Combinations as on April 01, 2020.

On October 29, 2021, the Hon'ble Court had issued an interim order directing EEBPPL not to create any further interest in the Schedule Property, and directed the KIADB not to issue NOCs for creating any further mortgages on the Schedule Property.

As per the legal opinion obtained by the management, the Group is of the view that the writ petitions filed by the petitioners do not have any merit as they are seeking to resolve a private dispute through the means of a writ petition. Further the Group based on the legal opinion obtained is of the view that the legal proceeding shall not have adverse effect on ownership or possession of the leasehold land allotted by the KIADB.

- (b) The Group has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 December 2021, the amounts due to micro and small enterprises is ₹ 250.66 millions (As at 31 March, 2021 ₹ 327.70 million) . As per the MSME Act 2006 Section 16, Where any buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors has not raised any interest demand yet and the Group has not paid interest during the year, and hence the interest accrued under section 16 of the MSME Act is not provided for.
- (c) The Income Tax department has launched the proceedings u/s 276B against the Group and the principle officer of the group entity in respect of defaults in payment of Tax deducted at source. The Group is contesting the proceedings initiated before the Honourable High court of Karnataka. The quantification of financial default is not ascertainable pending final judgement at this point of time. Hence the amount couldn't be quantified at the balance sheet date and not provided for.
- (d) The Group had made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bangalore. The Group had made an advance payment of ₹ 1,217.49 millions in earlier years in accordance with the demand request raised by KIADB. The State government has issued a notification on 28 February 2018 declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of ₹ 728.78 millions on 13 January 2021 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Group. The Group has paid the said amount during the period ended 31 December 2021.

- (e) The Group is the process of transferring title of the assets and liabilities under the scheme of demerger as on the reporting date. The amount of charges to be paid has not yet been crystallised
- (f) The Group has entered into a Joint Venture Agreement with the holding company, CP Senior Housing (India) LLC and Columbia Pacific Communities Private Limited. The subsidiary will acquire land from holding company on which they will develop and manage senior living project in the name 'Serene'. The Joint Venture Agreement has been executed on 2 December 2021. Other commercials pertaining to the project has not been decided between the parties yet and hence no amount has been disclosed in Capital Commitment for the reporting period.

4 Event of Default under the provisions of the Securities Subscription and Shareholders Agreement

During the year ended March 31, 2021, the CCD holders (CCD issued by one of subsidiary entities, Summit Developments Private Limited) have issued an 'event of default' notice under the provisions of the Securities Subscription and Shareholders Agreement (SSSHA) dated August 17, 2011. As per the terms of the SSSHA, upon the occurrence of an event of default, the debenture holders will be entitled to convert the debentures into equity shares such that it represents 51% of the share capital of one of the subsidiary Company, Summit Developments Private Limited

Subsequently, the subsidiary company, Embassy Property Development Private Limited (EPDPL) and the CCD holders have entered into a Securities Purchase Agreement (SPA) whereby EPDPL will buy out the CCD's for an agreed consideration. According to the terms of the SPA, the purchase of the CCDs was to be completed by 31st March 2021 (Closing date). However, the CCD holders issued a NOC towards the Demerger scheme, whereby they have stated the Closing date or the Long Stop Date shall stand extended to 31 August 2021.

Consequent to the Long Stop Date, the CCD holders have intimated the management of the subsidiary Company proposing a further extension of the "Closing date" and a revision of the previously agreed consideration. The Closing date is proposed to be extended up to 31 March 2022 and the consideration is under the process of negotiation between the Parties to the SPA. Due to this, the revised value cannot be rigidly determined and hence the effect of any variation in the value has not been given in the Special Purpose Interim consolidated financial statements as on December 31, 2021.

6 Business Transfer Agreement with Udhyan Investments Private Limited ('UIPL')

The Holding Company has entered into a business transfer agreement during the period ended December 31, 2021 with Udhyan Investments Private Limited (UIPL) for transfer of certain specified assets and liabilities as envisioned in the agreement. The Holding Company has recognised the effect of the Business transfer agreement on August 10, 2021 and accounted the assets and liabilities taken over at fair value in accordance with Ind AS 103 Business Combination. The difference in the fair value of the net assets of the assets and liabilities transferred and the consideration issued, is recognised as capital reserve. Any inter-company balances between the IPL and the Holding Company relating to assets transferred, if any, in the books of the Holding Company shall stand cancelled. The Holding Company is in the process of transferring title of the assets and liabilities under the agreement as on the reporting date

The summary of effect of the agreement is as under:

Particulars	Carrying Value of the Assets and Liabilities in books of IPL	Fair Value of the Assets and Liabilities as on the date of transfer

- (6) The Group has given its leasehold land as a secondary security for a loan of ₹ 900 millions taken by L J Victoria Properties Private Limited, fellow subsidiary and ₹ 4780 millions taken by Embassy Inn Private Limited . The closing balance as on December 31, 2021 is ₹ 3909.37 millions.

INDEPENDENT AUDITOR'S REPORT

To the Members of Embassy One Commercial Property Developments Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Embassy One Commercial Property Developments Private Limited ("the Company"), which comprise the balance sheet as at 31st March 2021, and the statement of Profit and Loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. This report does not include a statement on matters specified in the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, since in our opinion and according to explanation given to us, the said order is not applicable to the Company.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- f) The Company has been exempted from the requirement of its auditor reporting on whether the company has adequate internal financial controls in place and the operating effectiveness of such controls (clause (i) of section 143 (3)).
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

Note 1: Company overview

Embassy One Commercial Property Developments Private Limited ('the Company') was incorporated on July 03, 2018. The Company has been formed primarily for carrying on business of real estate development. The company identification number of the Company is U70109TG2018PTC133487. The Company is incorporated in India and the registered office is at Bengaluru, India.

Note 2: Significant accounting policies

a. Basis of preparation

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Financial statements for the year ended March 31, 2019 are the Company's first financials and have been prepared in Ind-AS financial statements. The Company has adopted all the applicable Ind-AS standards.

The financial statements have been prepared on a historical cost basis, except for certain financial assets which is measured at fair value. The financial statements are presented in INR and all values are rounded to the nearest thousand, except when otherwise stated.

b. Use of estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

c. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is treated as current when it is:

- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

d. Investment properties

Recognition and initial measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful life)

Investment properties are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on investment properties is provided on the straight-line method, computed on the basis of useful life prescribed in Schedule II to the Act.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

De-recognition

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in statement of profit and loss in the period of de-recognition.

e. Impairment of assets

Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount (ie, the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. Where the carrying amount of an asset or cash-generating unit's exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit and loss. The Company tests for impairment using the expected credit loss model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime Expected Credit Loss. Life time Expected Credit Loss are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month Expected Credit Loss is a portion of the lifetime Expected Credit Loss which results from default events on a financial instrument that are possible within 12 months after the reporting date.

Impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss. This amount is reflected in a separate line in the statement of profit and loss as an impairment gain or loss. For financial assets measured at amortised cost, expected credit loss is presented as an allowance which reduces the net carrying amount of the financial asset.

f. Borrowing costs

Borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred, except where the cost is incurred during the construction of an asset that takes a substantial period to get ready for its intended use in which case it is capitalised. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

g. Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

Dividends

Dividends is recognised when the Company's right to receive the payment is established, which is generally when shareholders of the Investee Company approve the dividend.

h. Foreign currency

Functional currency

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of foreign operations. These are recognised in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to statement of profit and loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item.

i. Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian income tax act, 1961.

Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Current income tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in the other comprehensive income or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

j. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

k. Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

l. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purpose of the statement of cash flows, cash and bank balance consist of cash and cash equivalents and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities.

m. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

n. Fair value measurement

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

o. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through statement of profit and loss.

Financial liabilities are classified as financial liabilities at fair value through statement of profit and loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through statement of profit and loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through statement of profit and loss.

(iv) Equity investments

All equity investments with the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as financial assets at fair value through statement of profit and loss. Equity instruments included within the financial assets at fair value through statement of profit and loss category are measured at fair value with all changes recognised in the statement of profit and loss.

(v) Financial liabilities

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through statement of profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	Financial assets at fair value through statement of profit and loss	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in statement of profit and loss.
Financial assets at fair value through statement of profit and loss	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. Effective interest rate is calculated based on the new gross carrying amount.
Amortized cost	Financial assets at fair value through other comprehensive income	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in other comprehensive income. No change in effective interest rate due to reclassification.
Financial assets at fair value through other comprehensive income	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in other comprehensive income is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
Financial assets at fair value through statement of profit and loss	Financial assets at fair value through other comprehensive income	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
Financial assets at fair value through other comprehensive income	Financial assets at fair value through statement of profit and loss	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in other Comprehensive income is reclassified to statement of profit and loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

The rights to receive the cash flows from the asset have expired or

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2021

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

p. Share capital

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are recognised as a deduction from equity, net of any tax effects.

q. Recent accounting pronouncements (standards issued but not yet effective)

a. The accounting policies adopted and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below. There were several new and amendments to standards and interpretations which are applicable for the first time for the year ended March 31, 2021, but either not relevant or do not have an impact on the financial statements of the Company. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

b. Amendments to Ind AS 103: Definition of a Business: The amendment to Ind AS 103 Business Combinations clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that, together, significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs. The other key amendments include, adding an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business and narrowing the definitions of business and outputs by focusing on goods or services provided to customers and by removing the reference to an ability to reduce costs. These amendments had no impact on the financial statements of the Company.

c. Amendments to Ind AS 1 and Ind AS 8: Definition of Material: The amendments provides a new definition of material that states, "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity." The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the financial statements of, nor is there expected to be any future impact to the Company.

d. Several other amendments apply for the first time for the year ending March 31, 2021, but does not have an impact on the financial statements of the Company.

Embassy One Commercial Property Developments Private Limited**Notes to financial statements for the year ended March 31, 2021****Note 21: Financial instruments - risk management**

The Company's financial assets majorly comprise of cash & cash equivalents.

The Company is exposed to credit risk, liquidity risk and market risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions affecting business operations and the Company's activities.

(a) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or loans given leading to financial loss. Cash and bank deposits are placed with banks and financial institutions which are regulated. Management does not expect any of its counterparties to fail to meet its obligations.

(b) Market risk

Market risk is the risk which will affect the Company's income or the value of its holding of financial instruments on account of changes in market prices, foreign exchange rates, interest rates and equity prices

a. Currency risk

Majority of the transactions entered into by the company are denominated in INR. Accordingly the company does not have any currency risk.

b. Interest rate risk

Interest rate is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company does not have any long term debt obligations with floating interest rates. Accordingly the company does not have any interest rate risk.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility. The Company has a dedicated treasury management team on a group level which monitors on a daily basis the fund positions/requirements of the Company. The treasury management team plans the cash flows of the Company by planning and identifying future mismatches in funds availability and reports the planned & current liquidity position to the top management and Board of Directors of the Company.

Exposure to liquidity risk

The table below summarises the maturity profile of the Company's financial assets and liabilities at the end of the reporting period based on contractual undiscounted cash flows:

(Rs. in thousands)

Statutory audit fees (exclusive of applicable taxes)	10.00	10.00

Note 23: Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to optimize the shareholder value.

The Company manages the capital structure based on an adequate gearing which yields higher share holder value which is driven by the business requirements for capital expenditure and cash flow requirements for operations and plans of business expansion and consolidation. Accordingly based on the relative gearing and effective operating cash flows generated, the Company manages the capital either by raising required funds through debt or equity. The current capital and net debt position is as follows:

(Rs. in thousands)		
Particulars	March 31, 2021	March 31, 2020
Borrowings	-	-
Net debt	-	-
Capital - equity attributable to the equity holders	(219.79)	(141.46)
Capital and net debt	(219.79)	(141.46)

Note 24: Uncertainty relating to the global health pandemic on COVID-19:

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on revenue recognition, investment property (including under development), property, plant and equipment, capital work in progress, and receivables. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information, economic forecasts and consensus estimates from market sources on the expected future performance of the Company and have compared the actual performance with the projections and expects the carrying amount of these assets as reflected in the balance sheet as at March 31, 2021 will be recovered. The management has also estimated the future cash flows with the possible effects that may result from the COVID-19 pandemic and does not foresee any adverse impact on realising its assets and in meeting its liabilities as and when they fall due. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Members of Embassy One Commercial Property Developments Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Embassy One Commercial Property Developments Private Limited ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and its loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the Director's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. This report does not include a statement on matters specified in the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, since in our opinion and according to explanation given to us, the said order is not applicable to the Company.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164(2) of the Act.

- f) The Company has been exempted from the requirement of its auditor reporting on whether the company has adequate internal financial controls in place and the operating effectiveness of such controls (clause (i) of section 143 (3)).
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

Note 1: Company overview

Embassy One Commercial Property Developments Private Limited ('the Company') was incorporated on July 03, 2018. The Company has been formed primarily for carrying on business of real estate development. The company identification number of the Company is U70109TG2018PTC133487. The Company is incorporated in India and the registered office is at Bengaluru, India.

Note 2: Significant accounting policies

a. Basis of preparation

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Financial statements for the year ended March 31, 2019 are the Company's first financials and have been prepared in Ind-AS financial statements. The Company has adopted all the applicable Ind-AS standards.

The financial statements have been prepared on a historical cost basis, except for certain financial assets which is measured at fair value. The financial statements are presented in INR and all values are rounded to the nearest thousand, except when otherwise stated.

b. Use of estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

c. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is treated as current when it is:

Expected to be realized within twelve months after the reporting period, or

Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

Due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

d. Investment properties

Recognition and initial measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful life)

Investment properties are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on investment properties is provided on the straight-line method, computed on the basis of useful life prescribed in Schedule II to the Act.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

De-recognition

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in statement of profit and loss in the period of de-recognition.

e. Impairment of assets

Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount (ie, the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. Where the carrying amount of an asset or cash-generating unit's exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit and loss. The Company tests for impairment using the expected credit loss model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime Expected Credit Loss. Life time Expected Credit Loss are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month Expected Credit Loss is a portion of the lifetime Expected Credit Loss which results from default events on a financial instrument that are possible within 12 months after the reporting date.

Impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss. This amount is reflected in a separate line in the statement of profit and loss as an impairment gain or loss. For financial assets measured at amortised cost, expected credit loss is presented as an allowance which reduces the net carrying amount of the financial asset.

f. Borrowing costs

Borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred, except where the cost is incurred during the construction of an asset that takes a substantial period to get ready for its intended use in which case it is capitalised. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

g. Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

Dividends

Dividends is recognised when the Company's right to receive the payment is established, which is generally when shareholders of the Investee Company approve the dividend.

h. Foreign currency

Functional currency

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of foreign operations. These are recognised in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to statement of profit and loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item.

i. Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian income tax act, 1961.

Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Current income tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in the other comprehensive income or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

j. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

k. Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

l. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purpose of the statement of cash flows, cash and bank balance consist of cash and cash equivalents and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities.

m. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

n. Fair value measurement

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

o. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through statement of profit and loss.

Financial liabilities are classified as financial liabilities at fair value through statement of profit and loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through statement of profit and loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through statement of profit and loss.

(iv) Equity investments

All equity investments with the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as financial assets at fair value through statement of profit and loss. Equity instruments included within the financial assets at fair value through statement of profit and loss category are measured at fair value with all changes recognised in the statement of profit and loss.

(v) Financial liabilities

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through statement of profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	Financial assets at fair value through statement of profit and loss	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in statement of profit and loss.
Financial assets at fair value through statement of profit and loss	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. Effective interest rate is calculated based on the new gross carrying amount.
Amortized cost	Financial assets at fair value through other comprehensive income	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in other comprehensive income. No change in effective interest rate due to reclassification.
Financial assets at fair value through other comprehensive income	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in other comprehensive income is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
Financial assets at fair value through statement of profit and loss	Financial assets at fair value through other comprehensive income	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
Financial assets at fair value through other comprehensive income	Financial assets at fair value through statement of profit and loss	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in other Comprehensive income is reclassified to statement of profit and loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

The rights to receive the cash flows from the asset have expired or

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the year ended March 31, 2020

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

p. Share capital

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are recognised as a deduction from equity, net of any tax effects.

q. Recent accounting pronouncements (standards issued but not yet effective)

The amendments are proposed to be effective for reporting periods beginning on or after 1 April 2020.

(A) Issue of Ind AS 117

Insurance Contracts Ind AS 117 supersedes Ind AS 104 Insurance contracts. It establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. Under the Ind AS 117 model, insurance contract liabilities will be calculated as the present value of future insurance cash flows with a provision for risk. Application of this standard is not expected to have any impact on the Company's financial statements.

(B) Amendments to existing Standards

Ministry of Corporate Affairs has carried out amendments of the following accounting standards:

1. Ind AS 103 – Business Combination
2. Ind AS 1, Presentation of Financial Statements and Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
3. Ind AS 40 – Investment Property

The Company is in the process of evaluating the impact of the new amendments issued but not yet effective.

Embassy One Commercial Property Developments Private Limited**Notes to financial statements for the year ended March 31, 2020****Note 17: Financial instruments - risk management**

The Company's financial assets majorly comprise of cash & cash equivalents.

The Company is exposed to credit risk, liquidity risk and market risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions affecting business operations and the Company's activities.

(a) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or loans given leading to financial loss. Cash and bank deposits are placed with banks and financial institutions which are regulated. Management does not expect any of its counterparties to fail to meet its obligations.

(b) Market risk

Market risk is the risk which will affect the Company's income or the value of its holding of financial instruments on account of changes in market prices, foreign exchange rates, interest rates and equity prices

a. Currency risk

Majority of the transactions entered into by the company are denominated in INR. Accordingly the company does not have any currency risk.

b. Interest rate risk

Interest rate is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company does not have any long term debt obligations with floating interest rates. Accordingly the company does not have any interest rate risk.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility. The Company has a dedicated treasury management team on a group level which monitors on a daily basis the fund positions/requirements of the Company. The treasury management team plans the cash flows of the Company by planning and identifying future mismatches in funds availability and reports the planned & current liquidity position to the top management and Board of Directors of the Company.

Exposure to liquidity risk

The table below summarises the maturity profile of the Company's financial assets and liabilities at the end of the reporting period based on contractual undiscounted cash flows:

(Rs. in thousands)

Note 19: Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to optimize the shareholder value.

The Company manages the capital structure based on an adequate gearing which yields higher share holder value which is driven by the business requirements for capital expenditure and cash flow requirements for operations and plans of business expansion and consolidation. Accordingly based on the relative gearing and effective operating cash flows generated, the Company manages the capital either by raising required funds through debt or equity. The current capital and net debt position is as follows:

(Rs. in thousands)

Particulars	March 31, 2020	March 31, 2019
Borrowings	-	-
Net debt	-	-
Capital - equity attributable to the equity holders	(141.46)	28.25
Capital and net debt	(141.46)	28.25

Note 20:**Impact of COVID 19**

The Company has considered the possible effects that may result from the pandemic relating to COVID-19.

In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings in view of COVID – 19 as at the date of approval of these financial statements.

The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements

INDEPENDENT AUDITOR'S REPORT

To the Members of Embassy One Commercial Property Developments Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Embassy One Commercial Property Developments Private Limited ("the Company"), which comprise the balance sheet as at 31st March 2019, and the statement of Profit and Loss, statement of changes in equity and statement of cash flows for the period July 03, 2018 to March 31, 2019, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and its loss, changes in equity and its cash flows for the period July 03, 2018 to March 31, 2019.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. This report does not include a statement on matters specified in the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, since in our opinion and according to explanation given to us, the said order is not applicable to the Company.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
 - c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) The Company has been exempted from the requirement of its auditor reporting on whether the company has adequate internal financial controls in place and the operating effectiveness of such controls (clause (i) of section 143 (3)).
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

Note 1: Company overview

Embassy One Commercial Property Developments Private Limited ('the Company') was incorporated on July 03, 2018. The Company has been formed primarily for carrying on business of real estate development. The company identification number of the Company is U70109KA2018PTC114487. The Company is incorporated in India and the registered office is at Bengaluru, India.

Note 2: Significant accounting policies

a. Basis of preparation

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Financial statements for the year ended March 31, 2019 are the Company's first financials and have been prepared in Ind-AS financial statements. The Company has adopted all the applicable Ind-AS standards.

The financial statements have been prepared on a historical cost basis, except for certain financial assets which is measured at fair value. The financial statements are presented in INR and all values are rounded to the nearest thousand, except when otherwise stated.

b. Use of estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

c. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is treated as current when it is:

- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

d. Investment properties

Recognition and initial measurement

Investment properties are properties held to earn rentals or for capital appreciation, or both. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognized in statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful life)

Investment properties are subsequently measured at cost less accumulated depreciation and impairment losses. Depreciation on investment properties is provided on the straight-line method, computed on the basis of useful life prescribed in Schedule II to the Act.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

De-recognition

Investment properties are de-recognized either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in statement of profit and loss in the period of de-recognition.

e. Impairment of assets

Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount (ie, the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. Where the carrying amount of an asset or cash-generating unit's exceeds its recoverable amount, the asset is considered impaired and is written down to arrive at its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit and loss. The Company tests for impairment using the expected credit loss model for financial assets such as loans and advances to be settled in cash.

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime Expected Credit Loss. Life time Expected Credit Loss are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month Expected Credit Loss is a portion of the lifetime Expected Credit Loss which results from default events on a financial instrument that are possible within 12 months after the reporting date.

Impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss. This amount is reflected in a separate line in the statement of profit and loss as an impairment gain or loss. For financial assets measured at amortised cost, expected credit loss is presented as an allowance which reduces the net carrying amount of the financial asset.

f. Borrowing costs

Borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred, except where the cost is incurred during the construction of an asset that takes a substantial period to get ready for its intended use in which case it is capitalised. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

g. Revenue recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

Interest income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

Dividends

Dividends is recognised when the Company's right to receive the payment is established, which is generally when shareholders of the Investee Company approve the dividend.

h. Foreign currency

Functional currency

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded at their respective functional currency spot rates at the date transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss with the exception of exchange differences arising on monetary items that are designated as part of the hedge of the Company's net investment of foreign operations. These are recognised in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to statement of profit and loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with recognition of the gain or loss on the change in fair value of the item.

i. Income taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian income tax act, 1961.

Current income tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Current income tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

In respect of taxable temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

In respect of deductible temporary differences associated with investments in subsidiaries, associates and interest in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in the other comprehensive income or in the equity). Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes related to the same taxable entity and the same taxation authority.

j. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

k. Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

l. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cheques in hand and cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purpose of the statement of cash flows, cash and bank balance consist of cash and cash equivalents and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities.

m. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

n. Fair value measurement

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

o. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset except in the case of financial assets recorded at fair value through statement of profit and loss.

Financial liabilities are classified as financial liabilities at fair value through statement of profit and loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognised in other comprehensive income.

(iii) Financial assets at fair value through statement of profit and loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through statement of profit and loss.

(iv) Equity investments

All equity investments with the scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as financial assets at fair value through statement of profit and loss. Equity instruments included within the financial assets at fair value through statement of profit and loss category are measured at fair value with all changes recognised in the statement of profit and loss.

(v) Financial liabilities

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through statement of profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the effective interest rate amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included as finance costs in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortized cost	Financial assets at fair value through statement of profit and loss	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in statement of profit and loss.
Financial assets at fair value through statement of profit and loss	Amortized cost	Fair value at reclassification date becomes its new gross carrying amount. Effective interest rate is calculated based on the new gross carrying amount.
Amortized cost	Financial assets at fair value through other comprehensive income	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognized in other comprehensive income. No change in effective interest rate due to reclassification.
Financial assets at fair value through other comprehensive income	Amortized cost	Fair value at reclassification date becomes its new amortized cost carrying amount. However, cumulative gain or loss in other comprehensive income is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortized cost.
Financial assets at fair value through statement of profit and loss	Financial assets at fair value through other comprehensive income	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
Financial assets at fair value through other comprehensive income	Financial assets at fair value through statement of profit and loss	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in other Comprehensive income is reclassified to statement of profit and loss at the reclassification date.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derecognition of financial instrument

A financial asset is primarily derecognised when:

The rights to receive the cash flows from the asset have expired or

Embassy One Commercial Property Developments Private Limited

Notes to financial statements for the period ended March 31, 2019

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its right to receive the cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

p. Share capital

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are recognised as a deduction from equity, net of any tax effects.

q. Recent accounting pronouncements (standards issued but not yet effective)

Ind AS 116 *Leases* was notified in March 30, 2019 and it replaces Ind AS 17 *Leases*, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after April 1, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company intends to adopt these standards, if applicable, when they become effective. As the Company does not have any material leases, the adoption of this standard is not likely to have a material impact in its standalone Ind AS financial statements.

Weighted average number of equity shares for calculating basic and diluted earnings per share	7,425

Note 11: Segment information

The Company is primarily engaged in the business of real estate development, which as per Indian Accounting Standard – 108 on 'Operating Segments' is considered to be the only reportable business segment. The Company is operating in India, which is considered as a single geographical segment.

Note 12: Expenditure on corporate social responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended March 31, 2019.

Embassy One Commercial Property Developments Private Limited**Notes to financial statements for the period ended March 31, 2019****Note 13: Related party disclosure:****(a) Names of related parties where control exists irrespective of whether transactions have occurred or not:**

Ultimate holding company	J V Holding Private Limited
Holding company	Embassy Property Developments Pvt Ltd

(b) There are no transactions with related parties

Note 14: The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro, small and medium enterprises should mention in their correspondence with its customers the Entrepreneur Memorandum Number as allocated after filing of the Memorandum in accordance with the MSMED Act. Accordingly the disclosure in respect of the amounts payable to such enterprises as at March 31, 2019 has been made in the financial statements based on the information received and available with the Company. The Company does not have any dues to Micro, small and Medium enterprises as at March 31, 2019. Hence no disclosures are required for the same.

Note 15: Disclosure on financial assets and financial liabilities

(Rs. in thousands)

Particulars	Carrying value as at March 31, 2019
Financial assets measured at amortised cost:	
- Cash and cash equivalents	73.65
	73.65
Financial liabilities measured at amortised cost:	
- Other financial liabilities	45.40
	45.40

The management assessed that the carrying value of the cash and cash equivalents and other current financial liabilities approximate their fair values.

Embassy One Commercial Property Developments Private Limited**Notes to financial statements for the period ended March 31, 2019****Note 16: Financial instruments - risk management**

The Company's financial assets majorly comprise of cash & cash equivalents.

The Company is exposed to credit risk, liquidity risk and market risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions affecting business operations and the Company's activities.

(a) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or loans given leading to financial loss. Cash and bank deposits are placed with banks and financial institutions which are regulated. Management does not expect any of its counterparties to fail to meet its obligations.

(b) Market risk

Market risk is the risk which will affect the Company's income or the value of its holding of financial instruments on account of changes in market prices, foreign exchange rates, interest rates and equity prices

a. Currency risk

Majority of the transactions entered into by the company are denominated in INR. Accordingly the company does not have any currency risk.

b. Interest rate risk

Interest rate is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company does not have any long term debt obligations with floating interest rates. Accordingly the company does not have any interest rate risk.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility. The Company has a dedicated treasury management team on a group level which monitors on a daily basis the fund positions/requirements of the Company. The treasury management team plans the cash flows of the Company by planning and identifying future mismatches in funds availability and reports the planned & current liquidity position to the top management and Board of Directors of the Company.

Exposure to liquidity risk

The table below summarises the maturity profile of the Company's financial assets and liabilities at the end of the reporting period based on contractual undiscounted cash flows:

(Rs. in thousands)

March 31, 2019	Less than 1 year	1 to 5 years	More than 5 years	Total
Financial assets				
- Cash and cash equivalents	73.65	-	-	73.65
	73.65	-	-	73.65
Non-derivative financial liabilities				
- Other financial liabilities	45.40	-	-	45.40
	45.40	-	-	45.40

Note 17: Auditors' remuneration:

(Rs. in thousands)

Particulars	March 31, 2019
Statutory audit fees (exclusive of applicable taxes)	10.00

Embassy One Commercial Property Developments Private Limited**Notes to financial statements for the period ended March 31, 2019****Note 18: Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to optimize the shareholder value.

The Company manages the capital structure based on an adequate gearing which yields higher share holder value which is driven by the business requirements for capital expenditure and cash flow requirements for operations and plans of business expansion and consolidation. Accordingly based on the relative gearing and effective operating cash flows generated, the Company manages the capital either by raising required funds through debt or equity. The current capital and net debt position is as follows:

(Rs. in thousands)	
Particulars	March 31, 2019
Borrowings	-
Net debt	-
Capital - equity attributable to the equity holders	28.25
Capital and net debt	28.25

Note 19: The current year financial statements are the first financial statements of the Company. The financial statements have been prepared for the period from July 03, 2018 to March 31, 2019 and hence there are no comparatives.

Report On Review of Special Purpose Financial Statements

To,

Board of Directors

Embassy One Commercial Property Developments Private Limited
No.150, Embassy Point, 1st Floor, Infantry Road, Bengaluru – 560 001

We have reviewed the accompanying Special Purpose financial statements of Embassy One Commercial Property Developments Private Limited ("the Company") which comprise the Special purpose Balance Sheet as at December 31, 2021, the Special purpose Statement of Profit and Loss (including Other Comprehensive Income) for nine months period ended on that date, the Special purpose Statement of Changes in Equity and the Special purpose Statement of Cash Flows for the nine months period ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "Special purpose financial statements"). The special purpose financial statements have been prepared by the management in accordance with Note 2 on the basis of the preparation of the special purpose financial statements.

The Company's Board of Directors is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity in accordance with the basis as described in Note 2 of the special purpose financial statements.

Our responsibility is to express a conclusion on this special purpose financial statements based on our review.

We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.

A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying special purpose financial statements is not prepared, in all material respects, in accordance with Note 2 to the special purpose financial statements.

These special purpose financial statements have been prepared by the management of Embassy One Commercial Property Developments Private Limited, and this report thereon issued, solely for the purpose of the management to be included in the special purpose consolidated financial statement of Nam Estates Private Limited to be presented in the private placement document for the proposed fund raise by Indiabulls Real Estate Limited. Accordingly, this report should not be used, referred to or distributed for any other purpose without our prior written consent.

Notes to special purpose interim financial statements for the period ended December 31, 2021

Note 1: Basis of preparation

These special purpose interim financial information of the Company comprise of the special purpose interim balance sheet as at December 31, 2021, the special purpose interim statement of profit and loss (including other comprehensive income) and the special purpose interim statement of changes in equity for the nine months period then ended and other explanatory information (together hereinafter referred to as the "Special Purpose Interim Financial Information") and have been prepared by the Company's management, in connection with the proposed equity offering of the Company's proposed Ultimate Holding Company (Indiabulls Real Estate Limited) through Qualified Institutional Placement to be submitted to Securities and Exchange Board of India (SEBI), the National Stock Exchange of India Limited and the BSE Limited (together, the "Stock Exchanges") and Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi ('ROC') as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ('SEBI ICDR Regulations') and Sections 42 and 62 of the Act, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, as amended. Subject to relevant government approvals of the composite scheme of amalgamation between NAM Estates Private Limited and Embassy One Commercial Property Developments Private Limited with Indiabulls Real Estate Limited, the Company will become a wholly owned subsidiary of Indiabulls Real Estate Limited.

These Special Purpose Interim Financial Information of the Company have been prepared as per the recognition and measurement principles of Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with relevant rules issued thereunder and other accounting principles generally accepted in India. Further, comparative figures have not been included in these Special Purpose Interim Financial Information as per the requirements of Ind AS 34, since these are prepared for the limited purposes as specified above. The accounting policies followed in preparation of the Special Purpose Interim Financial Information are consistent with those followed in the most recent annual financial statements of the Company, i.e., for the year ended March 31, 2021.

Note 2: Contingent liabilities, commitments and contingent assets

There are no contingent liabilities and there are no contracts remaining to be executed on capital account and not provided for as at the balance sheet date. Further, there are no commitments as on December 31, 2021 (March 31, 2021 - Nil)

Note 3: Disclosure relating to Micro, small and medium enterprises

The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated August 26, 2008 which recommends that the Micro, small and medium enterprises should mention in their correspondence with its customers the Entrepreneur Memorandum Number as allocated after filing of the Memorandum in accordance with the MSMED Act. Accordingly the disclosure in respect of the amounts payable to such enterprises as at December 31, 2021 has been made in the financial statements based on the information received and available with the Company.

Independent Auditor's Report

To the Members of Embassy One Developers Private Limited.

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of Embassy One Developers Private Limited ('the Company'), which comprise the Balance sheet as at 31 March 2021, the Statement of profit and loss (including other comprehensive income), the Statement of cash flow and the Statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2021, and its loss (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report thereon

4. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

The Board report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

5. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
6. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
7. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

11. The financial statements of the Company for the year ended 31 March 2020 were audited by the predecessor auditor, NSVM & Associates, who have expressed an unmodified opinion on those financial statements vide their audit report dated 03 August 2020.

Report on Other Legal and Regulatory Requirements

12. Based on our audit we report that the provisions of section 197 read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under section 2(71) of the Act. Accordingly, reporting under section 197(16) is not applicable.
13. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order.
14. Further to our comments in Annexure I, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid financial statements comply with Ind AS specified under section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of section 164(2) of the Act;
 - f) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year

ended on that date and our report dated 30 July 2021 as per Annexure II expressed unmodified opinion; and

- g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company, as detailed in note 32 to the financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2021,
 - ii. the Company, as detailed in note 24 to the financial statements, has made provision as at 31 March 2021, as required under the applicable law or Ind AS, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2021; and
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

Annexure I to the Independent Auditor's Report of even date to the members of Embassy One Developers, on the financial statements for the year ended 31 March 2021

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) The fixed assets have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the fixed assets is reasonable having regard to the size of the Company and the nature of its assets.
 - (c) The Company does not hold any immovable property (in the nature of 'property, plant & equipment'). Accordingly, the provisions of clause 3(i) (c) of the Order are not applicable.
- (ii) The Company is engaged in the business of real estate development and holds inventory in the form of property under development. Accordingly, the provisions of clause 3(ii) of the Order are not applicable.
- (iii) The Company has granted unsecured loans to companies covered in the register maintained under Section 189 of the Act; and with respect to the same:
 - (a) in our opinion the terms and conditions of grant of such loans are not, prima facie, prejudicial to the Company's interest.
 - (b) the schedule of repayment of principal has been stipulated wherein the principal amounts are repayable on demand and since the repayment of such loans has not been demanded, in our opinion, repayment of the principal amount is regular;
 - (c) there is no overdue amount in respect of loans granted to such companies.
- (iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- (vii)(a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and services tax, duty of customs, cess and other material statutory dues, as applicable, have not been regularly deposited to the appropriate authorities and there have been significant delays in a large number of cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they become payable.
 - (b) The dues outstanding in respect of income-tax, goods and services tax, duty of customs, and value added tax on account of any dispute, are as follows:

Annexure I to the Independent Auditor's Report of even date to the members of Embassy One Developers, on the financial statements for the year ended 31 March 2021

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in million)	Amount paid under Protest (₹ in million)	Period to which the amount relates	Forum where dispute is pending
The Income Tax Act, 1961	Income Tax	10.49	Nil	AY 2016-17	Commissioner of Income Tax (Appeals), Bengaluru

- (viii) The Company has not defaulted in repayment of loans or borrowings to any financial institution or any dues to debenture-holders during the year. The Company did not have any outstanding borrowings from a bank or government during the year.
- (ix) In our opinion, the Company has applied moneys raised by way of the term loans for the purposes for which these were raised. The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments) during the year.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) The provisions of Section 197 of the Act read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under Section 2(71) of the Act. Accordingly, provisions of clause 3(xi) of the Order are not applicable.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion, all transactions with the related parties are in compliance with Section 188 of the Act, where applicable, and the requisite details have been disclosed in the financial statements, as required by the applicable Ind AS. Further, in our opinion, the Company is not required to constitute audit committee under Section 177 of the Act.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure II to the Independent Auditor's Report of even date to the members of Embassy One Developers Private Limited on the financial statements for the year ended 31 March 2021

Independent Auditor's report on the internal financial controls with reference to the financial statements under clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the financial statements of Embassy One Developers Private Limited ('the Company') as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure II to the Independent Auditor's Report of even date to the members of Embassy One Developers Private Limited on the financial statements for the year ended 31 March 2021

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India .

Embassy One Developers Private Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021

(All amounts are in Indian Rupees (₹) millions, unless otherwise stated)

1 Company background

Embassy One Developers Private Limited (the 'Company') was incorporated on 10 August 2007 under the Companies Act, 1956 having CIN number U45202KA2007PTC084541. The Company was incorporated in Bengaluru, India as ETA Star Citi Centre Bangalore Limited which was changed to City View Bangalore Properties Private Limited. The Company's name was further changed to Embassy One Developers Private Limited on 4 June 2015. The objective of the Company is to develop office space, retail, hotel and residential construction and related interiors in Bangalore. The registered office of the Company is at Bangalore, Karnataka. The Company is engaged in the construction and development of a residential apartments project i.e., the Four Seasons residences.

2 Basis of preparation of financial statements

2.1 Statement of compliance

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standard (Ind AS) as prescribed under Section 133 of the Companies Act, 2013 read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements were authorised for issue by the Company's Board of Directors on 30 July 2021.

Further, owing to the transfer of the hotel, office and retail operations of the Company in FY 2018-19, which comprised the largest segments of the Company's business, the Company has evaluated its ability to sustain its operations in the foreseeable future. Considering the net positive cash flow projections from the operations (sale of residential apartment units), continued committed financial support from the holding company and access to lines of credit, Management believes that the company will not have any challenge in meeting its financial obligations for the next 12 Months from the date of the financial statements.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (₹), which is also the Company's functional currency. All the amounts have been presented in millions, unless otherwise indicated.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values.

2.4 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.5 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

a) Judgements

Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 3.01 : Property, plant and equipment

2.5 Use of estimates and judgements (Cont'd)

b) Assumptions and estimations uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following note:

- Note 3.07 - recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note 31 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 3.01- estimated useful life of property plant and equipment and
- Note 3.05 - impairment of assets

2.6 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

Note 38: Financial Instruments

3 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.01 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

ii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

The estimated useful lives of items of property, plant and equipment are as follows:

Assets	Management estimate of useful life (years)	Useful life as per Schedule II of Companies Act, 2013
Office Equipments	5	5

Depreciation method, useful lives and residual values are reviewed at each financial period/year-end and adjusted if appropriate.

3.02 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

(i) Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost
- Fair value through other comprehensive income (FVOCI) - debt investment;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- Fair value through profit & loss- (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in investment's fair value in OCI (designated as FVOCI - equity investment). The election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risk that affects the performance of the business model (and the financial asset held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of the financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

3.02 Financial instruments (Cont'd)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate futures;
- prepayments and extension features; and
- terms that limits the Company's claim to cash flows from specified assets (e.g. non-recourse feature)

A prepayment feature is consistent with the solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss.

Financial assets at amortised cost :

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised statement of profit and loss.

Debt investments at FVOCI:

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.

Equity investments at FVOCI:

These assets are subsequently measured at fair value. Dividends are recognised as income profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.

Financial liabilities : Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

iii. Derecognition

Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial Liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the extinguished liability and the new financial liability with modified terms is recognised in statement of profit and loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.03 Inventories

Inventories are carried at the lower of cost and net realisable value. Cost includes all applicable costs incurred in bringing the properties to their present location and condition. The method of determination of cost for various categories of inventories is as follows:

Land, including transferable development rights, are valued at cost of acquisition. Cost includes acquisition cost and related development charges. Finished stocks of constructed properties are valued at their cost of construction / acquisition.

The net realisable value of work in progress is determined with reference to the selling prices of related constructed property. Raw materials and other supplies held for use in construction of property are not written below cost except in cases where material prices have declined and it is estimated that the cost of constructed property will exceed their net realisable value.

3.04 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise of cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purpose of the statement of cash flows, cash and bank balance consist of cash and cash equivalents and short-term deposits, as defined above, net of outstanding bank overdrafts and cash credit facilities.

3.05 Impairment of assets

i. Impairment of financial assets

The Company recognises loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through statement of profit and loss. The Company tests for impairment using the expected credit loss model for financial assets such as loans and advances to be settled in cash.;

Loss allowance for loans with no significant financing component is measured at an amount equal to lifetime Expected Credit Loss. Life time Expected Credit Loss are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month Expected Credit Loss is a portion of the lifetime Expected Credit Loss which results from default events on a financial instrument that are possible within 12 months after the reporting date.

Impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss. This amount is reflected in a separate line in the statement of profit and loss as an impairment gain or loss. For financial assets measured at amortised cost, expected credit loss is presented as an allowance which reduces the net carrying amount of the financial asset.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

ii. Impairment of non-financial assets

The Company assesses long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the asset or group of assets. The recoverable amount of an asset or cash generating unit is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of long-lived assets is calculated using projected future cash flows. FVLCD of a cash generating unit is computed using turnover and earnings multiples. If the recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. If at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the impairment losses previously recognized are reversed such that the asset is recognized at its recoverable amount.

The Company's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

3.06 Provisions

A provision is recognised when the enterprise has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefit will be required to settle the obligation, and a reliable estimate can be made of the amount of obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Onerous contracts

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

3.07 Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at exchange rate at the date of transaction. Exchange differences are recognised in profit and loss account, except exchange difference arising from transaction of the following items which are recognised in OCI.

- equity investment at fair value through OCI (FVOCI)
- a financial liability designated as a hedge of the net investment in foreign operation to the extent that the hedge is effective and
- qualifying cash flow hedges to the extent that the hedges are effective

3.08 Revenue recognition

Revenue is recognised based on Ind AS 115, which states that revenue needs to be recognised when an entity transfers the control of goods and services to customers at an amount that the entity expects to be entitled. Ind AS 115 is based on a five-step model:

- 1) Identify the contract with the customer
- 2) Identify the performance obligations
- 3) Determine the transaction price
- 4) Allocate the transaction price
- 5) Recognize revenue when (or as) performance obligations are satisfied

Revenue is recognized upon transfer of control of residential units to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Company expects to receive in exchange for those residential units. The Company shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of residential units, the Company satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the residential units and on completion of critical obligation as per the customer contract.

To estimate the transaction price in a contract, the Company adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Company when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred residential unit.

3.09 Interest Income

Interest income is recognised on a time proportion basis as and when accrued. Interest income on financial instruments are recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the asset.

3.10 Borrowing costs

Borrowing costs are recognised in the Statement of Profit or Loss in the period in which they are incurred, except where the cost is incurred during the construction of an asset that takes a substantial period to get ready for its intended use in which case it is capitalised. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

3.11 Taxes

Income tax comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is not recognised in respect of carried forward tax losses and tax credits because it is not probable that future taxable profit will be available against which the Company can use the benefits thereof.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.12 Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all potentially dilutive securities.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3.13 Employee benefits

a) Defined contribution plan

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

b) Defined benefit plans

The Company's gratuity plan is a defined benefit plan. The present value of gratuity obligation under such defined benefit plans is determined based on actuarial valuations carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive income in the period in which they occur.

3.13 Employee benefits (Cont'd)

Gratuity scheme is administered through a trust with the Life Insurance Corporation of India and the provision for the same is determined on the basis of actuarial valuation carried out by an independent actuary. Provision is made for the shortfall, if any, between the amounts required to be contributed to meet the accrued liability for gratuity as determined by actuarial valuation and the available corpus of the funds.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

c) Short-term benefit plans

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized and measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

3.14 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

3.15 Subsequent events

These financial statements are adjusted to reflect events that occur after the reporting date but before the financial statements are issued.

3.16 Statement of Cash flows

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

3.17 Operating segments

In accordance with the requirements of Ind AS 108 - "Segment Reporting", the Company is primarily engaged in the business of business of real estate development and has no other reportable segments. The Board of Directors of the Company allocate the resources and assess the performance of the Company, thus are the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of the business as a single segment, hence no separate segment needs to be disclosed. Thus the segment revenue, segment result, total carrying amount of segment assets, total carrying amount of segment liabilities, total cost incurred to acquire segments assets, the total amount of charge for depreciation during the year are all as reflected in the financial statements. As the Company operates in India alone, no separate geographical segment is disclosed.

3.18 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards.

On 24 March, 2021 the Ministry of Corporate Affairs through a notification, amended Schedule III of the Companies Act, 2013. The Amendments revise Division I, II and III of Schedule III and are applicable from 1 April 2021. Key Amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are :

Balance sheet items

- Lease Liabilities will be separately disclosed under the head 'financial liabilities' duly distinguished as current or non
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format as for disclosure of shareholding of the promoters.
- Specified format for ageing schedule for trade receivables, trade payables, Capital work in progress, and intangible assets under development.
- If the Company has not used the funds for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosures under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds on immovable property not held in the name of Company, loans and advances to promoters, directors, Key managerial Personnel (KMP) and related parties, details of

Statements of profit and loss

- Additional disclosures relating to Corporate Social responsibility (CSR), Undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of standalone financial statements.

Note: The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

Name of the shareholder	As at 31 March 2021		As at 31 March 2020	
	% of holding	No of shares	% of holding	No of shares
Class A Equity shares:				
WWD Pearl Limited, Mauritius	55.00%	73,000,000	55.00%	73,000,000
Embassy Inn Private Limited	45.00%	59,727,280	45.00%	59,727,280

(d) Rights, entitlements and obligations attached to equity shares:

Equity shares

(i) Class A share represents ordinary equity share of face value of ₹ 10 each in the Company.

- Each Class A equity shareholder is eligible for one vote per share held. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.
- Each Class C equity shareholder is not eligible for voting rights
- All distributions made by the Company to its security holders will be made pro-rata in accordance with the security holders' percentage interest in the Company on fully dilutive basis and no party shall be entitled to seniority over the other in such payments.
- The shares held by Embassy Inn Private Limited to the extent of Nil (31 March 2020: 10.37%) of the total capital is pledged to Oriental Bank of Commerce and Indian Overseas Bank as a security for loans availed by the Company. During FY 2018-19, the Company has transferred the borrowing as part of business operations on a Going concern basis along with other assets and liabilities

(ii) The equity shareholders WWD Pearl Limited and Embassy Inn Private Limited known as "promoters" along with the holders of Compulsorily Convertible Debentures ("CCDs") known as "investors" together called as "security holders" have entered into an investment and shareholders agreement (ISHA) dated 6 October 2014:

The salient rights, preferences and restrictions of the equity shareholders as per ISHA include:

- The equity shares and CCDs held by the stakeholders jointly known as "securities" are not transferable for one year from the date of the ISHA agreement dated 6 October 2014. Subsequent to the lock-in date, the securities are transferable with the right of first offer to the other stakeholder through execution of deed of adherence.
- Promoters and investors have the power to appoint two directors each to the Board of Directors of the Company. The quorum for any meeting of the Board shall be the presence, in person, of such number of directors required under the Articles of Association, subject to the presence of at least one director each as nominated by the promoters and investors.
- Promoters have right to nominate the chairman of the meetings, however the chairman shall not have a casting vote.

(iii) As per the ISHA agreement, the Company shall convert the series A, B and D CCDs to class A shares. On conversion, the Company will issue class A shares by increasing the authorised capital. The Company shall convert the series C, E CCDs and Series F CCDs to class C shares. On conversion, the Company will issue class C shares by increasing the authorised capital. Class C share shall not carry any voting rights.

(e) Buy back of shares and shares allotted by way of bonus shares

There have been no buy back of shares, issue of shares by way of bonus shares or issue of shares for consideration other than cash for the period of five years immediately preceding the balance sheet date.

Notes:

- (i) Balance with government authorities (refer note 13) consists of ₹ 57.35 million of CENVAT credit receivable relating to the period October 2007 to September 2010. The same was disallowed by the Service tax authorities and has issued show cause notice towards the same. The Company has disputed the same via replies to the show cause notice and appealed against the order with the Customs, Excise and Service Tax Appellate Tribunal (CESTAT), Bengaluru. The CESTAT announced via its order dated 25 February 2020 that the appeal of the Company was partially favorable and partially remanded back to the Service tax authorities for arithmetical accuracy. As on 31 March 2021, no further orders or intimations have been received by the Company.
- (ii) The Company has received an Income tax demand of INR 10.49 millions for AY 2016-17 due to disallowance of business loss on grounds of non commencement of business. The Company has filed an appeal against the same and is pending for hearing with CIT Appeals, Bengaluru.
- (iii) The income tax assessment for the financial year 2008-09 and 2009-10 has been completed and a draft assessment order has been received, which contains a transfer pricing adjustment of INR 212.63 millions and INR 6.89 millions respectively, being disallowance of interest on CCDs capitalised in the books. However, there is no tax demand as per the order. The Company has filed an appeal u/s 246A(1)(a) of the Act as on 14 May 2013. As per the appeal the company has contested the disallowance made in respect of the interest capitalisation on Compulsory convertible debentures. The Company has received a favourable order and no further demand is expected.
- (iv) As per RERA regulations, if a promoter is unable to complete or give possession of an apartment, plot or building in accordance with the terms of agreement for sale, or as the case may be, duly completed by the date specified therein, he shall be liable to interest on demand of the allottee. Further this point has been absorbed in the construction agreement stating that a compensation would be payable to the allottee till the date of delivery in case of any delay caused. Since the management is of the opinion that the possibility of claim from the allottees are remote, the same has not been disclosed as a contingent liability.
- (v) The Company has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 March 2021, the amounts due to micro and small enterprises is INR 152.16 million out of which INR 152.16 million is outstanding for more than 45 days from the appointed day (as defined in the 2(b) of the MSME Act 2006). As per the MSME Act 2006, Section 16, where any buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors have not raised any interest demand yet and the company has not paid interest during the year, and hence the interest accrued under section 16 of the MSME Act is not provided for.

