IT, METALS INDICES SUPPORT THE RALLY

US data cheers markets

Sensex ends at 61,795 riding on global cues

FE BUREAU
Mumbai, November 11

INDIAN EQUITIES SURGED to a fresh 52-week high on Friday amid positive global cues and a weaker dollar as US consumer prices cooled fuelling hopes that the Federal Reserve would slow the pace of interest rate hikes.

The BSE Sensex closed 1,181.34 (1.95%) points higher at 61,795, its biggest gains since October 4, 2022. The Nifty 50 settled at 18,349, posting a gain of 321.50 points (1.78%). The Nifty Bank index ended at a record high of 42,187.

IT, metals and realty indices rose the most while auto, power and FMCG indices fell. Broad market indices underperformed the Nifty, rising 0.15-0.33% although the advance-decline ratio came in positive at 1.27:1. Friday's gains were led by HDFC twins, which gained more than 5% each, and IT majors such as Infosys (4.5%), Tech Mahindra (3.6%), HCL Tech (3.5%) and TCS (3.4%) aiding the rally. In the US, CPI inflation at 7.7% for the year-ended October was lower than the figure of 8.2% last month and market expectation of 7.9%.

Narrow rally spells uncertainty

JOYDEEP GHOSH
Mumbai, November 11

THE BSE SENSEX and NSE Nifty might have risen by almost 2% on Friday but the broader market did not show the same enthusiasm. Both BSE midcap and BSE smallcap indices underperformed their benchmark peers and ended with nominal gains. The BSE midcap index rose 37.22 points (0.15%) to close at 25,465.20 while the BSE smallcap gained 95.58 points (0.33%) to close at 28,985.06.

Experts believe that such concentrated rallies happen when the market is uncertain about the future. So, they go by the positive, or on bad days, the negative news of the day. For Indian markets, the lower-than-expected US inflation numbers were the trigger, but not convincing enough for a broad-based rally.

"Normally few shares lead the rally during uncertain times. For a broad-based rally, one requires certainty. While the US inflation has come below expectations, markets will need more data to believe that it is a trend," said Nilesh Shah, MD, Kotak Mutual Fund.

THE RUPEE ON Friday gained 98 paise against the dollar to close at 80.82, a level last seen on September 21, after the lower-than-expected US inflation data for October raised hopes that the Federal Reserve's pace of interest rate hikes will slow down, reports **fe Bureau** in **New Delhi**. In intra-day trade, the Indian currency jumped 1.49%, its biggest gains since December 18, 2018, and closed 1.21% higher, posting the maximum gain since March 26, 2020. LIFE INSURANCE CORPORATION of India, the country's largest insurance company, reported a standalone net profit of ₹15,952 crore in Q2FY23 – an 11-fold rise from its net profit of ₹1,434 crore in the corresponding quarter of the last fiscal year.

The sharp rise in net profits was aided by the change in the accounting policy of the insurer in which it transferred an amount of ₹14,271.80 crore from non-participating policyholders' accounts to shareholders' accounts. Additionally, it has also had a substantial other income of ₹6,795 crore.

"In accordance with the Irdai letter dated November 10, 2022 and subsequent approval by the board of directors, the corporation has changed its accounting policy and has transferred an amount of ₹14,271.80 crore (net of tax) pertaining to the accretion on the available solvency margin from non-par to shareholder's account due to which the profit for the quarter and half year ended September 30, 2022 has increased to that extent," the insurance company said.

Sept IIP grows 3.1%; recovery uneven

FE BUREAU
New Delhi, November 11

INDUSTRIAL OUTPUT GREW 3.1% in September from a year ago, compared with a 0.7% contraction in the previous month, the latest in a series of high-frequency indicators that showed an uptick of late.

But the recovery was far from being broad-based, as manufacturing rose at a modest rate of 1.8%, even though mining and electricity output grew by 4.6% and 11.6%, respectively, in September.

Similarly, while capital, primary and infrastructure goods segments grew in the range of 7.4% to 10.3% in September, aided by the government's capex drive, consumer goods output continued to shrink and intermediate goods rose at a slower pace than the previous month.

While a contraction in consumer durable deepened in September to 4.5% from 2.5% in the previous month, that in non-durables slightly improved but still remained to the tune of 7.1%, against 9.5% in the previous month. This suggests a credible and broad-based industrial recovery is yet to take roots.

Some analysts expect the index of industrial production (IIP) to record low single-digit growth in October, citing fewer working days in the Diwali month and the damaging impact of unseasonal rains on mining activity and power supply.

What could worry policy-makers is the tepid growth in labour-intensive and export-sensitive manufacturing sectors, such as textiles, apparels and leather and related products in recent months.

India out of currency monitoring list of US

FE BUREAU
New Delhi, November 11

ON A DAY when US treasury secretary Janet Yellen is on her maiden trip to India, Washington has removed New Delhi from its "currency monitoring list".

In its biannual report to the Congress, the US department of treasury said the countries which have been removed from the list have met one out of three criteria for two consecutive reports. It also removed Italy, Mexico, Thailand and Vietnam from the monitoring list.

India was removed by the US from the currency manipulator watchlist in 2019 but it was again put in the list in December 2020. The watch list typically includes the countries that, the US suspects, are intervening in their foreign exchange markets to gain an unfair trade advantage.

In 2021, the treasury department had, once again, put India on the "monitoring list", along with 10 other economies, including Singapore, Thailand and Mexico. It had stated that the currency practices of these nations required close attention.

India has often criticised the US' move, stating it's devoid of logic and that the country has never been a currency manipulator. India needs to limit foreign exchange intervention to "circumstances of disorderly market conditions, and refrain from excessive reserve accumulation," the Treasury's report had said in 2021, citing greater purchases of dollars by the RBI on account of capital flows.

The US treasury usually puts a trading partner on its watchlist if that country has intervened in the currency market by higher levels than 2% of its GDP over a year, and had a current account surplus above a stipulated level. Its net purchases of foreign currency, too, also need to exceed 2% of GDP over one year.

FAVOURABLE ORDER

- India was removed by the US from the list in 2019 but it was included in December 2020
- Countries that have been removed from the list have met one out of three criteria

SUCCESSION STRUGGLE OVER ₹14-BILLION BUSINESS EMPIRE

Hinduja brothers call truce on bitter family feud, finally

JONATHAN BROWNING
November 11

THE BILLIONAIRE HINDUJA brothers called a truce on a bitter power struggle that threatened the future of the business empire of the UK's wealthiest family.

The brothers agreed to halt reams of litigation across Europe, ending, for now, a feud that was tearing the once tightly knit British-Indian group apart. With accusations of everything from a funding squeeze to misappropriated cash, the fight had drawn excoriating criticism from a London judge, especially over the care of the family patriarch, Srichand Hinduja — throwing open the possibility of a breakup of the ownership structures behind the century-old conglomerate.

SP, as the 86-year-old is known, suffers from dementia, and the court was told that the family's dispute went so deep that he was days away from being transferred to a government-run National Health Service (NHS) hospital.

At the heart of the battle was a pact signed by the four brothers in 2014 that "everything belongs to everyone and nothing belongs to anyone." The three other brothers had claimed that the letter governed the succession planning for the century-old conglomerate, a declaration that was challenged by Srichand's descendants, who claimed that his branch of the family was being sidelined in the group.

That battle ended after lawyers for Gopichand Hinduja said in June that the family had agreed to effectively tear up the arrangement.

With the end of the pact, however, the stage may now be set for the break up of one of the biggest conglomerates in the world. With dozens of companies — including six publicly traded entities in India — the Hinduja Group employs more than 150,000 people in 38 countries in truck-making, banking, chemicals, power, media and health care. Its firms include Ashok Leyland, Quaker Chemical and IndusInd Bank.

With a collective net worth of about $14 billion that would make the family the wealthiest in the UK according to the Bloomberg Billionaires Index, the four brothers had always presented a united front, with little to suggest that not all was well in the House of Hinduja.

But the family has been revealed to be deeply divided after court proceedings spilled into the open the internecine spat that pit brother Srichand's side of the family, led by his daughter Vinoo, against the rest.

SITHARAMAN REITERATES RESOLVE TO CONTINUE REFORMS

India, US wary of inflation caused by external factors

Discuss steps to curb money laundering, financing of terrorism

FE BUREAU
New Delhi, November 11

FINANCE MINISTER NIRMALA Sitharaman and US treasury secretary Janet Yellen on Friday voiced concern over the protracted bout of elevated inflation caused by external factors.

Participating in a roundtable interaction on India-US Business & Economic Opportunities with top business leaders and economists from both the countries, Sitharaman, who will be presenting the Budget for FY24 on February 1, 2023, asserted that the government will continue to pursue credible reforms and further open up the economy to realise high growth rates on a sustained basis.

Inflation in India, the minister said, is still in a "manageable range" but high global oil prices pose a challenge, as the country imports about 85% of its crude oil requirement. The government and the central bank have launched joint efforts to rein in price pressure in the economy, the minister added.

Retail inflation hit a five-month high of 7.41% in September, having remained above the upper limit of the Reserve Bank of India's medium-term target of 2-6% for a ninth straight month. However, the US has faced much worse, which had hit a 40-year high, before easing a tad to 7.7% in October.

> This is a time for concrete plans, to have transfer of certain technologies without hesitation to (opt for) joint venture partners so that you can do business without any insecurity.
>
> **NIRMALA SITHARAMAN,** FINANCE MINISTER

Flaying Russia for its war in Ukraine, Yellen, who is on her first visit to India, said, "In part, this inflation reflects the spill-over of Russia's brutal war in Ukraine, which is boosting energy and food prices and for many emerging markets that have found themselves with high debts and high interest rates, the cost of moving higher energy and food costs are the things that have made debt unsustainable for some of them."

Exhorting investments from US firms, Sitharaman said labour costs in India remain competitive vis-à-vis other emerging markets. "So, this is a time for concrete plans, to have transfer of certain technologies without hesitation to (opt for) joint venture partners so that you can do business without any insecurity...," she added.

India, which has pipped the UK as the fifth-largest economy, will emerge as the world's third-largest in the next 10-15 years, she said. According to a joint statement, talks were held between the two countries on the macroeconomic outlook, supply chain resilience, climate finance, multilateral engagement, global debt vulnerabilities, anti-money laundering and combating the financing of terrorism. They also discussed mutual collaboration in sharing of information to tackle offshore tax evasion.

'Need for global regulatory standard to deal with crypto risks'

Yellen said there is a growing need for a high regulatory standard globally to address risks emanating from virtual assets like cryptocurrencies.

"We need a high regulatory standard globally, we need to take steps to reduce the cost of cross-border payments and we are very actively working in the context of financial stability with Financial Action Task Force and multilateral banks like IMF to really address on global basis the risks and some of the benefits from cryptocurrencies," Yellen said.

The secretary's statement assumes importance, as India has been pushing for a global strategy to regulate cryptocurrencies on the ground that these assets defy borders.

India's joining of IPEF crucial

Yellen stated that India's membership in the Indo-Pacific Economic Framework (IPEF) would make supply chains between the Asian country and the US more resilient. India had in September joined three of the four pillars of the IPEF, seen as an initiative to counter China's aggressive policies. However, New Delhi opted out of the sensitive "trade pillar" for now, in the absence of more clarity on the nature of commitments. Earlier in the day, both Sitharaman and Yellen held ninth US-India Economic and Financial Partnership (EFP) here, against the backdrop of global turmoil and New Delhi preparing to assume the G20 presidency from December.

Yellen calls India a trusted ally for 'friendshoring'

FE BUREAU
New Delhi, November 11

US TREASURY SECRETARY Janet Yellen on Friday pushed for a "friendshoring" strategy with India, which aims to align trade and investment within a group of like-minded nations and diversify away from countries that present geopolitical and security risks to the global supply chain. The move is seen as undermining China's dominance in the global supply chain.

Yellen — who is on her maiden, one-day visit to India— also flayed Moscow for what she called the weaponisation of the Russian natural gas supply against Europe.

Speaking at Microsoft Inc's facility in Noida, Yellen stated that the US and India are natural allies who can show the world that democracies can deliver for their citizens even in times of volatility and war.

"For too long, countries around the world have been overly dependent on risky countries or a single source for critical inputs," she said. For the purpose of "friendshoring", or manufacturing and sourcing components and raw materials within a group of allies, "we are proactively deepening economic integration with trusted trading partners like India".

"Our strategy will also create redundancies in our supply chain to mitigate over-concentration risks. And we are also addressing our reliance on manufacturers whose approaches clash with our human rights values," the secretary said. The treasury secretary stressed the plans by the US firm First Solar Inc to build a manufacturing facility in Tamil Nadu and Apple Inc's plans to shift some iPhone manufacturing from China to India.

> For the purpose of friendshoring... we are proactively deepening economic integration with trusted trading partners like India."
>
> **JANET YELLEN, US TREASURY SECRETARY**

"We are also seeing signs that Western firms are diversifying their supply chains beyond China. Technology companies like Amazon and Google are investing in India and Vietnam," she said. "The US will continue to deepen our business and commercial ties with India as we pursue our friendshoring agenda."

In a veiled reference to the Russia-Ukraine war, she said, recent disruptions have contributed to higher prices in both India and the US and sapped economic output.

Moody's cuts India growth forecast for 2022 to 7% on global slowdown

Higher inflation and interest rates to hit economic momentum

FE BUREAU
New Delhi, November 11

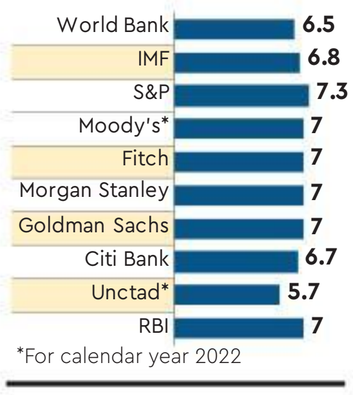
MOODY'S INVESTORS SERVICE on Friday cut India's economic growth projections for the calendar year 2022 to 7% from 7.7% and said the growth could decelerate further for the next calendar year to 4.8% due to higher inflation, high interest rates and slowing global growth.

In September, the global rating agency had also lowered India's growth estimates for 2022 to 7.7% from 8.8% projected in May.

"We expect growth to decelerate to 4.8% in 2023 and then to rise to around 6.4% in 2024," Moody's said in its Global Macro Outlook 2023-24. The Indian economy grew by 8.5% per cent in 2021.

The Reserve Bank of India has projected the Indian economy to expand by 7% in the financial year 2022-23 (FY23). Earlier, S&P Global Ratings had revised its growth forecast to 7.3% for FY23 from 8.7% while Fitch had slashed its projection to 7% from the previous estimate of 7.8%. The World Bank had cut India's growth projection by 100 bps to 6.5% while the IMF has trimmed it to 6.8% to 7.4% for FY23. The Asian Development Bank too has cut its projection to 7%, from 7.5% earlier.

FORECASTS FOR INDIA
(% growth, y-o-y, FY23)



*For calendar year 2022

The weakening of the rupee and high oil prices continue to exert upward pressures on inflation, which has remained above the Reserve Bank of India's (RBI) 4% -/+ 2% target inflation range for much of this year. Annual headline CPI inflation increased to 7.5% in September after dipping below 7.0% in July. Wholesale price inflation, however, has declined for four straight months, from a peak of 16.6% in May to 10.7% in September.

From May to September, the RBI raised the repo rate a cumulative 190 bps to 5.9% to contain inflation risks.

"We expect the RBI to raise the repo rate by another 50 bps or so as part of its objective to anchor inflation expectations and support the exchange rate," Moody's said. "Eventually, the RBI will likely shift from inflation management to growth considerations, provided that the rate increases have the desired effect of taming inflationary pressures." Moody's noted that underlying growth dynamics are fundamentally strong, boosted by a rebound in services activity. Government capital expenditure and manufacturing capacity utilization have also improved. September exports are down from the peak in March, but they are still around 30% above the pre-pandemic level. Non-food credit growth shows solid momentum.

Net direct tax mop-up rises despite surge in refunds

FE BUREAU
New Delhi, November 11

THE CENTRE'S NET direct tax collections (post-refunds) grew by a robust 25.71% on year till November 10 of the current financial year even though refunds rose sharply by 61% during the period.

Both personal income tax (PIT) and corporate income tax (CIT) performed much better than anticipated, thanks to higher compliance and a favourable base effect.

"Direct tax collection, net of refunds, stands at ₹8.71 trillion which is 25.71 % higher than the net collections for the corresponding period of last year. This collection is 61.31% of the total Budget Estimates of Direct Taxes for FY23," the finance ministry said.

Collections at ₹8.71 trillion or 61.3% of the annual target

The gross direct tax collections during the period stood at ₹10.54 trillion which is 30.69% higher than the gross collections for the corresponding period of last year.

"After adjustment of refunds, the net growth in corporate income tax collections is 24.51% and that in personal income tax (PIT) collections is 28.06% (PIT only) 27% (PIT including securities transaction tax)."

The Centre's gross direct tax collections for FY23BE is ₹14.2 trillion (almost the same as was the actual collection in FY22), but the collections are likely to be about ₹3.8 trillion more than the BE, according to an FE analysis.

Post devolution to states, direct taxes could fetch net additional tax receipts of about ₹2.5 trillion to the Centre's kitty.

Refunds amounting to ₹1.83 trillion have been issued from April 1, 2022, to November 10, 2022, which are 61.07% higher than refunds issued during the same period in the preceding year, the ministry said.

Sept IIP grows 3.1%; recovery uneven

A spur in festive demand in the build-up to Diwali was mainly limited to manufacturing of beverages, motor vehicles and other transport equipment, which is likely to continue in October as well, according to India Ratings principal economist Sunil Kumar Sinha.

Nevertheless, there are reasons to cheer about. The IIP in September grew a healthy 8.1% from the pre-pandemic level (the same month in 2019), with an increase in all use-based categories barring consumer non-durables. The IIP is the latest in a number of indicators, including manufacturing PMI, non-food credit, core infrastructure sector output, e-way bills and goods and services tax collection, that showed improved economic momentum in September. However, stiff challenges still persist, as the geopolitical tension and impact of aggressive rate tightening by key central banks pose downside risks to growth, both at home and abroad.

In the first half of this fiscal, the IIP grew 7%, against 23.8% (on a contracted base) a year before.

Though the demand for capital/infrastructure goods would continue to get support from the sustained government capex spending both at the union and state level, the weak recovery in other sectors could cap the overall growth of factory output in the near term, said Sinha. "Going forward, the spell of abnormal rains in October appears to have an impact on coal and electricity sectors," he added. According to available indicators, coal production in October was up only 3.4% and the power generation grew 3.1%.

Icra chief economist Aditi Nayar said the year-on-year growth of most available high frequency indicators eased in October relative to September, owing to the "relatively early onset of the festive season in 2022 vis-à-vis 2021 and the consequent advancement of pre-festive stocking and shift in the holiday calendar".

"We expect the overall IIP growth to ease to sub-2% in October 2022, as a higher number of holidays in October relative to (October) last year, owing to the earlier onset of the festive season and flagging external demand are likely to have constrained the performance of the manufacturing sector in the month," she added..

Double capacity by 2030: RK Singh to NTPC

UNION POWER MINISTER RK Singh on Friday directed NTPC to more than double its capacity by 2030. India's installed power capacity will be at a level of 800 GW by the year 2030, he said at the 48th Raising Day of NTPC here.

