Sub: Outcome of the Board meeting of Indiabulls Real Estate Limited (“the Company”)

The Board of Directors of the Company (“**Board**”) at its meeting held today, i.e. 17th April, 2017 (which commenced at 8:00 am and concluded at 8:55 am), *inter alia*, considered the possibility of streamlining the existing ‘residential’, ‘commercial’ and ‘leasing’ businesses of the Company by segregating the ‘commercial & leasing’ business segment carried on by itself and/or through its SPVs and vesting the same into ‘Indiabulls Commercial Assets Limited’ and restructuring/ reorganizing the businesses of the Company by either (i) restructuring the businesses by way of placing ‘Indiabulls Commercial Assets Limited’ as a separate holding company under the Company to hold the assets and investments relating to the ‘commercial and leasing’ business segment and to undertake the business and operations of ‘commercial and leasing’ business segment of the Company and/or explore opportunities to bring in strategic investments; or (ii) by reorganizing the existing businesses by way of a demerger of the Company, on a going concern basis, of the undertakings, business, activities and operations pertaining to its commercial and leasing business segment. The object of the same is, to, *inter alia*, bring greater focus on each of the said business segments of the Company.

The ‘commercial & leasing’ business vertical to be created under Indiabulls Commercial Assets Limited as a separate holding company under the Company in case of a restructuring, or under Indiabulls Commercial Assets Limited as a resultant new entity which will seek listing of its shares in case of a reorganisation by way of demerger of the Company, as the case may be, will undertake the commercial and leasing business and would be primarily focussed on annuity business through rental income of existing portfolio, under-development projects and future projects, while the residential business vertical of the Company (IBREL) would be primarily focussed on earning profits and return on equity from the business of selling the properties that are developed, under development and from future projects. A brief presentation on the existing businesses and the expected proposed restructuring/ reorganisation is enclosed herewith.

In relation to the above, the Board has constituted a Restructuring Committee, comprising some of its directors and officers to consider, examine and evaluate the feasibility of and options to implement the aforementioned restructuring or reorganization of the businesses of the Company and its SPVs, to take all necessary steps in relation thereto, and prepare and present a draft scheme/ proposal and related documents to be placed before the Board for its approval at a later date.

It is clarified no scheme of arrangement or other proposal is currently pending before the Board for its approval. The Board will make its decision in due course regarding the restructuring/ reorganisation exercise upon receiving the recommendations of the Restructuring Committee and obtaining the required professional advice, and the Company will make further announcements, in compliance of SEBI (Listing Obligations and Disclosure Requirements) Regulations, when the appropriate decisions are made. The above proposed restructuring/ reorganisation is also subject to all necessary contractual, legal and regulatory approvals, as may be required.

Blu project in Worli is scheduled for completion in the current fiscal. Pending construction costs in Blu project are Rs. 612 crores. The pending collections and value of unsold area in Blu project is Rs. 3,341 crores. The net surplus of Rs. 2,729 crores accruing from Blu project will reduce the net debt of IBREL (post restructuring) to less than Rs. 2,000 crores in next 12-18 months. Going forward, IBREL will then maintain a net debt position of not exceeding Rs. 2,000 crores.

The other 16 ongoing projects will contribute profits, and net surplus as they get completed.

As main strategy, IBREL (post restructuring) will focus on growth of business through JV developments with land owners without incurring any significant upfront land acquisition costs. This model of growth along with net debt capped at Rs. 2,000 crores will allow IBREL (post restructuring) to have superior earnings and higher ROE from the development business going forward.