33 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the loss attributable to equity holders (after adjusting for saving in interest or dividend expenses, net of taxes) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the loss and weighted average number of shares data used in the computation:

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Loss after tax	(391.62)	(114.19)
Weighted average number of equity shares for calculating basic and diluted earnings per share	132.73	132.73
Basic earnings per share	(2.95)	(0.86)
Dilutive earnings per share	(2.95)	(0.86)

For Dilutive Earnings per share, the effect of conversion of the compulsory convertible debentures into equity shares are anti-dilutive in nature, hence they have not been considered for calculating the Dilutive earnings per share.

34 Segment information

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "residential construction and related interiors"). Accordingly, separate disclosures per the requirements of Ind AS 108, Operating Segments, are not considering necessary. The Company operates only in India. Hence no disclosure for geographical segment is considered necessary.

35 Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate:

Particulars	Year ended 31 March 2021	Year ended 31 March 2020
Profit / (Loss) before tax	(391.62)	(114.19)
Tax at the Indian tax rate of 26.00% (31 March 2020: 26%)	(101.82)	(29.69)
Effect of:		
Differential tax on account of temporary differences not recognized	2.32	17.22
Differential tax on account of permanent differences	0.65	0.01
Current year loss on which no deferred Tax assets is recognized	98.85	12.46
Income tax expense reported in the statement of profit and loss	-	-

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Company can use the benefits there from:

Particulars	As at 31 March 2021	As at 31 March 2020
Carry forward business loss	1,336.27	1,070.50
	1,336.27	1,070.50

Expiration of losses carried forward

Particulars	As at 31 March 2021	As at 31 March 2020
31 March 2020	-	114.43
31 March 2021	257.70	257.70
31 March 2022	98.65	98.65
31 March 2023	128.70	128.70
31 March 2024	184.58	184.58
31 March 2026	286.44	286.44
31 March 2029	380.20	-

Unabsorbed depreciation loss amounting to ₹ 3.64 millions can be carried forward indefinitely.

36 Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets gratuity on departure computed at 15 days of salary (last drawn salary) for each completed year of service. The defined benefit gratuity plan is not funded.

The following tables summarise the components of net benefit expense recognised in the statement of profit and loss and amounts recognised in the balance sheet for the gratuity plan.

Changes in the present value of the defined benefit obligation are as follows:-

Particulars	As at 31 March 2021	As at 31 March 2020
Opening defined benefit obligation	0.25	0.40
Interest cost	0.02	0.03
Current service cost	0.18	0.06
Acquisition adjustment	-	(0.40)
Actuarial (gains) / losses on obligation	(0.20)	0.16
Closing defined benefit obligation	0.25	0.25

Balance sheet

Details of provision for gratuity	As at 31 March 2021	As at 31 March 2020
Defined benefit obligation	0.25	0.25
Fair value of plan assets	-	-
Liability/(asset) recognised in the balance sheet	0.25	0.25

Statement of profit and loss

Net employee benefit expense for the year (recognised in employee cost)	Year ended 31 March 2021	Year ended 31 March 2020
Current service cost	0.18	0.06
Past service cost	-	-
Interest cost on defined benefit obligation	0.02	0.03
Expected interest income on plan assets	-	-
Net benefit expense	0.20	0.09
Actual return on plan assets	-	-

Other comprehensive income

Remeasurement gains and losses (recognised in OCI)	Year ended 31 March 2021	Year ended 31 March 2020
Actuarial gain/(loss) on arising from change in demographic assumption	(0.02)	0.15
Actuarial gain/(loss) on arising from change in financial assumption	(0.14)	0.03
Actuarial gain/(loss) on arising from experience adjustment	(0.04)	(0.01)
Actuarial (gain) /loss for the year on asset	-	-
Net cumulative unrecognized actuarial gain/(loss) closing	(0.20)	0.16

Sensitivity analysis of the defined benefit obligation
Impact of the change in discount rate

Present value of obligation at the end of the period	0.25
Impact due to increase of 0.50 %	(0.01)
Impact due to decrease of 0.50 %	0.01

Impact of the change in salary increase

Present value of obligation at the end of the period	0.25
Impact due to increase of 0.50 %	0.01
Impact due to decrease of 0.50 %	(0.01)

Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:-

Particulars	As at 31 March 2021	As at 31 March 2020
Discount rate	6.30%	6.85%
Salary growth rate	5.00%	8.00%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

38 Financial instruments - Fair values and risk measurement
A. Accounting classification and fair value

The carrying value and fair value of financial instruments by categories are as below:

Particulars	As at 31 March 2021					
	Note	Amortised cost	Financial assets/liabilities at FVTPL	Financial assets/liabilities at FVOCI	Carrying value	Fair value
Financial assets measured at amortised cost:						
Other non-current financial assets	5	116.56	-	-	116.56	116.56
Loans	9	406.01	-	-	406.01	406.01
Cash and cash equivalents	10	6.35	-	-	6.35	6.35
Bank balances other than cash and cash equivalents	11	60.48	-	-	60.48	60.48
Other current financial assets	12	389.19	-	-	389.19	389.19
Total		978.59	-	-	978.59	978.59
Financial liabilities measured at amortised cost:						
Borrowings	17 & 20	4,591.25	-	-	4,591.25	4,591.25
Current maturities of long term borrowings	22	1,878.34	-	-	1,878.34	1,878.34
Interest accrued but not due						
- on term loans	22	31.69	-	-	31.69	31.69
- on inter corporate deposits	22	9.19	-	-	9.19	9.19
Retention dues	18 & 22	218.48	-	-	218.48	218.48
Trade payables	21	698.33	-	-	698.33	698.33
Other financial liabilities	22	15.10	-	-	15.10	15.10
Total		7,442.38	-	-	7,442.38	7,442.38
Particulars	As at 31 March 2020					
	Note	Amortised cost	Financial assets/liabilities at FVTPL	Financial assets/liabilities at FVOCI	Carrying value	Fair value
Financial assets measured at amortised cost:						
Other non-current financial assets	5	258.75	-	-	258.75	258.75
Loans	9	1,286.87	-	-	1,286.87	1,286.87
Cash and cash equivalents	10	8.35	-	-	8.35	8.35
Other current financial assets	12	190.79	-	-	190.79	190.79
Total		1,744.76	-	-	1,744.76	1,744.76
Financial liabilities measured at amortised cost:						
Borrowings	17 & 20	4,753.39	-	-	4,753.39	4,753.39
Current maturities of long term borrowings	22	1,605.67	-	-	1,605.67	1,605.67
Interest accrued but not due						
- on term loans	22	22.27	-	-	22.27	22.27
- on inter corporate deposits	22	-	-	-	-	-
Retention dues	18 & 22	255.34	-	-	255.34	255.34
Trade payables	21	856.05	-	-	856.05	856.05
Other financial liabilities	22	14.39	-	-	14.39	14.39
Total		7,507.11	-	-	7,507.11	7,507.11

The management has assessed that fair values of borrowings, Interest accrues but not due, retention dues, loans, trade receivables cash and cash equivalents, bank balances, borrowings, trade payables, and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

(This space has been intentionally left blank)

38 Financial instruments - Fair values and risk measurement (Cont'd)**B. Financial risk management**

The Company's financial assets majorly comprise of cash and cash equivalents, bank balances other than cash and cash equivalents and other financial assets. The Company's financial liabilities majorly comprises of debentures, other financial liabilities and borrowings. The Company is exposed to credit risk, liquidity risk and interest rate risk arising out of operations and the use of financial instruments. The Board of Directors have overall responsibility for establishment and review of the Company's risk management framework.

(i) Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company's management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

(ii) Credit risk

Credit risk is the risk that the counterparty will not meet its obligation under a financial instrument or loans given leading to financial loss. The Company's exposure to credit risk arises from its operating and financing activities. Cash and bank Balances are placed with banks and financial institutions which are regulated. In addition to this, the management does not expect any of its counterparty to fail to meet its obligations.

Also the cash and cash equivalents are and the bank balances are mainly held with nationalised banks which have a very low risk of default.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company's objective is to maintain a balance between continuity of funding and flexibility.

The Company monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out by the Management of the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Exposure to liquidity risk

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities. The amounts are gross and undiscounted contractual cash flow.

As at 31 March 2021	Carrying amount	Total	Less than 1 year	1-5 years	More than 5 years
Non-derivative financial liabilities					
Borrowings (including current maturities)	6,469.59	6,469.59	2,186.68	4,282.91	-
Interest accrued but not due		-			
- on term loans	31.69	31.69	31.69	-	-
- on inter corporate deposits	9.19	9.19	9.19	-	-
Retention dues	218.48	218.48	156.50	61.98	-
Trade payables	698.33	698.33	698.33	-	-
Other financial liabilities	15.10	15.10	15.10	-	-
Total	7,442.38	7,442.38	3,097.49	4,344.89	-

As at 31 March 2020	Carrying amount	Total	Less than 1 year	1-2 years	More than 5 years
Non-derivative financial liabilities					
Borrowings (including current maturities)	6,359.06	6,359.06	1,630.00	4,729.06	-
Interest accrued but not due

Other financial liabilities	14.39	14.39	14.39	-	-
Total	7,507.11	7,507.11	2,713.19	4,793.92	-

Embassy One Developers Private Limited
Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021 (Cont'd)

(All amounts are in Indian Rupees (₹) millions, unless otherwise stated)

(iv) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(v) Currency risk

(a) As at 31 March 2021, there were no outstanding forward contracts.

(b) As at 31 March 2021, there were no hedged foreign currency exposure.

(c) Exposure to foreign currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management is as follows.

Particulars	As at 31 March 2021	As at 31 March 2020
Financial assets		
Advance to suppliers		
AED	0.32	0.32
EUR	20.30	23.90
GBP	0.20	0.20
USD	127.71	150.51
Total financial assets	148.53	174.93
Financial liabilities		
Trade payables		
GBP	2.24	-
USD	10.10	3.83
Retention Dues		
USD	-	14.78
Total financial liabilities	12.34	18.61
Net exposure in respect of recognised assets and liabilities	136.19	156.32

Sensitivity analysis

A reasonably possible strengthening (weakening) of the respective currencies against all other currencies at 31 March would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

	Profit or Loss		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
31 March 2021	1.36	(1.36)	1.01	(1.01)
31 March 2020	1.56	(1.56)	1.16	(1.16)

Interest rate risk

Interest rate is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate of borrowings. The Company does not enter into any interest rate swaps.

Exposure to interest rate risk:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	31 March 2021	31 March 2020
Fixed-rate instruments:		
Financial assets	516.62	1,510.21
Financial liabilities	308.34	-
	824.96	1,510.21
Variable-rate instruments:		
Financial assets	-	-
Financial liabilities	6,161.25	6,359.06
	6,161.25	6,359.06

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Profit or loss		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
31-Mar-21				
Variable rate borrowings	(61.61)	61.61	(45.59)	45.59
31-Mar-20				
Variable rate borrowings	(63.59)	63.59	(47.06)	47.06

Embassy One Developers Private Limited**Summary of significant accounting policies and other explanatory information for the year ended 31 March 2021 (Cont'd)**

(All amounts are in Indian Rupees (₹) millions, unless otherwise stated)

39 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, compulsorily convertible debentures, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital. The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2021 and 31 March 2020 was as follows:

Particulars	As at 31 March 2021	As at 31 March 2020
Total liabilities	8,917.21	8,961.83
Less: Cash and cash equivalents	6.35	8.35
Adjusted net debt	8,910.86	8,953.49
Total equity	1,917.88	2,309.30
Adjusted equity	1,917.88	2,309.30
Adjusted net debt to equity ratio	4.65	3.88

40 Expenditure on corporate social responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2021.

41 Impact of COVID 19

The Company has considered the possible effects that may result from the pandemic relating to COVID-19. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings in view of COVID – 19 as at the date of approval of these financial statements. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

42 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening Balance as at 31 March 2020	Cash flows Proceeds Repayments	Interest expenses	Non cash movement (Fair Value Changes)	Closing balance as at 31 March 2021
Borrowings	6,359.06	308.34	(206.36)	8.55	6,469.59
Interest on borrowing	22.27	-	(852.45)	405.50	40.88

43 Previous year's figures have been regrouped / reclassified/ rounded off wherever necessary to conform to the current year's presentation.

44 Additional information as required under paragraph 5 of Part II of the Schedule III to the Act, to the extent either "nil" or "not applicable" has not been

45 The financial statements of the Company for the year ended 31 March 2020 have been audited by firm other than Walker Chandio & Co LLP.

INDEPENDENT AUDITORS' REPORT

To the Members of **Embassy One Developers Private Limited**

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Embassy One Developers Private Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss, Statement of Changes in Equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other matter

The financial statements of the Company for the year ended March 31, 2019, included in these Ind AS financial statements, have been audited by the M/s BSR & Associates LLP who expressed an unmodified opinion on those statements on September 03, 2019.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor’s Report) Order, 2016 (“the Order”), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the “**Annexure A**” a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e. On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure B**”.
 - g. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 32 to the financial statements.
 - ii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
3. With respect to the matter to be included in the Auditor’s Report under Section 197(16):
- In our opinion and according to the information and explanation given to us, the Company is a private limited company and accordingly provision of section 197 of the Act is not applicable to the Company.

Annexure A to the Independent Auditors' Report

The Annexure A referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report to the Members of **Embassy One Developers Private Limited** ('the Company') for the year ended 31 March 2020, we report that:

- (i)
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
 - (b) The Company has a regular program of verification to cover all the items of property, plant & equipment in a phased manner over three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its fixed assets. Pursuant to the program, property, plant & equipment were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us, the company does not have any immovable property held as property, plant & equipment or investment property as on 31st March, 2020 and hence clause 3(i)(c) of the Order is not applicable.
- (ii) The Company is engaged in the business of real estate development and related services and holds inventories in the form of land, properties under development and constructed properties. The management has conducted physical verification of inventory at reasonable intervals and no material discrepancies were noticed during such physical verification.
- (iii) The Company has granted loans to a company covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act').
 - (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the terms and conditions of the inter corporate deposit (loan) granted by the Company to the company covered in the register maintained under section 189 of the Companies Act, 2013, the loan given is not prejudicial to the interest of the Company, as disclosed below.
 - (b) In the case of the loans granted to the company listed in the register under Sec 189 of the Act, the stipulation as to repayment of principle as specified below.
 - (c) The principal is repayable on demand and hence, there is no overdue as on date in the case of the loans granted to the company listed in the register under Sec 189 of the Act.

Name of the company	Amount of Inter corporate deposit (loan) given during the year (Rs.)	Amount as at 31 March 2019 (Rs.)	Amount as at 31 March 2020 (Rs.)	Terms
Embassy Inn Private limited	Nil	2,30,49,33,970/-	1,28,68,72,956/-	Inter Corporate Deposit (loan) repayable on demand at an interest rate of 12%p.a.

- (iv) The Company has not given any loans/investments/guarantees to which the provisions of Sections 185 and 186 of the Companies Act, 2013, apply. Accordingly, the provisions of clause 3(iv) of the Order are not applicable to the Company.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident fund, Income tax, Sales tax, Service tax, duty of customs, duty of excise, Value added tax , cess, Employee State Insurance, & Goods & Service Tax and other statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.
- (b) According to the information and explanations given to us, there are no dues of Income Tax, Goods & Service Tax and other statutory dues which have not been deposited by the Company with the appropriate authorities on account of any dispute, except for the following:

Name of the Statute	Nature of the dues	Amount (Rs. in Million)	Period to which the amount relates	Forum where dispute is Pending
Income Act,1961	Tax demand (including interest)	10.49	Assessment Year 2016-17	Commissioner of Income Tax (Appeals), Bangalore
Chapter V of The Finance Act, 1994	Service Tax – Non-Eligible CENVAT credit	57.32	01 October 2007 to 30 September 2010	CESTAT Bengaluru

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to bankers or financial institutions. The Company did not have any outstanding dues to debenture holders or government during the year.
- (ix) In our opinion and according to the information and explanations given to us, the Company has not raised any money by way of public issue or further public offer (including debt instruments) during the year.
- (x) In our opinion and according to the information and explanations given to us, no material fraud on the Company by its officers or employees or a fraud by the Company has been noticed or reported during the course of our audit.
- (xi) The Company is a private limited company. Thus, paragraph 3(xi) of the Order relating to provisions of Section 197 is not applicable.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Thus, paragraph 3(xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us the Company is not required to constitute an Audit Committee in accordance with Section 177. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with section 188 of the Act where ever applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) In our opinion and according to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placements of shares or fully or partly convertible debentures during the year. Thus, paragraph 3(xiv) of the Order is not applicable.

- (xv) In our opinion and according to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Thus, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act 1934.

Report on Internal Financial Controls Over Financial Reporting

Annexure – B to the Independent auditor’s report of even date on the financial statements of Embassy One Developers Private Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

OPINION

We have audited the internal financial controls over financial reporting of Embassy One Developers Private Limited (“the Company”) as of March 31, 2020, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1 Company background

Embassy One Developers Private Limited ('the Company') was incorporated on 10 August 2007 under the Companies Act, 1956. The Company was incorporated as ETA Star Citi Centre Bangalore Limited which was changed to City View Bangalore Properties Private Limited. The name was further renamed to Embassy One Developers Private Limited on 4 June 2015. The objective of the Company is to develop office space, retail, hotel and residential construction and related interiors in Bangalore. The registered office of the Company is at Bangalore, Karnataka. The Company is engaged in the construction and development of a mixed use project i.e., Four Seasons hotel, residential apartments, commercial and retail space. The cost incurred during the previous year for construction of hotel is classified as property, plant and equipment as it was held for own use, the commercial and retail portion was classified as Investment property and the cost carried towards residential apartments is classified as inventories as they are held for sale. However during the Financial year 2018-19 the Company has disposed the business operations pertaining to Hotel, commercial and retail space as a Going concern along with the respective assets and liabilities.

2 Basis of preparation of financial statements

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013, (the "Act") and other relevant provisions of the Act.

The financial statements were authorised for issue by the Company's Board of Directors on August 3, 2020

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been presented in millions, unless otherwise indicated.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values

2.4 Measurement of Fair Values

A number of Company's accounting policies and disclosures require a measurement of their fair value, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes periodic review of all significant fair value measurement, including level 3 fair values and reports directly to the director. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Company's Board of directors.

The Management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the changes has occurred.

2.5 Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

a) Judgements

Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 4.01 : Property, plant and equipment and
- Note 4.02 : Investment property.

b) Assumptions and estimations uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial period ending 31 December 2019 are included in the following notes:

- Note 4.08 - recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note 31 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 4.01- estimated useful life of property plant and equipment and
- Note 4.03 - impairment of assets

2.6 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.01 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

3.01 Property, plant and equipment (continued)

ii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Property, plant and equipment

Assets	Management estimate of useful life (years)	Useful life as per Schedule II of Companies Act, 2013 (years)
Building	60	60
Office Equipments	5	5
Electrical equipments	10	10
Plant and machinery	15	15
Computer	3	3
Furniture and fixtures	10	10
Vehicles	10	10

Depreciation method, useful lives and residual values are reviewed at each financial period/year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

3.02 Investment properties

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Investment property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

Investment properties are depreciated on straight-line method over their estimated useful lives. However, where the management's estimate of the remaining useful life of the assets on a review subsequent to the time of acquisition is different, then depreciation is provided over the remaining useful life based on the revised useful life. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

The fair value of investment property is disclosed in the note 4(a). Fair values are determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

Note: Plant and machinery, furniture and fixtures and electrical equipments which are physically attached to the commercial buildings are considered as part of investment property.

3.03 Investment properties (continued)

ii. Depreciation

Pursuant to this policy, Management's estimates of useful life of the following major assets are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II of Companies Act, 2013
Buildings	5-60 years	60 years
Plant and machinery	15 years	15 years
Furniture and fixtures	10-15 years	10 years
Electrical equipments	10 years	15 years

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Pro-rata depreciation is provided on properties purchased or sold during the year/period.

3.04 Impairment of assets

i. Impairment of financial instruments

The Company recognises loss allowances for expected credit losses on:

- financial assets measured at amortised cost;
- no debt instruments

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit - impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 180 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or the other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-months expected credit losses are the portion of expected credit loss that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is 180 days or past due.

3.05 Impairment of assets (continued)

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for the financial assets measured at amortised cost are deducted from the gross carrying amount of assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of the amounts due.

ii. Impairment of non-financial assets

The Company's non-financial assets other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents smallest group of assets that generates cash inflows that are largely independent of the cash inflows or other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

3.06 Revenue recognition

Ind AS 115 Revenue from Contracts with Customers is mandatorily applicable from reporting period beginning on or after April 1, 2018. Ind AS 115 replaces existing the existing standard on revenue recognition Ind AS 18 ("Revenue recognition") and Ind AS 11 ("Construction Contracts").

Revenue is recognized upon transfer of control of residential units to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Company expects to receive in exchange for those residential units. The Company shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of residential units, the Company satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the residential units and on completion of critical obligation as per the customer contract.

To estimate the transaction price in a contract, the Company adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Company when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred residential unit.

3.07 Recognition of dividend income, interest income or expense

a) Dividend income

Dividends are recognised in statement of profit and loss on the date on which the Company's right to receive payment is established.

b) Interest income or expense

Interest income or expense is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of a financial asset; or
- the amortised cost of financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.08 Financial instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial assets or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at,

- amortised cost
- Fair value through other comprehensive income (FVOCI) - debt investment;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- Fair value through profit & loss- (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrecoverably elect to present subsequent changes in investment's fair value in OCI (designated as FVOCI - equity investment). The election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

3.08 Financial instruments (continued)

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to the management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risk that affects the performance of the business model (and the financial asset held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of the financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

To assess whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayments and extension features; and
- terms that limits the Company's claim to cash flows from specified assets (e.g. non-recourse feature)

A prepayment feature is consistent with the solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

3.08 Financial instruments (continued)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss.

Financial assets at amortised cost :

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

Debt investments at FVOCI:

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.

Equity investments at FVOCI:

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.

Financial liabilities : Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

iii. Derecognition

Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of the ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial Liabilities

The Company derecognises a financial liability when the contractual obligations are discharged or cancelled, or expire.

The Company derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the extinguished liability and the new financial liability with modified terms is recognised in statement of profit and loss.

iv. Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Embedded derivatives

When the Company becomes a party to a hybrid contract with a host that is not an asset within the scope of Ind AS 109 Financial Instruments, it identifies whether there is an embedded derivative. Embedded derivatives are separated from the host contract and accounted for separately in accordance with Ind AS 109 if the host contract is not a financial asset and certain criteria are met.

3.09 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.10 Taxes

Income tax comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT')

MAT paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.11 Provisions

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-fix rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

3.12 Earnings / (Loss) per share

The basic earnings/ (loss) per share is computed by dividing the net profit/ (loss) attributable to owner's of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3.13 Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at exchange rate at the date of transaction. Exchange differences are recognised in profit and loss account, except exchange difference arising from transaction of the following items which are recognised in OCI.

- equity investment at fair value through OCI (FVOCI)
- a financial liability designated as a hedge of the net investment in foreign operation to the extent that the hedge is effective and
- qualifying cash flow hedges to the extent that the hedges are effective

3.14 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The contingent liability is not recognised in the books of accounts but its existence is disclosed in the financial statements.

3.15 Errors and estimates

The Company revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the financial statements. Changes in accounting policies are applied retrospectively.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to profit or loss is applied prospectively in the period(s) of change.

Discovery of errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

3.16 Subsequent events

These financial statements are adjusted to reflect events that occur after the reporting date but before the financial statements are issued.

3.17 Inventories

Inventories are carried at the lower of cost and net realisable value. Cost includes all applicable costs incurred in bringing the properties to their present location and condition. The method of determination of cost for various categories of inventories is as follows:

Land, including transferable development rights, are valued at cost of acquisition. Cost includes acquisition cost and related development charges. Finished stocks of constructed properties are valued at their cost of construction / acquisition.

The net realisable value of work in progress is determined with reference to the selling prices of related constructed property. Raw materials and other supplies held for use in construction of property are not written below cost except in cases where material prices have declined and it is estimated that the cost of constructed property will exceed their net realisable value.

3.18 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.19 Statement of Cash flows

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

3.20 Employee benefits

a) Defined contribution plan

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

b) Defined benefit plans

The Company's gratuity plan is a defined benefit plan. The present value of gratuity obligation under such defined benefit plans is determined based on actuarial valuations carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive income in the period in which they occur.

Gratuity scheme is administered through a trust with the Life Insurance Corporation of India and the provision for the same is determined on the basis of actuarial valuation carried out by an independent actuary. Provision is made for the shortfall, if any, between the amounts required to be contributed to meet the accrued liability for gratuity as determined by actuarial valuation and the available corpus of the funds.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

c) Short-term benefit plans

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized and measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

3.21 Recent accounting pronouncements

(A) Issue of Ind AS 117

Insurance Contracts Ind AS 117 supersedes Ind AS 104 Insurance contracts. It establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. Under the Ind AS 117 model, insurance contract liabilities will be calculated as the present value of future insurance cash flows with a provision for risk. Application of this standard is not expected to have any impact on the Company's financial statements.

(B) Amendments to existing Standards

Ministry of Corporate Affairs has carried out amendments of the following accounting standards:

1. Ind AS 103 – Business Combination
2. Ind AS 1, Presentation of Financial Statements and Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
3. Ind AS 40 – Investment Property

The Company is in the process of evaluating the impact of the new amendments issued but not yet effective.

WWD Pearl Limited, Mauritius	55.00%	73,000,000	55.00%	73,000,000
Embassy Inn Private Limited	45.00%	59,727,280	45.00%	59,727,280

(d) Rights, preferences and restrictions attached to shares

Equity shares

- (i) Class A share represents ordinary equity share of face value of Rs 10 each in the Company.
- Each Class A equity shareholder is eligible for one vote per share held. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.
 - Each Class C equity shareholder is not eligible for voting rights
 - All distributions made by the Company to its security holders will be made pro-rata in accordance with the security holders' percentage interest in the Company on fully dilutive basis and no party shall be entitled to seniority over the other in such payments.
 - The shares held by Embassy Inn Private Limited to the extent of Nil (31 March 2019: 10.37%) of the total capital is pledged to Oriental Bank of Commerce and Indian Overseas Bank as a security for loans availed by the Company. Previous year the Company has transferred the borrowing as part of business operations on a Going concern basis along with other assets and liabilities [Refer Note 18A]
- (ii) The equity shareholders WWD Pearl Limited and Embassy Inn Private Limited known as "promoters" along with the holders of Compulsorily Convertible Debentures ("CCDs") known as "investors" together called as "security holders" have entered into an investment and shareholders agreement (ISHA) dated 6 October 2014:
- The salient rights, preferences and restrictions of the equity shareholders as per ISHA include:**
- The equity shares and CCDs held by the stakeholders jointly known as "securities" are not transferable for one year from the date of the ISHA agreement dated 6 October 2014. Subsequent to the lock-in date, the securities are transferable with the right of first offer to the other stakeholder through execution of deed of adherence.
 - Promoters and investors have the power to appoint two directors each to the Board of Directors of the Company. The quorum for any meeting of the Board shall be the presence, in person, of such number of directors required under the Articles of Association, subject to the presence of at least one director each as nominated by the promoters and investors.
 - Promoters have right to nominate the chairman of the meetings, however the chairman shall not have a casting vote.
- (iii) As per the ISHA agreement, the Company shall convert the series A, B and D CCDs to class A shares. On conversion, the Company will issue class A shares by increasing the authorised capital. The Company shall convert the series C, E CCDs and Series F CCDs to class C shares. On conversion, the Company will issue class C shares by increasing the authorised capital. Class C share shall not carry any voting rights.

(e) Buy back of shares and shares allotted by way of bonus shares

There have been no buy back of shares, issue of shares by way of bonus shares or issue of shares for consideration other than cash for the period of five years immediately preceding the balance sheet date.

Amount in INR million

Particulars	As at 31 March 2020	As at 31 March 2019
Retained earnings		
At the commencement of the year	(2,378.26)	(3,156.55)
Adjustment pursuant to adoption of Ind AS 115	-	(356.03)
Add: profit/ (loss) for the year	(114.20)	1,134.32
At the end of the year	(2,492.46)	(2,378.26)

Nature and purpose of other reserves:**Retained earnings:**

The cumulative gain or loss arising from the operations which is retained by the Company is recognised and accumulated under the heading of retained earnings. At the end of the period/year, the profit/ (loss) after tax is transferred from the statement of profit and loss to the retained earnings account.

The application of Ind AS 115 has impacted the Company's accounting for recognition of revenue from sale of residential apartments. The Company has applied the modified retrospective approach to contracts for sale of apartments that were not completed as of 1 April 2018 and has given impact of transition to Ind AS 115 by adjusting Rs 356.03 million in the opening balance of retained earnings as on 1 April 2018. Due to the application of Ind AS 115 for the previous year ended 31 March 2019, revenue from sale of apartments is lower by Rs 299.45 million and Net profit after tax (including impact of IND AS 115) is higher by Rs 207.17 million, vis-a-vis the amounts if replaced standards were applicable.

Other commitments	1,347.25	1,410.44
Contingent liabilities		
Claims against the Company not acknowledged as debt:		
- Service tax matters under dispute [Note (i)]	57.32	57.32
- Income tax [Note (ii)]	10.49	10.49
- Other tax matters [Note (iii)]	-	-

Notes:

- (i) The Company received a demand notice from the Service Tax authorities relating to recovery of CENVAT credit that the Company has availed during the period October 2007 to September 2010. The Company is disputing the demand and has appealed against the order with the Customs, Excise and Service Tax Appellate Tribunal (CESTAT), Bengaluru.
- (ii) The Company has received an Income tax demand of INR 10.49 millions for AY 2016-17 due to disallowance of business loss on grounds of non commencement of business. The Company has filed an appeal against the same and is pending for hearing with CIT Appeals, Bengaluru.
- (iii) The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under sections 92-92F of the Income-tax Act (the Act), 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international transactions entered into with the associated enterprise during the financial year and expects such records to be in existence latest by the date as required by law. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.
- The income tax assessment for the financial year 2008-09 and 2009-10 has been completed and a draft assessment order has been received, which contains a transfer pricing adjustment of INR 212.63 millions and INR 6.89 millions respectively for the years, being disallowance of interest on CCDs capitalised in the books. However, there is no tax demand as per the order. The Company has filed an appeal u/s 246A(1)(a) of the Act as on 14 May 2013. As per the appeal the company has contested the disallowance made in respect of the interest capitalisation on Compulsory convertible debentures. The order with respect to the appeal is yet pending.
- (iv) As per RERA regulations, if a promoter is unable to complete or give possession of an apartment, plot or building in accordance with the terms of agreement for sale, or as the case may be, duly completed by the date specified therein, he shall be liable to interest on demand of the allottee. Further this point has been absorbed in the construction agreement stating that a compensation would be payable to the allottee till the date of delivery in case of any delay caused. Since the management is of the opinion that the possibility of claim from the allottees are remote, the same has not been disclosed as a contingent liability.
- (v) The Company has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 March 2020, the amounts due to micro and small enterprises is INR 159.84 million out of which INR 119.19 million is outstanding for more than 45 days from the appointed day (as defined in the 2(b) of the MSME Act 2006). As per the MSME Act 2006 Section 16, Where any buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors has not raised any interest demand yet and the company has not paid interest during the year, and hence the interest accrued under section 16 of the MSME Act is not provided for.

34 Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the number of equity shares outstanding during the year.

From continuing and discontinued operations	(0.86)	8.55	

(ii) Diluted EPS

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders (after adjusting for interest on the compulsorily convertible debentures) by the number of equity shares outstanding during the year plus the number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

Reconciliation of earnings used in calculating earnings/ (loss) per share:			<i>Amount in INR million (except per share data)</i>
Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019	
Profits after tax from continuing operations	(114.20)	(224.39)	
Profit after tax from discontinuing operations	-	1,358.72	
Net earnings/ (loss) for diluted earnings per share	(114.20)	1,134.32	

Reconciliation of number of shares used in computing earnings per share		
Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019
Number of equity shares at the beginning of the year	132,727,280	132,727,280
Add : Effect of conversion of convertible debentures	-	128,230,447
Number of equity shares for diluted EPS	132,727,280	260,957,727

Earnings/ (loss) per share:		
Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019
From continuing operations	(0.86)	(1.69)
From discontinuing operations	-	5.21
From continuing and discontinued operations	(0.86)	4.35

For the year ended 31 March 2020 effect conversion of convertible debentures amounting to 12,82,30,447 (31 March 2019 - Nil) has not been considered for the calculation of number of equity shares for diluted EPS as their result is anti-dilutive.

35 Segment information

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "office space, retail, hotel and residential construction and related interiors"). Accordingly, separate disclosures per the requirements of Ind AS 108, Operating Segments, are not considering necessary. The Company operates only in India. Hence no disclosure for geographical segment is considered necessary.

36 Reconciliation of tax expense and the accounting profit multiplied by India's domestic tax rate:			<i>Amount in INR million</i>
Particulars	Year ended 31 March 2020	Year ended 31 March 2019	
Profit / (Loss) before tax	(114.20)	1,134.32	
Tax at the Indian tax rate of 26.00% (31 March 2019: 29.12%)	(29.69)	330.31	
Effect of:			
Differential tax on account of temporary differences	26.95	(169.85)	
Tax impact of slump sale considered in capital gain	-	(132.58)	
Impact of bought forward tax losses set-off	12.46	(41.55)	
Others	54.28	13.66	
Deferred tax not recognized on business losses	-	-	
At the effective income tax rate	-	-	
Income tax expense reported in the statement of profit and loss	-	-	

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Company can use the benefits therefrom:

Particulars	31 March 2020	31 March 2019
Carry forward business loss and unabsorbed depreciation	1,118.43	1,126.51
	1,118.43	1,126.51

37 Gratuity

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets gratuity on departure computed at 15 days of salary (last drawn salary) for each completed year of service. The defined benefit gratuity plan is not funded.

The following tables summarise the components of net benefit expense recognised in the statement of profit and loss and amounts recognised in the balance sheet for the gratuity plan.

Changes in the present value of the defined benefit obligation are as follows:-*Amount in INR million*

	March 31, 2020	March 31, 2019
Opening defined benefit obligation	-	-
Interest cost	0.03	-
Current service cost	0.06	-
Past service cost	-	-
Benefits paid	-	-
Liabilities assumed/(settled)	-	-
Actuarial (gains) / losses on obligation	0.16	-
Closing defined benefit obligation	0.25	-

Balance sheet*Amount in INR million*

Details of provision for gratuity as at	March 31, 2020	March 31, 2019
Defined benefit obligation	0.25	-
Fair value of plan assets	-	-
Liability/(asset) recognised in the balance sheet	0.25	-

Statement of profit and loss*Amount in INR million*

	March 31, 2020	March 31, 2019
Net employee benefit expense for the year (recognised in employee cost)		
Current service cost	0.06	-
Past service cost	-	-
Interest cost on defined benefit obligation	0.03	-
Expected interest income on plan assets	-	-
Net benefit expense	0.09	-
Actual return on plan assets	-	-

Other comprehensive income

Amount in INR million

Remeasurement gains and losses (recognised in OCI)	March 31, 2020	March 31, 2019
Net cumulative unrecognized actuarial gain/(loss) opening	-	-
Actuarial gain/(loss) on arising from change in demographic assumption	0.15	-
Actuarial gain/(loss) on arising from change in financial assumption	0.03	-
Actuarial gain/(loss) on arising from experience adjustment	(0.01)	-
Actuarial (gain) /loss for the year on asset	-	-
Net cumulative unrecognized actuarial gain/(loss) closing	0.16	-

Sensitivity analysis of the defined benefit obligation

Amount in INR million

Impact of the change in discount rate	
Present value of obligation at the end of the period	0.25
Impact due to increase of 0.50 %	(0.02)
Impact due to decrease of 0.50 %	0.02
Impact of the change in salary increase	
Present value of obligation at the end of the period	0.25
Impact due to increase of 0.50 %	0.02
Impact due to decrease of 0.50 %	(0.02)

Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:-

Discount rate	6.85%
Salary growth rate	8.00%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

39 Financial instruments - Fair values and risk measurement

A. Accounting classification and fair value

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Particulars	Amount in INR million			
	As at 31 March 2020		As at 31 March 2019	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets measured at amortised cost:				
Other non-current financial assets	226.75	-	566.05	-
Loans	1,286.87	-	2,304.93	-
Trade receivables	67.36	-	24.00	-
Cash and cash equivalents	8.35	-	137.62	-
Other bank balances	-	-	219.66	-
Other current financial assets	225.09	-	9.02	-
Total	1,814.42	-	3,261.28	-
Financial liabilities measured at amortised cost:				
Borrowings	6,359.06	-	6,410.45	-
Interest accrued but not due				
- on term loans	22.27	-	30.48	-
Retention dues	255.33	-	224.13	-
Trade payables	492.45	-	95.09	-
Other financial liabilities	629.63	-	851.13	-
Total	7,758.74	-	7,611.30	-

The management has assessed that fair values of borrowings, Interest accrues but not due, retention dues, loans, trade receivables cash and cash equivalents, bank balances, borrowings, trade payables, and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

B. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk (refer note ii below)
- liquidity risk (refer note iii below)
- market risk (refer note iv below)

(i) Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company's management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. The carrying amount of financial assets represents the maximum credit exposure.

The Company uses an allowance matrix to measure the expected credit loss of trade receivables from individual customers. The Company has credit policies in place and exposure to the credit risk is monitored on an ongoing basis.

The Company establishes an allowance account for impairment that represents its estimate of losses in respect of trade and other receivables. The main component of this allowance is estimated losses that relate to specific tenants or counterparties.

The allowance account is used to provide for impairment losses. Subsequently when the Group is satisfied that no recovery of such losses is possible, the financial asset is considered irrecoverable and the amount charged to the allowance account is then written off against the carrying amount of the impaired financial asset.

Also the cash and cash equivalents are and the bank balances are mainly held with nationalised banks which have a very low risk of default.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out by the Management of the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Exposure to liquidity risk

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities. The amounts are gross and undiscounted contractual cash flow.

<i>Amount in INR million</i>						
As at 31 March 2020	Carrying amount	Total	Less than 1 year	1–2 years	2-5 years	More than 5 years
Non-derivative financial liabilities						
Borrowings	6,359.06	6,359.06	1,630.00	4,230.47	498.59	-
Interest accrued but not due						
- on term loans	22.27	22.27	22.27	-	-	-
Retention dues	255.33	255.33	190.48	64.86	-	-
Trade payables	492.45	492.45	492.45	-	-	-
Other financial liabilities	629.63	629.63	629.63	-	-	-
Total	7,758.73	7,758.74	2,964.82	4,295.33	498.59	-

<i>Amount in INR million</i>						
As at 31 March 2019	Carrying amount	Total	Less than 1 year	1–2 years	2-5 years	More than 5 years
Non-derivative financial liabilities						
Borrowings	6,410.45	6,410.45	-	1,776.27	4,566.98	67.20
Interest accrued but not due						
- term loans	30.48	30.48	30.48	-	-	-
Retention dues	224.13	224.13	119.24	104.89	-	-
Trade payables	95.09	95.09	95.09	-	-	-
Other financial liabilities	851.13	851.13	851.13	-	-	-
Total	7,611.29	7,611.29	1,095.95	1,881.16	4,566.98	67.20

(iv) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which procurements are denominated and the respective functional currencies of the Company. The functional currencies of the Company is primarily INR. The currencies in which these transactions are primarily denominated are Singapore dollars, Euro and UAE dirham, USD etc.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to its long-term debt obligations with floating interest rates.

Exposure to interest rate risk:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	Amount in INR million	
	31 March 2020	31 March 2019
Fixed-rate instruments:		
Financial assets	1,510.21	3,089.71
Financial liabilities	-	-
	1,510.21	3,089.71
Variable-rate instruments:		
Financial assets	-	-
Financial liabilities	6,359.06	6,410.45
	6,359.06	6,410.45

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Amount in INR million			
	Profit or loss		Equity, net of tax	
	1% increase	1% decrease	Strengthening	Weakening
31-Mar-20				
Variable rate borrowings	(63.59)	63.59	(63.59)	63.59
31-Mar-19				
Variable rate borrowings	(64.10)	64.10	(64.10)	64.10

INDEPENDENT AUDITORS' REPORT

To the Members of Embassy One Developers Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Embassy One Developers Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2019, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's director's report but does not include the financial statements and our auditor's report thereon. The Company's directors' report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Company's director's report, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)

Management's Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)
Report on Other Legal and Regulatory Requirements (continued)

- f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".

(B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigation as at 31 March 2019 which would impact its financial position in its financial statements – Refer Note 32 to the financial statements.
- ii. The Company does not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.
- iv. The disclosures regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2019.

(C) With respect to the matter to be included in the Auditor's Report under Section 197(16):

The Company is a private limited company and accordingly, the provisions of Section 197 read with Schedule V to the Act are not applicable to the Company. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)
Annexure A to the Independent Auditor's Report

The Annexure A referred to in the Independent Auditor's Report to the members of Embassy One Developers Private Limited ("the Company") for the year ended 31 March 2019, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of three years. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its fixed assets. Pursuant to the programme, certain fixed assets were physically verified during the year. No Material discrepancies were noticed on such verification.
- (c) The Company does not have any immovable property as at 31 March 2019. Thus, the paragraph 3(i)(c) of the Order is not applicable to the Company.
- (ii) The Company is primarily engaged in the business of real estate development and related services and holds inventories in the form of properties under development. Thus, paragraph 3(ii) of the Order is not applicable.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 ("the Act"). Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company.
- (iv) According to the information and explanations given to us, there are no loans, investments, guarantee and security given in respect of which provisions of Section 185 of the Act are applicable. In our opinion, as the Company is in the business of providing infrastructural facilities, Section 186 is not applicable in respect of loans given by the Company.
- (v) The Company has not accepted any deposits from the public within the meaning of the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government of India for maintenance of cost records under Section 148 of the Act and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)

Annexure A to the Independent Auditor's Report (continued)

- (vii) a. According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees' State Insurance, Income tax, Goods and Service Tax and other material statutory dues have been generally regularly deposited during the year by the company with the appropriate authorities. As explained to us, the Company did not have any dues on account of Sales Tax, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax and Cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employees' State Insurance, Income Tax, Goods and Service Tax and other material statutory dues were in arrear as at 31 March 2019, for a period of more than six month from the date they become payable.

- b. According to the information and explanations given to us, there are no dues of income Tax or sales Tax or service Tax or duty of customs or duty of excise or value added tax which have not been deposited by the Company on account of disputes, except for the following:

Name of the statute	Nature of dues	Amount (in INR millions)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Tax demand (including interest)	10.49	Assessment Year 2016-17	Commissioner of Income tax (Appeals), Bangalore
Chapter V of the Finance Act, 1994	Service Tax	57.32	01 October 2007 to 30 September 2010	CESTAT, Bangalore

- (viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings to financial institutions and banks. The Company did not have any outstanding loans or borrowings from government and there are no dues to debentureholders during the year.
- (ix) According to the information and explanations given to us and based on examination of the records of the Company, the term loans obtained during the year were applied for the purpose for which they were obtained. The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year.
- (x) According to the information and explanations given to us, no material fraud on the Company by its officers and employees or fraud by the Company has been noticed or reported during the course of our audit.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)

Annexure A to the Independent Auditor's Report (continued)

- (xi) According to the information and explanations given to us, the Company is a private limited Company and accordingly the provisions of Section 197 read with Schedule V to the Act are not applicable to the Company.
- (xii) According to the information and explanations given to us, in our opinion, the Company is not a Nidhi Company as prescribed under Section 406 of the Act.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Section 188 of the Act, where applicable, and details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards. The provisions of Section 177 are not applicable to the Company.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made preferential allotment or private placement of shares or fully or partly convertible debentures during the year.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him.
- (xvi) According to the information and explanation given to us and in our opinion the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Embassy One Developers Private Limited
Independent Auditor's Report (continued)

Annexure B to the Independent Auditor's Report on the financial statements of Embassy One Developers Private Limited for the year ended 31 March 2019.

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013.

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Embassy One Developers Private Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Annexure B to the Independent Auditor's Report (continued)

Auditor's Responsibility (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A Company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

1 Company background

Embassy One Developers Private Limited ('the Company') was incorporated on 10 August 2007 under the Companies Act, 1956. The Company was incorporated as ETA Star Citi Centre Bangalore Limited which was changed to City View Bangalore Properties Private Limited. The name was further renamed to Embassy One Developers Private Limited on 4 June 2015. The objective of the Company is to develop office space, retail, hotel and residential construction and related interiors in Bangalore. The registered office of the Company is at Bangalore, Karnataka. The Company is engaged in the construction and development of a mixed use project i.e., Four Seasons hotel, residential apartments, commercial and retail space. The cost incurred during the year for construction of hotel is classified as property, plant and equipment as it was held for own use, the commercial and retail portion was classified as Investment property and the cost carried towards residential apartments is classified as inventories as they are held for sale. However during the Financial year 2018-19 the Company has disposed the business operations pertaining to Hotel, commercial and retail space as a Going concern along with the respective assets and liabilities.

2 Basis of preparation of financial statements

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013, (the "Act") and other relevant provisions of the Act.

The financial statements were authorised for issue by the Company's Board of Directors on 03 September 2019

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been presented in millions, unless otherwise indicated.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values

2.4 Measurement of Fair Values

A number of Company's accounting policies and disclosures require a measurement of their fair value, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes periodic review of all significant fair value measurement, including level 3 fair values and reports directly to the director. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Company's Board of directors.

The Management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the changes has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 3.01 : Property, plant and equipment;
- Note 3.02 : Investment property;
- Note 37 : Financial instruments

2.5 Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

a) Judgements

Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 3.01 : Property, plant and equipment and
- Note 3.02 : Investment property.

b) Assumptions and estimations uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial year ending 31 March 2019 are included in the following notes:

- Note 6 - recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;
- Note 32 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 3.01- estimated useful life of property plant and equipment and
- Note 3.03 - impairment of assets

2.6 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.01 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in statement of profit and loss.

3.01 Property, plant and equipment (continued)

ii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Property, plant and equipment

Assets	Management estimate of useful life (years)	Useful life as per Schedule II of Companies Act, 2013 (years)
Building	60	60
Office Equipments	5	5
Electrical equipments	10	10
Plant and machinery	15	15
Computer	3	3
Furniture and fixtures	10	10
Vehicles	10	10

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

3.02 Investment properties

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Investment property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

Investment properties are depreciated on straight-line method over their estimated useful lives. However, where the management's estimate of the remaining useful life of the assets on a review subsequent to the time of acquisition is different, then depreciation is provided over the remaining useful life based on the revised useful life. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

The fair value of investment property is disclosed in the note 4(a). Fair values are determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued.

Note: Plant and machinery, furniture and fixtures and electrical equipments which are physically attached to the commercial buildings are considered as part of investment property.

3.02 Investment properties (continued)

ii. Depreciation

Pursuant to this policy, Management's estimates of useful life of the following major assets are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II of Companies Act, 2013
Buildings	5-60 years	60 years
Plant and machinery	15 years	15 years
Furniture and fixtures	10-15 years	10 years
Electrical equipments	10 years	15 years

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Pro-rata depreciation is provided on properties purchased or sold during the year.

3.03 Impairment of assets

i. Impairment of financial instruments

The Company recognises loss allowances for expected credit losses on:

- financial assets measured at amortised cost;
- no debt instruments

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit - impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 180 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or the other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-months expected credit losses are the portion of expected credit loss that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is 180 days or past due.

3.03 Impairment of assets (continued)

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for the financial assets measured at amortised cost are deducted from the gross carrying amount of assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of the amounts due.

ii. Impairment of non-financial assets

The Company's non-financial assets other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents smallest group of assets that generates cash inflows that are largely independent of the cash inflows or other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised.

3.04 Revenue recognition

Ind AS 115 Revenue from Contracts with Customers is mandatorily applicable from reporting period beginning on or after April 1, 2018. Ind AS 115 replaces existing the existing standard on revenue recognition Ind AS 18 ("Revenue recognition") and Ind AS 11 ("Construction Contracts").

Revenue is recognized upon transfer of control of residential units to customers and on completion of critical obligation as per the customer contract, in an amount that reflects the consideration the Company expects to receive in exchange for those residential units. The Company shall determine the performance obligations associated with the contract with customers at contract inception and also determine whether they satisfy the performance obligation over time or at a point in time. In case of residential units, the Company satisfies the performance obligation and recognises revenue at a point in time i.e., upon handover of the residential units and on completion of critical obligation as per the customer contract.

To estimate the transaction price in a contract, the Company adjusts the promised amount of consideration for the time value of money if that contract contains a significant financing component. The Company when adjusting the promised amount of consideration for a significant financing component is to recognise revenue at an amount that reflects the cash selling price of the transferred residential unit.