"NTPC must contribute at least 25% to 800 GW level," he said.

NTPC's current installed capacity is 70,000 megawatt, including thermal and renewable sources.

NTPC must increase its capacity as the demand for power will continue to grow in India and the company must eye for a larger share in the market, he said.

On the India's power sector, he said, the country is doing well in the energy space.

Various countries are facing energy crisis. The cost of power there have grown by 6 times. However, in India there was no such issue. "We have met the demand in the country. There was not even load shedding in India. We did not see prices going up here," the minister said.

NTPC, under the ministry of power, is the country's largest power producing company.

VOTING FOR THE 14TH ASSEMBLY TODAY PRASANTA SAHU

Himachal faces fresh economic challenges

Despite its difficult terrain, Himachal Pradesh ranks 4th among Indian states by per capita income (thanks partly to its low population) and second and 4th respectively in Niti Aayog's sustainable development and education indices. The state's indebtedness is near the median of Indian states. While its own tax revenue (OTR) is relatively low, for a state with such geographical constraints, it isn't dismal either. The 100% excise relief that was available between 2003-2017 has enabled the state to attract large-scale industrial investments, particularly in new pharmaceutical units in the Baddi-Barotiwala-Nalagarh belt. The state faces the challenge of retaining these units as the Centre's 58% C-GST reimbursement will also be phased out in three-four years. Himachal Pradesh, which has the potential to contribute more than a quarter of the country's hydro power output, still need to scale up capacities in the sector. Today's voting is to elect the state's 14th Assembly. The new government will have to ensure that the hilly state's recent strides aren't disrupted and the social development momentum is maintained.

JUDGES DECIDE IN A 2:1 MAJORITY

SC dismisses Sebi's review in RIL matter

Sebi was earlier told to share certain documents with RIL

INDU BHAN
New Delhi, November11

THE SUPREME COURT has in a 2:1 majority dismissed the Sebi's petition seeking review of its earlier judgment that had directed the market regulator to share certain documents which Reliance Industries claims will exonerate it and its promoters from criminal prosecution initiated in a case related to the alleged irregularities in acquisition of its own shares between 1994 and 2000.

The SC order though passed on October 19 was uploaded late on Friday.

Justices JK Maheshwari and Hima Kohli has held that "no grounds are made out by Sebi meriting issuance of notice or for reviewing the judgment...we had expressed our inability to agree for an open court hearing in the present matter and by two separate orders, both passed September 30, the said application for open court hearing was dismissed with the observation that no plausible grounds existed to entertain the review petition. However, former Chief Justice UU Lalit had dissented and issued notice to RIL as to why the August 5 judgment should not be recalled. "Instead of remanding the matter for adjudication on the application moved by Sebi seeking disclosure as claimed, this Court examined the issue itself to ensure "that the adjudication is not delayed unnecessarily, ad infinitum". In the process, Sebi was denied an opportunity of having the matter decided at the stage of High Court and thereafter to challenge the decision before this Court, if the necessity was to arise," Justice Lalit has stated in his dissenting order.

It may be noted that another apex court Bench led by Justice MR Shah earlier this week issued contempt notice to the market regulator on RIL's plea alleging non-compliance of the SC's August 5 order that directed it to provide the Mukesh Ambani company certain documents.

Sebi has been opposing RIL's plea and had rejected its request for the "privileged" documents on the grounds that under the Sebi (Settlement Proceedings) Regulations, the accused company had no right to seek information from it.

Parliament's Winter Session likely in Dec first week in old building

THE WINTER SESSION of Parliament is likely to commence in the first week of December in the old building and conclude by the end of the month, sources said on Friday.

There is a proposal to hold the session between December 7 and 29 and a final decision regarding the dates will be taken by the Cabinet Committee on Parliamentary Affairs, they said.

While the session is likely to take place in the old building, the government is also contemplating a symbolic soft inauguration of the new building, being built at an estimated cost of over ₹1,200 crore, by the end of this month or early December, the sources said.

The session usually starts from the third week of November with around 20 sittings. But there have been occasions when the session was held in December, during 2017 and 2018.

This time, it is likely that the session will be begin in the first week of December, the sources said.

Elections to the Gujarat Assembly will be held on December 1 and 5, while counting for both Gujarat and Himachal Pradesh will be held on December 8.

BEATING ESTIMATES

M&M Q2 profit jumps 46%; posts highest-ever revenue

Average selling prices, tighter cost control boost revenues

FE BUREAU
Mumbai, November 11

MAHINDRA & MAHINDRA (M&M) on Friday reported a standalone net profit of ₹2,090 crore for the September quarter, a 46% growth year on year. The profits were boosted by the highest-ever quarterly revenue on the back of improved production.

The total standalone revenue from operations of the tractor and SUV specialist grew by 57% y-o-y to ₹20,839 crore, boosted by better average selling prices, tighter control on costs and finer cost negotiations with parts suppliers.

M&M's standalone net profit was slightly above the Bloomberg estimate of ₹2,042 crore, but it comfortably beat the revenue estimate of ₹20,424 crore.

Rajesh Jejurikar, executive director, M&M, said: "We ended the introductory pricing on the XUV700 and the Thar and those two are free, but the new Scorpio still continues. Structured cost reduction programme, operating leverage, improved cost structure, material cost saving through better negotiations and innovations have helped us on the cost front."

The Ebitda margin before exceptional items stood at a four-quarter high of 12% during the reporting quarter. Ebitda at ₹2,496 crore was a growth of 50%.

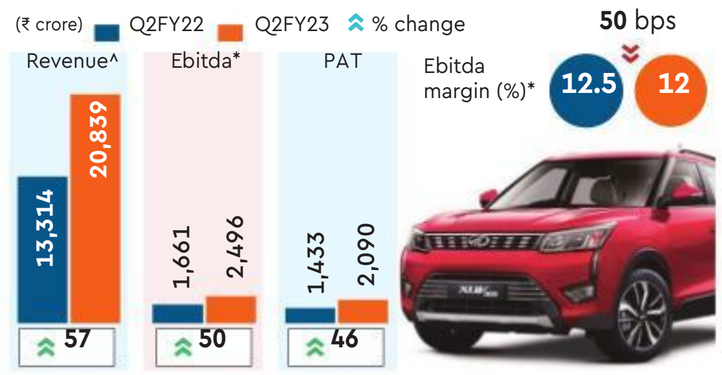
Exceptional items of ₹247.86 crore for the quarter represent impairment provision for long-term investments and gain on sale of certain investments.

M&M's stock closed 0.83% lower at ₹1,287.15 on the BSE compared with its Thursday's close.

Volumes in the automotive segment comprising SUV, electric vehicles and commercial vehicles during the reporting quarter grew 75% to 174,098 units, while tractor volumes grew by 5% to 92,590 units.

Despite price hikes, M&M claimed that its order book remains strong with a total of 260,000 open bookings as on November 1 across five SUVs, including 130,000 bookings for the Scorpio N and 80,000 bookings for the XUV700.

REPORT CARD



^Revenue from operations; *Before exceptional items Source: M&M

"The rate of new orders is way higher than the rate of production we have. We are actually adding to the waiting period with the XUV700 and the Scorpio having a 18-22 months waiting period," Jejurikar added.

The strong upside in demand has led to the company increasing its SUV capacity by a planned 26% to 49,000 units a month from a targeted 39,000 units a month by the end of March 2023. The fully electric XUV400, XUV700 and the Scorpio N will benefit from the planned increase, the company informed.

New capacity for M&M's born electric models which will start getting launched from April 2024 will be additional. "We are looking at a penetration of 20-30% by 2027 in SUVs. Some of the capacity will see an overlap because there will be carry over parts between ICE and EV. In a way we are preparing for 12,000-17,000 a month by 2027 for electric vehicles, including the XUV400," Jejurikar added.

"Whilst M&M is expected to face some volume pressure owing to semiconductor issues over the near term, we believe new products and stronger order book would drive its overall volume and profitability," said Mitul Shah, head of research, Reliance Securities.

SC to govt: Consider lower revenue share from Vedanta's Barmer oil block

INDU BHAN
New Delhi, November 11

THE SUPREME COURT on Friday asked the Centre to reconsider its decision to raise its revenue share from Vedanta's Barmer oil and gas block in Rajasthan by 10%, a move that could help the company raise the output from the once-prolific asset.

As the government recently extended the Vedanta's production sharing contract (PSC) for its Rajasthan block for another 10 years till May 2030, it sought additional 10% profit from the oil block.

Vedanta — formerly Cairn India — had been engaged in a legal battle with the government for about five years over the terms of the extension of the 25-year contract that ran out in May 2020.

Vedanta had told the apex court it was ready to invest ₹15,000 crore to increase production from Barmer oil block, but said an additional 10% profit to the govt would make investments unviable

Vedanta had told the apex court that it was ready to invest ₹15,000 crore to increase the production from the Barmer oil block, but said an additional 10% profit to the government would make the investments unviable. "The levy of additional 10% makes the project unviable," it said.

"The government has increased its (profit) share which it can't do as it will amount to altering the contract. We have been paying this 10% in protest since May 2018," Vedanta's senior counsel Arvind P Datar told a bench led by Justice Sanjay K Kaul. He added that 50% of the revenue goes towards royalty, VAT, etc.

Additional Solicitor General Sanjay Jain said the "endeavour (for the government) is to get maximum revenue share and profits." He said it's the policy decision and applies to all and not just Vedanta. "Relooking into this policy decision requires discussions at the highest level," he added.

The judges asked the Union ministry of petroleum & natural gas (MoPNG) to look into the "commercial aspect" and file an affidavit in this regard within four weeks. The top court also noted Vedanta's arguments that if the production capacity is doubled, "it would generate more revenue and foreign exchange for it".

The SC posted the matter for direction on January 4.

The Anil Agarwal-led Vedanta had moved the Supreme Court against the Delhi High Court's March order that permitted the government to seek a higher share in the profit from the company's Rajasthan field upon renewal of PSC. The HC had held that there cannot be an extension of the PSC unconditionally on the same terms and conditions which were prevailing 25 years ago, i.e. on May 15, 1995, the effective date.

"The government of India (GoI) accorded its approval for extension of the PSC under the Pre-NELP Extension Policy, as per notification dated April 07, 2017, for RJ Block by a period of 10 years with effect from May 15, 2020 vide its letter dated October 26, 2018, subject to fulfilment of certain conditions," Vedanta recently said in a regulatory filing.

Can take back Peugeot equity if situation improves: Anish Shah

SWARAJ BAGGONKAR
Mumbai, November 11

MAHINDRA & MAHINDRA (M&M) sees a business upside in the troubled two-wheeler maker Peugeot Motocycles (PMTC) which has not only made it retain 20% voting rights in the French company but also explore regaining the equity it would offload to Germany's Mutares SE & Co.

On Thursday, M&M announced that Mutares, a turnaround specialist, has submitted an irrevocable binding offer to acquire 50% equity and a controlling stake of 80% in PMTC. The deal is widely viewed as a desperate attempt to keep the loss-making PMTC afloat. M&M has been reviewing its position on its PMTC ownership since the past few quarters.

Asked if M&M could explore getting back the ownership of PMTC if its financial health improves, Anish Shah, MD and CEO, M&M, told *FE*: "We always felt that the business (PMTC) has the potential but at the same time it is a function of 'can we really execute on the ground there and what are the actions required?'. So, if the business can live up to its full potential, then yes, we can regain a good part of that, but it is one step at a time at this point."

Through the proposed deal M&M will hold a 50% shareholding through 'Preferred Shares A' and 19.99% of voting rights, while the balance 50% of shareholding and 80.01% of voting rights will be held by Purple Holding, a Mutares company.

"We feel the partner, who has come in, has tremendous set of skills to be able to turn the business around and move forward. We like the Peugeot brand, we feel the business could actually do a lot more

ANISH SHAH, MD & CEO, M&M

"The 20% stake will be an investment for us and not a controlling stake. We feel the partner, who has come in, has tremendous set of skills to be able to take the business, turn it around and move forward. We like the Peugeot brand, we feel that the business could actually do a lot more," Shah added.

During the earlier quarters M&M had put PMTC under Category A because it felt PMTC would get on the path to 18% return on equity in a reasonable time frame. But Covid-19 hurt the company's chances of turning around the PMTC operations. The milestones M&M had outlined for Category A companies were not met by PMTC and so it went under a review process.

"As we did that review, we felt that we needed someone who can actually implement actions on the ground which also allows us to conserve our efforts and energies towards business that we are growing here in India and globally," Shah added.

Bought in early 2015 by a subsidiary of M&M, Peugeot Motocycles has not generated profits even once in any of the financial years since the takeover. In July 2018, a 'rightsizing plan' was initiated at PMTC providing for the departure of 102 employees. The cumulative loss at PMTC since its takeover by M&M stands at more than ₹1,800 crore.

Adani Power back in black with ₹696-cr profit in Q2

ADANI POWER ON Friday posted a consolidated net profit of ₹696 crore for the September quarter, mainly due to higher one-time income. In the year-ago period, it incurred a net loss of ₹231 crore, a company statement said.

Total income was 52% higher at ₹8,446 crore against ₹5,572 crore in the September quarter of FY22.

The increase in revenue was aided by improved tariffs under long-term power purchase agreements on account of higher prices of imported coal as well as improved merchant/short-term tariffs due to more demand.

Revenue in the quarter includes one-time income of ₹912 crore, primarily in the form of higher other income on account of late payment surcharge. In comparison, income in the second quarter of 2021-22 included a one-time revenue recognition of ₹141 crore, it stated.

"Even as the world grapples with the fallout of geopolitical instability in the energy sector, India's natural resources such as solar energy, wind, and coal have helped protect its economy despite reliance on imports of fossil fuels, said Anil Sardana, managing director, Adani Power.

Foxconn to recruit 53,000 workers at TN unit in 2 years

SUDARSHAN VARADHAN & YIMOU LEE
New Delhi/Taipei, November 11

APPLE SUPPLIER FOXCONN plans to quadruple the workforce at its iPhone factory in India over two years, two government officials with knowledge of the matter said, pointing to a production adjustment as it faces disruptions in China.

Foxconn has grabbed headlines in recent weeks, with tight virus restrictions at its Zhengzhou plant, the world's largest iPhone factory, disturbing production and fuelling concerns over the impact of China's virus policy on global supply chains.

The disruptions prompted Apple to lower its forecast for shipments of the premium iPhone 14 models this week, dampening its sales outlook for the busy year-end holiday season.

Taiwan-based Foxconn now plans to boost the workforce at its plant in south India to 70,000 by adding 53,000 more workers over the next two years, said the sources, who declined to be named as the discussions are private.

While the size of the plant in Tamil Nadu is dwarfed by Foxconn's Zhengzhou plant, which employs 200,000 workers, it is central to Apple's efforts to shift production away from China. Foxconn, formally called Hon Hai Precision Industry, opened the India plant in 2019 and has been ramping up production. It began producing iPhone 14 this year.

Foxconn's interest in expanding the facility is known, but the scale of the planned expansion and timelines have previously not been reported.

Both Foxconn and Apple declined to comment.

Foxconn chairman Liu Young-way said on an earnings call on Thursday the company would adjust its production capacity and output so there was no impact from further potential disruptions on supplies for the Christmas and Lunar New Year holidays.

Foxconn has shared its plans with Tamil Nadu officials about accelerating its hiring efforts at the Indian plant due to disruptions in China, said the first government source. Beyond iPhones, the plant also manufactures products for other global tech firms, but the new hiring push is mainly driven by its need to meet growing iPhone demand, the person added.

A person in Taiwan with knowledge of the matter said Foxconn was expanding its operations in India to increase its capacity for basic models and to meet Indian demand. "We are gradually increasing our production scale there," the person said, declining to give details on its hiring plans in India.

The second government source in India, a senior official in the Tamil Nadu administration, said the state government was working with Foxconn in "finalising" the expansion.

Last year, Foxconn's Tamil Nadu plant was at the centre of a mass food-poisoning incident which sparked employee protests and threw light on the living conditions of the workers in hostels near the factory.

Affordable rates add zing to energy drinks market

SHUBHRA TANDON
New Delhi, November 11

THE INTRODUCTION OF affordable price points in the energy drinks market with Varun Beverages' Sting is helping broaden the consumer base for a segment so far limited to consumers with deep pockets.

The growing consumption of energy drinks by price-sensitive college goers, gamers and youngsters just starting to work is now pushing premium foreign brands to take notice of this segment and plan products to compete for this consumer base. For comparison, a Red Bull or a Monster energy drink is priced at about ₹110-₹125 for a 250 ml to 350 ml can, while Sting is priced at about ₹35 for the same size can.

"While the overall energy drinks category is growing by 50%, the affordable segment would be growing at 140%. It is a ₹100 product versus a ₹20 product," Muffaddel Janjira, country head (India and South Asia), Monster Energy, told *FE*.

According to Janjira, the premium segment of the energy drinks market held around 95% share in terms of value four years ago, but now the premium to affordable share is a 50-50 mix in terms of value.

Given the growth in the affordable segment, premium energy drink makers are looking to grab a share of the market. For instance, Monster, which has been present in India with its premium energy drink offering by the same name since the early 2000s, has launched a new product called Predator priced at ₹50 this year in India. Janjira said the firm will be launching another drink in the ₹25-35 category soon. "We have answers to all the three price points in the country — the premium segment with Monster, the mid-segment with the Predator can, and we are working on launching a drink below that segment where Sting and others are playing," he said.

Even as a country, Janjira said, India sits among the top five countries in terms of global business growth agenda.

According to industry players, the opportunity to grow in the Indian market is large compared with other developing nations. In China, energy drink segment sales are said to be around 800 million cases, while in Vietnam, it's understood to be around 170-200 million cases. According to a Nielsen estimate, India is likely to close the year with 30-35 million cases in 2022.

Some estimates suggest the market size of energy drinks in India is estimated at ₹2,400 crore, growing at a CAGR of 45-50%. At the same pace, market players estimate that the category should be touching a minimum of ₹10,000 crore by 2027.

In its recently reported September quarter earnings, Varun Beverages said the India business has delivered an organic volume growth of 22%, led by a favourable demand environment and a strong performance of its energy drink Sting.

Ravi Jaipuria, chairman, Varun Beverages, told analysts over an earnings call that there has been a big jump in the segment. "I think energy drink is a large market and we will always have a first-mover advantage which we are seeing. Our product is very good and it has been liked by the market, so we just have to keep on expanding our distribution. I am sure we will grow and I am sure the competition will also do well," he said.

Analysts at Jefferies said: "Sting has done well, growing 31% y-o-y. Its contribution improved to 12% of the company's India volumes in September quarter and 9.5% in the first nine months of 2022. It also has 65% higher realisation which helped the overall company realisation at ₹167 per case by around ₹8 per case. Sting has distribution in more than two million outlets."

According to Janjira, even though the carbonated soft drinks (CSD) culture has been in India since the early 90s, energy drinks were late entrants. Red Bull was the first to enter the country in 2002 with an import model, and given the premium nature of the category, it took time to grow.

"CSD growth in India is ranging around 10-15% y-o-y, they have a big base and 35-40 years of history in the country. They have a superb route to the market with their distribution strength. Energy drinks entered the market in 2002 with an import model. We are anyway 12 years late. In early 2000s, the CSD growth was at its peak. Now that growth is coming into the energy drinks segment," Janjira added.

GROWING MARKET

- Red Bull or Monster energy drink priced at **₹110-₹125 for 250-350 ml** can; Varun Beverages' Sting is priced at about **₹35**
- While the energy drinks category is growing by **50%,** the affordable segment is expected to be growing at **140%**

- According to a Nielsen estimate, India is likely to close the year with **30-35 million energy drinks cases in 2022**
- The premium to affordable share in the segment is now a **50-50 mix** in terms of value

Pipavav Port plans to develop ₹800-cr jetty

NAYAN DAVE
Ahmedabad, November 11

APM TERMINAL PIPAVAV (Gujarat Pipavav Port), the country's first private sector port, is planning to develop a jetty to handle very large container ships (VLCS) at an estimated cost of ₹800 crore.

Jakob Friis Sorensen, MD, Gujarat Pipavav Port (GPPL) told *FE* that the board of GPPL has approved development of the VLCS jetty to handle more cargo at the Pipavav port. The decision has been taken in view of increasing demand for LPG in the coming days in India, he said. The company wants to add another jetty as early as possible, he added.

The 30-year lease of the Pipavav port is due to expire in September 2028. At present, Pipavav port has five jetties that include two container jetties, two bulk/break cargo jetties and one liquid cargo jetty.

GPPL is also in the process of doubling its warehousing capacity to 200,000 square metre in a span of a year, Sorensen said, adding: "For the development of additional warehousing capacity near Pipavav port, we have entered into a strategic partnership with Contrans Logistics."

The additional warehousing capacity will be part of the upcoming multi modal logistic park to be developed in the vicinity of Pipavav port.

NEIGHBOURLY GRIPES

Union minister for external affairs S Jaishankar

"The people of India want good neighbourly relations with Pakistan, as does the government of India. However, good neighbours do not carry out or condone terrorist activities

'Beware of good intents'

The guidelines on TV channels are yet another example of govt meddling in the affairs of private entities

WILLIAM TYNDALE, A 16th-century Protestant scholar in England, wrote in one of his many widely-circulated texts, "Beware of good intents." The information & broadcasting ministry's guidelines for uplinking and downlinking of satellite television channels in India, 2022, directs channels to air at least 30 minutes of content that is of "national importance and social relevance". The themes include, and are thus not likely limited to, education and spread of literacy, agriculture and rural development, health and family welfare, science and technology, welfare of women, welfare of the weaker sections of society, protection of environment and cultural heritage, and national integration. No one would debate the importance of these themes; indeed, channels should be suo motu airing programming on these. However, the government making such content mandatory for channels (save foreign ones), saying that "the airwaves/frequencies are public property and need to be used in the best interest of the society", puts broadcasting regulation on slippery terrain and is against market-economy principles.

Channels run by the state-owned broadcaster Prasar Bharati have aired content on such themes since decades—from *Krishi Darshan* to the many songs on national integration. But, since satellite television came to the Indian market, there has been a mammoth expansion of the breadth and depth of content. The Indian market has also responded well to it, even as Prasar Bharati's offerings have ceded significant market share. The satellite television boom in India has also ensured that TV remains the preferred medium despite the tectonic shift brought about by cheap data, internet-delivered content and handheld devices. A Boston Consulting Group report from last year shows television still corners the largest share of the Indian media and entertainment market, at an estimated 33-35%, even though this share has somewhat shrunk in the last decade or so. Despite the competition from digital video, TV managed to grow its share in M&E consumption per day, from 3.6 hours in 2018 to 4.3-4.5 hours in 2021. The pool of television subscribers in the country (excluding free DTH) has also grown, from 165-170 million to 175-180 million.

Against such a backdrop, any command-economy measure must be avoided. More so, since the guidelines say "the government may, from time to time, issue general advisory to the channels for telecast of content in national interest, and the channel shall comply with the same." Keeping the ambit of national interest content, with respect to theme and mandatory air-time, so wide only stokes apprehensions of a growing say of the government in the content of private-channels. That apart, the digital video space, including private broadcasters' services on OTT apps, doesn't seem to be subject to such diktats. Given how digital video competes with TV, the government should not queer the playing field against either player. Bear in mind, digital video continues to enjoy regulation that has a much lighter touch.

Some have argued that, in the current milieu, where TV is playing a role in increasing polarisation and delegitimisation of alternative opinions and view-points, mandatory national-interest content is perhaps desirable in the larger picture. However, it is hard to see how such content resolves the problem of toxic television. Indeed, the problem is better addressed through the regulatory mechanism putting up clear definitions of problematic content and concomitant penalties/regulatory action.

COP26 CONCLUDED A year ago in Glasgow, Scotland. COP27, or the 27th United Nations Climate Change Conference in Sharm El Sheikh, Egypt, is now attracting our attention. Over 90 heads of states and representatives from 190 nations are attending this event. In the meanwhile, the war in Ukraine has altered long-held assumptions. German factories are shutting down due to unbearable energy costs. The winter has been mild in Europe, so far.

The focus at COP27 has rightly shifted from promises to action, from pledges to implementation. Discussions are focussed on how to replicate success stories and how to scale success in a quick, time-bound manner. There is a renewed emphasis on partnership and collaboration, resulting in action. While there has been great progress in wind and solar as renewable energy sources, there is also a realisation that such sources alone are not entirely adequate. A new global consensus is emerging that nuclear energy is an indispensable component in assembling a climate change solution. The operating lifespans of old nuclear power plants are being extended. New nuclear power plants are being built, for example, in Finland, led by their Green party. Private investments are pouring into 80+ advanced nuclear startups across the world. Scientists and entrepreneurs are working on novel approaches that lead to the creation of affordable and safe nuclear power. One German scientist-entrepreneur, Dr. Bjorn Peters of Dual Fluid, poetically described his nuclear power reactor as "a bottle with no moving parts but a complex inner life." A variety of new approaches, new technologies, and new ecosystems define this second coming of nuclear power. Some startups are focused on making nuclear fuels and reactors investible. Others are focussed on developing technologies that make nuclear power plants insurable. However, the commercial deployment of these advanced nuclear power generators is at least five, if not 10 or 20 years away. There is a great sense of urgency at COP27. How can India help?

The pioneer of nuclear energy in India, Homi Bhabha, famously declared "No energy is as dangerous as no energy" and laid the foundations of India's nuclear programme, almost 70 years ago. He recognised that India had very limited uranium reserves but an abundance of thorium-rich sands. Therefore, he formulated an audacious three-stage program to achieve energy independence. The first stage has resulted in the building of several world-class Pressurised Heavy Water reactors across India. We owe a debt of gratitude to our atomic scientists and engineers for their hard and innovative work in the face of persistent technology denial regimes.

Mixing thorium with low-enriched uranium could be an effective way of addressing both proliferation and waste disposal concerns

Recently, the government of India, in a commendable decision, announced the construction of ten nuclear power plants in fleet mode. This is a significant step forward not only towards the industrialisation of the nuclear power sector but also a necessary step to meet our declared goal of "Net Zero" by 2070. Our nuclear engineers and scientists have achieved a certain amount of perfection in the design of power plants, and building them in fleet mode is now eminently feasible. The private sector of the nuclear power industry is now being encouraged to partner with our Nuclear Power Corporation in the buildout of nuclear energy.

By design, our Pressurised Heavy Water reactors are modular in nature. On account of sustained research and engineering efforts, Indian PHWRs have established an enviable safety and performance record. Furthermore, our nuclear power plants have also demonstrated global cost-leadership. Reflecting our belief in the Vedic adage *sarve janah sukhino bhavantu* (May all in the world be happy) and with a certain generosity of spirit, we must consider sharing Indian nuclear energy technology with the larger world as our contribution to mitigating climate change.

Surprisingly enough, this could well be an effort that would attract considerable global goodwill, partnership, and investment. In the first instance, this may indeed appear to be a dramatic shift from what we might have expected. India is recognised as a credible and responsible nuclear power in the larger world today and is also increasingly recognised as a technology and solution provider to vexing global problems. The two primary impediments to the spread of nuclear energy have been the problems posed by the proliferation of nuclear weapons and the disposal of nuclear waste. Multiple nuclear startups with innumerable technological innovations appear to be on the verge of addressing these twin obstacles.

Once these two problems are addressed in a satisfactory way, India could play a prominent and profitable role in addressing climate change by sharing our deep expertise in nuclear power generation. One of our leading nuclear experts, Anil Kakodkar, has suggested that mixing thorium with low-enriched uranium could be an effective way of addressing both proliferation and waste disposal concerns. Convergently, the US department of energy has also been advocating a shift to high assay low-enriched uranium as the fuel of choice for all next-gen nuclear reactors.

However, despite all the investments, building out of next-gen reactors will continue to remain a challenge. As Bjorn Peters writes, "Unfortunately, the US and France have forgotten how to build large nuclear reactors efficiently, and Germany has forgotten to do so completely." We, in India, on the other hand, now have an unbroken history of building sophisticated, cost-effective, and safe nuclear power plants. We have a youthful and energetic population keen to be skilled. Our youth have proven their ability to work in all corners of the world, creating value wherever they live and work. The time may be right for India to partner and collaborate with major nuclear powers to address the apparently intractable problem of climate change. India can do so by powering the world with clean and safe nuclear energy. We can utilise Make in India for the nuclear power sector and share it with the world. Undoubtedly, this will lead to growth in multiple sectors of the Indian economy as well. We must welcome this nuclear spring.

Crypto can survive the possible demise of FTX

For many, crypto exchanges are a sellout and a concession to older methods of finance and settlement

TYLER COWEN
Bloomberg

AS THE DRAMA surrounding FTX and Sam Bankman-Fried continues to unfold, most people are focused on the immediate questions of what exactly happened and why. I would like to ask some larger questions about where the crypto universe and its clearinghouses might be headed. One question is whether crypto exchanges are bound to evolve into a natural monopoly. By one estimate, if Binance and FTX had merged, the combined firm would have accounted for four-fifths of the market. If FTX disappears, it is no longer clear how to measure the new market size, though it's clear Binance would be a fairly dominant firm. It is a longstanding belief among economists that clearinghouses tend to evolve into natural monopolies. For a clearinghouse to be effective, it has to enforce standards on its members, including solvency standards. If the members do not meet those standards, they eventually are kicked out and lose access to clearinghouse services, thereby losing much of their value to their customers. But collusion does not always work in customers' interest. Clearinghouses are good at enforcing standards, regardless of whether those standards are good for customers. The upshot is that there is a tendency for members of a clearinghouse to either a) fail to meet standards and go bust, or b) join or least collude with a dominant coalition.

In the "real" world there are numerous instances of multiple clearinghouses and multiple layers of clearing, including in the US. That is because the Federal Reserve and other authorities act as lender of last resort for the payments system, thereby allowing some amount of heterogeneity to evolve without creating insuperable crises. You could argue that the Fed itself has cartelised the payments process, or alternatively you could treat the above argument as true mainly for a *laissez-faire* payments system. Current crypto institutions come fairly close to this *laissez-faire* description.

The history of banking includes dominant or semi-dominant clearinghouses stabilising markets and helping to introduce innovations, for instance of timeliness and transparency. The collusive monopoly might take too big a share of the market surplus for itself, but it has an incentive to keep the market up and running and profitable. That is hardly the worst arrangement crypto might stumble upon. It is also true that a dominant clearinghouse is much easier to regulate, and indeed modern central banks often sprung out of such clearinghouse arrangements.

One complication is that Binance is not a US firm; incorporated in China, it is now based in Dubai. Regulators might hope an American or at least Western version of Binance comes along, perhaps to create a new market duopoly. Arguably that is what regulators were hoping all along for FTX, so at least one version of the previous plan now has a huge hole in it. All the more pressure will be placed on Coinbase (a US firm), which may gain business but face a heavier regulatory burden and be expected to play a more specific role in the system. When guessing at the future of crypto, keep in mind that the future of crypto exchanges and the future of crypto assets are very different things. For many pure crypto bugs, the exchanges are a sellout and a concession to older methods of finance and settlement. The exchanges can be regulated, controlled and co-opted, even turned against the notion of individual monetary sovereignty. Instead, the pure crypto vision stresses the notion of "every person their own bank," through the medium of a personal wallet and beyond easy purview of the central authorities.

So if the major exchanges are damaged or co-opted by the establishment, pure crypto bugs might celebrate rather than mourn. It is thus a mistake to see the possible demise of crypto in the possible demise of FTX. Instead, the purer crypto vision will be given more of a chance to flourish—or, for that matter, to fail.

Put Indian mining on the centerstage

SUNIL DUGGAL
Group CEO, Vedanta, and chairman, CII National Committee of Mining

With a lot of green tech being mineral-intensive, the government must give mining activity in the country a boost by further deregulating the sector and working to ease/speed up the grant of permits

NEXT WEEK, FROM November 16 to 19, India's flagship summit for the mining industry, the Global Mining Summit will take place in Kolkata. Delegates from India and the rest of the world will gather physically for the first time since 2018 to discuss big ideas and grand plans for India's natural resources sector. What makes the Summit particularly significant this time is that, unlike other recent editions, this one will take place in a radically altered global scenario.

Since the last physical edition in 2018, there has been a once-in-a-century pandemic, a major war in Europe with global spillover, and an acceleration of climate change resulting in the manifestation of several major disasters in different corners of the world. The world is resetting. So is India. Mining and metals will be a central part of the new geopolitics, geoeconomics, and India's own economic strategy and growth trajectory.

For India, this is a moment of great opportunity. The world is looking at a China-plus-one strategy for major global supply chains in manufacturing. The risk of just one country being the center of manufacturing supply chains has been evident since the onset of Covid. It has been made more acute by China's zero-Covid policy, leading to major disruptions. Every manufacturing supply chain begins with raw materials, particularly minerals and then metals. If India aspires to raise the share of manufacturing in its GDP from around 16% to 25% in the next five years, it will require a huge increase in the supply of minerals and metals. Currently, we are importing significant amounts of copper, aluminium, and even coal, which are basic requirements of most industries. For new-age minerals like nickel, lithium, and cobalt, we are 100% import-dependent.

Currently, mining contributes only 2% to India's GDP. This can easily go up to 6%, given our geological potential

That brings us to the second major new global trend after China-plus-one—the world is moving from an economy that was fossil-fuel-intensive to one that is going to be mineral-intensive. For many countries, this has been accelerated by the fallout on oil prices from the Russia-Ukraine war. The emerging technologies which are aiding a decarbonisation of the global economy, whether for renewable energy infrastructure or electric vehicles, are highly-mineral intensive in the sense that they require a quantum increase in the use of minerals (some old, like aluminium and copper, and some new like lithium, nickel, and cobalt) in their manufacture and operations. Onshore wind infrastructure is nine times more mineral intensive than traditional power plants. Electric vehicles are five to six times more mineral-intensive than internal combustion engine vehicles. As the demand for these grows, so does the demand for minerals. Currently, most of the new-age minerals are highly concentrated in some geographies, which is a risk.

The government of India, led by prime minister Narendra Modi, has actually been very quick to note these trends and respond. The call for self-reliance or *atmanirbharta* came early during the pandemic directly from the PM. Subsequently, policies in many sectors have been changed or introduced to help achieve this goal. The PLI schemes and schemes for semiconductors and display fab are a hallmark and benchmark. But there is a greater goal to *atmanirbharta* than just reducing import dependence. It is also a quest to put India on a sustained path to the world's fastest-growing economy as well as to create productive jobs for the majority of the population. It also seeks to address regional imbalances in India so that all regions share prosperity.

The mining sector is well-positioned to be a partner for the government in achieving all those goals. Currently, mining contributes only 2% to India's GDP. This can easily go up to 6%, given our geological potential. Hence, the sector can be a big contributor to growth. Research has also shown that mining is one of the most employment-intensive sectors in India, second only after construction. It is also well-known that India's maximum geological potential is in the east of the country, which is also the region that usually trails in economic indicators. Mining can be the anchor sector that leads these states to converge with India's richer states. Needless to say, if mining grows, India's import bill will also fall significantly.

The government must seize the opportunity that this sector presents by further deregulating it. It must also speed up environment and forest clearances so that project implementation can happen faster. It must create an environment where foreign investment flows into this sector and bring more technology and capital. We must use the Global Mining Summit's platform to make this sector the centerpiece of India's future growth. It will also serve the interests of the rest of the world on climate and diversification of supply chains.

Discourage cash payments

Apropos "Cash remains the king" (Nov 11), I feel there are other reasons too, responsible for high volume of cash transactions still taking place in the country. The internet is either not available throughout the country particularly in rural areas or signals are weak due to which digital payments are not possible. The transactions with the street vendors of fruits & vegetables are small amounts, so people tend to pay in cash and vendors also insist for it. All people don't have smart phones to facilitate digital payments. Lack of awareness and faith in digital payments also leads to cash transactions. Businessmen want to deal in cash avoid or reduce income tax. Cash transactions limit set by the government need to be reduced. As long as the cash is easily available through ATMs, cash transactions cannot be reduced. Corruption is also responsible for high cash circulation.

Trust belied: Iran's bombshell

Iran has dropped a bombshell claiming that it has developed a hypersonic missile capable of penetrating all defence systems. Hypersonic missiles can fly over five times the sound speed and target enemy anti-missile systems. The announcement comes after the Islamic republic admitted that it had sent drones to Russia, and the development has put the International Atomic Energy Agency on edge.

SoftBank loses $576 million in investments in Paytm, Zomato

Selloff pressure in domestic market takes its toll

SALMAN SH
Bengaluru, November 11

JAPANESE TECH INVESTOR and conglomerate SoftBank booked a total loss of $576 million for the September quarter in its shareholding in Paytm and Zomato, as tech stocks plummeted in the domestic market due to the selloff pressure and as both the companies continued to record losses.

Zomato contributed to a loss of $89 million, while Paytm contributed to an investment loss of $487 million. Softbank had originally invested $309 million in Zomato and its investment value stood at $220 million at the end of the September quarter. On the other hand, SoftBank had originally invested $1.6 billion in Paytm and its investment value stood at $1.11 billion at the end of the September quarter.

Logistics unicorn Delhivery contributed a gross profit of $610 million to Softbank Vision Fund 1 (SVF1) during the quarter under review. SVF1 originally contributed a total investment of $397 million with a return value of $1.08 billion by end of the September quarter. PolicyBazaar contributed $318 million in profit to SVF1. The fund had invested $199 million in PolicyBazaar, with a return value of $517 million at the end of the June quarter.

For the quarter ended September, Softbank reported a net profit of 3,033.6 trillion yen, compared with a record net loss of 3.16 trillion yen reported in the June quarter. The conglomerate realised profits in the September quarter due to a one-time gain from its stake sale of Alibaba Group Holdings.

SoftBank gained around 5.372 trillion yen through the sale of 242 million shares of Alibaba, bringing down its stake in the company to 14.6% by the end of September, down from 23.7% as of June.

However, SoftBank suffered a 1.02-trillion-yen loss in its two vision funds (SVF1 and SVF2) for the September quarter. In the previous quarter, both vision funds logged a 2.33-trillion-yen loss. In addition, SoftBank's net asset value (NAV) was down to $115 billion in the September quarter, a $20-billion fall from $135 billion reported in the June quarter.