3.05 Recognition of dividend income, interest income or expense

a) Dividend income

Dividends are recognised in statement of profit and loss on the date on which the Company's right to receive payment is established.

b) Interest income or expense

Interest income or expense is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of a financial asset; or
- the amortised cost of financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.06 Financial instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial assets or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at,

- amortised cost
- Fair value through other comprehensive income (FVOCI) - debt investment;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- Fair value through profit & loss- (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrecoverably elect to present subsequent changes in investment's fair value in OCI (designated as FVOCI - equity investment). The election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

3.06 Financial instruments (continued)

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to the management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risk that affects the performance of the business model (and the financial asset held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of the financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

To assess whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate futures;
- prepayments and extension features; and
- terms that limits the Company's claim to cash flows from specified assets (e.g. non-recourse feature)

A prepayment feature is consistent with the solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

3.06 Financial instruments (continued)

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in statement of profit and loss.

Financial assets at amortised cost :

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised statement of profit and loss.

Debt investments at FVOCI:

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to statement of profit and loss.

Equity investments at FVOCI:

These assets are subsequently measured at fair value. Dividends are recognised as income profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to statement of profit and loss.

Financial liabilities : Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in statement of profit and loss.

iii. Derecognition

Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of the ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial Liabilities

The Company derecognises a financial liability when the contractual obligations are discharged or cancelled, or expire.

The Company derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the extinguished liability and the new financial liability with modified terms is recognised in statement of profit and loss.

iv. Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

v. Embedded derivatives

When the Company becomes a party to a hybrid contract with a host that is not an asset within the scope of Ind AS 109 Financial Instruments, it identifies whether there is an embedded derivative. Embedded derivatives are separated from the host contract and accounted for separately in accordance with Ind AS 109 if the host contract is not a financial asset and certain criteria are met.

3.07 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.08 Taxes

Income tax comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT')

MAT paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.09 Provisions

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-fix rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

3.10 Earnings / (Loss) per share

The basic earnings/ (loss) per share is computed by dividing the net profit/ (loss) attributable to owner's of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3.11 Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at exchange rate at the date of transaction. Exchange differences are recognised in profit and loss account, except exchange difference arising from transaction of the following items which are recognised in OCI.

- equity investment at fair value through OCI (FVOCI)
- a financial liability designated as a hedge of the net investment in foreign operation to the extent that the hedge is effective and
- qualifying cash flow hedges to the extent that the hedges are effective

3.12 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The contingent liability is not recognised in the books of accounts but its existence is disclosed in the financial statements.

3.13 Errors and estimates

The Company revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the financial statements. Changes in accounting policies are applied retrospectively.

A change in an accounting estimate that results in changes in the carrying amounts of recognised assets or liabilities or to profit or loss is applied prospectively in the period(s) of change.

Discovery of errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

3.14 Subsequent events

These financial statements are adjusted to reflect events that occur after the reporting date but before the financial statements are issued.

3.15 Inventories

Inventories are carried at the lower of cost and net realisable value. Cost includes all applicable costs incurred in bringing the properties to their present location and condition. The method of determination of cost for various categories of inventories is as follows:

Land, including transferable development rights, are valued at cost of acquisition. Cost includes acquisition cost and related development charges. Finished stocks of constructed properties are valued at their cost of construction / acquisition.

The net realisable value of work in progress is determined with reference to the selling prices of related constructed property. Raw materials and other supplies held for use in construction of property are not written below cost except in cases where material prices have declined and it is estimated that the cost of constructed property will exceed their net realisable value.

3.16 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.17 Statement of Cash flows

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

3.18 Employee benefits

a) Defined contribution plan

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

b) Defined benefit plans

The Company's gratuity plan is a defined benefit plan. The present value of gratuity obligation under such defined benefit plans is determined based on actuarial valuations carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive income in the period in which they occur.

Gratuity scheme is administered through a trust with the Life Insurance Corporation of India and the provision for the same is determined on the basis of actuarial valuation carried out by an independent actuary. Provision is made for the shortfall, if any, between the amounts required to be contributed to meet the accrued liability for gratuity as determined by actuarial valuation and the available corpus of the funds.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

c) Short-term benefit plans

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized and measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

3.19 Recent accounting pronouncements

Ind AS 116 Leases was notified in March 30, 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after April 1, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Recent accounting pronouncements (continued)

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases. The Company intends to adopt these standards, if applicable, when they become effective. As the Company does not have any material leases, therefore the adoption of this standard is not likely to have a material impact in its standalone Ind AS financial statements.

Ind AS 12 Income taxes Appendix C (amendments relating to uncertainty over income tax treatments)

On March 30, 2019, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2019 containing Appendix C to Ind AS 12.

Appendix C to Ind AS 12 applies while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

It outlines the following: (1) the entity has to use judgment, to determine whether each tax treatment should be considered separately or whether some can be considered together. The decision should be based on the approach which provides better predictions of the resolution of the uncertainty (2) the entity is to assume that the taxation authority will have full knowledge of all relevant information while examining any amount (3) entity has to consider the probability of the relevant taxation authority accepting the tax treatment and the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates would depend upon the probability.

The effective date for adoption of Ind AS 12 Appendix C is financial periods beginning on or after April 1, 2019. The Company has evaluated the effect of this on the financial statements and the impact is not material.

Ind AS 12 Income tax (amendments relating to income tax consequences of dividend)

On March 30, 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

The effective date for adoption of this amendment is financial periods beginning on or after April 1, 2019. The Company has evaluated the effect of this on the financial statements and the impact is not material.

Less: Depreciation	(36.61)	(20.33)
Profit / (loss) arising from investment properties before indirect expenses	(56.11)	(39.83)

4 (a) B. Determination of fair values

Description of valuation techniques used and key inputs to valuation on investment properties:

The fair value of investment property has been determined by external independent professional property valuers having appropriate recognised professional qualifications and recent experience in the location and category of the properties being valued.

The external independent professional property valuers, CBRE South Asia Private Limited, have considered discounted cash flow valuation technique in arriving at the fair value as at the reporting date. This valuation method involves certain estimates. The management has exercised its judgement and is satisfied that the valuation methods and estimates are reflective of the current market conditions.

The discounted cash flow methodology is based upon an estimation of future results. The methodology begins with a set of assumptions as to the projected income and expenses of the property. The income and expense figures are mathematically extended with adjustments for estimated changes in economic conditions. The result is the best estimate of value CBRE can produce, but it is an estimate and not a guarantee and it is fully dependent upon the accuracy of the assumptions as to income, expense and market conditions. This methodology uses market derived assumptions, including discount rates, obtained from analysed transactions.

Significant increases/(decreases) in estimated rental value and rent growth per annum in isolation would result in a significantly higher/(lower) fair value of the properties. Significant increases/(decreases) in long-term vacancy rate and discount rate (and exit yield) in isolation would result in a significantly lower/(higher) fair value.

Para 97 of Ind AS 113 Fair value measurements states that for each class of assets and liabilities not measured at fair value in the balance sheet but for which the fair value is disclosed, an entity shall disclose the information required by paragraph 93(b), (d) and (i). However, the said para states that an entity is not required to provide the quantitative disclosures about significant unobservable inputs used in fair value measurements categorised within Level 3 of the fair value hierarchy required by paragraph 93(d). Therefore, no disclosure in relation to sensitivity analysis of significant unobservable inputs used in fair value measurements of Investment property and Investment property under development (including capital advances) has been provided in these financial statements.

Reconciliation of fair value (refer note below)

Particulars	Amount in INR million
Fair value as at 31 March 2018	5,904.00

Note : During the year the Company has disposed a part of its business operations on a going concern basis and has transferred all the assets including the Investment property and respective liabilities pertaining to the business operations for a consideration of INR 4,681.93 million.

4 (c) Capital work-in-progress

Amount in INR million

Particulars	Amount
Cost or deemed cost:	
Balance as at 1 April 2017	3,432.22
Additions	2,488.59
Less : Provision for impairment (Note 2)	(1,067.55)
Balance as at 31 March 2018	4,853.26
Balance as at 1 April 2018	4,853.26
Additions	2,936.63
Add : Reversal of impairment provision	1,067.55
Less : Capitalized	(8,857.44)
Balance as at 31 March 2019	-
Carrying amounts:	
As at 31 March 2018	4,853.26
As at 31 March 2019	-

Notes:

1. Amounts capitalised during the year include borrowing cost amounting to 31 March 2019 : INR 1,942.26 million (31 March 2018: INR 1,462.96 million)
2. The entire capital work in progress as on 31 March 2018 comprised of cost of building, electrical equipments, plant and machinery, office equipments and furniture and fixtures which are pertaining to the Hotel operations of the Company. During the previous year, the management has estimated the recoverable amount of the CGU based on a valuation obtained from a third party valuer. The valuation was done in accordance with discounted cash flow method. As a result of the valuation, an impairment loss of INR 1,195.29 million was recognised in the statement of profit and loss for the CGU. The recoverable amount of INR 5,434.00 million as at 31 March 2018 was based on value in use and was determined at the level of the CGU. In determining value in use for the CGU, the assumptions used were as follows:

Assumption	Approach used to determining values
Discount rate	12.63%

3. During the year the Company has disposed a part of its business operations on a going concern basis and has transferred all the assets and liabilities pertaining to the business operations for a consideration of INR 4,681.93 million.

(d) Rights, preferences and restrictions attached to shares

Equity shares

- (i) Class A share represents ordinary equity share of face value of Rs 10 each in the Company.
- Each Class A equity shareholder is eligible for one vote per share held. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.
 - Each Class C equity shareholder is not eligible for voting rights
 - All distributions made by the Company to its security holders will be made pro-rata in accordance with the security holders' percentage interest in the Company on fully dilutive basis and no party shall be entitled to seniority over the other in such payments.
 - The shares held by Embassy Inn Private Limited to the extent of 10.37% (31 March 2018: 10.37%) of the total capital is pledged to Oriental Bank of Commerce and Indian Overseas Bank as a security for loans availed by the Company. During the year the Company has transferred the borrowing as part of business operations on a Going concern basis along with other assets and liabilities [Refer Note 18A]
- (ii) The equity shareholders WWD Pearl Limited and Embassy Inn Private Limited known as "promoters" along with the holders of Compulsorily Convertible Debentures ("CCDs") known as "investors" together called as "security holders" have entered into an investment and shareholders agreement (ISHA) dated 6 October 2014:
- The salient rights, preferences and restrictions of the equity shareholders as per ISHA include:**
- The equity shares and CCDs held by the stakeholders jointly known as "securities" are not transferable for one year from the date of the ISHA agreement dated 6 October 2014. Subsequent to the lock-in date, the securities are transferable with the right of first offer to the other stakeholder through execution of deed of adherence.
 - Promoters and investors have the power to appoint two directors each to the Board of Directors of the Company. The quorum for any meeting of the Board shall be the presence, in person, of such number of directors required under the Articles of Association, subject to the presence of at least one director each as nominated by the promoters and investors.
 - Promoters have right to nominate the chairman of the meetings, however the chairman shall not have a casting vote.
- (iii) As per the ISHA agreement, the Company shall convert the series A, B and D CCDs to class A shares. On conversion, the Company will issue class A shares by increasing the authorised capital. The Company shall convert the series C, E CCDs and Series F CCDs to class C shares. On conversion, the Company will issue class C shares by increasing the authorised capital. Class C share shall not carry any voting rights.

(e) Buy back of shares and shares allotted by way of bonus shares

There have been no buy back of shares, issue of shares by way of bonus shares or issue of shares for consideration other than cash for the period of five years immediately preceding the balance sheet date.

17 Other equity

Particulars	Amount in INR million	
	As at 31 March 2019	As at 31 March 2018
Retained earnings		
At the commencement of the year	(3,156.55)	(1,737.00)
Adjustment pursuant to adoption of Ind AS 115	(356.03)	-
Add: profit/ (loss) for the year	1,134.32	(1,419.55)
At the end of the year	(2,378.26)	(3,156.55)

Nature and purpose of other reserves:

Retained earnings:

The cumulative gain or loss arising from the operations which is retained by the Company is recognised and accumulated under the heading of retained earnings. At the end of the year, the profit/ (loss) after tax is transferred from the statement of profit and loss to the retained earnings account.

The application of Ind AS 115 has impacted the Company's accounting for recognition of revenue from sale of residential apartments. The Company has applied the modified retrospective approach to contracts for sale of apartments that were not completed as of 1 April 2018 and has given impact of transition to Ind AS 115 by adjusting Rs 356.03 million in the opening balance of retained earnings as on 1 April 2018. Accordingly the comparatives have not been restated and hence not comparable with previous period figures. Due to the application of Ind AS 115 for the year ended 31 March 2019, revenue from sale of apartments is lower by Rs 299.45 million and Net profit after tax (including impact of IND AS 115) is higher by Rs 207.17 million, vis-a-vis the amounts if replaced standards were applicable.

The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro, Small and Medium Enterprises Development Act, 2006' ('the MSMED Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises has been made in the financial statements based on information received and available with the Company. Further in view of the Management, the impact of interest, if any, that may be payable in accordance with the provisions of the MSMED Act is not expected to be material. The Company does not have any dues to micro and small enterprises as at 31 March 2019 and 31 March 2018.

Capital commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided for	-	1,668.98
Other commitments	1,410.44	1,365.53
Contingent liabilities		
Claims against the Company not acknowledged as debt:		
- Service tax matters under dispute [Note (i)]	57.32	57.32
- Income tax [Note (ii)]	10.49	-
- Other tax matters [Note (iii)]	-	-

Notes:

- (i) The Company received a demand notice from the Service Tax authorities relating to recovery of CENVAT credit that the Company has availed during the period October 2007 to September 2010. The Company is disputing the demand and has appealed against the order with the Customs, Excise and Service Tax Appellate Tribunal (CESTAT), Bangalore.
- (ii) The Company has received an Income tax demand of INR 10.49 millions for AY 2016-17 due to disallowance of business loss on grounds of non commencement of business. The Company has filed an appeal against the same and is pending for hearing with CIT Appeals, Bangalore
- (iii) The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under sections 92-92F of the Income-tax Act (the Act), 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international transactions entered into with the associated enterprise during the financial year and expects such records to be in existence latest by the date as required by law. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

The income tax assessment for the financial year 2008-09 and 2009-10 has been completed and a draft assessment order has been received, which contains a transfer pricing adjustment of INR 212.63 millions and INR 6.89 millions respectively for the years, being disallowance of interest on CCDs capitalised in the books. However, there is no tax demand as per the order. The Company has filed an appeal u/s 246A(1)(a) of the Act as on 14 May 2013. As per the appeal the company has contested the disallowance made in respect of the interest capitalisation on Compulsory convertible debentures. The order with respect to the appeal is yet pending.

33 Earnings/ (loss) per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the number of equity shares outstanding during the year.

(i) Basic EPS

Reconciliation of earnings used in calculating earnings/ (loss) per share:		<i>Amount in INR million (except per share data)</i>	
Particulars	For the year ended 31 March 2019	For the year ended 31 March 2018	
Profits after tax			
From continuing operations	(224.39)	99.65	
From discontinuing operations	1,358.72	(1,519.20)	
Net earnings/ (loss) for basic earnings per share	1,134.32	(1,419.55)	
Reconciliation of number of shares used in computing earnings per share			
Particulars	For the year ended 31 March 2019	For the year ended 31 March 2018	
Number of equity shares at the beginning of the year	132,727,280	132,727,280	
Add : Weighted number of equity shares issued during the year	-	-	
Number of equity shares for basic EPS	132,727,280	132,727,280	
Earnings/ (loss) per share:			
Particulars	For the year ended 31 March 2019	For the year ended 31 March 2018

From continuing operations	(1.69)	0.38
From discontinuing operations	5.21	(11.45)
From continuing and discontinued operations	4.35	(10.70)

34 Segment information

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "office space, retail, hotel and residential construction and related interiors"). Accordingly, separate disclosures per the requirements of Ind AS 108, Operating Segments, are not considering necessary. The Company operates only in India. Hence no disclosure for geographical segment is considered necessary.

Transactions with related parties have been shown after giving effect to the impact of reclassifications into liability and equity and adjustments arising on account of effective interest rate method under Ind AS.

37 Financial instruments - Fair values and risk measurement

A. Accounting classification and fair value

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Particulars	Amount in INR million			
	As at 31 March 2019		As at 31 March 2018	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets measured at amortised cost:				
Other non-current financial assets	566.05	-	430.43	-
Loans	2,304.93	-	-	-
Trade receivables	24.00	-	196.74	-
Cash and cash equivalents	137.62	-	87.60	-
Other bank balances	219.66	-	15.00	-
Other current financial assets	9.02	-	6.17	-
Total	3,261.28	-	735.94	-
Financial liabilities measured at amortised cost:				
Borrowings	6,410.45	-	11,042.40	-
Interest accrued but not due				
- on term loans	30.48	-	-	-
- on inter corporate deposits from a related party	-	-	281.79	-
Retention dues	224.13	-	198.39	-
Trade payables	95.09	-	161.59	-
Other financial liabilities	851.13	-	557.97	-
Total	7,611.28	-	12,242.14	-

The management has assessed that fair values of borrowings, Interest accrues but not due, retention dues, loans, trade receivables cash and cash equivalents, bank balances, borrowings, trade payables, and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

B. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk (refer note ii below)
- liquidity risk (refer note iii below)
- market risk (refer note iv below)

(i) Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The Company's management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments. The carrying amount of financial assets represents the maximum credit exposure.

The Company uses an allowance matrix to measure the expected credit loss of trade receivables from individual customers. The Company has credit policies in place and exposure to the credit risk is monitored on an ongoing basis.

The Company establishes an allowance account for impairment that represents its estimate of losses in respect of trade and other receivables. The main component of this allowance is estimated losses that relate to specific tenants or counterparties.

The allowance account is used to provide for impairment losses. Subsequently when the Group is satisfied that no recovery of such losses is possible, the financial asset is considered irrecoverable and the amount charged to the allowance account is then written off against the carrying amount of the impaired financial asset.

Also the cash and cash equivalents are and the bank balances are mainly held with nationalised banks which have a very low risk of default.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. This is generally carried out by the Management of the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Exposure to liquidity risk

The table below provides details regarding the undiscounted contractual maturities of significant financial liabilities. The amounts are gross and undiscounted contractual cash flow.

<i>Amount in INR million</i>						
As at 31 March 2019	Carrying amount	Total	Less than 1 year	1–2 years	2–5 years	More than 5 years
Non-derivative financial liabilities						
Borrowings	6,410.45	6,410.45	-	1,776.27	4,566.98	67.20
Interest accrued but not due						
- on term loans	30.48	30.48	30.48	-	-	-
- on inter corporate deposits from a related party	-	-	-	-	-	-
Retention dues	224.13	224.13	119.24	104.89	-	-
Trade payables	95.09	95.09	95.09	-	-	-
Other financial liabilities	851.13	851.13	851.13	-	-	-
Total	7,611.28	7,611.28	1,095.94	1,881.16	4,566.98	67.20

<i>Amount in INR million</i>						
As at 31 March 2018	Carrying amount	Total	Less than 1 year	1–2 years	2–5 years	More than 5 years
Non-derivative financial liabilities						
Borrowings	11,042.40	11,042.40	1,166.25	1,100.63	7,031.88	1,743.64
Interest accrued but not due						
- term loans	-	-	-	-	-	-
- on inter corporate deposits from a related party	281.79	281.79	126.23	-	155.56	-
Retention dues	198.39	198.39	104.59	93.80	-	-
Trade payables	161.59	161.59	161.59	-	-	-
Other financial liabilities	557.97	557.97	557.97	-	-	-
Total	12,242.14	12,242.14	2,116.63	1,194.43	7,187.44	1,743.64

(iv) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which procurements are denominated and the respective functional currencies of the Company. The functional currencies of the Company is primarily INR. The currencies in which these transactions are primarily denominated are Singapore dollars, Euro and UAE dirham, USD etc.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to its long-term debt obligations with floating interest rates.

Exposure to interest rate risk:

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

Particulars	Amount in INR million	
	31 March 2019	31 March 2018
Fixed-rate instruments:		
Financial assets	3,089.71	446.13
Financial liabilities	-	2,800.00
	3,089.71	3,246.13
Variable-rate instruments:		
Financial assets	-	-
Financial liabilities	6,410.45	8,239.97
	6,410.45	8,239.97

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Amount in INR million			
	Profit or loss		Equity, net of tax	
	1% increase	1% decrease	Strengthening	Weakening
31-Mar-19				
Variable rate borrowings	(64.10)	64.10	(64.10)	64.10
31-Mar-18				
Variable rate borrowings	(82.40)	82.40	(82.40)	82.40

This space has been intentionally left blank

38 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, convertible preference shares, compulsorily convertible debentures, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital. The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2019 and 31 March 2018 was as follows:

Particulars	Amount in INR million	
	As at 31 March 2019	As at 31 March 2018
Total liabilities	9,011.40	12,703.29
Less: Cash and cash equivalents	137.62	87.60
Adjusted net debt	8,873.78	12,615.70
Total equity	2,423.65	1,645.36
Adjusted equity	2,423.65	1,645.36
Adjusted net debt to equity ratio	3.66	7.67

39 Expenditure on corporate social responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2019.

Independent Auditor's Review Report on Unaudited Special Purpose Interim Financial Information of the Company for the period from 1 April 2021 to 31 December 2021

To
The Board of Directors
Embassy One Developers Private Limited

Introduction

1. We have reviewed the accompanying Unaudited Special Purpose Interim Financial Information of Embassy One Developers Private Limited ('the Company'), which comprise the Unaudited Special Purpose Interim Balance Sheet as at 31 December 2021, the Unaudited Special Purpose Interim Statement of Profit and Loss (including Other Comprehensive Income), the Unaudited Special Purpose Interim Statement of Cash Flows and the Unaudited Special Purpose Interim Statement of Changes in Equity for the nine-month period then ended, and other explanatory information (together hereinafter referred to as the "Special Purpose Interim Financial Information"). Management is responsible for the preparation and presentation of the Special Purpose Interim Financial Information in accordance with the basis of preparation in note 1 to the Special Purpose Interim Financial Information which has been approved by the Company's Board of Directors. Our responsibility is to express a conclusion on the Special Purpose Interim Financial Information based on our review.

Scope of Review

2. We conducted our review of the Special Purpose Interim Financial Information in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 ('Act'), and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Walker Chandiok & Co LLP

Conclusion

3. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Special Purpose Interim Financial Information is not prepared, in all material aspects, in accordance with the basis of preparation described in note 1 to this Special Purpose Interim Financial Information.

Emphasis of Matter – Basis of Preparation and Restriction on distribution or use

4. Without modifying our conclusion, we draw attention to note 1 to the accompanying Special Purpose Interim Financial Information, which describes its basis of preparation. This Special Purpose Interim Financial Information has been prepared by the Company's management, solely for the purpose of inclusion in the placement document of Indiabulls Real Estate Limited's proposed issue of equity shares through Qualified Institutional Placement, as further explained in the said note, to be submitted with the Securities Exchange Board of India ('SEBI'), the National Stock Exchange of India Limited and the BSE Limited (together, the 'Stock Exchanges') and the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi ('ROC') as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ('SEBI ICDR Regulations') and Section 42 and 62 of the Act, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Act, 2014, as amended. This report is solely issued for aforementioned purpose and accordingly should not be used, referred to or distributed for any other purpose or to any other party without our prior written consent. Further, we do not accept or assume any liability or any duty of care for any other purpose for which or to any other party to whom this report is shown or into whose hands it may come without our prior written consent.

Other explanatory information for the period from 1 April 2021 to 31 December 2021
(All amounts are in Indian Rupees (₹) millions, unless otherwise stated)

1 Basis of preparation

A scheme of amalgamation has been filed before the National Company Law Tribunal ('NCLT') for the amalgamation ('the Scheme') of NAM Estates Private Limited ('NEPL') and Embassy One Commercial Property Developments Private Limited with Indiabulls Real Estate Limited ('IBREL') for which the NCLT approval is currently awaited. Upon sanction of the Scheme by NCLT and restructuring activities envisaged in such Scheme, which includes acquisition of controlling stake in Embassy One Developers Private Limited ('EOPL' or the 'Company'), the Company will become a wholly-owned subsidiary of IBREL.

This Special Purpose Interim Financial Information of the Company which comprises of the Unaudited Special Purpose Interim Balance Sheet as at 31 December 2021, the Unaudited Special Purpose Interim Statement of Profit and Loss (including other comprehensive income), the Unaudited Special Purpose Interim Statement of Cash Flows and the Unaudited Special Purpose Interim Statement of Changes in Equity for the nine months then ended and other explanatory information (together hereinafter referred to as the "Special Purpose Interim Financial Information") has been prepared by the Company's management, in connection with the purpose inclusion in the placement document of Indiabulls Real Estate Limited's proposed issue of equity shares through Qualified Institutional Placement to be submitted with the Securities Exchange Board of India ('SEBI'), the National Stock Exchange of India Limited and the BSE Limited (together, the 'Stock Exchanges') and the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi ('ROC') as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018, as amended ("SEBI ICDR Regulations") and Sections 42 and 62 of the Act, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, as amended.

These Special Purpose Interim Financial Information of the Company have been prepared as per the principles of Indian Accounting standards including Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with relevant rules issued thereunder and other accounting principles generally accepted in India except that disclosure requirements as required under Ind AS 34 and Schedule III to the Companies Act, 2013, including presentation of comparative financial information, have not been fully complied with in this Special Purpose Interim Financial Information, since such financial information is prepared for the limited purposes as specified above. The accounting policies followed in preparation of the Special Purpose Interim Financial Information are consistent with those followed in the most recent annual financial statements of the Company, i.e., for the year ended 31 March 2021.

Further, owing to the transfer of the hotel, office and retail operations of the Company in FY 2018-19, which comprised the largest segments of the Company's business, the Company has evaluated its ability to sustain its operations in the foreseeable future. Considering the net positive cash flow projections from operations (sale of residential apartment units), continued committed financial support from Embassy Property Developers Private Limited (Entity exercising joint control) and access to lines of credit, management believes that the Company will not have any challenge in meeting its financial obligations for the next 12 months from the date of issue of Special Purpose Interim Financial Information.

2 Contingent liabilities and commitments

Particulars	As at 31 December 2021
Contingent liabilities	
Claims against the Company not acknowledged as debt:	
- Income tax [Note (i)]	15.97

Notes:

- (i) The Company has received an Income tax demand of ₹ 10.49 millions for AY 2016-17 due to disallowance of business loss on grounds of non commencement of business. The Company has filed an appeal against the same and is pending for hearing with CIT Appeals, Bengaluru.
The Company has received an Income tax demand of ₹ 5.48 millions for AY 2019-20 u/s 143(1) out of which ₹ 4.98 millions is adjusted with Income tax refundable for AY 2020-21. The Company is evaluating options for filing an appeal against the same and hence same is not provided for in financial statement.
- (ii) As per RERA regulations, if a promoter is unable to complete or give possession of an apartment, plot or building in accordance with the terms of agreement for sale, or as the case may be, duly completed by the date specified therein, he shall be liable to interest on demand of the allottee. Further this point has been absorbed in the construction agreement stating that a compensation would be payable to the allottee till the date of delivery in case of any delay caused. Since the management is of the opinion that the possibility of claim from the allottees are remote, the same has not been disclosed as a contingent liability.

Embassy One Developers Private Limited
Other explanatory information for the period from 1 April 2021 to 31 December 2021
(All amounts are in Indian Rupees (₹) millions, unless otherwise stated)

(iii) The Company has a system for maintenance of documents and other relevant information in respect of amounts due by it to parties who are registered as micro and small enterprises. As at 31 December 2021, the amounts due to micro and small enterprises is ₹ 115.32 million out of which ₹ 115.29 million is outstanding for more than 45 days from the appointed day (as defined in the 2(b) of the MSME Act 2006). As per the MSME Act 2006, Section 16, where any buyer fails to make payment of the amount to the supplier, as required under Section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or in any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed day or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank. In this case, the management contends that the creditors have not raised any interest demand yet and the Company has not paid interest during the year, and hence the interest accrued under Section 16 of the MSME Act is not provided for.

INDEPENDENT AUDITORS' REPORT

To the Members of Embassy East Business Park Private Limited (Formerly known as Concord India Private Limited)

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of Embassy East Business Park Private Limited (formerly known as Concord India Private Limited ("the Company")), which comprise the balance sheet as at 31st March 2021, and the statement of Profit and Loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements give the information required by the Companies Act, 2013("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and loss, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

As stated in Note no: 26 (a) & (b) to the financial statements, the company has:

- a) Received an additional Intercompany Deposit (loan) of Rs.10,703.65 thousands from its holding company during the financial year 2020-21 (aggregate Intercompany Deposit loan) outstanding of Rs.127,703.65 thousands as at 31 March 2021); and
- b) Provided leasehold land held by it as a security for loan taken by the erstwhile holding company from a bank.

As per the requirement of Section 185 of the Companies Act, 2013, no company shall directly or indirectly provide any loan or give any guarantee or provide any security to any of its directors or to any other person in whom the director is interested or give any guarantee or provide any security in connection with any loan taken by him or such other person. Accordingly, the aforesaid Intercompany Deposit(loan) received, and guarantee given by the company is not in compliance with the requirement of the Act. However, impact of this non-compliance has not been quantified by the company.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. The report does not include a statement on the matter specified in paragraph 3 and 4 of the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, Since in our opinion and according to the information and explanation given to us, the said order is not applicable to the company.
2. As required by Section 143(3) of the Act, we report that:
 - a. Except for the effects of the matters described in the basis of qualified opinion paragraph, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, except for the matters described in the basis of qualified opinion paragraph, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity, and the Statement Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, except for the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.
 - e. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act
 - f. The company has been exempted from the requirement of its auditor reporting on whether the company has adequate internal financial control system in place and the operating effectiveness of such control as per clause (i) of section 143(3); and
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note no: 19 to the financial statements ;
 - ii. The company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses ;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

3. With respect to the matter to be included in the Auditor's Report under Section 197(16):

In our opinion and according to the information and explanation given to us, the Company is a private limited company and accordingly provision of section 197 of the Act is not applicable to the Company.

1 Company background

Concord India Private Limited ("CIPL" or "the Company"), is a private limited company incorporated on 15 February 1973 as a public limited company and was later converted into a private limited company on 9 April 2008. The Company has been formed primarily for the purpose of real estate development. The Company is a subsidiary of Embassy Property Developments Private Limited, a private limited company.

On 22 October 2020, the name of the Company has been changed from Concord India Private Limited to Embassy East Business Park Private Limited.

2 Basis of preparation of financial statements

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on accrual basis as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements were authorized for issue for the said purpose laid down in 2.1 by the Company's Board of Directors on 31 August 2021

Details of the Company's accounting policies are included in Note 3.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest thousands, unless otherwise indicated.

2.3 Use of going concern assumptions

The Company's financial statements have been prepared on a going concern basis even though the Company has a negative net worth of INR 60,309.68 thousand as at 31 March 2021 and has incurred a net loss of INR 39,306.01 thousand for the year ended 31 March 2021. Further, the Company's current liabilities exceeded its current assets by INR 523,738.31 thousand as at that date. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on financial support committed to the Company by the holding company, Embassy Property Developments Private Limited, as well as the market value of the underlying leasehold land held by the Company.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.4 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.5 Use of estimates and judgements

In preparing these financial statements, management has made judgements estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Formation about judgements, estimates and assumptions in applying the accounting policies that have a significant effect on the amount recognised in the financial statements are included in the following note:

- note 4: Classification of leasehold land as investment property

2.6 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a management oversight that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Board of Directors. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Company's Board of Directors.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognizes transfers between levels of fair value hierarchy at the end of the year during which the change has occurred.

3 Significant accounting policies

3.1 Impairment of assets

The Company recognizes loss allowances for expected credit losses on:

- financial assets measured at amortized cost; and
- financial assets measured at FVOCI- debt investments.

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 90 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is 90 days or more past due.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The Company's non-financial assets and inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

3.2 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment, inclusive of GST and net of taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Goods and service tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

Lease/sub-lease rental income is recognised when right to receive such income is established in accordance with the terms of the contract with the clients

3.3 Recognition of, interest income or expense

Interest expense/ income is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortized cost of financial instrument.

In calculating interest expense, the effective interest rate is applied to the amortized cost of the liability.

3.4 Guarantee income

Financial guarantees issued by the company are recognised initially at fair value, and the financial guarantee is recognised in P&L over the tenure of the guarantee.

3.5 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.6 Investment Property

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued

3.7 Financial Instruments

a). Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

b) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortized cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit or loss.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment- by- investment basis. All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

3.7 Financial Instruments (Continued)

b) Classification and subsequent measurement (continued)

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for Derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non- recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on Derecognition is also recognized in profit or loss.

c) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

3.7 Financial liabilities

a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and amortized cost.

At initial recognition, the Company measures a financial liability at its fair value plus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the financial liability. Transaction costs of financial liability carried at fair value through profit or loss are expensed in profit or loss.

b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to Statement of Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Amortized cost

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective interest rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

3.8 Low Interest and interest free loans

For all loans which are offered at a below-market rate or interest free, the Company considers the following aspects:

- All the terms and conditions of the loan
- Local market circumstances and the industry practice
- Interest rates currently charged by or offered to the entity for loans with similar risks and characteristics.

As per Ind AS 109, the Company recognizes all financial instruments including interest free loans, on initially recognition at their fair value.

Ind AS 109 requires the difference between the transaction price and the fair value of a low-interest or interest free loan to be recognised as a gain or loss (if the fair value is based on observable inputs), unless it qualifies for recognition as an asset or liability. This normally depends on the relationship between the lender and borrower or the reason for providing the loan.

On fair valuation of an interest-free loan from a parent to a subsidiary, the 'other component' being the difference between the fair value and the face value of the loan are considered as an equity infusion ('other equity') by the parent.

3.9 Non-current assets held for sale

Non current assets, comprising of assets and liabilities are classified as held for sale if it is highly probable that they will be recovered primarily through a sale transaction rather than continuing use.

Such assets, are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification as held for sale and subsequent gains and issues on re- measurement are recognised in profit and loss.

Once classified as asset held for sale such investment property are no longer depreciated.

3.10 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

3.11 Provisions and contingent liabilities

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

The disclosure of contingent liability is made when, as a result of obligating events, there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

3.12 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.13 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated.

3.14 Earnings per share

The basic earnings/(loss) per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3.15 Operating segments

In accordance with the requirements of Ind AS 108 - "Segment Reporting", the Company is primarily engaged in a business of real estate development and has no other primary reportable segments. The Board of Directors of the Company allocate the resources and assess the performance of the Company, thus are the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of the business as a single segment, hence no separate segment needs to be disclosed. Thus the segment revenue, segment result, total carrying amount of segment assets, total carrying amount of segment liabilities, total cost incurred to acquire segments assets, the total amount of charge for depreciation and amortisation during the year are all as reflected in the financial statements for the year ended 31 March 2020 and as on that date. As the Company operates in India only, hence no separate geographical segment is disclosed.

3.16 Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3.17 Recent accounting pronouncements

a. The accounting policies adopted and methods of computation followed are consistent with those of the previous financial year, except for items disclosed below. There were several new and amendments to standards and interpretations which are applicable for the first time for the year ended 31 March 2021, but either not relevant or do not have an impact on the financial statements of the Company. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

b. Amendments to Ind AS 103: Definition of a Business: The amendment to Ind AS 103 Business Combinations clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that, together, significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs. The other key amendments include, adding an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business and narrowing the definitions of business and outputs by focusing on goods or services provided to customers and by removing the reference to an ability to reduce costs. These amendments had no impact on the financial statements of the Company

c. Amendments to Ind AS 1 and Ind AS 8: Definition of Material: The amendments provides a new definition of material that states, "information material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity." The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the financial statements of, nor is there expected to be any future impact to the Company.

d. Several other amendments apply for the first time for the year ending 31 March 2021, but does not have an impact on the financial statements of the Company.

Note:

i) Amounts recognised in profit and loss for Investment Property

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Rental income derived from investment properties	-	-
Direct operating expenses (including repairs and maintenance) that did not generate rental income during the year	(10,370.07)	(6,264.51)
Loss arising from investment properties before depreciation and indirect expenses	(10,370.07)	(6,264.51)
Less: Depreciation	-	-
Loss arising from investment properties	(10,370.07)	(6,264.51)

ii) Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the non-availability of the business plan for the property, the external independent valuer has used "Income Approach- Discounted cash flow method" method approach for assessing the fair value of the property.

The "Income Approach- Discounted cash flow method" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable. Using this valuation method, future cash flows from the property are forecasted using precisely stated assumptions. This method allows for the explicit modelling of income associated with the property. These future financial benefits are then discounted to a present day value at an appropriate discount rate.

4 Investment property (continued)**Note (continued):****iii) Restriction on realisability**

a) Karnataka Industrial Area Development Board (KIADB) has allotted 78.2219 acres of land to the Company on lease-cum-sale basis. Of the above, 58 acres of land is leased for a period of 20 years and 20.2219 acres is for a period of 11 years. The allotment is to develop infrastructure facilities for IT/ITES companies. In accordance with the terms of agreement with KIADB, a consideration of Rs 398,762.84 thousands has been paid to KIADB and Rs 33,700.58 thousands towards stamp duty. The agreement gives a right to the Company to acquire land at the end of the lease term for no additional consideration. However, if KIADB incurs any further cost towards settlement to the previous owners, KIADB has the right to recover the additional consideration from the Company. During the period of the lease term till transfer of ownership, the Company is required to pay a nominal rent of Rs 78,550 per annum. As at the balance sheet date, as KIADB has not intimated any additional consideration, the Management believes that no further cost is required to be paid to KIADB.

The above land includes 18 acres of land which has been sub-leased to a party for a total consideration of Rs 333,234 thousand under a lease cum sale agreement. Accordingly, the proportionate cost of such 18 acres of land has been classified as assets held for sale - refer note 9 to the financial statements.

b) The aforementioned parcel of land was subject to litigation between the Range Forest Officer, Bangalore and the Company. The Range Forest Officer had issued notice vide No. 176/2007-2008 to the Company alleging that the land allotted by KIADB to the Company is a forest land and the Company is in unauthorised occupation of the forest land. Aggrieved by the said notice, the Company had filed a writ petition before the Honourable High Court of Karnataka appealing for quashing of the said notice issued by the Forest Department. The Honourable High Court of Karnataka on 25 May 2012 has allowed the writ petition no. 7200/2008 filed by the Company confirming that the land allotted by KIADB is not a forest land. Aggrieved by the said order dated 25 May 2012, the Forest Department has filed an appeal vide W.A. 4283/2012 before the Honourable High Court of Karnataka. The Company has also filed an appeal vide W.A. 4205/2012 seeking certain clarifications on certain observations made in the order dated 25 May 2012. The Honourable High Court of Karnataka, on 23 July 2019 has dismissed the appeal filed by the Forest Department vide W.A. 4283/2012 and also disposed of the appeal filed by the Company vide W.A. 4205/2012.

Further the Range Officer, Bengaluru filed an appeal with the Honourable Supreme Court of India and the appeal was dismissed on 19th November 2020.

(c) Rights, entitlements and obligations of different classes of shares

Effective 22 August 2008, the Company entered into a tripartite Shareholders Agreement ("the Agreement") with its shareholders i.e. Embassy Property Developments Private Limited and Florence Investments Limited ("the Shareholders"). The significant terms of the Agreement and the rights of Shareholders are mentioned hereunder:

Embassy Property Developments Private Limited shall hold 382,614 class A equity shares of Rs 10 each carrying 51% voting rights and 98% economic interest in the Company. Florence Investments Limited shall hold 367,610 class B equity shares of Rs 10 each carrying 49% voting rights and 2% economic interest in the Company. During the year ended March 31, 2020, the Company has amended the Articles of Association by passing a special resolution in the EGM held on 13 December 2019 to align the economic interest of the shareholders in the proportion of the shareholding of the respective members. Consequently Effective 07 January 2020, the Company entered into a tripartite Shareholders Agreement ("the Agreement") with its shareholders i.e. Embassy Property Developments Private Limited(the shares now stand vested in the name of NAM Estates Private Limited) and Florence Investments Limited ("the Shareholders").

The Company declares and pays dividends in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company after distribution of all preferential amounts. However, no such preferential amounts exist currently. The distribution will be in proportion to the number of equity shares held by the shareholders.

(d) Buy back of shares and shares allotted by way of bonus shares

The Company has not allotted any fully paid up equity shares by way of bonus shares nor has it bought back any class of equity shares during the period of five years immediately preceding the balance sheet date nor has it issued shares for consideration other than cash.

22 Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit/(loss) attributable to equity holders (after adjusting for saving in interest or dividend expenses, net of taxes) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Comprehensive loss for the year attributable to equity shareholders**		
- Equity shares	(16,258.40)	(9,541.28)
Weighted average number of equity shares outstanding during the year		
<i>Equity shares of Rs 10 each, fully paid</i>

23 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "real estate development"). Accordingly, separate disclosures per the requirements of Ind AS 108, Operating Segments, are not considered necessary. The Company operates only in India. Hence no disclosure is considered necessary. However, the Company has not commenced its operations as at the year end.

- 24** The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro, Small and Medium Enterprises Development Act, 2006' ('the MSMED Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2021 has been made in the financial statements based on information received and available with the Company. The Company does not have any interest dues to micro and small enterprises as at 31 March 2021 (31 March 2020 - Nil):

Particulars	Year ended 31 March 2021	Year ended 31 March 2020

Business loss	10,068.94	6,075.82
	59,027.61	55,034.49

- 26 (a) During the year, the Company has received an additional loan of Rs 10,703.65 thousands (outstanding of Rs 127,703.65 thousands as at 31 March 2021) from its holding company in which a director is interested. As per the requirements of Section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a Director is interested. Accordingly the aforementioned loan received by the Company is not in compliance with the requirements of the Act.

(b) On 6th July 2018, the company has provided leasehold land of 60 acres held by the company as a security for loan taken by a Private Limited Company in which a director is interested, as per the requirement of Section 185 of the Companies Act, 2013, No company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person whom a directly is interested. Accordingly the aforesaid guarantee given by the company is not in compliance with the requirement of the Act. However, the above loan has been repaid before balance sheet signing date.

- 27 The Company outsources its manpower and technology assistance requirements and does not have any employees on its rolls and hence does not incur any employee related benefits/ costs.

- 28 The Company did not have any income or expenditure in foreign currency during the current year and the previous year.

29 Expenditure on Corporate Social Responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2021 and 31 March 2020.

32 Uncertainty relating to the global health pandemic on COVID-19:

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on revenue recognition, investment property (including under development), property, plant and equipment, capital work in progress, and receivables. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information, economic forecasts and consensus estimates from market sources on the expected future performance of the Company and have compared the actual performance with the projections and expects the carrying amount of these assets as reflected in the balance sheet as at 31 March 2021 will be recovered. The management has also estimated the future cash flows with the possible effects that may result from the COVID-19 pandemic and does not foresee any adverse impact on realising its assets and in meeting its liabilities as and when they fall due. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

INDEPENDENT AUDITORS' REPORT

To the Members of Concord India Private Limited

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of **Concord India Private Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss(including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements give the information required by the Companies Act, 2013("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

As stated in Note no: 27(a) & (b) to the financial statements, the company has:

- a) Received an additional Intercompany Deposit(loan) of Rs.3,252.55 thousands from its holding company during the financial year 2019-20(aggregate Intercompany Deposit(loan) outstanding of Rs.117,000.00 thousands as at 31 March 2020); and
- b) Provided leasehold land held by it as a security for Intercompany Deposit(loan) taken by the holding company from a bank;

in which a director is interested as per the requirement of Section 185 of the Companies Act, 2013. No company shall directly or indirectly provide any loan or give any guarantee or provide any security to a person whom a directly is interested. Accordingly, the aforesaid Intercompany Deposit(loan) received and guarantee given by the company is not in compliance with the requirement of the Act. However, impact of this non-compliance has not been quantified by the company.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial

statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The financial statements of the Company for the year ended March 31, 2019, included in these financial statements, have been audited by the M/s BSR & Associates LLP who expressed a qualified opinion on those statements on August 21, 2019. The reason for qualified opinion as follows:

- a) The company has:
 - i) Received an additional Intercompany deposit (loan) of Rs.22,156,26 thousands from its holding company during the financial year 2018-19 (aggregate Intercompany deposit (loan) outstanding of Rs.113,747.46 thousands as at 31 March 2019); and
 - ii) Provided leasehold land held by it as a security for loan taken by the holding company from a bank;

In which a director is interested. As per the requirements of Section 185 of the Companies Act, 2013("Act"), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a director is interested. Accordingly, the aforementioned Intercompany deposit(loan) received, and security given by the company is not in compliance with the requirements of the Act. Impact of this non-compliance has not been quantified by the company.

- b) The company has advanced a sum of Rs.45,000.00 thousands towards an unrelated party (seller) for purchase of land. However, as on 31.03.2019, the transaction has not been consummated and there is no balance confirmation provided by the seller. While Management continues to represent that these advances are not secured, erstwhile auditor unable to comment on the recoverability of these amounts and the consequent impact, if any on the financial statements for the year ended 31 March 2019.

Report on Other Legal and Regulatory Requirements

1. The report does not include a statement on the matter specified in paragraph 3 and 4 of the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, Since in our opinion and according to the information and explanation given to us, the said order is not applicable to the company.
2. As required by Section 143(3) of the Act, we report that:
 - a. Except for the effects of the matters described in the basis of qualified opinion paragraph, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, except for the matters described in the basis of qualified opinion paragraph, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss(including other comprehensive income), and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, except for the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.
 - e. On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act
 - f. The company has been exempted from the requirement of its auditor reporting on whether the company has adequate internal financial control system in place and the operating effectiveness of such control as per clause (i) of section 143(3); and
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note no:4 to the financial statements;

- ii. The company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
3. With respect to the matter to be included in the Auditor's Report under Section 197(16):
- In our opinion and according to the information and explanation given to us, the Company is a private limited company and accordingly provision of section 197 of the Act is not applicable to the Company.

The financial statements were authorized for issue by the Company's Board of Directors on 03 July 2020
Details of the Company's accounting policies are included in Note 3.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest thousands, unless otherwise indicated.

2.3 Use of going concern assumptions

The Company's financial statements have been prepared on a going concern basis. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on financial support committed to the Company by the holding company, Embassy Property Developments Private Limited, as well as the market value of the underlying leasehold land held by the Company.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.4 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.5 Use of estimates and judgements

In preparing these financial statements, management has made judgements estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Formation about judgements, estimates and assumptions in applying the accounting policies that have a significant effect on the amount recognised in the financial statements are included in the following note:

- note 4: Classification of leasehold land as investment property

2.6 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a management oversight that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Board of Directors. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Company's Board of Directors.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognizes transfers between levels of fair value hierarchy at the end of the year during which the change has occurred.

3 Significant accounting policies

3.1 Impairment of assets

The Company recognizes loss allowances for expected credit losses on:

- financial assets measured at amortized cost; and
- financial assets measured at FVOCI- debt investments.

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 90 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is 90 days or more past due.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The Company's non-financial assets and inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

3.2 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment, inclusive of GST and net of taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Goods and service tax (GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

Lease/sub-lease rental income is recognised when right to receive such income is established in accordance with the terms of the contract with the clients

3.3 Recognition of, interest income or expense

Interest expense/ income is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortized cost of financial instrument.

In calculating interest expense, the effective interest rate is applied to the amortized cost of the liability.

3 Significant accounting policies (continued)

3.4 Guarantee income

Financial guarantees issued by the company are recognised initially at fair value, and the financial guarantee is recognised in P&L over the tenure of the guarantee.

3.5 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.6 Investment Property

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued

3.7 Financial Instruments

a). Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

b) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortized cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit or loss.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis. All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets.

On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

3 Significant accounting policies (continued)

3.7 Financial Instruments (Continued)

b) Classification and subsequent measurement (continued)

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for Derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on Derecognition is also recognized in profit or loss.

c) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

3 Significant accounting policies (continued)

3.7 Financial liabilities

a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and amortized cost.

At initial recognition, the Company measures a financial liability at its fair value plus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the financial liability. Transaction costs of financial liability carried at fair value through profit or loss are expensed in profit or loss.

b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to Statement of Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Amortized cost

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective interest rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

3.8 Low Interest and interest free loans

For all loans which are offered at a below-market rate or interest free, the Company considers the following aspects:

- All the terms and conditions of the loan
- Local market circumstances and the industry practice
- Interest rates currently charged by or offered to the entity for loans with similar risks and characteristics.

As per Ind AS 109, the Company recognizes all financial instruments including interest free loans, on initially recognition at their fair value.

Ind AS 109 requires the difference between the transaction price and the fair value of a low-interest or interest free loan to be recognised as a gain or loss (if the fair value is based on observable inputs), unless it qualifies for recognition as an asset or liability. This normally depends on the relationship between the lender and borrower or the reason for providing the loan.

On fair valuation of an interest-free loan from a parent to a subsidiary, the 'other component' being the difference between the fair value and the face value of the loan are considered as an equity infusion ('other equity') by the parent.

3 Significant accounting policies (continued)

3.9 Non-current assets held for sale

Non current assets, comprising of assets and liabilities are classified as held for sale if it is highly probable that they will be recovered primarily through a sale transaction rather than continuing use.

Such assets, are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification as held for sale and subsequent gains and issues on re- measurement are recognised in profit and loss.