On the other hand, SoftBank Vision Fund 1 (SVF1) which manages a good chunk of publicly traded portfolio companies along with private companies, gained some 15.4% in investment value when compared with the previous quarter. SVF1 returned a gross investment gain of $13.56 billion in the September quarter. SVF2, which also manages a few public companies and private portfolios, posted a gross investment loss of $14.56 billion.

Softbank's founder Masayoshi Son said during the investor presentation that the impact of the pandemic on some of the investments can't be measured since it was unclear "how deep the (Covid) valley would drop".

"In the previous quarter, I explained that the (startup) unicorns are going to be failing down to the valley. But actually, unicorns are the ones that recovered well due to the online phenomena that emerged strongly post-Covid and we figured that the (Covid) valley was not that deep as we thought," Son said.

He, however, pointed out that since it was impossible to measure the impact of Covid on the digital economy in the early days of the pandemic, Softbank decided to survive by disposing some of its investments and assets so that it can secure some backup cash for future investments.

"I wanted the company to grow safely and hence I have been raising money as much as possible to stretch myself so that we are able to create bigger transactions or acquisitions in the future. Even at the time of the dotcom bubble and the Lehman crisis, we had to sell and monetise assets to survive the market meltdown," Son said.

Yet, Son made it clear that Softbank's vision funds would drastically slow down investments in the next few quarters due to high volatility in the equity market worldwide. He added that the vision fund and other funds will be in a 'defensive' mode for the next few quarters with very selective investments being made out.

"We will be more selective on our future investments from the vision fund," Son said.

HITS & MISSES

- Zomato contributed to a loss of $89 million, while Paytm contributed to an investment loss of $487 million
- Delhivery contributed a gross profit of $610 million to Softbank Vision Fund 1
- PolicyBazaar contributed $318 million in profit to SVF1

MASAYOSHI SON, FOUNDER, SOFTBANK

PSU banks may arrest decline in market share

Asset quality boost, robust credit growth likely to aid lenders

AJAY RAMANATHAN
Mumbai, November 11

AFTER A STEADY decline in market share in both advances and credits since June 2020, things might be looking up for public sector banks (PSBs) in the coming quarters.

Advances have already started showing a small rise since the June quarter. In March-end 2022, the market share of PSU advances stood at 62.1%. In the June quarter, it improved marginally to 62.4%. And it is expected to do better, say analysts. These lenders have seen sharp improvement in asset quality and robust credit growth. "Public Banks were losing market share to private banks because of capital constraints and asset quality pressure. Since these two reasons are behind them, they are better placed to push the loan growth and regain their market share," Anil Gupta, senior vice-president & co-group head, Financial Sector Ratings, Icra, said.

In addition to cleaning up their balance sheets, PSBs have also improved their loan-processing systems, which will hold them in good stead going forward, say analysts.

To put things in perspective, public sector behemoth State Bank of India's gross advances rose 19.9% year-on-year (y-o-y) and nearly 5% on a sequential basis as on September 30. Deposits rose nearly 10% y-o-y and 3.6% quarter-on-quarter (q-o-q). Its gross non-performing asset ratio also halved to 0.4% as on September 30.

Similarly, Bank of Baroda's gross advances rose 15% the n year and 3.1% q-o-q. Deposits rose 11% y-o-y and 5.5% q-o-q. The bank's gross non-performing asset ratio improved to 5.31% as on September 30, from 8.11% a year ago.

The total advances market share of public sector banks fell to 62.4% as on June 30 from 63.1% a year ago, data from credit rating agency Icra showed. At the same time, the total deposit market share of these banks also fell to 67.7% as on June 30 from 69% a year ago.

"PSU banks have arrested a bit of a decline in market share. They are in a strong position right now. Their asset growth rate is still lower than the private sector banks but PSU banks are still growing," Sanjay Kumar Agarwal, senior director, CareEdge, said.

In addition, private sector banks score over PSUs due to their superior adoption of technology and stronger retail franchise. This makes it difficult to determine the extent to which state-owned banks will be able to regain their market share, say analysts. However, PSUs have also improved their loan processing systems, which will help them, going forward.

ENCOURAGING SIGNS VISIBLE

- In March-end 2022, the market share of PSU advances stood at 62.1%
- In the June quarter, it improved marginally to 62.4%
- In addition to cleaning up their balance sheets, PSBs have also improved their loan-processing systems, which will hold them in good stead going forward, say analysts

Rupee surges by 98 paise to hit eight-week high

FE BUREAU
New Delhi, November 11

THE RUPEE ON Friday gained 98 paise against the dollar to close at 80.82, a level last seen on September 21, after the lower-than-expected US inflation data for October raised hopes that the Federal Reserve's pace of interest rate hikes will slow down. In intra-day trade, the Indian currency jumped 1.49%, its biggest gains since December 18, 2018, and closed 1.21% higher, posting the maximum gain since March 26, 2020.

US consumer inflation for October came in at 7.7%, down from 8.2% in September, easing concerns that the Fed's tightening could continue for a prolonged period. The US dollar slipped by over 2% overnight and lost some more value on Friday, hovering around the 107-mark against a basket of six currencies. Most Asian currencies on Friday gained value against the dollar.

Bhaskar Panda, EVP, overseas treasury, HDFC Bank, cautioned the appreciation in the rupee did not mean it was the end of the story. "We need to be very careful on how we position ourselves at this time, since the inflation numbers, even if they have come off, are nonetheless high," Panda observed, pointing out that fundamentally little else has changed.

Experts believe the Reserve Bank of India (RBI) may use the stronger levels of the rupee to accumulate dollars and build up reserves. The central bank was buying dollars at 78.5 levels, dealers said, adding that the RBI might wait a while for lower levels. Exporters are understood to have started offloading dollars, and a further gain to around 80 levels cannot be ruled out, they said.

Meanwhile, the sentiment in the bond markets was positive, with yields falling five bps to hit a two-week low of 7.308% as US treasury slipped to 3.8125%, a level last seen on October 5. Dealers are, however, cautious as the RBI is expected to raise the repo rate at its December meeting.

PNB offers up to 7.85% on 600-day FD scheme

PRESS TRUST OF INDIA
New Delhi, November 11

PUNJAB NATIONAL BANK (PNB) on Friday announced a special fixed deposit scheme for 600 days, offering an interest rate of up to 7.85% per annum. This special scheme has come to effect from October 19, 2022. "The bank is offering higher interest rates up to 7.85% per annum," it said in a release.

The scheme is applicable on single deposit term deposits of below ₹2 crore for senior (60 years and above) and super senior citizens (80 years and above).

Bank's domestic term deposit of 600 days (callable) offers 7% interest rates and that of 600 days (non-callable) yields 7.05% per annum. Non-callable deposits are those with no option of premature withdrawal. For senior and super senior citizens, the rates range from 7.50-7.85%.

BoB reduces home loan rates by 25 bps

FE BUREAU
Mumbai, November 11

PUBLIC SECTOR LENDER Bank of Baroda on Friday announced reduction in its home loan interest rates by 25 basis points (bps) to 8.25%. The bank has issued sops on home loans coinciding with the marriage season. The lender had earlier announced several schemes to capitalise on the festive season.

The bank, along with several PSU lenders, had completely waived processing fees on home loans. The waiver on processing fees will continue till December 31, while the lower interest rates on home loans will be effective from November 14 to December 31.

"In a scenario where interest rates are on an upward trajectory, we are pleased to drop our home loan interest rates and introduce a special, limited-period home loan interest rate offer of 8.25%, making home purchases that much more affordable for homebuyers. We have seen a robust growth in home loans this year with strong demand across cities and consumer confidence driving home sales," HT Solanki, general manager of the bank, said.

This is one of the lowest and most competitive home loan interest rates in the industry, the bank said in a press release. Earlier, State Bank of India (SBI) had also slashed its home loan rates by 15-25 bps for a limited period. For borrower with a CIBIL score of 800, the bank is offering home loans at 8.40%. The discounted rates are effective till January 31.

Bank of Baroda has a home loan book of ₹74,308 crore as on September 30, consisting of 60% of its total retail loan portfolio. SBI has a home loan portfolio of ₹5.2 trillion, comprising 57% of the domestic retail segment.

Fx kitty shrinks $1bn on fall in gold reserve

FE BUREAU
Mumbai, November 11

INDIA'S FOREIGN EXCHANGE reserves fell by $1.1 billion, led by a decline in gold reserves, to $529.9 billion for the week ended November 4, data released by the Reserve Bank of India (RBI) showed. In the previous reporting week, reserves had swelled by $6.561 billion to reach $531.081 billion, making it the biggest weekly jump in a year.

Gold reserves fell by $705 million to $37 billion while reserves expressed in terms of special drawing rights fell by $235 million to $17.4 billion. Foreign currency assets stood at $470.1 billion, lower by $120 million.

The decline in value of gold reserves was despite an increase in international price of the yellow metal. Prices of gold options for the December contract rose 5.2% during the week, according to data on CME. The share of gold in the total foreign exchange reserves stood at 7.06% as of September 30, the RBI said in its half yearly report on management of forex reserve. The apex bank held 785.35 tonne of gold, including gold deposits of 41.57 tonne.

The decline in the forex reserves in the reporting week came despite appreciation of 0.4% of the rupee against the greenback while the dollar index declined by 0.58%.

It is an opportunity for the RBI to explore asset diversification through increased holdings in gold as the moment is right, Soumya Kanti Ghosh, group chief economic advisor of State Bank of India, said in a report. "Going forward, we believe the RBI would roll over the maturing B/S swaps, while resorting to S/B swaps on a need-only basis which is likely to cement FX reserves further," Ghosh said. Interventions by central banks globally to support their local currencies have wiped foreign currency reserves of close to $1 trillion this year.

Merged HDFC entity may double weight in MSCI

FE BUREAU
New Delhi, November 11

AFTER THE COMPLETION of the merger of HDFC and HDFC Bank, the weight of the merged entity could be double that of HDFC in MSCI, Macquarie Research has said in a sales note on Friday.

HDFC is part of MSCI indices whereas HDFC Bank is not. MSCI requires the proportion of shares available to foreign investors relative to the maximum allowed being at least 15% and HDFC Bank fails to meet this criterion. Despite the heavy FII selling earlier this year, HDFC Bank's "foreign room" as of September end stood at 11%, as per Macquarie.

MSCI has come up with new rules on how to handle corporate events like mergers & acquisitions and that will remove the technical overhang of HDFC Bank, Macquarie said. What these new rules imply is that HDFC Bank will be considered as an extension of HDFC post the merger and the foreign headroom requirement will be that of an existing constituent.

According to the new rule, when there is a corporate event affecting index constituents, non-index constituents that are involved in the event are considered for immediate inclusion in the MSCI Global Investable Market Indexes, as long as they meet all the index constituent eligibility rules and guidelines, with the exception of the length of trading and liquidity screens and minimum foreign room requirement.

Despite the foreign institutional investment headroom being between 15-25%, adjustment factor of 0.5x will not apply and it will be at 1x adjustment factor. Hence, the weight of the HDFC twins can go from 5.78% to 13%. This removes the overweight problem of FIIs, which was a technical overhang, Macquarie said.

This implies free float-adjusted market capitalisation of $126.3 billion for the merged entity, which is more than twice of HDFC's current free float-adjusted market capitalisation of $55.9 billion, said the Macquarie note.

The rear seating area where most owners would likely spend their time in can put a first-class aircraft cabin to shame

CAR REVIEW:

NEW LAND ROVER RANGE ROVER

What is in the box is out of the box

But the price goes through the roof of this box-shaped SUV

VIKRAM CHAUDHARY

FULL-SIZE LUXURY SUVs are expensive—BMWX7 (₹1.18 crore), Mercedes-Benz GLS (₹1.16 crore), Audi Q8 (₹1.04 crore) and Volvo XC90 (₹94.9 lakh).

Full-size luxury SUVs that are fast are more expensive—Audi RS Q8 (₹2.18 crore) and Mercedes-Benz G-Class (₹1.72 crore).

Full-size luxury SUVs that are palatial are even more expensive—Mercedes-Maybach GLS (₹2.47 crore). So where does the most expensive of all, the Land Rover Range Rover, fit in?

What is Range Rover?

It's the top-of-the-line range of Land Rover vehicles. The Autobiography variant in these photos is the top-of-the-range of Range Rover.

What sets it apart?

The Range Rover range is available in as many as 50 variants, with petrol and diesel engines as well as plug-in hybrid. There are five seats, seven seats and long wheelbase options. No other vehicle in the history of automotive has possibly been offered in so many variants.

How does it look?

While most other car models are turning sleeker and rounder, Range Rover has stuck to the boxy body shape—but the edges appear slightly more curved and polished.

How is the cabin?

The cabin—especially the rear seating area where most owners would likely spend their time in—can put a first-class aircraft cabin to shame. The rear seats can be reclined, and there are screens placed behind front seat backrest to work on and for entertainment. The panoramic sunroof lights up the rear seating area (during daytime), and there are many massage options for the owner/passenger to relax after day-long meetings. Front seats are also worlds apart from most other luxury SUVs.

How does it drive?

The variant I drove was 3.0-litre petrol Autobiography, priced a hefty ₹2.99 crore (ex-showroom). The first shocker I got was that you've to climb a mountain to get on the driver's seat (because the footboard is available as an accessory). That is so unlike the more affordable Mercedes-Maybach GLS 600 in which the footboard automatically opens as you go near and unlock it.

The engine is powerful enough to send this behemoth from 0-100 km/h in a little over 5 seconds. Despite being a tall SUV, there is almost zero body-roll, nor does it 'dive' during straight-line braking.

It has all the offroading capabilities expected of an SUV, such as all-wheel steering, water wading of up to 3 feet and multi-drive modes, but would you want to take an SUV worth crores of rupees off the road?

Is it a good buy?

It's one of the world's finest SUVs, but it seems price has stolen the thunder. The most affordable variant (3.0-litre SE) costs a hefty ₹2.39 crore, and the range-topping 4.4-litre LWB SV is priced ₹4.17 crore. If I were a customer with that kind of money, I'd choose the more exclusive Mercedes-Maybach GLS, and take a business class holiday to every continent in the world with the money saved.

RANGE ROVER vs LUXURY SUVs

Land Rover Range Rover	Mercedes-Maybach GLS	Audi RS Q8
₹2.39-4.17 cr	₹2.47 cr	₹2.18 cr
BMW X7 ₹1.18 cr	Mercedes-Benz GLS ₹1.16 cr	Audi Q8 ₹1.04 cr

MIDSIZE BATTLE

Can the Slavia give a Czech-mate to the Kushaq?

What to do when the choice is between a midsize sedan and SUV

VIKRAM CHAUDHARY

IN THE SUB-4 metre segment, a sedan—cheaper by around ₹2 lakh—is definitely better value for money over an SUV. But which body style should one prefer in the mid-size car segment, where sedans and SUVs are priced similarly?

To find this, we drove a sedan and an SUV from the same car-maker: the Slavia and the Kushaq. Both are Skoda cars.

Design

Slavia: It looks a lot like the more expensive Octavia. At 4,541 mm, it is far longer than the Kushaq.

Kushaq: It is 4,225 mm long, but taller (1,612 mm tall, compared to the Slavia's 1,507-mm), and has more ground clearance (188 mm, compared to the Slavia's 179 mm).

Cabin

Both the cars have similar wheelbase (2,651 mm), and similar cabin space. The Slavia's digital cockpit looks more advanced than the Kushaq's digital-plus-analogue.

Fuel efficiency

Both have 1.0-litre and 1.5-litre engines. Both are petrol.

Slavia: The claimed fuel efficiency of the 1.0-litre engine is 19.47 km/litre (manual) and 18.07 km/litre (AT). That of the 1.5-litre engine is 18.72 km/litre (manual) and 18.41 km/litre (AT).

Kushaq: The 1.0-litre engine returns 19.2 km/litre (manual) and 17.2 km/litre (AT). The 1.5-litre returns 17.95 km/litre (manual) and 17.7 km/litre (AT).

The Slavia is lighter by 10-15 kg and appears to have a more aerodynamic body, and that's why its fuel efficiency is better than the Kushaq. But the Kushaq has a 50 litre fuel tank, more than Slavia's 45 litres.

Price

Most variants of the Kushaq are priced marginally more (₹30,000 at least) than similar variants of the Slavia. The Kushaq also comes in a special Monte Carlo edition.

Overall, the Kushaq is priced ₹11.59 lakh to ₹19.09 lakh. The Slavia is priced from ₹11.29 lakh to ₹18.4 lakh (ex-showroom).

Sedans versus SUVs

Space: The Slavia offers more 'usable space' than the Kushaq (Kushaq has more cabin volume but most of it is 'over the top', i.e. headroom). The Slavia's boot space of 521 litres is far more than that of the Kushaq (385 litres).

Ground clearance: At 179 mm, the Slavia's ground clearance is lower than that of the Kushaq (188 mm), but it's good enough to ride over tall speed breakers.

Ride quality: Unlike the Kushaq in which you will experience minor body-roll (because it is taller), the Slavia rides 'hugging the road', and therefore feels more grounded.

Overall, the Slavia appears to be a better buy than the Kushaq.

The Slavia's cabin (top) looks more modern than the Kushaq's (below)

MORE SENIOR EXECUTIVES QUIT

Musk says can't rule out Twitter bankruptcy

US regulator says watching company with 'deep concern

KATIE PAUL & PARESH DAVE
November 11

TWITTER'S NEW OWNER Elon Musk has raised the possibility of the social media platform going bankrupt, capping a chaotic day that included a warning from a US regulator and departures of senior executives viewed as future leaders.

The billionaire told Twitter employees on a call that that he could not rule out bankruptcy, Bloomberg News reported, two weeks after buying it for $44 billion — a deal that credit experts say has left Twitter's finances in a precarious position.

Two executives — Yoel Roth and Robin Wheeler — who moderated a Twitter Spaces chat with Musk on Wednesday as he tried to assuage advertisers' concerns, have resigned, one person close to the matter told Reuters.

Roth and Wheeler did not immediately respond to requests for comment. Bloomberg and tech site Platformer reported the exits first.

Earlier on Thursday, Twitter's chief security officer Lea Kissner tweeted that she had quit.

CHALLENGES AHEAD

- In his first meeting with all employees at Twitter on Thursday afternoon, new owner Elon Musk warned that the company may lose billions of dollars next year
- Chief privacy officer Damien Kieran & chief compliance officer Marianne Fogarty have resigned
- The resignations of three privacy and compliance officers have potentially put Twitter at risk of violating regulatory orders

Chief privacy officer Damien Kieran and chief compliance officer Marianne Fogarty also resigned, according to an internal message posted to Twitter's Slack messaging system on Thursday by an attorney on its privacy team and seen by Reuters.

The US Federal Trade Commission said it was watching Twitter with "deep concern" after these three privacy and compliance officers quit. These resignations potentially put Twitter at risk of violating regulatory orders.

In his first meeting with all employees at Twitter on Thursday afternoon, Musk warned that the company may lose billions of dollars next year, the Information reported.

Twitter did not respond to requests for comment on a potential bankruptcy, the FTC warning, or the departures.

Wheeler was the face of Twitter for advertising after Musk took over. Roth, who was head of safety and integrity at Twitter, has said Twitter had reduced views of harmful content in search results by 95% compared to before Musk's acquisition.