Once classified as asset held for sale such investment property are no longer depreciated.

3.10 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;

- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

3.11 Provisions and contingent liabilities

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

The disclosure of contingent liability is made when, as a result of obligating events, there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

3.12 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.13 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated.

3 Significant accounting policies (continued)

3.14 Earnings per share

The basic earnings/(loss) per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3.15 Operating segments

In accordance with the requirements of Ind AS 108 - "Segment Reporting", the Company is primarily engaged in a business of real estate development and has no other primary reportable segments. The Board of Directors of the Company allocate the resources and assess the performance of the Company, thus are the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of the business as a single segment, hence no separate segment needs to be disclosed. Thus the segment revenue, segment result, total carrying amount of segment assets, total carrying amount of segment liabilities, total cost incurred to acquire segments assets, the total amount of charge for depreciation and amortisation during the year are all as reflected in the financial statements for the year ended 31 March 2020 and as on that date. As the Company operates in India only, hence no separate geographical segment is disclosed.

3.16 Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3.17 Recent accounting pronouncements (Standards effective from 1st April, 2020)

(A) Issue of Ind AS 117

Insurance Contracts Ind AS 117 supersedes Ind AS 104 Insurance contracts. It establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. Under the Ind AS 117 model, insurance contract liabilities will be calculated as the present value of future insurance cash flows with a provision for risk. Application of this standard is not expected to have any impact on the Company's financial statements.

(B) Amendments to existing Standards

Ministry of Corporate Affairs has carried out amendments of the following accounting standards:

1. Ind AS 103 – Business Combination
2. Ind AS 1, Presentation of Financial Statements and Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
3. Ind AS 40 – Investment Property

The Company is in the process of evaluating the impact of the new amendments issued but not yet effective.

4 Investment property

Description	Tangible Assets	Total

Direct operating expenses (including repairs and maintenance) generating rental income	(6,264.51)	(5,647.81)
Loss arising from investment properties before depreciation and indirect expenses	(6,264.51)	(5,647.81)
Less: Depreciation	-	-
Loss arising from investment properties	(6,264.51)	(5,647.81)

ii) Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the non-availability of the business plan for the property, the external independent valuer has used "Income Approach- Discounted cash flow method" method approach for assessing the fair value of the property.

The "Income Approach- Discounted cash flow method" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable. Using this valuation method, future cash flows from the property are forecasted using precisely stated assumptions. This method allows for the explicit modelling of income associated with the property. These future financial benefits are then discounted to a present day value at an appropriate discount rate.

4 Investment property (continued)

Note (continued):

iii) Restriction on realisability

a) Karnataka Industrial Area Development Board (KIADB) has allotted 78.2219 acres of land to the Company on lease-cum-sale basis. Of the above, 58 acres of land is leased for a period of 20 years and 20.2219 acres is for a period of 11 years. The allotment is to develop infrastructure facilities for IT/ITES companies. In accordance with the terms of agreement with KIADB, a consideration of Rs 398,762.84 thousands has been paid to KIADB and Rs 33,700.58 thousands towards stamp duty. The agreement gives a right to the Company to acquire land at the end of the lease term for no additional consideration. However, if KIADB incurs any further cost towards settlement to the previous owners, KIADB has the right to recover the additional consideration from the Company. During the period of the lease term till transfer of ownership, the Company is required to pay a nominal rent of Rs 78,550 per annum. As at the balance sheet date, as KIADB has not intimated any additional consideration, the Management believes that no further cost is required to be paid to KIADB.

The above land includes 18 acres of land which has been sub-leased to a party for a total consideration of Rs 333,234 thousand under a lease cum sale agreement. Accordingly, the proportionate cost of such 18 acres of land has been classified as assets held for sale - refer note 9 to the financial statements.

b) The aforementioned parcel of land was subject to litigation between the Range Forest Officer, Bangalore and the Company. The Range Forest Officer had issued notice vide No. 176/2007-2008 to the Company alleging that the land allotted by KIADB to the Company is a forest land and the Company is in unauthorised occupation of the forest land. Aggrieved by the said notice, the Company had filed a writ petition before the Honourable High Court of Karnataka appealing for quashing of the said notice issued by the Forest Department. The Honourable High Court of Karnataka on 25 May 2012 has allowed the writ petition no. 7200/2008 filed by the Company confirming that the land allotted by KIADB is not a forest land. Aggrieved by the said order dated 25 May 2012, the Forest Department has filed an appeal vide W.A. 4283/2012 before the Honourable High Court of Karnataka. The Company has also filed an appeal vide W.A. 4205/2012 seeking certain clarifications on certain observations made in the order dated 25 May 2012. The Honourable High Court of Karnataka, on 23 July 2019 has dismissed the appeal filed by the Forest Department vide W.A. 4283/2012 and also disposed of the appeal filed by the Company vide W.A. 4205/2012.

(c) Rights, entitlements and obligations of different classes of shares

Effective 22 August 2008, the Company entered into a tripartite Shareholders Agreement ("the Agreement") with its shareholders i.e. Embassy Property Developments Private Limited and Florence Investments Limited ("the Shareholders"). The significant terms of the Agreement and the rights of Shareholders are mentioned hereunder:

Embassy Property Developments Private Limited shall hold 382,614 class A equity shares of Rs 10 each carrying 51% voting rights and 98% economic interest in the Company. Florence Investments Limited shall hold 367,610 class B equity shares of Rs 10 each carrying 49% voting rights and 2% economic interest in the Company. During the year ended March 31, 2020, the Company has amended the Articles of Association by passing a special resolution in the EGM held on 13 December 2019 to align the economic interest of the shareholders in the proportion of the shareholding of the respective members. Consequently Effective 07 January 2020, the Company entered into a tripartite Shareholders Agreement ("the Agreement") with its shareholders i.e. Embassy Property Developments Private Limited and Florence Investments Limited ("the Shareholders").

The Company declares and pays dividends in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company after distribution of all preferential amounts. However, no such preferential amounts exist currently. The distribution will be in proportion to the number of equity shares held by the shareholders.

(d) Buy back of shares and shares allotted by way of bonus shares

The Company has not allotted any fully paid up equity shares by way of bonus shares nor has it bought back any class of equity shares during the period of five years immediately preceding the balance sheet date nor has it issued shares for consideration other than cash.

Reimbursement of expenses	-	27.15
	400.00	427.15

22 Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit/(loss) attributable to equity holders (after adjusting for saving in interest or dividend expenses, net of taxes) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019
Comprehensive loss for the year attributable to equity shareholders**		
- Class A (Mar-19 - representing 98% of economic interest)	-	(20,046.06)
- Class B (Mar-19 - representing 2% of economic interest)	-	(19,259.95)
- Equity shares	(9,541.29)	-
Weighted average number of equity shares outstanding during the year		
<i>Equity shares of Rs 10 each, fully paid</i>

Note

Transactions with related parties have been shown after giving effect to the impact of reclassifications into liability and equity and adjustments arising on account of effective interest rate method under Ind AS.

There was no managerial remuneration payable/paid to directors during the year (previous year: Nil).

24 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "real estate development"). Accordingly, separate disclosures per the requirements of Ind AS 108, Operating Segments, are not considered necessary. The Company operates only in India. Hence no disclosure is considered necessary. However, the Company has not commenced its operations as at the year end.

Notes to the financial statements

(All amounts are in thousands unless otherwise stated)

- 25 The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro, Small and Medium Enterprises Development Act, 2006' ('the MSMED Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2020 has been made in the financial statements based on information received and available with the Company. The Company does not have any interest dues to micro and small enterprises as at 31 March 2020 (31 March 2019 - Nil):

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Company can use the benefits therefrom:

Particulars	As at 31 March 2020	As at 31 March 2019
Unused tax losses	2,28,580.89	2,18,544.62
	2,28,580.89	2,18,544.62

- 27 On 6th July 2018, the company has provided leasehold land of 60 acres held by the company as a security for loan taken by a Private Limited Company in which a director is interested, as per the requirement of Section 185 of the Companies Act, 2013, No company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person whom a directly is interested. Accordingly the aforesaid guarantee given by the company is not in compliance with the requirement of the Act. However, the above guarantee is outstanding as on the Balance Sheet date.
- 28 The Company outsources its manpower and technology assistance requirements and does not have any employees on its rolls and hence does not incur any employee related benefits/ costs.
- 29 The Company did not have any income or expenditure in foreign currency during the current year and the previous year.
- 30 **Expenditure on Corporate Social Responsibility activities**
Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2020 and 31 March 2019.

Notes to the financial statements

(All amounts are in thousands unless otherwise stated)

31 Financial instruments

The carrying value and fair value of financial instruments by categories are as below:

	Carrying value		Fair value	
	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019
Financial assets				
Amortised cost				
Cash and cash equivalents	2,476.63	8,730.72	-	-
Total assets	2,476.63	8,730.72	-	-
Financial liabilities				
Amortised cost				
Borrowings	1,72,744.20	2,12,491.65	-	-
Other financial liabilities	3,039.51	2,551.43	-	-
Total liabilities	1,75,783.71	2,15,043.08	-	-

The management assessed that the carrying value of cash and cash equivalents, loans and advances, advance recoverable and interest accrued approximate their fair value largely due to the short term nature.

Notes to the financial statements

(All amounts are in thousands unless otherwise stated)

32 Financial risk management

The Company has exposure to following risks arising from financial instruments-

- credit risk
- market risk
- liquidity risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Company's cash and cash equivalents and loans. The carrying amount of financial assets represents the maximum credit

Cash and cash equivalents

The Company holds cash and cash equivalents of ₹ 2,476.61 thousands at 31 March 2020 (31 March 2019: ₹ 8,730.72 thousand). The cash and cash equivalents are mainly held with banks which are highly rated. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of counterparties.

(b) Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's income and its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Company operates domestically. There are no foreign exchange transactions in the year of reporting.

(ii) Interest rate risk

The Company's borrowings represents loan from related party and the same is interest free. Accordingly the Company does not have any interest rate

(d) Liquidity Risk

Liquidity is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing the liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below details the Company's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Particulars	Carrying value	Contractual cash flows			
		Total	1 year or less	1 year to 3 years	3 to 5 years more than 5 years
31 March 2020					
Borrowings	1,72,744.20	1,72,744.20	1,72,744.20	-	-
Other financial liabilities	3,039.51	3,039.51	3,039.51	-	-
	1,75,783.71	1,75,783.71	1,75,783.71	-	-
31 March 2019					
Borrowings	2,12,491.65	2,12,491.65	2,12,391.65	100.00	-
Other financial liabilities	2,551.43	2,551.43	2,551.43	-	-
	2,15,043.07	2,15,043.07	2,14,943.07	100.00	-

Notes to the financial statements

(All amounts are in thousands unless otherwise stated)

33 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening balance 1 April 2019	Cash flows		Non cash movement		Closing balance 31 March 2020
		Proceeds	Repayments	Repayments adjusted with loans and advances	(including fair value changes)	
Proceeds from borrowings	2,12,491.65	5,252.55	-	(45,000.00)	-	1,72,744.20
Total changes from movement in financing activity	2,12,491.65	5,252.55	-	(45,000.00)	-	1,72,744.20

34 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a ratio of net adjusted debt to equity. For this purpose, adjusted net debt is defined as total liabilities, comprising trade payables and other liabilities less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2020 was as follows.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	As at 31 March 2020	As at 31 March 2019
Total liabilities	5,10,293.27	5,52,003.40
Less: Cash and cash equivalents	2,476.63	8,730.72
Adjusted net debt	5,07,816.64	5,43,272.67
Total equity	(69,850.99)	(60,309.69)
Adjusted equity	(69,850.99)	(60,309.69)
Adjusted net debt to equity ratio	(7.27)	(9.01)

35 Previous year figures have been regrouped / reclassified, where necessary, to confirm to current year's classification.

36 Impact of COVID 19

The Company has considered the possible effects that may result from the pandemic relating to COVID-19. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of the assets will be recovered. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings in view of COVID – 19 as at the date of approval of these financial statements. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

37 The financial statements of the Company for the year ended 31 March 2019 have been audited by M/s.BSR & Associates LLP .

INDEPENDENT AUDITORS' REPORT

To the Members of Concord India Private Limited

Report on the Audit of the Standalone Financial Statements

Qualified Opinion

We have audited the standalone financial statements of Concord India Private Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2019, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis of qualified opinion paragraph, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

- a) As stated in note 27 to the standalone financial statements, the Company has:
- i) received an additional loan of Rs 22,150.26 thousands from its holding company during the financial year 2018-19 (aggregate gross outstanding of Rs 113,747.46 thousands as at 31 March 2019); and
 - ii) provided leasehold land held by it as a security for loan taken by the holding company from a bank;

in which a director is interested. As per the requirements of section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a director is interested. Accordingly the aforementioned loan received and security given by the Company is not in compliance with the requirements of the Act. Impact of this non-compliance has not been quantified by the Company.

- b) As stated in note 29 to the standalone financial statements, the Company has advanced a sum of Rs 45,000.00 thousands towards an unrelated party (seller) for purchase of land. However, as of date, the transaction has not been consummated and there is no balance confirmation provided by the seller. While Management continues to represent that these advances are recoverable, considering the elapse of time and considering that these advances are not secured, we are unable to comment on the recoverability of these amounts and the consequent impact, if any on the financial statements for the year ended 31 March 2019.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the standalone Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Concord India Private Limited
Independent Auditor's Report (Continued)

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's directors' report, but does not include the financial statements and our Auditor's report thereon. The Company's directors' report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Company's directors' report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

Concord India Private Limited
Independent Auditor's Report (Continued)

Auditor's Responsibilities for the Audit of the Standalone Financial Statements (continued)

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. The report does not include a statement on the matters specified in paragraphs 3 and 4 of the Companies (Auditors' Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section 11 of section 143 of the Act, since in our opinion and according to the information and explanations given to us, the said Order is not applicable to the Company.

Concord India Private Limited
Independent Auditor's Report (Continued)

Report on Other Legal and Regulatory Requirements (continued)

2. As required by Section 143(3) of the Act, we report that:

- a) Expect for the matter stated in the qualified opinion paragraph, we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, expect for the matter stated in the qualified opinion paragraph, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, expect for the matter stated in the qualified opinion paragraph, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f) The Company has been exempted from the requirement of its Auditor reporting on whether the company has adequate internal financial control system in place and the operating effectiveness of such control as per clause (i) of section 143(3); and
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations as at 31 March 2019 on its financial position in its standalone financial statements - Refer Note 4 to the standalone financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2019.

Concord India Private Limited
Independent Auditor's Report (Continued)

Report on Other Legal and Regulatory Requirements (continued)

h) With respect to the matter to be included in the Auditor's Report under Section 197(16):

The Company is a private limited company and accordingly the provisions of Section 197 read with Schedule V to the Act are not applicable to the Company.

Date: 21st August, 2019

1 Reporting Entity

Concord India Private Limited ("CIPL" or "the Company"), is a private limited company incorporated on 15 February 1973 as a public limited company and was later converted into a private limited company on 9 April 2008. The Company has been formed primarily for the purpose of real estate development. The Company is a subsidiary of Embassy Property Developments Private Limited, a private company.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on accrual basis as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements were authorized for issue by the Company's Board of Directors on 21 August 2019.

Details of the Company's accounting policies are included in Note 3.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest thousands, unless otherwise indicated.

2.3 Use of going concern assumptions

The Company's Ind AS financial statements have been prepared on a going concern basis even though the Company has a negative net worth of INR 60,309.68 thousand as at 31 March 2019 and has incurred a net loss of INR 39,306.01 thousand for the year ended 31 March 2019. Further, the Company's current liabilities exceeded its current assets by INR 542,062.64 thousand as at that date. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on financial support committed to the Company by the holding company, Embassy Property Developments Private Limited, as well as the market value of the underlying leasehold land held by the Company.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.4 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.5 Use of estimates and judgements

In preparing these financial statements, management has made judgements estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Formation about judgements, estimates and assumptions in applying the accounting policies that have a significant effect on the amount recognised in the financial statements are included in the following note:

- note 4: Classification of leasehold land as investment property

2.6 Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a management oversight that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Board of Directors. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified. Significant valuation issues are reported to the Company's Board of Directors.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The company recognizes transfers between levels of fair value hierarchy at the end of the year during which the change has occurred.

3 Significant accounting policies

3.1 Impairment of assets

The Company recognizes loss allowances for expected credit losses on:

- financial assets measured at amortized cost; and
- financial assets measured at FVOCI- debt investments.

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 90 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- the financial asset is 90 days or more past due.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The Company's non-financial assets and inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

3.2 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment, inclusive of excise duty and net of taxes or duties collected on behalf of the government. The Company has concluded that it is the principal in all of its revenue arrangements since it is the primary obligor in all the revenue arrangements as it has pricing latitude and is also exposed to inventory and credit risks.

Sales tax/ value added tax (VAT) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

The specific recognition criteria described below must also be met before revenue is recognised.

Lease/sub-lease rental income is recognised when right to receive such income is established in accordance with the terms of the contract with the clients

3.3 Recognition of, interest income or expense

Interest expense/ income is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortized cost of financial instrument.

In calculating interest expense, the effective interest rate is applied to the amortized cost of the liability.

3 Significant accounting policies (continued)

3.4 Leases

Leases of property, plant and equipment where the Company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.5 Investment Property

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued

3.6 Investments and other financial assets

a). Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

b) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortized cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit or loss.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment- by- investment basis. All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

3 Significant accounting policies (continued)

3.6 Investments and other financial assets (continued)

b) Classification and subsequent measurement (continued)

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for Derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on Derecognition is also recognized in profit or loss.

c) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

3.7 Low Interest and interest free loans

For all loans which are offered at a below-market rate or interest free, the Company considers the following aspects:

- All the terms and conditions of the loan
- Local market circumstances and the industry practice
- Interest rates currently charged by or offered to the entity for loans with similar risks and characteristics.

As per Ind AS 109, the Company recognizes all financial instruments including interest free loans, on initially recognition at their fair value.

Ind AS 109 requires the difference between the transaction price and the fair value of a low-interest or interest free loan to be recognised as a gain or loss (if the fair value is based on observable inputs), unless it qualifies for recognition as an asset or liability. This normally depends on the relationship between the lender and borrower or the reason for providing the loan.

On fair valuation of an interest-free loan from a parent to a subsidiary, the 'other component' being the difference between the fair value and the face value of the loan are considered as an equity infusion ('other equity') by the parent.

3 Significant accounting policies (continued)

3.8 Non-current assets held for sale

Non current assets, comprising of assets and liabilities are classified as held for sale if it is highly probable that they will be recovered primarily through a sale transaction rather than continuing use.

Such assets, are generally measured at the lower of their carrying amount and fair value less costs to sell. Losses on initial classification as held for sale and subsequent gains and issues on re- measurement are recognised in profit and loss.

Once classified as asset held for sale such investment property are no longer depreciated.

3.9 Financial liabilities

a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and amortized cost.

At initial recognition, the Company measures a financial liability at its fair value plus, in the case of a financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the financial liability. Transaction costs of financial liability carried at fair value through profit or loss are expensed in profit or loss.

b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to Statement of Profit and Loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Amortized cost

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective interest rate (EIR) method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the Derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

3.10 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

3 Significant accounting policies (continued)

3.11 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except the extent that it relates to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

3.12 Provisions and contingent liabilities

Provisions are recognized when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

The disclosure of contingent liability is made when, as a result of obligating events, there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

3.13 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.14 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated.

3 Significant accounting policies (continued)

3.15 Earnings per share

The basic earnings/(loss) per share is computed by dividing the net profit/ (loss) attributable to owner's of the company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3.16 Operating segments

In accordance with the requirements of Ind AS 108 - "Segment Reporting", the Company is primarily engaged in a business of real estate development and has no other primary reportable segments. The Board of Directors of the Company allocate the resources and assess the performance of the Company, thus are the Chief Operating Decision Maker (CODM). The CODM monitors the operating results of the business as a single segment, hence no separate segment needs to be disclosed. Thus the segment revenue, segment result, total carrying amount of segment assets, total carrying amount of segment liabilities, total cost incurred to acquire segments assets, the total amount of charge for depreciation and amortisation during the year are all as reflected in the financial statements for the year ended 31 March 2019 and as on that date. As the Company operates in India only, hence no separate geographical segment is disclosed.

3.17 Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3.18 Recent accounting pronouncements

Ind AS 116, Leases

'On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 116, Lease.

Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lessee accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. The standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is financial periods beginning on or after April 1, 2019. The Company is in the process of assessing the impact of adoption of Ind AS 116 on its financial statements.

Ind AS 12 Income taxes Appendix C (amendments relating to uncertainty over income tax treatments)

'On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2019 containing Appendix C to Ind AS 12.

Appendix C to Ind AS 12 applies while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

It outlines the following: (1) the entity has to use judgment, to determine whether each tax treatment should be considered separately or whether some can be considered together. The decision should be based on the approach which provides better predictions of the resolution of the uncertainty (2) the entity is to assume that the taxation authority will have full knowledge of all relevant information while examining any amount (3) entity has to consider the probability of the relevant taxation authority accepting the tax treatment and the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates would depend upon the probability.

The effective date for adoption of Ind AS 12 Appendix C is financial periods beginning on or after 1 April 2019. The Company has evaluated the effect of this on the financial statements and the impact is not expected to be material.

Ind AS 12 Income tax (amendments relating to income tax consequences of dividend)

On 30 March 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

The effective date for adoption of this amendment is financial periods beginning on or after 1 April 2019. The Company has evaluated the effect of this on the financial statements and the impact is not expected to be material.

Balance as at 31 March 2019	1,39,79,000.00	1,39,79,000.00

Note:

i) Amounts recognised in profit and loss for investment property

	31 March 2019	31 March 2018
Rental income derived from investment properties	-	-
Direct operating expenses (including repairs and maintenance) generating rental income	(5,569.26)	(5,176.35)
Loss arising from investment properties before depreciation and indirect expenses	(5,569.26)	(5,176.35)
Less: Depreciation	-	-
Loss arising from investment properties	(5,569.26)	(5,176.35)

ii) Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the non-availability of the business plan for the property, the Company has used "Direct Comparison" method approach for assessing the fair value of the property.

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

4 Investment property (continued)

Note (continued):

iii) Restriction on realisability

a) Karnataka Industrial Area Development Board (KIADB) has allotted 78.2219 acres of land to the Company on lease-cum-sale basis. Of the above, 58 acres of land is leased for a period of 20 years and 20.2219 acres is for a period of 11 years. The allotment is to develop infrastructure facilities for IT/ITES companies. In accordance with the terms of agreement with KIADB, a consideration of Rs 398,762.84 thousands has been paid to KIADB and Rs 33,700.58 thousands towards stamp duty. The agreement gives a right to the Company to acquire land at the end of the lease term for no additional consideration. However, if KIADB incurs any further cost towards settlement to the previous owners, KIADB has the right to recover the additional consideration from the Company. During the period of the lease term till transfer of ownership, the Company is required to pay a nominal rent of Rs 78,550 per annum. As at the balance sheet date, as KIADB has not intimated any additional consideration, the Management believes that no further cost is required to be paid to KIADB.

The above land includes 18 acres of land which has been sub-leased to a party for a total consideration of Rs 333,234 thousand under a lease cum sale agreement. Accordingly, the proportionate cost of such 18 acres of land has been classified as assets held for sale - refer note 10 to the financial statements.

b) The aforementioned parcel of land is currently subject to litigation between the Range Forest Officer, Bangalore and the Company. The Range Forest Officer had issued notice vide No. 176/2007-2008 to the Company alleging that the land allotted by KIADB to the Company is a forest land and the Company is in unauthorised occupation of the forest land. Aggrieved by the said notice, the Company had filed a writ petition before the Honourable High Court of Karnataka appealing for quashing of the said notice issued by the Forest Department. The Honourable High Court of Karnataka on 25 May 2012 has allowed the writ petition no. 7200/2008 filed by the Company confirming that the land allotted by KIADB is not a forest land. Aggrieved by the said order dated 25 May 2012, the Forest Department has filed an appeal vide W.A. 4283/2012 before the Honourable High Court of Karnataka. The Company has also filed an appeal vide W.A. 4205/2012 seeking certain clarifications on certain observations made in the order dated 25 May 2012. Both these appeals are admitted and are pending for final hearing. In view of the order of the Honourable High Court dated 25 May 2012 confirming that the land allotted by KIADB is not a forest land, the Company contends that it has a good case on merits.

c) Owing to the litigation, the aforesaid parcel of land has not yet been registered in favour of the Company and continues to be classified as leasehold land (excluding the portion classified as 'held for sale').

Non-current assets

(c) Rights, entitlements and obligations of different classes of shares

Effective 22 August 2008, the Company entered into a tripartite Shareholders Agreement ("the Agreement") with its shareholders i.e. Embassy Property Developments Private Limited and Florence Investments Limited ("the Shareholders"). The significant terms of the Agreement and the rights of Shareholders are mentioned hereunder:

Embassy Property Developments Private Limited shall hold 382,614 class A equity shares of Rs 10 each carrying 51% voting rights and 98% economic interest in the Company. Florence Investments Limited shall hold 367,610 class B equity shares of Rs 10 each carrying 49% voting rights and 2% economic interest in the Company.

Florence Investments Limited had, by 31 December 2013, the right to subscribe to compulsorily convertible debentures of the Company at a price not less than Rs 2,900 per debenture or an amount mutually agreed between the Company and the shareholders with a right to convert such compulsorily convertible debentures into equity.

Upon the aforesaid conversion of compulsorily convertible debentures into equity, the economic interest of Florence Investments Limited shall stand revised to 49%. However, this right has not been exercised till date.

Embassy Property Developments Private Limited shall have majority representation on the Board of Directors.

Florence Investments Limited has rights to dividend and capital distribution of total of 2% of total economic interest (they will be entitled to 2% of the amount declared as dividend subject to applicable taxes and 2% of the total proceeds as and when the company's assets and liabilities are distributed among the share holders or on liquidation).

In the event Florence Investments Limited seeks to exit its investment in the Company then Embassy Property Developments Private Limited shall hold the first right of refusal to buy the shares.

(d) Buy back of shares and shares allotted by way of bonus shares

The Company has not allotted any fully paid up equity shares by way of bonus shares nor has it bought back any class of equity shares during the period of five years immediately preceding the balance sheet date nor has it issued shares for consideration other than cash.

	427.15	408.15

23 Earnings/ (loss) per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit/(loss) attributable to equity holders (after adjusting for saving in interest or dividend expenses, net of taxes) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

Particulars	Rs in thousands except per share data	
	For the year ended 31 March 2019	For the year ended 31 March 2018

The Company has given its leasehold land as a secondary security for a loan of Rs 10,000,000 thousands taken by Embassy Property Developments Private Limited, the holding company.

Note

Transactions with related parties have been shown after giving effect to the impact of reclassifications into liability and equity and adjustments arising on account of effective interest rate method under Ind AS.

There was no managerial remuneration payable/paid to directors during the year (previous year: Nil).

25 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "real estate development"). Accordingly, separate disclosures per the requirements of Ind AS 108, Operating Segments, are not considering necessary. The Company operates only in India. Hence no disclosure is considered necessary. However, the Company has not commenced its operations as at the year end.

- 26 The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro, Small and Medium Enterprises Development Act, 2006' ('the MSMED Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2019 has been made in the financial statements based on information received and available with the Company. The Company does not have any interest dues to micro and small enterprises as at 31 March 2019 (31 March 2018 - Nil):

Particulars	Rs in thousands	
	Year ended 31 March 2019	Year ended 31 March 2018
The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year;		
(a) (i) Principal	488.51	318.36
(ii) Interest	-	-
(b) The amount of interest paid by the Company in terms of Section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amounts of the payment made to the supplier beyond the appointed day during the year*;		
(i) Interest	-	-
(ii) Payment	-	-
(c) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006	-	-
(d) The amount of interest accrued and remaining unpaid at the end of the year	-	-
(e) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006	-	-

* No interest has been paid by the Company during the year.

- 27 During the year, the Company has adjusted an amount of Rs. 156,560.69 thousand towards repayment of the loan taken and has received an additional loan of Rs 22,150.26 thousands (outstanding of Rs 113,747.46 thousands as at 31 March 2019) from its holding company in which a director is interested. As per the requirements of Section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a Director is interested. Accordingly the aforementioned loan received by the Company is not in compliance with the requirements of the Act.
- 28 During the previous year, the Company has provided the leasehold land of 60 acres held by it as a security for loan taken by a private company in which a director is interested. As per the requirements of Section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a Director is interested. Accordingly the aforementioned security given by the Company is not in compliance with the requirements of the Act.
- 29 The Company has originally advanced an amount to a party of Rs 45,000.00 thousands towards purchase of land. Management continues to represent that the advance will be recoverable in full.

B Reconciliation of effective tax rate

Particulars	Rs in thousands	
	For the year ended 31 March 2019	For the year ended 31 March 2018
Accounting profit/ loss before income tax	(39,306.01)	(42,850.77)
Domestic tax rate	26.00%	25.75%
Tax using the Company's domestic tax rate	(10,219.56)	(11,034.07)
Effect of		
Current year losses for which no deferred tax asset is recognised	10,219.56	11,034.07
Income tax expense	-	-

Details of deferred tax		Rs in thousands	
Particulars		As at	As at
		31 March 2019	31 March 2018
Deferred tax liabilities			
Deferred tax liability on Interest free loans		16,600.92	27,538.25
Deferred tax assets			
Tax losses		(16,600.92)	(27,538.25)
		-	-

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Company can use the benefits therefrom:

Particulars	Rs in thousands	
	As at	As at
	31 March 2019	31 March 2018
Unused tax losses	2,18,544.62	1,37,479.31
	2,18,544.62	1,37,479.31

* Includes unused tax losses amounting to Rs. 23,368.56 thousands which will expire between the financial year 2019-20 and 2026-27.

- 31 The Company outsources its manpower and technology assistance requirements and does not have any employees on its rolls and hence does not incur any employee related benefits/ costs.
- 32 The Company did not have any income or expenditure in foreign currency during the current year and the previous year.
- 33 **Expenditure on Corporate Social Responsibility activities**
Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2019 and 31 March 2018.

34 Financial instruments

The carrying value and fair value of financial instruments by categories are as below:

Financial assets	Carrying value		Fair value	
	As at 31 March 2019	As at 31 March 2018	As at 31 March 2019	As at 31 March 2018
Amortised cost				
Cash and cash equivalents	8,730.72	526.15	-	-
Loans	-	1,33,234.00	-	-
Interest accrued	-	25,841.88	-	-
Total assets	8,730.72	1,59,602.03	-	-
Financial liabilities				
Amortised cost				
Borrowings	2,12,491.65	3,06,907.97	-	-
Other financial liabilities	2,551.44	2,100.23	-	-
Total liabilities	2,15,043.09	3,09,008.20	-	-

The management assessed that the carrying value of cash and cash equivalents, loans and advances, advance recoverable and interest accrued approximate their fair value largely due to the short term nature.

35 Financial risk management

The Company has exposure to following risks arising from financial instruments-

- credit risk
- market risk
- liquidity risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Company's cash and cash equivalents and loans. The carrying amount of financial assets represents the maximum credit exposure.

(i) Cash and cash equivalents

The Company holds cash and cash equivalents of Rs 8,730.72 thousands at 31 March 2019 (31 March 2018: Rs 526.15 thousand). The cash and cash equivalents are mainly held with banks which are highly rated. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of counterparties.

(ii) Loans

Particulars		Period ended	Asset Company	Gross amount	Expected credit losses	Net amount
Loss allowance measured at 12 month expected credit loss	Financial assets for which credit risk has not increased significantly since initial recognition	31-Mar-19	Loans and advances	-	-	-
Loss allowance measured at 12 month expected credit loss	Financial assets for which credit risk has not increased significantly since initial recognition	31-Mar-18	Loans and advances	1,33,234.00	-	1,33,234.00

(b) Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's income and its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Company operates domestically. There are no foreign exchange transactions in the year of reporting.

(ii) Interest rate risk

The Company's borrowings represents loan from related party and the same is interest free. Accordingly the Company does not have any interest rate risk.

(d) Liquidity Risk

Liquidity is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing the liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below details the Company's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Particulars	Carrying value	Contractual cash flows				
		Total	1 year or less	1 year to 3 years	3 to 5 years	more than 5 years
31 March 2019						
Borrowings	2,12,491.65	2,12,491.65	2,12,391.65	100.00	-	-
Other financial liabilities	2,551.44	2,551.44	2,551.44	-	-	-
	2,15,043.09	2,15,043.09	2,14,943.09	100.00	-	-
31 March 2018						
Borrowings	3,06,907.97	3,06,907.97	-	3,06,907.97	-	-
Other financial liabilities	2,100.23	2,100.23	2,100.23	-	-	-
	3,09,008.20	3,09,008.20	2,100.23	3,06,907.97	-	-

35 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening balance 1 April 2018	Cash flows		Non cash movement		Rs in thousands
		Proceeds	Repayments	Repayments adjusted with loans and advances	(including fair value changes)	Closing balance 31 March 2019
Proceeds from borrowings	3,06,907.97	22,150.26	(69.01)	(1,56,491.69)	39,994.12	2,12,491.65
Total changes from movement in financing activity	3,06,907.97	22,150.26	(69.01)	(1,56,491.69)	39,994.12	2,12,491.65

36 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a ratio of net adjusted debt to equity. For this purpose, adjusted net debt is defined as total liabilities, comprising trade payables and other liabilities less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2019 was as follows.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	As at 31 March 2019	As at 31 March 2018
Total liabilities	5,52,003.39	6,44,458.21
Less: Cash and cash equivalents	8,730.72	526.15
Adjusted net debt	5,43,272.67	6,43,932.06
Total equity	(60,309.68)	(3,550.14)
Adjusted equity	(60,309.68)	(3,550.14)
Adjusted net debt to equity ratio	(9.01)	(181.38)

37 Previous year figures have been regrouped / reclassified, where necessary, to conform to current year's classification.

Independent Auditor's Review Report

To the Board of Directors of Embassy East Business Park Private Limited

Review Report on Unaudited Special Purpose Interim Financial Statements

1. We have reviewed the accompanying Unaudited Special Purpose Interim Financial Statements of Embassy East Business Park Private Limited (the "Company"), which comprise the Unaudited Special Purpose Interim Balance Sheet as at December 31, 2021, the Unaudited Special Purpose Interim Statement of Profit and Loss (including Other Comprehensive Income) for nine months period ended on that date and other relevant explanatory notes and information (hereinafter referred to as the "Unaudited Special Purpose Interim Financial Statements"). The Unaudited Special Purpose Interim financial statements have been prepared by the management in accordance with Note 2.01 based on the preparation of the Unaudited Special Purpose Interim financial statements.
2. The management of the Company is responsible for the preparation and presentation of these Unaudited Special Purpose Interim Financial Statements in accordance with recognition and measurement principles laid down in Ind AS 34 'Interim Financial Reporting', and applicable Indian Accounting Standards ("IND-AS") issued by the Institute of Chartered Accountants of India (ICAI) and other recognised accounting practices and policies in India. The Unaudited Special Purpose Interim Financial Statements are the responsibility of the Company's management. Our responsibility is to express a conclusion on the Unaudited Special Purpose Interim Financial Statements based on our review.
3. We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Unaudited Special Purpose Interim Financial Statements have not been prepared in all material respects in accordance with recognition and measurement principles laid down in IND AS 34 'Interim Financial Reporting' and applicable Indian accounting standards issued by Institute of Chartered Accountants of India (ICAI) and other recognized accounting practices and policies in India.

Emphasis of Matter

5. We draw attention to Note 4 of the Unaudited Special Purpose Interim Financial Statements, which describes the ongoing litigations against the company. Our opinion is not modified in respect this matter.

We further draw reference to Note 5 and Note 6 of the Unaudited Special Purpose Interim Financial Statements which describes the terms and conditions of advance for property procurement advance and the details of the novation of the loan. Our opinion is not modified in this matter.

Basis of Preparation

6. Without modifying our opinion, we draw attention to note 2.1 to the Unaudited Special Purpose Interim Financial Statements, which describes the basis of preparation of the Unaudited Special Purpose Interim Financial Statements.

Restriction to use

7. This review report is issued at the request of the Company for submission to its holding company, NAM Estates Private Limited to enable it to prepare its unaudited special purpose interim consolidated financial statements and for use by management in the process of placement of equity shares of Rs 2 in an institutional placement in India to be issued by Indiabulls Real Estate Private Limited. These Unaudited Special Purpose Interim Financial Statements should not be used for any other purpose without our prior written consent.

1 Company background

Concord India Private Limited ("CIPL" or "the Company"), is a private limited company incorporated on 15 February 1973 as a public limited company and was later converted into a private limited company on 9 April 2008. The Company has been formed primarily for the purpose of real estate development. The Company is a subsidiary of NAM Estates Private Limited, a private limited company.

On 22 October 2020, the name of the Company has been changed from Concord India Private Limited to Embassy East Business Park Private Limited.

2 Basis of preparation of financial statements

2.1 Statement of compliance

These special purpose interim financial statements have been prepared to be included in the special purpose consolidated financial statement of Nam Estates Private Limited and to be presented in the private placement document, on a standalone basis, for the proposed fund raise by Indiabulls Real Estate Limited. This financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India. The comparative information as required by Ind AS 34 have not been presented. Selected notes have been included that are significant for the understanding of the changes in the Company's financial position and performance since the last annual financial statements, wherever applicable.

The Special Purpose interim financial statements for the period nine months ended 31st December, 2021 were authorised for issue by the Company's Board of Directors on 19th March, 2022.

2.2 Functional and presentation currency

These special purpose interim financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions, unless otherwise indicated.

2.3 Use of going concern assumptions

The Company's special purpose interim financial statements have been prepared on a going concern basis even though the Company has a negative net worth of ₹ 491.03 millions as at 31 December 2021 and has incurred a net loss of ₹ 473.13 millions for the period ended 31 December 2021. Further, the Company's current liabilities exceeded its current assets by ₹ 1,000.93 millions as at that date. The appropriateness of the going concern assumption on the basis of which these special purpose interim financial statements have been prepared is based on financial support committed to the Company by the holding company, NAM Estates Private Limited, as well as the market value of the underlying leasehold land held by the Company.

These special purpose interim financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.4 The significant accounting policies adopted in the preparation of these Special Purpose Interim financial statements is the same policies that have been consistently applied as per the previous audited financials statements.

(This space is intentionally left blank)

3 Capital Commitments and contingent liabilities

Particulars	As at 31 December 2021	As at 31 March 2021
Contingent liabilities		
a) The Company has given its leasehold land, i.e. investment property as an exclusive security for a loan taken by L J Victoria Private Limited and Embassy Inn Private Limited.	3,909.37	4,715.80
b) Liability regarding the Pay order towards BWSSB for the NOC and treated water fees	9.25	-
Capital commitments		
Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for	81.53	14.71

4 Other Litigations

A writ petition has been filed by certain parties against the Company and other respondents including KIADB and Embassy Property Developments Private Limited (EPDPL) claiming ownership to certain shareholding of the Company. Further, the petitioners have also alleged that the Company and other respondents have borrowed funds against the leasehold land held by the Company not in line with the terms and conditions of the lease cum sale agreement with KIADB.

On October 29, 2021, the Hon'ble Court has issued an interim order directing the Company not to create any further interest in the Schedule Property, and directed the KIADB not to issue NOCs for creating any further mortgages on the Schedule Property.

As per the legal opinion obtained by the management, the Company is of the view that the writ petitions filed by the petitioners do not have any merit as they are seeking to resolve a private dispute through the means of a writ petition. Further the Company based on the legal opinion obtained is of the view that the legal proceeding shall not have adverse effect on ownership or possession of the leasehold land allotted by the KIADB.

5 Terms & Conditions of Property Procurement Advance

Party Name	Amount	Purpose
NAM Estates Private Limited	8,394.12	Advance for the purpose of land acquisition

The Company has entered into an agreement with NAM Estates Private Limited during the period ended December 31, 2021 for an amount of ₹ 8,394.12 millions, towards acquisition of certain parcel of land. As per the agreement, NAM Estates is required to acquire and handover a parcel of land admeasuring about 60 acres to the Company within 24 months from the agreement date or such extended time as permitted by EEBPPL in its sole discretion. The parties to the agreement have agreed that in case of any default to the terms of agreement, a compensation shall be paid by NAM Estates Private Limited to the Company which shall be mutually decided.

As on the date on which Property Procurement Advance agreement becomes effective, the Company had an amount receivable (on account of Novation as stated in Note 6) from NAM Estates Private Limited which has been considered as payment under the said agreement.

6 Details of security, repayment and interest on term loans from NBFC (including current maturities of non-current borrowings):

a) The Company has a term loan facility of ₹ 8400 million due to a financial institution as on 22nd July 2021.

The above loan has been novated to the Company under a Novation agreement with Embassy Property Developments Private Limited (original borrower). Embassy Property Developments Private Limited under the Scheme of Arrangement, demerged the said loan to NAM Estates Private Limited approved by Regional Director on 06th August 2021 with effective from 01 April, 2020.

b) Repayment and Interest Terms

Particulars	As at 31st December 2021	As at 31st March 2021
India Bulls Housing Finance Limited		
The loan has a moratorium for repayment/payment of principal amount of the loan for the initial 36 months. The loan carries an interest rate of 12.45% p.a.	8,394.12	-

c) The term loan is secured against all the pieces and parcel of land bearing Plot No 6 in Sy. No. 73 in the Kadugodi Industrial Area within the limits of Kadugodi Plantation village, Bidarahalli Village Bidarahalli Hobli, Bangalore East Taluka, Bangalore district in all measuring 58 acres.

d) A corporate guarantee has been given by Embassy Property Developments Private Limited.

*Shares transferred pursuant to Scheme of amalgamation/demerger of Embassy Property Developments Private Limited with NAM Estates Private Limited, approved by Regional Director on 06th August 2021, the Intercorporate Deposit shall be moved to NAM Estates Private Limited.

Note

Transactions with related parties have been shown after giving effect to the impact of reclassifications into liability and equity and adjustments arising on account of effective interest rate method under Ind AS.

There was no managerial remuneration payable/paid to directors during the year (previous year: Nil).

8 Uncertainty relating to the global health pandemic on COVID-19:

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on revenue recognition, investment property (including under development), property, plant and equipment, capital work in progress, and receivables. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information, economic forecasts and consensus estimates from market sources on the expected future performance of the Company and have compared the actual performance with the projections and expects the carrying amount of these assets as reflected in the balance sheet as at 31 December 2021 will be recovered. The management has also estimated the future cash flows with the possible effects that may result from the COVID-19 pandemic and does not foresee any adverse impact on realising its assets and in meeting its liabilities as and when they fall due. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Summit Developments Private Limited** ("the Company"), which comprise the balance sheet as at 31st March 2021, and the statement of Profit and Loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "**Annexure A**" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report agree with the books of account.
 - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e. On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors are disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure B**”.
 - g. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The company has disclosed the impact of pending litigations on its financial position in its financial statements – refer note no.16 to the financial statements.
 - ii. The company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
3. With respect to the matter to be included in the Auditor’s Report under Section 197(16):
- In our opinion and according to the information and explanation given to us, the Company is a private limited company and accordingly provision of section 197 of the Act is not applicable to the Company.

Summit Developments Private Limited

Annexure A to the Independent Auditors' Report

The Annexure A referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report to the Members of Summit Developments Private Limited ('the Company') for the year ended 31 March 2021, we report that:

- (i) (a) & (b) The company does not hold any property, plant & equipment except a parcel of freehold land and hence paragraph 3(i)(a) and (b) of the order is not applicable.
 - (c) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the company, the title deeds of all the immovable properties are held in the name of the Company.
- (ii) The Company is primarily engaged in the business of development real estate development. Accordingly, it does not hold any physical inventories. Thus, paragraph 3(ii) of the Order is not applicable to the Company.
- (iii) The Company has granted loans to a company covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act').
 - (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the terms and conditions of the Intercompany Deposit (loan) granted by the Company to the company covered in the register maintained under section 189 of the Companies Act, 2013, the Intercompany Deposit (loan) given is prejudicial to the interest of the Company, as disclosed below.
 - (b) In the case of the Intercompany Deposit (loan) granted to the company listed in the register under Sec 189 of the Act, the stipulation as to repayment of principle as specified below.
 - (c) The principal is repayable on demand and hence, there is no overdue as on date in the case of the Intercompany Deposit (loan) granted to the company listed in the register under Sec 189 of the Act.

Name of the company	Amount of Inter corporate Deposit (loan) given during the year (Rs in thousands)	Amount as at 31 March 2021 (Rs in thousands)	Terms
Embassy Property Developments Private Limited (erstwhile holding company) now NAM Estates Private Limited (w.e.f 01/04/2020, refer note 10 in the financial statements)	Nil	548,180.80	Interest free Inter Corporate Deposit repayable on demand.

- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and Section 186 of the Act.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.
- (vii)
- a) In our opinion and according to information and explanations given to us and basis of our examination of the records of the company, amounts deducted/accrued in the books of account in respect undisputed statutory dues including income taxes, Goods and service tax and any other statutory dues applicable to it have been regularly deposited during the year by the Company with appropriate authorities.
- In our opinion and according to the information and explanation given to us, no disputed amounts payable in respect of income tax, goods and service tax and any other statutory dues were in arrears as at 31st March 2021 for a period of more than six month from the date they became payable.
- b) In our opinion and according to the information and explanations given to us, there are no dues of income tax, goods and service and any other statutory dues which have not been deposited of account of any dispute.

- (viii) In our opinion and according to the information and explanation given to us, the Company has not defaulted in repayment of outstanding debentures during the year. The Company did not have any outstanding loans or borrowings from any financial institution or bank or government.
- (ix) In our opinion and according to the information and explanation given to us, no money was raised by the way of public issue/follow-on-offer (inclusive debt instruments). The Company did not have any term loans outstanding during the year.
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no material fraud by the Company or no material fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- (xi) According to the information and explanations given by the management, the provisions of section 197 read with Schedule V of the Act are not applicable to the Company and hence reporting under clause 3(xi) are not applicable and hence not commented upon.
- (xii) In our opinion, the Company is not a Nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards. The provisions of section 177 are not applicable to the company and accordingly reporting under clause 3(xiii) insofar as it relates to section 177 of the Act is not applicable to the Company and hence not commented upon.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) of the Order are not applicable to the Company and, not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.

- (xvi) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

Annexure – B to the Independent auditor’s report of even date on the financial statements of Summit Developments Private Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Summit Developments Private Limited (“the Company”) as of March 31, 2021, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

2 Basis of preparation

2.01 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 prescribed under Section 133 of the Companies Act, 2013 ('Ind AS'), read with relevant rules issued thereunder and other accounting principles generally accepted in India, and other relevant provisions of the Act.

The financial statements were approved for issue by the Company's Board of Directors on 13th October, 2021.

2.02 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded -off to the nearest thousands, unless otherwise indicated.

2.03 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values.

2.04 Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

2.05 Judgements

Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 3.03: Classification and recognition of fair value changes in embedded derivatives

2.06 Use of going concern assumptions

The Company's financial statements have been prepared on a going concern basis notwithstanding the fact that it has a negative net worth of Rs.104,97,021.44 thousand as at 31 March 2021 and has incurred a net loss of Rs. 68,33,799.91 thousand during year ended 31 March 2021. Further, the Company's current liabilities exceeded its current assets by Rs. 122,76,538.20 thousand as at that date. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on financial support committed to the Company by the holding company.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

3 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.01 Recognition of dividend income, interest income and expense

a) Dividend income

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

b) Interest income and expense

Interest income or expense is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of a financial asset; or
- the amortised cost of financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.02 Financial Instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial assets or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at,

- amortised cost
- Fair value through other comprehensive income (FVOCI) - debt investment;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- Fair value through profit & loss- (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in investment's fair value in OCI (designated as FVOCI - equity investment). The election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets.

On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to the management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risk that affects the performance of the business model (and the financial asset held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of the financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

ii. Classification and subsequent measurement (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

To assess whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate futures;
- prepayments and extension features; and
- terms that limits the Company's claim to cash flows from specified assets (e.g. non-recourse feature)

A prepayment feature is consistent with the solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost :

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt investments at FVOCI:

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI:

These assets are subsequently measured at fair value. Dividends are recognised as income profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial liabilities : Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit and loss.

iii. Derecognition

Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of the ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all the risks and rewards of the transferred assets, the transferred assets are not derecognised.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

iii. Derecognition (continued)

Financial Liabilities

The Company derecognises a financial liability when the contractual obligations are discharged or cancelled, or expire.

The Company derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the extinguished liability and the new financial liability with modified terms is recognised in profit and loss.

iv. Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.03 Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the group does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

3.04 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.05 Investment Property

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying values as at 1 April 2015 under previous GAAP of all its property, plant and equipment recognised as at 1 April 2015, measured as per previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment.

3 Significant accounting policies (continued)

3.06 Taxes

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantially enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT')

MAT paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.07 Provisions

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-fix rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

3.08 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

3.09 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated.