Musk, who ruthlessly moved to clean house after taking over Twitter for $44 billion on October 27, has said the company was losing more than $4 million a day, largely because advertisers started fleeing once he took over. —REUTERS

FTX to start US bankruptcy proceedings, CEO to exit

CRYPTO EXCHANGE FTX will start US bankruptcy proceedings and CEO Sam Bankman-Fried is set to step down, after a liquidity crisis at the cryptocurrency group that has prompted intervention from regulators around the world.

The distressed crypto trading platform had been struggling to raise billions in funds to stave off collapse after a wave of withdrawals.

The company said in a statement on Friday, shared via a tweet, that FTX and its affiliated crypto trading fund Alameda Research and approximately 130 other companies have commenced voluntary Chapter 11 bankruptcy proceedings in Delaware.

"I'm really sorry, again, that we ended up here," said FTX founder Bankman-Fried, in a series of tweets after the commencement of the bankruptcy filing.

In his tweets, Bankman-Fried said the bankruptcy filing "doesn't necessarily have to mean the end for the companies" and that he was "optimistic" the group's new CEO would "help provide whatever is best".

John J Ray III has been appointed to take over as CEO from Bankman-Fried, who will assist with an orderly transition.

The week-long saga that began with a run on FTX and an abandoned takeover deal by rival Binance has hit an already struggling bitcoin and other tokens. FTX was scrambling to raise about $9.4 billion from investors and rivals, Reuters reported citing sources, as the exchange sought to save itself after customer withdrawals.

"The Chapter 11 filing is a necessary step to allow the company to assess the situation and develop plans to move forward for the benefit of stakeholders," Ray said in a Slack memo to FTX staff. —REUTERS

UK economy shrinks at start of a feared long recession

WILLIAM SCHOMBERG & DAVID MILLIKEN
London, November 11

BRITAIN'S ECONOMY SHRANK in the three months to September at the start of what is likely to be a lengthy recession, underscoring the challenge for finance minister Jeremy Hunt as he prepares to raise taxes and cut spending next week.

Economic output shrank by 0.2% in the third quarter, less than the 0.5% contraction analysts had forecast in a Reuters poll, Friday's official data showed.

But it was the first fall in gross domestic product since the start of 2021, when Britain was still under tight coronavirus restrictions, as households and businesses struggle with a severe cost-of-living crisis.

Britain's economy is now further below its pre-pandemic size — it is the only Group of Seven economy yet to recover fully from the Covid slump — and is smaller than it was three years ago on a calendar-quarter basis.

The Resolution Foundation think-tank said that although the fall was smaller than investors had feared, it left Britain on course for its fastest return to recession since the mid-1970s.

Its research director James Smith said the figures provided a sobering backdrop for Hunt's November 17 budget announcement, when he will try to convince investors that Britain can fix its public finances — and its credibility on economic policy — after Liz Truss's brief spell as prime minister.

"The chancellor will need to strike a balance between putting the public finances on a sustainable footing, without making the cost-of-living crisis even worse, or hitting already stretched public services," Smith said.

Responding to the data, Hunt repeated his warnings that tough decisions on tax and spending would be needed.

"I am under no illusion that there is a tough road ahead — one which will require extremely difficult decisions to restore confidence and economic stability," Hunt said in a statement. "But to achieve long-term, sustainable growth, we need to grip inflation, balance the books and get debt falling," he added. "There is no other way."

The Bank of England said last week that Britain's economy was set to go into a recession that would last two years if interest rates were to rise as much as investors had been pricing. —REUTERS

Sebi unveils norms to facilitate online bond platform providers

PRESS TRUST OF INDIA
New Delhi, November 11

CAPITAL MARKETS REGULATOR Sebi has introduced a regulatory framework to facilitate providers of online bond platforms that are selling listed debt securities. Under the new rules, no person would act as an online bond platform provider without obtaining registration certificate as a stock broker from Sebi, the regulator said in a notification made public on Friday.

Such a person would have to comply with the conditions of registration and such other requirements specified by the regulator from time to time. The move will also enhance the confidence among investors, particularly non-institutional investors, as the platforms would be provided by Sebi-regulated intermediaries.

A person acting as an online bond platform provider without registration certificate prior to the date of this regulation coming into force can continue to do so for a period of three months.

Ankit Gupta, founder, BondsIndia.com, termed the Sebi's move as a "great initiative" in the bonds segment, which will help to instill confidence amongst the retail investors and provide a push to develop the fixed income market.

"The unregulated market does not have entry barriers and this leads to chaos and confusion among the investors about the credibility of the counter party they are dealing with. This and other regulations including the reduction of face value for private placement bonds, which Sebi has come out with in the recent months, will lead to an increased participation, diversification and will also see a lot of influx with new issuers coming in to tap bonds markets and raise money from individual investors," he added.

Sebi has defined online bond platform as any electronic system, other than a recognised stock exchange or an electronic book provider platform, on which the debt securities which are listed or proposed to be listed, are offered and transacted. Further, online bond platform provider means any person operating or providing such a platform.

To this effect, the Securities and Exchange Board of India (Sebi) has amended NCS (issue and listing of non-convertible securities) regulations. The new norm has become effective from November 9.

Separately, Sebi notified rules reducing the minimum holding requirement of Real Estate Investment Trust (REITs) units by sponsors to 15% from 25% at present, a move aimed at encouraging more companies to float REITs.

"The sponsor(s) and sponsor group(s) shall collectively hold a minimum of 15% of the total units of the REIT for a period of at least three years from the date of listing of such units pursuant to initial offer on a post-issue basis," Sebi said. However, any holding of the sponsor and sponsor group exceeding the minimum holding, would be held for at least one year from the date of listing of such units.

In an another notification, the regulator has discontinued a separate regulatory framework for unlisted Infrastructure Investment Trust (InvIT). This would come into force from January 1, next year.

The amendments came after the board of Sebi approved proposals in this regard in late September.

DEVELOPING FIXED INCOME MARKET

- Under the new regulation, no person would act as an online bond platform provider without obtaining registration certificate as a stock broker from Sebi
- Sebi has defined online bond platform as any electronic system, other than a recognised stock exchange or an electronic book provider platform

GEORGE ALEXANDER MUTHOOT, MD, MUTHOOT FINANCE

'Will stick to guidance of more than 10% growth in gold loans'

Gold loan major Muthoot Finance, which has recorded a muted loan growth in Q2, believes that the migration to higher interest rate loans from lower-interest teaser loans will start contributing towards an expansion in yields in subsequent quarters. **George Alexander Muthoot,** *MD, tells* **Sajan C Kumar** *that the company will be able to stick to the earlier guidance of more than 10% growth in gold loans for FY23. Excerpts:*

Reasons behind lower profit in Q2 despite rise in AUM?
Though the net profit came down to ₹867 crore compared with ₹994 crore, it grew 8% on a quarterly basis from ₹802 crore. The reason behind lower profit in Q2 was that we had a lower-interest scheme (teaser rates) running during the year-ago period. While we had stopped that scheme and shifted to higher interest rate regime, the effect of that will come into fore fully in coming quarters. Going forward, you can see the profit going up, and precisely that's why we witnessed higher profits sequentially in Q2.

Given the Q2 performance, do you foresee any difficulty in achieving the gold loan growth guidance of 10%-plus for FY23?
We have two more quarters to go and we hope that we will be able to do that. We are trying our best and we are not changing our guidance. We have approval to open 150 branches this fiscal. In the September quarter, we have opened 24 branches. Digital initiatives are also picking up which will add to the momentum.

How do you see the competition from banks in the gold loan space?
Earlier, banks were not keen on gold loans. In the last one-two years, they have aggressively been marketing the product, as many of their other loan portfolios were not doing well. Because of the widespread nature of the banks, their presence is going to make significant impact in the gold loan market. As a result of it, some new customers have gone to banks, giving competition to companies like us and that is also one of the reasons behind growth not coming in on expected lines. But then, because of our service quality and quick turnaround time and probably due to the loyalty to the brand, we are getting customers.

What is your response to the perception that switching back to high interest rate regime may hit the growth prospectus?

It is not the case that if you reduce the interest rate, you will get all the business. It is based on the customers' comfort of doing business, which we have developed over the decades. It is a temporary phenomenon that some new customers have gone to banks, things will revert and that's why we expect to see good loan growth in coming quarters. Even otherwise, we have been seeing good customer acquisition because our tenures are normally very short, about three-four months. Most customers close their loans in three-four months and we have to get new customers.

Do you foresee a pressure on margins because of competition? What about your cost of funding?
It is not pressure on margins. We have consciously reduced our yields and that's why our margins have come down. As a result of it, we saw a dip in the profit. Now that we have stopped low-interest loans, we will be able to make higher profits. We can easily get good funding from banks because we are the highest-rated gold loan company. Today, our capital adequacy is more than 25%, and for us borrowing cost is lower compared to others.

How is the non-gold business doing for you?
We are doing the home loan business which we are going to expand. Now that Covid-related issues are behind us, we are going to give more thrust to home loans, personal loans and vehicle loans. All those businesses are currently contributing around 10% to the total business. The proportion of the non-gold business may go up to 15% to 20% in next five years.

LIC profit zooms 11x; net premium rises 27%

THIS TRANSFER OF non-participating funds to shareholders' accounts is a way to shore up investors' confidence and that could act as an indicator of higher dividend payouts, going forward.

From a business performance perspective, the life insurer's net premium improved to ₹1.32 trillion in Q2, up 27% from ₹1.04 trillion in the year-ago period. The first-year premium, indicative of business growth, was at ₹9,125 crore, up 11% for the quarter compared with ₹8,198.30 crore year-on-year (y-o-y).

The renewal premium rose 2% to ₹56,156 crore while single premium soared 62% to ₹66,901 crore y-o-y.

The total income in the quarter under review stood at ₹2.22 trillion as against ₹1.85 trillion in the year-ago period.

The 13th month persistency ratio, a key parameter that measures the stickiness of policyholders, rose to 70.52% at the end of September, 2022 from 68.81% y-o-y.

The market share of LIC stood at 68.25% in terms of first-year premium or new business premium as on September 30, 2022, up 376 basis points from 64.49% as on September 30, 2021, according to figures provided by the insurance regulator Irdai.

Ahead of the announcement of the result, LIC stock ended 1.17% higher at ₹628.05 on BSE. Overall, it has been an underperformer at the bourses, down over 24.11% since the initial public offering.

Among major private sector life insurers, SBI Life Insurance has posted a 52.76% y-o-y rise in its net profit to ₹376.74 crore for the second quarter this fiscal. Its net premium income grew 12.39% y-o-y at ₹16,477.26 crore.

"LIC is the Indian insurance market leader with 44% share of the total APE (annualised premium equivalent) market (on a weighted basis) as of FY22. Robust back-book (AUM of ₹41 trillion as of Q1FY23), high brand value, difficult to replicate agency strength of 1.33 million individuals (as of September, 2022) are competitive moats," ICICI Securities said in a note on Friday.

Gold set for best week in more than two years

ARUNDHATI SARKAR
November 11

GOLD PRICES WERE headed for their best week in more than two years after extending gains on Friday, as signs of cooling inflation raised hopes the Federal Reserve might pivot to a less hawkish policy.

Spot gold ticked up 0.1% to $1,756.54 per ounce by 1127 GMT, after rallying more than 2% on Thursday as data showed US consumer prices rose less than expected in October. US gold futures gained 0.4% to $1,759.70.

"Yesterday's weaker than expected CPI number has shifted the narrative when it comes to yields, along with the notable shift we've seen from recent Fed speakers," said Michael Hewson, chief market analyst at CMC Markets UK.

Gold prices have risen 4.5% so far this week, and traders now see a 73.5% chance of a 50-basis-point rate hike at the Fed's December meeting.

Higher interest rates increase the opportunity cost of holding non-yielding bullion, so expectations of a smaller hike boost sentiment. "Along with a technical break above the October highs, the likelihood of gold reaching $1,800 has become much more likely," Hewson said.

The dollar index extended its decline, falling to its lowest in nearly three months, making gold more attractive for overseas buyers. US 10-year Treasury yields dropped to a one-month low on Thursday. Gold prices and Treasury yields move in opposite directions. On the technical front, gold is trading above its 50-day and 100-day moving averages, which is considered a bullish signal by traders.

And in this regard, the IL&FS Board has on December 21, 2018 and September 27, 2019 invited a public Expression of Interest (EoI) for sale of its entire stake in the Company. Accordingly, the Company's plans for new fund raise have been kept on hold pending completion of the stake sale. Further, with the outbreak of the pandemic the timelines for the sale process have got delayed and while there is material uncertainty with regard to the stake sale, management believes that use of the going concern assumption for preparation of these financial results is appropriate

2. For the other line items referred in Regulation 52 (4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, pertinent disclosures have been made to the Stock Exchange (BSE) and can be accessed on the URL (**www.bseindia.com**).
3. Pursuant to Clause 52 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 , a limited review of standalone financial results for the quarter and half year ended September 30, 2022, statement of standalone assets and liabilities as at September 30, 2022 and statement of standalone cash flows for half year ended September 30, 2022 have been carried out by the Statutory Auditors. The same have been reviewed and recommended by the Audit Committee and approved by the Board of Directors ('the Board') at its meetings held on November 10, 2022.
4. **Asset / Security Cover:** Religare Finvest Limited ('RFL') is facing significant asset liability mismatches as a result of siphoning and misappropriation of funds by the erstwhile Promoters of Religare Enterprises Limited ('REL'), Parent Company of RFL and their associates. Consequently, the Company is facing significant asset liability mismatches ('ALM'). As a result, the Company has been unable to service its obligations in respect of payments to lenders and is declared non-performing by its lenders. The defaults in payment of dues towards principal and interest towards listed non-convertible debentures have been appropriately disclosed by the Company to regulatory/statutory body and all stakeholders during the respective period. Other than those defaults which have already been settled in earlier periods and defaults which have been made subsequent to September 30, 2022, as at September 30, 2022, the Company is carrying an interest default of Rs. 337.00 lacs on NCD series 35 and 36. The Company is not required to determine the 'Asset / Security Cover' in respect of the NCDs as required under clause 54(2)&(3) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time, as all the outstanding NCDs are unsecured.

   The Company has been put under a Corrective Action Plan ('CAP') by RBI vide its letter dated January 18, 2018 which, interalia, prohibits RFL from expansion of credit/investment portfolios other than investment in Government Securities and advices RFL not to pay dividend. The Company has proposed its revised DRP alongwith its parent Company REL, continuing as its promoter / investor to its lenders (subject to all requisite approvals and compliances with all applicable norms/ regulations). The Company received a letter dated June 03, 2021 from State Bank of India (SBI) stating that the proposal is under consideration on merit (with REL as a shareholder) and will be considered if it is in compliance of RBI circular dated June 07, 2019 subject to necessary internal approvals by all Consortium Lenders. However, RBI vide letter dated February 11, 2022 advised the company that the restructuring of the Company cannot be implemented with REL continuing as its promoter since the Company has been declared as "Fraud" exposure by lenders. The Company filed a writ petition before the Delhi High Court seeking stay of operation of the aforesaid order besides other reliefs. Same was stayed by the Hon'ble Delhi High Court. Interim hearings were conducted on the subject matter and the stay order was consequently extended by the Hon'ble Court. The matter is now listed on February 08, 2023. The matter is sub-judice.

   Post RBI letter dated February 11, 2022 on the DRP, RFL has proposed One Time Settlement ('OTS') with its lenders (through lead banker i.e. SBI). Various joint lenders' meetings and meetings of core committees have been held for discussions regarding the OTS proposal. The Company has submitted the final OTS proposal to lenders on July 07, 2022 and is pursuing with all lenders for approval for timely completion. The Company is also taking the necessary corrective measures as advised by RBI and alongwith implementation of the OTS proposal, will seek removal of CAP in the due course. Accordingly, the financial results have been prepared on Going Concern basis.
5. Earnings Per Equity Share for the quarter ended have been calculated for the three months and not annualised.
6. Formula for Debt/Equity ratio is Total Debt/ Total Shareholders fund.
7. There is no significant change in accounting policy, hence, there is no impact on profit/loss, total comprehensive income or any other relevant financial item(s) during the quarter and half year ended September 30, 2022.
8. Pursuant to amendment in Schedule III to the Companies Act, 2013 by Ministry of Corporate Affairs vide its notification dated March 24, 2021, the comparative figures as disclosed in these results have been regrouped/ reclassified, wherever necessary, to make them comparable to current quarter figures.

Note:

1 The Un-audited financial results for the quarter and half year ended have been reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on 11.11.2022

2 This statement has been prepared in accordance with the Companies (Indian Accounting Standard) Rules,2015 (Ind AS) prescribed under Section 133 of the Companies Act,2013 and other recognised accounting practices and policies to the extent applicable.

3 The company operates only in one business segment , viz. Pharmaceuticals formulations, hence segment reporting is not applicable

4 The Earning Per Share has been calculated as per Indian Accounting Standard (Ind AS) 33 -Earning per Share

5 The results are not comparable on quarterly or yearly basis as company is regularly incurring capex and filling dossiers with regulatory authorities which is visible from increased finance cost. The company has also recruited and placed senior human resources for the purpose of creating its own marketing network in francophone Africa. The company shall start reaping its benefits from next financial year.

6 Limited review report has been carried out by the Statutory Auditors for the above period.

7 The figures are regrouped in previous year also, wherever considered necessary, to make them comparable.

The remote e-voting module shall thereafter be disabled. Once the vote on resolutions is cast by the Member, the Member shall not be allowed to change it subsequently. Resolutions passed by the Members through this Postal Ballot (through remote e-voting) shall be deemed to have been passed as if it has been passed at a General Meeting of the Members. The resolutions, if approved by the requisite majority of Members by means of Postal Ballot, shall be deemed to have been passed on the last date of remote e-voting, i.e. on Wednesday, December 14, 2022.

The Members, whose names appear in the Register of Members/ List of Beneficial Owners as on Friday, November 4, 2022, being the cut-off date, are entitled to vote on the Resolutions set forth in this Notice through remote e-voting only. The voting rights of Members shall be in proportion to their share in the paid-up equity share capital of the Company as on the said cut-off date. Hard copy of the Postal Ballot Notice along with the Postal Ballot Form and pre-paid business reply envelope are not sent to the Members for this Postal Ballot and Members are required to communicate their assent or dissent only through the remote e-voting system. This Postal Ballot is accordingly being initiated in compliance with the MCA Circulars.

Members holding shares in physical mode and who have not updated their email addresses with the Company are requested to update their email addresses by sending a duly filled Form ISR-1 (available on the Company's website and on the website of KFin Technologies Limited) along with relevant documents to the Company's RTA, KFin Technologies Limited, Unit: ACC Limited, Selenium Tower B, Plot 31 & 32, Financial District, Nanakramguda, Hyderabad – 500 032, Telangana or the scanned copies of the documents may alternatively be sent to KFin Technologies Limited on the email id einward.ris@kfintech.com with all the forms and proofs duly e-signed. Members holding shares in demat form who have not updated their email addresses with the depository/depository participant are requested to approach the concerned depository participant to update their email addresses.