3.10 Earnings per share

The basic loss per share is computed by dividing the net profit/ (loss) attributable to owner's of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3 Significant accounting policies (continued)

3.11 a. Exemption from preparation of consolidated financial statements:

As per Ind AS 110, paragraph 4(a), a Parent company need not present consolidated financial statements if it meets following conditions:

i) It is a wholly owned subsidiary or is a partially owned subsidiary of another company and all its other members, including those not otherwise entitled to vote, have been intimated in writing and for which the proof of delivery of such intimation is available with the company, do not object to the company not presenting consolidated financial statements.

ii) Its ultimate or intermediate holding company files the consolidated financial statements with the registrar which are in compliance with the applicable accounting standards.

The financials statements are separate financial statements and the exemption from consolidation has been used, as the parent company informed the other shareholders about its intention of not presenting consolidated financial statements.

i) Amounts recognised in profit and loss for investment property	31st March 2021	31st March 2020
Rental income derived from investment properties	-	-
Less: Direct operating expenses from property that generated rental income (including repairs and maintenance)	-	-
Less: Direct operating expenses from property that did not generate rental income (including repairs and maintenance)	(195.80)	(518.59)
Loss arising from investment properties before depreciation and indirect expenses	(195.80)	(518.59)
Less: Depreciation and amortisation	-	-
Loss arising from investment properties	(195.80)	(518.59)

ii) Restriction on realisability

The Company has no restrictions on the realisability of its investment property.

iii) Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the non availability of the business plan for the property, the Company has used "Direct Comparison" method approach for assessing the fair value of the property.

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

	12,17,494.30	12,17,494.30

- (i) The Company has made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216.04 acres of land in Bengaluru. The Company had made an advance payment of Rs 1,217,494.30 thousands in earlier years in accordance with the demand request raised by KIADB. The State of Karnataka (State Government) has issued notification under section 1(3), 3(1) and 28(1) of the Karnataka Industrial Areas Development Act, 1966 (the Act) declaring the subject land as industrial area, but the final notification under section 28(4) of the Act was pending to be issued by the State Government. The Company has filed a writ petition in The Honourable High Court of Karnataka (Court), against the State Government seeking the Court to issue a direction to the State Government to issue the final notification under Section 28(4) of the Act, and also against KIADB seeking the Court to issue a direction to KIADB to complete the acquisition proceedings in respect of the property, handover the possession of the same to the Company and execute absolute sale deeds in favour of the Company, at the earliest. The Court has issued an order on 13 January 2017, directing the State Government to issue final notification under Section 28(4) of the Act. It also ordered to the other respondents to expedite all further actions that are required to be taken in the matter in accordance with law without causing further delays. The State Government has issued a notification on 28 February 2018 under section 28(4) of the Act declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of Rs 728,782.94 thousand on 13 January 2021 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company has paid the same before balance sheet signing date.

During the year ended 31 March, 2021, NAM Estates Private Limited ("NEPL") and its holding company Embassy Property Developments Private Limited ("EPDPL") have entered into a Scheme of Arrangement ('Demerger Scheme') and approved by respective Boards, under section 233 and other applicable provisions of the Companies Act, 2013 for demerger of certain assets and liabilities forming part of the Demerged Undertaking from EPDPL to NEPL. The Demerger Scheme is approved by the Regional Director (South Eastern Region) as on 4th August 2021 with the appointed date as 1 April, 2020. Accordingly, all the assets and liabilities pertaining to the Demerged Undertaking including employees and investment in subsidiaries joint venture and partnership firms, as defined in the Scheme, stand transferred and vested into NEPL from its Appointed Date i.e. 1st April 2020. Certain assets and immovable property, are in the process of being registered in the name of NEPL. However, as the scheme is operative as on the date of approval of this financials, the details of shareholders have been reflected accordingly.

(b) Reconciliation of the number of shares outstanding at the beginning and at the end of the year is as given below:

Particulars	As at 31 March 2021	As at 31 March 2020
Number of shares at the beginning of the year	10,101	10,101
Number of shares issued during the year	-	-
Number of shares outstanding at the end of the year	10,101	10,101

(c) Rights, preferences and restrictions attached to equity shares:

The Company has only one class of equity shares having par value of Rs. 10. Each holder of the equity share, as reflected in the records of the Company as of the date of the shareholder meeting, is entitled to one vote in respect of each share held for all matters submitted to vote in the shareholders' meeting. The Company declares and pays dividend in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing General Meeting.

On 17 August 2011 the Company, the equity shareholders and the holders of 5% fully and compulsorily convertible debentures ("investors") have entered into a subscription agreement ("the Agreement") which specifies the rights, restrictions and terms of equity shareholders as well as debenture holders, the salient features are given below:

The Company shall not declare any dividends unless otherwise approved by the Board of Directors and/or shareholders in accordance with the terms of the agreement.

Any distributable amount will be distributed to the equity share holders and the holders of compulsorily convertible debentures in the manner agreed between the Company, the equity share holders and the debenture holders.

The equity share holders cannot transfer their shares to any person till such time the investors hold any securities in the Company, unless the equity share holders obtain the prior written permission of the debenture holders. However, the equity share holders can sell up to a maximum of 10% of equity shares held by them, with the prior written consent of debenture holders (which shall not be unreasonably withheld) subject to compliance with certain specific performance conditions as mentioned in the agreement.

The equity share holders have the right to nominate and appoint two Directors to the Board of Directors and the debenture holders shall have the right to nominate one non-retiring Director to the Board of Directors.

(d) Buy back of shares and shares allotted by way of bonus shares and shares issued for consideration other than cash

The Company has not allotted any fully paid-up equity shares by way of bonus shares nor has it bought back any class of equity shares or issued shares for consideration other than cash during the period of five years immediately preceding the balance sheet date.

11 Other equity

Particulars	As at 31 March 2021	As at 31 March 2020
Reserve and surplus*		
Securities premium	1,39,457.06	1,39,457.06
Retained earnings	(1,06,36,579.52)	(38,02,779.60)
At the end of the year	(1,04,97,122.46)	(36,63,322.54)

* Refer Statement of changes in equity for detailed movement in other equity balances.

Security premium

Securities premium is used to record the premium received on issue of shares by the Company. The reserve can be utilised in accordance with the provision of section 52(2) of Companies Act, 2013.

Retained earnings

The cumulative loss arising from the operations which is retained by the Company is recognised and accumulated under the heading of retained earnings. At the end of the year, the loss is transferred from the statement of profit and loss to the retained earnings account.

12 Other financial liabilities

Particulars	As at 31 March 2021	As at 31 March 2020
Current maturities of long term debt:		
- 5% fully and compulsorily convertible debentures of Rs 10 each (Refer Note A)	1,16,32,150.20	49,61,300.00
Interest accrued and not due (Refer Note A)		
- on 5% fully and compulsorily convertible debentures	11,74,146.30	10,38,243.99

Payable for expenses towards investment property	3,163.75	6,926.46
Other payables	1,324.45	1,075.18
	1,28,10,784.70	60,07,545.63

A 5 % fully and compulsorily convertible debentures: Key terms

Repayment terms and interest rate of debentures

- The debentures shall carry interest at 5% per annum on the principal amount till the date of conversion. Interest shall be payable as on 31 March of each year ("Payment date"). All payments of interest rate shall be made net of any applicable withholding tax, payable in relation to such amounts. The interest is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date.
- The debentures shall be compulsorily converted into equity shares in the following manner on expiry of 30 April 2021 (31 July 2020 prior to execution of the fifth amendment to Securities Subscription and Shareholders agreement dated 29 July 2019) or in the event of default, as defined in securities subscription and shareholders agreement dated 17 August 2011, whichever is earlier.
 - At any time after the expiry of 30 April 2021 the holder of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted upon such conversion represents 18.59% of the share capital of the Company on a fully diluted basis as on the date of conversion.
 - at any time after the occurrence of an event of default, the holders of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted on such conversion represents 51% of the share capital of the Company on a fully diluted basis as on the date of the conversion.

Summit Developments Private Limited

CIN: U70200KA2011PTC057054

Notes to the financial statements for the year ended 31 March 2021(continued)

(all amounts in ₹ thousands unless otherwise stated)

While the CCDs are mandatorily convertible into equity shares at any time after the expiry of 30 April 2021 as per the extended agreement dated 30 July 2020, in accordance with the requirements of Guidance Note on Schedule III to the Companies Act, 2013, the conversion of CCDs into equity shares are considered as a means of settlement of the liability and since the investors have a right to convert after the expiry of 30 April 2021, these CCDs are classified as other current financial liabilities as at 31 March 2021.

The interest on 5% fully and compulsorily convertible debentures of INR 10 each is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date. The Management believes that there will not be any availability of distributable cash flow as the projects are yet to commence and hence the interest accrued till date on the same has been classified under "Other current financial liabilities".

During the year ended March 31, 2021, the CCD holders have issued an 'event of default' notice under the provisions of the Securities Subscription and Shareholders Agreement dated August 17, 2011. Subsequently, the Company, Embassy Property Development Private Limited (EPDPL) and the CCD holders have entered into an agreement whereby EPDPL will buy out the CCD's for an agreed consideration. Pursuant to the agreement between the Company, EPDPL and the CCD holders, the event of default is in a standstill period and will be resolved on the CCDs being purchased by EPDPL.

Particulars	As at 31 March 2021	As at 31 March 2020
Contingent liabilities:		
a) Claims against the Company not acknowledged as debt in respect of Income-Tax matters (refer note a below)	-	-
Capital commitments:		
b) Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for (refer note b below)	7,52,100.30	5,92,064.67

a) The Income Tax department has launched the proceedings u/s 276B against the company and principle officer in respect of defaults in payment of Tax deducted at source. The company is contesting the proceedings initiated before the Honourable High court of Karnataka. The quantification of financial default is not ascertainable pending final judgement at this point of time. Hence the amount couldn't be quantified at the balance sheet date and not provided for.

b) (i) The Company had made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bangalore. The Company had made an advance payment of Rs 1,217,494.30 thousands in earlier years in accordance with the demand request raised by KIADB. The State government has issued a notification on 28 February 2018 declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of Rs 728,782.94 thousand on 13 January 2021 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company is in the process of paying the amount demanded.

(ii) Estimated amount of contracts remaining to be executed on projects(net of advance) and not provided for - Rs.30,756.11 thousands for the year ended 31st March 2021 (31 March 2020: Rs. 11,187.87 thousands)

Reimbursement of expenses	-	25.17
	600.00	625.17

18 Earnings/ (loss) per share**A. Basic earnings per share**

Basic EPS amounts are calculated by dividing the profit/ (loss) for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit /(loss) attributable to equity holders (after adjusting for interest on the compulsorily convertible debentures) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

A. Basic and diluted earnings per share

The following table sets forth the computation of basic and diluted earnings per share :

		(₹. in thousands except per share data)	
Particulars	Units	For the year ended 31 March 2021	For the year ended 31 March 2020
Loss for the year attributable to equity shareholders	₹. in thousands	(68,33,799.92)	(11,72,355.71)
Weighted average number of equity shares of Rs 10 each used for calculation of basic and diluted earnings per share	Number	10,101	10,101
Loss per share, basic and diluted	₹	(6,76,546.87)	(1,16,063.33)

B Dilutive earnings per share

Particulars	Units	For the year ended 31 March 2021	For the year ended 31 March 2020
Loss for the year attributable to equity shareholders	₹. in thousands	(68,33,799.92)	(11,72,355.71)
Add: Interest on compulsory convertible debentures		-	-
Loss for the year		(68,33,799.92)	(11,72,355.71)
Weighted average number of equity shares of Rs 10 each used for calculation of basic earnings per share	Number	10,101	10,101
Add: Dilutive effect of convertible debentures		-	-
Weighted average number of equity shares of Rs 10 each used for calculation of dilutive earnings per share		10,101	10,101
Loss per share, dilutive	₹	(6,76,546.87)	(1,16,063.33)

For the year ended 31 March 2021: 301,354,193 (March 2020: 301,354,193) compulsorily convertible debentures were excluded from the calculation of diluted weighted average number of equity shares as their effect would have been anti-dilutive.

21 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "development, rental and maintenance of serviced residence"). However, the Company has not commenced its operations as at the year end.

Summit Developments Private Limited**CIN: U70200KA2011PTC057054****Notes to the financial statements for the year ended 31 March 2021(continued)**

- 22 The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated August 26, 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro, Small and Medium Enterprises Development Act, 2006' ('the MSMED Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at March 31, 2021 has been made in the financial statements based on information received and available with the Company. Further in view of the Management, the impact of interest, if any, that may be payable in accordance with the provisions of the MSMED Act is not expected to be material. The Company does not have any interest dues to micro and small enterprises as at March 31, 2021, the details of principal payment has been made below:

Particulars	As at March 31, 2021	As at March 31, 2020
The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year;		
(a) (i) Principal	-	-
(ii) Interest	-	-
(b) The amount of interest paid by the Company in terms of Section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amounts of the payment made to the supplier beyond the appointed day during the year*;	-	-
(i) Interest	-	-
(ii) Payment	-	-
(c) The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006	-	-
(d) The amount of interest accrued and remaining unpaid at the end of the year	-	-
(e) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006	-	-

23 Expenditure on Corporate Social Responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2021.

24 Financial instruments - Fair value measurements and category

A. Accounting classifications and fair value

The carrying value and fair value of financial instruments by categories are as below:

(₹. in thousands)

Particulars	Carrying value		Fair value	
	As at	As at	As at	As at
	31 March 2021	31 March 2020	31 March 2021	31 March 2020
Financial assets measured at amortised cost				
Loans	5,48,180.80	5,80,089.70	-	-
Cash and cash equivalents	1,101.20	682.25	-	-
Total assets	5,49,282.00	5,80,771.94	-	-

(₹. in thousands)

Particulars	Carrying value		Fair value	
	As at	As at	As at	As at
	31 March 2021	31 March 2020	31 March 2021	31 March 2020
Financial liabilities measured at amortized cost				
Other financial liabilities	11,78,634.50	10,46,245.63	-	-
Financial liabilities measured at FVTPL				
Other financial liabilities	1,16,32,150.20	49,61,300.00	1,16,32,150.20	49,61,300.00
Total liabilities	1,28,10,784.69	60,07,545.63	1,16,32,150.20	49,61,300.00

The management has assessed that fair value of other receivables, cash and cash equivalents, borrowings, other financial liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

B. Fair value hierarchy

The section explains the judgement and estimates made in determining the fair values of the financial instruments that are:

a) recognised and measured at fair value

b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is mentioned below:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Transfers between Level 1, Level 2 and Level 3

There were no transfers between Level 1, Level 2 or Level 3 during the year ended 31 March 2021 and 31 March 2020.

C. Accounting classification and fair value

Particulars	Level 1	Level 2	Level 3	Total
Other financial liabilities	-	-	1,16,32,150.20	1,16,32,150.20
	-	-	1,16,32,150.20	1,16,32,150.20

Significant unobservable inputs used in measuring fair value

Particulars	Fair Value as at 31 March 2021	Valuation technique
5% fully and compulsorily convertible debentures	1,16,32,150.20	Agreed Price between between Promoter and holders of Debentures (refer note 12A)

25 Financial risk management

The Company has exposure to following risks arising from financial instruments-

- credit risk
- market risk
- liquidity risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Company's cash and cash equivalents and other receivables from related party. The carrying amount of financial assets represents the maximum credit exposure.

(i) Cash and cash equivalents

The Company holds cash and cash equivalents of Rs.1,101.21 thousands at 31 March 2021 (31 March 2020: Rs 682.26 thousands). The cash and cash equivalents are mainly held with banks which are highly rated. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of counterparties.

(ii) Other receivables

The Company establishes an allowance for credit loss that represents its estimate of expected losses in respect of other receivables based on the past and the recent collection trend. All the other receivables are from a related party. The Company does not have any amount due from other receivables as at 31 March 2021.

(b) Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's income and its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Company operates domestically. There are no foreign exchange transactions in the year of reporting.

(ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates is nil as it does not have any debt obligations with floating interest rates.

(c) Liquidity Risk

Liquidity is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing the liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk

The table below details the Company's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

		(₹. in thousands)				
Particulars	Carrying value	Contractual cash flows				
		Total	1 year or less	1 to 3 years	3 to 5 years	more than 5 yrs.
31 March 2021						
Other financial liabilities	11,75,470.74	11,75,470.74	11,75,470.74	-	-	-
	11,75,470.74	11,75,470.74	11,75,470.74	-	-	-
31 March 2020						
Other financial liabilities	10,39,319.17	10,39,319.17	10,39,319.17	-	-	-
	10,39,319.17	10,39,319.17	10,39,319.17	-	-	-

26 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a ratio of net adjusted debt to equity. For this purpose, adjusted net debt is defined as total liabilities, comprising obligations, trade payables and other liabilities less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2021 was as follows.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	(₹. in thousands)	
	As at 31 March 2021	As at 31 March 2020
Total liabilities	1,28,25,820.21	60,22,673.34
Less: Cash and bank balances	(1,101.20)	(682.25)
Adjusted debt	1,28,24,719.00	60,21,991.09

27 Uncertainty relating to the global health pandemic on COVID-19:

The Company has considered the possible effects that may result from the pandemic relating to COVID-19. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings in view of COVID – 19 as at the date of approval of these financial statements. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

INDEPENDENT AUDITORS' REPORT

To the Members of Summit Developments Private Limited

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of **Summit Developments Private Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss(including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements give the information required by the Companies Act, 2013("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

- a) As stated in Note no: 31 to the financial statements, the company had taken a loan amounting to Rs.23,519.12 thousands during the current financial year from a company in which a director is interested (Cumulative loan taken is Rs.10,57,508.27 thousands). However, the company has repaid entire aforesaid loan. As per the requirement of Section 185 of the Companies Act, 2013("Act"), no company shall directly or indirectly provide any loan or give any guarantee or provide any security to a person whom a directly is interested. Accordingly, the aforesaid Intercompany Deposit(loan) received by the company is not in compliance with the requirement of the Act. However, impact of this non-compliance has not been quantified by the company.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of

Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The financial statements of the Company for the year ended March 31, 2019, included in these financial statements, have been audited by the M/s BSR & Associates LLP who expressed a qualified opinion on those statements on September 27, 2019. The reason for qualified opinion as follows:

- a) the company has taken a loan amounting to Rs.20,38,099.76 thousands in the earlier years from a company in which a director is interested. The company has repaid an amount of Rs.13,93,710.61 thousands including Rs.3,84,250.85 thousands during in the current year towards the aforesaid loan. The cumulatively outstanding balance of the Intercompany

Deposit(loan) as on 31 March 2019 amounts to Rs.6,44,389.15 thousands. as per the requirement of Section 185 of the Companies Act, 2013(“Act”). No company shall directly or indirectly provide any loan or give any guarantee or provide any security to a person whom a directly is interested. Accordingly, the aforesaid Intercompany Deposit(loan) received by the company is not in compliance with the requirement of the Act. However, impact of this non-compliance has not been quantified by the company.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor’s Report) Order, 2016 (“the Order”), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the “**Annexure A**” statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. Except for the effects of the matters described in the basis of qualified opinion paragraph, We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, except for the effects of the matters described in the basis of qualified opinion paragraph, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss(including other comprehensive income), and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, except for the effects of the matters described in the basis of qualified opinion paragraph, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure B**”.
 - g. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The company has disclosed the impact of pending litigations on its financial position in its financial statements – refer note no.18 to the financial statements.
 - ii. The company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

3. With respect to the matter to be included in the Auditor's Report under Section 197(16):

In our opinion and according to the information and explanation given to us, the Company is a private limited company and accordingly provision of section 197 of the Act is not applicable to the Company.

Summit Developments Private Limited

Annexure A to the Independent Auditors' Report

The Annexure A referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' in the Independent Auditors' Report to the Members of Summit Developments Private Limited ('the Company') for the year ended 31 March 2020, we report that:

- (i) (a) The company does not hold any property, plant & equipment except a parcel of freehold land and hence paragraph 3(i)(a) and (b) of the order is not applicable.
- (b) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the company, the title deeds of all the immovable properties are held in the name of the Company.
- (ii) The company is primarily engaged in the business of development real estate development. Accordingly, it does not hold any physical inventories. Thus, paragraph 3(ii) of the Order is not applicable to the Company.
- (iii) The Company has granted loans to a company covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act').
 - (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the terms and conditions of the Intercompany Deposit(loan) granted by the Company to the company covered in the register maintained under section 189 of the Companies Act, 2013, the Intercompany Deposit(loan) given is prejudicial to the interest of the Company, as disclosed below.
 - (b) in the case of the Intercompany Deposit(loan) granted to the company listed in the register under Sec 189 of the Act, the stipulation as to repayment of principle as specified below.
 - (c) the principal is repayable on demand and hence, there is no overdue as on date in the case of the Intercompany Deposit(loan) granted to the company listed in the register under Sec 189 of the Act.

Name of the company	Amount of Intercompany Deposit(loan)given during the year (Rs.)	Amount as at 31 March 2019 (Rs.)	Terms
Embassy Property Developments Private Limited(holding company)	58,60,91,732	Nil	Interest free Inter Corporate Deposit repayable on demand.

Summit Developments Private Limited

Annexure A to the Independent Auditors' Report

- (iv) In our opinion and according to the information and explanations given to us, except for the transaction stated in note 31 to the financial statements, the company has complied with the provision of Section 185 and Section 186 of the Act.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.
- (vii)
 - a) In our opinion and according to information and explanations given to us and basis of our examination of the records of the company, amounts deducted/accrued in the books of account in respect undisputed statutory dues including income taxes, Goods and service tax and any other material statutory dues have been regularly deposited during the year by the company with appropriate authorities.

In our opinion and according to the information and explanation given to us, no disputed amounts payable in respect of income tax, goods and service tax and any other statutory dues were in arrears as at 31st march 2020 for a period of more than six month from the date they became payable.

- b) In our opinion and according to the information and explanations given to us, there are no dues of income tax, goods and service and any other statutory dues which have not been deposited of account of any dispute.
- (viii) In our opinion and according to the information and explanation given to us, the company has not defaulted in repayment of dues to its debenture holders during the year. The Company did not any outstanding loans or borrowings from any financial institution or bank or government during the year.

Summit Developments Private Limited

Annexure A to the Independent Auditors' Report

- (ix) In our opinion and according to the information and explanation given to us, no money was raised by the way of public issue/follow-on-offer (inclusive debt instruments). The Company did not have any term loans outstanding during the year.
- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no material fraud by the Company or no material fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- (xi) According to the information and explanations given by the management, the provisions of section 197 read with Schedule V of the Act are not applicable to the Company and hence reporting under clause 3(xi) are not applicable and hence not commented upon..
- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards. The provisions of section 177 are not applicable to the company and accordingly reporting under clause 3(xiii) insofar as it relates to section 177 of the Act is not applicable to the Company and hence not commented upon.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) of the Order are not applicable to the Company and, not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.

Summit Developments Private Limited

Annexure A to the Independent Auditors' Report

- (xvi) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company.

Annexure – B to the Independent auditor’s report of even date on the financial statements of Summit Developments Private Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Summit Developments Private Limited (“the Company”) as of March 31, 2020, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Notes to the financial statements

(All amounts are in thousands, except share data or as stated)

1 Company background

Summit Developments Private Limited ("SDPL" or "the Company") was incorporated on 11 February 2011 as a private limited company under the provisions of the Companies Act, 1956. The registered office of the Company is at Bengaluru, India. The Company is engaged in the business of real estate development. The Company has invested in a subsidiary (Saphire Realtors Private Limited) which hold 204 acres of land on which an integrated township is planned to be developed.

2 Basis of preparation

2.01 The financial statements has been prepare to facilitate the management for the purpose of proposed restructuring of the entity.

2.02 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act, 2013, (the "Act") and other relevant provisions of the Act.

The financial statements were authorised for issue for the said purpose laid down in Note 2.1 by the Company's Board of Directors on 09 July 2020.

2.03 Functional and presentation currency

These financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded -off to the nearest thousands, unless otherwise indicated.

2.04 Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values.

2.05 Use of estimates and judgements

In preparing these financial statements, Management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

2.06 Judgements

Information about judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 3.03: Classification and recognition of fair value changes in embedded derivatives

2.07 Use of going concern assumptions

The Company's financial statements have been prepared on a going concern basis notwithstanding the fact that it has a negative net worth of Rs. 36,63,221.53 thousand as at 31 March 2020 and has incurred a net loss of Rs. 11,72,355.71 thousand for the year ended 31 March 2020. Further, the Company's current liabilities exceeded its current assets by Rs. 54,41,901.39 thousand as at that date. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on financial support committed to the Company by the hoding company, Embassy Property Developments Private Limited.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

3 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.01 Recognition of dividend income, interest income and expense

a) Dividend income

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

b) Interest income and expense

Interest income or expense is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of a financial asset; or
- the amortised cost of financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.02 Financial Instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial assets or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at,

- amortised cost
- Fair value through other comprehensive income (FVOCI) - debt investment;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- Fair value through profit & loss- (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrecoverably elect to present subsequent changes in investment's fair value in OCI (designated as FVOCI - equity investment). The election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to the management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risk that affects the performance of the business model (and the financial asset held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of the financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

ii. Classification and subsequent measurement (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

To assess whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate futures;
- prepayments and extension features; and
- terms that limits the Company's claim to cash flows from specified assets (e.g. non-recourse feature)

A prepayment feature is consistent with the solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost :

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt investments at FVOCI:

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI:

These assets are subsequently measured at fair value. Dividends are recognised as income profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial liabilities : Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit and loss.

iii. Derecognition

Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of the ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all the risks and rewards of the transferred assets, the transferred assets are not derecognised.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

iii. Derecognition (continued)

Financial Liabilities

The Company derecognises a financial liability when the contractual obligations are discharged or cancelled, or expire.

The Company derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the extinguished liability and the new financial liability with modified terms is recognised in profit and loss.

iv. Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.03 Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non-financial variable that the variable is not specific to a party to the contract. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

If the hybrid contract contains a host that is a financial asset within the scope of Ind AS 109, the group does not separate embedded derivatives. Rather, it applies the classification requirements contained in Ind AS 109 to the entire hybrid contract. Derivatives embedded in all other host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss, unless designated as effective hedging instruments.

3.04 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.05 Investment Property

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued

3.06 Taxes

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantially enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT')

MAT paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward.

3 Significant accounting policies (continued)

3.06 Taxes (continues)

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.07 Provisions

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-fix rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

3.06 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

3.07 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated.

3 Significant accounting policies (continued)

3.08 Earnings per share

The basic loss per share is computed by dividing the net profit/ (loss) attributable to owner's of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3 Significant accounting policies (continued)

3.09 a. Exemption from preparation of consolidated financial statements:

As per Ind AS 110, paragraph 4(a), a Parent company need not present consolidated financial statements if it meets following conditions:

i) It is a wholly owned subsidiary or is a partially owned subsidiary of another company and all its other members, including those not otherwise entitled to vote, have been intimated in writing and for which the proof of delivery of such intimation is available with the company, do not object to the company not presenting consolidated financial statements.

ii) Its ultimate or intermediate holding company files the consolidated financial statements with the registrar which are in compliance with the applicable accounting standards.

The financials statements are separate financial statements and the exemption from consolidation has been used, as the parent company informed the other shareholders about its intention of not presenting consolidated financial statements.

b. List of significant investment in subsidiaries, joint ventures and associates:

SL.NO.	Name of the investees	Proportion of ownership	Principal place of	Method used to account
1	Saphire Realtors Private Limited	99%	Bengaluru	carried at cost

3.10 Recent accounting pronouncements (Standards issued but not yet effective)

The amendments are proposed to be effective for reporting periods beginning on or after 1 April 2020.

(i) Issue of Ind AS 117

Insurance Contracts Ind AS 117 supersedes Ind AS 104 Insurance contracts. It establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. Under the Ind AS 117 model, insurance contract liabilities will be calculated as the present value of future insurance cash flows with a provision for risk. Application of this standard is not expected to have any impact on the Company's financial statements.

(ii) Amendments to existing standards:

Ministry of Corporate Affairs has carried out amendments of the following accounting standards:

1. Ind AS 103 – Business Combination
2. Ind AS 1, Presentation of Financial Statements and Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
3. Ind AS 40 – Investment Property

The Company is in the process of evaluating the impact of the new amendments issued but not yet effective.

ii) Restriction on realisability

The Company has no restrictions on the realisability of its investment property.

iii) Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the non availability of the business plan for the property, the Company has used "Direct Comparison" method approach for assessing the fair value of the property.

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

Note

- (i) The Company had paid an amount of Rs 1,270,000.00 thousands to Udhyaman Investments Private Limited (UIPL) in an earlier year towards purchase of certain parcel of land. As per the agreement, UIPL was required to acquire and handover possession of the identified land to the Company before 31 March 2018, which was extended till 31 March 2019 by an extension letter dated 13 February 2018 and further, extended till 31 March 2021 by letter dated 16 November 2018. Further, as a security for the advance given, JV Holding Private Limited, holding company of UIPL, had provided security of a proportion of shares held by another group company as a guarantee for the advance given to UIPL. However the Company was yet to execute the share pledge agreement and hence the advance was disclosed as unsecured. During the year ended 31 March 2020, UIPL has repaid Rs.1,254,000.00 thousands (31 March 2019 - Rs. 16,000.00 thousands) to the company on mutual consent of cancellation of arrangement.

Summit Developments Private Limited

CIN: U70200KA2011PTC057054

Notes to the financial statements**7 Other non-current assets (continued)****Note (continued)**

- (ii) The Company has made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bengaluru. The Company had made an advance payment of Rs 1,217,494.30 thousands in earlier years in accordance with the demand request raised by KIADB. The State of Karnataka (State Government) has issued notification under section 1(3), 3(1) and 28(1) of the Karnataka Industrial Areas Development Act, 1966 (the Act) declaring the subject land as industrial area, but the final notification under section 28(4) of the Act was pending to be issued by the State Government. The Company has filed a writ petition in The Honorable High Court of Karnataka (Court), against the State Government seeking the Court to issue a direction to the State Government to issue the final notification under Section 28(4) of the Act, and also against KIADB seeking the Court to issue a direction to KIADB to complete the acquisition proceedings in respect of the property, handover the possession of the same to the Company and execute absolute sale deeds in favour of the Company, at the earliest. The Court has issued an order on 13 January 2017, directing the State Government to issue final notification under Section 28(4) of the Act. It also ordered to the other respondents to expedite all further actions that are required to be taken in the matter in accordance with law without causing further delays. The State Government has issued a notification on 28 February 2018 under section 28(4) of the Act declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has sent a demand letter of Rs 580,876.80 thousand on 13 October 2018 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company is in the process of paying the amount demanded.

Number of shares issued during the year	-	-
Number of shares outstanding at the end of the year	10,101	10,101

(c) Rights, preferences and restrictions attached to equity shares:

The Company has only one class of equity shares having par value of Rs. 10. Each holder of the equity share, as reflected in the records of the Company as of the date of the shareholder meeting, is entitled to one vote in respect of each share held for all matters submitted to vote in the shareholders' meeting. The Company declares and pays dividend in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing General Meeting.

On 17 August 2011 the Company, the equity shareholders and the holders of 5% fully and compulsorily convertible debentures ("investors") have entered into a subscription agreement ("the Agreement") which specifies the rights, restrictions and terms of equity shareholders as well as debenture holders, the salient features are given below:

The Company shall not declare any dividends unless otherwise approved by the Board of Directors and/or shareholders in accordance with the terms of the agreement.

Any distributable amount will be distributed to the equity share holders and the holders of compulsorily convertible debentures in the manner agreed between the Company, the equity share holders and the debenture holders.

The equity share holders cannot transfer their shares to any person till such time the investors hold any securities in the Company, unless the equity share holders obtain the prior written permission of the debenture holders. However, the equity share holders can sell up to a maximum of 10% of equity shares held by them, with the prior written consent of debenture holders (which shall not be unreasonably withheld) subject to compliance with certain specific performance conditions as mentioned in the agreement.

The equity share holders have the right to nominate and appoint two Directors to the Board of Directors and the debenture holders shall have the right to nominate one non-retiring Director to the Board of Directors.

(d) Buy back of shares and shares allotted by way of bonus shares and shares issued for consideration other than cash

The Company has not allotted any fully paid-up equity shares by way of bonus shares nor has it bought back any class of equity shares or issued shares for consideration other than cash during the period of five years immediately preceding the balance sheet date.

Other payables	1,075.18	1,814.89
	6,007,545.63	4,856,167.90

A 5 % fully and compulsorily convertible debentures: Key terms**Repayment terms and interest rate of debentures**

- (a) The debentures shall carry interest at 5% per annum on the principal amount till the date of conversion. Interest shall be payable as on 31 March of each year ("Payment date"). All payments of interest rate shall be made net of any applicable withholding tax, payable in relation to such amounts. The interest is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date.
- (b) The debentures shall be compulsorily converted into equity shares in the following manner on expiry of 31 July 2020 (31 July 2019 prior to execution of the third amendment to Securities Subscription and Shareholders agreement dated 31 July 2018) or in the event of default, as defined in securities subscription and shareholders agreement dated 17 August 2011, whichever is earlier.
 - (i) At any time after the expiry of 31 July 2020 the holder of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted upon such conversion represents 18.59% of the share capital of the Company on a fully diluted basis as on the date of conversion.
 - (ii) at any time after the occurrence of an event of default, the holders of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted on such conversion represents 51% of the share capital of the Company on a fully diluted basis as on the date of the conversion.

Summit Developments Private Limited**CIN: U70200KA2011PTC057054****Notes to the financial statements**

While the CCDs are mandatorily convertible into equity shares at any time after the expiry of 31 July 2020 as per the extended agreement dated 31 July 2019, in accordance with the requirements of Guidance Note on Schedule III to the Companies Act, 2013, the conversion of CCDs into equity shares are considered as a means of settlement of the liability and since the investors have a right to convert after the expiry of 31 July 2020, these CCDs are classified as other current financial liabilities as at 31 March 2020.

The interest on 5% fully and compulsorily convertible debentures of INR 10 each is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date. The Management believes that there will not be any availability of distributable cash flow as the projects are yet to commence and hence the interest accrued till date on the same has been classified under "Other current financial liabilities".

Notes to the financial statements

18 Contingent liabilities and commitments (to the extent not provided for)**Contingent liabilities:**

The Income Tax department has launched the proceedings u/s 276B against the company and principle officer in respect of defaults in payment of Tax deducted at source. The company is contesting the proceedings initiated before the Honorable High court of Karnataka. The quantification of financial default is not ascertainable pending final judgement at this point of time. Hence the amount couldn't be quantified at the balancesheet date and not provided for.

Capital commitments:

(i) The Company had made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bangalore. The Company had made an advance payment of Rs 1,217,494.30 thousands in earlier years in accordance with the demand request raised by KIADB. The State government has issued a notification on 28 February 2018 declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of Rs 580,876.80 thousand on 13 October 2018 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company is in the process of paying the amount demanded.

(ii) Estimated amount of contracts remaining to be executed on projects(net of advance) and not provided for - Rs. 11,187.87 thousands.

19 Change of Auditor's

The financial statements of the Company for the year ended 31 March 2019 have been audited by M/s.BSR & Associates LLP . The members of the company in Extra Ordinary General Meeting held on 12th February, 2020 at the registered office of the company, has appointed M/s. NSVM & Associates as the Statutory Auditor of the company from the conclusion of Extra Ordinary General Meeting held on 12th February, 2020 till the conclusion of ensuing Annual General Meeting held in Financial Year 2020-21.

21 Earnings/ (loss) per share**A. Basic earnings per share**

Basic EPS amounts are calculated by dividing the profit/ (loss) for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit /(loss) attributable to equity holders (after adjusting for interest on the compulsorily convertible debentures) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

A. Basic and diluted earnings per share

The following table sets forth the computation of basic and diluted earnings per share :

(₹. in thousands except per share data)

Particulars	Units	For the year ended 31 March 2020	For the year ended 31 March 2019
Loss for the year attributable to equity shareholders	₹. in thousands	(1,172,355.71)	(1,354,118.23)
Weighted average number of equity shares of Rs 10 each used for calculation of basic and diluted earnings per share	Number	10,101	10,101
Loss per share, basic and diluted	Rs.	(116,063.33)	(134,057.84)

B Dilutive earnings per share

Particulars	Units	For the year ended 31 March 2020	For the year ended 31 March 2019
Loss for the year attributable to equity shareholders	₹. in thousands	(1,172,355.71)	(1,354,118.23)
Add: Interest on compulsory convertible debentures		-	-
Loss for the year		(1,172,355.71)	(1,354,118.23)
Weighted average number of equity shares of Rs 10 each used for calculation of basic earnings per share	Number	10,101	10,101
Add: Dilutive effect of convertible debentures		-	-
Weighted average number of equity shares of Rs 10 each used for calculation of dilutive earnings per share		10,101	10,101
Loss per share, dilutive	Rs.	(116,063.33)	(134,057.84)

For the year ended 31 March 2020: 301,354,193 (March 2019: 301,354,193) compulsorily convertible debentures were excluded from the calculation of diluted weighted average number of equity shares as their effect would have been anti-dilutive.

Unused tax losses	2,018,370.13	2,053,800.40
	2,018,370.13	2,053,800.40

24 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. The operating segments' operating results are reviewed by the Chief Operating Decision Maker (Board of Directors) to make decisions about resources to be allocated to the segments and assess their performance. The Company's business activities fall within one component (namely, "development, rental and maintenance of serviced residence"). However, the Company has not commenced its operations as at the year end.

- 25 The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro Small and Medium Enterprises Act, 2006' (the MSMED Act). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2020 has been made in the financial statements based on information received and available with the Company. Further in view of the management, the impact of interest, if any, that may be payable in accordance with the provisions of the MSMED Act is not expected to be material. The Company does not have any dues to micro and small enterprises as at 31 March 2020 and 31 March 2019.

26 Expenditure on Corporate Social Responsibility activities

Since the Company does not meet the criteria specified in Section 135 of the Companies Act, 2013, the Company is not required to spend any amount on activities related to corporate social responsibility for the year ended 31 March 2020.

27

A. Accounting classifications and fair value

The carrying value and fair value of financial instruments by categories are as below:

Particulars	Carrying value		Fair value	
	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019
Financial assets measured at amortised cost				
Loans	580,089.70	-	-	-
Cash and cash equivalents	682.26	902.05	-	-
Total assets	580,771.95	902.05	-	-

(₹. in thousands)

Particulars	Carrying value		Fair value	
	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019
Financial liabilities measured at amortized cost				
Borrowings	-	644,389.15	-	-
Other financial liabilities	1,046,245.63	912,667.90	-	-
Financial liabilities measured at FVTPL				
Other financial liabilities	4,961,300.00	3,943,500.00	4,961,300.00	3,943,500.00
Total liabilities	6,007,545.63	5,500,557.05	4,961,300.00	3,943,500.00

The management has assessed that fair value of other receivables, cash and cash equivalents, borrowings, other financial liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

B. Fair value hierarchy

The section explains the judgement and estimates made in determining the fair values of the financial instruments that are:

- recognised and measured at fair value
- measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is mentioned below:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Transfers between Level 1, Level 2 and Level 3

There were no transfers between Level 1, Level 2 or Level 3 during the year ended 31 March 2020 and 31 March 2019.

28 Financial risk management

The Company has exposure to following risks arising from financial instruments-

- credit risk
- market risk
- liquidity risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Company's cash and cash equivalents and other receivables from related party. The carrying amount of financial assets represents the maximum credit exposure.

(i) Cash and cash equivalents

The Company holds cash and cash equivalents of Rs.682.26 thousands at 31 March 2020 (31 March 2019: Rs 902.05 thousands). The cash and cash equivalents are mainly held with banks which are highly rated. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of counterparties.

(ii) Other receivables

The Company establishes an allowance for credit loss that represents its estimate of expected losses in respect of other receivables based on the past and the recent collection trend. All the other receivables are from a related party. The Company does not have any amount due from other receivables as at 31 March 2020.

(b) Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's income and its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Company operates domestically. There are no foreign exchange transactions in the year of reporting.

(ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates is nil as it does not have any debt obligations with floating interest rates.

(c) Liquidity Risk

Liquidity is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing the liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk

The table below details the Company's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

(₹. in thousands)

Particulars	Carrying value	Contractual cash flows				
		Total	1 year or less	1 year to 3 years	3 to 5 years	more than 5 yrs
31 March 2020						
Other financial liabilities	1,039,319.17	1,039,319.17	1,039,319.17	-	-	-
	1,039,319.17	1,039,319.17	1,039,319.17	-	-	-
31 March 2019						
Borrowings	644,389.15	644,389.15	644,389.15	-	-	-
Other financial liabilities	904,449.50	904,449.50	904,449.50	-	-	-
	1,548,838.65	1,548,838.65	1,548,838.65	-	-	-

29 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a ratio of net adjusted debt to equity. For this purpose, adjusted net debt is defined as total liabilities, comprising obligations, trade payables and other liabilities less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2020 was as follows.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	(₹. in thousands)	
	As at 31 March 2020	As at 31 March 2019
Total liabilities	6,022,673.34	5,516,193.04
Less: Cash and bank balances	(682.26)	(902.05)
Adjusted debt	6,021,991.10	5,515,290.98
Adjusted total equity	(3,663,221.53)	(2,490,865.82)
Adjusted debt to adjusted equity ratio	(1.64)	(2.21)

30 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening balance 1 April 2019	Cash flows		Non cash Fair value changes	Closing balance 31 March 2020
		Proceeds	Repayments		
Proceeds from borrowings	644,389.15	-	644,389.15	-	-
Total changes from movement in financing activity	644,389.15	-	644,389.15	-	-

31 The Company had repaid the loan of Rs 644,389.15 thousands to Embassy Property Developments Private Limited (EPDPL), the holding company, as on 31 March 2020 in which a director is interested (outstanding of Rs Nil as at 31 March 2020). As per the requirements of section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan or give guarantee or provide any security to a person in whom a director is interested. Accordingly, the aforementioned loan received by the Company was not in compliance with the requirements of the Act

32 Impact of COVID 19

The Company has considered the possible effects that may result from the pandemic relating to COVID-19. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings in view of COVID – 19 as at the date of approval of these financial statements. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

INDEPENDENT AUDITORS' REPORT

To the Members of Summit Developments Private Limited

Report on the Audit of the Standalone Financial Statements

Qualified Opinion

We have audited the standalone financial statements of Summit Developments Private Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2019, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters described in the basis of qualified opinion paragraph, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2019, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Qualified Opinion

- a) As stated in note 26 to the standalone financial statements, the Company has taken a loan amounting to Rs 2,038,099.76 thousands in the earlier years from a company in which a director is interested. The Company has repaid an amount of Rs. 1,393,710.61 thousands including Rs 384,250.85 thousands in the current year towards the aforesaid loan. The cumulatively outstanding balance of the loan as on 31 March 2019 amounts to Rs 644,389.15 thousands. As per the requirements of section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan, or give any guarantee or provide any security to a person in whom a director is interested. Accordingly the aforementioned loan received and security given by the Company is not in compliance with the requirements of the Act. Impact of this non-compliance has not been quantified by the Company.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the standalone Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's directors' report, but does not include the standalone financial statements and our Auditor's report thereon. The Company's directors' report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Summit Developments Private Limited
Independent Auditor's Report (Continued)

Other Information (continued)

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Company's directors' report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Summit Developments Private Limited
Independent Auditor's Report (Continued)

Auditor's Responsibilities for the Audit of the Standalone Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.

Summit Developments Private Limited
Independent Auditor's Report (Continued)

Report on Other Legal and Regulatory Requirements (continued)

- d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on 31 March 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigation which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2019.

(C) With respect to the matter to be included in the Auditor's Report under Section 197(16):

The Company is a private limited company and accordingly the provisions of Section 197 read with Schedule V to the Act are not applicable to the Company.

Summit Developments Private Limited
Annexure A to the Independent Auditor's Report

The Annexure A referred to in the Independent Auditor's Report to the Members of Summit Developments Private Limited ('the Company') for the year ended 31 March 2019, we report that:

- (i) (a) The Company does not hold any fixed assets except a parcel of freehold land and hence paragraph 3(i)(a) and (b) of the Order is not applicable.

(b) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.
- (ii) The Company is primarily engaged in the business of real estate development. Accordingly, it does not hold any physical inventory. Thus, paragraph 3(ii) of the Order is not applicable to the Company.
- (iii) According to the information and explanations given to us, the Company has not granted any loans secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013 ('the Act'). Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, except for transactions as stated in note 26 to the standalone financial statements, the Company has complied with the provisions of Sections 185 and 186 of the Act.
- (v) The Company has not accepted any deposits from the public within the meaning the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.
- (vi) The Central Government has not prescribed the maintenance of cost records under Section 148 of the Act for any of the activities of the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Income-tax, Goods and Services tax and any other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of Provident Fund, Employees State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value added tax and cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Income-tax, Goods and Services tax and other material statutory dues were in arrears, as at 31 March 2019, for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Income tax and other material statutory dues which have not been deposited by the Company on account of disputes.
- (viii) According to the information and explanations given to us, the Company has not defaulted in repayment of dues to its debenture holders during the year. The Company did not have any outstanding loans or borrowings from any financial institutions or bank or government during the year.

Summit Developments Private Limited

Annexure A to the Independent Auditor's Report (continued)

- (ix) According to the information and explanations given to us, the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. The Company did not have any term loans outstanding during the year.
- (x) According to the information and explanations given to us, no material fraud on the Company by its officers and employees or fraud by the Company has been noticed or reported during the course of our audit.
- (xi) According to the information and explanations given to us, the Company is a private limited company and accordingly the provisions of Section 197 read with Schedule V to the Act are not applicable to the Company.
- (xii) According to the information and explanations given to us, in our opinion, the Company is not a Nidhi company as prescribed under Section 406 of the Act.
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Section 188 of the Act, where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable Indian Accounting Standards. The provisions of Section 177 are not applicable to the Company.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made preferential allotment or private placement of shares or fully or partly convertible debentures during the year.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him.
- (xvi) According to the information and explanation given to us and in our opinion the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditors' report on the standalone financial statements of Summit Developments Private Limited for the year ended 31 March 2019

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Qualified Opinion

We have audited the internal financial controls with reference to financial statements of Summit Developments Private Limited ("the Company") as of 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at 31 March 2018.

The Company did not have an adequate internal control system to ensure compliance with respect to the legal and regulatory framework applicable to the Company, which has resulted in the non-compliance as stated in Basis of Qualified Opinion paragraph of our audit report.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual financial statements will not be prevented or detected on a timely basis.

In our opinion, except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2019, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Summit Developments Private Limited

Annexure B to the Independent Auditor's Report (continued)

Auditors' Responsibility (continued)

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Summit Developments Private Limited

Notes to the standalone financial statements for the year ended 31 March 2019

1 Company background

Summit Developments Private Limited ("SDPL" or "the Company") was incorporated on 11 February 2011 as a private limited company under the provisions of the Companies Act, 1956. The registered office of the Company is at Bengaluru, India. The Company is engaged in the business of real estate development. The Company has invested in a subsidiary (Saphire Realtors Private Limited) which hold 223 acres of land on which an integrated township is planned to be developed.

2 Basis of preparation

2.1 Statement of compliance

These standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act, 2013, (the "Act") and other relevant provisions of the Act.

The standalone financial statements were authorised for issue by the Company's Board of Directors on 27 September 2019.

2.2 Functional and presentation currency

These standalone financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded-off to the nearest thousands, unless otherwise indicated.

2.3 Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values.

2.4 Use of going concern assumptions

The Company's Ind AS financial statements have been prepared on a going concern basis notwithstanding the fact that it has a negative net worth of INR 2,490,865.82 thousand as at 31 March 2019 and has incurred a net loss of INR 1,354,118.23 thousand for the year ended 31 March 2019. Further, the Company's current liabilities exceeded its current assets by INR 5,515,175.88 thousand as at that date. The appropriateness of the going concern assumption on the basis of which these financial statements have been prepared is based on financial support committed to the Company by the holding company, Embassy Property Developments Private Limited.

These financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

3 Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these standalone financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.01 Recognition of dividend income, interest income and expense

a) Dividend income

Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

b) Interest income and expense

Interest income or expense is recognised using the effective interest rate method.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of a financial asset; or
- the amortised cost of financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.02 Financial Instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at,

- amortised cost
- Fair value through other comprehensive income (FVOCI) - debt investment;
- Fair value through other comprehensive income (FVOCI) - equity investment; or
- Fair value through profit & loss- (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in investment's fair value in OCI (designated as FVOCI - equity investment). The election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to the management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial asset to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risk that affects the performance of the business model (and the financial asset held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of the financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on fair value basis are measured at FVTPL.

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

ii. Classification and subsequent measurement (continued)

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest.

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

To assess whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate futures;
- prepayments and extension features; and
- terms that limits the Company's claim to cash flows from specified assets (e.g. non-recourse feature)

A prepayment feature is consistent with the solely payment of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL :

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost :

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt investments at FVOCI:

These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI:

These assets are subsequently measured at fair value. Dividends are recognised as income profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial liabilities : Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit and loss.

iii. Derecognition

Financial Assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of the ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Summit Developments Private Limited

Notes to the standalone financial statements for the year ended 31 March 2019

3 Significant accounting policies (continued)

3.02 Financial Instruments (continued)

iii. Derecognition (continued)

Financial Liabilities

The Company derecognises a financial liability when the contractual obligations are discharged or cancelled, or expire.

The Company derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the extinguished liability and the new financial liability with modified terms is recognised in profit and loss.

iv. Offsetting

Financial assets and liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

3.03 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

3.04 Investment Property

i. Recognition and measurement

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of the assets not ready for their intended use before such date, are disclosed as Property under development.

Subsequent expenditure on investment properties is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditure is recognized as an expense in the period in which it is incurred. When an investment property is disposed of, the resulting gain or loss recognized in the Statement of profit and loss is the difference between net disposal proceeds and the carrying amount of the property.

The fair value of investment property is disclosed in the note 4. Fair values is determined by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued

3.05 Taxes

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantially enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternate tax ('MAT')

MAT paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward.

3 Significant accounting policies (continued)

3.05 Taxes (continues)

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary difference arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in any case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of the deferred tax reflects tax consequences that would flow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on a different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.06 Provisions

A provision is recognised if, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-fix rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost. Expected future operating losses are not provided for.

Onerous contracts

A Contract is considered to be onerous when the expected economic benefits to be derived by the Company from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision for an onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before such a provision is made, the Company recognises any impairment loss on the assets associated with the contract.

3.06 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

3.07 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated.

Summit Developments Private Limited

Notes to the standalone financial statements for the year ended 31 March 2019

3.08 Earnings per share

The basic loss per share is computed by dividing the net profit/ (loss) attributable to owner's of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/ (loss) per share comprises the weighted average shares considered for deriving basic earnings/ (loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

Dilutive potential equity shares are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and which either reduces earnings per share or increase loss per share are included.

3 Significant accounting policies (continued)

3.09 Recent accounting pronouncements (Standards issued but not yet effective)

Ind AS 116, Leases

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 116, Lease.

Ind AS 116 will replace the existing leases Standard, Ind AS 17 Leases, and related interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lessee accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. The standard also contains enhanced disclosure requirements for lessees. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17.

The effective date for adoption of Ind AS 116 is financial periods beginning on or after 1 April 2019. The Company is in the process of assessing the impact of adoption of Ind AS 116 on its standalone financial statements.

Ind AS 12 Income taxes Appendix C (amendments relating to uncertainty over income tax treatments)

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2019 containing Appendix C to Ind AS 12.

Appendix C to Ind AS 12 applies while performing the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates.

It outlines the following: (1) the entity has to use judgment, to determine whether each tax treatment should be considered separately or whether some can be considered together. The decision should be based on the approach which provides better predictions of the resolution of the uncertainty (2) the entity is to assume that the taxation authority will have full knowledge of all relevant information while examining any amount (3) entity has to consider the probability of the relevant taxation authority accepting the tax treatment and the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates would depend upon the probability.

The effective date for adoption of Ind AS 12 Appendix C is financial periods beginning on or after 1 April 2019. The Company has evaluated the effect of this on the standalone financial statements and the impact is not material.

Ind AS 12 Income tax (amendments relating to income tax consequences of dividend)

On 30 March 2019, Ministry of Corporate Affairs issued amendments to the guidance in Ind AS 12, 'Income Taxes', in connection with accounting for dividend distribution taxes.

The amendment clarifies that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

The effective date for adoption of this amendment is financial periods beginning on or after 1 April 2019. The Company has evaluated the effect of this on the standalone financial statements and the impact is not material.

ii) Restriction on realisability

The Company has no restrictions on the realisability of its investment property.

iii) Fair value

The fair value of investment property has been determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the investment property annually.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the non availability of the business plan for the property, the Company has used "Direct Comparison" method approach for assessing the fair value of the property.

The "Direct Comparison Approach" is based on the comparison of the property to similar positioned properties in the region. Wherein, the property is accorded premium / discounts based on various factors to arrive at achievable market value of the property as on the date of valuation. The result is the best estimate of value, the valuer can attribute and is an estimate. This methodology uses market information such as quoted / transacted value of various comparable.

	2,471,494.30	2,487,494.30

Note

- (i) The Company had paid an amount of Rs 1,270,000.00 thousands to Udhyan Investments Private Limited (UIPL) in an earlier year towards purchase of certain parcel of land. As per the agreement, UIPL is required to acquire and handover possession of the identified land to the Company before 31 March 2018, which was extended till 31 March 2019 by an extension letter dated 13 February 2018 and further, extended till 31 March 2021 by letter dated 16 November 2018. If UIPL fails to acquire and handover the land by 31 March 2021, they are obligated to pay a compensation at the prevailing rate of interest to the Company. Further, as a security for the advance given, JV Holding Private Limited, holding company of UIPL, has provided security of a proportion of shares held by another group company as a guarantee for the advance given to UIPL. However the Company is yet to execute the share pledge agreement and hence the advance has been disclosed as unsecured. Management believes that the advances paid to UIPL for acquisition of land will be consummated or are recoverable in full. During the year, UIPL has repaid Rs.16,000.00 thousands to the company. Subsequent to the balance sheet date the Company has received the advance from UIPL. The Company has waived off the Compensation receivable from UIPL in lieu of all expenses incurred by UIPL towards efforts for identifying land.

6 Other non-current assets (continued)**Note (continued)**

- (ii) The Company has made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bengaluru. The Company had made an advance payment of Rs 1,217,494.30 thousands in earlier years in accordance with the demand request raised by KIADB. The State of Karnataka (State Government) has issued notification under section 1(3), 3(1) and 28(1) of the Karnataka Industrial Areas Development Act, 1966 (the Act) declaring the subject land as industrial area, but the final notification under section 28(4) of the Act was pending to be issued by the State Government. The Company has filed a writ petition in The Honorable High Court of Karnataka (Court), against the State Government seeking the Court to issue a direction to the State Government to issue the final notification under Section 28(4) of the Act, and also against KIADB seeking the Court to issue a direction to KIADB to complete the acquisition proceedings in respect of the property, handover the possession of the same to the Company and execute absolute sale deeds in favour of the Company, at the earliest. The Court has issued an order on 13 January 2017, directing the State Government to issue final notification under Section 28(4) of the Act. It also ordered to the other respondents to expedite all further actions that are required to be taken in the matter in accordance with law without causing further delays. The State Government has issued a notification on 28 February 2018 under section 28(4) of the Act declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of Rs 580,876.80 thousand on 13 October 2018 as final consideration to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company is in the process of paying the amount demanded.

Number of shares at the beginning of the year	10,101	10,101
Number of shares issued during the year	-	-
Number of shares outstanding at the end of the year	10,101	10,101

(c) Rights, preferences and restrictions attached to equity shares:

The Company has only one class of equity shares having par value of INR 10. Each holder of the equity share, as reflected in the records of the Company as of the date of the shareholder meeting, is entitled to one vote in respect of each share held for all matters submitted to vote in the shareholders' meeting. The Company declares and pays dividend in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing General Meeting.

On 17 August 2011 the Company, the equity shareholders and the holders of 5% fully and compulsorily convertible debentures ("investors") have entered into a subscription agreement ("the Agreement") which specifies the rights, restrictions and terms of equity shareholders as well as debenture holders, the salient features are given below:

The Company shall not declare any dividends unless otherwise approved by the Board of Directors and/or shareholders in accordance with the terms of the agreement.

Any distributable amount will be distributed to the equity share holders and the holders of compulsorily convertible debentures in the manner agreed between the Company, the equity share holders and the debenture holders.

The equity share holders cannot transfer their shares to any person till such time the investors hold any securities in the Company, unless the equity share holders obtain the prior written permission of the debenture holders. However, the equity share holders can sell up to a maximum of 10% of equity shares held by them, with the prior written consent of debenture holders (which shall not be unreasonably withheld) subject to compliance with certain specific performance conditions as mentioned in the agreement.

The equity share holders have the right to nominate and appoint two Directors to the Board of Directors and the debenture holders shall have the right to nominate one non-retiring Director to the Board of Directors.

(d) Buy back of shares and shares allotted by way of bonus shares and shares issued for consideration other than cash

The Company has not allotted any fully paid-up equity shares by way of bonus shares nor has it bought back any class of equity shares or issued shares for consideration other than cash during the period of five years immediately preceding the balance sheet date.

13 Other current financial liabilities

Particulars	(INR in thousands)	
	As at 31 March 2019	As at 31 March 2018
5% fully and compulsorily convertible debentures of Rs 10 each (Refer Note A)	3,943,500.00	2,742,200.00
Interest accrued and not due (Refer Note A)		
- on 5% fully and compulsorily convertible debentures	902,634.61	767,025.22
Other payables	10,033.29	618.96
	4,856,167.90	3,509,844.18

A 5 % fully and compulsorily convertible debentures: Key terms**Repayment terms and interest rate of debentures**

- (a) The debentures shall carry interest at 5% per annum on the principal amount till the date of conversion. Interest shall be payable as on 31 March of each year ("Payment date"). All payments of interest rate shall be made net of any applicable withholding tax, payable in relation to such amounts. The interest is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date.
- (b) The debentures shall be compulsorily converted into equity shares in the following manner on expiry of 31 July 2019 (31 July 2018 prior to execution of the third amendment to Securities Subscription and Shareholders agreement dated 31 July 2018) or in the event of default, as defined in securities subscription and shareholders agreement dated 17 August 2011, whichever is earlier.
- (i) At any time after the expiry of 31 July 2019, the holder of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted upon such conversion represents 18.59% of the share capital of the Company on a fully diluted basis as on the date of conversion.
- (ii) at any time after the occurrence of an event of default, the holders of the debentures shall be entitled to convert the debentures into equity shares such that the number of equity shares issued and allotted on such conversion represents 51% of the share capital of the Company on a fully diluted basis as on the date of the conversion.

While the CCDs are mandatorily convertible into equity shares at any time after the expiry of 31 July 2019 as per the extended agreement dated 31 July 2018, in accordance with the requirements of Guidance Note on Schedule III to the Companies Act, 2013, the conversion of CCDs into equity shares are considered as a means of settlement of the liability and since the investors have a right to convert after the expiry of 31 July 2019, these CCDs are classified as other current financial liabilities as at 31 March 2019.

The interest on 5% fully and compulsorily convertible debentures of INR 10 each is payable subject to availability of distributable cash flow from the projects and the balance unpaid interest shall be carried forward and paid on the next payment date. The Management believes that there will not be any availability of distributable cash flow as the projects are yet to commence and hence the interest accrued till date on the same has been classified under "Other current financial liabilities".

17 Contingent liabilities and commitments (to the extent not provided for)**Contingent liabilities:**

The Company did not have any contingent liabilities as at 31 March 2019 and 31 March 2018.

Capital commitments:

The Company had made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bangalore. The Company had made an advance payment of Rs 1,217,494.30 thousands in earlier years in accordance with the demand request raised by KIADB. The State government has issued a notification on 28 February 2018 declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of Rs 580,876.80 thousand on 13 October 2018 as final consideration to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company is in the process of paying the amount demanded.

18 Auditors remuneration (excluding taxes)**(INR in thousands)**

Particulars	For the year ended 31 March 2019	For the year ended 31 March 2018

Reimbursement of expenses	25.17	27.00
	625.17	627.00

19 Earnings/ (loss) per share**A. Basic earnings per share**

Basic EPS amounts are calculated by dividing the profit/ (loss) for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit /(loss) attributable to equity holders (after adjusting for interest on the compulsorily convertible debentures) by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

A. Basic and diluted earnings per share

The following table sets forth the computation of basic and diluted earnings per share :

(INR in thousands except per share data)

Particulars	Units	For the year ended 31 March 2019	For the year ended 31 March 2018
Loss for the year attributable to equity shareholders	INR in thousands	(1,354,118.23)	(442,513.01)
Weighted average number of equity shares of Rs 10 each used for calculation of basic and diluted earnings per share	Number	10,101	10,101
Loss per share, basic and diluted	INR	(134,057.84)	(43,808.83)

For the year ended 31 March 2019: 301,354,193 (March 2018: 301,354,193) compulsorily convertible debentures were excluded from the calculation of diluted weighted average number of equity shares as their effect would have been anti-dilutive.

21 Tax expense

A. No income tax expense was recognised in the statement of profit and loss account.

B. Reconciliation of tax expense and accounting profit multiplied by India's domestic tax rate

(INR in Thousands)		
Particulars	For the year ended 31 March 2019	For the year ended 31 March 2018
Accounting profit/ (loss) before income tax	(1,354,118.23)	(442,513.01)
Domestic tax rate	26.00%	25.75%
Tax using the Company's domestic tax rate	(352,070.74)	(113,947.10)
Effect of		
Current year losses for which no deferred tax asset is recognised	352,070.74	113,947.10
Income tax expense	-	-

C. Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Company can use the benefits therefrom:

(INR in Thousands)		
Particulars	As at 31 March 2019	As at 31 March 2018
Unused tax losses	2,053,800.40	1,905,179.78
	2,053,800.40	1,905,179.78

22 Financial instruments-fair values and risk measurement

A. Accounting classifications and fair value

The carrying value and fair value of financial instruments by categories are as below:

			(INR in thousands)	
		Carrying value	Fair value	
Particulars	As at 31 March 2019	As at 31 March 2018	As at 31 March 2019	As at 31 March 2018
Financial assets measured at amortised cost				
Other receivables	-	389,691.51	-	-
Cash and cash equivalents	902.05	988.92	-	-
Total assets	902.05	390,680.43	-	-
Financial liabilities measured at amortized cost				
Borrowings	644,389.15	1,028,640.00	-	-
Other financial liabilities	4,856,167.90	3,509,844.18	-	-
Total liabilities	5,500,557.05	4,538,484.18	-	-

The management has assessed that fair value of other receivables, cash and cash equivalents, borrowings, other financial liabilities approximate their carrying amounts due to the short-term maturities of these instruments.

B. Fair value hierarchy

The section explains the judgement and estimates made in determining the fair values of the financial instruments that are:

- recognised and measured at fair value
- measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial

instruments into the three levels prescribed under the accounting standard. An explanation of each level is mentioned below:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Transfers between Level 1, Level 2 and Level 3

There were no transfers between Level 1, Level 2 or Level 3 during the year ended 31 March 2019 and 31 March 2018.

23 Financial risk management

The Company has exposure to following risks arising from financial instruments-

- credit risk
- market risk
- liquidity risk

Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from Company's cash and cash equivalents and other receivables from related party. The carrying amount of financial assets represents the maximum credit exposure.

(i) Cash and cash equivalents

The Company holds cash and cash equivalents of Rs.902.05 thousands at 31 March 2019 (31 March 2019: Rs 988.92 thousands). The cash and cash equivalents are mainly held with banks which are highly rated. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of counterparties.

(ii) Other receivables

The Company establishes an allowance for credit loss that represents its estimate of expected losses in respect of other receivables based on the past and the recent collection trend. All the other receivables are from a related party. The Company does not have any amount due from other receivables as at 31 March 2019.

(b) Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's income and its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Currency risk

The Company operates domestically. There are no foreign exchange transactions in the year of reporting.

(ii) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates is nil as it does not have any debt obligations with floating interest rates.

(c) Liquidity Risk

Liquidity is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing the liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk

The table below details the Company's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Particulars	Carrying value	Contractual cash flows			
		Total	1 year or less	1 year to 3 years	3 to 5 years more than 5 yrs
31 March 2019					
Borrowings	644,389.15	644,389.15	644,389.15	-	-
Other financial liabilities	912,667.90	912,667.90	912,667.90	-	-
	1,557,057.05	1,557,057.05	1,557,057.05	-	-
31 March 2018					
Borrowings	1,028,640.00	1,028,640.00	1,028,640.00	-	-
Other financial liabilities	767,644.18	767,644.18	767,644.18	-	-
	1,796,284.18	1,796,284.18	1,796,284.18	-	-

Summit Developments Private Limited**Notes to the financial statements for the year ended 31 March 2019****24 Capital management**

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a ratio of net adjusted debt to equity. For this purpose, adjusted net debt is defined as total liabilities, comprising obligations, trade payables and other liabilities less cash and cash equivalents. Adjusted equity comprises all components of equity. The Company's adjusted net debt to equity ratio at 31 March 2019 was as follows.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	(INR in thousands)	
	As at 31 March 2019	As at 31 March 2018
Total liabilities	5,516,193.04	4,553,552.49
Less: Cash and bank balances	(902.05)	(988.92)
Adjusted debt	5,515,290.99	4,552,563.57
Adjusted total equity	(2,490,865.82)	(1,136,747.59)
Adjusted debt to adjusted equity ratio	(2.21)	(4.00)

25 Reconciliation of movements of liabilities to cash flows arising from financing activities:

Particulars	Opening balance 1 April 2018	Cash flows		Non cash Fair value changes	Closing balance 31 March 2019
		Proceeds	Repayments		
Proceeds from borrowings	1,028,640.00	-	384,250.85	-	644,389.15
Total changes from movement in financing activity	1,028,640.00	-	384,250.85	-	644,389.15

- 26 The Company had repaid the loan of Rs 384,250.85 thousands to Embassy Property Developments Private Limited (EPDPL), the holding company, as on 31 March 2019 in which a director is interested (outstanding of Rs 644,389.15 thousands as at 31 March 2019). As per the requirements of section 185 of the Companies Act, 2013 ("Act"), no company shall directly or indirectly provide any loan or give guarantee or provide any security to a person in whom a director is interested. Accordingly, the aforementioned loan received by the Company was not in compliance with the requirements of the Act.

Independent Auditor's Review Report

To the Board of Directors of Summit Developments Private Limited

Review Report on Unaudited Special Purpose Interim Financial Statements

1. We have reviewed the accompanying Unaudited Special Purpose Interim Financial Statements of Summit Developments Private Limited (the "Company"), which comprise the Unaudited Special Purpose Interim Balance Sheet as at December 31, 2021, the Unaudited Special Purpose Interim Statement of Profit and Loss (including Other Comprehensive Income) for nine months period ended on that date and other relevant explanatory notes and information (hereinafter referred to as the "Unaudited Special Purpose Interim Financial Statements"). The Unaudited Special Purpose Interim financial statements have been prepared by the management in accordance with Note 2.01 based on the preparation of the Unaudited Special Purpose Interim financial statements.
2. The management of the Company is responsible for the preparation and presentation of these Unaudited Special Purpose Interim Financial Statements in accordance with recognition and measurement principles laid down in Ind AS 34 'Interim Financial Reporting', and applicable Indian Accounting Standards ("IND-AS") issued by the Institute of Chartered Accountants of India (ICAI) and other recognised accounting practices and policies in India. The Unaudited Special Purpose Interim Financial Statements are the responsibility of the Company's management. Our responsibility is to express a conclusion on the Unaudited Special Purpose Interim Financial Statements based on our review.
3. We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Unaudited Special Purpose Interim Financial Statements have not been prepared in all material respects in accordance with recognition and measurement principles laid down in IND AS 34 'Interim Financial Reporting' and applicable Indian

accounting standards issued by Institute of Chartered Accountants of India (ICAI) and other recognized accounting practices and policies in India.

Emphasis of Matter

5. We draw attention to Note 4 of the Unaudited Special Purpose Interim Financial Statements, which describes the ongoing negotiation between the parties to Securities Purchase Agreement (SPA) and the consequent impact on value for Compulsorily Convertible Debentures for nine months ended December 31, 2021. Our opinion is not modified in respect of this matter.

Basis of Preparation

6. Without modifying our opinion, we draw attention to note 2.01 to the Unaudited Special Purpose Interim Financial Statements, which describes the basis of preparation of the Unaudited Special Purpose Interim Financial Statements.

Restriction to use

7. This review report is issued at the request of the Company for submission to its holding company, NAM Estates Private Limited to enable it to prepare its unaudited special purpose interim consolidated financial statements and for use by management in the process of placement of equity shares of Rs 2 in an institutional placement in India to be issued by Indiabulls Real Estate Private Limited. These Unaudited Special Purpose Interim Financial Statements should not be used for any other purpose without our prior written consent.

1 Company background

Summit Developments Private Limited ("SDPL" or "the Company") was incorporated on 11 February 2011 as a private limited company under the provisions of the Companies Act, 1956. The registered office of the Company is at Bengaluru, India. The Company is engaged in the business of real estate development. The Company has invested in a subsidiary (Saphire Realtors Private Limited) which hold 204 acres and 4 guntas of land on which an integrated township is planned to be developed.

2 Basis of preparation

2.01 Statement of compliance

These special purpose interim financial statements have been prepared to be included in the special purpose consolidated financial statement of Nam Estates Private Limited and to be presented in the private placement document, on a standalone basis, for the proposed fund raise by Indiabulls Real Estate Limited. This financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued there under and other accounting principles generally accepted in India. The comparative information as required by Ind AS 34 have not been presented. Selected notes have been included that are significant for the understanding of the changes in the Company's financial position and performance since the last annual financial statements, wherever applicable.

The Special Purpose interim financial statements for the period nine months ended 31st December, 2021 were authorised for issue by the Company's Board of Directors on 14th February, 2022.

2.02 Functional and presentation currency

These Special Purpose Interim financial statements are presented in Indian Rupees, which is also the Company's functional currency. All the amounts have been rounded -off to the nearest millions, unless otherwise indicated.

2.03 Basis of measurement

The Special Purpose Interim financial statements have been prepared on the historical cost basis except for certain financial assets and liabilities that are measured at fair values.

2.04 Use of estimates and judgements

In preparing these Special Purpose Interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

2.05 Use of going concern assumptions

The Company's Special Purpose Interim financial statements have been prepared on a going concern basis notwithstanding the fact that it has a negative net worth of Rs.1,06,13.13 million as at 31 December 2021 and has incurred a net loss of Rs. 115.99 million during period ended 31 December 2021. Further, the Company's current liabilities exceeded its current assets by Rs. 1,31,21.33 millions as at that date. The appropriateness of the going concern assumption on the basis of which these Special Purpose Interim financial statements have been prepared is based on financial support committed to the Company by the holding company.

These Special Purpose Interim financial statements, therefore, do not include any adjustments relating to recoverability and classification of asset amounts and classification of liabilities that may be necessary if the Company was unable to continue as a going concern.

2.06 The significant accounting policies adopted in the preparation of these Special Purpose Interim financial statements is the same policies that have been consistently applied as per the previous audited financials statements.

(this space is intentionally left blank)

3 Contingent liabilities and commitments (to the extent not provided for)

Particulars	As at	As at
	31 December 2021	31 March 2021
Contingent liabilities:		
a) Claims against the Company not acknowledged as debt in respect of Income-Tax matters (refer note a below)	-	-
Capital commitments:		
b) Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for (refer note b below)	29.03	752.10

a) The Income Tax department has launched the proceedings u/s 276B against the company and principle officer in respect of defaults in payment of Tax deducted at source. The company is contesting the proceedings initiated before the Honourable High court of Karnataka. The quantification of financial default is not ascertainable pending final judgement at this point of time. Hence the amount couldn't be quantified at the balance sheet date and not provided for.

b) (i) The Company had made an application to Karnataka Industrial Area Development Board (KIADB) towards acquisition of 216 acres of land in Bangalore. The Company had made an advance payment of Rs 1,217.49 millions in earlier years in accordance with the demand request raised by KIADB. The State government has issued a notification on 28 February 2018 declaring the subject land as industrial area. Pursuant to this, the Company has approached the relevant regulatory authorities to carry out the subsequent steps for acquisition of land. Further to this, KIADB has send a demand letter of Rs 728.78 millions on 13 January 2021 as final compensation to be paid for acquisition of land after adjusting the deposit already placed with KIADB by the Company. The Company has paid the said amount during the period ended 31 December 2021.

(ii) Estimated amount of contracts remaining to be executed on projects(net of advance) and not provided for - Rs.29.03 millions for the period ended 31 December 2021 (31 March 2021: Rs. 30.76 millions)

- 4 (a) During the year ended March 31, 2021, the CCD holders have issued an 'event of default' notice under the provisions of the Securities Subscription and Shareholders Agreement (SSSHA) dated August 17, 2011. As per the terms of the SSSHA, upon the occurrence of an event of default, the debenture holders will be entitled to convert the debentures into equity shares such that it represents 51% of the share capital of the company.

(b) Subsequently, the Company, Embassy Property Development Private Limited (EPDPL) and the CCD holders have entered into a Securities Purchase Agreement (SPA) whereby EPDPL will buy out the CCD's for an agreed consideration. According to the terms of the SPA, the purchase of the CCDs was to be completed by 31st March 2021 (Closing date). However, the CCD holders issued a NOC towards the Demerger scheme, whereby they have stated the Closing date or the Long Stop Date shall stand extended to 31 August 2021.

(c) Consequent to the Long Stop Date, the investors have intimated the management of the Company proposing a further extension of the "Closing date" and a revision of the previously agreed consideration. The Closing date is proposed to be extended up to 31 March 2022 and the consideration is under the process of negotiation between the Parties to the SPA. Due to this, the revised value cannot be rigidly determined and hence the effect of any variation in the value has not been given in the Special Purpose Interim financial statements as on December 31, 2021.

Independent Auditor's Report

To the Members of Indiabulls Properties Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Indiabulls Properties Private Limited ('the Company'), which comprise the Standalone Balance Sheet as at 31 March 2021, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Cash Flow Statement and the Standalone Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view, in conformity with the accounting principles generally accepted in Indian including the Indian Accounting Standards ('Ind AS') prescribed under section 133 of the Act, of the state of affairs of the Company as at 31 March 2021, and its loss (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 52 to the accompanying standalone financial statements, which describes the effect of uncertainties relating to the outbreak of Covid-19 pandemic and the management's evaluation of its impact on the Company's operations and the standalone financial statements of the Company as at the balance sheet date, the extent of which is significantly dependant on future developments. Our opinion is not modified in respect of this matter.

Information other than the Standalone Financial Statements and Auditor's Report thereon

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Director's Report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Independent Auditor's Report to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2021 (cont'd)

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

6. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
8. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
10. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty

Independent Auditor's Report to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2021 (cont'd)

exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

12. Based on our audit, we report that the provisions of section 197 read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under section 2(71) of the Act. Accordingly, reporting under section 197(16) is not applicable.
13. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.
14. Further to our comments in Annexure A, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with the Ind AS prescribed under section 133 of the Act;
 - e) the matter described in paragraph 4 under the Emphasis of Matter, in our opinion, may have an adverse effect on the functioning of the Company;
 - f) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of section 164(2) of the Act;
 - g) we have also audited the internal financial controls with reference to standalone financial statements of the Company as on 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 23 September 2021 as per Annexure B expressed unmodified opinion; and
 - h) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

Independent Auditor's Report to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2021 (cont'd)

- i. the Company, as detailed in note 39A and 39C to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2021;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021;
- iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2021; and
- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2021

Annexure A

Based on the audit procedures performed for the purpose of reporting a true and fair view on the standalone financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, investment property and intangible assets.
- (b) The Company has a regular program of physical verification of its property, plant and equipment and investment property under which property, plant and equipment and investment property are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain property, plant and equipment and investment property were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'Investment Property') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Section 186 in respect of investments. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and Section 186 of the Act in respect of loans, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii)(a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess, goods and services tax and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited, on the standalone financial statements for the year ended 31 March 2021 (cont'd)

- (b) The dues outstanding in respect of income tax, sales tax, service tax, duty of customs, duty of excise, value added tax and goods and service tax on account of any dispute are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (Rs. in millions)	Amount paid under protest (Rs. in millions)	Period to which amount relates	From where the dispute is pending
The Finance Act, 1994	Service tax	253.60	-	2009-10 to 2013-14	Commissioner of service tax
The Finance Act, 1994	Service tax	3.70	-	2009-10	Commissioner of service tax
The Finance Act, 1994	Service tax	37.46	-	2015-17	Deputy/Assistant Commissioner
Maharashtra Goods and Services Tax Act, 2017	Goods and services tax	10.52	-	2017	Joint Commissioner of Maharashtra State tax (Appeals)

- (viii) The Company has not defaulted in repayment of loans or borrowings to any bank or any dues to debenture-holders during the year. The Company did not have any loans or borrowings payable to the government or financial institution during the year
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments) and in our opinion, the term loans were applied for the purposes for which the loans were obtained, though idle/surplus funds which were not required for immediate utilisation have been invested in liquid investments, payable on demand.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) The provisions of Section 197 of the Act read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under Section 2(71) of the Act. Accordingly, provisions of clause 3(xi) of the Order are not applicable.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion, all transactions with the related parties are in compliance with Section 188 of the Act, where applicable, and the requisite details have been disclosed in the standalone financial statements, as required by the applicable Ind AS. Further, in our opinion, the Company is not required to constitute audit committee under Section 177 of the Act.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited, on the standalone financial statements for the year ended 31 March 2021 (cont'd)

(xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2021

Annexure B

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Indiabulls Properties Private Limited ('the Company') as at and for the year ended 31 March 2021, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Standalone Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2021 (Cont'd)

Meaning of Internal Financial Controls with Reference to Standalone Financial Statements

6. A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Standalone Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1 Nature of principal activities

Indiabulls Properties Private Limited ('the Company') was incorporated on 18 March 2005 with the main objects of carrying on the business of purchasing, selling, developing, constructing, acquiring on lease/hire purchase and dealing in real estate properties and other related activities. The Company is domiciled in India and its registered office is situated at Plot No. 448-451, Udyog Vihar, Phase-V, Gurugram, Haryana - 122016. The Company's principle place of business is One International Center (formerly known as Indiabulls Finance Centre), Tower 1, 10th Floor, Lower Parel (West), Mumbai- 400 013.

2 Basis of preparation-**a) General information and statement of compliance with Ind AS**

These standalone financial statements ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules 2015 (by Ministry of Corporate Affairs ('MCA')), as amended and other related provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented.

The financial statements for the year ended 31 March 2021 were authorized and approved for issue by the Board of Directors on 23 September 2021. The revision to standalone financial statements is permitted by Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

These financial statements are presented in Indian rupees (Rs. Million), which is also the Company's functional and presentation currency. All amounts have been rounded-off to the nearest millions upto two place of decimal, unless otherwise indicated.

b) Basis of accounting

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. Fair valuations related to financial assets and financial liabilities are categorised into level 1, level 2 and level 3 based on the degree to which the inputs to the fair value measurements are observable.

2.1 Recent accounting pronouncements**a) Amendments to Schedule III of the Act**

On 24 March 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Act. The amendments revise Division I, II and III of Schedule III and are applicable from 1 April 2021. The revised Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015, as amended, prescribes amendments for various additional disclosures. The Company is evaluating the requirements of these amendments and their impact on the standalone financial statements.

b) Amendments to Ind AS 107, Financial Instruments: Disclosures

New disclosures requirements are added in the standard to enable the users to understand the effect of interest rate benchmark reforms on entity's risk management strategy. The related amendments are also made in the other accounting standard as applicable. The Company is evaluating the requirements of these amendments and their impact on the standalone financial statements.

c) Amendments to Ind AS 105, Non-current Assets Held for Sale and Discontinued Operations and Ind AS 16, Property, Plant and Equipment

There is change in definition of recoverable amount from 'fair value less costs to sell' to 'fair value less costs of disposal'. The Company is evaluating the requirements of these amendments and their impact on the standalone financial statements.

d) Amendment to Ind AS 116, Leases

On 18 June 2021, Ministry of Corporate Affairs ("MCA") has issued an updated amendment to Ind AS 116 in respect of rent concessions occurring as a direct consequence of the Covid-19 pandemic. The effective date of these amendments is 1 April 2021. However, in case an entity (lessee) has not yet approved the financial statements before the issuance of this amendment, then the same may be applied for annual reporting periods beginning on or after 1 April 2020 as well. Currently, the Company does not have any such scenario and hence, the Company has not considered any impact of this amendment on these standalone financial statements.

3 Summary of significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below. These were used throughout all periods presented in the standalone financial statements.

a) Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Act. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

b) Property, plant and equipment (PPE)*Recognition and initial measurement*

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in Standalone Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

Property, plant and equipment are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Act.

Asset class	Useful life
Building (temporary structure)	3 years
Plant and machinery	12 – 15 years
Office equipment	10 years
Computers	6 years
Furniture and fixtures	10 years
Vehicles	8 – 10 years

The residual values, useful lives and method of depreciation of are reviewed at the end of each financial year.

De-recognition

An item of property, plant and equipment initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in Standalone Statement of Profit and Loss when the asset is derecognised.

c) Investment property

Recognition and initial measurement

Investment property is property held to earn rentals or for capital appreciation, or both. Investment property is measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in Standalone Statement of Profit or Loss as incurred.

Subsequent measurement (depreciation and useful lives)

Investment property is subsequently measured at cost less accumulated depreciation and impairment losses, if any. Depreciation on investment property is provided on the straight-line method, computed on the basis of useful lives (as set-out below) prescribed in Schedule II to the Act:

Asset class	Useful life
Commercial building	60 years
Plant and machinery	12 - 15 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition

Investment property is de-recognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in Standalone Statement of Profit and Loss in the period of de-recognition.

d) Intangible assets

Recognition and initial measurement

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortisation)

The cost of capitalized software is amortized over a period of three to four years from the date of its acquisition.

e) Inventories

Land other than that transferred to real estate properties under development is valued at lower of cost or net realizable value.

Real estate properties (developed and under development) includes cost of land under development, internal and external development costs, construction costs, and development/construction materials, borrowing costs and related overhead costs and is valued at lower of cost or net realizable value.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs of necessary to make the sale.

f) Revenue recognition

Revenue is recognised when control is transferred and is accounted net of rebate and taxes. The Company applies the revenue recognition criteria to each nature of the revenue transaction as set out below.

Revenue from sale of properties

Revenue from sale of properties is recognized when the performance obligations are essentially complete and credit risks have been significantly eliminated. The performance obligations are considered to be complete when control over the property has been transferred to the buyer i.e. offer for possession (possession request letter) of properties have been issued to the customers and substantial sales consideration is received from the customers.

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring property to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

For each performance obligation identified, the Company determines at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If an entity does not satisfy a performance obligation over time, the performance obligation is satisfied at a point in time. A receivable is recognised by the Company when the control is transferred as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required.

When either party to a contract has performed, an entity shall present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the entity's performance and the customer's payment.

The costs estimates are reviewed periodically and effect of any change in such estimate is recognized in the period such changes are determined. However, when the total estimated cost exceeds total expected revenues from the contracts, the loss is recognized immediately.

Base rent, amenities income

Base rent comprises rental income earned from the operating leases and finance lease of the owned properties. Base rent are recognised on a straight-line basis over the terms of the lease, except for variable rental income, which is recognised when it arises. Amenities income is rental revenue earned from the letting of space at the properties for amenities (including canteen space and business centre) is recognised in the period in which the services are being rendered.

Operations and maintenance income

Income arising from billing of maintenance charges to tenants/customers is recognised in the period in which the services are being rendered. A receivable is recognised by the Company when the services are rendered as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required. Further, the Company considers the terms of the contract and its customary business practices to determine the transaction price. The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

Service revenue

Income from cancellation/forfeiture and transfer fees from customers are recognized on accrual basis except in cases where ultimate collection is considered doubtful.

Car parking income

Car parking income is recognised in the period in which the services are rendered.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

g) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Standalone Statement of Profit and Loss as incurred.

h) Leases

Where the Company is the lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

i) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Standalone Statement of Profit and Loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognised are accordingly reversed in the Standalone Statement of Profit and Loss.

j) Foreign currency

Functional and presentation currency

The financial statements are presented in Indian Rupee ('INR' or 'Rs.') which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognised in the Standalone Statement of Profit and Loss in the year in which they arise.

k) Investments

Investment in equity instruments of subsidiaries are measured at cost as per Ind AS 27 'Separate Financial Statements'.

l) Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

(i) Debt instruments at amortised cost – A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

(ii) Equity investments – All equity investments in scope of 'Ind AS 109 Financial Instruments' ('Ind AS 109') are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).

(iii) Mutual funds – All mutual funds in scope of Ind AS 109 are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted.

Subsequent measurement – Amortised cost

Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Standalone Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

m) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. The Company factors historical trends and forward looking information to assess expected credit losses associated with its assets and impairment methodology applied depends on whether there has been a significant increase in credit risk.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition, if the financial asset is determined to have low credit risk at the balance sheet date.

n) Income-taxes

Tax expense recognised in Standalone Statement of Profit and Loss comprises the sum of current tax and deferred tax except the ones recognised in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Standalone Statement of Profit and Loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside Standalone Statement of Profit and Loss is recognised outside Standalone Statement of Profit and Loss (either in other comprehensive income or in equity).

o) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and other short-term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

p) Employee benefits

Defined contribution plan

The Company's contribution to provident fund is charged to the Standalone Statement of Profit and Loss. The Company's contributions towards provident fund are deposited with the regional provident fund commissioner under a defined contribution plan.

Short-term employee benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

q) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company; or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are disclosed only when inflow of economic benefits therefrom is probable and recognized only when realization of income is virtually certain.

r) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

s) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the related disclosures.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

Provisions – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However the actual future outcome may be different from this judgement.

Contingencies – In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. Where management's assessment that the outcome cannot be reliably quantified or is uncertain the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements.

When considering the classification of a legal or tax cases as probable, possible or remote there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to inform their decision.

Revenue and inventories – The estimates around total budgeted cost i.e. outcomes of underlying construction and service contracts, which further require assessments and judgements to be made on changes in work scopes, claims and other payments to the extent they are probable and they are capable of being reliably measured. For the purpose of making estimates for claims, the Company used the available contractual and historical information. The estimates of the saleable area are also reviewed periodically and effect of any changes in such estimates is recognised in the period such changes are determined.

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utilisation of assets.

Valuation of investment property – Investment property is stated at cost. However, as per Ind AS 40, there is a requirement to disclose fair value as at the balance sheet date. The Company engaged independent valuation specialists to determine the fair value of its investment property as at reporting date. The determination of the fair value of investment properties requires the use of estimates such as future cash flows from the assets (such as lettings, future revenue streams, capital values of fixtures and fittings, any environmental matters and the overall repair and condition of the property) and discount rates applicable to those assets. In addition, development risks (such as construction and letting risk) are also taken into consideration when determining the fair value of the properties under construction. These estimates are based on local market conditions existing at the balance sheet date.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Additions	71.23	71.23
Balance as at 31 March 2021 (D)	71.23	71.23
Total net block of investment property:		
Balance as at 31 March 2020 (A+C)	11,606.14	11,606.14
Balance as at 31 March 2021 (B+D)	11,387.94	11,387.94

Notes:

- i) Investment property has been pledged as security by the Company for borrowings (refer note 23).
- ii) Refer note 39 for contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

iii) Amounts recognised in Standalone Statement of Profit and Loss for investment property

Particulars	31 March 2021	31 March 2020
Rental income derived from investment property (including maintenance and car parking income)	2,811.40	3,411.07
Less: Direct operating expenses (including repairs and maintenance) generating rental income	(535.63)	(505.70)
Profit arising from investment property before depreciation	2,275.77	2,905.37
Less: Depreciation	(329.09)	(325.96)
Profit arising from investment property	1,946.68	2,579.41

iv) Leasing arrangements

Investment properties are leased to tenants under long-term operating leases with rentals payable monthly. Refer note 41 for details on future minimum lease rentals.

v) Fair value

The Company obtains independent valuations for its investment properties at least annually. As at 31 March 2021 and 31 March 2020, the fair values are:

Fair value:	Rs. (in millions)
As at 31 March 2021	43,142.00
As at 31 March 2020	42,304.57

The fair value of investment property has been determined by external, independent property valuers, having appropriate qualifications and recent experience in the location and category of the property being valued.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the revenue generating potential of the existing built-up area, the Company follows discounted cash flows technique and income capitalisation approach. Discounted cash flow approach is based on the present value of the future receivable net income from the current operational leases / revenues. These cash flows are then discounted at an appropriate discounting rate linked with risk adjusted discounting factor to arrive at the sale value for the operational project components.

vi) Sensitivity analysis

The table below shows the effect of a 5% change in the value of investment properties.

Effect of change in value of investment properties (%)	31 March 2021	31 March 2020
5% increase	2,157.10	2,115.23
5% decrease	(2,157.10)	(2,115.23)

7 Investments - non-current

Particulars	31 March 2021	31 March 2020
(i) Investment in equity shares*		
Subsidiaries - unquoted**		
50,000 (31 March 2020 : 50,000) equity shares of 'Opcore Services Limited (formerly known as 'Indiabulls Realty Developers Limited')	0.05	0.05
(ii) Investment in preference shares*		
Others - unquoted		
425,000,000 (31 March 2020 : 425,000,000) optionally convertible redeemable preference shares of Indiabulls Constructions Limited#	448.25	463.25
(iii) Investment in mutual funds***		
Others - quoted		
233,887.99 (31 March 2020: 233,887.99) units at net assets value Rs. 3,203.10 (31 March 2020: Rs. 3,093.61) SBI Mutual Fund - Liquid	749.17	723.56
	1,197.47	1,186.86
Aggregate amount of unquoted investments	448.30	463.30
Aggregate amount and market value of quoted investments	749.17	723.56

*Face value of Rs. 10 each unless otherwise stated.

**Investment in subsidiary is measured at cost as per Ind AS 27 'Separate Financial Statements'

#These are investments in optionally convertible redeemable preference shares (convertible at the option of the issuer) and are measured at fair value through other comprehensive income. Refer note 45.

***These are investments in mutual funds and are measured at fair value through profit and loss. These investments have been marked as lien against long-term borrowings from State Bank of India to fulfill the debt service reserve account requirements with respect to these long-term borrowings.

8 Loans - non-current*

Particulars	31 March 2021	31 March 2020
(Unsecured, considered good)		
Security deposits	26.80	26.80
	26.80	26.80

*The Company does not have any loans which are either credit impaired or where there is significant increase in credit risk.

9 Other financial assets - non-current

Particulars	31 March 2021	31 March 2020
(Unsecured, considered good)		
Finance lease receivable (refer note 42)*	61.51	3.48
Bank deposits with maturity of more than 12 months	30.53	-
	92.04	3.48

*The Company has entered into finance leases with parties for a period of 5 years. The rate of interest charged on the leases since the inception date is 9% p.a. to 18% p.a. respectively. The Company recognises the finance income over the period of finance lease.

10 Deferred tax assets (net)

Particulars	31 March 2021	31 March 2020
Deferred tax assets arising on account of:		
Expected credit losses on trade receivables	25.33	23.19
Reversal of revenue and related costs as per Ind AS 115	-	200.89
Deferred tax liabilities arising on account of:		
Property, plant and equipment, investment property and intangible assets	(25.33)	(23.19)
	-	200.89
Minimum alternate tax credit entitlement	254.60	254.60
	254.60	455.49

i) The Company did not recognise deferred tax asset on brought forward losses as there is no convincing evidence which demonstrates probability of realization of deferred tax asset in the near future. The Company has balance unabsorbed depreciation of Rs. 245.35 millions (31 March 2020: Rs. 174.41 millions) and unabsorbed business losses of Rs. 2,919.94 millions (31 March 2020: Rs. 2,144.72 millions) on which deferred tax asset is not created as a matter of prudence.

ii) **Caption wise movement in deferred tax assets as follows:**

	32.51	32.51

Notes**a) Reconciliation of the number of shares outstanding at the beginning and at the end of the reporting year:**

Particulars	Number of shares	Amount
As at 1 April 2019	32,51,362	32.51
Issued during the year	-	-
As at 31 March 2020	32,51,362	32.51
Issued during the year	-	-
As at 31 March 2021	32,51,362	32.51

b) Shareholders holding more than 5% of equity shares:

Name of the shareholder	As at 31 March 2021		As at 31 March 2020	
	Number of shares	% holding	Number of shares	% holding
FIM Holdco 1 Limited	27,07,084	83.26%	27,07,084	83.26%
Ariston Investments Sub A Limited	5,44,278	16.74%	5,44,278	16.74%
	32,51,362	100.00%	32,51,362	100.00%

On 25 September 2019, the co-venturer Indiabulls Real Estate Limited had sold the remaining stake in the Company (held through its subsidiaries) to the other co-venturer FIM Holdco 1 Limited and Ariston Investments Sub A Limited. Accordingly, FIM Holdco 1 Limited had become Holding Company of the Company.

c) Rights, preferences and restrictions attached to equity and preference shares

The holders of equity shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In the event of liquidation of the Company, all preferential amounts, if any, shall be discharged by the Company. The remaining assets of the Company shall be distributed to the holders of equity shares in proportion to the number of shares held to the total equity shares outstanding as on that date. All shares rank equally with regard to the Company's residual assets, except that holders of preference shares participate only to the extent of the face value of the shares.

d) Aggregate number of bonus shares issued, shares issued for consideration other than cash and shares bought back during the period of five years immediately preceding the reporting date:

Of the above, 29,761 equity shares of ₹ 10 each fully paid up have been issued on conversion of 505,953 compulsorily convertible debentures of ₹ 1,000 each fully paid up during the earlier years.

No bonus shares issued during the period of five years immediately preceding 31 March 2021.

No shares have been bought back during the period of five years immediately preceding 31 March 2021.

B Details of preference share capital

Total of other equity	1,470.84	3,631.88

Capital redemption reserve:

The same has been created in accordance with provisions of Section 69 of the Companies Act 2013 for the buy back of 15,850 equity shares from the shareholders in previous years.

Securities premium:

Securities premium is used to record the premium on issue of shares. This can be utilised in accordance with provisions of the Companies Act 2013.

Retained earnings:

Retained earnings are created from the profit/loss of the Company, as adjusted for distributions to owners, transfers to other reserves, etc

Debenture redemption reserve

The Company is required to create a debenture redemption reserve out of the profits which are available for redemption of debentures.

Fair valuation of investment:

Any change in fair value of instruments classified as fair value through other comprehensive income is recognised here.

Miscellaneous expenses	1.67	0.11
	1,781.55	1,675.14

37 Tax expense

Particulars	31 March 2021	31 March 2020
Current tax (including earlier years) (refer note 51)	-	109.21
Deferred tax charge/(credit)	200.89	36.46
Income tax expense reported in the Standalone Statement of Profit and Loss	200.89	145.67

The major components of income tax expense and the reconciliation of expected tax expense based on the domestic effective tax rate of the Company at 34.944% and the reported tax expense in the standalone statement of profit and loss are as follows:

Reconciliation of tax expense and the accounting profit multiplied by India's tax rate

Accounting profit before tax from continuing operations	(1,945.15)	(1,680.31)
Accounting profit before income tax	(1,945.15)	(1,680.31)

At India's statutory income tax rate of 34.944% (31 March 2020: 34.944%)

Tax effect of amounts which are not deductible (taxable) in calculating taxable income:

Tax impact of benefits of assets assessed under house property	(281.57)	(313.96)
Tax impact of expenses which will never be allowed	-	96.11
Tax impact of unrecognised deferred tax on depreciation and business losses	878.00	777.36
Tax impact of unrecognized deferred tax on timing differences	83.29	-
Tax impact of earlier year items	-	109.21
Tax impact of reversal of revenue and related costs as per Ind AS 115	200.89	56.79
Tax impact of others	-	7.33
Tax expense	200.90	145.67

The Company has not elected to exercise the option permitted under section 115BAA of the Income-tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019.

38 Earnings per share

Earnings per share ('EPS') is determined based on the net profit attributable to the shareholders of the Company. Basic earnings per share is computed using the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of common and dilutive common equivalent shares outstanding during the year including share options, except where the result would be anti-dilutive.

The following table sets forth the computation of basic and dilutive earnings per share:

Particulars	31 March 2021	31 March 2020
Net loss for the year attributable to equity shareholders	(2,146.04)	(1,825.99)
Nominal value of equity share (Rupees)	10.00	10.00
Total number of equity shares outstanding at the beginning of the year	32,51,362.00	32,51,362.00
Total number of equity shares outstanding at the end of the year	32,51,362.00	32,51,362.00
Total number of compulsorily convertible debentures outstanding at the end of the year*	1,00,00,000.00	1,00,00,000.00
Weighted average number of shares and compulsorily convertible debentures considered for calculation of basic and diluted earning per share	33,61,362.00	32,97,471.59
Earning per share - basic and diluted (Rupees)	(638.44)	(553.75)

*The Company had issued compulsorily convertible debentures which are expected to be converted into equity shares in the ratio of 1,000 CCDs : 11 equity shares and considered in calculation of basic earning per share.

(This space has been intentionally left blank)

39 Contingent liabilities

Particulars	31 March 2021	31 March 2020
A Under litigation:		
Demand in excess of provision (pending in appeals)		
Service tax (2015-16 to 2016-17)	37.46	-
Service tax (2009-10 to 2013-14)	253.60	253.60
Service tax (2009-10)	3.70	3.70
Maharashtra goods and service tax (2016-17)	10.52	-
B Commitments:		
Estimated amount of contracts remaining to be executed (net of advances) and not provided for	23.91	-

C Contingent liabilities

The Company has certain litigations involving customers and vendors. Based on advice of in-house legal team, the management believes that no material liability will devolve on the Company in respect of these litigations.

40 Auditor's remuneration*

Particulars	31 March 2021	31 March 2020
Audit fees	1.80	1.80

(This space has been intentionally left blank)

45 Fair value measurement**i) Fair value hierarchy**

Financial assets and financial liabilities measured at fair value in the financial statements are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability.

ii) Financial assets and financial liabilities measured at fair value – recurring fair value measurements

Particulars	As at 31 March 2021			As at 31 March 2020		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets measured at fair value through profit and loss						
Investments - Mutual fund	1,631.07	-	-	2,302.26	-	-
Financial assets measured at fair value through other comprehensive income						
Investments - Optionally convertible redeemable preference shares	-	-	448.25	-	-	463.25
Total	1,631.07	-	448.25	2,302.26	-	463.25

iii) Valuation process and technique used to determine fair value

Specific valuation techniques used to value financial instruments include -

a) Use of net asset value for mutual funds on the basis of the statement received from investee party.

b) The fair value of unquoted optionally convertible redeemable preference is estimated by discounting future cash flows using rates currently available for capital on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or the discount rate, fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

iv) The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements.