The Postal Ballot Notice is also available on the Company's website i.e. www.acclimited.com and also on the website of stock exchanges i.e. www.bseindia.com and www.nseindia.com and on the website of KFin Technologies Ltd. at www.kfintech.com. A person who is not a member as on the cut-off date should treat this Notice of Postal Ballot for information purposes only.

The Board of Directors of the Company have appointed Mrs. Ashwini Inamdar, Partner, failing her Ms. Aditi Patnaik, Partner, failing her Mr. Atul Mehta, Partner, of M/s. Mehta & Mehta, Practicing Company Secretaries as the Scrutinizer to scrutinize the postal ballot process including votes cast through remote e-voting in a fair and transparent manner.

The results of the Postal Ballot will be declared within two working days from the conclusion of the Postal Ballot and will be displayed along with the Scrutinizer's Report at the Registered Office of the Company after communication to the Stock Exchanges viz. BSE Limited (www.bseindia.com) and The National Stock Exchange of India Limited (www.nseindia.com), where equity shares of the Company are listed, in accordance with the SEBI Listing Regulations and additionally be uploaded on the Company's website www.acclimited.com and on the website of KFin Technologies Limited at www.kfintech.com. The Scrutinizer's decision on the validity of the Postal Ballot shall be final.

For any queries with respect to remote e-voting, the Members may contact Ms. Shobha Anand, Deputy General Manager, KFin Technologies Limited, Selenium Tower B, Plot 31-32, Gachibowli, Financial District, Nanakramguda, Hyderabad- 500 032 on Phone No.: +91 40 6716 1700; Toll-free Nos.: 1800-309-8998/ 1800-309-4001 (from 9:00 a.m. IST to 6:00 p.m. IST on all working days) or send an e-mail on evoting@kfintech.com.

ADITYA BIRLA FIRM'S PROFIT FALLS 35%

India buoyant, but need to watch US & China: Hindalco MD

RAJESH KURUP
Mumbai, November 11

> While the availability of coal is still tight, we expect the situation to improve in the coming months. Prices of coal are also expected to fall by third and fourth quarters
>
> **SATISH PAI,** MD, HINDALCO

THE INDIAN MARKET is "extremely buoyant" with no indications of any slowdown, while the US and China are the two economies that need to be watched, according to a top official of Hindalco Industries.

The prices of coal in India, which peaked during the second quarter ended September, are expected to fall during the coming quarters, the official added.

"So far we are not seeing any slowdown in the Indian economy and it is extremely buoyant and is emerging strongly after the pandemic. The country is in a strong position with a strong demand being witnessed from sectors such as auto and infrastructure, but the US and China—the two largest economies—should be watched for any signs of a slowdown," Hindalco Industries managing director Satish Pai said during a media interaction.

"There is sustained demand from the country," he said, adding that the consumption of aluminium is up by 25%.

Hindalco, an Aditya Birla Group metals flagship company, posted a consolidated net profit of ₹2,205 crore, a 35% fall from ₹3,417 recorded in the same period a year ago. The net profit was impacted primarily by elevated input costs and inflationary impacts.

During the quarter, consolidated revenue rose 18% to ₹56,176 crore, driven by higher volumes and better realisations, compared with ₹47,665 crore logged during the year-ago quarter.

Coal prices, which peaked during the quarter, also had its impact. Hindalco's coal linkages were down to about 50% from the normal 60-70%, which prompted it to buy more coal from the open market.

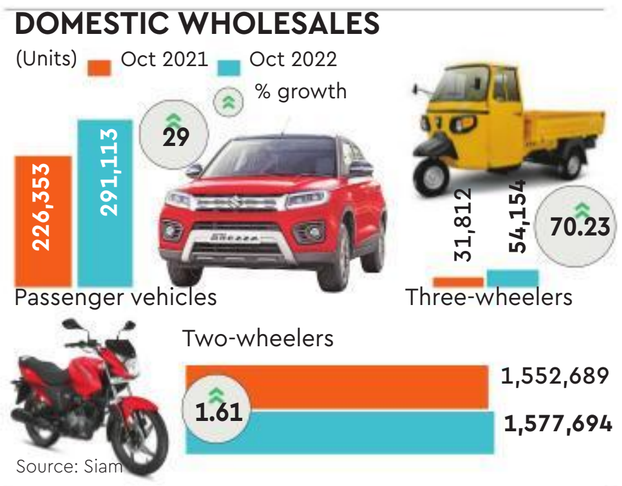
"While the availability of coal is still tight, we expect the situation to improve in the coming months. The prices of coal are also expected to fall by third and fourth quarters," Pai said.

Hindalco's quarterly consolidated Ebitda fell 29% to ₹5,743 crore (₹8,045 crore in the year-ago period), impacted by rising input costs and unfavourable macros, partially offset by better operational performance of the copper and downstream businesses.

"While the upstream aluminium business Ebitda was impacted due to elevated raw material and energy costs, our aluminium downstream business performed well with Ebitda more than doubling year-on-year due to better pricing and market demand. The copper business outperformed, reporting its highest-ever metal and copper rod sales," he added.

Novelis, the US subsidiary of Hindalco, said its revenue rose 17% to $4.8 billion in Q2 (from $4.1 billion), supported by higher volumes, increased product pricing, a favourable mix and higher average aluminium prices. Its total shipments of flat-rolled products were up 2% at 984 Kt in Q2, driven by recovery in automotive and aerospace shipments.

PV despatches grow 29% in Oct on festive boost



FE BUREAU
Mumbai, November 11

THANKS TO THE festive cheer, passenger vehicle (PV) despatches rose to 291,113 units during October, a growth of 29%, according to data shared by the Society of Indian Automobile Manufacturers (Siam).

The total two-wheeler despatches to dealers during the same month grew just under 2% to 1.57 million units. Two-wheeler makers like Hero MotoCorp claimed that retail level demand was strong during the month which has led to reduction in inventory.

Vinod Aggarwal, president, Siam, said: "Good market sentiments coupled with festive boost resulted in higher sales in October, especially for passenger vehicles. Higher inflation and rising interest rates have impacted the rural market more, thereby returning marginal growth of the two-wheeler segment."

The three-wheeler sales rose 70% to 54,154 units against the same month last year. Total vehicle sales (except commercial vehicles and entire sales of Tata Motors) grew 6% to 1.92 million units during the month.

The 42-day festive period, which falls between the first day of Navratri and 15 days post Dhanteras, saw a 29% jump in retail volumes to 2.88 million units, making it the best such period in four years, according to data earlier shared by the Federation of Automobile Dealers Association (Fada). The festive season, which generates 30-35% of the year's total volumes, was the primary reason for companies to build inventory.

Community radio: Pvt FM players want not-for-profit firms out

JATIN GROVER
New Delhi, November 11

PRIVATE RADIO PLAYERS such as Radio Mirchi, Radio City and Big FM have urged the Telecom Regulatory Authority of India (Trai) not to recommend allowing not-for-profit companies to run community radios.

The companies, through industry body Association of Radio Operators for India, have said granting permission to not-for-profit companies falling under Section 8 of Companies Act, 2013, would come at a financial loss to the exchequer. They said such companies would become eligible for benefits like reduced license fee, access to spectrum without auction, lower spectrum usage charges, among others, thereby reducing revenue for the government and giving strong competition to small community radios.

Community radio stations broadcast content that is of specific interest to people in a particular geography. The programmes may be related to education, entertainment and other interests of users in that community. As per current rules, only civil society and voluntary organisations, educational institutes, state agriculture universities, Krishi Vigyan Kendras, registered societies and autonomous bodies, and public charitable trusts are allowed to operate community radio stations.

Emami profit declines 3% at ₹180 cr; revenues grow 3.4%

FE BUREAU
Kolkata, November 11

EMAMI ON FRIDAY reported a 2.76% year-on-year fall in its consolidated net profit to ₹180.13 crore for the second quarter this fiscal even as its revenue from operations grew 3.38% y-o-y during the period.

The company's net profit had stood at ₹185.25 crore for the second quarter last fiscal. Revenue from operations increased at ₹813.75 crore for the period under review from ₹787.12 crore for the year-ago period, according to a stock exchange filing.

Mohan Goenka, vice-chairman and whole-time director, Emami, said consumer demand remained muted across markets with high inflation affecting consumption, especially in the rural markets.

Delhivery narrows loss to ₹254 cr

FE BUREAU
New Delhi, November 11

LOGISTICS COMPANY DELHIVERY on Friday said it narrowed its net loss to ₹254 crore for the quarter ended September against a loss of ₹635 crore in the corresponding quarter last year on the back of a surge in sales with the start of festive season sales towards the end of the quarter.

The company's revenue from services increased 22% year-on-year to ₹1,796 crore, up 9% y-o-y from ₹ 1,644 crore on a pro forma basis in the second quarter.

However, the company's adjusted Ebitda loss more than doubled to ₹125 crore from ₹58 crore in the previous quarter. Sequentially, there was an improvement.

In a business update shared on October 20 for the second quarter, the Gurugram-based company had said the company expects moderate growth of shipment volumes for the rest of FY23, which led investors into a tizzy, and its share price dropped 14% to ₹479 on the BSE.

Delhivery had posted a wider net loss of ₹399 crore for the three months ended June versus ₹130 crore loss in the year ago period.

Revenue from express parcel services in the September quarter increased 17% y-o-y to ₹1,125 crore. Express volumes were higher 19% y-o-y to 161 million shipments versus 135 million shipments in Q2FY22 on the back of a steady quarter with an added surge in volumes towards the end owing to the start of festive season sales. Shipment volumes grew by 80% during the festive season period over average volumes in prior weeks, company said in a statement.

Switch Mobility eyes West Asia market

SAJAN C KUMAR
Chennai, November 11

SWITCH MOBILITY, THE electric vehicle subsidiary of Ashok Leyland, has set its sights on the West Asia market for its expansion plans. Besides, the company is in talks with prospective strategic investors for a fundraise of $200-250 million.

Dheeraj Hinduja, executive chairman, Ashok Leyland, told select mediapersons on Friday Switch Mobility plans to roll out products in more geographies. "Currently, it is focused on the UK and India markets. It has displayed electric buses in Europe, which is a big market. We are getting interest from the Middle East (West Asia) market as well. After Europe, we will focus on that market," he said.

Hinduja said they are in talks with several investors to raise $200-$250 million and a deal is likely to be announced soon. "Though, the culmination of the deal is taking a bit more time than expected, we want to rope in the right strategic investor, hence the delay," he said. The dilution due to fresh infusion of capital will not be over 15%.

He said Switch plans to launch products in the LCV segment such as Dost and Bada Dost by the middle of next year. It may go in for collaborations for charging infrastructure and battery-related segments. "We are not open to collaborations on the product side, as we have already developed a number of products to be launched soon," he added.

Ashok Leyland back in black

ASHOK LEYLAND on Friday reported a profit after tax of ₹199 crore for the second quarter of FY23, compared with a loss of ₹83 crore in the same period last year. Revenue stood at ₹8,266 crore against ₹4,458 crore a year ago. Domestic M&HCV volumes at 25,475 units grew 113% over the same period last year, which is more than double the industry growth.

FROM THE FRONT PAGE

US data cheers markets

The Dow Jones rose 3.7% on Thursday, while the Nasdaq Composite was up 7.3%.

"This has reduced the recession probability from 60% to 40% and has brought down the expectation of a peak benchmark rate from 5.25% to 5%. This is the first spark of good news from the US in a long time and has been instrumental in lifting investor sentiments," said Sushant Bhansali, CEO, Ambit Asset Management.

Bhansali said emerging markets such as India will continue to be driven by the strength of its domestic consumption and the strength of the economy, which will also limit the impact of a global slowdown.

Ratings agency Moody's, however, slashed India's GDP growth projections for 2022 to 7% from 7.7% earlier citing global slowdown and rising domestic interest rates.

FPIs have pumped in $2.3 billion in Indian equities in November, paring the year to date outflows to $19.9 billion.

"What has helped the India market is the return of FII inflows, along with resilient earnings in sectors such as financial services, IT services and pharma. India's weight in emerging market indices has increased. Domestic flows remain healthy. While we continue to find the market expensive relative to its history, regional peers and on the elevated bond yield-earnings yield gap, flows are likely to dominate near-term returns," said Kunal Vora, head – India equity research, BNP Paribas India.

Most Asian stock markets rallied on Friday, while European stocks and US futures rose. China's withdrawal of some Covid-related curbs drove outsized gains in local markets. Chinese authorities on Friday shortened quarantine times for residents and inbound travellers, and scrapped a penalty on airlines that bring in infected passengers.

Economic data released Friday showed that UK gross domestic product fell 0.2% in the third quarter from the second, a slightly better outcome than the 0.5% decline feared. This was the first contraction in six quarters.

Narrow rally spells uncertainty

On Thursday, the selective rally was clearly reflected in the US markets as well. The Dow Jones' 3.7% rise was largely on the back of beaten-down IT majors such as Apple, Microsoft, Alphabet, Meta, Amazon and Nvidia. The Indian markets followed the same template, except for the HDFC twins. IT majors Infosys, Tata Consultancy Services (TCS), Tech Mahindra, HCL Technologies and Wipro led the rally and were up over 3%. The BSE IT index closed higher by 3.70% or over 1,060 points. In fact, the rally was so narrow that only Nifty IT, Nifty Financial Services, and Nifty Metal indices closed over 2%. All the other sectoral indices were up less than the benchmark indices, with Nifty Auto, Nifty PSU banking and NSE FMCG closing marginally down.

Market players say that such rallies may continue in the future, primarily because of the overall uncertainty in the global markets. "So, there is a strong possibility that the market may latch on to themes or stocks in the news in the coming days instead of a broader rally," said a fund manager who did not wish to be named.

Arun Kejriwal, founder, Kejriwal Research and Financial Services said: "Our markets are dangerously close to all-time highs. What happens in the global markets is important now. Of course, there will be few aberrations when US markets rise & we fall and vice versa. But more or less, we will be propped up/down, depending on the overall market mood."

According to him, traditionally, such selective rallies do not last too long. So, it makes sense for investors to be cautious during such times.

Hinduja bros call truce

London appeal judges on Friday lifted reporting restrictions on court hearings centered around Srichand's health and the care he was receiving following an 18-month legal battle by Bloomberg News and the Press Association and the UK's Official Solicitor, ending years of secrecy that tied into a commercial case over the empire.

NOTICE

NOTICE is hereby given that HDFC Trustee Company Limited, Trustee to HDFC Mutual Fund ("the Fund") has approved the following Distribution under Income Distribution cum Capital Withdrawal ("IDCW") Options in **HDFC Arbitrage Fund**, an Open-ended Scheme investing in Arbitrage Opportunities ("the Scheme") and fixed **Thursday, November 17, 2022** (or the immediately following Business Day, if that day is not a Business Day) as the Record Date for the same:

Name of the Scheme / Plan(s) / Option(s)	Amount of Distribution (₹ per unit)#	Face Value (₹ per unit)	Net Asset Value ("NAV") as on November 10, 2022 (₹ per unit)
HDFC Arbitrage Fund - Wholesale Plan - Regular Plan - Normal IDCW Option (Payout and Reinvestment)	0.040	10.00	10.397
HDFC Arbitrage Fund - Wholesale Plan - Direct Plan - Normal IDCW Option (Payout and Reinvestment)			10.808
HDFC Arbitrage Fund - Wholesale Plan - Regular Plan - Monthly IDCW Option (Payout and Reinvestment)			10.767
HDFC Arbitrage Fund - Wholesale Plan - Direct Plan - Monthly IDCW Option (Payout and Reinvestment)			10.498

Amount of distribution per unit will be the lower of the rate mentioned above or the available distributable surplus (rounded down to a multiple of five at the third decimal) as on the Record Date.

Pursuant to the Distribution, the NAV of the IDCW Option(s) of the above Scheme would fall to the extent of such distribution and statutory levy, if any.

Amount will be paid, net of applicable tax deducted at source (TDS), to those Unit holders / Beneficial Owners whose names appear in the Register of Unit holders maintained by the Fund / Statements of Beneficial Ownership maintained by the Depositories, as applicable, under the IDCW Option(s) of the aforesaid Scheme on the Record Date (including investors whose valid purchase / switch-in requests are received by the Fund and the funds are available for utilization before cut-off timings in respect of the aforesaid Scheme, on the Record date).

With regard to Unit holders who have opted for Reinvestment facility under the IDCW Option(s), the amount due (net of applicable TDS) will be reinvested, by allotting Units at the ex-Distribution NAV per Unit (adjusted for applicable stamp duty).

Unit holders are advised to opt for payout through electronic mode(s) at the earliest due to the inherent benefits of such mode(s) such as convenience of the credit of the distribution proceeds into their bank account directly as also avoiding loss of payment instruments in transit or fraudulent encashment. Please arrange to send us a copy of a cancelled cheque of your bank account to have the electronic payout mode enabled.

Intimation of any change of address / bank details should be immediately forwarded to the Investor Service Centres of the Fund (for units held in non-demat form) / Depository Participant (for units held in demat form).

In view of individual nature of tax consequences, each investor should seek appropriate advice.

CROP DAMAGE PROMPTS RETHINK

Punjab planning to join crop insurance scheme

Telangana, Gujarat, Jharkhand, Bihar too rejoining PMFBY

SANDIP DAS
Mohali/ New Delhi, November 11

THE PUNJAB GOVERNMENT is set to join Pradhan Mantri Fasal Bima Yojana (PMFBY) from the next crop year (2023-24). What prompted the state government, which hasn't adopted the scheme launched in 2016, to change its stance is large-scale damage to crops in the last two seasons due to adverse weather conditions and past attack.

The state had steadfastly refused to join the scheme, citing assured irrigation of its agriculture fields. Punjab's move comes after several states such as Telangana, Bihar, Jharkhand and Gujarat, which had dropped out of the scheme citing the high cost of premium, have initiated discussions with the Centre to roll it out by next year.

Gurvinder Singh, director, department of agriculture, Punjab, said that in the last two years, the state government has paid around ₹1000 crore to the farmers as compensation because of damage to cotton crop from pink bollworm pests and unseasonal rains.

"We are currently working out the modalities for joining the crop insurance scheme," Singh told *FE*. He said that through joining the scheme, the financial burden for providing compensation to the farmers could be reduced.

Under the heavily subsidised PMFBY, the premium to be paid by farmers is fixed at just 1.5% of the sum insured for rabi crops and 2% for kharif crops, while it is 5% for cash crops. The balance premium is equally shared between the Centre and states; in the case of the northeastern states, the premium is split between the Centre and states in a 9:1 ratio.

In July, the Andhra Pradesh government said it would rejoin the PMFBY, effective kharif 2022, after the Centre agreed to its proposal of universalising the scheme for all farmers. In February 2020, the government made the PMFBY voluntary for farmers; previously, it was mandatory for farmers to take insurance cover under the scheme. The scheme is currently being implemented in 21 states/ Union territories.

A delay by the Telangana government in releasing its share of premium in 2018-19 and 2019-20, led to the Centre stopping the release of its component of a matching sum, thus leading to delay in claim settlement for the farmers. Subsequently, Telangana stopped implementing the PMFBY from the 2020 kharif season.

Meanwhile, the government is considering a slew of proposals to revamp PMFBY by next year, following a sharp drop in claims to premium ratio, rise in premium rates pushing subsidy liability of the government.