Particulars	Fair value		Significant unobservable inputs	Data inputs		Sensitivity analysis
	31 March 2021	31 March 2020		31 March 2021	31 March 2020	
Optionally convertible preference shares	448.25	463.25	Discount rate	14.14%	15.59%	Change of +/-0.01% in discount rate has following impacts - 31 March 2021 +0.01% gain of Rs. 1.78 million -0.01% loss of Rs. 1.78 million 31 March 2020 +0.01% gain of Rs. 0.73 million -0.01% loss of Rs. 0.73 million Sensitivity analysis is not presented as the investment has been made at the year end.

v) The following table presents the changes in level 3 items for the year ended 31 March 2021 and 31 March 2020:

Particulars	Optionally convertible preference share
As at 1 April 2019	4,207.50
Loss recognised in other comprehensive income	(3,744.25)
As at 31 March 2020	463.25
Loss recognised in other comprehensive income	(15.00)
As at 31 March 2021	448.25

(This space has been intentionally left blank)

46 Financial risk management**i) Financial instruments by category****

Particulars	As at 31 March 2021		As at 31 March 2020

Other financial liabilities (excluding current maturities of non-current borrowings)	1,135.40	1,135.40	1,299.42	1,299.42
Total	27,743.46	27,743.46	28,781.53	28,781.53

* These financial assets are mandatorily measured at fair value.

These financial assets represents investment in equity instruments designated as such upon initial recognition.

**Investments in equity instruments are measured at cost as per Ind AS 27 'Separate Financial Statement'

ii) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

A Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

a) Credit risk management**i) Credit risk rating**

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

Asset group	Basis of categorisation	Provision for expected credit loss*
A. Low credit risk	Trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	12 month expected credit loss or life time expected credit loss or fully provided for
C. High credit risk	Trade receivables	Life time expected credit loss or fully provided for

* Life time expected credit loss is provided for trade receivables

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in standalone statement of profit and loss.

Assets under credit risk –

Credit rating	Particulars	31 March 2021	31 March 2020
A: Low credit risk	Trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	517.15	645.27
C: High credit risk	Trade receivables	103.98	103.98

46 Financial risk management (Continued...)**ii) Concentration of financial assets**

The Company's principal business activities are revenue from sale of real estate properties and rental income. Loans and other financial assets majorly represents money advanced for business purposes. The Company's exposure to credit risk for trade receivables is as below.

Particulars	31 March 2021	31 March 2020
Real estate projects receivables	-	-
Rental receivables	197.51	292.43

b) Credit risk exposure**Provision for expected credit losses**

The Company provides for 12 month or lifetime expected credit losses for following financial assets –

As at 31 March 2021

Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision
Cash and cash equivalents	156.97	-	156.97
Trade receivables	301.49	(103.98)	197.51
Other bank balances	20.73	-	20.73
Other financial assets	141.94	-	141.94

As at 31 March 2020

Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision
Cash and cash equivalents	218.83	-	218.83
Trade receivables	396.41	(103.98)	292.43
Other bank balances	82.39	-	82.39
Other financial assets	51.62	-	51.62

Expected credit loss for trade receivables under simplified approach**Rental business**

The Company considers provision for lifetime expected credit loss. Given the nature of business operations, the receivables from rental business has low credit risk as the Company holds security deposits against the premises given on rentals. Further, historical trends indicate some shortfall between such deposits held by the Company and amounts due from customers. Hence, with the historical loss experience and forward looking information, the Company has provided expected credit loss in relation to receivables from rental business.

Real estate business

In respect of trade receivables, the Company considers provision for lifetime expected credit loss. Given the nature of business operations, the Company's trade receivables does not have any expected credit loss as transfer of legal title of properties is made once the Company receives the entire consideration and hence, these have been considered as low credit risk assets. Further, during the periods presented, the Company has made no write-offs of trade receivables.

Reconciliation of loss provision – trade receivables

Reconciliation of loss allowance	Trade receivables
Loss allowance on 31 March 2019	26.05
Expected credit losses for the year	77.93
Loss allowance on 31 March 2020	103.98
Expected credit losses for the year	-
Loss allowance on 31 March 2021	103.98

B Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities.

31 March 2021	Less than 1 year	1 to 5 Years	Above 5 Years	Total
Non-derivatives				
Borrowings (including interest accrued)	1,168.95	5,521.50	19,686.30	26,376.75
Trade payable	308.69	-	-	308.69
Other financial liabilities	466.42	803.15	-	1,269.57
Total	1,944.06	6,324.65	19,686.30	27,955.01
31 March 2020	Less than 1 year	1 to 5 Years	Above 5 Years	Total
Non-derivatives				
Borrowings (including interest accrued)	1,070.28	4,725.00	21,370.44	27,165.72
Trade payable	376.06	-	-	376.06
Other financial liabilities	371.18	1,003.43	95.67	1,470.27
Total	1,817.51	5,728.43	21,466.11	29,012.05

46 Financial risk management (Continued...)**C Market risk****a) Interest rate risk****Liabilities**

The Company's fixed rate borrowings are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

Particulars	31 March 2021	31 March 2020
Variable rate borrowing	26,049.37	26,788.55
Fixed rate borrowing	250.00	317.50
Total borrowings	26,299.37	27,106.05

Sensitivity

Profit or loss and equity is sensitive to higher/lower interest expense from variable rate borrowings as a result of changes in interest rates.

Particulars	31 March 2021	31 March 2020
Interest rates – increase by 100 basis points (31 March 2020: 100 basis points)	(260.49)	(267.89)
Interest rates – decrease by 100 basis points (31 March 2020: 100 basis points)	260.49	267.89

Assets

The Company's fixed deposits are carried at fixed rate. Therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

b) Price risk

The Company's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments in equity securities, the Company diversifies its portfolio of assets.

Sensitivity

Profit or loss and equity is sensitive to higher/lower prices of instruments-

Particulars	31 March 2021	31 March 2020
Optionally convertible preference shares		
Price increase by (2%) - FVOCI instrument	8.97	9.27
Price decrease by (2%) - FVOCI instrument	(8.97)	(9.27)
Mutual funds		
Price increase by (2%) - FVTPL instrument	32.62	46.05
Price decrease by (2%) - FVTPL instrument	(32.62)	(46.05)

47 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value and safeguard the Company's ability to continue as a going concern.

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company's capital structure mainly constitutes debt. The Company's capital structure is influenced by the changes in regulatory framework, government policies, available options of financing and the impact of the same on the liquidity position.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, including interest-bearing loans and borrowings less cash and cash equivalents. Total equity comprises all components of equity.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	31 March 2021	31 March 2020
Total borrowings (including interest accrued)	26,330.67	27,116.27
Less: Cash and cash equivalents	(156.97)	(218.83)
Adjusted net debt*	26,173.70	26,897.44
Total equity	2,503.35	4,664.39
Adjusted net debt to total equity ratio	10.46	5.77

(This space has been intentionally left blank)

48 Assets pledged as security

The carrying amounts of assets pledged as security for current and non-current borrowings are:

Particulars	31 March 2021	31 March 2020
Current		
Financial assets		
First charge		
Trade receivables	197.51	292.43
Total current assets pledged as securities	197.51	292.43
Non-current		
First charge		
Investment property	11,387.94	11,606.14
Non-current investment - mutual fund	749.17	723.56
Total non-current assets pledged as security	12,137.11	12,329.70
Total assets pledged as security	12,334.62	12,622.13

49 A. Disaggregation of revenue

Set out below is the disaggregation of the Company's revenue from contracts with customers:

Particulars	31 March 2021	31 March 2020
(i) Revenue from contracts with customers		
(a) Revenue from maintenance services	258.92	315.63
(b) Revenue from sale of real estate properties	1,230.37	825.66
(ii) Revenue from others		
(a) Revenue from car parking	15.26	28.41
(ii) Other operating revenue (service receipts)	18.18	-
Total revenue covered under Ind AS 115	1,522.73	1,169.70

B. Contract balances

The following table provides information about receivables and contract liabilities from contract with customers:

Particulars	31 March 2021	31 March 2020
Contract liabilities		
Advance from customers - maintenance	1.22	1.92
Advance from customers - residential	16,842.54	16,360.33
Total contract liabilities	16,843.77	16,362.25
Receivables		
Trade receivables - maintenance	9.49	10.84
Total receivables	9.49	10.84

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

C. Significant changes in the contract liabilities balances during the year are as follows:

Particulars	As at 31 March 2021		As at 31 March 2020	
	Contract liabilities		Contract liabilities	
	Advances from customers		Advances from customers	
	Residential	Maintenance	Residential	Maintenance
Opening balance	16,360.33	1.92	16,360.33	1.92
Addition during the year	1,712.58	248.73	825.66	304.79
Revenue recognised during the year	(1,230.37)	(249.43)	(825.66)	(304.79)
Closing balance	16,842.54	1.22	16,360.33	1.92

D. The aggregate amount of transaction price allocated to the performance obligations (not yet complete) as at 31 March 2021 is ₹ 16,843.77 millions (at 31 March 2020 is ₹ 16,362.25 Millions). This balance represents the advance received from customers (gross) against real estate properties under development and maintenance of rental properties. The management expects to further bill and collect the remaining balance of total consideration in the coming years. These balances will be recognised as revenue in future years as per the policy of the Company.

50 All loans and securities as disclosed in respective notes are provided for business purposes.

51 During the previous year ended 31 March 2020, the Settlement Commission passed final orders under section 245D(4) in respect of the applications made to the Settlement Commission dated 3 October 2017. Pursuant to the orders, additional tax expense of Rs. 94.70 million had been determined and recorded in the financial statements. Additionally, the Company had also booked interest of Rs. 11.24 million due to payment of above additional tax expense on an instalment basis.

- 52 The outbreak of 'Covid-19' is still severely impacting businesses around the world. In many countries, including India, during the year and subsequent to year ended 31 March 2021 there had been severe disruption of regular business operations due to lockdown restrictions and other emergency measures imposed by the Government. Further, Mumbai region was one of most impacted regions across the country, due to increased number of active 'Covid-19' cases amid the second wave of 'Covid-19'. Because of the pandemic situation, major tenants did restructuring within their businesses, which has led to decrease in overall occupancy ratio. As per management, the said decrease is only temporary and in the long-term, there may not be material impact of Covid-19 pandemic on the financial position and performance of the Company. The Company also owns two residential projects. One of the residential projects is a completed project and has been fully sold out and the other project is under construction. The Company has started the construction on the under construction residential project in a phased manner as per the Government's directives. Additionally, the management has also made a detailed assessment of its liquidity position including recoverability of its receivables and other advances as at balance sheet date and expects to recover carrying amount of these assets. The management will continue to closely monitor any material change to future economic conditions. The actual impact of Covid-19 pandemic on the Company's financial performance remains uncertain and dependent on spread of Covid-19 and additional steps taken by the Government to mitigate the economic impact and may differ from that estimated as at the date of approval of these Financial Statements. The statutory auditors have given an emphasis of matter in their audit report in this regard.
- 53 The Company did not have any long-term contracts including derivative contracts for which there were any foreseeable losses.
- 54 According to the management, section 186(4) of Companies Act, 2013 is not applicable on the Company as per specific exemption given to companies engaged in infrastructural activities.
- 55 Pursuant to the recent judgment by the Hon'ble Supreme Court of India dated 28 February 2019, it was held that basic wages, for the purpose of provident fund, to include allowances which are common for all employees. However, there is uncertainty with respect to the applicability of judgement and period from which the same applies and accordingly, the Company has not provided for any liability on account of this.
- 56 During the year, the board of directors, in their meeting dated 13 April 2020, approved Scheme of Arrangement ("the Scheme") between Indiabulls Properties Private Limited ("IPPL" or "the Demerged Company") and BXIN Office Parks India Private Limited ("Resulting Company") and their respective shareholders, involving the demerger of the business of owning, operating and maintaining of an Information Technology Park located in Mumbai, along with all related assets, liabilities and employees ("Demerged Undertaking"). Once the Scheme is approved, the Demerged Undertaking will be demerged from the Demerged Company and will be merged into Resulting Company.
- 57 **Expenditure on corporate social responsibility activities (CSR)**
As per Section 135 of the Companies Act, 2013, Schedule VII and Companies (Corporate Social Responsibility Policy) Rules, 2014, the Company is required to spend Rs. Nil million (31 March 2020: Rs. 0.63 million) for Corporate Social Responsibility activities.

Particulars	31 March 2021	31 March 2020
(a) Amount required to be spent by the Company during the year	-	0.63
(b) Amount spent during the year (in cash)		
(i) Construction / acquisition of any asset	-	-
(ii) On purposes other than (i) above	-	-

This is the summary of significant accounting policies and other explanatory information referred to in our report of even date.

Independent Auditor's Report

To the Members of Indiabulls Properties Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Indiabulls Properties Private Limited ('the Company'), which comprise the Standalone Balance Sheet as at 31 March 2020, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Cash Flow Statement and the Standalone Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs of the Company as at 31 March 2020, and its loss (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

4. We draw attention to Note 53 to the accompanying standalone financial statements, which describes the uncertainties due to the outbreak of Covid-2019 pandemic and the management's evaluation of its impact on the accompanying standalone financial statements and operations of the Company as at the balance sheet date, the extent of which is significantly dependent on future developments. Our opinion is not modified in respect of this matter.

Information other than the Financial Statements and Auditor's Report thereon

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially

Independent Auditor's Report to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Director's Report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

6. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
8. Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
10. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act,

Independent Auditor's Report to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

12. Based on our audit, we report that the provisions of section 197 read with Schedule V to the Act are not applicable to the Company since the Company is not a public company as defined under section 2(71) of the Act. Accordingly, reporting under section 197(16) is not applicable.
13. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.
14. Further to our comments in Annexure A, as required by section 143(3) of the Act, based on our audit, we report, to the extent applicable, that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) the matter described in paragraph 4 under the Emphasis of Matter, in our opinion, may have an adverse effect on the functioning of the Company;

Independent Auditor's Report to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020 (cont'd)

- f) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of section 164(2) of the Act;
- g) we have also audited the internal financial controls with reference to financial statements of the Company as on 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 4 September 2020 as per Annexure B expressed unmodified opinion; and
- h) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in note 40 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2020;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2020;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2020; and
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020

Annexure A

Based on the audit procedures performed for the purpose of reporting a true and fair view on the standalone financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, investment property and intangible assets.
- (b) The Company has a regular program of physical verification of its property, plant and equipment and investment property under which property, plant and equipment and investment property are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain property, plant and equipment and investment property were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'Investment Property') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Section 186 of the Act in respect of investments. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and 186 of the Act in respect of loans, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products/services and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii)(a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, goods and services tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020

- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise, value added tax and goods and services tax on account of any dispute, are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in millions)	Amount paid under protest (₹ in millions)	Period to which amount relates	Forum where dispute is pending
The Finance Act, 1994	Service tax	253.60	-	2009-10 to 2013-14	Commissioner of Service Tax
The Finance Act, 1994	Service tax	3.70	-	2009-10	Hon'ble Supreme Court

- (viii) The Company has not defaulted in repayment of loans or borrowings to any financial institution or a bank or any dues to debenture-holders during the year. The Company has no loans or borrowings payable to the government during the year.
- (ix) In our opinion, the Company has applied moneys raised by way of term loans for the purposes for which these were raised. The Company did not raise moneys by way of initial public offer/ further public offer (including debt instruments).
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) The provisions of Section 197 of the Act read with Schedule V to the Act are not applicable to the company since the Company is not a public company as defined under Section 2(71) of the Act. Accordingly, provisions of clause 3(xi) of the Order are not applicable.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion, all transactions with the related parties are in compliance with Section 188 of the Act, where applicable, and the requisite details have been disclosed in the financial statements, as required by the applicable Ind AS. Further, in our opinion, the Company is not required to constitute audit committee under Section 177 of the Act.
- (xiv) During the year, the Company has made private placement of fully convertible debentures. In respect of the same, in our opinion, the Company has complied with the requirement of Section 42 of the Act and the Rules framed thereunder. Further, in our Opinion, the amounts so raised have been used for the purposes for which the funds were raised. During the year, the Company did not make private placement of shares.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020

- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020

Annexure B

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Indiabulls Properties Private Limited ('the Company') as at and for the year ended 31 March 2020, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2020

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1 Nature of principal activities

Indiabulls Properties Private Limited ('the Company') was incorporated on 18 March 2005 with the main objects of carrying on the business of purchasing, selling, developing, constructing, acquiring on lease/hire purchase and dealing in real estate properties and other related activities. The Company is domiciled in India and its registered office is situated at Plot No. 448-451, Udyog Vihar, Phase-V, Gurugram, Haryana - 122016. The Company's principle place of business is One International Center (formerly known as Indiabulls Finance Centre), Tower 1, 10th Floor, Lower Parel (West), Mumbai- 400 013.

2 Basis of preparation-**a) General information and statement of compliance with Ind AS**

These standalone financial statements ('financial statements') of the Company have been prepared in accordance with the Indian Accounting Standards as notified under section 133 of the Companies Act 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules 2015 (by Ministry of Corporate Affairs ('MCA'), as amended and other related provisions of the Act. The Company has uniformly applied the accounting policies during the periods presented.

The financial statements for the year ended 31 March 2020 were authorized and approved for issue by the Board of Directors on 4 September 2020. The revision to standalone financial statements is permitted by Board of Directors after obtaining necessary approvals or at the instance of regulatory authorities as per provisions of the Act.

b) Basis of accounting

The financial statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities which are measured at fair values as explained in relevant accounting policies. Fair valuations related to financial assets and financial liabilities are categorised into level 1, level 2 and level 3 based on the degree to which the inputs to the fair value measurements are observable.

3 Significant accounting policies

The financial statements have been prepared using the significant accounting policies and measurement bases summarised below. These were used throughout all periods presented in the standalone financial statements.

a) Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Act. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

b) Property, plant and equipment (PPE)*Recognition and initial measurement*

Property, plant and equipment are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in Standalone Statement of Profit and Loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on property, plant and equipment is provided on the straight-line method, computed on the basis of useful lives (as set out below) prescribed in Schedule II to the Companies Act, 2013.

Asset class	Useful life
Building (temporary structure)	3 years
Plant and machinery	12 – 15 years
Office equipment	10 years
Computers	6 years
Furniture and fixtures	10 years
Vehicles	8 – 10 years

The residual values, useful lives and method of depreciation of are reviewed at the end of each financial year.

De-recognition

An item of property, plant and equipment initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognised in Statement of Profit and Loss when the asset is derecognised.

(This space has been intentionally left blank)

c) Investment property*Recognition and initial measurement*

Investment property is property held to earn rentals or for capital appreciation, or both. Investment property is measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in Standalone Statement of Profit or Loss as incurred.

Subsequent measurement (depreciation and useful lives)

Investment property is subsequently measured at cost less accumulated depreciation and impairment losses, if any. Depreciation on investment property is provided on the straight-line method, computed on the basis of useful lives (as set-out below) prescribed in Schedule II to the Act:

Asset class	Useful life
Commercial Building	60 years
Plant and Machinery	12 - 15 years

The residual values, useful lives and method of depreciation are reviewed at the end of each financial year.

De-recognition

Investment property is de-recognised either when they have been disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in Standalone Statement of Profit and Loss in the period of de-recognition.

d) Intangible assets*Recognition and initial measurement*

Intangible assets (softwares) are stated at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

Subsequent measurement (amortisation)

The cost of capitalized software is amortized over a period of three to four years from the date of its acquisition.

e) Inventories

Land other than that transferred to real estate properties under development is valued at lower of cost or net realizable value.

Real estate properties (developed and under development) includes cost of land under development, internal and external development costs, construction costs, and development/construction materials, borrowing costs and related overhead costs and is valued at lower of cost or net realizable value.

Net realisable value is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs of necessary to make the sale.

f) Revenue recognition

Revenue is recognised when control is transferred and is accounted net of rebate and taxes. The Company applies the revenue recognition criteria to each nature of the revenue transaction as set out below.

Revenue from sale of properties

Revenue from sale of properties is recognized when the performance obligations are essentially complete and credit risks have been significantly eliminated. The performance obligations are considered to be complete when control over the property has been transferred to the buyer i.e. offer for possession (possession request letter) of properties have been issued to the customers and substantial sales consideration is received from the customers.

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring property to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

For each performance obligation identified, the Company determines at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If an entity does not satisfy a performance obligation over time, the performance obligation is satisfied at a point in time. A receivable is recognised by the Company when the control is transferred as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required.

When either party to a contract has performed, an entity shall present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the entity's performance and the customer's payment.

The costs estimates are reviewed periodically and effect of any change in such estimate is recognized in the period such changes are determined. However, when the total estimated cost exceeds total expected revenues from the contracts, the loss is recognized immediately.

Base rent, amenities income

Base rent comprises rental income earned from the operating leases and finance lease of the owned properties. Base rent are recognised on a straight-line basis over the terms of the lease, except for variable rental income, which is recognised when it arises. Amenities income is rental revenue earned from the letting of space at the properties for amenities (including canteen space and business centre) is recognised in the period in which the services are being rendered.

Operations and maintenance income

Income arising from billing of maintenance charges to tenants/customers is recognised in the period in which the services are being rendered. A receivable is recognised by the Company when the services are rendered as this is the case of point in time recognition where consideration is unconditional because only the passage of time is required. Further, the Company considers the terms of the contract and its customary business practices to determine the transaction price. The consideration promised in a contract with a customer may include fixed consideration, variable consideration (if reversal is less likely in future), or both.

Service revenue

Income from cancellation/forfeiture and transfer fees from customers are recognized on accrual basis except in cases where ultimate collection is considered doubtful.

Car parking income

Car parking income is recognised in the period in which the services are rendered.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

g) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss as incurred.

h) Leases**Where the Company is the lessor**

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Effective 1 April 2019, the Company has adopted Ind AS 116 "Leases" and applied modified retrospective approach. The effect of this adoption is not material on these financial statements.

i) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the Standalone Statement of Profit and Loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognised are accordingly reversed in the Standalone

j) Foreign currency*Functional and presentation currency*

The financial statements are presented in Indian Rupee ('INR' or 'Rs.') which is also the functional and presentation currency of the Company.

Transactions and balances

Foreign currency transactions are recorded in the functional currency, by applying to the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are converted to functional currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction.

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognised in the Statement of Profit and Loss in the year in which they arise.

k) Investments

Investment in equity instruments of subsidiaries are measured at cost as per Ind AS 27 'Separate Financial Statements'.

l) Financial instruments

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial asset is also adjusted.

Subsequent measurement

(i) Debt instruments at amortised cost – A ‘debt instrument’ is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

k) Investments (Continued)

(ii) Equity investments – All equity investments in scope of ‘Ind AS 109 Financial Instruments’ (‘Ind AS 109’) are measured at fair value. Equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).

(iii) Mutual funds – All mutual funds in scope of Ind AS 109 are measured at fair value through profit and loss (FVTPL).

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and transaction cost that is attributable to the acquisition of the financial liabilities is also adjusted.

Subsequent measurement – Amortised cost

Subsequent to initial recognition, financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Standalone Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

m) Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. The Company factors historical trends and forward looking information to assess expected credit losses associated with its assets and impairment methodology applied depends on whether there has been a significant increase in credit risk.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition, if the financial asset is determined to have low credit risk at the balance sheet date.

(This space has been intentionally left blank)

n) Income taxes

Tax expense recognised in Statement of Profit and Loss comprises the sum of deferred tax and current tax except the ones recognised in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside Statement of Profit and Loss is recognised outside Statement of Profit and Loss (either in other comprehensive income or in equity).

o) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and other short-term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

p) Employee benefits*Defined contribution plan*

The Company's contribution to provident fund is charged to the Statement of Profit and Loss. The Company's contributions towards provident fund are deposited with the regional provident fund commissioner under a defined contribution plan.

Short-term employee benefits

Short-term employee benefits comprise of employee costs such as salaries, bonus etc. is recognised on the basis of the amount paid or payable for the period during which services are rendered by the employee.

q) Provisions, contingent liabilities and contingent assets

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are disclosed only when inflow of economic benefits therefrom is probable and recognized only when realization of income is virtually certain.

r) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(This space has been intentionally left blank)

s) Significant management judgement in applying accounting policies and estimation uncertainty

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the related disclosures.

Recognition of deferred tax assets – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Classification of leases – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of

Recoverability of advances/receivables – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit losses on outstanding receivables and advances.

Provisions – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However the actual future outcome may be different from this

Contingencies – In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. Where management's assessment that the outcome cannot be reliably quantified or is uncertain the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided. When considering the classification of a legal or tax cases as probable, possible or remote there is judgement involved. This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to inform their decision.

Revenue and inventories – The estimates around total budgeted cost i.e. outcomes of underlying construction and service contracts, which further require assessments and judgements to be made on changes in work scopes, claims and other payments to the extent they are probable and they are capable of being reliably measured. For the purpose of making estimates for claims, the Company used the available contractual and historical information. The estimates of the saleable area are also reviewed periodically and effect of any changes in such estimates is recognised in the period such changes are determined.

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utilisation of assets.

Valuation of investment property – Investment property is stated at cost. However, as per Ind AS 40, there is a requirement to disclose fair value as at the balance sheet date. The Company engaged independent valuation specialists to determine the fair value of its investment property as at reporting date. The determination of the fair value of investment properties requires the use of estimates such as future cash flows from the assets (such as lettings, future revenue streams, capital values of fixtures and fittings, any environmental matters and the overall repair and condition of the property) and discount rates applicable to those assets. In addition, development risks (such as construction and letting risk) are also taken into consideration when determining the fair value of the properties under construction. These estimates are based on local market conditions existing at the balance sheet date.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

t) Recent accounting pronouncement

Amendment to Ind AS 103, Business Combinations

On 24 July 2020, Ministry of Corporate Affairs ("MCA") has issued an amendment to Ind AS 103 whereby definition of the business has been amended. Additionally, new amendments also provide new aspects to evaluate a set of activities as business. The effective date of these amendments is 1 April 2020. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 116, Leases

On 24 July 2020, Ministry of Corporate Affairs ("MCA") has issued an amendment to Ind AS 116 in respect of rent concessions occurring as a direct consequence of the Covid-19 pandemic. The effective date of these amendments is 1 April 2020. However, in case an entity (lessee) has not yet approved the financial statements before the issuance of this amendment, then the same may be applied for annual reporting periods beginning on or after 1 April 2019 as well. Currently, the Company does not have any such scenario and hence, the Company has not considered any impact of this amendment on these financial statements.

Amendment to Ind AS 1, Presentation of Financial Statements

On 24 July 2020, Ministry of Corporate Affairs ("MCA") has issued an amendment to Ind AS 1 whereby definition of the word 'material' has been enhanced to make it more explanatory and it now covers more scenarios. The effective date of these amendments is 1 April 2020. The Company is evaluating the requirements of the amendments and their impact on the financial statements.

Amendment to Ind AS 10, Events After the Reporting Period

On 24 July 2020, Ministry of Corporate Affairs ("MCA") has issued an amendment to Ind AS 10 in respect of disclosure requirement related to non-adjusting event. This amendment requires additional information to be disclosed for material non-adjusting events. The effective date of these amendments is 1 April 2020. The Company is evaluating the requirements of the amendments and their impact on the financial

Balance as at 31 March 2020	1,777.35	9,538.79	290.00	11,606.14

Notes:

i) Investment property has been pledged as security by the Company for borrowings (refer note 23).

ii) There are no contractual commitments with respect to investment property.

iii) Amounts recognised in Statement of Profit and Loss for investment property

Particulars	31 March 2020	31 March 2019
Rental income derived from investment property (including maintenance and car parking income)	3,411.07	3,432.26
Less: Direct operating expenses (including repairs and maintenance) generating rental income	(505.70)	(533.70)
Profit arising from investment property before depreciation	2,905.37	2,898.56
Less: Depreciation	(325.96)	(321.69)
Profit arising from investment property	2,579.41	2,576.87

iv) Leasing arrangements

Investment properties are leased to tenants under long-term operating leases with rentals payable monthly. Refer note 42 for details on future minimum lease rentals.

v) Fair value

The Company obtains independent valuations for its investment properties at least annually. As at 31 March 2020 and 31 March 2019, the fair values are:

Fair value:	Rs. (in millions)
As at 31 March 2020	42,304.57
As at 31 March 2019	40,750.00

The fair value of investment property has been determined by external, independent property valuers, having appropriate qualifications and recent experience in the location and category of the property being valued.

The fair value measurement for all of the investment property has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Considering the revenue generating potential of the existing built-up area, the Company follows discounted cash flows technique and income capitalisation approach. Discounted Cash Flow Approach is based on the present value of the future receivable net income from the current operational leases / revenues. These cash flows are then discounted at an appropriate discounting rate linked with risk adjusted discounting factor to arrive at the sale value for the operational project components.

vi) Sensitivity analysis

The table below shows the effect of a 5% change in the value of investment properties.

Effect of change in value of investment properties (%)	31 March 2020	31 March 2019

Aggregate amount of unquoted investments	463.30	4,207.55
Aggregate amount and market value of quoted investments	723.56	-

*Face value of Rs. 10 each unless otherwise stated.

**All the investment in subsidiary are measured at cost as per Ind AS 27 'Separate Financial Statements'

#These are investments in optionally convertible redeemable preference shares (convertible at the option of the issuer) and are measured at fair value through other comprehensive income. Refer note 46.

***These are investments in mutual funds and are measured at fair value through profit and loss. These investments have been marked as lien against long-term borrowings from State Bank of India to fulfill the debt service reserve account requirements with respect to these long-term borrowings.

8 Loans - non-current*

Particulars	31 March 2020	31 March 2019
(Unsecured, considered good)		
Security deposits	26.80	8.46
	26.80	8.46

*The Company does not have any loans which are either credit impaired or where there is significant increase in credit.

9 Other financial assets - non-current

Particulars	31 March 2020	31 March 2019
(Unsecured, considered good)		
Finance lease receivable (refer note 43)*	3.48	8.04
Bank deposits with maturity of more than 12 months**	-	6.09
	3.48	14.13

* The Company has entered into finance leases with parties for a period of 5 years. The rate of interest charged on the leases since the inception date is 12% p.a. and 18% p.a. respectively. The Company recognises the finance income over the period of finance lease.

** Bank deposits of Rs. Nil (31 March 2019: Rs. 6.09 millions) have been pledged with banks against bank guarantees, overdraft facilities and loan given by banks.

10 Deferred tax assets (net)

Particulars	31 March 2020	31 March 2019
Deferred tax assets arising on account of:		
Expected credit losses on trade receivables	23.19	9.11
Unabsorbed business losses	-	9.43
Reversal of revenue and related costs as per Ind AS 115	200.89	257.68
Fair valuation of investments through other comprehensive income	-	9.16
Deferred tax liabilities arising on account of:		
Property, plant and equipment, investment property and intangible assets	(23.19)	(18.54)
	200.89	266.84
Minimum alternate tax credit entitlement	254.60	234.27
	455.49	501.11

- i) The Company has decided to restrict recognition of deferred tax asset on brought forward losses to the extent there is convincing evidence which demonstrates probability of realization of deferred tax asset in the near future. The Company has balance unabsorbed depreciation of Rs. 174.41 millions (31 March 2019: Rs. 94.53 millions) and unabsorbed business losses of Rs. 2,144.72 millions (31 March 2019: Rs. 1,679.27 millions) on which deferred tax asset is not created as a matter of prudence.

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2020

(All amounts in Rs. millions unless otherwise stated)

	32,51,362	100.00%	32,51,362	100.00%

* On 25 September 2019, the co-venturer Indiabulls Real Estate Limited has sold the remaining stake in the Company (held through its subsidiaries) to the other co-venturer FIM Holdco 1 Limited and Ariston Investments Sub A Limited. Accordingly, FIM Holdco 1 Limited has now become Holding Company of the Company.

c) Rights, preferences and restrictions attached to equity and preference shares

The holders of equity shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In the event of liquidation of the Company, all preferential amounts, if any, shall be discharged by the Company. The remaining assets of the Company shall be distributed to the holders of equity shares in proportion to the number of shares held to the total equity shares outstanding as on that date. All shares rank equally with regard to the Company's residual assets, except that holders of preference shares participate only to the extent of the face value of the shares.

d) Aggregate number of bonus shares issued, shares issued for consideration other than cash and shares bought back during the period of five years immediately preceding the reporting date:

Of the above, 29,761 equity shares of ₹ 10 each fully paid up have been issued on conversion of 505,953 compulsorily convertible debentures of ₹ 1,000 each fully paid up during the earlier years.

No bonus shares issued during the period of five years immediately preceding 31 March 2020.

No shares have been bought back during the period of five years immediately preceding 31 March 2020.

B Details of Preference share capital

Fair valuation of investment		
Balance at the beginning of the year	(33.34)	-
Add: Movement during the year	(3,753.41)	(33.34)
Balance at the end of the year	(3,786.75)	(33.34)
Total of other equity	3,631.88	9,211.27

Capital redemption reserve:

The same has been created in accordance with provisions of Section 69 of the Companies Act 2013 for the buy back of 15,850 equity shares from the shareholders in previous years.

Securities premium:

Securities premium is used to record the premium on issue of shares. This can be utilised in accordance with provisions of the Companies Act 2013.

Retained earnings:

Retained earnings are created from the profit/loss of the Company, as adjusted for distributions to owners, transfers to other reserves, etc

Debenture redemption reserve

The Company is required to create a debenture redemption reserve out of the profits which are available for redemption of debentures.

Fair valuation of investment:

Any change in fair value of instruments classified as fair value through other comprehensive income is recognised here.

Miscellaneous expenses	0.11	2.70
	1,675.14	1,623.60

38 Tax expense

Particulars	31 March 2020	31 March 2019
Current tax (including earlier years) (refer note 52)	109.21	-
Deferred tax charge/(credit)	36.46	(1.65)
Income tax expense reported in the Standalone Statement of Profit and Loss	145.67	(1.65)

The major components of income tax expense and the reconciliation of expected tax expense based on the domestic effective tax rate of the Company at 34.944% and the reported tax expense in the standalone statement of profit and loss are as follows:

Reconciliation of tax expense and the accounting profit multiplied by India's tax rate

Accounting profit before tax from continuing operations	(1,680.31)	(1,123.18)
Accounting profit before income tax	(1,680.31)	(1,123.18)

At India's statutory income tax rate of 34.944% (31 March 2019: 34.944%)

	(587.17)	(392.49)
Tax effect of amounts which are not deductible (taxable) in calculating taxable income:		
Tax impact of benefits of assets assessed under house property	(313.96)	(321.41)
Tax impact of expenses which will never be allowed	96.11	90.76
Tax impact of unrecognised deferred tax on depreciation and business losses	777.36	619.84
Tax impact of earlier year items	109.21	-
Tax impact of reversal of revenue and related costs as per Ind AS 115	56.79	-
Tax impact of others	7.33	1.65
Tax expense	145.67	(1.65)

The Company has not elected to exercise the option permitted under section 115BAA of the Income-tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019.

39 Earnings per share

Earnings per share ('EPS') is determined based on the net profit attributable to the shareholders of the Company. Basic earnings per share is computed using the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of common and dilutive common equivalent shares outstanding during the year including share options, except where the result would be anti-dilutive.

The following table sets forth the computation of basic and dilutive earnings per share:

Particulars	31 March 2020	31 March 2019
Net loss for the year attributable to equity shareholders	(1,825.99)	(1,121.54)
Nominal value of equity share (Rupees)	10.00	10.00
Total number of equity shares outstanding at the beginning of the year	32,51,362	32,51,362
Total number of compulsorily convertible debentures outstanding at the beginning of the year	-	-
Total number of equity shares outstanding at the end of the year	32,51,362	32,51,362
Total number of compulsorily convertible debentures outstanding at the end of the year*	1,00,00,000	-
Weighted average number of shares and compulsorily convertible debentures considered for calculation of basic and diluted earning per share	32,97,472	32,51,362
Earning per share - basic and diluted (Rupees)	(553.75)	(344.94)

*The Company had issued compulsorily convertible debentures which are expected to be converted into equity shares in the ratio of 1,000 CCDs : 11 equity shares and considered in calculation of basic earning per share.

(This space has been intentionally left blank)

40 Contingent liabilities

Particulars	31 March 2020	31 March 2019
A Under litigation:		
Demand in excess of provision (pending in appeals)		
Service tax (2009-10 to 2013-14)	253.60	253.60
Service tax (2009-10)	3.70	3.70

B Contingent liabilities

The Company has certain litigations involving customers and vendors. Management believes that these claims may be payable as and when the outcome of matters are finally determined and hence not disclosed above. Based on advice of in-house legal team, the management believes that no material liability will devolve on the Company in respect of these litigations.

41 Auditor's remuneration*

Particulars	31 March 2020	31 March 2019
Audit fees	1.80	2.00
Other services	0.90	0.63

Total liabilities	45,416.31	47,725.74

(This space has been intentionally left blank)

46 Fair value measurement**i) Fair value hierarchy**

Financial assets and financial liabilities measured at fair value in the financial statements are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability.

ii) Financial assets and financial liabilities measured at fair value – recurring fair value measurements

Particulars	As at 31 March 2020			As at 31 March 2019		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets measured at fair value through profit and loss						
Investments - Mutual fund	2,302.26	-	-	159.75	-	-
Financial assets measured at fair value through other comprehensive income						
Investments - Optionally convertible redeemable preference shares	-	-	463.25	-	-	4,207.50
Total	2,302.26	-	463.25	159.75	-	4,207.50

iii) Valuation process and technique used to determine fair value

Specific valuation techniques used to value financial instruments include -

a) Use of net asset value for mutual funds on the basis of the statement received from investee party.

b) The fair value of unquoted optionally convertible redeemable preference is estimated by discounting future cash flows using rates currently available for capital on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or the discount rate, fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.

iv) The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements.

Particulars	Fair value		Significant unobservable inputs	Data inputs		Sensitivity analysis
	31 Mar 2020	31 Mar 2019		31 Mar 2020	31 Mar 2019	
Optionally convertible preference shares	463.25	4,207.50	Discount rate	15.59%	16.71%	Change of +/-0.01% in discount rate has following impacts - 31 March 2020 +0.01% gain of Rs. 0.73 million -0.01% loss of Rs. 0.73 million 31 March 2019 +0.01% loss of Rs. 0.42 million -0.01% gain of Rs. 0.42 million Sensitivity analysis is not presented as the investment has been made at the year end.

v) The following table presents the changes in level 3 items for the year ended 31 March 2020 and 31 March 2019:

Particulars	Optionally convertible preference share
As at 1 April 2018	4,250.00
Loss recognised in other comprehensive income	(42.50)
As at 31 March 2019	4,207.50
Loss recognised in other comprehensive income	(3,744.25)
As at 31 March 2020	463.25

(This space has been intentionally left blank)

47 Financial risk management**i) Financial instruments by category****

Particulars	As at 31 March 2020		As at 31 March 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
Financial assets measured at amortized cost				
Trade receivables	292.43	292.43	312.70	312.70
Cash and cash equivalents	218.83	218.83	281.87	281.87
Other bank balances	82.39	82.39	72.63	72.63
Other financial assets	51.62	51.62	31.27	31.267
Financial assets measured through other comprehensive income				
Optionally convertible redeemable preference shares of Indiabulls Constructions Limited#	463.25	463.25	4,207.50	4,207.50
Financial assets measured at fair value through profit and loss				
Investment in mutual funds*	2,302.26	2,302.26	159.75	159.75
Total	3,410.78	3,410.78	5,065.72	5,065.72
Financial liabilities measured at amortized cost				
Borrowings - including current maturities	27,106.05	27,106.05	29,634.26	29,634.26
Trade payables	376.06	376.06	399.08	399.08
Other financial liabilities (excluding current maturities of non-current borrowings)	1,299.42	1,299.42	1,406.86	1,406.86
Total	28,781.53	28,781.53	31,440.20	31,440.20

* These financial assets are mandatorily measured at fair value.

These financial assets represents investment in equity instruments designated as such upon initial recognition.

**Investments in equity instruments are measured at cost as per Ind AS 27 'Separate Financial Statement'

ii) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

A Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

a) Credit risk management**i) Credit risk rating**

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

Asset group	Basis of categorisation	Provision for expected credit loss*
A. Low credit risk	Trade receivables, cash and cash equivalents, other bank balances, loans and other financial assets	12 month expected credit loss or life time expected credit loss or fully provided for
C. High credit risk	Trade receivables	Life time expected credit loss or fully provided for

* Life time expected credit loss is provided for trade receivables

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in standalone statement of profit and loss.

Assets under credit risk –

Credit rating	Particulars	31 March 2020	31 March 2019
A: Low credit risk	Cash and cash equivalents, other bank balances, loans and other financial assets	645.27	698.47
C: High credit risk	Trade receivables	103.98	26.05

47 Financial risk management (Continued...)**ii) Concentration of financial assets**

The Company's principal business activities are revenue from sale of real estate properties and rental income. Loans and other financial assets majorly represents money advanced for business purposes. The Company's exposure to credit risk for trade receivables is as below.

Particulars	31 March 2020	31 March 2019
Real estate projects receivables	-	-
Rental receivables	292.43	312.70

b) Credit risk exposure**Provision for expected credit losses**

The Company provides for 12 month or lifetime expected credit losses for following financial assets –

As at 31 March 2020

Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision
Cash and cash equivalents	218.83	-	218.83
Trade receivables	396.41	(103.98)	292.43
Other bank balances	82.39	-	82.39
Other financial assets	51.62	-	51.62

As at 31 March 2019

Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision
Cash and cash equivalents	281.87	-	281.87
Trade receivables	338.75	(26.05)	312.70
Other bank balances	72.63	-	72.63
Other financial assets	31.27	-	31.27

Expected credit loss for trade receivables under simplified approach**Rental business**

The Company considers provision for lifetime expected credit loss. Given the nature of business operations, the receivables from rental business has low credit risk as the Company holds security deposits against the premises given on rentals. Further, historical trends indicate some shortfall between such deposits held by the Company and amounts due from customers. Hence, with the historical loss experience and forward looking information, the Company has provided expected credit loss in relation to receivables from rental business.

Real estate business

In respect of trade receivables, the Company considers provision for lifetime expected credit loss. Given the nature of business operations, the Company's trade receivables does not have any expected credit loss as transfer of legal title of properties is made once the Company receives the entire consideration and hence, these have been considered as low credit risk assets. Further, during the periods presented, the Company has made no write-offs of trade receivables.

Reconciliation of loss provision – trade receivables

Reconciliation of loss allowance	Trade receivables
Loss allowance on 31 March 2018	21.05
Expected credit losses for the year	5.00
Loss allowance on 31 March 2019	26.05
Expected credit losses for the year	77.93
Loss allowance on 31 March 2020	103.98

B Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities.

31 March 2020	Less than 1 yr	1 to 5 Years	Above 5 Years	Total
Non-derivatives				
Borrowings (including interest accrued)	1,070.28	4,725.00	21,370.44	27,165.72
Trade payable	376.06	-	-	376.06
Other financial liabilities	371.18	1,003.43	95.67	1,470.27
Total	1,817.51	5,728.43	21,466.11	29,012.05
31 March 2019	Less than 1 yr	1 to 5 Years	Above 5 Years	Total
Non-derivatives				
Borrowings (including interest accrued)	5,071.12	3,750.10	21,102.24	29,923.46
Trade payable	399.08	-	-	399.08
Other financial liabilities	500.42	973.95	1.15	1,475.52
Total	5,970.62	4,724.05	21,103.39	31,798.06

47 Financial risk management (Continued...)**C Market risk****a) Interest rate risk****Liabilities**

The Company's fixed rate borrowings are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

Particulars	31 March 2020	31 March 2019
Variable rate borrowing	26,788.55	25,199.81
Fixed rate borrowing	317.50	4,434.45
Total borrowings	27,106.05	29,634.26

Sensitivity

Profit or loss and equity is sensitive to higher/lower interest expense from variable rate borrowings as a result of changes in interest rates.

Particulars	31 March 2020	31 March 2019
Interest rates – increase by 100 basis points (31 March 2019: 100 basis points)	(267.89)	(252.00)
Interest rates – decrease by 100 basis points (31 March 2019: 100 basis points)	267.89	252.00

Assets

The Company's fixed deposits are carried at fixed rate. Therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

b) Price risk

The Company's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments in equity securities, the Company diversifies its portfolio of assets.

Sensitivity

Profit or loss and equity is sensitive to higher/lower prices of instruments-

Particulars	31 March 2020	31 March 2019
Optionally convertible preference shares		
Price increase by (2%) - FVOCI instrument	9.27	84.15
Price decrease by (2%) - FVOCI instrument	(9.27)	(84.15)
Mutual funds		
Price increase by (2%) - FVTPL instrument	46.05	3.20
Price decrease by (2%) - FVTPL instrument	(46.05)	(3.20)

48 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value and safeguard the Company's ability to continue as a going concern.

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company's capital structure mainly constitutes debt. The Company's capital structure is influenced by the changes in regulatory framework, government policies, available options of financing and the impact of the same on the liquidity position.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, including interest-bearing loans and borrowings less cash and cash equivalents. Total equity comprises all components of equity.

The Company's adjusted net debt to equity ratio is analysed as follows:

Particulars	31 March 2020	31 March 2019
Total borrowings (including interest accrued)	27,116.27	29,780.13
Less: Cash and cash equivalents	(218.83)	(281.87)
Adjusted net debt*	26,897.44	29,498.26
Total equity	4,664.39	9,243.78
Adjusted net debt to total equity ratio	5.77	3.19

(This space has been intentionally left blank)

49 Assets pledged as security

The carrying amounts of assets pledged as security for current and non-current borrowings are:

Particulars	31 March 2020	31 March 2019
Current		
Financial assets		
First charge		
Trade receivables	292.43	-
Pari passu charge		
Trade receivables	-	312.70
Cash and cash equivalents	-	221.02
Other bank balances	-	72.63
Total current assets pledged as securities	292.43	606.34
Non-current		
First charge		
Investment property	11,606.14	-
Non-current investment - mutual fund	723.56	-
Pari passu charge		
Investment property	-	11,883.25
Property, plant and equipment (excluding vehicles)	-	286.24
Other financial assets	-	6.09
Total non-current assets pledged as security	12,329.70	12,175.58
Total assets pledged as security	12,622.13	12,781.93

50 A. Disaggregation of revenue

Set out below is the disaggregation of the Company's revenue from contracts with customers:

Particulars	31 March 2020	31 March 2019
(i) Revenue from contracts with customers		
(a) Revenue from maintenance services	315.63	322.38
(b) Revenue from sale of real estate properties	825.66	893.90
(ii) Revenue from others		
(a) Revenue from car parking	28.41	28.73
(ii) Other operating revenue (service receipts)	-	10.41
Total revenue covered under Ind AS 115	1,169.70	1,255.42

B. Contract balances

The following table provides information about receivables and contract liabilities from contract with customers:

Particulars	31 March 2020	31 March 2019
Contract liabilities		
Advance from customers - maintenance	1.92	0.82
Advance from customers - residential	16,360.33	15,926.13
Total contract liabilities	16,362.25	15,926.95
Receivables		
Trade receivables - maintenance	10.84	7.76
Total receivables	10.84	7.76

Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets (unbilled receivables) are transferred to receivables when the rights become unconditional and contract liabilities are recognised as and when the performance obligation is satisfied.

C. Significant changes in the contract liabilities balances during the year are as follows:

Particulars	As at 31 March 2020		As at 31 March 2019	
	Contract liabilities		Contract liabilities	
	Advances from customers		Advances from customers	
	Residential	Maintenance	Residential	Maintenance
Opening balance	15,926.13	0.82	17,138.32	0.82
(Refund)/addition during the year	1,259.86	305.89	(318.29)	314.62
Revenue recognised during the year	(825.66)	(304.79)	(893.90)	(314.62)
Closing balance	16,360.33	1.92	15,926.13	0.82

D. The aggregate amount of transaction price allocated to the performance obligations (not yet complete) as at 31 March 2020 is ₹ 16,362.25 millions (at 31 March 2019 is ₹ 15,926.95 Millions). This balance represents the advance received from customers (gross) against real estate properties under development and maintenance of rental properties. The management expects to further bill and collect the remaining balance of total consideration in the coming years. These balances will be recognised as revenue in future years as per the policy of the Company.

E. Reconciliation of revenue recognised with contract revenue:

Particulars	Year Ended 31 March 2020	Year Ended 31 March 2019
Contract revenue	825.66	899.17
Adjustment for subvention cost	-	(5.28)
Revenue from sale of real estate properties	825.66	893.90

* Subvention cost represent the expected cash outflow under the arrangement determined basis time elapsed.