Sources said consultations with all the stakeholders are currently in progress and the revamped PMFBY will help widen the crop insurance cover for farmers. Among the likely changes are a higher claim-premium cap of 130% from 110% now — a move aimed at infusing fresh life into the scheme.

According to an analysis by a working group set up by the agriculture ministry, since 2016, PMFBY premium has increased by over six-fold, which has led to an increase in subsidy liability of the government.

WHEAT & OILSEEDS SOWING PICKS UP

AREA UNDER WHEAT this season touched 4.5 million hectare (mh) on Friday, up 10% on year, reports **Sandip Das** in New Delhi. With sowing commencing in the all major producing states — Punjab, Haryana, Madhya Pradesh, Rajasthan and Uttar Pradesh — wheat crop is likely to exceed previous year's level as farmers look for remunerative prices given the tight global supplies. Meanwhile, the area under all the winter crops has reached 17.8 mh up 5.6% from the year-ago level. The five-year average rabi crop area is 63.3 mh. Areas under oilseeds such as mustard and groundnut have been reported 12.8% more than the previous year at 5.8 mh. However, area under pulses has been marginally lower at 5.4 mh. Coarse cereal sowing has declined by 10% so far. The winter sowing will continue till the end of December and harvesting begins in April.

Apex court releases all 6 convicts in Rajiv Gandhi assassination

EXPRESS NEWS SERVICE
New Delhi, November 11

THE SUPREME COURT on Friday set free the remaining six convicts serving life terms for the assassination in 1991 of former Prime Minister Rajiv Gandhi at Sriperumbudur in Tamil Nadu, extending to them the benefit of its order releasing co-convict A G Perarivalan nearly six months ago.

Hearing pleas by the six convicts, a bench of Justices B R Gavai and B V Nagarathna ordered that "the appellants are directed to be set at liberty if not required in any other matter". Those who have been allowed premature release are Nalini Sriharan, T Suthendraraja alias Santhan, V Sriharan alias Murugan, Robert Payas, Jayakumar and Ravichandran alias Ravi.

On May 18, the apex court had ordered the release of Perarivalan, exercising its powers under Article 142 of the Constitution. On Friday, the bench said the same order will apply to the six other accused as well.

The bench noted that the six had spent over three decades in jail in the case and said their conduct was satisfactory in this period during which they had pursued studies as well. On Nalini, the court took into account that she was a woman.

Nalini Sriharan

In 2018, the then AIADMK government in Tamil Nadu recommended the names of all the seven convicts for premature release. But the decision remained pending before the state's Governor following which Perarivalan approached the Supreme Court.

In February 2021, the Centre told the Supreme Court that the governor had "considered all the facts on record and that after perusal of the relevant documents, recorded that the Hon'ble President of India is the appropriate competent authority to deal with the...request for remittance".

Aether Industries Limited – Q2/H1 FY-23 Results

CRAMS increased by 68% and Contract / Exclusive Manufacturing increased by 112% HFY-o-HFY

Surat, November 11, 2022: Aether Industries Limited has witnessed tremendous growth in two business models, CRAMS and Contract / Exclusive Manufacturing. The growth in these two business models has been multifold viz. 68% growth in CRAMS and 112% growth in Contract / Exclusive Manufacturing, from HFY-22 to HFY-23.

The company's third business model, Large Scale Manufacturing, has shown a decline primarily due to the downward trend in the global Pharmaceutical industry. The Company however anticipates good future growth in this business model as well, due to the launch of 5 new products in this business model in their upcoming green-field manufacturing site within this fiscal year.

The Company has recorded a total revenue of Rs. 1,466 million in Q2 of FY-23, leading to total revenue of Rs. 3,127 million in the HFY-23, which has led to an increase of 6% in the total revenue HFY-o-HFY. The EBITDA remained almost flat HFY-o-HFY from Rs. 912 million in HFY-22 to Rs. 918 million in HFY-23, thereby resulting in EBITDA margin of 29.4% in HFY-23. PAT increased from Rs. 575 million in HFY-22 to Rs. 578 million in HFY-23, being almost flat.

Revenue for Q2 of FY-23 grew by 1.5% YoY (compared to Q2 of FY-22) from Rs. 1445 million to Rs 1466 million, but showed a drop by 11.8% compared to Q1 of FY-23, which was envisaged and well informed by the Company in the last quarter also, due to the slow down in the Pharmaceutical Industry.

The Company earned an EBITDA of Rs. 433 million in Q2 of FY-23 which was down by 0.8% (compared to Q2 of FY-22) and down by 10.9% (compared to Q1 of FY-23).

The PAT for the Company has been Rs. 272 million in Q2 of FY-23 which has increased by 8.0% (compared to Q2 of FY-22) and reduced by 11.1% which is line with the drop of the revenues.(compared to Q1 of FY-23).

52% of our top line is contributed by the Large Scale Manufacturing business model; 13% of our top line is contributed by Contract Research and Manufacturing Services business model which funnels into 3rd business model i.e., Contract / Exclusive Manufacturing which contributed to 33% to our top line.

Our Sales Mix stands at Pharma 46%, Agrochemicals 33%, Material Science 6%, High Performance Photography 6%, Coatings 4% and Others including Oil & Gas as 5%.

Our Exports stands at 49%, which includes export to SEZ and EOU units in India and Domestic Sales stands at 51%. Exports outside the geography of India accounted for 36% of the total revenue from operations.

A snapshot of the financials of the Company are as under:

Amt in Mns	Q2FY23	Q1FY23	Q o Q	Q2FY22	Y o Y	HFY23	HFY22	Y o Y
Revenue	1,466	1,662	-11.8%	1,445	1.5%	3,128	2,957	5.8%
EBITDA	433	486	-10.9%	437	-0.9%	919	912	0.8%
EBITDA Margin	29.5%	29.2%		30.2%		29.4%	30.8%	
PAT	272	306	-11.1%	252	7.9%	578	575	0.6%
PAT Margin	18.6%	18.4%		17.4%		18.5%	19.4%	

Major highlights for the Company have been:

1. New product launched under Large Scale Manufacturing business model having end application in pharmaceutical industry.
2. We have started business with 11 new customers during the quarter across all business models.
3. Expanded R&D Centre has become operational and is equipped with 55 fume hoods in R&D and more than 100 reactors in pilot plant.
4. The Company's solar power plant has been commissioned since July 2022 and is giving more than 80% output, helping save electricity cost.
5. More than 50 new team members joined Aether in HFY across all departments.
6. Successfully concluded twelve customer audits and certification audits in HFY.

Commenting on the results, Dr. Aman Desai, Promoter & Whole-time Director, Aether Industries, said, 'Despite global softening of the overall chemical industry especially the pharmaceutical industry, our company has posted a reasonable quarterly result. As the downward trends stabilise and especially as India continues to be on the forefront of the global CRAMS opportunities, we are significantly optimistic in our overall outlook. We are adding major global customers to our CRAMS list and renewing significant annual contracts. The newly expanded R&D Centre and pilot plant has been officially inaugurated and is already filling up with new projects across all business models. The Large-Scale Manufacturing business model, despite 2 slow quarters, should soon trend upwards owing to the 5 new products being launched in our upcoming green-field manufacturing site, which is on schedule and on track to step-wise launch by December 2022."

CENTRAL FUNDS

₹32,500 crore transferred to states

PRASANTA SAHU
New Delhi, November 11

THE CENTRE HAS disbursed about ₹32,500 crore as 50-year interest-free capex loans to the state governments so far, as against sanctioned amount of ₹65,000 crore, official sources told *FE*. Of the ₹1 trillion grant-like special capex facility, almost the entire amount would be utilised by March as four states who did not comply with conditions to avail the facility are coming on board, sources said.

"Most of the states are in the process of submitting utilisation certificates for the first tranche of 50% of the sanctioned amount. We expect to disburse the entire sanctioned amount of ₹65,000 crore in another month or so," a senior official told *FE*. Following the finance ministry's "final chance" to four states asking them to comply with the "no-rebranding rule" regarding the centrally sponsored schemes by November 30 to avail themselves of the funds, Telangana, Rajasthan and Odisha are understood to have fallen in line. West Bengal is also expected to comply to the norms soon. "No state would like to miss out on the grant-like capex funds from the Centre," the official said. Non-compliance will lead to the re-allocation of their quotas of the capex loan to other states.

The Centre launched a ₹1 trillion scheme for FY23 to help states maintain capital expenditure momentum, even after the end of the goods and services tax (GST) compensation.

Most of the approvals and disbursements are for ongoing projects and clearing pending capex bills, but some new projects are also covered.

The beneficiary states so far include Uttar Pradesh, Tamil Nadu, Bihar, Chhattisgarh, Karnataka, Maharashtra, Haryana, Madhya Pradesh, Jharkhand, Goa, Himachal Pradesh, Meghalaya, Assam, Manipur, Nagaland, Sikkim, Arunachal Pradesh and Tripura. States lose out if they don't meet the Centre's norm that they can't change the original name of centrally sponsored schemes, a key condition for availing funds.

The Centre's view is that even though it spends annually over ₹4 trillion under these schemes, many states, especially those ruled by non-BJP parties, have changed many schemes' names to deny credit to it. The capex support facility has given it a handle to fix this issue.

Of ₹1 trillion capex facility, ₹80,000 crore would be released proportionately to the states' share in the devolution of central taxes and for projects solely based on their viability. The release of the balance ₹20,000 crore is linked to infrastructure connectivity projects such as the laying of optical fibre cables for last-mile connectivity under BharatNet in rural areas, the state component of the PM Gram Sadak Yojana, projects under the GatiShakti master plan and urban sector reforms.

Schneider Electric

Addendum to the Invitation for the Third Round of expression of interest for availing White labelling of the Electric and automation products of Larsen & Toubro - Electrical and Automation, as published by Schneider Electric India Pvt. Ltd. ("**SEIPL**") on 14 October 2022 ("**Invitation for Expression of Interest**").

It is hereby informed that as provided under paragraph 4 of the Invitation for Expression of Interest and in accordance with the terms and conditions of the CCI Order as set out below, at the end of the White Labelling period an option to enter into a non-exclusive, non-transferable and non-sub licensable technology license shall be available to a single third party LV switchgear manufacturer who:

"111.1 Has white label offtake for at least 3 continuous years of the product for which it seeks the technology license; and

111.2. Has an average annual offtake of at least 10% of the installed capacity of such individual product for white labelling for the period of the white labelling remedy."

As such, the quantities i.e. range wise installed capacity, 10% of the installed capacity and quantities available for off-take under white labelling will be disclosed, under the supervision of the Monitoring Agency appointed by the Hon'ble CCI, once the confidentiality undertakings i.e. clean team agreements are signed between SEIPL and the interested party (being an eligible applicant for white labelling).

SEIPL will also conduct a pre-bid meeting within one week of the publication of this addendum, i.e. on 21 November 2022, to provide clarifications in relation to this EOI. Interested parties to contact us whitelabel.support@se.com, for further details on the pre-bid meeting

MODI LAUNCHES A SLEW OF PROJECTS

This govt bets on speed & scale: PM

JOHNSON TA & SANATH PRASAD
Bengaluru, November 11

PM Narendra Modi, Karnataka CM Basavaraj Bommai and others at Terminal 2 of the Bengaluru airport on Friday. PTI

THE GOVERNMENTS THAT were in place before 2014 considered speed a luxury and scale a risk, leading to slow development, but the BJP-led Centre sees speed as ambition and scale as the country's strength, Prime Minister Narendra Modi said Friday after inaugurating a slew of projects in Bengaluru.

Referring to the surge in digital payments over eight years and the rollout of 5G services, he said, "In the India that existed before 2014, these things could not have been imagined. The reason is that the governments that existed earlier had an old way of thinking. The previous governments considered speed as a luxury and considered scale to be a risk ... We have changed this thinking. We think speed is the ambition of India and scale is the strength of India."

During his visit to Karnataka, which will go to polls next year, the PM inaugurated Terminal 2 and a 108-ft tall statue of Kempegowda, the 16th-century founder of Bengaluru, at the Kempegowda International Airport.

He also unveiled a semi-speed Vande Bharat train between Bengaluru and Chennai, and a train for pilgrims to Ayodhya, Kashi and Prayagraj.

Addressing a public gathering later, Modi said, "Today, whether it is discussions on governance or the creation of physical and digital infrastructure, India is working at another level. Today the whole world is surprised by digital payment systems in India like the BHIM UPI. Could this have been imagined eight years ago?"

He said, "Made in India, 5G technology could not even have been imagined. In all these things, the youth of Bengaluru and the professionals in the city have played a big part."

The PM also outlined the infrastructure and development initiatives unveiled by his Government, including the PM Gati Shakti national plan for multi-modal connectivity and the creation of rail, air and road infrastructure.

"Vande Bharat is not just a new train but an example of the future of India. Vande Bharat trains show that India's days of halting progress are gone and that India wants to progress fast," he said.

Twitter offers blue tick to some Indian users at ₹719 a month

FE BUREAU
New Delhi, November 11

TWITTER HAS STARTED to roll out paid verification for Indian users at ₹719 a month, higher than the $8 (₹650) it is charging in other countries, according to images shared by some users on the microblogging site.

Currently, some iPhone users in India have received a notification for the subscription fee to use Twitter with a verified badge.

The launch of the paid verification service or Twitter Blue comes days after new Twitter chief Elon Musk rolled out the policy in some other countries. At that time, Musk had said services in India will be launched in less than a month.

Some users in India criticised Musk for the higher price, given his earlier claim that price will be adjusted to purchasing power parity of a particular country.

"Twitter Blue is available in India at ₹719/ month. This is ₹71 higher than US rate. What was the purchasing power you were talking about," a user tweeted, tagging Musk.

EXPLAINER

BIG TECH FIRMS ON COURSE CORRECTION

In the last few days, big tech firms like Twitter and Meta have fired thousands of employees. Since these companies are considered to be among the world's top-most employers, the layoffs have further strengthened fears of economic slowdown. This could have an impact on other technology and internet companies. *Ayushman Baruah* explains:

90%
of Twitter's India workforce let go as part of global layoffs, hitting engineering and product teams

Nearly 50%
of Twitter's 7,500-strong global workforce estimated to have been sacked

11,000
employees, or 13% of Meta's workforce, will be sacked

■ Many cautious Indian IT companies have already scaled down hiring

What sparked the fire?

It all began with Elon Musk's acquisition of Twitter, wherein he started the process of mass layoffs in the first week of November, just as he completed a week at the company. Internal emails gave employees a heads-up about the decision to reduce the workforce. Twitter is estimated to have sacked half of its 7,500-strong staff in a sudden move that shook the big tech industry, perceived to be robust and among top employers that paid fat salaries and attractive perks. After Twitter's mass layoffs, Facebook parent Meta, Microsoft, and Amazon followed suit. Meta Platforms said on November 9 it will let go of 13% of its workforce, or more than 11,000 employees, a first in its 18-year history. Microsoft has reportedly laid off nearly 1,000 employees and Amazon is in the process of issuing pink slips.

What are the implications for India?

The developments at Meta and Twitter have had a clear impact in India as well. First, because a sizeable portion of their workforce is based in India and second, it creates an atmosphere of uncertainty for domestic IT services companies and startups. Twitter has fired more than 90% of its staff in India as part of its global reductions, severely depleting its engineering and product staff in a potential growth market. Meta has also reportedly laid off a significant portion of its India workforce and Indians who have relocated abroad for a job at the social media giant. For Indian IT companies and startups, it could be a signal that a global slowdown is on its way.

What are the possible reasons?

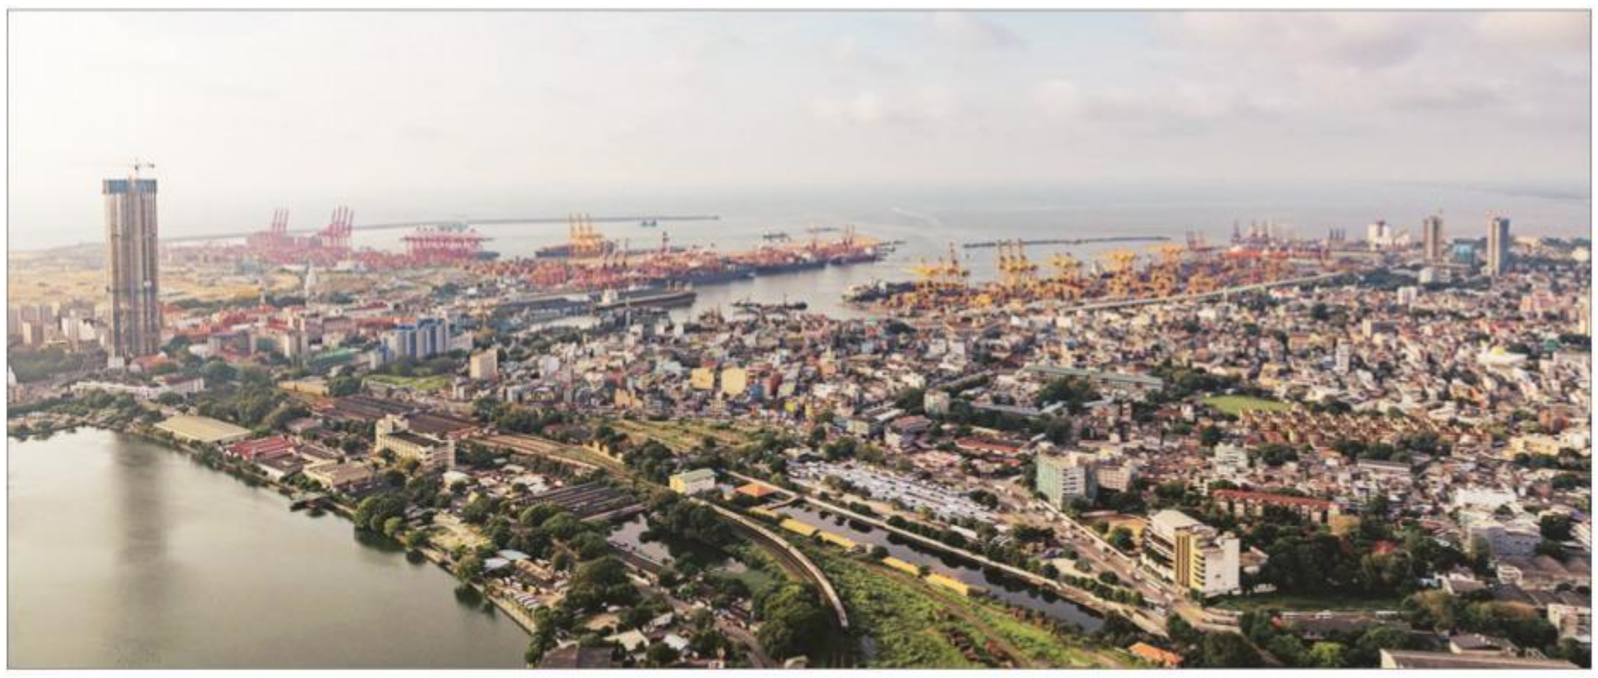
At Twitter, Musk's move to trim its workforce seems to be to find ways to pay for the mammoth $44-billion deal for which he took on billions of dollars in debt and sold $15.5 billion worth of shares in Tesla, his electric car company. According to reports, he has to find new ways for Twitter to make money after the buyout, including the idea to charge users $8 a month for verified accounts. "The moves would help overcome the potential loss of advertisers, Twitter's main source of revenue, with many of the world's top brands putting their ad buys on hold, spooked by Musk's well-known disdain for content controls," a news report said. Meta is also battling with rising costs and a weak advertising market. Some reports also suggest that platforms like Meta have been impacted by an update from iPhone maker Apple, which introduced an app tracking feature that allows users to opt out of apps that track them.