- 51 All loans, guarantees and securities as disclosed in respective notes are provided for business purposes.
- 52 During the current year, the Settlement Commission passed final orders under section 245D(4) in respect of the applications made to the Settlement Commission dated 3 October 2017. Pursuant to the orders, additional tax expense of Rs. 94.70 million has been determined and recorded in the financial statements. Additionally, the Company has also booked interest of Rs. 11.24 million due to payment of above additional tax expense on an instalment basis.
- 53 The outbreak of 'Covid-19' has severely impact businesses around the world. In many countries, including India, there has been severe disruption of regular business operations due to lock down restrictions and other emergency measures imposed by the Government. The management has made a detailed assessment of its liquidity position including recoverability of its receivables, business and other advances as at balance sheet date. Based on the current indicators of future economic conditions, the management expects to recover carrying amount of these assets. The Company owns two residential projects. One of the residential projects is a completed project and has been fully sold out and the other project is under construction. The Company has started the construction on the under construction residential project in a phased manner as per the Government's directives subsequent to the year ended 31 March 2020 and expects development to be completed by June 2021. The management will continue to closely monitor any material change to future economic conditions.
- 54 Subsequent to the year-end, the board of directors, in their meeting dated 13 April 2020, approved Scheme of Arrangement ("the Scheme") between Indiabulls Properties Private Limited ("IPPL" or "the Demerged Company") and BXIN Office Parks India Private Limited ("Resulting Company") and their respective shareholders, involving the demerger of the business of owning, operating and maintaining of an Information Technology Park located in Mumbai, along with all related assets, liabilities and employees ("Demerged Undertaking"). Once the Scheme is approved, the Demerged Undertaking will be demerged from the Demerged Company and will be merged into Resulting Company.
- 55 The Company did not have any long-term contracts including derivative contracts for which there were any foreseeable losses.
- 56 Pursuant to the recent judgment by the Hon'ble Supreme Court of India dated 28 February 2019, it was held that basic wages, for the purpose of provident fund, to include allowances which are common for all employees. However, there is uncertainty with respect to the applicability of judgement and period from which the same applies and accordingly, the Company has not provided for any liability on account of this.
- 57 **Expenditure on corporate social responsibility activities (CSR)**
As per Section 135 of the Companies Act, 2013, Schedule VII and Companies (Corporate Social Responsibility Policy) Rules, 2014, the Company was required to spend Rs. 0.06 million (31 March 2019: Rs. 11.77 million) for Corporate Social Responsibility activities. The Company has incurred CSR expenditure of Rs. Nil during the current year (31 March 2019: Rs. 11.77 million).

Particulars	31 March 2020	31 March 2019
(a) Amount required to be spent by the Company during the year	0.06	11.77
(b) Amount spent during the year (in cash)		
(i) Construction / acquisition of any asset	-	-
(ii) On purposes other than (i) above	-	11.77

This is the summary of significant accounting policies and other explanatory information referred to in our report of even date.

Independent Auditor's Report

To the Members of Indiabulls Properties Private Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Indiabulls Properties Private Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2019, and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report thereon

4. The Company's Board of Directors is responsible for the other information. Other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. Reporting under this section is not applicable as no other information is obtained at the date of this auditor's report.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

5. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
6. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
9. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists

related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
10. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

11. The Company has not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable.
12. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A a statement on the matters specified in paragraphs 3 and 4 of the Order.
13. Further to our comments in Annexure A, as required by section 143(3) of the Act, we report that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of section 164(2) of the Act; and
 - f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2019 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date and our report dated 22 April 2019 as per Annexure B expressed unmodified opinion;
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in note 39 to the standalone financial statements, has disclosed the impact of pending litigation(s) on its financial position as at 31 March 2019;

- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2019;
- iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2019; and
- iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016, which are not relevant to these standalone financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited, on the standalone financial statements for the year ended 31 March 2019

Annexure A

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, investment properties and other intangible assets.
- (b) The property, plant and equipment and investment property have been physically verified by the management during the year and no material discrepancies were noticed on such verification. In our opinion, the frequency of verification of the property, plant and equipment and investment property is reasonable having regard to the size of the Company and the nature of its assets.
- (c) The title deeds of all the immovable properties (which are included under the head 'Investment property') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has complied with the provisions of Section 186 in respect of investments. Further, in our opinion, the Company has not entered into any transaction covered under Section 185 and Section 186 of the Act in respect of loans, guarantees and security.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of Company's products/services and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii)(a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, goods and services tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited, on the standalone financial statements for the year ended 31 March 2019

- (b) The dues outstanding in respect of income-tax, sales-tax, service-tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Statement of Disputed Dues

Name of the statute	Nature of dues	Amount (₹ in lakhs)	Amount paid under Protest (₹ in lakhs)	Period to which the amount relates	Forum where dispute is pending
The Finance Act, 1994	Service tax	2,536.00	-	2009-10 to 2013-14	Commissioner of Service Tax
The Finance Act, 1994	Service tax	37.00	-	2009-10	Hon'ble Supreme Court

- (viii) The Company has not defaulted in repayment of loans or borrowings to any financial institution or a bank or any dues to debenture-holders during the year. The Company has no loans or borrowings payable to the government during the year.
- (ix) The Company did not raise moneys by way of initial public offer or further public offer (including debt instruments). In our opinion, the term loans were applied for the purposes for which the loans were obtained, though idle funds which were not required for immediate utilisation have been invested in liquid investments, payable on demand.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.
- (xi) The Company has not paid or provided for any managerial remuneration. Accordingly, the provisions of Clause 3(xi) of the Order are not applicable.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion all transactions with the related parties are in compliance with Sections 177 and 188 of Act, where applicable, and the requisite details have been disclosed in the standalone financial statements etc., as required by the applicable Ind AS.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.

(This space has been intentionally left blank)

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited, on the standalone financial statements for the year ended 31 March 2019

- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2019

Annexure B

Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Indiabulls Properties Private Limited ('the Company') as at and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Company as at that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure B to the Independent Auditor's Report of even date to the members of Indiabulls Properties Private Limited on the standalone financial statements for the year ended 31 March 2019

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Net block as at 31 March 2019	17,773.53	96,790.85	4,268.17	1,18,832.55

(i) Investment property pledged as security

Investment property has been pledged as security by the Company for borrowings (refer note 21).

(ii) Contractual obligations

Refer to note 39 for disclosure of contractual commitments for the acquisition of investment property.

(iii) Amounts recognised in Standalone Statement of Profit and Loss for investment property

	31 March 2019 (₹ in lakhs)	31 March 2018 (₹ in lakhs)
Rental income	34,322.56	30,373.55
Direct operating expenses generating rental income (including repair and maintenance)	(13,893.01)	(12,765.17)
Profit from leasing of investment properties before depreciation and indirect expenses	20,429.55	17,608.38
Less: Depreciation	(3,216.85)	(3,183.30)
Profit from leasing of investment properties before indirect expenses	17,212.70	14,425.08

The Company has no restrictions on the realisability of its investment properties and no contractual obligations to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

(iv) Leasing arrangements

Investment properties are leased to tenants under long-term operating leases with rentals payable monthly. Refer note 41 for details on future minimum lease rentals.

(v) Fair value

	(₹ in lakhs)	
Fair value	31 March 2019	31 March 2018
Investment properties	4,07,500.00	3,82,750.00

The Company obtains valuation report for its investment property from an independent valuer atleast annually and fair value measurement has been categorized as level 3. The valuations are based on income approach (i.e. discounted cash flow technique as well as capitalized income projections). For all investment properties disclosed at fair value, the current use is considered as the highest and the best value.

(vi) Sensitivity analysis

The table below shows the effect of a 5% change in the value of investment property.

	(₹ in lakhs)	
Effect of change in value of investment property (%)	31 March 2019	31 March 2018
5% increase	20,375.00	19,137.50
5% decrease	(20,375.00)	(19,137.50)

iv Rights, preferences and restrictions attached to equity and preference shares

The holders of equity shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. In the event of liquidation of the Company, all preferential amounts, if any, shall be discharged by the Company. The remaining assets of the Company shall be distributed to the holders of equity shares in proportion to the number of shares held to the total equity shares outstanding as on that date. All shares rank equally with regard to the Company's residual assets, except that holders of preference shares participate only to the extent of the face value of the shares.

v Details of shareholder holding more than 5% share capital

Name of the equity shareholder	31 March 2019		31 March 2018

Less: current maturities of long-term borrowings	(4,620.32)	(17,077.86)
	2,47,377.79	2,68,105.62

i Repayment terms (including current maturities) and security details for non-convertible debentures:

On 26 September 2017, the Company had issued and allotted 2,000 non-convertible debenture, rated, redeemable, taxable, listed and tradable debentures ("NCDs") of face value of ₹ 1,000,000 each, aggregating to ₹ 20,000.00 lakhs. These NCDs were issued for a tenor of 3 years (with put option after 16 months) with scheduled quarterly repayment or when the put or call is exercised. During the year, the Company has redeemed 1,300 debentures (31 March 2018: 700 debentures) amounting to ₹ 13,000 lakhs (31 March 2018: ₹ 7,000 lakhs). These debentures were secured against registered mortgage over parcel of land bearing plot no.882 admeasuring 5,888.14 square meters held by the Company situated at Balaseth Murudkar Marg, Elphinstone Road, Mumbai (Jupiter Textile Mills) together with building and structures, fixtures, etc. in proportion to the unsold area of Sky project; charge on receivables, both present and future and escrow accounts of the project as being created under the deed of hypothecation; irrevocable and unconditional corporate guarantee of Indiabulls Real Estate Limited. Carrying rate of interest on these non-convertible debentures was 9.04% p.a. (31 March 2018 : 9.04% p.a.)

ii Repayment terms (including current maturities) and security details for term loan from banks:

Term loan of ₹ 251,998.11 lakhs (31 March 2018: ₹ 243,630.75 lakhs) is secured by first pari passu charge of registered mortgage on proportionate share of land parcel bearing plot no.841 underneath the project One Indiabulls Centre project (excluding one unit sold to British embassy, government parking and Sky Forest) and building constructed thereon, with unsold leasable area of approx. 16.38 lakhs sq. ft.; first pari passu charge on entire current assets and movable fixed assets, both present and future, of the property; first pari passu charge by way of hypothecation over the rights, titles, interest, benefits, claims and demands of the project from all contracts, agreements, clearances, loss protection covers, any letter of credit, guarantee, performance bond, insurance contracts, policies, insurance proceeds pertaining to the project; over debt service reserve account; over the designated account maintained with the designated bank and repayable in 156-180 monthly structured installments from the date of first disbursement.

Loan to the extent of ₹ Nil (31 March 2018: ₹ 34,552.73 lakhs) is further secured by first pari passu charge of registered mortgage on proportionate share of land bearing plot no.841 (with respect to unsold area only) underneath the project Sky Forest ('the project') excluding government parking and One Indiabulls Centre; first pari passu charge on all the present and future movable fixed assets and immovable properties of the project, in proportion to the unsold area of 6.84 lakhs sq. ft.; first pari passu charge by way of hypothecation of all the current assets of the project, of all the revenues, receivables, escrow account, reserve account and other reserves of the project wherever maintained by the borrower, present and future and charge in favour of lenders/ security trustee, all the rights, titles, benefits and interest of the project from all contracts, insurances, licenses for all the assets of the project and all the project documents which the borrower is party to and repayable in 13 quarterly fixed installments from the date of first disbursement. The outstanding amount of loan was repaid during the current year.

Carrying rate of interest on the above term loans is 8.25% - 9.00 % p.a. (31 March 2018: 8.25% - 8.90%) p.a. respectively.

Tax impact of unrecognised deferred tax on unabsorbed losses and unabsorbed depreciation	(6,198.36)	-
Tax impact of setting off unabsorbed depreciation	-	868.48
Tax impact of other items (refer note 46)	(16.48)	(364.15)
Income tax expense	(16.48)	2,217.54

** Refer note 46 for details about restatement for changes in accounting policies consequent to adoption of Ind AS 115.

Note - 34

Earnings per share (EPS)

Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Company. Basic earnings per share is computed using the weighted average number of shares outstanding during the year. Diluted earnings per share is computed using the weighted average number of common and dilutive common equivalent shares outstanding during the year including share options, except where the result would be anti-dilutive.

The following reflects the income and share data used in the basic and diluted EPS computations:

	31 March 2019	31 March 2018
(Loss)/profit attributable to equity holders (in ₹ lakhs)	(11,215.41)	9,072.68
Weighted average number of equity shares for basic and diluted earning per share	32,51,362	32,22,906
Earnings per equity share		
Basic (₹)	(344.94)	281.51
Diluted (₹)	(344.94)	281.51

Indiabulls Properties Private Limited
Summary of significant accounting policies and other explanatory information for the year ended 31 March 2019

Note - 35

Fair value measurements

(i) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the financial statements are grouped into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability.

(ii) Financial assets and financial liabilities measured at fair value – recurring fair value measurements

(₹ in lakhs)

31 March 2019	Level 1	Level 2	Level 3	Total
Financial instruments at FVTPL				
Investments				
Mutual funds	1,597.50	-	-	1,597.50
Financial instruments at FVOCI				
Optionally convertible redeemable preference shares	-	-	42,075.00	42,075.00
Total financial assets	1,597.50	-	42,075.00	43,672.50

Financial assets and financial liabilities measured at fair value – recurring fair value measurements

(₹ in lakhs)

31 March 2018	Level 1	Level 2	Level 3	Total
Financial instruments at FVTPL				
Investments				
Mutual funds	4,512.43	-	-	4,512.43
Financial instruments at FVOCI				
Optionally convertible redeemable preference shares	-	-	42,500.00	42,500.00
Total financial assets	4,512.43	-	42,500.00	47,012.43

(iii) Valuation process and technique used to determine fair value

Specific valuation techniques used to value financial instruments include -

a) Use of net asset value for mutual funds on the basis of the statement received from investee party.

b) For optionally convertible preference, the Company has used adjusted net asset value method which factors fair value of assets and liabilities of investee entity with an adjustment of factors such as lack of liquidity, time elapsed from date of investment etc.

(iv) The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements:

Particulars	Fair value (₹ in lakhs)		Significant unobservable inputs	Data inputs		Sensitivity analysis
	31 March 2019	31 March 2018		31 March 2019	31 March 2018	
Optionally convertible preference shares	42075.00	42500.00	Discount rate	9.50%	9.50%	Change of +/-0.01% in discount rate has following impacts - 31 March 2019 +0.01% loss of ₹ 4.21 lakhs -0.01% gain of ₹ 4.21 lakhs 31 March 2018 +0.01% loss of ₹ 4.25 lakhs -0.01% gain of ₹ 4.25 lakhs

(v) The following table presents the changes in level 3 items for the year ended 31 March 2019 and 31 March 2018:

Particulars	Optionally convertible preference share
As at 1 April 2017	-
Gain/(Loss) recognised in other comprehensive income	-
Further investments made	42,500.00
As at 31 March 2018	42,500.00
Gain/(Loss) recognised in other comprehensive income	(425.00)
Further investments made	-
As at 31 March 2019	42,075.00

(vi) Fair value of instruments measured at amortised cost:

Particulars	Level	31 March 2019		31 March 2018	
		Carrying value	Fair Value	Carrying value	Fair Value
Financial assets					
Investments	Level 3	0.49	0.49	0.49	0.49
Loans	Level 3	84.56	84.56	90.01	90.01
Other financial assets	Level 3	141.36	141.36	193.96	193.96
Total financial assets		226.41	226.41	284.46	284.46
Financial liabilities					
Borrowings*	Level 3	2,97,801.27	2,97,801.27	2,91,202.80	2,91,202.80
Other financial liabilities	Level 3	8,743.84	8,743.84	10,731.77	10,731.77
Total financial liabilities		3,06,545.11	3,06,545.11	3,01,934.57	3,01,934.57

The above disclosures are presented for non-current financial assets and non-current financial liabilities except borrowings which include current maturities and accrued interest. Carrying value of current financial assets and current financial liabilities (cash and cash equivalents, trade receivables, trade payables and other current financial liabilities) represents the best estimate of fair value.

*Investment in subsidiaries are measured at cost as per Ind AS 27, 'Separate financial statements'.

** These financial assets are mandatorily measured at fair value.

ii) Financial instruments measured at amortised cost

For amortised cost instruments, carrying value represents the best estimate of fair value.

iii) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

(A) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and financial assets measured at amortised cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

a) Credit risk management

Credit risk rating

The Company assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets.

A: Low credit risk

B: Moderate credit risk

C: High credit risk

Asset group	Basis of categorisation	Provision for expenses credit loss*
A. Low credit risk	Trade receivables, cash and cash equivalents, other bank balances, investments, loans and other financial assets	12 month expected credit loss or life time expected credit loss
B. Moderate credit risk	Loans and other financial assets	12 month expected credit loss
C. High credit risk	Trade receivables	Life time expected credit loss or fully provided for

* Life time expected credit loss is provided for trade receivables

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in standalone statement of profit and loss.

Assets under credit risk –		(₹ in lakhs)	
Credit rating	Particulars	31 March 2019	31 March 2018
A: Low credit risk	Trade receivables, cash and cash equivalents, other bank balances, investments, loans and other financial assets	50,396.89	59,188.78
C: High credit risk	Trade receivables	260.46	210.46

Concentration of financial assets

The Company's principal business activities are real estate projects and rental income. Loans and other financial assets majorly represents money advanced for business purposes. The Company's exposure to credit risk for trade receivables is presented below.

Particulars	31 March 2019	31 March 2018
Real estate projects receivables	-	-
Rental receivables	3,126.99	3,942.53

b) Credit risk exposure

Provision for expected credit losses

The Company provides for 12 month expected credit losses for following financial assets –

As at 31 March 2019

(₹ in lakhs)

Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision
Investments	0.49	-	0.49
Trade receivables	3,387.45	260.46	3,126.99
Cash and cash equivalents	2,818.70	-	2,818.70
Other bank balances	726.29	-	726.29
Security deposit	84.56	-	84.56
Other financial assets	228.32	-	228.32

As at 31 March 2018

(₹ in lakhs)

Particulars	Estimated gross carrying amount at default	Expected credit losses	Carrying amount net of impairment provision
Investments	0.49	-	0.49
Trade receivables	4,153.00	210.46	3,942.53
Cash and cash equivalents	2,601.34	-	2,601.34
Other bank balances	5,494.77	-	5,494.77
Loans	3.07	-	3.07
Security deposit	86.95	-	86.95
Other financial assets	258.16	-	258.16

Expected credit loss for trade receivables under simplified approach

The Company considers provision for lifetime expected credit loss. Given the nature of business operations, the receivables from rental business has low credit risk as the Company holds security deposits against the premises given on rentals. Further, historical trends indicate some shortfall between such deposits held by the Company and amounts due from customers. Hence, with the historical loss experience and forward looking information, the Company has provided expected credit loss in relation to receivables from rental business.

Reconciliation of loss provision – trade receivables

(₹ in lakhs)

Reconciliation of loss allowance	Trade receivables
Loss allowance as on 1 April 2017	255.77
Impairment loss recognised/reversed during the year	173.79
Written off	(219.10)
Loss allowance on 31 March 2018	210.46
Written off	50.00
Loss allowance on 31 March 2019	260.46

(B) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities.

(₹ in lakhs)

31 March 2019	Less than 1 year	1-5 years	More than 5 years	Total
Non-derivatives				
Borrowings (including interest accrued)	50,711.16	37,501.00	2,11,022.41	2,99,234.57
Trade payable	3,990.82	-	-	3,990.82
Security deposits	5,004.20	9,739.50	11.52	14,755.22
Other financial liabilities	-	-	-	-
Total	59,706.18	47,240.50	2,11,033.93	3,17,980.61

(₹ in lakhs)

31 March 2018	Less than 1 year	1-5 years	More than 5 years	Total
Non-derivatives				
Borrowings (including interest accrued)	23,302.60	56,034.67	2,11,202.22	2,90,539.49
Trade payable	2,979.16	-	-	2,979.16
Security deposits	714.16	13,395.98	84.15	14,194.29
Other financial liabilities	81.81	-	-	81.81
Total	27,077.73	69,430.65	2,11,286.37	3,07,794.75

(This space has been intentionally left blank)

(C) Market risk

a) Interest rate risk

Liabilities

The Company's fixed rate borrowings are not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Variable rate borrowing	2,51,998.11	2,78,183.48
Fixed rate borrowing	44,344.51	13,000.00
Total borrowings	2,96,342.62	2,91,183.48

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from variable rate borrowings as a result of changes in interest rates.

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Interest rates – increase by 100 basis points (31 March 2018: 100 basis points)	2,519.98	2,781.83
Interest rates – decrease by 100 basis points (31 March 2018: 100 basis points)	(2,519.98)	(2,781.83)

Assets

The company's fixed deposits are carried at fixed rate. Therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

b) Foreign exchange risk

The Company has international transactions and is exposed to foreign exchange risk arising from foreign currency transactions (imports and exports). Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency. The Company does not hedge its foreign

Foreign currency risk exposure:

(₹ in lakhs)

Particulars	Currency	31 March 2019	31 March 2018
Trade payables	EUR	-	(14.21)
Trade payables	USD	-	(6.81)

Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

(₹ in lakhs)

Particulars	Currency	Exchange rate increase by 1%		Exchange rate decrease by 1%	
		31 March 2019	31 March 2018	31 March 2019	31 March 2018
Trade payables	EUR	-	(0.14)	-	0.14
Trade payables	USD	-	(0.07)	-	0.07

c) Price risk

The Company exposure price arises from investments held and classified in the balance sheet either at fair value through other comprehensive income or at fair value through profit and loss. To manage the price risk arising from investments in equity securities, the Company diversifies its portfolio of assets.

Sensitivity

Profit or loss and equity is sensitive to higher/lower prices of instruments on the Company's profit for the periods -

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Price sensitivity		
Optionally convertible preference shares		
Price increase by (2%) - FVTPL instrument	841.50	850.00
Price decrease by (2%) - FVTPL instrument	(841.50)	(850.00)
Mutual funds		
Price increase by (2%) - FVTPL instrument	31.95	90.25
Price decrease by (2%) - FVTPL instrument	(31.95)	(90.25)

iv) Capital Management

The Company's objectives when managing capital are to:

- Safeguard their ability to continue as a going concern, and
- Maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

(₹ in lakhs)

Particulars	31 March 2019	31 March 2018
Net debt*	2,94,982.57	2,88,601.46
Total equity	92,437.83	1,03,986.66
Net debt to equity ratio	3.19	2.78

*Net debt = non-current borrowings + current borrowings + current maturities of non-current borrowings + interest accrued – cash and cash equivalents

Note - 43
A search was conducted by the competent authority under section 132(1) of the Income Tax Act, 1961 (the 'Act') at premises of the Company in the previous year ended 31 March 2017. Pursuant to the search, the Assessing Officer has issued notice under relevant sections of the Act to the Company for some of the earlier financial years. Consequently, in order to avoid protracted tax litigation, the Company has filed application under Section 245C (1) of the Act before the Hon'ble Income Tax Settlement Commission (ITSC), on 03 October 2017 and accordingly deposited ₹ 56,431 lakhs as tax and ₹ 2,85,759 lakhs as interest towards the proposed settlement which has been provided for in the books of accounts. The said application has since been admitted by ITSC, vide its Order dated 10 October 2017 passed u/s 245D (1) of the Act and allowed to be proceeded with vide Order dated 4 December 2017 passed u/s 245D (2C) of the Act. The matter is now pending before the Hon'ble ITSC for final determination.

Indiabulls Properties Private Limited

Summary of significant accounting policies and other explanatory information for the year ended 31 March 2018

Note – 45

Reconciliation of liabilities arising from financing activities pursuant to Ind AS 7 - Cash flows

The changes in the Company's liabilities arising from financing activities can be classified as follows:

(₹ in lakhs)

Particulars	Opening Balance	Cash Changes	Non Cash Adjustments	Closing Balance
Short term secured borrowings	-	-	-	-
Long term secured borrowings	2,91,183.48	(38,415.12)	(770.25)	2,51,998.11
Short term unsecured borrowings	-	44,344.51	-	44,344.51
Long term unsecured borrowings	-	-	-	-
Accrued Interest	19.32	1,439.33	-	1,458.65

Note – 46

Standards issued but not yet effective

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

Ind AS 116 Leases was notified in xxxxx and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17.

The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

Ind AS 116, which is effective for annual periods beginning on or after 1 April 2019, requires lessees and lessors to make more extensive disclosures than under Ind AS 17.

The management is currently under process of evaluating the impact on the financial statements, based preliminary evaluation, management believes as the Company is a lessor, the effects of applying Ind AS 116 on the financial statements will be immaterial.

Note – 47

In the opinion of the Board of Directors, all current and non-current assets including non-current loans, appearing in the standalone balance sheet as at 31 March 2019, have a value on realization, in the ordinary course of the Company's business, at least equal to the amount at which they are stated in the financial statements.

Independent Auditor's Review Report on Unaudited Special Purpose Interim Standalone Financial Information of the Company for the period from 1 April 2021 to 31 December 2021

To

The Board of Directors

Indiabulls Properties Private Limited

Introduction

1. We have reviewed the accompanying Unaudited Special Purpose Interim Standalone Financial Information of Indiabulls Properties Private Limited ('the Company'), which comprise the Unaudited Special Purpose Interim Standalone Balance Sheet as at 31 December 2021, the Unaudited Special Purpose Interim Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Unaudited Special Purpose Interim Standalone Statement of Cash Flows and the Unaudited Special Purpose Interim Standalone Statement of Changes in Equity for the nine months period then ended, and other explanatory information (together hereinafter referred to as the "Special Purpose Interim Standalone Financial Information"). Management is responsible for the preparation and presentation of the Special Purpose Interim Standalone Financial Information in accordance with the basis of preparation as described in note 2 to these Special Purpose Interim Standalone Financial Information which has been approved by the Company's Board of Directors. Our responsibility is to express a conclusion on the Special Purpose Interim Standalone Financial Information based on our review.

Scope of Review

2. We conducted our review of the Special Purpose Interim Standalone Financial Information in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 ('the Act'), and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

3. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Special Purpose Interim Standalone Financial Information is not prepared, in all material aspects, in accordance with the basis of preparation described in note 2 to this Special Purpose Interim Standalone Financial Information.

Independent Auditor's Review Report on Unaudited Special Purpose Interim Standalone Financial Information of the Company for the period from 1 April 2021 to 31 December 2021 (cont'd)

Emphasis of Matter

4. We draw attention to Note 4 to the accompanying Special Purpose Interim Standalone Financial Information, which describes the effect of uncertainties relating to the outbreak of Covid-19 pandemic and the management's evaluation of its impact on the accompanying Special Purpose Interim Standalone Financial Information and operations of the Company as at the balance sheet date, the extent of which is significantly dependent on future developments. Our conclusion is not modified in respect of this matter.

Emphasis of Matter – Basis of preparation and Restriction on Distribution or Use

5. Without modifying our conclusion, we draw attention to note 2 to the accompanying Special Purpose Interim Standalone Financial Information, which describes its basis of preparation. This Special Purpose Interim Standalone Financial Information has been prepared by the Company's management, solely for the purpose of inclusion in the placement document of Indiabulls Real Estate Limited's ('Prospective Holding Company' or 'Issuer') proposed issue of equity shares through Qualified Institutional Placement, as further explained in the said note, to be submitted with the Securities Exchange Board of India ('SEBI'), the National Stock Exchange of India Limited and the BSE Limited (together, the 'Stock Exchanges') and the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi ('ROC') as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018, as amended ("SEBI ICDR Regulations") and Sections 42 and 62 of the Act, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, as amended. This report is solely issued for the aforementioned purpose and accordingly should not be used, referred to or distributed for any other purpose or to any other party without our prior written consent. Further, we do not accept or assume any liability or any duty of care for any other purpose for which or to any other party to whom this report is shown or into whose hands it may come without our prior consent in writing.

Indiabulls Properties Private Limited
Special Purpose Interim Standalone Financial Information for the period ended 31 December 2021

- These Special Purpose Interim Standalone Financial Information of Indiabulls Properties Private Limited ('the Company') for the nine months period ended 31 December 2021 have been approved by the Board of Directors ('the Board') at its meeting held on 25 March 2022 and reviewed by statutory auditors of the Company.
- A scheme of amalgamation has been filed before the National Company Law Tribunal for the amalgamation ('the Scheme') of NAM Estates Private Limited and Embassy One Commercial Property Developments Private Limited, with Indiabulls Real Estate Limited ('Prospective Holding Company' or 'IBREL') for which the approval is currently awaited. Upon sanction of the Scheme by National Company Law Tribunal ('NCLT') and restructuring activities envisaged in such Scheme, which includes acquisition of controlling stake in Indiabulls Properties Private Limited ('IPPL' or the 'Company'), the Company will become a wholly owned subsidiary of IBREL. This Special Purpose Interim Standalone Financial Information of the Company which comprises of the Special Purpose Interim Standalone Balance Sheet as at 31 December 2021, the Special Purpose Interim Standalone Statement of Profit and Loss (including other comprehensive income), the Special Purpose Interim Standalone Statement of Cash Flows and the Special Purpose Interim Standalone Statement of Changes in Equity for the nine months then ended and other explanatory information (together hereinafter referred to as the "Special Purpose Interim Standalone Financial Information") and have been prepared by the Company's management in connection with inclusion in the placement document of Indiabulls Real Estate Limited's proposed issue of equity shares through Qualified Institutional Placement to be submitted with the Securities Exchange Board of India ('SEBI'), the National Stock Exchange of India Limited and the BSE Limited (together, the 'Stock Exchanges') and the Registrar of Companies, National Capital Territory of Delhi and Haryana at New Delhi ('ROC') as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018, as amended ("SEBI ICDR Regulations") and Sections 42 and 62 of the Act, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, as amended.

This Special Purpose Interim Standalone Financial Information of the Company has been prepared as per the principles of Indian Accounting Standards including Indian Accounting Standard (Ind AS) 34 "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with relevant rules issued thereunder and other accounting principles generally accepted in India, except that the disclosure requirements as required under Ind AS 34 and Schedule III to the Companies Act, 2013, including presentation of comparative financial information, have not been included in this Special Purpose Interim Standalone Financial Information, since such information is prepared for the limited purposes as specified above. The accounting policies followed in preparation of the Special Purpose Interim Standalone Financial Information are consistent with those followed in the most recent annual financial statements of the Company, i.e., for the year ended 31 March 2021.

- During the period, the Company has issued non-convertible bonds (NCBs) amounting to Rs. 600,000,000 and these Bonds are repayable after 14 years from the date of issue. Interest is payable on annual basis from 1 April 2024 at the rate of 6% per annum and redeemable at a premium. These NCBs are unsecured.
- Covid-19 pandemic has resulted in disruption to regular business operations due to lockdown imposed by the Central and State Governments. Further, Mumbai region was one of most impacted regions across the country, due to increased number of active 'Covid-19' cases amid the second wave in first quarter of current financial year. While the business operations have already resumed, the recent rising cases of Omicron variant of Covid-19 in India and related restrictions imposed by various states, business activity may get further impacted and expected return to normalcy may take more time. Additionally, because of the pandemic situation, major tenants did restructuring within their businesses and accordingly vacated some of the area, which has led to decrease in overall occupancy ratio as at 31 December 2021. As per management, the said decrease is only temporary and in the long-term, there may not be material impact of Covid-19 pandemic on the financial position and performance of the Company. The Company also owns two residential projects. One of the residential projects is a completed project and has been fully sold out and the other project is under construction. The Company has carried construction activities on the under construction residential project as per the Government's directives. Additionally, the management has also made a detailed assessment of its liquidity position including recoverability of its receivables and other advances as at balance sheet date and expects to recover carrying amount of these assets. The management will continue to closely monitor any material change to future economic conditions. The actual impact of Covid-19 pandemic on the Company's financial performance remains uncertain and dependent on spread of Covid-19 and additional steps taken by the Government to mitigate the economic impact and may differ from that estimated as at the date of approval of these Special Purpose Interim Standalone Financial Information.

5 Segment information
(i) General information

An operating segment is a component of a group that engages in business activities on which it earns revenue and incurs expenses and for which separate financial information is available. The Company has two operating and reportable segments which are Companies strategic business units. These operating segments are monitored by group's chief operating decision maker to access performance and evaluate strategic decisions.

Real estate development

The Company has prime focus on construction and development of residential and commercial projects across Mumbai.

Rental

The Company has rental structure in Mumbai on which the Company has locked in rental for future years.

APPLICATION FORM

Indicative format of the Application Form

An indicative format of the Application Form is set forth below.

(Note: The format of the Application Form included herein below is indicative and for the illustrative purposes only and no Bids in this Issue can be made through the sample Application Form. Our Company, in consultation with the BRLMs, shall identify Eligible QIBs and circulate serially numbered copies of this Preliminary Placement Document and the Application Form, specifically addressed to such Eligible QIBs. Any application to be made in the Issue should be made only upon receipt of serially numbered copies of this Preliminary Placement Document and the Application Form and not on the basis of the indicative format below.)

	APPLICATION FORM
INDIABULLS REAL ESTATE LIMITED <i>(Incorporated in the Republic of India under the provisions of the Companies Act, 1956)</i> Registered Office: Plot No. 448-451, Udyog Vihar, Phase V, Gurugram -122 016, Haryana, India; Corporate Office: WeWork Vaswani Chambers, 264/265, Dr. Annie Besant Road, Worli, Mumbai – 400 030, Maharashtra, India; Telephone: +91 124-6681199; Fax: +91 124-6681240; E-mail: helpdesk@indiabulls.com; Website: www.indiabullsrealestate.com; CIN: L45101HR2006PLC095409	Name of the Bidder _____ Form. No. _____ Date: April 7, 2022

QUALIFIED INSTITUTIONS PLACEMENT OF UP TO [●] EQUITY SHARES OF FACE VALUE ₹2 EACH (“EQUITY SHARES”), FOR CASH AT A PRICE OF ₹[●] PER EQUITY SHARE (“ISSUE PRICE”), INCLUDING A PREMIUM OF ₹[●] PER EQUITY SHARE, AGGREGATING UP TO ₹[●] MILLION IN RELIANCE UPON SECTION 42 OF THE COMPANIES ACT, 2013, AND OTHER APPLICABLE PROVISIONS OF THE COMPANIES ACT, 2013, AND THE RULES MADE THEREUNDER, EACH AS AMENDED (THE “COMPANIES ACT”), READ WITH RULE 14 OF THE COMPANIES (PROSPECTUS AND ALLOTMENT OF SECURITIES) RULES, 2014, AS AMENDED (THE “PAS RULES”) AND CHAPTER VI OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (ISSUE OF CAPITAL AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2018, AS AMENDED (THE “SEBI ICDR REGULATIONS”) BY INDIABULLS REAL ESTATE LIMITED (THE “COMPANY”) (HEREINAFTER REFERRED TO AS THE “ISSUE”).

Only Qualified Institutional Buyers (“QIBs”) as defined under Regulation 2(1)(ss) of the SEBI ICDR Regulations and which: (a) are not excluded pursuant to Regulation 179(2)(b) of the SEBI ICDR Regulations; or (b) hold a valid and existing registration under the applicable laws in India (as applicable); (c) are not restricted from participating in the Issue under the SEBI ICDR Regulations and other applicable laws; are eligible to submit this Application Form. In addition to the above, with respect to the Issue, Eligible QIBs shall consist of (i) QIBs which are resident in India; and (ii) Eligible FPIs (as defined hereinbelow) participating through Schedule II of the Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 (“FEMA Rules”). Further, except as provided in (ii) above, other non-resident QIBs (including FVCIs and non-resident multilateral and bilateral development financial institutions) are not permitted to participate in the Issue. The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or any state securities laws of the United States and, unless so registered, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in “offshore transactions” as defined in and in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales are made. There will be no public offering of the Equity Shares in the United States. You should note and observe the selling and transfer restrictions contained in the sections of the accompanying preliminary placement document dated April 7, 2022 (the “PPD”) titled “Selling Restrictions” and “Transfer Restrictions”.

ELIGIBLE NON-RESIDENT QIBs CAN PARTICIPATE IN THE ISSUE IN COMPLIANCE WITH THE FOREIGN EXCHANGE MANAGEMENT (NON-DEBT INSTRUMENTS) RULES, 2019, (“FEMA RULES”). ELIGIBLE FPIs ARE PERMITTED TO PARTICIPATE IN THE ISSUE THROUGH SCHEDULE II OF THE FEMA RULES, SUBJECT TO COMPLIANCE WITH ALL APPLICABLE LAWS AND SUCH THAT THE SHAREHOLDING OF ELIGIBLE FPIs DO NOT EXCEED SPECIFIED LIMITS AS PRESCRIBED UNDER APPLICABLE LAWS IN THIS REGARD. PURSUANT TO THE FDI POLICY READ ALONG WITH THE PRESS NOTE NO. 3 (2020 SERIES), DATED APRIL 17, 2020, ISSUED BY THE DEPARTMENT FOR PROMOTION OF INDUSTRY AND INTERNAL TRADE, GOVERNMENT OF INDIA AND RULE 6 OF THE FEMA RULES, INVESTMENTS BY AN ENTITY OF A COUNTRY WHICH SHARES LAND BORDER WITH INDIA OR WHERE THE BENEFICIAL OWNER OF SUCH INVESTMENT IS SITUATED IN OR IS A CITIZEN OF SUCH COUNTRY, MAY ONLY BE MADE THROUGH THE GOVERNMENT APPROVAL ROUTE, AS PRESCRIBED IN THE FDI POLICY AND THE FEMA RULES AND SHALL HAVE TO BE IN CONFORMITY WITH THE APPLICABLE PROVISIONS OF THE FEMA RULES. ALLOTMENTS MADE TO AIFs AND VCFs IN THE ISSUE SHALL REMAIN SUBJECT TO THE RULES AND REGULATIONS APPLICABLE TO EACH OF THEM RESPECTIVELY, INCLUDING IN RELATION TO LOCK-IN REQUIREMENT. AIFs AND VCFs WHOSE SPONSOR AND MANAGER ARE NOT INDIAN OWNED AND CONTROLLED IN TERMS OF THE FEMA RULES, OR FVCIs, FOREIGN MULTILATERAL AND BILATERAL DEVELOPMENT FINANCIAL INSTITUTIONS AND ANY OTHER NON-RESIDENT INVESTORS ARE NOT PERMITTED TO PARTICIPATE IN THE ISSUE.

The Board of Directors
Indiabulls Real Estate Limited
Plot No. 448-451, Udyog Vihar, Phase V,
Gurugram -122 016, Haryana, India

Dear Sirs,

On the basis of the serially numbered PPD of the Company and subject to the terms and conditions contained therein, and in this Application Form, we hereby submit our Application Form for the Allotment of the Equity Shares in the Issue, on the terms and price indicated below. We confirm that we are an Eligible QIB as defined under Regulation 2(1)(ss) of the SEBI ICDR Regulations and are not: (a) excluded from making an application in the Issue pursuant to Regulation 179(2)(b) of the SEBI ICDR Regulations, and (b) restricted from participating in the Issue under the SEBI ICDR Regulations and other applicable laws, including foreign exchange related laws. and that we are not a promoter (as defined under the Companies Act and the SEBI ICDR Regulations) of the Company, or any person related to the promoters of the Company, directly or indirectly and this Application Form does not directly or indirectly represent the promoter or promoter group of the Company or persons or entities related thereto. Further, we confirm that we do not have any right under a shareholders' agreement or voting agreement entered into with the promoters or members of the promoter group, no veto rights or right to appoint any nominee director on the board of directors of the Company. We confirm that we are either a QIB which is resident in India, or an Eligible FPI, participating through Schedule II of the FEMA Rules. We confirm that we are neither an AIF or VCF whose sponsor and manager is not Indian owned and controlled in terms of the FEMA Rules nor a FVCI or a non-resident multilateral or bilateral development financial institution not eligible to invest in India under applicable law. We confirm that the bid size / aggregate number of the Equity Shares applied for by us, and which may be Allocated to us thereon will not exceed the relevant regulatory or approved limits and further confirm that our Bid does not result in triggering an open offer under the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, as amended ("**Takeover Regulations**"). We further understand, acknowledge and agree that (i) our names, address, contact details, PAN number, bank account details and the number of Equity Shares Allotted, along with other relevant information as may be required, will be recorded by the Company in terms of the PAS Rules ; (ii) in the event that any Equity Shares are Allocated to us in the Issue, we are aware pursuant to the requirements under Form PAS-4 of the PAS Rules that our names (as proposed Allottees) and the percentage of our post-Issue shareholding in the Company will be disclosed in the Placement Document and we are further aware that disclosure of such details in relation to us in the Placement Document will not guarantee Allotment to us, as Allotment in the Issue shall continue to be at the sole discretion of the Company, in consultation with the BRLMs; and (iii) in the event that Equity Shares are Allotted to us in the Issue, the Company will place our name in the register of members of the Company as a holder of such Equity Shares that may be Allotted to us and in the Form PAS-3 filed by the Company with the Registrar of Companies, National Capital Territory of Delhi and Haryana at Delhi (the "**RoC**") as required in terms of the PAS Rules. Further, we are aware and agree that if we, together with any other Eligible QIBs belonging to the same group or under common control, are Allotted more than 5% of the Equity Shares in the Issue, the Company will disclose our name, along with the name of such other Allottees and the number of Equity Shares Allotted to us and to such other Allottees, on the website of National Stock Exchange of India Limited and the BSE Limited (together referred to as the "**Stock Exchanges**"), and we consent to such disclosure. In addition, we confirm that we are eligible to invest in Equity Shares under the SEBI ICDR Regulations, circulars issued by the Reserve Bank of India and other applicable laws. We specifically confirm that our Bid for the Allotment of the Equity Shares is not in violation of the amendment made to Rule 6(a) of the FEMA Rules by the Central Government on April 22, 2020.

We confirm, that we have a valid and existing registration under applicable laws and regulations of India, and undertake to acquire, hold, manage or dispose of any Equity Shares that are Allotted to us, if applicable, in accordance with Chapter VI of the SEBI ICDR Regulations and undertake to comply with the SEBI ICDR Regulations, the Companies Act, and all other applicable laws, including any reporting obligations and the terms and conditions mentioned in the PPD and this Application Form. We confirm that, in relation to our application, each foreign portfolio investor ("**FPI**") as defined under the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations, 2019, as amended (other than individuals, corporate bodies and family offices), and including persons who have been registered under these regulations (such FPIs, "**Eligible FPIs**"), have submitted separate Application Forms, and asset management companies or custodians of mutual funds have specified the details of each scheme for which the application is being made along with the Bid Amount per equity share and number of equity shares to be Allotted under each scheme. We undertake that we will sign and/or submit all such documents, provide such documents and do all such acts, if any, necessary on our part to enable us to be registered as the holder(s) of the Equity Shares that may be Allotted to us. We confirm that the signatory is authorized to apply on behalf of the Bidder and the Bidder has all the relevant approvals for applying in the Issue. We note that the Board or any duly authorized committee thereof, is entitled, in consultation with Axis Capital Limited, IIFL Securities Limited, Jeffries India Private Limited, JM Financial Limited and SBI Capital Markets Limited (together as the "**BRLMs**"), in their sole discretion, to accept or reject this Application Form without assigning any reason thereof. We hereby agree to accept the Equity Shares applied for, or such lesser number of Equity Shares as may be Allocated to us, subject to the provisions of the memorandum of association and articles of association of the Company, applicable laws and regulations, the terms of the PPD, Placement Document and the Confirmation of Allocation Note ("**CAN**") when issued and the terms, conditions and agreements mentioned therein and request you to credit the same to our beneficiary account with the Depository Participant as per the details given below, subject to receipt of Application Form and the Bid Amount towards the Equity Shares that may be Allocated to us. The amount payable by us as Bid Amount for the Equity Shares applied for has been/will be remitted to the designated bank account set out in this Application Form through electronic mode, along with this Application Form prior the Bid/Issue Closing Date and such Bid Amount has been /will be transferred from a bank account maintained in our name. We acknowledge and agree that we shall not make any payment in cash or cheque. We are aware that (i) Allocation and Allotment in the Issue shall be at the sole discretion of the Company, in consultation with the BRLMs; and (ii) in the event that Equity Shares that we have applied for are not Allotted to us in full or at all, and/or the Bid Amount is in excess of the amount equivalent to the product of the Equity Shares that will be Allocated to us and the Issue Price, or the Company is unable to issue and Allot the Equity Shares offered in the Issue or if there is a cancellation of the Issue, or the listing of the Equity Shares does not occur in the manner described in the PPD, the Placement Document, the SEBI ICDR Regulations and other applicable laws, the Bid Amount or a portion thereof, as applicable, will be refunded to the same bank account from which the Bid Amount was paid by us. Further, we agree to comply with the rules and regulations that are applicable to us, including in relation to the lock-in and transferability requirements. In this regard, we authorize the Company to issue instructions to the depositories for such lock-in and transferability requirements, as may be applicable to us.

By signing and/or submitting this Application Form, we hereby confirm and agree (i) that the representations, warranties, acknowledgements and agreements as provided in the sections "Notice to Investors", "Representations by Investors", "Issue Procedure", "Selling Restrictions" and "Transfer Restrictions" sections of the PPD; and (ii) the terms, conditions and agreements mentioned herein, are true and correct and acknowledge and agree that these representations, warranties, acknowledgments and agreements are given by us for the benefit of the Company and the BRLMs for the Issue, each of which is entitled to rely on and is relying on these representations and warranties in consummating the Issue.

By signing and submitting this Application Form, we hereby represent, warrant, acknowledge and agree as follows: (1) we have been provided with a serially numbered copy of the PPD along with the Application Form, have read it in its entirety including in particular, the section "Risk Factors" therein and we have relied only on the information contained in the PPD and not on any other information obtained by us either from the Company, the BRLMs or from any other source, including publicly available information; (2) we will abide by the PPD and the Placement Document, this Application Form, the CAN, when issued, and the terms, conditions and agreements contained therein; (3) that if Equity Shares are Allotted to us pursuant to the Issue, we shall not sell such Equity Shares otherwise than on the floor of a recognised stock exchange in India for a period of one year from the date of Allotment; (4) we will not have the right to withdraw our Bid or revise our Bid downwards after the Bid/Issue Closing Date; (5) we will not trade in the Equity Shares credited to our beneficiary account maintained with the Depository Participant until such time that the final listing and trading approvals for the Equity Shares are issued by the Stock Exchanges; (6) Equity Shares shall be Allocated and Allotted at the discretion of the Company, in consultation with the BRLMs and the submission of this Application Form and payment of the corresponding Bid Amount by us does not guarantee any Allocation or Allotment of Equity Shares to us in full or in part; (7) in terms of the requirements of the Companies Act, upon Allocation, the Company will be required to disclose names and percentage of our post-Issue shareholding of the proposed Allottees in the Placement Document; however, disclosure of such details in relation to us in the Placement Document will not guarantee Allotment to us, as Allotment in the Issue shall continue to be at the sole discretion of the Company, in consultation with the BRLMs; (8) the number of Equity Shares Allotted to us pursuant to the Issue, together with other Allottees that belong to the same group or are under common control as us, shall not exceed 50% of the Issue and we shall provide all necessary information in this regard to the Company and the BRLMs. For the purposes of this representation: The expression "belong to the same group" shall derive meaning from Regulation 180(2) of the SEBI ICDR Regulations i.e. entities where (i) any of them controls, directly or indirectly, through its subsidiary or holding company, not less than 15% of the voting rights in the other; (ii) any of them, directly or indirectly, by itself, or in combination with other persons, exercise control over the others; or (iii) there is a common director, excluding nominee and independent directors, among the Eligible QIBs, its subsidiary(ies) or holding company and any other QIB; and 'control' shall have the same meaning as is assigned to it under Regulation 2(1)(c) of the Takeover Regulations;

(9) We agree to accept the Equity Shares applied for, or such lesser number of Equity Shares as may be Allocated to us, subject to the provisions of the memorandum of association and articles of association of the Company, applicable laws and regulations, the terms of the PPD and the Placement Document, this Application Form, the CAN upon its issuance and the terms, conditions and agreements mentioned therein and request you to credit the same to our beneficiary account with the Depository Participant as per the details given below.

We acknowledge that the Equity Shares have not been and will not be registered under the U.S. Securities Act, or the securities laws of any state of the United States and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. By signing this Application Form and checking the applicable box above, we hereby represent that we are located outside the United States and purchasing Equity Shares in an offshore transaction complying with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where those offers and sales are made. We confirm that we have read the representations, warranties and agreements contained in the sections entitled "Selling Restrictions" and "Transfer Restrictions" of the PPD.

By signing and submitting this Application Form, we further represent, warrant and agree that we have such knowledge and experience in financial, business and investment matters so as to be capable of evaluating the merits and risks of the prospective investment in the Equity Shares and we understand the risks involved in making an investment in the Equity Shares. No action has been taken by us or any of our affiliates or representatives to permit a public offering of the Equity Shares in any jurisdiction. We satisfy any and all relevant suitability standards for investors in Equity Shares, have the ability to bear the economic risk of our investment in the Equity Shares, have adequate means of providing for our current and contingent needs, have no need for liquidity with respect to our investment in Equity Shares and are able to sustain a complete loss of our investment in the Equity Shares.

We acknowledge that once a duly filled Application Form is submitted by an Eligible QIB, whether signed or not, and the Bid Amount has been transferred to the Escrow Account (as detailed below), such Application Form constitutes an irrevocable offer and cannot be withdrawn or revised downwards after the Bid/Issue Closing Date. In case Bids are being made on behalf of the Eligible QIB and this Application Form is unsigned, we confirm that we are authorized to submit this Application Form and provide necessary instructions for transfer of the Bid Amount to the Escrow Account, on behalf of the Eligible QIB.