What does the future hold?

Analysts believe this is more of a course correction for these companies, as they ramped up too quickly on the tailwinds of the pandemic-led digital growth, hence, slowdown was expected at some point. The rest of the industry is playing cautious now. There could be a slowdown in campus hiring, both globally and in India, which would adversely impact the future of thousands of young graduates. The hiring at tier-1 Indian IT services companies in the September quarter has already been subdued and it is expected to further come down in the next few quarters. It remains to be seen if the bad news ends here or the worse is still to come.

With ports & energy push in Sri Lanka, Adani takes on China

CHRIS KAY
November 11



The site for the West Container Terminal (left rear) in Colombo, which Adani Ports and Special Economic Zone will develop, build and operate BLOOMBERG

A SMALL GROUP of fishermen ply the shallow coastal water along Pooneryn in northern Sri Lanka, an impoverished, remote area within striking distance of India's southern tip. It's where Gautam Adani —the Indian billionaire who is Asia's richest man and has vaulted ahead of Jeff Bezos this year — plans to build renewable power plants, thrusting him into the heart of an international political clash.

With Sri Lanka in the throes of its worst economic crisis since its independence from Britain in 1948, India is reengaging and attempting to tilt the balance in a strategic tussle with China on the island, a pivotal battleground because it lies on key global shipping lanes and plays into New Delhi's fear of encirclement from its Asian rival.

At the forefront of those efforts is Adani, who is a long-time supporter of Indian Prime Minister Narendra Modi, and has been accused by some Sri Lankan lawmakers of signing opaque port and energy deals closely tied to New Delhi's interests, something his group has always denied, saying the investments meet Sri Lanka's needs.

Sitting atop a $137 billion wealth pile, Adani controls an empire that spans ports, coal plants, power generation and distribution. While he derives the vast majority of his fortune from India, Adani has gradually made more overseas deals and told shareholders in July that he seeks a "broader expansion" beyond India's borders with "several" foreign governments approaching his conglomerate to develop their infrastructure.

Those moves and Adani's perceived closeness to Modi's administration have spurred suggestions the tycoon could be the cash cow for India's push-back against China, whose Belt and Road infrastructure drive is intended to increase Beijing's influence in strategic countries and on the global stage.

"In countries that the Indian government has better relations than the Chinese government, Adani could find success," said Akhil Ramesh, a resident fellow at the Pacific Forum research institute in Honolulu.

While India lacks the financial firepower China, Adani's investments in countries such as Israel and Sri Lanka compete with Chinese state-owned firms. And it's in Sri Lanka where that tension is playing out most acutely. Adani's investments there were described to *Bloomberg News* by multiple Indian and Sri Lankan officials as advancing the Modi administration's objectives on the island, in much the same way his businesses in ports, power and cement coincide with the government's economic priorities at home. Adani has repeatedly denied his firms receive special treatment from government.

In October last year, Adani emphasised the "strong bonds" between the two nations when he met with then Sri Lankan President Gotabaya Rajapaksa, just months after inking a $750 million Colombo port deal. It was a rare example of Indian infrastructure investment in Sri Lanka, after Colombo in previous years pivoted to Beijing —which has funded everything from highways to ports through Belt and Road — and splurged on debt-fueled projects.

Soon after that meeting, a team from Adani Group —which is targeting a $70 billion move toward green energy —toured Sri Lanka's north. The region has been starved of investment since the end of the country's 26-year civil war in 2009. The visit seemed a turning point, as not long after the Rajapaksa administration terminated Chinese solar projects on islands in the Palk Strait between India and Sri Lanka because of security concerns from New Delhi, according to multiple people with direct knowledge of the matter. China's embassy in Colombo later confirmed the end of the solar projects on social media.

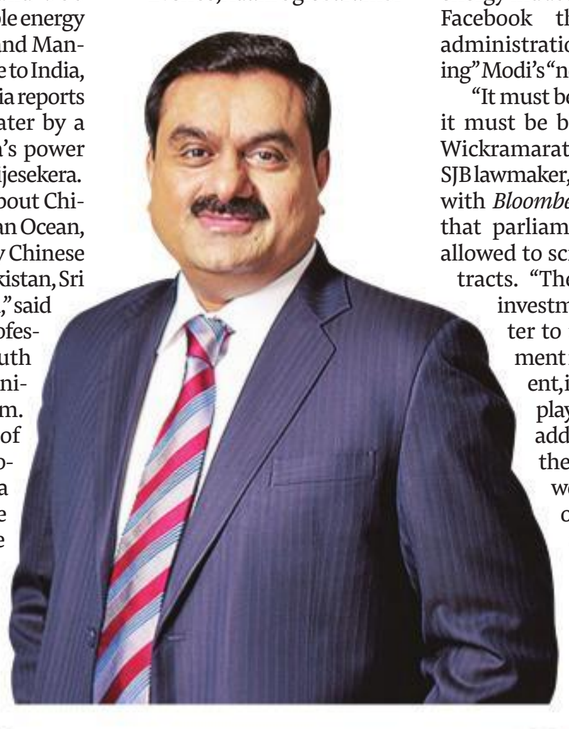
In early 2022, Adani quietly signed memorandums of understanding to build 500 megawatts of renewable energy projects in Pooneryn and Mannar, other districts close to India, according to local media reports confirmed months later by a tweet from Sri Lanka's power minister, Kanchana Wijesekera.

India "is worried about Chinese access to the Indian Ocean, and being encircled by Chinese friendly regimes in Pakistan, Sri Lanka and Bangladesh," said Katharine Adeney, a professor and expert on South Asian politics at the University of Nottingham. Adani's supplanting of China's solar power projects represents "a strategic move and one that we are likely to see more of," she said.

Spokespeople for Adani Group and India's foreign ministry declined to comment. China's ambassador in Colombo and a representative for Sri Lanka's president didn't respond to requests for comment. Power minister Wijesekera also didn't respond to messages from *Bloomberg*.

The billionaire has started to publicly criticise China, saying in September at a conference in Singapore, that China was "increasingly isolated" with Belt and Road facing "resistance".

Even so, Adani's global ambitions face challenges. As the billionaire boosted his influence in Sri Lanka, local media and opposition politicians have claimed that his companies have skirted due process. Soon after Sri Lankan media reported that Adani signed the northern power agreements in March, Ajith Perera, chief executive of the Samagi Jana Balawegaya — the country's largest opposition party — protested what he called Adani's "back door" entry into its energy industry. Perera said on Facebook that Rajapaksa's administration was "pampering" Modi's "notorious friends".



Gautam Adani

"It must be transparent and it must be bidded out," Eran Wickramaratne, a prominent SJB lawmaker, said in interviews with *Bloomberg News*, adding that parliament hasn't been allowed to scrutinise the contracts. "The colour of the investment doesn't matter to us — but investment must be transparent, it must be an equal playing field," he said, adding "we can't fault the foreign investor, we have to fault our own government and our system."

A spokesperson for Rajapaksa didn't respond to a request for comment. In a statement on the protests to *PTI*, the Adani Group said its intent in investing in Sri Lanka "is to address the needs of a valued neighbour. As a responsible corporate, we see this as a necessary part of the partnership that our two nations have always shared". In June, the Ceylon Electricity Board Engineer's Union threatened to strike over legislation that removed public competition from the allocation of wind and solar projects, pointing specifically at Adani's plans in northern Sri Lanka. Later that month, the chairman of the state-run utility told a parliamentary committee that Modi's government had pressured Sri Lanka to accept Adani's energy proposals. He resigned days later, claiming he was "emotional" when making the statement, and after Rajapaksa "categorically" denied the allegations.

A spokesperson for the CEB didn't respond to a request for comment. "We are clearly disappointed by the detraction that seems to have come about," the Adani Group said at the time, according to a report by *NDTV*. "The fact is that the issue has already been addressed by and within the Sri Lankan government." Protests ensued in Colombo. The crowds held signs reading "Stop Adani" and "Modi don't exploit our crisis."

Adani, like Modi, hails from Gujarat. He built his fortune over the past decade partly by focusing on business areas that were central to Modi's national priorities. In 2002, months after Modi became chief minister of Gujarat, more than 1,000 people, most of them Muslims, were killed in the state in one of India's worst periods of sectarian rioting. Modi was accused by human rights groups of doing little to stop the violence, allegations subsequently dismissed by the nation's Supreme Court.

Adani, whose businesses had yet to expand across India, was among local Gujarati businessmen who helped create a biannual investment summit in the state that gave Modi a platform to promote his pro-business image. Adani's fortune has grown exponentially since Modi was elected PM in 2014.

In recent years, China's Belt and Road Initiative has funneled billions of dollars into South Asia, but Sri Lanka's grinding economic crisis, coupled with food, fuel, medical and power shortages, presented India with a window to push its influence with its smaller, strategic neighbour. New Delhi has sent Sri Lanka $4 billion of aid and credit lines this year as it also attempts to both stem a humanitarian catastrophe on its doorstep and further its geopolitical objectives.

Adani's investments were described by multiple Indian and Sri Lankan officials as advancing the Modi administration's objectives there

Rajapaksa fled the country in July, handing the reins to Ranil Wickremesinghe following violent unrest. Since then, Wickremesignhe has sought to dial back anti-Chinese sentiment as his administration initiates debt restructuring talks with both Beijing and New Delhi. "Ranil's very much a pragmatic leader in that he realises every international actor is needed at this moment, he's not going to take sides," said Bhavani Fonseka, a senior researcher and lawyer at the Colombo-based Centre for Policy Alternatives. At the same time, Adani's renewable moves "didn't get the attention it should have" amid the wider unrest and now there's relative calm there might be an opportunity for reexamination, she said.

For Modi, securing a foothold in Colombo's new port is seen as particularly important, with China constructing the adjacent Colombo Port City, a Dubai-like financial hub, and operating the Colombo International Container Terminals.

While India and Adani saw a setback in Sri Lanka when a deal to develop the East Container Terminal at the new port was canned by Rajapaksa after push-back from unions, the billionaire scored a win last year.

New deals were struck and Adani Ports and Special Economic Zone was awarded the right to develop, build and operate the West Container Terminal, holding a 51% stake in a joint venture with local conglomerate John Keells. In a rare insight into the linkages between Adani and Modi, at a cabinet meeting in March last year, Sri Lankan ministers said New Delhi had nominated Adani for the project, a claim that later that month an Indian foreign ministry spokesperson said was "factually incorrect".

The project also wasn't publicly tendered. India would have found it difficult to outbid China in an open process, people with direct knowledge of the deal said. As it was, in November, China Harbour Engineering was also selected by Sri Lanka's government to help construct the East Container Terminal.

India likely has a vested interest in having one of its own companies build a port terminal close to China's own port project, said Samantha Custer, director of policy analysis at AidData, a research unit at William & Mary University in Virginia. Indian companies are often disadvantaged due to Beijing tying project finance to implementation by state-subsidised Chinese firms, she said. "One of the motivations for moving forward is geostrategic in order for a politically connected Indian company to be willing to accept delayed or uncertain economic returns," said Custer. "That said, an uncertain economic return on investment is not the same thing as no return on investment, and the Adani Group likely recognises this is a long-term play with a high risk and high reward proposition." — BLOOMBERG

Notes :

1 The Company has been admitted in National Company Law Tribunal (NCLT) on 20th December 2019 – Order no. – CP (IB) No. 4374/I&B/MB/2018. As per the order the company is under Corporate Insolvency Resolution process (CIRP) with Resolution professional (RP) namely "Mr. Vijendra Kumar Jain".
The Committee of Creditors approved the Liquidation of the Company in the COC meeting held on 24th August, 2021. Pursuant to this approval, Hon'ble NCLT approved the liquidation vide order dated 16th December 2021 and the liquidator, namely ""Mr. Ashish Vyas"" was appointed vide modification order dated 4th January, 2022. The modified liquidation order was uploaded and received on 21st January 2022.
An Appeal was filed by the suspended management against the Hon'ble NCLT order. With reference to this appeal, the Hon'ble NCLAT, vide its order dated 31st January, 2022, has stayed the liquidation proceedings, and the matter was listed on 5th September, 2022. Pursuant to this Order, the Resolution Professional is carrying out the Compliances for the quarter ended 30th Sept, 2022.
Currently, a resolution plan has been approved by the Committee of Creditors and has been filed with Hon'ble NCLT for its consideration."

2 The suspended management has not handed over the possession of the corporate and registered office, content library (intangible asset), inventories, other fixed assets, Fixed Assets Register and other such information and records/ documents requested by the Corporate Debtor. The Resolution Professional has filed a non-cooperation petition with Hon'ble NCLT, Mumbai against the suspended management of the Company under section 19 of IBC. The non-cooperation petition was listed on 6th October, 2020. After hearing the non-cooperation Petition at length, an interim Order was passed by the Hon'ble NCLT, Mumbai Bench. The bench appointed Adv. Nikita Abhyankar as the court observer for recording the minutes and also take videography of the joint meeting of RP and Suspended management for handover of live books of accounts, content library, registered office, Kandivali plot, and the related pending information and request, and report the same to Hon'ble NCLT. After the interim order of the Hon'ble NCLT, recently, limited access to books of accounts for last two financial years was provided. However, Fixed asset register, books of accounts upto 2017-18 and various supporting documents have not been provided. To that effect, the RP has already communicated with the Court Observer. Further, hand-over of the Kandivali plot was completed.
As suspended management has not yet handed over the Fixed Assets register, exact depreciation amount for the quarter ended September 2022 could not be calculated. Accordingly, depreciation amount for the quarter ended September 2022 is assumed to be equal to depreciation amount for the quarter ended March 2022."

3 The above Standalone Financial Results of the Company have been reviewed by the Resolution Professional Committee (in lieu of the Suspended board of Directors) held on 11th November 2022. 2. The Company and its joint venture's operations comprise of only one segment i.e. Thermal products. Hence, no further information is required to be given in respect of segment.
3. In view of the Covid-19 pandemic, considering the current internal and external factors, the Company and its joint venture have made detailed assessment of their liquidity position/cash flow and of the carrying value of their assets and liabilities as at September 30, 2022 and have concluded that there are no adjustments required in the consolidated financial results. The Company and its joint venture will continue to closely monitor the future economic conditions.
4. In financial year 2019-20, the tax laws were amended, providing an option to pay tax at 22% plus applicable surcharge and cess ("New Rate") effective April 1, 2019, with a condition that the Company will need to surrender specified deductions / incentives.
   Based on the assessment of future taxable profits, the Company decided to continue with the rate of 30% plus applicable surcharge and cess until the Minimum Alternate Tax (MAT) credit asset balance is utilised and opt for the New Rate thereafter. The Company re-measured its deferred tax balances accordingly.
5. The consolidated financial results include the results of the following entities namely, Subros Limited (Company) and Denso Subros Thermal Engineering Centre India Private Limited (Joint Venture).
6. Previous period figures have been regrouped / reclassified, wherever necessary, to make them comparable to the current period figures.

NOTICE – TRANSFER OF SHARES TO INVESTOR EDUCATION & PROTECTION FUND

NOTICE is hereby given to shareholders pursuant to the provisions of Section 124 of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('the Rules') amended from time to time, which amongst other matters contains provisions for transfer of all shares in respect of which dividend remains unclaimed by the Shareholders for seven consecutive years or more in the DEMAT account of Investor Education and Protection Fund (IEPF) Authority in the prescribed manner.

Hence all the underlying shares in respect of which dividend are not paid/ claimed for the last 7 years (with reference to 1st Interim Dividend for the year 2015-16 onwards), have to be transferred to DEMAT Account of IEPF as per the said rules.

Individual notices are being sent to the shareholders at the latest available addresses of the shareholders, whose dividends are lying unclaimed for last 7 (seven) years, advising them to claim the dividends by February 15, 2023. The Company has also uploaded full details of such shareholders including their names, folio nos. or DP ID/ Client ID, etc. on its websites i.e. www.kamaholdings.com.

In case the Company/ Registrar and Transfer agent doesn't receive any communication from shareholders, the Company will be compelled to transfer such shares to the Demat account of IEPF on due date. Shareholders may note that in case of transfer of physical shares the Company would issue new share certificate(s) and inform the depository to dematerialize the same to effect the transfer in favour of the IEPF DEMAT Account and for the shares held in Demat mode, it will be directly transferred to IEPF authority with the help of depository participants (DPs). No claim shall lie against the Company in respect of such shares.

Shareholders may note that both the unclaimed dividend and the shares transferred to IEPF Authority Account including all benefits accruing on such shares, if any, can be claimed back by them from IEPF Authority after following the procedure prescribed by the IEPF Rules.

In case of any claims or queries on the subject matter and the Rules, the shareholders may contact the Company's Registrar and Transfer Agents at M/s Kfin Technologies Limited, Selenium Tower B, Plot No. 31-32, Gachibowli, Financial District, Nanakramguda, Hyderabad – 500 032, Toll Free No.1800-309-4001; Email: einward.ris@kfintech.com or Company, KAMA Holdings Limited, Block C, Sector 45, Gurugram-122003, Haryana, Phone No. +91-124-4354782 Fax No.: +91-124- 4354500, Email: info@kamaholdings.com.

Revised Instruction for constitution and functioning of 'Local Committees to deal with Taxpayers' Grievances from High-Pitched Scrutiny Assessment'

CBDT has issued revised Instruction for Constitution and Functioning of Local Committees (LC) through F.No.225/101/2021-ITA-II, dated 23.04.2022 to deal with taxpayers' grievances arising out of high-pitched Scrutiny Assessment. The salient features are:

- LCs, comprising 3 members of Pr.CIT/CIT rank, have been constituted in each Pr. CCIT region, including the Pr. CCIT(Exemptions) and Pr. CCIT (International Taxation).
- Grievances, if any, relating to assessments completed under Faceless Assessment may be sent at e-mail id *samadhan.faceless.assessment@incometax.gov.in*. For non-faceless assessments, the same may be sent to the office of Pr. CCIT concerned, physically or through email.
- The grievances so received shall be forwarded to LC of the Pr. CCIT concerned, which shall acknowledge the same.
- After due examination, the LC shall submit a report, preferably within 2 months from the end of the month of receipt of grievance, treating the order as High-Pitched/Not High-Pitched, along with the reasons, to the Pr. CCIT concerned.
- The Instruction also provides for initiation of suitable administrative action against the officer concerned, in cases where assessments are found by the LC to be high-pitched or where there is non-observance of principles of natural justice, non-application of mind or gross negligence of Assessing Officer/Assessment Unit.

The complete Revised Instruction dated 23.04.2022 in F.No.225/101/2021-ITA-II is available at https://incometaxindia.gov.in/Lists/Latest%20News/Attachments/518/Instruction-225-101-2021.pdf

A mind that isn't fuelled by
someone else's thoughts.
Where actions are based on informed opinions
and not ignorant assumptions.

Because it's not about going where everyone goes.
Or being part of a trend because it is one.
